Commissions to agents, salaries, medical examiners' fees, printing, advertising, legal, real estate, and all other expenses of management.....	836,715 97
Taxes.....	336,490 98
Total expenditures.....	7,715,131 75
Balance, net assets, Jan. 1, 1897.....	\$60,981,871 61
Add interest due and accrued, market values of stocks and bonds over cost, and net deferred and uncollected premiums, as per itemized statement herewith.....	1,970,677 27
Gross assets Jan. 1, 1897.....	\$62,952,548 88
Total liabilities.....	55,799,051 84
Surplus January 1, 1897.....	\$7,153,297 04

##### INTEREST.

We received for interest and dividends, \$2,884,958 31; for rents, \$254,446 91. The dullness of the times made collections unusually slow. Yet the overdue interest on December 31, 1896, on nearly \$36,000,000 of mortgage loans was only \$150,466 71, about \$30,000 of which has since been received.

No new defaults have occurred on our bonds, the only case now in default being that of the \$100,000 of bonds of the Detroit Lansing & Northern Railroad, now in process of reorganization.

##### REAL ESTATE LOANS.

The amount of old loans paid off and of new loans made was much smaller than usual; a natural result of the conditions which made it harder to get money to pay with, and also made less use for borrowed money. Old loans were paid amounting to \$5,560,110 40; and new loans were made for \$5,202,279 87.

##### FORECLOSURES AND SALES.

Other results of the hard times were the prolonged inability of many to pay interest, compelling us to take under foreclosures properties costing \$1,233,028 08, and also a great deadness in the real estate market by reason of which comparatively few sales were made, amounting to \$124,325 33. There were a good many inquiries after property, but most of them were made in the hope that the pressure of the times might dispose us to offer at low prices. We are fortunately able to hold our property until usual conditions restore usual prices.

The advantage of being able to do this is well illustrated in our own history. Since 1879 the company has sold properties which it had then acquired under foreclosure at a cost of \$7,531,618 30. In an examination made that year, the Insurance Commissioner valued these properties at only \$6,445,773, an apparent loss of \$1,085,845 30. But we did not sell at those figures. We waited and sold as the market wanted it, for \$8,922,656 31, or \$1,391,038 01 more than the property cost and \$2,476,883 31 more than the Commissioner's valuation.

While some of our properties will not probably sell for as much as they cost, others will sell for more, and judging from past experience, we see no reason to apprehend any loss on this item as a whole.

##### BOND TRANSACTIONS AND HOLDINGS.

There were paid off or sold during the year municipal and railroad bonds which cost us \$864,633 30, and other bonds purchased at a cost of \$783,610 44. The market value of such securities is general was considerably less on December 31, 1896, than on December 31, 1895. The shrinkage on our holdings was, however, only two-thirds of 1 per cent. These holdings are for \$13,285,000 par value, costing \$13,606,034 97, and worth at the above date \$14,058,907 by an entirely conservative valuation.

##### PROFIT AND LOSS.

A small net loss of \$13,105 87 on some of the real estate sales and sundry items was offset by a net gain of \$63,246 62, mainly on transactions in bonds, leaving \$50,140 75 to the good.

##### MORTALITY.

We paid to the families and estates of deceased members during the year \$4,106,366 25. The value and timeliness of this great sum to its many recipients in their hour of need are the measure of our yearly service to the households of our country. Its helpfulness can be somewhat realized if one will but imagine that amount being constantly distributed among cases like some that will occur to any of us, and will think what it has meant to them, or would have meant to those who did not have it. It is an unmixt good, coming when the necessity for such help is greatest.

Our death losses were so far inside those expected and provided for that the savings therefrom were \$136,689.

It should be always borne in mind that it is not the amount of a company's death losses, nor their proportion to its amount at risk, nor to its income or its assets, which are significant of their effect upon it

property, present or future. The older its business, the longer it has been in force, the greater the average age of its members, the greater will be the proportion of deaths and the volume of losses. The question will be not only what losses have occurred but what were expected. What losses were anticipated when the premiums and reserves to meet them were computed? Are the actual losses inside or outside that expectation? That is the only pertinent question in the matter.

#### EXPENSES.

The ratio of expenses to income in 1896 was 10.55 per cent; an increase over the usual average of about one-half of 1 per cent. This was due to no increase in the cost of getting business or in any general expense, but solely to the increased cost of repairs to real estate taken under foreclosure, and necessary to put it in proper order, and to rightly protect our property. The same careful and systematic economy which always distinguishes this company has been rigidly maintained.

#### NEW BUSINESS.

In consequence of the unbroken business depression of 1896, and especially during the months of the political campaign, and because we spent no money trying to overcome these obstacles, we wrote about 10 per cent less new business in 1896 than in 1895. The renewals of old business were so well kept up, however, that we lost during the year on the whole amount in force only \$619,430.

We believe the persistency of the old business of the Connecticut Mutual is quite unique. It is an element of great strength and of cheapness as well. It costs far less to take such care of old business as to keep it, than to get new to replace it. And we are fortunately not in the position of those companies whose heavy expenses can be met and whose extravagant representations of "postponed or accumulated dividends," to be paid fifteen or twenty years hence, can be fulfilled only by the proceeds of heavy forfeitures of old business every year.

#### DIVIDENDS.

The dividend paid on each policy in 1896 was larger than the corresponding one for 1895. There will be a similar increase in dividends and consequent decrease in the cost of insurance on policies renewed in 1897.

#### SURPLUS.

We call attention to those items from which it is possible to derive a surplus, and to the manner in which they have been applied during the year, with a preliminary word of explanation.

We agree to pay certain sums on the occurrence of a certain event. To do this we must have premiums large enough to pay running expenses, the current death claims, and provide a reserve for the greater mortality that will come with the increasing age of the business. We can earn interest on that reserve while we hold it. So we assume a maximum death rate, a maximum expense rate and a minimum rate of interest, and calculate our premiums and the reserve to be laid aside out of them on those three assumptions. If the death losses and expenses are less than we assumed, we save the difference from the premium; if the interest is more, we save that also. There are sundry other incidental items. Here is an exhibit of the operations of these several factors in the Connecticut Mutual in 1896:

Part of premium provided for expenses, etc.	\$957,256
Interest and rents in excess of rate assumed	1,060,722
Balance, profit and loss	50,111
Saved from expected death losses	436,639
Saved from reserve on surrendered policies	129,759
Sundries	25,437

Total ..... \$2,660,004

This total of items applicable to expenses, dividends, &c., has been applied as follows:

Expenses of management	\$836,716
Taxes	336,491
Decrease in market value of bonds and stocks	92,556

\$1,265,763

Dividends paid	\$1,273,659
Additions to accumulated dividends	62,511
Increase in surplus	57,911

1,394,241

\$2,660,004

The only item in this exhibit which does not explain itself is probably the saving from the reserve on policies surrendered or not renewed—\$129,759. This grows out of lapsed and surrendered policies (less those reinstated) for \$5,860,703, the reserve upon which was \$961,577, of which amount \$331,818, or about 37 per cent, was returned to the policy-holders in paid-up insurance, cash or otherwise, leaving the saving mentioned \$129,759. This saving covers some policies which had not been in force long enough to have a value; but it is principally made up of a small necessary charge made upon each surrendered policy to help in replacing the business so lost, to cover the cost of the change, and to protect the company against the impaired vitality caused by the voluntary withdrawal of sound lives.

Let it be noted that were we doing a tontine or speculative "investment" business, the whole \$961,577 of reserve and all the surplus it had accumulated would have gone into the "pool."

A similar exhibit of the items available for expenses, &c., and their application for, say, the last fifteen years, will be interesting in this connection.

Part of prem. provided for expenses, etc.	\$11,704,248
Int. and rents in excess of rate assumed	14,498,567
Balance, profit and loss	809,716
Saved from expected death losses	6,861,729
Saved from reserve on surrenders, etc.	1,238,635
Inc. in market values of bonds and stocks	1,604
Sundries	71,018

\$38,188,547

This has been applied as follows:	
Expenses of management	\$11,085,600
Taxes	4,756,826

\$15,842,426

Dividends paid	\$18,039,965
Increase in accumulated dividends	540,431
Increase in surplus	3,705,725

22,346,121

\$38,188,547

Here, again, the only item needing explanation is the saving of \$1,238,635 in the fifteen years on lapsed and surrendered policies. These amounted to \$76,956,220; the reserve on these was \$11,337,131, of which amount \$10,098,406, or about 89 per cent, was returned to policy holders in paid-up insurance,

cash and otherwise. Were ours a tontine business, the whole \$11,337,131, and all the surplus accumulated by it, would have gone into the "pool" for the lucky ones to divide—or so much as was not eaten up by the expenses of pushing for new blood.

Similar exhibits by the great group of companies doing that sort of business would be very interesting. They would mark, as nothing else ever can, the precise character, the enormous magnitude, and the startling significance of the gambling in life insurance carried on for the last twenty-five years or more, and now involving, annually, policies to the amount of many hundred million dollars; policies which ought to be sacred to the protection of the families whom they do not guard; which are not taken to guard the family but with intent to share in what others are to lose.

Moreover, such exhibits by these companies would show those people who have lapsed and forfeited these policies and the surplus already accrued on them where their money goes; and would show those who have won in the speculation where their money has come from, and would show them also why their speculation hasn't turned out half as big as the estimates by which they were led into it.

#### EXCESS OF STRENGTH ABOVE LEGAL STANDARD.

Whoever has occasion to observe the statements of this company, as published by the several State Insurance Department reports, will notice that they credit us with a much larger surplus than we credit ourselves with. For instance, their reports last year showed us as having nearly \$1,300,000 more surplus than our own figures. This year the difference will be something still larger. The cause of our own more conservative showing is this:

The State departments compute our liabilities on the assumption that we will earn 4 per cent compound interest on our reserves throughout the longest possible duration of any of our policies, say seventy years or more. On all policies written since April, 1892, we compute our liability on the assumption that we may earn only 3 per cent. For the long periods our contracts are written to cover we do not think it entirely prudent to assume more. This requires us to carry a larger reserve than the 4 per cent assumption which is the legal standard of solvency.

#### CONSOLIDATED STATEMENT.

From its organization to Jan. 1, 1897, the company received:

For premiums	\$192,111,805 65
For interest	76,438,281 19
For rents	7,059,292 87
Bal., profit and loss	1,035,219 59

Total receipts ..... \$276,644,599 30

It has paid—	
Death claims for	\$39,115,154 07
Endowments for	13,568,462 30
For surrendered policies	23,803,729 92
For dividends	55,966,763 64

A total returned to policy holders or their beneficiaries, being 94.97 per cent of the entire premiums received, \$182,454,109 93

It has paid for—	
Expenses	24,316,102 41
Taxes	8,892,715 35

Total expenditures ..... 215,662,927 69

Balance net assets, Jan. 1, 1897	\$90,981,671 61
It has additional assets (see statement)	1,970,677 27

Total assets ..... \$92,952,348 88

That is, the amounts returned to policy holders and their beneficiaries (\$182,454,109 93) and the balance of income after all expenditures (\$90,981,671 61), aggregating \$243,435,781 54, are 126.72 per cent of the entire amount received from policy holders. This has been done at an expense of management of 8.79 per cent of the income. Both in what has been done for the policy holders and in the economy of management—that is, in the low cost of the great protection given—these results are equaled by no American company.

It has been with a clear perception and deep sense of the absolute necessity to the home life on which our civilization rests and is being built, of simple, straightforward, reliable, and absolute protection to the family that the Connecticut Mutual has adhered to the plain, uncomplicated, non-speculative ideals of life insurance plan and method which give that protection most perfectly and at least cost, avoiding those schemes which have indeed gained a great following by offering a speculation in that professed protection.

It is with a deep thankfulness we offer the results of our adherence to the right, if simple, ideal, to scientific truth, and to true business method.

JACOB L. GREENE, President.

HARTFORD, Feb. 13, 1897.

—Attention is called to the offering of \$3,000,000 New England Railroad 5 per cent gold bonds by Messrs. Kidder, Peabody & Co., R L Day & Co. and Estabrook & Co., of Boston. The bonds are guaranteed by the New York New Haven & Hartford by endorsement on each bond.

—Twenty-five thousand dollars Central RR. of New Jersey six per cent debentures, due 1908, are offered by Messrs. Redmond, Kerr & Co., to yield 4½ per cent. Their advertisement recites certain convertible features and gives other details relating to this issue.

—Notice is given that the United States Mortgage & Trust Co. has been appointed transfer agent of the stock and registrar of the bonds of the Long Island Railroad Co., where stock and bonds should be presented hereafter for transfer or registration.

—The list of coupons and dividends payable at the office of the Farmers' Loan & Trust Co. on and after March 1 will be found in our advertising department.

—Hocking Valley issues and all other inactive railroad securities are dealt in by F. J. Laman, 30 Broad Street. See his advertisement for details.

—Messrs. N. W. Harris & Co. will pay dividends on a number of securities, a list of which will be found in another column.

## The Commercial Times.

## COMMERCIAL EPITOME

FRIDAY NIGHT, Feb. 26, 1897.

The observance of Washington's Birthday on Monday did not materially interfere with business during the past week. The continued favorable weather conditions have acted as an impetus in a number of lines of trade, and business generally has shown a tendency to improve. With few exceptions values have held their own, and in some instances slightly higher bases have been established. Developments in the European political situation have not been of a nature to excite serious apprehension over the outcome of the present Cretan disturbances. During the latter part of the week the action of the Senate in giving its attention to the further discussion of questions relating to Cuban affairs had an unfavorable influence both in financial and commercial circles.

Lard on the spot has sold slowly. The home trade has been a light buyer and the export demand has been flat; prices, however, have improved slightly with futures, and the close was steady at 4-22½c. for prime Western, 3-95c. for prime City and 4-45c. for refined for the Continent. There was no trading in the local market for lard futures. At the West there has been a fairly active market. There has been buying for speculative account, stimulated by a decreased movement of swine; prices have advanced slightly, closing steady.

## DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May.....	c. 430	....	430	440	437	440

The demand for pork has been quiet but prices have been unchanged and steady, closing at \$8 25@8 75 for mess, \$8 50@ \$10 for short clear and \$9 50@ \$10 for family. Cut meats have been firmly held but demand has been quiet, closing at 4½c. for pickled bellies, 12@10 lbs. average, 5c. for pickled shoulders and 8¼c. for pickled hams. Beef has been quiet and without change at \$7@8 for mess, \$7 50@8 for packet, \$9 @ \$11 for family and \$13@14 for extra India mess. Beef hams have been quiet at \$18@18 50. Tallow has had a fairly quick sale, principally to the home trade, and the close was firm at 3½c. bid and 3¾c. asked. Oleo-stearine has been in better demand and firmer, closing at 41-16@41½c. Lard stearine has been steady at 4½c. Cotton-seed oil has had only a limited sale, but values have held steady, closing at 20@20½c. for prime crude and 23½@24c. for prime yellow. The fancy grades of butter have had a moderate call at steady prices, closing at 13@10c. for creamery. Cheese has been in fair demand and firm at 9@12½c. for State factory, full cream. Fresh eggs have been in fair request, but prices have weakened slightly, closing at 17c. for choice Western.

Brazil growths of coffee have been quiet, but prices have held steady, closing at 9½c. for Rio No. 7. The East India growths of the mild grades have been in active demand and prices have advanced, closing at 24@25c. for standard Java and 16½c. for good Cucuta. There has been increased activity to the trading in the market for contracts, and on moderate buying by local operators prices have advanced slightly. The close was steady. Following were the final asking prices:

Feb.....	9-20c.	May.....	9-20c.	Aug.....	9-20c.
March.....	9-15c.	June.....	9-25c.	Sept.....	9-30c.
April.....	9-20c.	July.....	9-25c.	Dec.....	9-30c.

Raw sugars have had only a limited sale, as refiners, owing to weaker foreign advices, have been holding back, prices, however, have been fairly well maintained, closing at 3½c. for centrifugals, 96 deg. test., and 2-13-10c. for muscovado, 89-deg. test. Refined sugars have been quiet and the soft grades have been lowered 1-16@1½c.; granulated has been unchanged, closing at 4½c. Teas have been quiet but steady. Spices have been in fair demand and firm.

There has been a demand for the better grades of Kentucky tobacco, but owing to light supplies the sales made have been small; prices have been firm. Seed leaf tobacco has been in active demand at outside prices. Sales for the week were 7,650 cases, as follows: 1,500 cases 1893 crop, Wisconsin Havana, 8@9½c.; 450 cases 1894 crop, Wisconsin Havana, 7@9c.; 775 cases 1895 crop, Wisconsin Havana, 7@10c.; 1,200 cases 1895 crop, Pennsylvania Havana, 10½@12c.; 800 cases 1895 crop, Pennsylvania seed leaf, 10@11c.; 425 cases 1894 crop, Pennsylvania Havana, 11@12½c.; 400 cases 1894 crop, Pennsylvania seed, 9½@10½c.; 300 cases 1895 crop, New England Havana, 13@20c.; 200 cases 1892 crop, Pennsylvania Havana, 12@13½c.; 600 cases 1893 crop, Pennsylvania Havana, 12½@13½c., &c.; also 1,100 bales Havana at 65c. to \$1 20 in bond and 275 bales Sumatra at 70c. to \$1 75 in bond.

There has been a quiet market for Straits tin but prices have advanced on foreign advices, closing firm at 13 80@13 90c. Ingot copper has had only a limited call, but prices have been maintained, closing steady at 12c. for Lake. Lead has further advanced and the close was firm at 3-32½@3-37½c. for domestic. Spelter has also advanced and closed at 4-05@4-10c. for domestic. Pig iron has had a better sale and the close was firm at \$10 50@12 50 for domestic.

Refined petroleum has been steady, closing at 6-30c. in bbls., 3-80c. in bulk and 7c. in cases; naphtha dull at 6½c. Crude certificates have been neglected. Credit balances have been steady at 91c. Spirits turpentine closed fairly active and higher at 29@29½c. bid. Resin has been dull and unchanged at \$1 70 for common and good strained. Wool has continued in fair demand and firm. Hops have been quiet and barely steady.

## COTTON.

FRIDAY NIGHT, February 26, 1897.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 34,395 bales, against 84,934 bales last week and 119,423 bales the previous week, making the total receipts since the 1st of Sept., 1896, 5,340,209 bales, against 4,460,311 bales for the same period of 1895-6, showing an increase since Sep. 1, 1896, of 1,479,993 bales.

Receipts at—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.	Total.

Speculation in cotton for future delivery has been moderately active, and owing to the fact that the liquidation of the long interest in March contracts has been completed there has been a gradual improvement in values. Saturday there was an advance of 3 to 7 points in quotations, as foreign prices came better than expected and were accompanied by a few buying orders, which stimulated some buying for local account. Monday, Washington's Birthday, was a holiday. The opening prices of the market on Tuesday showed a slight advance in response to foreign advices. Subsequently, however, there was a reaction, as full receipts prompted some selling, but towards the close reports of an export demand for spot cotton here and at the South stimulated a demand from shorts to cover contracts and prices again improved. Wednesday the market was slightly weaker during early 'Change under the free issuing of March notices amounting in all to about 30,000 bales, but as they were well taken care of the market rallied later in the day and the distant months closed at a slight advance. Thursday the market was stronger. Foreign advices were of an encouraging nature, the crop movement was small, and reports from the Southern markets were stronger, all of which stimulated buying, and prices closed at an advance of 10@12 points for the day. To-day the market opened 3@6 points higher and further advanced 2@3 points on strong foreign advices and reports from the Southern markets advising a good demand for spot cotton. Subsequently there was a reaction of 5@7 points under realizing sales, but towards the close dispatches from New Orleans stating that the supply of cotton that had come into sight for the week had been small stimulated buying and prices again advanced, closing steady at an advance of 1@7 points for the day. Cotton on the spot has been in fair demand for export, and Thursday prices advanced 1/8c. To-day the market was 1-16c. higher, middling uplands closing at 7 5/16c.

The total sales for forward delivery for the week are 605,100 bales. For immediate delivery the total sales foot up this week 10,440 bales, including 8,116 for export, 2,224 for consumption, — for speculation and 100 on contract. The following are the official quotations for each day of the past week—February 20 to February 26.

Rates on and off middling, as established Nov. 22, 1893, and revised Dec. 11, 1895, by the Revision Committee at which grades other than middling may be delivered on contract:

Fair.....	0.1 1/4	on.	Good Ordinary.....	1	off.
Middling Fair.....	7/8	on.	Good Middling Tinged.....	Even.	
Strict Good Middling.....	1 1/8	on.	Strict Middling Stained.....	7/32	off.
Good Middling.....	5/16	on.	Middling Stained.....	3/32	off.
Strict Low Middling.....	3/16	off.	Strict Low Mid. Stained.....	23/32	off.
Low Middling.....	3/8	off.	Low Middling Stained.....	1 1/4	off.
Strict Good Ordinary.....	1 1/16	off.			

On this basis the prices for a few of the grades would be as follows.

The imports into Continental ports the past week have been 83,000 bales.

The above figures indicate an increase in the cotton in sight to-night of 39,244 bales as compared with the same date of 1896, a falling off of 971,397 bales from the corresponding date of 1895 and a decrease of 570,938 bales from 1894.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1895-96—is set out in detail below.

and farmers are ready to begin planting cotton over southern portion of State. Land is in good condition except in some localities where good rain is needed. We have had rain on two days during the week, the precipitation reaching eight hundredths of an inch. The thermometer has ranged from 49 to 73, averaging 61.

**Palestine, Texas.**—We have had light rain on one day during the past week, the rainfall being five hundredths of an inch. Average thermometer 59, highest 80 and lowest 38.

**Huntsville, Texas.**—There has been light rain on one day of the week, the rainfall reaching five hundredths of an inch. The thermometer has averaged 60, the highest being 80 and the lowest 40.

**Dallas, Texas.**—There has been but a trace of rain during the week. Rain would be beneficial. The thermometer has averaged 58, ranging from 32 to 85.

**San Antonio, Texas.**—The weather the past week has favored farm work. There has been but a trace of rain. The thermometer has ranged from 42 to 80, averaging 61.

**Luling, Texas.**—Farm work is well advanced, but a good rain is badly needed. Rain has fallen lightly on one day of the week, the rainfall reaching six hundredths of an inch. Average thermometer 64, highest 83, lowest 46.

**Columbia, Texas.**—We have had only a trace of rain during the week. The thermometer has averaged 67, the highest being 82 and the lowest 52.

**Oneco, Texas.**—There has been light rain on one day the past week, with rainfall of five hundredths of an inch. The thermometer has averaged 66, ranging from 59 to 82.

**Brenham, Texas.**—We have had one shower during the week, the precipitation reaching two hundredths of an inch. The thermometer has ranged from 45 to 80, averaging 64.

**Fort Worth, Texas.**—We have had only a trace of rain during the week. The thermometer has averaged 58, the highest being 83 and the lowest 32.

**Weatherford, Texas.**—There has been only a trace of rain the past week. The thermometer has averaged 58, ranging from 33 to 84.

**New Orleans, Louisiana.**—We have had rain on two days of the week, the rainfall being thirty hundredths of an inch. The thermometer has averaged 66.

**Shreveport, Louisiana.**—There has been rain on two days of the past week, the precipitation reaching four hundredths of an inch. Average thermometer 60, highest 79 and lowest 40.

**Columbus, Mississippi.**—We have had rain on three days of the week. The thermometer has averaged 52, the highest being 78 and the lowest 33.

**Leland, Mississippi.**—Telegram not received.

**Vicksburg, Mississippi.**—Rain has fallen on two days of the week, the rainfall reaching forty-two hundredths of an inch. The thermometer has ranged from 40 to 77, averaging 60.

**Little Rock, Arkansas.**—It has rained on two days of the week, the rainfall reaching ten hundredths of an inch. The thermometer has averaged 53, ranging from 44 to 63.

**Helena, Arkansas.**—Farmers are rushing their work; some are preparing for an increase in cotton area, but others will devote less ground to the staple than last year. There has been light rain on two days of the week, the precipitation being twenty-one hundredths of an inch. It is raining today. The thermometer has ranged from 3 to 74, averaging 52.

**Memphis, Tennessee.**—The river is eight and eight-tenths feet below the danger line, and rising. Rain has fallen on two days of the week, to the extent of forty hundredths of an inch. Average thermometer 53, highest 76 and lowest 32.4.

**Nashville, Tennessee.**—There has been rain during the week to the extent of one inch and thirty-two hundredths. The thermometer has averaged 52, the highest being 76 and the lowest 29.

**Mobile, Alabama.**—There has been rain on four days of the week, the rainfall reaching ninety-eight hundredths of an inch. The thermometer has averaged 62, the highest being 76 and the lowest 43.

**Montgomery, Alabama.**—We have had rain on six days of the week, the precipitation reaching eighty-one hundredths of an inch, but now the weather is cool and dry. The thermometer has averaged 62, ranging from 56 to 68.

**Madison, Florida.**—Rain has fallen on five days of the week, to the extent of five inches and ten hundredths. Average thermometer 64, highest 74 and lowest 51.

**Augusta, Georgia.**—We have had rain on four days of the week, the precipitation being two inches and sixty-seven hundredths. The thermometer has averaged 57, the highest being 75 and the lowest 42.

**Savannah, Georgia.**—It has rained on four days of the week, to the extent of two inches and eighty-two hundredths. The thermometer has ranged from 49 to 81, averaging 63.

**Charleston, South Carolina.**—There has been rain on three days during the week, to the extent of two inches and sixteen hundredths. The thermometer has averaged 59, the highest being 72 and the lowest 47.

**Stateburg, South Carolina.**—It has been cloudy all the week, with rain on five days, the precipitation being three inches and thirty-five hundredths. Low grounds are flooded. The thermometer has averaged 53.3, ranging from 39 to 78.

**Greenwood, South Carolina.**—There has been rain on four days of the week, the precipitation being one inch and sixty-six hundredths. The thermometer has ranged from 45 to 63, averaging 54.

**Wilson, North Carolina.**—Rain has fallen on two days of the week, to the extent of two inches and fifteen hundredths. Average thermometer 54, highest 78, lowest 40.

The following statement we have also received by telegraph,

showing the height of the rivers at the points named at 8 o'clock February 25, 1897, and February 27, 1896.

	Feb. 25, '97.	Feb. 27, '96.
New Orleans.....	Above zero of gauge. 11.0	12.5
Memphis.....	Above zero of gauge. 23.8	18.9

<b>SAN FRANCISCO—To Japan,</b> per steamer City of Peking, 2,150..	
Total .....	101,945

Below we add the clearances this week of vessels carrying cotton from United States ports, bringing our data down to the latest dates:

**GALVESTON**—To Liverpool—Feb. 19—Steamer Eden Hall, 7,200.  
To Manchester—Feb. 19—Steamer Chandelboye, 3,746.  
To Havre—Feb. 23—Steamer Liv, 4,346.  
To Bremen—Feb. 19—Steamers Netherby Hall, 9,300; Tripoli, 4,356  
... Feb. 24—Steamer Deramore, 4,114.  
To Hamburg—Feb. 22—Steamer Hibernia, 227 ... Feb. 23—Steamer  
Woodleigh, 824.  
To Copenhagen—Feb. 20—Steamer Highlander, 900.  
**NEW ORLEANS**—To Liverpool—Feb. 20—Steamers Gaditano, 2,000;  
Moza t, 1,250.  
To Manchester—Feb. 20—Steamer Velleda, 3,811.  
To Havre—Feb. 24—Steamer Milwaukee, 18,685.  
To Barcelona—Feb. 19—Steamers Conde Wilfredo, 923 Juan  
Forgas, 2,100.  
To Genoa—Feb. 19—Steamers Conde Wilfredo, 2,850; Juan Forgas,  
2,475.  
**MOBILE**—To Liverpool—Feb. 23—Steamer Selma, 6,163.  
To Bremen—Feb. 19—Steamer Unionist, 4,077.  
**SAVANNAH**—To Bremen—Feb. 20—Steamer Elfrida, 5,701.  
**BOSTON**—To Liverpool—Feb. 20—Steamer Southampton, 2,975.  
**NORFOLK**—To Hamburg—Feb. 24—Steamer Benedict, 50.  
**BOSTON**—To Liverpool—Feb. 18—Steamer Ottoman, 480 Sea Island ...  
Feb. 19—Steamer Coriatha, 979 ... Feb. 23—Steamer Cambro-  
man, 561.  
**BALTIMORE**—To Liverpool—Feb. 20—Steamer Vedamore, 2,120.  
**PHILADELPHIA**—To Antwerp—Feb. 24—Steamer Switzerland, 100.  
**SAN FRANCISCO**—To Japan—Feb. 23—Steamer Doria, 3,450.

**BREADSTUFFS.**

FRIDAY, February 26, 1897.

There has been some irregularity to the market for wheat flour. The demand for trade brands has been slow and values have been lowered about 10c. per bbl. The low grades, however, both of spring and winter, have received increased attention from shippers, and as stocks have been small sales made have been at full values. City mills have been quiet but steady. The demand for rye flour has been quiet, but prices have held steady. Buckwheat flour has sold slowly, but prices have advanced, in sympathy with a higher market for the grain. Corn meal has had a moderate sale, but at a further decline of 5c. per bbl. in price. To-day the market for wheat flour was dull and unchanged.

There has been only a moderate speculation in the market for wheat futures, and prices for the week show a loss of about 2c. per bushel. Immediately following our last report prices advanced about  $\frac{1}{2}$ c. per bushel, principally on a demand from shorts to cover contracts. Monday was a holiday. Tuesday, however, the market turned weaker, and during the remainder of the week prices gradually declined under quiet and easier foreign advices, together with the slowness of the export demand, which prompted selling. Towards the close of 'Change yesterday, however, reports from the Southwest reported the conditions of the growing crop less favorable; this stimulated a demand from shorts to cover contracts and prices advanced slightly. To-day the market was moderately active. There was renewed selling prompted by quiet and easier foreign advices and prices declined  $\frac{1}{2}$ @ $\frac{3}{8}$ c. In the spot market only a limited amount of business was transacted, as shippers were slow buyers. To-day the sales included No. 1 Northern at 84 $\frac{3}{8}$ c. f. o. b. float, prompt delivery, and 84 $\frac{3}{8}$ c. f. o. b. from store for delivery end of March. No. 2 red winter and No. 1 hard Duluth were quoted at 88 $\frac{3}{8}$ c. f. o. b. float.

**DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.**

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
February delivery.....0.	84	82½	80½	81½	80½	80½
March delivery.....0.	84½	82½	81½	81½	80½	80½
April delivery.....0.	82½	81½	80½	80½	80½	80½
May delivery.....0.	82½	81	79½	80½	79½	79½
June delivery.....0.	81½	80½	79½	80	79½	79½
July delivery.....0.	80½	78½	78½	78½	78½	78½
September delivery.....e	77½	76½	75½	76½	75½	75½

There has continued a quiet market for Indian corn futures and prices have gradually weakened in sympathy with the easier market for wheat and in response to slow foreign advices. A subsidence of the export demand has also been a depressing factor, although there has been a material falling

off in the crop movement the past few days. In the spot market demand was dull during the week. To-day, however, a fair export business was transacted. The sales were principally so called No. 2 mixed at 23½¢, 23½¢, f. o. b. all at for prompt shipment and 23½¢, 23½¢, f. o. b. all at for delivery in April. No. 2 mixed was quoted at 23½¢, in elevator and No. 3 mixed sold at 26½¢, in elevator.

#### DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
February.....	29½	29½	29½	29½	29½	29½
May delivery.....	30½	30½	30½	30½	30½	30½
July delivery.....	31½	31½	31½	31½	31½	31½

Oats for future delivery have been dull and prices have fluctuated within the narrowest limits, the net changes for the week being ½¢. In the spot market a limited amount of business has been transacted with the home trade, but the export demand has been light; prices have shown no important changes, closing at 21½¢, for No. 2 mixed in elevator and 23½¢, for No. 2 white in elevator.

#### DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
February delivery.....	21½	21½	21½	21½	21½	21½
May delivery.....	21½	21½	21½	21½	21½	21½
July delivery.....	22½	22½	22½	22½	22½	22½

Demand for rye has been quiet, and under free offerings prices have weakened slightly. Barley has been quiet but about steady.

The following are closing quotations:

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., Feb. 26, 1897.

An unfavorable feature of the week's situation is the failure of the print cloth market to fully hold what it gained two weeks ago, as a result of the exceptional business then done. Last week and this the demand has been distinctly poor and within the past two or three days prices have shown an unmistakable tendency to favor buyers. This has been no encouragement to buyers in the primary market here to abandon their conservative policy and there has been but little business reported in staple lines of cotton goods or fancies beyond what has been dictated by absolute requirements. In view of this it is reassuring to find that, despite the holiday break on Monday, the week's aggregate business shows an improvement in volume in the primary market and a very solid gain with jobbers. It is evident that general distribution is on an expanding scale, and prospects are good for a sustained demand, bridging over usually very inactive months. There has been no greater strength in cottons than of late, the market being too well supplied with general lines of merchandise to admit of sufficient reserve on the part of sellers to influence values. In the woolen goods division good progress has again been made with men's wear fabrics, more attention being given to finer grades than before.

**DOMESTIC COTTON GOODS**—The exports of cotton goods from this port for the week ending Feb. 23 were 5,517 packages, valued at \$232,433, their destination being to the points specified in the tables below:

NEW YORK TO FEB. 23.	1897.		1896.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	240	603	254	
Other European.....	20	81	1,001	
China.....	2,101	17,695	50	11,101
India.....		574	110	2,086
Arabia.....	1,564	4,121	1,171	1,571
Africa.....	580	1,761	136	2,157

Total.....	5,517	39,894	3,006	30,757
China, via Vancouver.....		7,950		2,532
Total.....	5,517	47,844	3,006	33,289

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$1,621,655 in 1897 against \$1,425,412 in 1896.

The home demand for brown sheetings and drills has again been confined to limited quantities for quick delivery, and there has been but a restricted business on export account. Heavy weights are fairly steady, but there is an easy market in sheetings for 4 yards and lighter. Brown ducks and oxburys are quiet and easy to buy. The demand for denims from the cutting-up trades has been more general, but small

lots only are in request, and the market is still easy. Other coarse, colored cottons are quiet, with ready sellers. The better grades of bleached cottons have sold steadily in moderate quantities at previous prices, but low grades, such as 64 squares, have weakened somewhat. Wide sheetings have been dull at unchanged prices. Cotton flannels and blankets are beginning to attract attention for new season. Kid-finished cambrics and other cotton linings have sold rather more freely without change in prices. There has been a steady business of fair proportions in fancy prints and finer specialties at steady prices. Regular prints have ruled quiet. Dress gingham in fine grades are reordered rather more freely, but low grades and samples are dull and featureless. Print cloths have ruled inactive all week and close with a downward tendency, 64 squares being little better than nominal at 2½¢.

Stock of Print Cloths—	1897.	1896.	1895.	1894.
At Providence, 64 squares.....	423,000	205,000	94,000	178,000
At Fall River, 64 squares.....		431,000	31,000	289,000
At Fall River, odd sizes.....		385,000	94,000	57,000

Total stock (pieces)..... 1,071,000 219,000 525,000

\* By agreement among the cloth brokers, hereafter no detailed statement of the print cloth market will be given.

**WOOLEN GOODS.**—There has again been a good attendance of buyers in the market this week, and business in men's wear heavy-weight woolen and worsted fabrics has made satisfactory progress. The finest grades have now been opened and have attracted attention in some measure from lower qualities, to which business has been so largely confined, but still cheap goods retain the best part of the current demand. In all-wool fancy goods in chevrons and cassimeres selling at 70c, and under some agents have secured all the orders they care to take at present for their season's production and prices on these rule generally steady. On fine goods prices have opened at about last season's level. Plain staple lines are quiet and without special feature. Satinets are quiet and cotton-warp fabrics irregular. Business in overcoatings is fair and more doing in cloakings. Plain and fancy dress goods in fair re-order request for spring and orders for fall more numerous. Flannels and blankets are in fair demand without change in prices.

**FOREIGN DRY GOODS.**—With the market well attended from day to day there has been a considerable amount of business done in seasonable goods in all departments, particularly with jobbers, and current supplies are fairly well taken care of. Dress goods and men's wear fabrics for fall are attracting more attraction, some fair orders being reported. Sellers accept these with a clause protecting themselves against probable tariff changes.

#### IMPORTATIONS AND WAREHOUSE WITHDRAWALS OF DRY GOODS.

The importations and warehouse withdrawals of dry goods at this port for the week ending February 25, 1897, and since January 1, 1897, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1897 AND 1896.

## STATE AND CITY DEPARTMENT.

### TERMS OF SUBSCRIPTION.

THE INVESTORS' SUPPLEMENT will be furnished *without extra charge* to every annual subscriber of the **COMMERCIAL AND FINANCIAL CHRONICLE**.

THE STATE AND CITY SUPPLEMENT will also be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

THE STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

THE QUOTATION SUPPLEMENT, issued monthly, will also be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

TERMS for the **CHRONICLE** with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

### Terms of Advertising.—Per inch space.)

One time.....	\$3 50	Thr Months (13 times)...	\$25 00
One Month.....	11 00	Six months (26 times)...	43 00
Two Months.....	18 00	Twelve Months (52 times)...	58 00

The above terms for one month and upward are for standing cards.

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the **STATE AND CITY SUPPLEMENT**. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the **STATE AND CITY SUPPLEMENT** to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

**Bond Proposals and Negotiations.**—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

**Arkansas.**—*Bond News.*—A bill has been introduced in the State Legislature providing for a compromise and settlement of certain claims of the United States against this State.

In 1836 the United States purchased \$538,000 of 6 per cent thirty-year State of Arkansas bonds and withheld, to pay the interest on these securities, the proceeds derived from the sale of public lands in the State. All of these funds have not been applied to the payment of the interest as it accrued. The bill provides that the United States shall surrender to the State all but \$160,000 of the bonds and that the State shall in turn relinquish all claims to its proportion of the various amounts derived by the United States from the sale of these public lands.

**Arverne-by-the-Sea, N. Y.**—*Bonds Proposed.*—A petition has been submitted to the board of trustees of this village asking for an election to vote on a proposition to issue bonds to an amount not to exceed \$75,000, the proceeds of which will be applied to the improvement of various streets and avenues of the village.

**Atlantic County, N. J.**—*Bond Sale.*—On February 23, 1897, the Finance Committee of the Atlantic County Board of Freeholders awarded the \$23,000 of county road bonds to Benwell & Everitt, of New York City, at a premium of \$230. The securities bear interest at the rate of  $4\frac{1}{2}$  per cent, and the principal will mature at the rate of \$2,500 each year from 1898 to 1906, inclusive, the remaining \$500 being payable in 1907.

**Bancroft, Neb.**—*Bond Offering.*—Proposals will be received until 12 o'clock noon, March 15, 1897, by J. J. Elkin, Village Clerk, for the purchase of \$5,000 of 6 per cent water bonds of this village. The securities are dated August 1, 1896, and will mature in twenty years from date of issue, being subject to call after August 1, 1901. The bonds will be of the denomination of \$500 each, and both principal and interest will be payable at the Fiscal Agency of the State of Nebraska in New York City.

**Brewton, Ala.**—*Bonds Proposed.*—A petition has been introduced in the State Legislature asking permission for the citizens of this municipality to vote on a proposition to issue \$25,000 of water-works bonds.

**Camden, N. J.**—*Bond Sale.*—On February 24, 1897, the bids for the \$400,000 of 4 per cent water-works bonds of this were opened and were found to be as follows: The New York

Security & Trust Company offered a premium of \$1,200 for the entire issue; Dietz, Denison & Prior, of Boston, par, less 2 per cent commission, and E. H. Rollins & Sons, of Boston, a premium of \$21,050, provided the rate of interest be increased to  $4\frac{1}{2}$  per cent. None of the bids were accepted and the sale was postponed. At a later date the bonds were awarded to the New York Security & Trust Co. at a premium of \$1,611.

*Bond News.*—E. D. Sheppard & Co., of Boston, who were recently awarded \$25,000 of refunding bonds of this city at 102, have notified the Finance Committee that they will not accept the bonds on the ground that they were illegally issued.

**Charleston, W. Va.**—*Bonds Authorized.*—It is reported that bonds of this city for the construction of a bridge have been authorized.

**Chelsea, Mass.**—*Temporary Loan.*—The Boston News Bureau reports that this city has placed a loan of \$130,000 for one year at 3 per cent.

**Cincinnati, Ohio.**—*Bond Offering.*—Proposals will be received until 2:30 P. M. March 29, 1897, by the Trustees of the Sinking Fund for the purchase of \$3,654,000 of 3-65 per cent refunding bonds of this city. The securities will be dated Feb. 1, 1897, interest will be payable semi-annually on the first days of February and August in New York City, and the principal will mature in forty years from date of issue. The loan will be in the form of coupon bonds of the denomination of \$100, \$500 or \$1,000, or registered bonds of \$1,000, or a multiple thereof, as the purchaser may desire, and both principal and interest will be payable in gold.

Each bid must provide for the payment of accrued interest to date of delivery and be accompanied by a certified check on some bank or trust company of Cincinnati, New York or Boston, payable to the order of the Trustees of the Sinking Fund for 1 per cent of the amount bid for.

The official advertisement of the above bond offering will be found elsewhere in this Department.

*Bond News.*—The Board of Administration has adopted a resolution to the effect that it will assume the interest charges on the first \$1,500,000 of bonds to be issued by the Water Works Commissioners. It is calculated that, owing to the reduction in operating expenses and the increased revenue to be derived from the new water works, a fund will be provided which will be sufficient to pay the interest and sinking fund charges on the bonds as they become due.

*Bond Sale.*—The Board of Education has sold the \$75,000 of school bonds to S. Kuhn & Sons for \$78,975 and accrued interest. These bonds were awarded to the Citizens' National Bank of this city at 107-318, but they were not accepted by the bank because their bid had been made on a forty-year basis, while the securities are subject to call after 1906.

**Cleveland, Ohio.**—*Bond Sale.*—On Feb. 24, 1897, the \$350,000 of 4 per cent coupon park bonds of this city were awarded to E. H. Rollins & Sons, of Boston, at 108-125. The other bids received were: Bertron & Storrs, 107-814; Vermilye & Co., 107-632; Farson, Leach & Co., 107-43; R. L. Day & Co., 107-26, and The Lamprecht Bros. Co., 107-031. The securities draw interest from July 1, 1896, payable semi-annually at the American Exchange National Bank of New York City, where the principal also will be payable. The bonds are of the denomination of \$1,000.

**Comanche County, Kan.**—*Bond News.*—A petition has been introduced in the Legislature of the State of Kansas asking the State to provide for the payment of \$100,000 of bonds of this county. It was claimed that the bonds were fraudulently issued, but the Federal Supreme Court rendered a decision to the effect that they were legal, but with the recommendation that, as the county was unable to pay them, the State should assume their payment.

**Denton County, Tex.**—*Bonds Proposed.*—It is reported that this county proposes to issue court-house bonds to the amount of \$32,000.

**Denver, Col.**—*Bonds Proposed.*—It is reported that water-works bonds of this city to the amount of \$5,000,000 have been proposed, and the question of issuing the same will probably be submitted to a vote of the people in the spring.

**Dexter, Mich.**—*Bond Sale.*—It is reported that the School Board has sold \$11,000 of 5 per cent school bonds to local bidders.

**East Chester, N. Y.**—*Bonds Authorized.*—Highway improvement bonds of this town to the amount of \$70,320 have been authorized.

**Escondido Irrigation District, Cal.**—*Bond Sale.*—On February 8, 1897, \$4,500 of water-works bonds of this district were awarded to Henry W. Putnam at 95. The securities bear interest at the rate of 6 per cent, and the principal will mature April 15, 1905.

**Evanston, Ohio.**—*Bond Sale.*—On February 16, 1897, \$3,095 63 of avenue-improvement bonds of this village were awarded to McDonald, Lacey & Ashbrook, of Cincinnati, at

103½ and accrued interest. There were three other bidders. The securities bear interest at the rate of 6 per cent, and the principal will mature in from one to ten years from date of issue.

**Fall River, Mass.—Bond Offering.**—Proposals will be received until 10 o'clock A. M., March 2, 1897, by Chas. P. Brightman, City Treasurer, for the purchase of \$150,000 4 per cent bonds of this city. The securities will be dated March 1, 1897, interest will be payable semi-annually on the first days of March and September, and the principal will mature on March 1, 1907. The loan is to be in the form of registered bonds of \$1,000 or a multiple thereof. Each bid must be made subject to accrued interest, and all proposals must be accompanied by a certified check, drawn on a national bank, and payable to the order of the city, for 2 per cent of the amount bid for.

The official advertisement of this bond offering will be found elsewhere in this Department.

**Flagstaff, A. T.—Bond Offering.**—Proposals will be received until 2 P. M. March 29, 1897, by F. W. Smith, Town Clerk, for the purchase of \$85,000 of 6 per cent water-works bonds of this town. The securities will be dated March 1, 1897, interest will be payable semi-annually on Jan. 15 and July 15, and the principal will mature in thirty years from date of issue. The bonds will be of the denomination of \$1,000. No bid for less than par will be considered, and each proposal must be accompanied by a check for 5 per cent of the amount of the bid.

The official advertisement of this bond offering will be found elsewhere in this Department.

**Galveston, Tex.—Bonds Proposed.**—It is reported that the Board of School Trustees has petitioned the City Council to issue \$25,000 of school bonds.

**Gaslin Irrigation District, Brady, Neb.—Bond Offering.**—Proposals will be received until March 6, 1897, by this district for the purchase of bonds to the amount of \$60,000.

**Grenada, Miss.—Bond Offering.**—Proposals will be received until March 10, 1897, by the City Treasurer for the purchase of \$40,000 of 6 per cent water-works and sewer bonds of this city. Interest will be payable semi-annually on the first days of January and July, and the principal will mature in 1917.

**Haverhill, Mass.—Bond Offering.**—Proposals will be received until March 5, 1897, by the City Treasurer for the purchase of \$86,000 of 4 per cent highway and sewerage bonds of this city. The securities will be of the denomination of \$1,000 and will mature ten years from date of issue.

**Illinois.—Bonds Proposed.**—A bill has been introduced in the Legislature authorizing the State to issue \$250,000 of bonds.

**Jamaica, N. Y.—Bonds Proposed.**—The citizens of this town have under consideration a proposition to issue \$375,000 of street improvement bonds.

**Knoxville, Tenn.—Bond Offering.**—Proposals will be received until 12 o'clock noon, March 15, 1897, by John A. McMillan, City Comptroller, for the purchase of \$50,000 of 5 per cent bonds of this city. The securities will be dated April 1, 1897, interest will be payable semi-annually on the first days of April and October in this city or in New York, and the principal will mature as follows: \$15,000 on April 1, 1907; \$15,000 on April 1, 1917, and \$20,000 on April 1, 1927. The bonds will be of the denominations of \$500 or \$1,000, as the purchaser may desire, and are to be issued to provide funds for building a market house and school-houses. A certified check for \$1,500 on some bank of Knoxville, payable to the order of the City Comptroller, must accompany each bid.

The city has no floating debt; its bonded debt amounts to \$1,026,000; tax valuation for 1896, \$9,747,553; total tax rate (per \$1,000), \$12.50, and real valuation about \$15,001,000. According to the Census of 1890 the population was 22,375; it is estimated now at 37,000.

**Lake County, Cal.—Bonds Proposed.**—It is reported that this county has under consideration a proposition to refund its present indebtedness at a lower rate of interest.

**Marlinburg, W. Va.—Bonds Proposed.**—A petition will be presented to the State Legislature asking for permission to issue \$50,000 of electric-light bonds.

**Maumee, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock noon March 15, 1897, by T. H. Mitchell, Village Clerk, for the purchase of \$60,000 of 5 per cent refunding bonds of this village. The securities will be dated March 1, 1897, interest will be payable semi-annually on the first days of April and October at the Ninth National Bank of New York City, and the principal will mature in thirty years from date of issue, subject to call after 1907. The bonds will be of the denomination of \$1,000.

No bid for less than par and accrued interest will be considered, and all proposals must be accompanied by a certified check for \$500.

**Medina, Ohio.—Bond Sale.**—On February 25, 1897, \$8,000 of 5 per cent water bonds of this village were awarded to

Rudolph Kleybolte & Co., of Cincinnati, Ohio, at par, accrued interest and \$507.75 premium. There were eight other bidders. The securities are dated March 1, 1897, and mature at the rate of \$1,000 each year beginning with March 1, 1909. The denomination of the bonds is \$500.

**Middleport, O.—Bond Sale.**—It is reported \$7,000 of 4 per cent funding bonds of this place were awarded to the Fourth National Bank of Columbus, O., at 111½. The other bids received were: Spitzer & Co., Toledo, O., 110-686; The Lamprecht Bros. Co., Cleveland, O., 108, and Seasongood & Mayer, Cincinnati, O., 103-24.

**Morristown, Minn.—Bond Election.**—It is reported that the citizens of this village will soon vote on a proposition to issue public-building bonds.

**Mount Sterling, Ohio.—Bond Sale.**—On February 23, 1897, the \$8,000 of bonds of this village were awarded to the Fourth National Bank of Columbus, Ohio, at a premium of \$725. The other bids received were:

	Premium.
Farson, Leach & Co., Chicago, Ill.	\$644.00
Dietz, Denison & Prior, Cleveland, Ohio.	624.00
W. J. Hayes & Sons, Cleveland, Ohio.	619.00
James W. Longstreet & Co., Boston, Mass.	613.00
Rudolph Kleybolte & Co., Cincinnati, Ohio.	509.00
Mason, Lewis & Co., Chicago, Ill.	414.00
Seasongood & Mayer, Cincinnati, Ohio.	109.75
Spitzer & Co., Toledo, Ohio.	89.60
The Lamprecht Bros. Co., Cleveland, Ohio.	52.50
Trowbridge & Co., Chicago, Ill.	\$800.00
S. A. Keen, Chicago, Ill.	\$170.00

\* Proposals did not contain certified check as was required.

The securities bear interest at the rate of 6 per cent, and the principal will mature in from 18 to 25½ years from date of issue. The denomination of the bonds is \$500 and the proceeds are to be issued for electric-light and water purposes.

**Nebraska City School District, Neb.—Bonds Defeated.**—It is reported that the people of this district have voted against the issuance of \$25,000 of high-school bonds.

**New Bedford, Mass.—Bond Sale.**—On February 19, 1897, the four issues of bonds of this city were awarded as follows: \$200,000 of water bonds to N. W. Harris & Co., at 110 83; \$173,000 of improvement bonds to E. H. Rollins & Sons, at 104-629; \$128,000 of school-house and public building bonds to E. H. Rollins & Sons, at 108-119, and \$69,000 of sewer bonds to E. H. Rollins & Sons, at 110-539. The premium on the water bonds amounts to \$21,660, and on the rest of the issue to \$25,621, a total of \$47,281. The other bids received were as follows:

\$200,000 of Water Bonds.		\$123,000 of School-House and Public Building Bonds.	
E. C. Stanwood & Co.	110-609	E. C. Stanwood & Co.	108-029

Day & Co.	104-170	Lee, Higginson & Co.	109-510
N. W. Harris & Co.	104-336	Parkinson & Burr.	109-021
Lee, Higginson & Co.	104-310		
Parkinson & Burr.	104-133		

\* Bid for all four issues. ; Or all issues except water bonds, at 108-37.

The water loan is in the form of \$1,000 coupon bonds dated January 1, 1897; interest at the rate of 4 per cent is payable semi-annually on the first days of January and July and the principal will mature in thirty years from date of issue. The other three issues are in the form of registered bonds of \$1,000 or multiples thereof, dated March 1, 1897, with interest at the rate of 4 per cent, payable semi-annually on the first days of March and September. The improvement bonds mature in ten years from date of issue; school-house and public building bonds in twenty years and sewer bonds in thirty years. Principal and interest of all the securities are payable in gold.

**Newburg, N. Y.—Bond Sale.**—It is reported that refunding bonds of this city to the amount of \$12,000 have been awarded to the National Bank of Newburg at 100-50. The securities bear interest at the rate of 3½ per cent.

**New Rochelle, N. Y.—Bonds Proposed.**—Street-improvement bonds of this village to the amount of \$75,000 have been proposed.

**Newton, Kan.—Bonds Authorized.**—It is reported that the citizens of Newton have voted in favor of issuing \$50,000 of water-works extension bonds.

**Norwood, Ohio.—Bond Offering.**—Proposals will be received until March 26, 1897, by this village for the purchase of \$5,000 of water bonds. The securities are to bear 5 per cent interest.

**Orange County, N. Y.—Bonds Proposed.**—A bill has been introduced in the State Legislature authorizing this county to issue \$250,000 of thirty-year road bonds.

**Pawtucket, R. I.—Bonds Authorized.**—It is reported that the City Council has passed an ordinance providing for the issuance of \$500,000 of bonds.

**Port Gibson, Miss.—Bond Offering.**—Proposals will be received until March 15, 1897, by the Mayor of this city, for the purchase of water-works bonds to the amount of \$20,000. The securities will bear interest at the rate of 6 per cent and the principal will mature in twenty five years from date of issue.

The city at present has no indebtedness of any kind. The assessed valuation is \$700,000 and the population (estimated) 2,000.

**Portland, Me.—Bond Sale.**—On Feb. 25, 1897, the four months loan of \$31,000 was awarded, \$41,000 to Duescomb & Jennison, of New York, and \$41,000 to Bond & Goodwin, of Boston, both firms offering to take the bonds at 2.85 per cent interest. The other bids received were:

Woodbury & Moulton, Portland, 3 per cent and \$25 premium.  
Estabrook & Co., Boston, 3 per cent and \$3.50 premium.  
E. H. Rollins & Sons, Boston, 3 per cent and \$3 premium.  
Sogers, Newman & Tolman, Boston, 3.49-100 per cent.  
Swan & Barrett, Portland, 3.4 per cent and \$30 bonus.  
James W. Long-treet & Co., Boston, 3.4 per cent and \$26.50 premium.  
Blodgett, Merritt & Co., Boston, 3.4 per cent and \$15 bonus.  
Merchants' National Bank, Portland, 3.4 per cent.

The securities are dated March 1, 1897, and the principal will be payable either in this city or in Boston on July 1, 1897. The bonds are of the denominations of \$1,000 or multiples thereof and are issued to renew the loan maturing March 1, 1897.

**Randolph County, Ala.—Bonds Proposed.**—The State Legislature have been petitioned to authorize the citizens of this county to vote on a proposition to issue \$20,000 of courthouse bonds.

**Saginaw, Mich.—Bond Offering.**—Proposals will be received until 3 o'clock P. M. to-day by Arthur F. Lewis, City Comptroller for the purchase of \$5,000 of 4 per cent water refunding bonds of this city. The securities will be dated March 1, 1897, interest will be payable semi-annually at the Chemical National Bank of New York City, and the principal will mature March 1, 1906. The bonds will be of the denomination of \$1,000.

The bonded debt of the city, including this issue, amounts to \$1,230,000, of which \$539,000 are water bonds and \$276,000 assessment bonds, paid for by assessments upon the property benefited. A sinking fund of \$40,000 is held to retire certain

bonds at maturity. The total assessed valuation for 1896 is \$15,737,070, and the population is estimated at 50,000.

**Sea Cliff, N. Y.—Bond Offering.**—On the 10th day of March, 1897, at 1 o'clock P. M., the Trustees of this village will sell at public auction \$50,000 of highway improvement bonds. The securities are to bear interest at the rate of 5 per cent.

The official advertisement of this bond offering will be found elsewhere in this Department.

**Shelby, O.—Bond Sale.**—The Board of Education of this municipality has sold \$15,000 of schoolhouse bonds to Seasingood & Mayer, of Cincinnati, Ohio, for \$16,445.75. The securities bear interest at the rate of 6 per cent and mature in from one to fifteen years from date of issue.

**Tecumseh, O. T.—Bonds Proposed.**—On February 16, 1897, the citizens of this place voted in favor of a proposition to issue \$3,000 of 7 per cent fifteen-year bonds. A bill is now before the Legislature to legalize the securities.

**Toledo, Ohio.—Bond Offering.**—Proposals were received until 7:30 P. M. February 26, 1897, by M. S. Wright, City Auditor, for the purchase of \$10,500 of 4 1/4 per cent street-improvement bonds of this city. The securities are dated January 1, 1897, interest is payable semi-annually at the Importers' & Traders' National Bank of New York City, and the principal will mature in ten years from date of issue. The bonds are of the denomination of \$525.

**Troy, N. Y.—Bond Offering.**—Proposals were to be received until 12 o'clock noon, February 26, 1897, by David Morey, City Chamberlain, for the purchase of \$100,000 to \$300,000 of revenue bonds of this city, each bid to state the rate of interest at which the loan would be taken. The securities are dated March 3, 1897, and will mature October 20, 1897. The city has no floating debt; the net funded debt at the close of the present fiscal year, February 28, 1897, will amount to \$1,131,901, and net water-works debt, to \$241,306. The total assessed valuation for 1896 was \$47,668,710 and the city tax rate (per \$1,000) \$13.30.

**Tusculum, Ala.—Bond Election.**—It is reported that on March 13, 1897, the citizens of Tusculum will decide the question of issuing \$100,000 of road improvement bonds.

## NEW LOANS.

### BIDS FOR BONDS.

Consolidated Sinking Fund Bonds  
OF THE

### CITY OF CINCINNATI, O., 3.65% 40-Year Gold Bonds.

Proposals are solicited for the purchase of \$3,651,000 of coupon or registered bonds of the City of Cincinnati, Ohio, to be issued to pay, under an option of redemption, the amounts respectively outstanding of the following issues of Cincinnati bonds: \$500,000, \$1,000, \$175,000, \$250,000, \$250,000, \$250,000, \$700,000. The bonds will be dated February 1st, 1897, will mature at the end of forty years from their date, with interest at the rate of 3.65 per cent per annum, payable semi-annually each August 1st and February 1st, and will be \$1,000, \$500 or \$100 pieces, or registered in the sum of \$1,000 or any multiple thereof as bidders may desire. Principal and interest will be payable in New York City in gold coin of the United States of America of the present standard of weight and fineness.

All bids must provide for the payment of accrued interest from February 1st, 1897, to date of delivery of bonds.

Bids must be in writing, signed by the proposer and be delivered sealed at the office of the Trustees of the Sinking Fund of the City of Cincinnati, City Hall, Cincinnati, Ohio, by or before half past two o'clock of the afternoon of Monday, March 9th, 1897.

The sealed envelope containing bids must have endorsed on the outside "Bids for Bonds."

Each bid must be accompanied by a certified check for one per cent of the amount of the bid, or of said check must be payable to the order of "The Trustees of the Sinking Fund of the City of Cincinnati, Ohio," without conditions, and must be drawn upon an incorporated bank or trust company located in the City of Cincinnati, Boston or New York.

Bidders are requested to read the advertisement carefully, as no bid will be considered that is not clearly expressed and does not strictly comply with all of the above conditions. The bonds are to be issued under authority of Section 2729 of the Revised Statutes of Ohio, as supplemented by Sections 2729 G, 2729 H, 2729 I, March 30th, 1896—92 Ohio Laws, Page 74; and this advertisement is made in compliance with Section 2729 of said Ohio Revised Statutes—90 Ohio Laws, page 168.

Payment for and delivery of bonds may be at the Third National Bank of Cincinnati or at the American Exchange National Bank of New York, as bidders may designate; payment will be required upon delivery of bonds and such delivery of bonds will be made in installments corresponding to one or more of the outstanding amounts of the issues of bonds to be paid, and not later in any case than ten days before each issue or issues become payable to the holders thereof under the call made by the city therefor. The net amounts of the issues outstanding are \$455,500, \$250,000, \$226,500, \$1,900,000, \$700,000, corresponding to the amount of the bonds offered for sale under this advertisement.

The checks of unsuccessful bidders will be immediately returned to them by the Trustees through the mail, unless otherwise requested by bidders. No interest will be allowed on the check of the successful bidder, proceeds of which will be applied toward payment for bonds.

The Trustees of the Sinking Fund reserve the right to reject any or all bids, and to accept such bid or bids as may seem to them the most advantageous to the city.

By order of the Trustees of the Sinking Fund of the City of Cincinnati, Ohio, this February 23d, 1897.

Attest: JULIUS DEXTER, Clerk.  
LOUIS CARROLL, Clerk.

## NEW LOANS.

\$65,000

### FLAGSTAFF, ARIZ., 6% Water Works Bonds.

OFFICE OF TOWN CLERK.

Sealed bids will be received by the Town Clerk of the town of Flagstaff, Arizona, up to two (2) o'clock P. M. Monday, March 29th, 1897, for the purchase of sixty-five thousand (\$65,000) dollars worth of six per cent thirty (30) year bonds of \$1000 each; said bonds are dated March 1st, 1897, bearing interest from March 1st, 1897, at the rate of six (6) per cent interest, payable semi annually, July 15th and January 15th of each year, at some bank in the City of New York, to be agreed on and designated in the face of the bonds.

First interest coupons will be due July 15th, 1897. These bonds were voted by the citizens of Flagstaff for Water Works in strict conformity with the laws of the Territory of Arizona, and according to an Act, No. 8970, passed by Congress and approved by the President of the United States, and in perfect accord with every legal requirement of the charter of the town of Flagstaff. The town reserves the right to reject any and all bids. A certified check of five (5) per cent to accompany each bid. Said bonds to be payable in lawful money of the United States of America and shall not be sold for less than their par value.

F. W. SMITH,

Clerk of the Town of Flagstaff.

Dated FLAGSTAFF, Ariz., Feb. 18th, 1897.

\$50,000

### Village of Sea Cliff, N.Y., 5% Highway Improvement Bonds.

The Trustees of the Village of Sea Cliff, Queens County, New York, will sell at Public Auction at the Village Board Room, on the 10th day of March, 1897, at one o'clock P. M., to the highest bidder, \$50,000 5 per cent Highway Improvement Bonds.

Particulars may be obtained of Frank J. Cole, Clerk, Sea Cliff, L. I., or 47 Broadway, Room 28, New York City.

## NEW LOANS.

\$150,000

### CITY OF FALL RIVER, MUNICIPAL LOAN, 10 YEARS, 4%.

Proposals will be received by the undersigned until TUESDAY, MARCH 2d, at 10 A. M., for the whole or part of a loan of \$150,000, authorized by the City Council of Fall River, Mass., February 1st, 1897.

Said loan is to be issued in the form of registered bonds of the denomination of \$1,000 or any multiple, will be dated March 1st, 1897, and fall due March 1st, 1907, and will bear interest at the rate of four (4) per cent per annum, payable semi annually on the first days of March and September, in each year. Checks will be mailed for interest as it falls due. The loan is secured by sinking fund, as required by statute law.

All bids must be made subject to accrued interest, and a certified check drawn on a national bank for two (2) per cent of the amount of bonds bid for, and payable "to the order of the City of Fall River," must accompany each bid. Checks of unsuccessful bidders will be at once returned. The right is reserved to reject any or all bids. Address

CHAS. P. BRIGHTMAN,  
Treasurer of the City of Fall River.

\$22,500

### City of Bradford, Pa., 4 Per Cent Bonds.

Sealed proposals will be received by the undersigned at the office of the Mayor of the City of Bradford, Rosenberg & Michael Block, up to 5 o'clock P. M., March 1, 1897, for sale of Twenty-two Thousand Five Hundred (\$22,500) Dollars of the City Bonds of the City of Bradford, Pa., authorized to be issued by ordinance No. 654 of said city, and its amendments.

The Bonds are \$2,500 for ten years, \$10,000 for twenty years, \$10,000 for thirty years, 4% interest payable semi annually.

Each bid must be accompanied by a certified check in the sum of \$500, to be forfeited by the successful bidder in case he fail to pay over the amount of his bid upon notice awarding sale of said Bonds to him. The right to reject any and all bids is hereby reserved.

GEO. C. FAGNAN, Mayor.  
A. D. SLOAN, City Controller.

**Wallingford Central School District, Conn.—Bonds Proposed.**—It is reported that bonds of this district to the amount of \$40,000 are under consideration. The securities, if authorized, will bear interest at the rate of 5 per cent.

**Wetumpka, Ala.—Bonds Authorized.**—It is reported that school bonds of this municipality to the amount of \$10,000 have been authorized.

**Whitestone, N. Y.—Bond News.**—About one year ago the citizens of this village defeated a proposition to issue \$5,000 of bonds for the purpose of paying off an indebtedness which had been accumulating for several years. The Board of Village Trustees has petitioned the State Legislature for permission to issue these bonds, which action has caused considerable opposition among the people of the place.

**Wilkesbarre, Pa.—Bonds Authorized.**—On Feb. 16, 1897, the elections of this city voted in favor of the proposition to issue \$100,000 of bonds to be used as follows: \$70,000 for con-

struction of sewers, \$20,000 for street improvement and \$10,000 for the fire department.

**Yeadon, Pa.—Bonds Authorized.**—The citizens of Yeadon have authorized the issuance of \$10,000 of sewer bonds.

**Whitman County, Wash.—**The following statement has been corrected to February 1, 1897, by means of a special report to the CHRONICLE from John Tobin, County Auditor.

The week's total for all cities shows a loss of 25.1 per cent from 1896. The decline from 1895 is 15.9 per cent and the decrease from 1894 is 8.9 per cent. Outside of New York the decrease compared with 1896 is 19.8 per cent, the falling off from 1895 is 15.7 p. c., and the loss from 1894 reaches 18.4 p. c.

With this issue of the CHRONICLE we send out our usual monthly number of the QUOTATION SUPPLEMENT. The SUPPLEMENT contains, besides a complete record of the past month's transactions on the New York and Boston Stock Exchanges, twenty seven pages of general quotations, comprising all classes of securities—railroad stocks and bonds, municipal securities, bank stocks, gas stocks, insurance stocks, street railways, etc., etc.

### THE FINANCIAL SITUATION.

President McKinley's inaugural address on Thursday was in all particulars very satisfactory to business interests. It was an open and unmistakable utterance on the questions of the day and just the kind of document industrial classes needed. With reference to the tariff it is hardly necessary to say that parties differ and that the President's views on that issue will not meet acceptance everywhere. But the question of higher duties was settled by the election, and the public accepted the result; obstructive work at the session of Congress soon to open for the purpose of framing a new tariff would consequently be inexcusable and very objectionable. When the party in power has framed a measure satisfactory to itself, and shown its ability to pass it, the commercial situation of the country requires that the measure be adopted as speedily as possible and that the country be relieved from the disturbing influence of the prolonged presence of our legislators in Washington.

On this subject of Senatorial obstruction Vice President Hobart, in his address to the Senate Thursday, said a few words which will attract attention. Whether they are to be taken in the nature of a warning, or as a simple suggestion of the thought which is uppermost in the minds of the people, time will demonstrate. His statement is as follows; it should be read by every one. "It will be my constant effort to aid you, so far as I may, in all reasonable expedition of the business of the Senate, and I may be permitted to express the belief that such expedition is the hope of the country. All the interests of good government and the advancement toward a higher and better condition of things call for prompt and positive legislation at your hands. To obstruct the regular course of wise and prudent legislative action after the fullest and freest discussion is neither consistent with true Senatorial courtesy, conducive to the welfare of the people, nor in compliance with their just expectations." We will add one sentence to the above. If Vice-President Hobart should by his ruling be able to put an end to the so called "courtesy" in the Senate, which permits a small minority to defeat all legislation, he will merit and receive the commendation of the large majority of the people of the United States. What is wanted is action that will change the Senate from an obstructive body to a legislative body.

President McKinley's remarks on the two most vital issues before the country, our finances and our foreign relations, cannot be too highly commended. In selecting Mr. Gage of Chicago for Secretary of the Treasury the President gave to the public the strongest possible assurance that he was heartily in accord with the best thought of the country with respect to currency reform. Mr. Gage stands as the representative of plain dealing and a radical cure. Makeshifts and subterfuges, the tools of small politicians, are unknown in

his practice and foreign to his character. The President knew all this, and obviously because Mr. Gage represented what he wanted called him into his Cabinet. We now have the President's own words. Although these are quite general in form they are sufficiently specific on the main points to show that the President stands for safety, stability and integrity. He says at the outset of his remarks about the currency that "its value must not be further threatened. It should be put upon an enduring basis, not subject to easy attack, nor its stability to doubt or dispute." Later in his remarks he added: "The credit of the Government, the integrity of its currency and the inviolability of its obligations must be preserved. This was the commanding verdict of the people and it will not be unheeded." Some may take exception to what the President says about a bimetallic conference with European Powers. It should be remembered that his own party platform contained a provision that "international bimetalism" should be sought and if possible secured. He does not say that the work of currency reform in this country must wait until the international matter be sought or tried, but says that our gold standard must be put upon an enduring basis at once; then after that he merely follows his party platform as to a bimetallic conference, and tells Europe "Barkis is willing."

In the matter of our foreign relations the President discloses his real attitude by a specific recommendation. We refer to the clear, outspoken views he expresses with reference to speedy and favorable action on the Arbitration Treaty. He believes arbitration to be the true method for the settlement of all differences—international, local and individual. Its application was extended to our diplomatic relations by the unanimous consent of the Senate and House in 1890. That resolution has led to a negotiation which has ended by the transmission to the Senate in January of the present treaty. "Since this treaty," he says, "is clearly the result of our own initiative; since it has been recognized as the leading feature of our foreign policy throughout our entire national history—the adjustment of difficulties by judicial methods rather than force of arms—and since it presents to the world the glorious example of reason and peace, not passion and war, controlling the relations between two of the greatest nations of the world, an example certain to be followed by others, I respectfully urge the early action of the Senate thereon, not merely as a matter of policy but as a duty to mankind. The importance and moral influence of the ratification of such a treaty can hardly be over-estimated in the cause of advancing civilization. It may well engage the best thought of the statesmen and the people of every country, and I cannot but consider it fortunate that it was reserved to the United States to have the leadership in so grand a work." Those words mean peace and good will toward men everywhere, and were intended to discourage those harmful and disturbing resolutions and discussions which have been such a prominent feature in the Senate's proceedings during recent years. There is one practice affecting our foreign relations which should be modified. Some restriction ought to be put upon the method of obtaining citizenship. A man should not be able to take out naturalization papers here for the mere purpose of securing immunity from punishment and protection from arrest for his wrong acts within and against another country. So long as we allow transactions of that character to be

continued, friction in our foreign relations must be a frequent occurrence.

The most important incident of the week was the announcement on Tuesday that the directors of the Lake Shore had authorized the execution of a \$50,000,000  $3\frac{1}{2}$  per cent one-hundred-year mortgage for the purpose of refunding 7 per cent bonds which will mature at intervals between 1898 and 1903. We comment on the significance of this transaction in an article on another page. A contract to place the bonds has been made with a syndicate comprising Speyer & Co., J. P. Morgan & Co., Lazard Freres, Heidelbach, Ickelheimer & Co., F. S. Smithers & Co., the Central Trust Company of New York, J. Kennedy Tod & Co., E. H. Harriman, Teixeira de Mattos Bros., of Amsterdam, and Laz. Speyer Ellissen, of Frankfort-on-Main; and Speyer & Co. have announced that the new securities would be offered to the bondholders at 102 $\frac{1}{2}$  and interest. It is said that already a considerable amount of the maturing bonds have signified their intention of making the exchange, and the bonds are quoted in the market at 103@103 $\frac{1}{2}$ . The early news of the intended issue of these bonds will very readily account for the sharp advance in Lake Shore stock to 172 on Monday. On the official announcement of the issue there was exceptionally good buying of all the Vanderbilt properties, which continued on Wednesday, more or less stimulating an improvement in the whole market.

The opening this week of through service from Kansas City to Shreveport, La., over the line of the Kansas City Pittsburg & Gulf, is important not only as giving another through route to the Gulf but as marking a further step in the progress of an enterprise of considerable magnitude. At Shreveport connection is made over other lines with Galveston, Houston and New Orleans. The company's own terminus will be at Sabine Pass, where it is reported there is now 24 feet of water over the bar. This portion of the line it is expected will be completed by the 1st of May, and then the system will comprise about 800 miles of road and extend from Kansas City to the Gulf. At present the mileage is 675 miles. It is rather noteworthy that an undertaking of such dimensions should have been pushed through during a period of great depression in the commercial and financial world. The road represents an investment, we understand, roughly, of about \$20,000,000, and the funds have been raised here and in Holland. The original construction company was formed in 1889 and its policy, it is stated, was largely shaped by the late Anthony J. Drexel, of Drexel & Company. Mr. Drexel urged that in order to allow for the building up of the country through which the road runs, no bonds be issued before 100 miles had been constructed and that the bonds be made dependent upon income for three years. Actually no bonds were put out until 112 miles had been built and equipped and put in operation, and they were made income bonds for four years, the 1st coupon not falling due until October 1 1897. The road has been very substantially built, being laid with 60-lb. steel rails its entire length and having 2,840 oak ties to the mile. The bridges, of which there are 165 of an aggregate length of 2,991 feet, are of iron and steel. Of these bridges the bridge over the Arkansas River cost \$160,000 and one over the Red River cost \$130,000. The road has a right of way 100 feet wide. A large north-bound traffic is expected from

the timber and coal resources along the line, while the directness of the route is counted on to give it a south-bound business in the transportation of food products. Mr. A. E. Stilwell, of Kansas City, has been the head and front of the enterprise, and it is to his perseverance and energy that its progress is due. The future of the undertaking will be watched with interest.

We have prepared this week our statement of bank clearings for the month of February, and it shows a loss of 10.3 per cent from last year. Outside of New York the loss is but 5 $\frac{1}{2}$  per cent. In January the falling off was only 2.6 per cent with New York included and 7.1 per cent without New York. It should be remembered that February last year had an extra day (it being leap year) and that the volume of the clearings showed a large gain at that time independent of that fact. The following compares the totals for January and February, both with and without New York.

MONTHLY CLEARINGS.

Month.	Clearings, total All.			Clearings Outside New York.		
	1897.	1896.	P. Ct.	1897.	1896.	P. Ct.
January ..	4,507,614,722	4,626,143,291	-2.6	1,917,887,391	2,064,739,583	-7.1
February	3,691,269,797	4,115,498,188	-10.3	1,616,078,618	1,742,476,558	-5.6

The falling off during February has been quite general throughout the country, but a few leading cities present very favorable comparisons. Particularly is this true of St. Louis, which reports 13.3 per cent increase; Boston, which has 6.7 per cent increase, and Cincinnati, which has 3.4 per cent increase. At New York there is 13.8 per cent decrease.

FEBRUARY BANK CLEARINGS AT LEADING CITIES.

Some further returns of railroad net earnings for January have been received this week, and on the whole they are not so good as those noticed last week. There are some exceptions to the rule, however, as in the case of the Burlington & Quincy, which has \$79,024 increase in gross and \$214,321 increase in net. The anthracite coal companies particularly make

unfavorable comparisons. The Lehigh Valley reports \$321,386 decrease in gross, \$185,722 decrease in net; the Lehigh Valley Coal \$60,350 decrease in gross, \$10,316 increase in net; the Central of New Jersey \$154,352 decrease in gross, \$95,351 decrease in net; the Reading Railway \$248,689 decrease in gross, \$115,595 decrease in net; the Reading Coal & Iron Company \$159,385 decrease in gross, \$207,532 decrease in net; and the New York Ontario & Western \$15,391 decrease in gross and \$20,590 decrease in net. Below we furnish a comparison for four years of a number of roads which have this week submitted their statements.

\* Earnings for these years are on a different basis from that for the earlier years.

There was a fall on Monday in the price of bar silver in London to 29½ pence per ounce. Concurrently there came the announcement that Japan had decided to adopt a gold standard for its currency upon a ratio of 32½ silver to 1 of gold, and that the silver yen will be gradually withdrawn from circulation and the smallest gold piece will be five yen. Japan is the first nation to undertake to coin silver at a coinage ratio very nearly corresponding to the commercial ratio, and the result of the experiment will doubtless be interesting. A full summary of the report of the Japanese Currency Commission appeared in the CHRONICLE of January 16 (pages 112 to 116), and the above announcement shows that a reformation of the currency has been decided upon.

The amount of gold turned over to the New York Sub-Treasury this week in exchange for legal tenders was about \$2,000,000, of which nearly \$1,750,000 originally came from California to banks in this city, and it has now been sent to the Sub-Treasury. Over \$1,000,000 gold was deposited in the New York Clearing House vaults during the week, making the amount so held by the associated banks \$50,400,000. The net gold in the Treasury, officially reported from Washington on Friday of last week, was \$148,318,532. On Wednesday the Department was advised that more than \$1,500,000 gold had been deposited in the New York Sub-Treasury, making, with the amount of \$149,029,-

510 then in the Treasury, over \$150,529,510. The net gold officially reported from Washington yesterday Friday, was \$150,693,630.

In money there are but few new features, and rates remain about as last quoted. Money on call representing bankers' balances continues to loan at the Stock Exchange at 1½ and at 1¼ per cent, generally at the first-named rate, averaging 1½. Banks as a rule seek to maintain 2 per cent as their minimum over the counter while those of the trust companies who loan accept the current Stock Exchange rates. Time contracts are in little better request for long periods and it is reported that about \$1,000,000 has been loaned this week for four months at 2½ per cent. Some sixty-day loans on sterling collateral have been renewed at 2 per cent and Eastern cities have borrowed until October and November, in anticipation of the collection of taxes, at 3 per cent, and it is expected that New York City will also soon be in the market as a borrower. Negotiations are in progress for borrowing upon large purchases of steel rails for European account and also upon heavy importations of silks and other merchandise, which are being brought out in anticipation of changes in the tariff. Rates on good mixed Stock Exchange collateral are 2 per cent for thirty days; 2½ per cent for sixty days to four months; 3 per cent for five to six months, and 3½ per cent for the remainder of the year. Some brokers report 2 per cent for sixty days; 2½ per cent for ninety days to four months; 3 per cent for five to six months; 3½ per cent for seven to eight, and 4 per cent for nine to twelve months. Buyers of commercial paper, who have recently been holding off in the hope of obtaining better rates, are now indisposed to wait longer, and they are accepting current figures. The supply is fair and some very good names are coming on the market, but there does not appear to be any particular pressure. Rates are 3 per cent for sixty to ninety day endorsed bills receivable, 3½@4 per cent for first-class and 4@5 per cent for good four to six months' single names.

The European political situation continues to excite grave apprehensions. The Powers on Monday sent an identical note to Greece requesting the withdrawal of her troops and fleet from Crete within six days. If this mandate is not obeyed, it is understood that another note will be sent intimating that coercive measures will be adopted. The Greeks appear to be united in a determination not to yield to the demand of the Powers, and it is not certain that the latter will be in concord when the time comes to apply coercion. The financial situation abroad remained undisturbed by the events of the week until Thursday, when consols fell off in London on a report that King George of Greece had gone to Thessaly, and yesterday the feeling of alarm extended to the Continental Stock Exchanges. The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety day bank bills in London 1 9-16 per cent. The open market rate at Paris is 1¼ per cent and at Berlin and Frankfurt it is 2½ per cent. According to our special cable from London the Bank of England gained £306 bullion during the week and held £39,029,576 at the close of the week. Our correspondent further advises us that the gain was due to £213,000 imported (of which £193,000 were from Australia, £14,000 from Portugal and £6,000 from

Roumania) and receipts of a little over £213,000 net from the interior of Great Britain.

The foreign exchange market has been dull and generally steady this week. One feature has been a shade firmer tone for long sterling, due in part to some purchases early in the week of these bills for investment and later to easier discounts in London, which, while they practically stopped further buying for investment, made long bills preferable to short for remittance. Maturing sterling is being offered in moderate amounts and exchanged for short without influencing the market; one feature has been bids of 4 87½ to 4 87½ for short sterling, deliverable in May, which bids may be accepted as an indication of comparatively firm rates for the next sixty days. Bankers report a good demand for remittance for securities sold for European account, but this inquiry cannot be large, for if it were there would most likely be an advance in rates or a much firmer tone for short sterling. The range in the posted rates for sterling on Monday was from 4 85½ to 4 86 for sixty day and from 4 87½ to 4 88 for sight. On the following day the Merchants' Bank of Canada advanced rates half a cent, making posted figures uniformly 4 86 for sixty day and 4 88 for sight, and there was no change for the remainder of the week until Friday, when one of the drawers advanced long half a cent and another advanced both long and short half a cent. Rates for actual business were unchanged compared with Friday of last week, at 4 85 @ 4 85½ for long, 4 87 @ 4 87½ for short and 4 87½ @ 4 87½ for cable transfers until Thursday, when there was an advance of one-quarter of a cent for long, to 4 85½ @ 4 85½, but no change was made in short sterling or in cable transfers. The tone then was quoted dull and steady. Yesterday it was very firm, but with actual rates the same as on Thursday.

DAILY POSTED RATES FOR FOREIGN EXCHANGE.

## THE SENATE: PAST, PRESENT AND FUTURE.

No branch of the Government which took office formally Thursday is looked upon with greater interest and curiosity than the Senate. Questions of very immediate interest do indeed arise regarding the composition and policy of other branches. What attitude the Cabinet will take regarding foreign relations, what means the House of Representatives will adopt to supply sufficient revenue—these are undoubtedly problems of the first importance. But the Senate's history during the last four years has been so singular and its present attitude on numerous public matters is so extraordinary that the success, either of a well-ordered fiscal policy or of a conservative foreign policy, is generally acknowledged to depend in considerable measure on the character of the successors to the present body.

It will, for instance, be remembered that the repeal of the silver-purchase act, which passed the House in 1893 after two weeks of debate, was blockaded in the Senate for two months, and very narrowly escaped defeat. It was in the Senate that the tariff act of 1894 was delayed and virtually wrecked. In the spring of 1896 a still more eccentric action of the Senate destroyed the Dingley tariff bill, not by an outright vote on the merits of the measure, but by a wholly irrelevant "rider" providing for free-silver coinage. In June of the same year the Senate passed, by a vote of 32 to 25, a bill withdrawing entirely from the Administration the power to issue bonds for maintenance of the gold reserve. With the winter session of 1896 the currency dispute shifted suddenly into a continuous effort to force the hand of the Executive in the Cuban complication. During December a measure transgressing all precedent of international law by recognizing the insurgents as a formal government failed of passage only because of the Administration's plain announcement that it would not heed such a declaration. Within a month the whole Senate resounded with demands for the instant ordering of war ships to Havana and the instant release of Sanguilly, whom the committee, when reporting the resolution, knew was to be pardoned if their action did not prevent it.

This is not new or unfamiliar history. We review it now because this series of episodes shows up the reason for the present interest in the altered composition of the Senate. It is only fair to say that the House has had its share in the turbulence of the last four years. It was the House, for instance, which in January 1895, with the Government reserve going to pieces, rejected by a vote of 187 to 109 a measure for an economical bond issue, and which voted down the 3 per cent gold bond proposition by a majority of 47. A year later it was the House which declared, by a vote of

245 to 27, for according belligerent rights to Cuba. But these are almost isolated exceptions. Notably since the change in the membership of the Lower House in December 1895, a spirit of relative conservatism has prevailed. Even in 1893, in the height of industrial distress, the House, after a statesmanlike and decent fortnight's deliberation, passed by a good majority the repeal bill, which the Senators obstructed for the next two months. In short the people have reasonably come to feel that the House of Representatives, especially as reorganized by last November's vote, can be trusted by the country. It may and doubtless will make its mistakes; but rash and hot-headed legislation need not be anticipated. The question, then, of foremost interest is, can the Senate be expected to abandon this session's policy of agitation, and lend a hand to such remedial measures as are imperatively needed?

The terms of thirty members of the Senate expired last Thursday. To fill these thirty vacancies twenty-seven Senators have been elected; in Florida, Kentucky and Oregon no choice has yet been made. Out of the twenty-seven Senators whose terms began March 4, sixteen were elected to succeed themselves; the actual changes in the Senate, therefore, affect as yet only eleven seats. As would naturally be supposed many of these eleven changes are the results of recent Republican victories. Illinois, Indiana, New York, Ohio and Wisconsin replace in each case a Democrat by a Republican. It happens that in three of the five States a conservative Senator replaces a predecessor less conservative; so far, therefore, as these party victories affect the Senate's general character, there is no doubt that an advantage has been gained. It is a further advantage too in the consideration of a wise Administration measure that these new Senators belong to the Administration party; they will certainly have less motive to obstruct or contest a conservative general policy of the Administration.

A less satisfactory conclusion may be drawn from the change in Senators by Idaho, Kansas, Utah and Washington. Two of these four States, in fact, make a change which may be for the worse. Senator Dubois, of Idaho, was a fanatic on the silver question, but his position on other matters has been comparatively conservative. He is replaced by a foreign-born Populist, reported by the newspapers to be actually illiterate. Similarly in the case of Washington, the now incumbent, though nothing is known to the discredit of his education or intelligence, comes as a Populist-silver-fusionist, and replaces Senator Squire, who has been far more moderate than the average delegate from the newer West. The new Kansas Senator is a man of some ability. His predecessor, Senator Peffer, was a rather absurd figure in the Senate, and the general body will not suffer by the change.

Of the two remaining seats whose membership has been already altered, both are decided changes for the better. Mr. Penrose, the newly-elected Pennsylvania incumbent, a perfectly safe public legislator, takes the place of Mr. Cameron, whose voice and vote have been lent during the last two sessions to almost every extreme and dangerous measure under consideration. In South Carolina Senator Tillman, in his effort to elect an associate as much in sympathy with his own wild legislative programme as the outgoing Senator has been, failed entirely; his colleague in the present session is a citizen of standing and reputation, chosen distinctly as an enemy of Tillmanism. As for the three

other still existing vacancies, there is no certainty as to the kind of Senator which Oregon, Kentucky or Florida will elect. But none of these three States could choose a more extreme and radical representative than the three retiring Senators. The vote of each is inscribed in the majority on almost every dangerous measure of the session. Therefore the outcome in these States cannot make the situation any more unfavorable, while in Kentucky's case at least the Republican majority on joint ballot in the Legislature of the State ought to ensure a safe incumbent.

The net result then of the changes in the Senate at the opening of the new Administration is the addition probably of several votes to the sound-money membership of the Senate, and with the possibility of further gain when the remaining vacancies are filled. This is not claimed as a very large advantage, and it is possible even now that the reviving hopes regarding the coming Senatorial session will be disappointed. But recent majorities in the Senate have been narrow. The total membership is small; the average attendance smaller still; a change of four votes would, for instance, have reversed the Senate's action on the Butler bond bill nine months ago. It was the consciousness that they were assured even a small majority on the roll call, and that the Administration, whose policies they opposed, could thus be embarrassed in its plans, which nerved the agitators of the recent session up to their pitch of recklessness. At the very worst, in the coming session majorities must be fought for, and extremists take no chances when majorities are in doubt. Excluding the four Senators who withdrew from the Republican party at St. Louis, and who remain in the Senate under the new Administration, the Republicans had 39 Senatorial votes during the last two sessions; on the same basis of reckoning they will have 42 in the present Senate, with the practical certainty of another from Kentucky, and probably the votes of two or three additional on the tariff issue. This is not an assured conservative majority, but on the other hand there is no possibility of an organized and coherent majority for the opposition. Plainly, therefore, the outlook for conservative action by the Senate is improved.

It is the commonplace of criticism to ascribe the Senate's recent eccentricities to the admission since 1888 of seven sparsely-populated frontier States. That Idaho, Montana, Utah, Washington, Wyoming and the two Dakotas comprised in 1890 altogether only 1,346,071 population, or half a million less than the present population of New York City alone, and that in spite of this they carry fourteen votes in the Federal Senate, speaks as to logical consequences for itself. The principle of equal Senatorial representation by States, as the "Federalist" itself remarked a century ago, was "the result, not of theory, but of a spirit of amity, and that mutual deference and concession which the peculiarity of our political situation rendered indispensable." But no such haphazard admission of communities to Statehood as has characterized the last eight or nine years was contemplated, even in the compromise of 1789. During the greater portion of our history the system worked so well as to confirm Judge Story's view that to the National Government, as a whole, the Senate is "the real balance-wheel, which adjusts and regulates its movements." Such a function it may again some day perform, but not until the constituent communities of the newer States have grown in population, industry and conservatism. That such a happy

issue to the problem is, however, ultimately not impossible, the career of Minnesota among the younger States is interesting witness.

Another factor in the recent extravagances of the Senate is more temporary in its character and therefore may be removed more quickly. The influence of industrial distress and discontent, especially when it takes the form of sectional opposition, is naturally emphasized in the Senate, where the conservative voice of business communities has a relatively smaller hearing. But this is nothing new in the history of Congress. The same phenomenon was witnessed twenty years ago in the hard times which followed the collapse of 1873. The Senate of the Congress which took office in December 1877 was Republican by a majority of three, and the Republican Administration stood emphatically for conservatism and sound money. Yet in that single session the Senate passed a concurrent resolution declaring for the payment of Government bonds in silver, and Republican Senators, one from the President's own State, took the floor personally to urge repeal of the resumption act. The denunciation of the business interests of the investing community generally were as reckless in the Senate then as they have been during the late Administration. Precisely the same result has followed every similar period of depression. But the industrial recovery of 1879 instantly quieted this outbreak of fanaticism; the Senate returned to something of its old-time dignity and conservatism. The immediate future of Senatorial debate and vote depends to some extent now on the course of trade recuperation.

#### REVENUE DEFICITS AND THE TREASURY OUTLOOK.

An increase in the Government debt is the notable feature in the Treasury figures this month. It is especially notable not only because it is an interesting fact considered by itself, but more than that, because through its connection with the revenue and disbursements it becomes a kind of key to the Treasury situation in all its parts. Ordinarily it would be supposed when an increase of debt was announced that it meant a new issue of bonds had been made. Nothing of that kind has had anything to do with the increase on this occasion nor in any recent previous month (except in a trifling amount brought about through the redemption of the 4 per cent certificates), and yet the debt statement issued the first of March shows an addition for the month ending February 28 1897 of \$4,592,137 10, for January an addition of \$15,078,735 22, and since the new fiscal year began, June 30 1896, an aggregate addition to the Government debt of \$57,303,200 07.

These figures, we repeat, are useful and worth a careful study, since they bring up the whole subject of our Government finances. They show first of all how it is that notwithstanding this large increase of debt there has been no corresponding increase in the floating or bonded debt; they disclose that this circumstance has been made possible by a decrease of the cash balance in the Treasury and by an enlargement of the amount on deposit in the Treasury for the redemption of the national bank note circulation; and, finally, that the decrease in the cash balance has been due to a deficit in the Government revenue caused by smaller receipts from taxes in the face of enlarged appropriations.

Our readers are aware that the bids for the last bond issue were opened on the 5th of February 1896 and that the amount of the bond offerings by the Government at that time was 100 million dollars; as the average price obtained was a little less than 111-17, the proceeds of the loan reached \$111,166,232 65. To make a long story short, the final payment for the bonds was made in June and the last remnant of the bonds was then issued. Previously, month by month, as the bonds were taken up, they appeared in the debt statement, but it was not until the first of July statement that the full 100 million issue was included. The condition of the accounts before these transactions were begun and after they were completed may be given approximately as follows. We say approximately because we have not the exact Government figures for the day when the first payment and the last payment for the bonds were made, and consequently for comparison use the figures issued on January 31 and June 30, those being the regular monthly figures of the date just previous to the first and just subsequent to the latter transaction. We add similar figures for February 28 1897 issued this week.

Gross	United	Jan. 31, 1896.	June 30, 1896.	Feb. 28, 1897.
States debt..	\$1,124,638,015 90	\$1,222,729,350 40	\$1,225,437,709 40	
Treasury cash				
balances.....	171,591,778 27	287,432,096 70	212,837,255 63	
Net debt..	853,046,237 63	935,297,253 70	1,012,600,453 77	

As remarked above, this exhibit does not accurately represent the working out of the bond transaction, because the dates are such as to include a few days prior and subsequent to the period it covered; then there is another reason why they are not exact, and that is because they do not include the variations in the national bank note redemption fund. They are however near enough to disclose the operations incident to the loan and to show about how much more of debt increase the monthly statements may record before there is any further addition to the gross Government debt.

The foregoing statement, as will be noticed, indicates that on June 30 1896 the gross debt had increased since January 31 a little over 98 million dollars; the increase would of course be exactly 100 million dollars if every disturbing movement other than the bond sale could be eliminated and the figures adjusted to the correct dates. During the same time (five months) there was only a trifling increase in the net debt of 2½ million dollars; were the figures in this case all adjusted to the correct dates and other disturbing transactions eliminated, the statement would have shown a decrease in the net debt equaling the premium paid to the Government on the bonds (\$11,166,232 65) by the purchasers. The reason for this difference between the gross and the net debt is that the sale of bonds was to obtain gold to replenish the gold reserve and consequently the proceeds were not for immediate disbursement; they went into the cash holdings and appeared in the Treasury cash balance. Had it not been for the deficit in the revenue the net debt, notwithstanding the bond sale, would never have shown any increase but a decrease to the amount of the premium paid for the bonds. It is obvious therefore that the deficit and the consequent disbursement of the cash balance are the whole cause of the increase in the net debt every month now except the comparatively small changes which take place by reason of the variations in the holdings of the fund for the net redemption of national bank notes and the redemptions of the outstanding 4 per cent scrip.

A further point of interest relating to the same matter is how far this deficit has already depleted the

cash holdings and absorbed the receipts from the bond sale; also what is there left of those proceeds in the Treasury cash to meet future deficits in the revenue. The above exhibit gives the data for answering the inquiry. It may be assumed that the cash balance January 31 1896 [\$171,591,778] was as small as can be safely permitted to occur again. On the supposition that the deficiencies during the next few months will not be in excess of the monthly average for the last eight months, it will readily be seen that the Treasury could in that event be run beyond the 1st of August before the cash holdings would be so far absorbed as to bring the balance down to the amount on hand January 31 1896. This is shown by the fact that the net debt June 30 1896 was \$955,297,253 and on March 1 1897 it was \$1,012,600,453. Hence, during eight months the net deficits in the revenue have been \$57,303,200. On that basis we have an average for future monthly deficits of \$7,162,900, assuming that there will be no change in either receipts or disbursements. This last assumption, however, with reference to prospective income and payments is hardly authorized. The outlook at the moment is that the future outgoes will average larger than in recent past months even during the remainder of the current fiscal year; and that, with the additional interest payments as July, disbursements will be very heavy.

With reference to receipts, if business increases materially, as it now promises to do, the tax laws even as they stand will yield a materially larger revenue than they have in late months. Without any change in the taxes the existing rates, with business active, would no doubt produce three or four million dollars more a month than they have yielded since June last. Besides, the laws will be changed, certainly by the first of July, and it is not unlikely that in some particulars changes may go into effect before that date. Altogether, it seems probable that the unfortunate period of deficits is rapidly drawing to an end. With that fact assured the new Administration enters upon its term of office under financial conditions of much greater promise than existed four years ago.

There is another set of facts, too, which, as we all know, afford a feature of far greater stability to the situation now than has existed for several years. We refer to our very favorable trade balance, which stands as a guard over our Treasury gold reserve, and to our enlarged gold supply in and out of the Treasury. The Mint reports the gold coin in the United States on March 1 1897 at \$655,672,099 and gold bullion \$46,849,625, being a total of \$702,521,724, against a total on March 1 1893 of \$627,490,086 and a total March 1 1896 of \$612,989,590. What is, perhaps, of more importance is that the net gold holdings in the Treasury on March 1 1897 were \$148,661,209 and increasing, whereas on March 1 1893 the net holdings were \$103,284,219 and declining; on August 8 1894 they had dropped to only \$52,189,500. Below we give the Government cash holdings March 1 and January 1 of this year and last year.

Holdings in Sub-Treasuries—	Jan. 1, '96.	Mar. 1, '96.	Jan. 1, '97.	Mar. 1, '97.

### THE LAKE SHORE BOND SALE.

The arrangement by which the Lake Shore & Michigan Southern Railway Company effects the sale of \$50,000,000 of 3½ per cent bonds, to refund at or before maturity the present outstanding 7 per cent bonds, is already seen to be a transaction of far reaching importance, not only in its bearing upon the future of the Lake Shore Company, but as a factor in the general railroad situation. The amount involved would alone stamp the undertaking as of the first rank. The fact of chief importance however is the low rate of interest at which the loan has been placed. That gives it a wholly distinctive character; for it demonstrates that notwithstanding all the adverse occurrences in the railroad world there are some railroad properties whose standing remains very high. It also serves to direct attention to the advantages to accrue to other properties of this description from the approaching maturity of high-rate interest bearing bonds. At the same time it fixes what will be considered a new standard for the credit of American railroads.

We say it fixes what will be considered a new standard because it is not strictly correct to assert that this is the first instance where any of our roads have borrowed money at 3½ per cent. The Pennsylvania Railroad during 1895 floated £1,000,000 of sterling bonds, bearing only 3½ per cent interest, at, we believe, par. The Illinois Central as early as 1886 negotiated a 3½ per cent bond issue. This issue is quoted to-day in London at 100@102. Both these bonds and those of the Pennsylvania Railroad are secured by a very superior lien, just as are the bonds of the Lake Shore. In more recent years the Illinois Central has placed a number of issues of subordinate liens and these very naturally have been marketed on less advantageous terms. We may refer to another case: The \$6,000,000 of Boston Terminal Company first mortgage bonds, issued to build a Union Depot at Boston for the Boston & Albany, New England, Boston & Providence, Old Colony and New York New Haven & Hartford companies also bear only 3½ per cent interest, though these are short-term bonds maturing August 1 1898.

All these cases serve to indicate what can be done when both the lien and the credit of the company making it are of the highest order. The Lake Shore negotiation will attract attention beyond any of these by reason of its magnitude and the special features connected with it, and also by reason of the time and the manner in which it has been carried out. That any road in this country should be able to borrow at 3½ per cent is, of course, a very noteworthy and flattering achievement. Notwithstanding the instances we have mentioned occurrences of that kind are very rare. It should be remembered, too, that such a low rate means a great deal more in this country than it does on the other side of the Atlantic, for in the United States there is not yet such a superabundance of capital and accumulated wealth as there is in Europe. As a consequence people expect a better return. This applies even to European investors when making investments in this country; they come here as a rule to get a higher remuneration for their capital, it being difficult to find prime investments in Europe which net a return at all satisfactory. Of course a process of equalization is gradually going on, and we have no doubt regarding our currency system re-

moved, the difference in that respect we must expect will eventually narrow down to small proportions, and finally disappear altogether. This latter thought gives point to a recent criticism contained in the "Economist," of London. Speaking with reference to the prevailing practice in this country of issuing 4 per cent bonds running a hundred years, called "centuries," the writer thinks the practice a mistake, since it deprives the issuing company of the advantage to be derived from a further lowering of interest rates in the future. The "Economist" argues in favor of a term of not over fifty years.

We think there is force in our contemporary's suggestion. From what has been said, however, it is evident that at present a 3½ per cent loan like that of the Lake Shore is possible only where all the surrounding circumstances and conditions are of very exceptional character. Just at this juncture, too, such a negotiation possesses more than ordinary significance. For nearly four years now United States railroads have passed through an unusually trying period. The Lake Shore sale shows that investors and bankers have by no means lost faith in American railroad enterprises as the result. Again, the event must be taken as evidence that in the opinion of the banking interests who have undertaken to carry through the negotiation the indications point to a decided change for the better in the railroad situation and in the general business outlook. The earliest of the Lake Shore's maturing loans has over a year to run yet, and of the two large issues the first does not fall due until July 1 1900. Consequently an engagement of such magnitude, involving fifty million dollars, would not have been undertaken (notwithstanding the individual merits of the bonds) if the times were not considered propitious and opportune.

As concerns the Lake Shore itself, the refunding of the bonds at one-half their present rates is an event whose importance is hardly to be over-estimated. Looking back over the history of the property during recent years and observing the conservative way in which it has been managed, it is seen that the result is just what one should expect. In one respect the position of this property has been entirely unique. Our readers are familiar with the stereotyped remark, which has become a feature of the annual reports, that all betterments and other outlays have been included in operating expenses, that nothing has been charged to construction and equipment account since 1883. As a matter of fact, the construction and equipment outlays, for which no charge has been made to capital account (they having been paid for out of earnings) have in this case been unusually heavy. A second track, almost the entire length of the road, has been laid. Even as recently as January 1 1889 the company had only 273 miles of double track; January 1 1896 (the figures for 1897 have not yet been published) there were 491 miles of such track; besides this there were at the later date some 10 miles of third track against none at the earlier date, and 711 miles of sidings against only 598 miles. In addition, new and heavier rails have been put in, new and heavier bridges built, grades reduced and numerous other costly improvements made.

The equipment has been practically all renewed during the seven years. More than that, it has been very greatly increased. The number of cars owned Jan. 1 1896 was 19,872, against only 17,774 cars January 1 1889—that is, over two thousand new cars have been

added. And this does not show the full extent of the improvement, as the capacity of the cars now is very much greater than it was a few years ago. Over fifty locomotives were also added during this period. And all this has been done out of income. The company in one recent year charged up against earnings over 2½ million dollars for new equipment purchased. The amounts of the expenditures for improvements and additions to track and equipment have been graded chiefly by the size of the earnings; when earnings have been large, the improvement and betterment outlays have been also large, and vice versa. The following furnishes a record of these extraordinary expenditures for the seven years from 1889 to 1895, inclusive.

	Total for new equip- ment.	Equipment in excess of replace- ments.	New tracks, heavier bridges, etc.	Total extraor- dinary outlays.
	\$	\$	\$	\$
1895.....	1,615,954	500,000	36,856	536,856
1894.....	118,089	nil	35,745	35,745
1893.....	2,164,619	536,134	478,822	1,014,956
1892.....	*	nil	1,166,512	1,166,512
1891.....	974,890	320,000	1,016,367	1,336,367
1890.....	1,219,523	550,000	1,204,244	1,754,244
1889.....	1,332,627	900,000	965,736	1,865,736
	7,425,701	2,806,134	4,904,282	7,710,416

\* New equipment purchased this year was carried in an open account and charged the next year.

It will be seen from the foregoing that altogether the expenditures for new equipment during the seven years have been \$7,425,701. This represents both purchases in replacement of equipment worn out and destroyed, and purchases for absolute additions to the equipment. It is not always possible to get the exact division between the two classes of purchases, but as nearly as can be determined from the reports \$2,806,134 at least of the total of \$7,425,701 spent was in excess of the amounts required to make good losses for equipment broken up. Besides this, \$4,904,282 was spent during the seven years for new tracks, heavier bridges, etc., making together \$7,710,416. It should be understood that no portion of this covers expenditures for ordinary repairs and renewals. They represent entirely outlays for betterments, improvements and additions, and are independent of the repair and renewal expenditures.

At \$7,710,416 for the seven years, the amount per year averages over \$1,100,000. We do not know what the outlays in this way were during 1896, but presume they were inconsiderable, as earnings were small and conditions were unfavorable. With 1896 included we suppose the outlays for the eight years would be substantially the same as for the seven years, making the average for the eight-year period, roughly, say one million dollars per annum, or about two per cent on the company's stock.

We have stated that the amounts of these extraordinary outlays from year to year have been graded to meet the size of the company's earnings, being large or small accordingly as earnings were large or small. This is well shown by the fact that the net earnings have been kept nearly unchanged in the face of wide fluctuations in the totals of the gross earnings. During the eight years from 1889 to 1896, the gross has been as small as \$19,487,197 and as large as \$23,685,933, but the net has not varied much from 6½ million dollars during the whole period, having been \$6,639,745 in 1889, \$6,645,279 in 1890, \$6,798,711 in 1891, \$6,612,192 in 1892, \$6,562,020 in 1893, \$6,371,802 in

1894, \$6,447,815 in 1895 and \$6,382,338 in 1896. It has evidently been the policy not to show surplus earnings much in excess of 6 per cent on the outstanding stock, the amount reported earned for the stock having been 6.50 per cent in 1889, 6.67 per cent in 1890, 6.95 per cent in 1891, 6.54 per cent in 1892, 6.46 per cent in 1893, 6.00 per cent in 1894, 6.12 per cent in 1895 and 6.11 per cent in 1896. Besides this we have seen an average of two per cent per year has been spent out of earnings for outlays for improvements and additions.

With the refunding of the company's debt at 3½ per cent, an entirely new factor enters into the accounts. The total of the direct debt in 1896 was \$43,442,000 and the annual interest charge \$3,040,940. If we suppose that the whole 50 millions of 3½ per cent bonds will be required to carry out the exchange (\$24,692,000 of the old bonds do not mature until December 1 1903), the interest charge after conversion will be only \$1,750,000, a saving of \$1,290,940 per year, equal to 2.61 per cent. In other words, taking past earnings as a guide, there will be this much additional net income each year. In order to indicate just what the situation will be on this new basis, we have prepared the following tabular comparison.

	Amt. left		Total for	Improvement	
	for Stock.	Saving in Charges.	Stock.	Expenditures.	
	\$	\$	\$ P. C.	\$ P. U.	
1896.....	3,022,338	1,290,940	4,313,278=8.72	.....	
1895.....	3,028,315	1,290,940	4,319,255=8.73	536,856=1.08	
1894.....	2,968,939	1,290,940	4,259,879=8.61	35,745=0.07	
1893.....	3,196,644	1,290,940	4,487,584=9.07	1,014,956=2.05	
1892.....	3,236,828	1,290,940	4,527,768=9.15	1,166,512=2.36	
1891.....	3,439,460	1,290,940	4,730,400=9.56	1,336,367=2.70	
1890.....	3,300,544	1,290,940	4,591,484=9.28	1,754,244=3.55	
1889.....	3,216,276	1,290,940	4,507,216=9.11	1,865,736=3.77	

It thus appears that had the company's charges in the past been no heavier than they will be in the future, the amount available for the stock would have been above 8½ per cent for each of the last eight years—the smallest amount being 8.61 per cent for 1894, and the largest 9.56 per cent for 1891. This is the result, too, after very heavy expenditures out of earnings in the way shown above—that is for new equipment, new tracks, bridges, etc., etc. These expenditures have been equal to an additional 3 @ 4 per cent on the stock in some of the years—having been 3.55 per cent in 1890 and 3.77 per cent in 1889.

With such a record before us, and bearing in mind that the new bonds will be an absolute first mortgage on the system, and that the favorable results shown have been made on a freight rate of less than six mills per ton mile, it can be no surprise that the company should have been able to float a 50 million loan bearing only 3½ per cent interest and that both bankers and security holders should be anxious to secure some of the bonds. The interest charge on the issue will be only \$1,750,000, while, as we see, the surplus over and above that amount has been, during the last eight years, between 4½ million and 4¾ million dollars per year. Such an exhibit is at once evidence of the strength of the system and the excellence of its management, and shows how wise and successful the policy pursued in the administration of the property has been. It is also obvious, however, that there are such exceptional elements of strength in the Lake Shore case that even under the best of circumstances not every company can be expected to attain the same high state of credit, though of course it is a standard that all should aim for.

## THE PENNSYLVANIA RAILROAD ANNUAL REPORT.

The annual report of the Pennsylvania Railroad furnishes new proof of the strength of this great property in a period of adversity. For of course no one will attempt to gainsay the fact that the year 1896 was a period of extreme depression and very trying conditions. The Pennsylvania had been put to a severe test in 1894, when the railroads suffered at once from trade prostration and from a combination of unfavorable circumstances and events without a parallel in the history of the country. Taken all in all, 1896 was perhaps not as poor a twelve-month as 1894, and yet the depression in trade was at times more intense even than during 1894. And this depression touched the Pennsylvania more deeply than any other system, because it was most pronounced in the coal and iron trades, upon which that system so largely depends.

As we have stated on previous occasions, the Pennsylvania, though not a distinctively coal-carrying road, carries more coal over its lines than any other system. The depression in trade hit it in a double way so far as this large item of freight is concerned—first by reason of the prostration of manufacturing industries generally and second because of the special prostration of the iron and steel trades, which are the industries of paramount importance in the territory traversed and grid-ironed by the Pennsylvania lines. The effect is strikingly illustrated by a little three-line statement in the present report, which may escape the attention of most readers. This statement tells us that the aggregate coal and coke shipments over the Pennsylvania Railroad Division during the year 1896 were only 23,241,573 tons, against 26,799,052 tons in 1895. In other words, there was a loss in the coal freight of over 3½ million tons, or 13½ per cent. And this covers merely the principal division in the system.

The depression in the iron trade must have been an equally serious matter. Of course as far as this diminished the demand for coal the result is reflected in the curtailment of the coal shipments and explains the magnitude of such curtailment. But the iron trade yields other large items of freight independent of the coal tonnage. There are, for instance, the shipments of ore and other raw materials, then the shipments of pig metal, and finally the shipments of iron and steel in its various finished forms. All these were necessarily affected in the same way. During the early part of the year business was still quite active, the impetus afforded by the trade revival of 1895 having extended into 1896. But later in the year, with the growth of the silver movement and the declaration of the Democratic Party for free silver, business in many branches of trade came almost to a standstill.

As showing the effect on the production of pig iron, we may note that on October 1 1896 the output was only 112,782 tons per week, while on November 1 1895 it had been 217,306 tons per week, being a contraction between these two extreme periods of nearly fifty per cent, or at the rate of 5½ millions tons per year. It should also be remembered that the bulk of the iron made is produced in Pennsylvania, Ohio and Illinois, where a large part of the lines of the Pennsylvania system lies, and hence the contraction fell with special severity on those sections. The States mentioned also furnish the bulk of the steel output. We showed last week that in the production of Bessemer steel ingots in the United States

there had been a contraction as compared with 1895 of nearly a million tons—in exact figures, 989,222 tons. Of this shrinkage 686,110 tons was in the output in Pennsylvania, 86,426 tons in that of Illinois and 151,419 tons in that of Ohio. In other words, of the total loss of 989,222 tons in the production of Bessemer ingots last year, 923,955 tons occurred in these three States. What a great difference in the traffic of the roads a loss of nine hundred thousand tons in the production of steel means is of course too obvious to need emphasizing.

There were some favoring influences during the year, in which the Pennsylvania we may suppose participated to the full extent. But the effects of these may easily be exaggerated. One of the favoring factors was the large grain crops both in 1896 and in 1895. The benefits here, however, were not up to expectations. In the first place the low prices ruling for grain (except for wheat the latter part of the year) retarded the movement to market, and in the second place the competition of the routes to the Gulf ports deflected a part of the movement in that direction.

The existence of the Joint Traffic Association must also be considered as having been an advantage in the affairs of the year. But the benefits were negative rather than positive. The importance of the Association certainly cannot be over-estimated. It prevented demoralization at a time when a collapse in rates would have been inevitable except for its existence, and on the whole it has worked remarkably well. At the same time no one must make the mistake of supposing that it raised rates. That it did not do this is evident from a very cursory examination of the traffic statistics in the present Pennsylvania report. We have seen that there was a falling off in the coal tonnage in the amount of over 13½ per cent. Coal, as is known, is moved at very low average rates. With such a large proportionate falling off in the traffic bearing the low rates, we should expect a decided increase in the general average per ton per mile. What do we find? The company realized an average on the lines east of Pittsburg and Erie of only one hundredth of a mill more than the average for the previous year—that is, as against 5.63 mills per ton mile in 1895 the average in 1896 was 5.64 mills.

The report all through affords evidence of the trying conditions which prevailed during the year and the great loss in traffic resulting from the same; but it also shows how well the company passed through these conditions. Taking all lines owned and controlled, both east and west of Pittsburg and Erie, aggregate gross earnings fell from \$130,319,353 in 1895 to \$123,634,120 in 1896, and aggregate net earnings from \$39,425,744 to \$35,304,791. In other words, there was a loss of 6½ million dollars in the gross earnings and of 4½ million dollars in the net earnings. The extent of the loss in traffic represented by this falling off appears very clearly in the record of the freight movements. In the actual number of tons of freight transported there was a decrease of nearly 12½ million tons, the amount having dropped from 157,665,409 tons in 1895 to 145,192,644 tons in 1896; in the tonnage movement one mile there was actually a contraction of over a thousand million tons, the total having fallen from 14,202,881,094 tons to 13,197,645,843 tons.

It is when we examine the income account for the year that we see the strength of the system. In face of the falling off in traffic and revenues the income statement shows the five per cent dividends for the

year, calling for \$6,465,122, earned, with a surplus of \$766,700 left over, and this, too, after spending in excess of 1½ million dollars (\$1,516,898) for elevating tracks, revising grades and other improvements and additions. Every one will agree with President Thomson when, in speaking with reference to the outcome for the twelve months, he says: "In view of the severe business depression prevailing during a large portion of the year, and the consequent reduction of traffic and the sharp competition between the transportation interests, the results must be considered satisfactory."

The expenditures upon new capital account were larger in 1896 than in 1895, but this followed simply from the improved business early in the year. On the lines east of Pittsburg and Erie the capital expenditures for the twelve months were \$3,820,845 and on the lines west of Pittsburg and Erie \$2,380,099, making \$6,200,944 together. In 1895 the total had been \$4,598,258. When during the summer earnings fell off so heavily (in some months the last half of the year the company suffered a loss in gross earnings of nearly two million dollars), it was determined to stop all new work. Says Mr. Thomson: "It was deemed prudent to not only restrict the expenditures on construction account, but also to discontinue a large portion of the work which had been authorized in the revision of alignments and grades upon the line."

This illustrates how seriously shortened revenues on the railroads affect the general range of industries. The Pennsylvania in one recent year spent over 21 million dollars upon capital account, keeping many industries active and giving employment to thousands of men. But that was in 1892, when conditions were radically different. Now, with business dull and earnings falling off, the management have no alternative but to strictly limit their outlays. The funds required for the expenditures on the lines east of Pittsburg and Erie during the late year were obtained from the proceeds of the sale in 1895 of 3½ per cent sterling bonds, the sale having been made at that time because, as President Roberts stated, though the company did not then need the money the terms offered were so advantageous that it was thought advisable to close the transaction. The fact is an interesting one, in view of the negotiation this week by the Lake Shore of a 3½ per cent issue. The balance sheet of the Pennsylvania shows current liabilities December 31 1896 of \$18,258,723, offset by \$20,071,603 of cash assets, \$10,655,552 being in actual cash.

#### RAILROAD GROSS EARNINGS IN 1896.

We gave last week our usual compilation of the gross and net earnings of United States railroads for the late calendar year. That statement covered all roads from which we were able to procure returns of both gross and net. In addition we have returns of the gross alone for quite a considerable mileage, and following our practice in other years we present a supplementary table combining the two. The final result is much the same as disclosed by our totals last week—that is, the aggregate shows very little change from the year preceding. The object in giving this additional table of course is to get a still more comprehensive exhibit as to the gross than that furnished last week. The statement now covers 166,203 miles for 1896, with earnings of \$1,154,684,505 in that year, against \$1,154,450,923 in 1895.

Total (represent'g  
36 roads)..... \$10,359,247

For eleven months. 1 Covers lines directly operated East and West of Pittsburgh; including all lines owned and controlled, the loss is \$6,685,233. 2 For year ended November 30. 3 For ten months to October 31.

## COTTON CONSUMPTION AND OVERLAND MOVEMENT TO MARCH 1.

Our usual monthly statements of overland movement, port receipts, etc., brought down to the close of February are given below, and they consequently cover the first half of the cotton-crop season. The marketing of cotton during the month has been of fair volume, but slightly less than in February of 1896. There has come into sight during the month 464,730 bales, against 483,475 bales in February of 1896 and 583,062 bales in 1895. The aggregate amount of the crop of 1896-97 now visible is 7,443,007 bales. Spinners' takings have been somewhat greater during the month than in 1896, and their total takings for the half-year exceed those for

the same period of last year by 5,530 bales, but contrasted with 1894-95 the decline is heavy.

## OVERLAND MOVEMENT TO MARCH 1.

The gross movement overland in February has been 115,511 bales, which compares with 91,928 bales last year and 144,471 bales in 1895. The excess over a year ago in the total for the season to date now reaches 116,061 bales, but contrasted with 1894-95 the decline is 425,615 bales. The net for the month has been heavier than in either of the two preceding years, reaching 84,754 bales, or a gain over 1896 of 22,377 bales, the total then being 62,377 bales. In 1895 the net reached 71,664 bales. The aggregate for the six months records an increase over last year of 52,256 bales, but the decrease compared with two years ago is 290,696 bales.

## OVERLAND FROM SEPTEMBER 1 TO FEBRUARY 28.

	1896-97.	1895-96.	1894-95.
Amount shipped—

Total to be deducted.....	298,327	234,522	433,246
Leaving total net overland.....	703,900	651,644	994,596

\* This total includes shipments to Canada by rail, which since September 1 in 1896-97 amounted to 52,773 bales; in 1895-96 were 52,832 bales, and in 1894-95 were 69,188 bales.

## RECEIPTS, EXPORTS AND SPINNERS' TAKINGS.

The net receipts at the ports for the month have been less than in the like period of 1896 and appreciably smaller than in 1895, reaching a total of 404,976 bales, against 441,776 bales in February last year and 533,398 bales in 1895. The aggregate for the six months is of course much above that of last year. The exports to foreign ports have been less free than in either of the two preceding years, the shipments for the month this year being only 485,962 bales against 562,069 bales in 1896 and 522,425 bales in 1895. For the season to date the total exports are 1,367,910 bales greater than in 1895-96, but exhibit a falling off of 436,323 bales from 1894-95.

Movement from Sept. 1, 1896, to Feb. 28, 1897.	Receipts since Sept. 1, 1896.	Receipts since Sept. 1, 1895.	Exports Great Britain*	France.	Conti- nent.	Total.	Stocks Feb. 28.

Total 1896-6.....	.....	4,476,898	1,574,064	400,750	1,337,068	3,312,602	821,246
Total 1894-5.....	.....	6,718,248	2,660,839	644,263	1,821,933	5,117,035	995,839

\* Great Britain exports include to the Channel.

Using the facts disclosed by the foregoing statements, we shall find that the portion of the crop which has reached a market through the outports and overland, and the Southern consumption, since September 1, this year and the two previous years, is as follows.

	1896-97.	1895-96.	1894-95.
Receipts at the ports to Mar. 1...bales.	5,964,107	4,476,898	6,718,243
Reshipments overland during same time	703,900	651,644	994,596
Total receipts.....bales.	6,668,007	5,128,542	7,712,839
Southern consumption since September 1	530,000	518,000	453,000
Total to March 1.....bales.	7,198,007	5,646,542	8,165,839

The amount of cotton marketed since September 1 in 1896-97 is thus seen to be 1,551,465 bales more than in 1895-96 and 967,832 bales below the total for 1894-95. To determine the portion which has gone into the hands of Northern spinners during the same period we have prepared the following:

Total receipts to February 28, 1897, as above.....bales.	7,198,007
Stock on hand commencement of year (Sept. 1, 1896) —	
At Northern ports.....	70,990
At Southern ports.....	151,688 — 222,678
At Northern interior markets.....	4,056 — 226,734
Total supply to February 28, 1897.....	7,424,741
Of this supply there has been exported	
to foreign ports since Sept. 1, 1896.....	4,680,712
Less foreign cotton included.....bales.	29,030 — 4,651,682
Sent to Canada direct from West.....	52,773
Born North and South.....	2,145
Stock on hand end of month (Feb. 28, 1897) —	
At Northern ports.....	310,482
At Southern ports.....	605,979 — 916,461
At Northern interior markets.....	5,496 — 5,628,507
Tot. takings by spinners since September 1, 1896.....	1,796,234
Taken by Southern spinners.....	530,000
Taken by Northern spinners since September 1, 1896.....	1,266,234
Taken by Northern spinners same time in 1895-96.....	1,260,704
Increase in takings by Northern spinners this year..bales.	5,530

The above indicates that Northern spinners had up to Mar. 1 taken 1,266,234 bales, an increase over the corresponding period of 1895-96 of 5,530 bales and a decrease from the same time of 1894-95 of 442,089 bales.

#### AMOUNT OF CROP NOW IN SIGHT.

In the foregoing we have the number of bales which has already been marketed this year and the two previous seasons. An additional fact of interest is the total of the crop which was in sight on March 1 compared with previous years.

	1896-97.	1895-96.	1894-95.
Total marketed, as above.....bales.	7,198,007	5,646,542	8,165,839
Interior stocks in excess of Sept. 1.	245,000	376,500	348,000
Total in sight.....bales.	7,443,007	6,023,042	8,513,839

This indicates that the movement up to March 1 of the present year is 1,419,965 bales more than in 1895-96 and 1,070,832 bales less than in 1894-95.

As it will interest the reader to see what has come into sight each month of the season during this and previous years, we have prepared the following, which shows the movement for the last four seasons.

Months.	1896-97.	1895-96.	1894-95.	1893-94.
September.....	1,222,287	542,394	663,703	511,273
October.....	1,891,562	1,722,122	2,116,630	1,637,555
November.....	1,634,210	1,321,097	2,197,167	1,704,608
December.....	1,549,705	1,336,030	1,971,988	1,613,603
January.....	680,513	617,924	981,280	750,991
February.....	464,730	483,475	583,062	358,497
Total 6 months.....	7,443,007	6,023,042	8,513,839	6,576,527
Balance season.....		1,139,431	1,378,927	950,684
Total crop.....		7,162,473	9,892,766	7,527,211

#### WEIGHT OF BALES.

To furnish a more exact measure of the receipts up to February 28 we give below our usual table of the weight of bales. We give for comparison the figures for the same time in the two previous years.

	Six months ending Feb. 28, 1897.			Same period in 1895-96	Same period in 1894-95.
	Number of Bales.	Weight in Pounds.	Average Weight.	Average Weight.	Average Weight.
Texas.....	1,335,467	705,861,083	528.55	526.12	534.40
Louisiana.....	1,835,737	934,445,205	509.03	510.60	513.52
Alabama.....	257,258	129,658,032	504.00	499.00	508.00
Georgia.....	856,827	465,161,446	486.15	483.33	491.00
South Carolina.....	429,952	208,535,319	485.02	482.02	489.17
Virginia.....	651,238	311,552,259	478.40	484.84	494.12
North Carolina.....	229,962	112,502,010	499.22	488.91	494.57
Tennessee, &c.....	1,501,566	748,455,573	498.45	500.00	499.00
Total.....	7,198,007	3,616,170,927	502.39	502.14	508.27

Including Florida.

It will be noticed that the movement up to February 28 shows an increase in the average weight as compared with the same period of last year, the average this year being 502.39 lbs. per bale, against 502.14 lbs. per bale for the same time in 1895-96 and 508.27 lbs. in 1894-95.

#### DRY GOODS TRADE DURING FEBRUARY.

There was a large attendance of buyers in the market the past month and business in the aggregate has shown an improvement at both first and second hands in the general run of cotton goods. There has not, however, been any material change in the policy of buyers as they have kept the great bulk of their purchases regulated by requirements well in sight. This has been particularly the case in staple cottons, for which there is neither home nor export demand of any account for forward deliveries. The demand in brown, bleached and coarse colored cottons has been readily met, and in no direction do prices show any improvement, whilst buyers have occasionally had an advantage, as in 3 yard and 4-yard brown sheetings, wide sheetings and denims. Cotton dress fabrics have sold well, particularly in fancy printed lines, on a steady price basis. The month closes with jobbers here and elsewhere reporting a fairly active distribution and good prospects for March.

The print cloth market opened dull, with very heavy stocks, but on Monday, the 8th, the purchase of 750,000 pieces by the American Printing Company entirely changed the situation, bringing out an active demand at advancing prices, extras rising to 2 11-16c., an advance of 3-16c. over the price quoted on the first of the month. Buyers have, however, again retired, the market has receded 1-16c. and closes dull at 2 5/8c. for regulars.

FEBRUARY.	1897.					1896.				
	Cott'n low mid-dling.	Print-ing cloths, 64x64.	Sheet-ings, stand-ard.	Lan-caster ging-hams.	5th'n 3-yd. sheet-ings.	Cott'n low mid-dling.	Print-ing cloths, 64x64.	Sheet-ings, stand-ard.	Lan-caster ging-hams.	5th'n 3-yd. sheet-ings.

24.	6 1/16	2 1/2	5 1/4	5	4 7/8	7 1/16	2 3/4	5 5/8	5 1/4	5 1/4
25.	6 1/16	2 1/2	5 1/4	5	4 7/8	7 1/16	2 3/4	5 5/8	5 1/4	5 1/4
26.	6 1/16	2 1/2	5 1/4	5	4 7/8	7 1/16	2 3/4	5 5/8	5 1/4	5 1/4
27.	6 1/16	2 1/2	5 1/4	5	4 7/8	7 1/16	2 3/4	5 5/8	5 1/4	5 1/4
28.	6 1/16	2 1/2	5 1/4	5	4 7/8	7 1/16	2 3/4	5 5/8	5 1/4	5 1/4
29.	6 1/16	2 1/2	5 1/4	5	4 7/8	7 1/16	2 3/4	5 5/8	5 1/4	5 1/4
30.	6 1/16	2 1/2	5 1/4	5	4 7/8	7 1/16	2 3/4	5 5/8	5 1/4	5 1/4
31.	6 1/16	2 1/2	5 1/4	5	4 7/8	7 1/16	2 3/4	5 5/8	5 1/4	5 1/4

The above prices are—For cotton, low middling uplands at New York; for printing cloths, manufacturers' net price; for sheetings and hosiery, agents' price, which are subject to an average discount of 5 per cent, except when otherwise stated; Southern sheetings net.

## IMPORTS AND EXPORTS FOR JANUARY.

The Bureau of Statistics has issued a detailed statement of the foreign commerce of the country for the month of January, 1897 and 1896, and for the seven months ending January 31 in 1896-97 and 1895-96, as follows:

## MERCHANDISE.

	January.	7 mos. end. Jan. 31
1896-97.—Exports—Domestic.....	\$93,503,103	\$645,500,597
Foreign.....	1,478,984	10,714,714

Total.....	\$94,984,067	\$656,215,311
Imports—Free of duty.....	\$17,296,708	\$179,307,888
Dutiable.....	21,030,375	183,943,192
Total.....	\$38,327,083	\$363,251,080

Excess of exports.....\$43,656,986

1895-96.—Exports—Domestic.....	\$85,543,304	\$513,003,203
Foreign.....	1,426,724	11,061,764

Total.....	\$86,970,028	\$524,064,967
Imports—Free of duty.....	\$32,900,589	\$231,713,612
Dutiable.....	35,717,011	247,003,105
Total.....	\$68,617,600	\$478,716,717

Excess of exports.....\$18,352,428

## GOLD COIN AND BULLION.

1896-97.—Exports.....	\$371,944	\$14,179,237
Imports.....	536,621	78,151,206

Excess of imports.....\$184,677

1895-96.—Exports.....	\$10,568,526	\$79,940,111
Imports.....	10,367,849	10,921,730

Excess of exports.....\$195,598

## GOLD IN ORE.

1896-97.—Exports.....	\$70,411	\$224,071
Imports.....	209,055	1,401,116

Excess of imports.....\$138,644

1895-96.—Exports.....	\$3,002	\$49,852
Imports.....	179,012	1,205,674

Excess of imports.....\$174,010

## SILVER COIN AND BULLION.

1896-97.—Exports.....	\$3,997,754	\$37,099,860
Imports.....	877,067	7,437,262

Excess of exports.....\$3,120,687

1895-96.—Exports.....	\$1,903,293	\$34,839,925
Imports.....	1,057,597	8,031,173

Excess of exports.....\$3,845,702

## SILVER IN ORE.

1896-97.—Exports.....	\$150,903	\$913,335
Imports.....	1,875,150	10,901,822

Excess of imports.....\$1,718,247

1895-96.—Exports.....	\$85,400	\$427,191
Imports.....	1,433,622	8,443,159

Excess of imports.....\$1,348,222

## IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

Through the courtesy of the Collector of Customs at San Francisco we have received this week the details of imports and exports of gold and silver through that port for the month of January, and they are presented below, together with the figures for the preceding months, thus completing the results for the seven months of the fiscal year 1896-97. The imports of gold were inconsiderable in January, the amount received reaching only \$43,712, of which \$7,980 was in coin, and of silver there came in \$236,044, of which \$225,165 was bullion. There has been received during the seven months a total of \$9,179,684 gold and \$1,434,932 silver, which compares with \$634,796 gold and \$1,136,692 silver in 1895-96. The shipments of gold during January were \$105,252, all coin, and the exports of silver have been \$198,490 coin and \$512,540 bullion. For the seven months the exports of gold have been \$910,276, against \$499,769 in 1895-96 and \$5,993,666 silver has been sent out, against \$7,746,491 in 1895-96. The exhibit for January and the seven months is as follows:

## IMPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

MONTHS.	GOLD.			SILVER.		
	Coin.	Bullion.	Total.	Coin.	Bullion.	Total.

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.—Stock Exchange Clearing-House Transactions.—The subjoined statement, covering the clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1896 there is a decrease in the aggregate of 6.0 per cent. So far as the individual cities are concerned New York exhibits a falling off of 12.5 per cent, and the losses at other points are: St. Louis 8.6 per cent; Philadelphia 13.6 per cent; Chicago 7.7 per cent; New Orleans 16.9 per cent and Baltimore 6.3 per cent. Boston records a gain of 11.3 per cent.

CLEARINGS. Returns by Telegraph.	Week Ending March 6.		
	1897.	1896	Per Cent.
New York.....	\$148,814,818	\$512,717,915	-12.5
Boston.....	82,271,499	73,930,543	+11.3
Philadelphia.....	51,514,003	59,599,100	-13.6
Baltimore.....	12,108,279	12,992,018	-6.3
Chicago.....	70,311,306	76,159,716	-7.7
St. Louis.....	10,255,056	21,082,423	-8.6
New Orleans.....	7,085,079	8,526,173	-16.9
Seven cities, 5 days.....	\$601,221,300	\$784,987,903	-9.7
Other cities, 5 days.....	130,413,928	126,011,243	+3.5
Total all cities, 5 days.....	\$731,635,228	\$910,999,206	-7.8
All cities, 1 day.....	172,987,623	167,640,211	+3.2
Total all cities for week.....	\$904,622,851	\$1,078,639,417	-6.0

Another table, our usual monthly detailed statement of transactions on the various New York Exchanges, has also been crowded off of the first page. The results for the two months are, however, given below and for purposes of comparison the figures for the corresponding period of 1896 are also presented.

Description.	Two Months, 1897.			Two Months, 1896.		
	Par Value or Quantity.	Actual Value.	Average Price.	Par Value or Quantity.	Actual Value.	Average Price.

## Monetary and Commercial English News

LONDON, SATURDAY, February 20th, 1897.

[From our own correspondent.]

The landing of Greek troops in Crete has intensified the alarm which has been growing all over Europe for some weeks past. The great Powers, it is true, have occupied the principal towns of the island, but as yet, at all events, they have not ventured to compel Greece to withdraw her troops, though it is reported that Germany has proposed that Greece should be forced to yield, by the blockade of the Piræus if necessary. It will be very difficult, indeed, to take action against Greece, so strong is the feeling of sympathy with her in this country, France and Italy. It may be doubted whether our own Government, for example, could so far defy public opinion as to take extreme measures against Greece.

It is very generally believed on the Continent that Greece is being spurred on by Russia. That may be so, of course, but it is evident that the opportunity was too favorable to be neglected by the Greek people. They know the horror that has been excited all over Europe by Turkish atrocities, and they are aware of the sympathy felt for themselves. Therefore, they risked very little while they have a reasonably good chance of gaining much. At all events, the Powers have refused to allow Turkey to send troops to Crete, while they hesitate to order the Greek troops out of the island. The Sultan has acquiesced in this because he could not help himself. But he is calling out reserves and has ordered a squad-

ron to be prepared. It is possible, therefore, that he may attack Greece by land. In that case it is feared that Serbia and Bulgaria will join Greece and that the three little States will invade Macedonia.

What the real policy of Russia is nobody knows. It is reported that the fleet in the Black Sea is being fitted out with breathless haste, and that military preparations on a great scale are likewise being made. Whether all this means the breaking out of the great war that Europe has dreaded so long, or whether it is simply precautionary, there is no way of telling. The several great governments of the Continent assure the world that they are in full accord with one another, and that everything necessary will be done to preserve peace. But the world has heard so much of the European concert that it now attaches very little credence to the assurances. Trade is beginning to feel the effects of the general uneasiness. Even here in England, where only a few weeks ago improvement steadily went on, there are many signs of a decline in activity, and of course speculation of every kind is utterly at an end.

The money market is quiet, with little change. Gold is coming from abroad in fairly large amounts, and a good deal of the metal is on the way to London, where, owing to the political disquietude, speculation is utterly paralyzed, and even legitimate commerce is quieter than it was. For the next four or five weeks the revenue collections will be on an exceptionally large scale, and if business had continued active that would certainly have raised rates for a while, for the revenue is paid into the Bank of England, and therefore considerable sums are transferred to that institution from the open market. But so quiet is business that probably there will be little effect upon rates this year. At all events there is no sign yet of any material change.

The silver market is very dull, and the demand for India Council drafts has decidedly fallen off. The Council offered for tender on Wednesday 50 lacs and sold very little more than 19 lacs. Later in the day it disposed of about 5½ lacs by private contract. For the past few weeks the Exchange Banks have bought freely, and they are now fully supplied, but in a week or two they are certain to apply largely, for the stringency in India is increasing rather than abating. Whether the Council will be able to go on selling is very doubtful unless the Indian Government adopts some means of increasing its resources. In fact the India Council has announced that it will reduce its offering next week from 50 lacs to 40 lacs, which seems to confirm the belief that the Indian Treasuries are very poorly supplied.

In the stock markets, as already said, there is practically nothing doing. The general public is holding aloof and even professional operators are doing little. They buy upon a fall and sell upon a rise, but no one ventures upon a transaction that would take much time. This week there has been a somewhat better demand for American securities. Partly this is due to the appointment of Mr. Gage as Secretary of the Treasury, the opinion here being that Mr. Gage would not accept the appointment except he was assured of being allowed a free hand. Partly also because the political disquietude is directing attention to American securities. The hope is entertained that even if war breaks out this country will not take part in it. But on that point there is a great deal of doubt. On the other hand, it is assumed as reasonably certain that the United States will remain neutral, and therefore there is more inclination to buy good American securities. At the same time it is to be remembered that if real alarm arises business of every kind will be stopped, including investment. So far, London is much more quiet than the Continental centres.

Unfavorable news from Argentina and Uruguay has caused the securities of both countries to decline somewhat. Continental securities are entirely neglected. France sells as far as she can in London, but there is little inclination here to buy European securities. Almost every British security was affected at one time this week. Consols fell sharply, though they have recovered a good deal of the decline. British railway stocks have likewise been down. In short, all the markets may be said, roughly, to be given over to the professionals for the time being, and to see-saw with every rumor.

The British imports for the year have been as follows:

IMPORTS.	1897.	1896.	Difference.	Per Ct.
January .....	89,975,000	38,473,856	+1,501,812	+3.90

The exports for the year have been as follows:

EXPORTS.	1897.	1896.	Difference.	Per Ct.
January .....	19,762,378	21,146,491	-1,384,113	-6.54

The re-exports of foreign and colonial produce show the following contrast:

RE-EXPORTS.	1897.	1896.	Difference.	Per Ct.
January .....	4,177,825	4,806,384	-628,559	-13.08

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1897. Feb. 17.	1896. Feb. 19.	1895. Feb. 20.	1894. Feb. 21.
Circulation .....	25,472,985	24,852,235	24,623,095	23,919,070
Public deposits .....	15,093,026	13,390,273	9,337,203	9,501,583

Madrid .....	5	4	5	4	5	4	5	4
Copenhagen .....	4	4	4	4	4	4	4	4

Messrs. Pixley & Abell write as follows under date of February 18:

Gold.—The demand for export continues unabated and all arrivals have been easily placed. The arrivals of gold at the Bank total £156,000, mostly in sovereigns, from Australia and Egypt. Arrivals: South Africa, £151,000; River Plate, £31,000; West Indies, £13,000; total, £195,000. Shipments: Bombay, £12,500; Japan, £84,000; Madras, £3,000; Calcutta, £13,000; total, £122,500.

Silver.—A small rise, caused by shortness of supply, was lost at the beginning of the week, on the rumor that Japan intended to adopt a gold standard. Considerable demand for the East ensued and further weakness was prevented. The Indian quotation to-day is R. 80½ per 100 Tola. Arrivals: New York, £214,335; River Plate, £1,000; West Indies, £20,000; total, £235,335. Shipments: Bombay, £30,000; Colombo, £6,693; Madras, £3,000; Calcutta, £22,700; total, £122,393.

Mexican Dollars.—With no business to report in these coins, the nearest price is 29d.

The quotations for bullion are reported as follows:

GOLD.			SILVER.		
London Standard.	Feb. 18.	Feb. 11.	London Standard.	Feb. 18.	Feb. 11.

CHAYORS IN LEGAL TENDERS AND NATIONAL BANK NOTES TO THE Comptroller of the Currency has furnished the following, showing the amounts of national bank

notes February 1, together with the amounts outstanding March 1, and the increase or decrease during the month; also the changes in legal tenders held for the redemption of bank notes up to March 1.

National Bank Notes—		
Amount outstanding February 1, 1897.....		\$235,008,065
Amount issued during February.....	\$240,735	
Amount retired during February.....	1,099,860	858,125
Amount outstanding Mar. 1, 1897.....		\$234,149,960
Legal Tender Notes—		
Amount on deposit to redeem national bank notes February 1, 1897.....		\$21,921,374
Amount deposited during February.....	\$2,512,031	
Am't released and bank notes retired in Feb.	1,099,860	1,413,171
Amount on deposit to redeem national bank notes Mar. 1, 1897.....		\$22,334,545

\* Circulation of National Gold Banks, not included in above, \$86,367.

According to the above the amount of legal tenders on deposit Mar. 1 with the Treasurer of the United States to redeem national bank notes was \$22,334,545. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months:

Deposits by—	Nov. 1.	Dec. 1.	Jan. 1.	Feb. 1.	Mar. 1.
Insolvent bks.	\$647,905	\$704,585	\$895,497	\$935,997	\$1,026,652
Liquidating bks.	4,858,757	4,854,017	4,786,795	4,769,068	4,681,430
Red'g funds.	12,851,001	13,143,817	14,043,782	16,116,424	17,525,463
Total.....	18,357,663	18,702,419	19,726,074	21,821,374	23,234,545

\* Act of June 20, 1874, and July 12, 1882.

BONDS HELD BY NATIONAL BANKS.—The following interesting statement, furnished by the Comptroller of the Currency, shows the amount of each class of bonds held against national bank circulation and to secure public moneys in national bank depositories on February 28.

Description of Bonds.	U. S. Bonds Held Feb. 28, 1897, to Secure—		
	Public Deposits in Banks.	Bank Circulation.	Total Held.
Currency 6s, Pac. RR...	\$375,000	\$8,885,000	\$9,260,000
5 per cents, 1894.....	535,000	15,196,350	15,731,350
4 per cts., funded 1907...	12,095,000	152,060,000	164,155,000
4 per cents, 1895.....	2,025,000	36,082,050	38,057,050
2 per cts., funded 1891..	1,033,000	22,624,400	23,657,400
Total.....	\$16,063,000	\$234,797,800	\$250,860,800

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods Feb. 25 and for the week ending for general merchandise Feb. 26; also totals since the beginning of the first week in January.

## FOREIGN IMPORTS AT NEW YORK.

For week.	1897.	1896.	1895.	1894.
Dry goods.....	\$2,401,405	\$3,035,205	\$3,807,914	\$1,648,522
Gen'l mer'chise	5,915,488	8,615,978	8,212,950	9,304,603
Total.....	\$8,316,893	\$12,551,181	\$12,020,864	\$10,953,125
Since Jan. 1.				
Dry goods.....	\$20,005,052	\$26,269,511	\$28,793,522	\$15,723,397
Gen'l mer'chise	53,724,220	55,352,382	51,817,318	47,611,450
Total 8 weeks..	\$73,729,272	\$81,621,893	\$80,610,840	\$63,334,847

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending March 1 and from January 1 to date:

## EXPORTS FROM NEW YORK FOR THE WEEK.

	1897.	1896.	1895.	1894.
For the week..	\$6,398,407	\$7,022,057	\$5,719,401	\$8,216,547
Prev. reported	54,682,755	54,422,535	47,170,339	49,295,196
Total 8 weeks..	\$61,081,162	\$61,444,592	\$52,889,740	\$57,511,743

The following table shows the exports and imports of specie at the port of New York for the week ending Feb. 27 and since January 1, 1897, and for the corresponding periods in 1896 and 1895:

## EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....				\$10,177

Total 1896 .....	1,388,000	8,534,928	51,613	373,714
Total 1895 .....	633,748	5,174,277	23,823	213,978

—Messrs. Edward B. Smith & Co., of Philadelphia, have published for the information of their customers an interesting pamphlet of 24 pages, entitled a "Review of Annual and Other Late Reports of Local [i. e., Philadelphia] Corporations." The favorable reception which the edition issued last year received has induced the firm to issue a second edition. The compilers have aimed to bring together, in clear and concise form, information which is with difficulty extracted from the ordinary railroad reports.

**Breadstuffs Figures Brought From Page 479.**—The statements below are prepared by us from the figures of the New York Produce Exchange. We first give the receipts at Western lake and river ports, arranged so as to present the comparative movement for the week ending Feb. 27, 1897, and since August 1, for each of the last three years:

Receipts at—	Flour.	Wheat.	Corn.	Oats.	Barley.	Rye.
	Bbls. 190 lbs.	Bush. 60 lbs.	Bush. 56 lbs.	Bush. 32 lbs.	Bush. 48 lbs.	Bush. 56 lbs.
Chicago.....	50,884	86,310	811,848	1,859,014	357,080	25,470
Milwaukee.....	37,300	105,300	9,919	145,000	111,200	18,800
Duluth.....	.....	333,207	7,105	75,552	102,981	19,463
Minneapolis.....	1,062	676,070	29,960	185,360	42,630	9,880
Toledo.....	810	34,178	543,430	1,100	.....	700
Detroit.....	1,850	26,250	18,942	19,073	7,598	.....
Cleveland.....	1,190	3,438	3,380	24,678	.....	.....
St. Louis.....	24,800	64,543	774,470	394,700	29,350	4,800
Peoria.....	6,000	13,200	435,950	189,650	23,800	1,200
Kansas City.....	.....	83,000	371,500	97,000	.....	.....
Total week.....	124,498	1,484,358	3,010,100	2,992,077	674,539	77,719
Same wk. '96.....	150,307	2,790,068	3,560,845	3,647,773	957,728	53,441
Same wk. '95.....	186,947	1,957,098	2,070,310	1,829,463	560,061	65,923
Since Aug. 1.....	7,315,787	121,098,267	102,982,313	113,911,950	31,300,043	5,661,686
1896-97.....	7,234,573	113,345,415	70,503,058	80,878,781	30,058,371	2,722,377
1895-96.....	7,810,137	114,398,747	52,048,993	52,660,974	27,778,928	1,823,370

The receipts of flour and grain at the seaboard ports for the week ended Feb. 27, 1897, follow:

Receipts at—	Flour.	Wheat.	Corn.	Oats.	Barley.	Rye.
	bbls.	bush.	bush.	bush.	bush.	bush.
New York.....	93,508	248,125	854,050	994,000	191,125	14,825
Boston.....	19,145	55,176	135,694	86,978	51,289	1,570
Providence.....	4,026	12,470	585,700	3,435	.....	1,900
Philadelphia.....	43,516	14,233	704,350	102,944	11,200	.....
Baltimore.....	48,952	86,211	1,340,941	151,001	6,778	27,153
Richmond.....	2,993	14,554	29,000	18,882	.....	.....
New Orleans.....	14,799	1,820	1,811,347	225,870	.....	.....
Norfolk.....	.....	.....	894,472	.....	.....	.....
Newport News.....	7,000	.....	291,000	.....	.....	17,000
Galveston.....	.....	.....	535,186	.....	.....	.....
Mobile.....	.....	.....	100,000	.....	.....	.....
Portland, Me.....	7,616	15,998	.....	43,434	12,072	.....
St. John, N. B.....	9,036	16,622	.....	987	7,983	.....
Total week.....	243,268	449,068	5,594,520	1,439,848	287,768	292,248
Week 1896.....	294,341	128,390	900,392	994,340	117,109	57,392

\* Receipts do not include grain passing through New Orleans for foreign ports on through bills of lading.

The total receipts at ports from Jan. 1 to Feb. 27 compare as follows for four years:

Receipts at—	1897.	1896.	1895.	1894.
Flour.....bbls.	2,358,745	2,442,465	2,120,603	2,470,193
Wheat.....bush.	3,340,741	2,128,318	2,618,441	1,993,594
Corn.....bush.	85,114,153	12,342,057	3,090,985	12,025,019
Oats.....bush.	5,881,973	5,478,743	4,012,679	3,644,505
Barley.....bush.	1,458,707	877,843	707,360	982,030
Rye.....bush.	989,718	161,489	58,254	28,402
Total grain.....	40,285,292	20,095,449	11,045,722	18,073,510

The exports from the several seaboard ports for the week ending Feb. 27, 1897, are shown in the annexed statement:

Exports from—	Wheat.	Corn.	Flour.	Oats.	Rye.	Peas.	Barley.
	bush.	bush.	bbls.	bush.	bush.	bush.	bush.
New York.....	374,620	211,708	75,497	317,725	58,961	9,770	100,335

WALL STREET, FRIDAY, MAR. 5, 1897-5 P. M.

**The Money Market and Financial Situation.**—Wall Street experienced a genuine surprise on Tuesday when the facts were made known in regard to the placing of a new issue of 50 millions of 3½ per cent bonds by the Lake Shore Railroad Company. That so large an issue of securities could be successfully floated at so low a rate of interest is favorably regarded in financial circles. It is considered evidence of a more hopeful feeling in investment circles than has recently existed, and consequently of a large demand for the best class of securities both at home and abroad. The announcement also called attention to the securities of other companies in which the management of Lake Shore are interested, and the demand for them gave a buoyancy to the whole market and caused a substantial advance in prices.

The uncertain political situation abroad, particularly in South Africa and the Eastern Mediterranean, and its effect upon the foreign markets has been a factor in Wall Street operations this week. London sold American securities freely on Thursday, and this selling was made use of on the Stock Exchange by the trading element that favors lower prices to check the buoyancy which had been a feature of the early part of the week.

The inaugural address of President McKinley is a clear, strong statement of the purposes of the Executive during the coming Administration, and will have a tendency to remove any doubts as to his policy in matters of vital national importance. If the suggestions which he makes, especially in regard to the financial and currency question, can be carried out, the effect will doubtless be most beneficial in all departments of activity.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1½ to 1¾ per cent. To-day's rates on call were 1½ to 1¾ per cent. Prime commercial paper is quoted at 8 to 4 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £306, and the percentage of reserve to liabilities was 52.96, against 53.41 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows a decrease of 1,731,000 francs in gold and 2,313,000 francs in silver.

The New York City Clearing-House banks in their statement of Feb. 27 showed an increase in the reserve held of \$2,129,700 and a surplus over the required reserve of \$57,520,975, against \$55,685,950 the previous week.

	1897. Feb. 27.	Difference from Prev. week.	1896. Feb. 29.	1895. Mar. 2.
Capital	\$ 59,772,700		\$ 61,122,700	\$ 61,622,700
Surplus	74,888,100		73,017,100	72,028,200
Loans & discounts	497,009,700	Dec. 1, 137,900	462,521,900	484,204,200
Circulation	16,491,100	Dec. 122,300	13,619,600	12,083,500

Surplus reserve	17,521,975	Inc. 1,555,025	24,422,150	28,054,500

**Foreign Exchange.**—The foreign exchange market presents no new feature. It has continued dull and steady, but firm in tone on a limited volume of business.

To-day's actual rates of exchange were as follows: Bankers, sixty days' sterling, 485¼ @ 485½; demand, 487 @ 487¼, cables, 487½ @ 487¾.

Posted rates of leading bankers follow:

March 5.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	186 @ 486¼	488 @ 488½
Prime commercial	484¼ @ 485	
Documentary commercial	484 @ 484½	
Paris bankers' (francs)	518½ @ 18½	516½ @ 16½
Amsterdam (guilder) bankers	401½ @ 10½	40¼ @ 40½
Frankfort or Bremen (reichsmark) bankers	95 @ 95½	95½ @ 95¾

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying, -16 discount, selling par; Charleston, buying par, selling ½ premium; New Orleans, bank, \$1 00 premium; commercial,

25c. per \$1,000 discount; Chicago, 75c. per \$1,000 discount; St. Louis, 25c. per \$1,000 discount.

**United States Bonds.**—Government bonds have further advanced. Sales at the Board include \$475,000 4s, coup., 1925, at 123 to 123½; \$20,000 4s, reg., 1925, at 123½ to 123½; \$49,000 4s, coup., 1907, at 113 to 113½; \$100,000 4s, reg., 1907, at 111½; \$117,000 5s, coup., at 113½ to 113½, and \$2,000 5s, reg., at 113½ to 114. The following are closing quotations:

Mex. Doubloons.....	15 50	15 75	U.S. trade dollars	65 @ - 75
Fine gold bars....	par	¾ prem.		

**State and Railroad Bonds.**—Sales of State bonds at the Board are limited to \$12,000 Virginia fund, debt 2-3 1891 at 62½ and \$15,000 Virginia 6s deferred trust receipts, stamped, at 6.

There has been a relatively good volume of business in the market for railway bonds. Some bankers report liberal sales over the counter and prices have generally been well sustained. The announcement on Tuesday of the sale to a syndicate of bankers of a new bond issue of 50 millions by the Lake Shore Company was unexpected and caused a demand for old maturing Lake Shore bonds which carried the prices up from about 1 to over 3 points. Except an advance of 2 points in Fort Worth & Denver City, 1½ in Mil. & St. Paul general mortgage 4s and 1 point in Wisconsin Central bonds, the fractional changes in the active list are unimportant. This list, in addition to the above mentioned, includes Atchison, Chesapeake & Ohio, Chicago & Northern Pacific, Burlington & Quincy, Chicago & Eastern Illinois, Columbus Hocking Valley & Toledo, Kansas Pacific, Milwaukee & St. Paul, Mo., Kansas & Texas, Northern Pacific, Oregon Short Line & Utah Northern, Philadelphia & Reading, San Antonio & Aransas Pass, Southern Railway, Texas & Pacific, Union Pacific and West Shore bonds.

**Railroad and Miscellaneous Stocks.**—There have been several features of interest in the market for railway stocks this week, most conspicuous of which was the demand for shares of the so-called Vanderbilt group, under the lead of Lake Shore. This stock was bid up on Monday to 17½, twelve points above the previous highest price ever quoted for it. There was also an unusual advance in Michigan Central, St. Paul & Omaha, North West, and New York Central. This movement was chiefly due to the successful negotiation of the new Lake Shore bonds, as mentioned above. On the other hand there has been a marked depression in the anthracite coal stocks, led by Central of New Jersey, which declined on Tuesday to 93½, a loss of over 4 points since the close last week. This was due to the unfortunate condition of the coal trade, as has been previously mentioned in this column. Manhattan Elevated was also weak, selling on Tuesday at 85½, a decline of nearly 4 points from our last quotation. The grangers have been strong, stimulated by Burlington & Quincy's January statement, which was more favorable than had been expected, and shares in this group sold on Wednesday at from 1 to 3 points above last week's close. Since Wednesday there has been some recession from the best prices in the entire active list, owing to the taking of profits, some selling for foreign account and the belief in some quarters that the unusual advance movement had about spent its force and a reaction was due.

The miscellaneous list has been generally neglected, chiefly because of the unusual interest in railway stocks. There was a demand for Pullman Palace Car which carried the price up to 163, an advance of 6 points from the close last week. American Sugar has fluctuated between 118 and 115½, closing at 116½.

**NEW YORK STOCK EXCHANGE—ACTIVE STOCKS** for week ending MARCH 5, and since JAN. 1, 1897.

[illegible]

\* These are bid and asked; no sale made.      † Less than 100 shares.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every steam railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

Flint & Pere Marquette.	58,330	44,905	13,425	
Fla. Cent. & Peninsular.	43,005	36,440	6,565	
Ft. Worth & Denver City.	19,993	15,756	4,237	
Grand Rapids & Indiana.	38,718	35,713	3,005	
Indianapolis & Ft. W.	7,425	7,144	281	
Traverse City.	988	754	234	
Musk. Gr. Rap. & Ind.	2,484	1,946	538	

For the month of February 51 roads (all that have furnished statements for the full month as yet) show aggregate results as follows:

Month of February.	1897.	1896.	Decrease.	Per Cent.
Gross earnings (51 roads)	18,876,039	19,131,756	254,817	1.33

It will be seen there is a loss on the roads reporting in the amount of \$254,817, or 1.33 per cent.

**Net Earnings Monthly to Latest Dates.**—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of February 27, 1897. The next will appear in the issue of March 20, 1897.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

c After allowing for improvements, etc., total net on Railway for January, 1897, \$610,711, against \$695,504, and from Dec. 1, 1896, to Jan. 31, \$1,385,092, against \$1,462,457. On the Coal & Iron Co. after allowing for improvements, etc., there was for January, 1897, a deficit of \$134,257, against a surplus of \$22,341, and from Dec. 1 to Jan. 31, 1897, there was a deficit of \$146,531, against a deficit of \$60,079.

d Deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in December was \$139,532, against \$85,197 last year, and from January 1 to December 31, \$1,362,971, against \$1,041,947. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 50 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.

e After allowing for other income received net in January was \$105,238, against \$84,495, and from July 1 to January 31 \$130,471, against \$389,401.

f For January, 1897, taxes and rentals amounted to \$151,390, against \$151,408, and from July 1 to January 31, 1897, \$1,111,918, against \$1,136,811, after deducting which net for January, 1897, was \$246,575, against \$612,168, and from July 1 to January 31, 1897, \$4,312,635, against \$3,172,340.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus or deficit above or below those charges.

#### NORTHERN PACIFIC.

	Jan., 1897.	Sept. 1 to Jan. 31.
Gross earnings.....	\$958,868	\$8,422,420
Operating expenses.....	821,598	4,746,970
Net earnings.....	\$137,270	\$3,681,550
Taxes.....	36,500	214,481
Net operating income.....	\$100,770	\$3,467,069
Miscel. Income not includ'g land sales..	25,691	126,920
Total net income.....	\$126,461	\$3,593,989

The operating expenses from Sept. 1, 1896, include a proportionate part of the estimated taxes and rent and the renewals for the current fiscal year of the new company, being ten months to July 1, 1897.

#### STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

\* Figures were exceptional in 1895 on account of Atlanta Exposition. } Decrease in earnings due to factories being shut down.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of February 27, 1897. The next will appear in the issue of March 20, 1897.

Roads.	Gross Earnings.		Net Earnings.

Balance.....	sur.93,826	sur.142,435	def.2,408,092	sur.337,682

### Pennsylvania Railroad.

(Report for the year ending Dec. 31, 1896.)

The text of President Frank Thomson's report will be found on subsequent pages. Remarks upon the report will also be found in the editorial columns.

The earnings, general income account and balance sheet for a series of years, compiled for the CHRONICLE, are given herewith, presenting an interesting comparison.

#### EARNINGS ON ALL LINES BOTH EAST AND WEST OF PITTSBURG AND ERIE.

	1896.	1895.
Gross earnings.....	\$123,634,120	\$130,319,351
Operating expenses.....	88,329,329	90,893,610
Net earnings.....	\$35,304,791	\$39,425,743

#### TRAFFIC ON ALL LINES BOTH EAST AND WEST OF PITTSBURG AND ERIE.

	1896.	1895.
Passengers carried.....	71,919,860	74,654,116
Passengers carried 1 mile.....	1,527,570,136	1,536,921,657
Freight (tons) carried.....	145,192,644	157,665,409
Freight (tons) carried 1 mile.....	13,197,645,843	14,202,881,094

Below are given the results on the lines east of Pittsburgh and Erie, comprising the "Pennsylvania Railroad Division," the "United Railroads of New Jersey Division" and the "Philadelphia & Erie Division."

#### TRAFFIC ON LINES EAST OF PITTSBURG AND ERIE.

	1896.	1895.	1891.
Miles operated.....	2,721	2,675	2,671
Passengers carried.....	36,170,220	37,152,437	38,596,160
Passengers carried 1 mile.....	699,799,213	712,072,950	693,010,056
Rate per pass. per mile.....	1.964 cts.	1.953 cts.	1.977 cts.
Tons carried.....	72,967,125	78,259,520	61,677,691
Tons carried one mile.....	7,727,923,344	8,173,218,403	6,927,195,082
Rate per ton per mile.....	0.564 cts.	0.563 cts.	0.585 cts.

#### EARNINGS AND EXPENSES OF LINES EAST OF PITTSBURG AND ERIE.

	1896.	1895.	1894.
Earnings—			
Freight.....	43,500,713	43,922,018	40,412,551
Passenger.....	14,483,523	14,621,922	14,399,313
Express.....	1,415,070	1,517,043	1,198,263

### Mexican Central Railway.

(Preliminary Statement for 1896.)

The approximate results for 1896, compared with previous years, are given below:

	1896.	1895.	1894.	1893.
Gross earnings.....	10,208,020	9,495,865	8,426,025	7,981,763
Operating expenses.....	6,744,273	5,599,390	5,459,675	5,136,181
Net earnings (Mex. C'y).....	3,463,747	3,896,475	2,966,350	2,845,582
Average rate received for Mexican dollars.....	53-17c.	52-95c.	51-87c.	60-02c.
Net earnings equivalent in U. S. currency.....	1,841,515	2,063,156	1,538,693	1,784,923
Debit balance of miscel. items—1896 estimated.....	4,500	21,909	45,989	16,387
Bal. for fixed charges.....	1,837,015	2,041,347	1,492,704	1,748,436
Fixed charges.....	2,322,640	2,306,600	2,306,988	2,226,962
Deficit for year.....	485,825	205,252	814,184	478,528
Amount withdrawn from subsidy trust fund.....	300,000	275,000	750,000	500,000
Balance of subsidy trust fund Dec. 31.....	3,250,614	3,377,120	3,570,585	4,027,522
To cover deficit for the year only \$300,000 were withdrawn from the trust fund in 1896; the balance will be withdrawn in 1897.—V. 63, p. 968.				

# Lehigh & Wilkesbarre Coal—Central RR. of New Jersey.

(Report for the year ending Dec. 31, 1896.)

The Lehigh & Wilkesbarre Coal Company, in which the Central RR. of New Jersey is largely interested, recently filed a report for the year ending November 1, 1896, with the Auditor General of Pennsylvania. A copy of this report, which was filed for taxation purposes, was published by a daily paper on Sunday. The same paper also published a comparison between these figures and those in the company's last public report, that for the year ending Dec. 31, 1893.

Knowing that such a comparison was likely to be entirely misleading, we applied to President Maxwell for corrected figures and have received the statement quoted below.

Before giving it, however, we present the following explanation made by President Maxwell through the daily press on Monday: "The statement of the Lehigh & Wilkesbarre Coal Co., published in one of yesterday's papers, was for a period covering the lowest sales of coal for the last part of 1895 and the early part of 1896. Since then the prices of coal have been better, and for the last six or eight months the Lehigh & Wilkesbarre Coal Company has been earning enough to fully pay all its fixed charges, and with reasonable improvement in business it would earn a considerable surplus. The bonded debt of the company is nearly all bearing 7 per cent interest and will mature in the next few years, when it will be refunded at a lower rate of interest, thus making a large saving to the company.

"The unpaid coupons held by the Central RR. Co. of New Jersey, and which have been stated each year in the annual reports in precisely the same form as now, will be funded at the same time.

"The Lehigh & Wilkesbarre Coal Co. has a very large coal estate, second in importance only to that of the Philadelphia & Reading Co., and is capable of continuing its present output for the next century or two."

[In connection with the above statement, the following from the report of the Lehigh Coal & Navigation Co. for the year ending Dec. 31, 1896, is of interest: "The profit from the coal operations was nearly all made in the last six months of the year. Previous to that time the market was suffering from the extremely low prices caused by the unnatural competition and excessive production in 1895."—Eds.]

The official statement above referred to is as follows:

"The results for the calendar year 1896 compare with the results of 1893 as follows. [We have added the years 1890 and 1892.—Eds.] :

	1896.	1893.	1892.	1890.
Year ending Dec. 31—	\$	\$	\$	\$
Sales of coal.....	10,776,767	6,226,150	8,181,039	
Other income.....	5,385,447	311,444	250,672	335,677
Total gross.....	8,385,447	11,089,211	6,506,822	8,516,716
Mining expenses, &c.....	7,770,600	9,652,581	5,235,326	7,688,803
New tunnels, open'gs, &c.....	81,279			
Net earnings.....	524,568	1,435,630	1,271,496	827,913
Fixed charges.....	745,825			
Deducted from the calculation of coal lands and improvements as a depreciation charge to be paid into the sinking fund, ten cents a ton on coal mined during the year, amounting to.....	227,662	986,601	972,712	903,134
Deficit or sur., including sinking funds.....	448,979	sur.449,020	sur.298,784	def.135,221
Deficit in 1896 excluding sinking funds deducted as above stated.....	221,317			
Interest paid on consols held by Cent. RR. of N.J.....		424,120	298,155	
Balance.....		sur.20,909	sur.629	def.135,221

"During the first six months of the fiscal year, owing to the prevailing low prices for coal, the business resulted in a loss, but for the six months ending December there was a surplus over fixed charges and provision for the sinking fund.

"Since 1893 there has been paid off \$1,374,813 of funded debt and purchase money mortgages, during which period the floating and other indebtedness has increased \$1,229,030.

"Following is a statement of the indebtedness of the company for 1896 compared with 1893 :

	1896.	1893.
Funded debt.....	\$15,079,000	\$16,326,500
Leasehold mortgages.....	2,353,000	2,353,000
Mortgages.....	10,000	137,313
Partially paid on consols held by Cent. RR. of N.J.....	5,472,552	4,188,192
Floating debt.....	3,100,221	2,951,141
Other indebtedness.....	3,236,290	2,163,693

"The paid-up coupons and other indebtedness is composed largely of items representing an accrual of book charges covering a period of nearly twenty years and covered into a special provision fund.

"During the period from 1894 to 1896 the company has invested in additional property, new breakers, and made expenditures in part of future business, which have been charged to capital debt, nearly one million of dollars.

"Of the funded debt \$678,000 bearing 6 per cent interest matures during the current year and \$159,000 in 1898. The consolidated mortgage bonds bearing 7 per cent interest all mature in 1900. There are no other bonds outstanding bearing more than 5 per cent interest. The refunding of the indebtedness of the company (now bearing over 5 p. ct.) at that figure, together with the payment of the sterling bonds outstanding, would result in a saving of nearly \$150,000 per annum.

"The fixed charges of the Central Railroad Company of New Jersey will also be reduced through the issue of its general mortgage bonds, held by the trustees, for \$2,300,000, bonds bearing 6 per cent interest that mature this year. In addition thereto \$1,000,000 of 7 per cent and \$400,000 6 per cent bonds will mature in 1899, for which general mortgage bonds have been reserved and held by the trustees, and can be issued at either 4 or 5 p. cent, as the company may determine."—V. 62, p. 364; V. 64, p. 283.

## Louisville Railway.

(Statement for year ending Dec. 31, 1896.)

President J. B. Speed in his verbal report to the stockholders said in substance :

**Equipment with Trolley.**—The business of the system has suffered, owing to the general depression in business, but it is hoped that with the revival of trade your earnings will increase and enable the management to carry out the plan of completing the electrical equipment of the whole system at an early date. As soon as the weather will permit it is proposed to begin this work. The mileage of the company is 145 miles of track, of which 115 miles have been converted into trolley roads, leaving thirty miles still operated by animal power. During the year ten miles have been equipped with electricity.

Considerable changes have been made at the power station, and we now have a considerable surplus of power and a thoroughly modern and well-equipped station.

**Question of Conductors.**—There has been some discussion recently in regard to the operation of the system without conductors. The reason for this lies in the fact that the area covered by the city is so large for its population that the traffic measured by the mileage is exceedingly light. In order to give a service at all efficient it was necessary to use short fourteen and sixteen-foot cross-seat cars with one motor and one man, as compared with eighteen to thirty-foot side or longitudinal seat cars employed in other cities with two motors and two men. This arrangement enables us to operate our cars at short intervals, and with less crowding of passengers than prevails in other places. We employ a larger number of cars in proportion to population and passengers than any other city in the country. Our earnings for the past year were 15 cents per car mile as compared with 21 cents in Buffalo, 29 cents in Chicago, 35 cents in Boston, 15½ cents in Columbia, 20½ cents in Minneapolis and 23½ cents in St. Louis.

There are some of our lines which can be changed into conductor lines without injury to the service, and steps in this direction will be inaugurated as soon as practicable.

**Transfers.**—We have without question the most complete transfer system in the country. There are about ninety different transfers.

**Improvements.**—The company since 1889 has expended in the construction of its electrical equipment the sum of \$2,187,801, and in addition to this has expended on track work the sum of \$502,847. A considerable portion of its lines is now laid with heavy girder rail weighing 95 pounds to the yard. The completion of this work, securing rapid transit on every line, is of more importance to the public than any considerable change in the system of operating the road.

**Securities Held in Louisville.**—The securities of the company have gradually been acquired by our own citizens until nearly three-fourths of all the bonds and stock are held in Louisville.

Results for three years have been as follows :

	1896.	1895.	1894.
Year end, Dec. 31—			
Gross earnings.....	\$1,234,526	\$1,298,172	\$1,178,789
Operating expenses.....	628,538	672,050	633,206
Net earnings.....	\$605,988	\$616,092	\$545,583
Deduct—			
Interest.....	\$311,023	\$311,760	\$313,515
Taxes.....	52,037	47,608	42,484
Dividends on preferred.....	100,000	100,000	100,000
Dividends on common.....	100,000		
Improvements, etc.....	40,000		
Total.....	\$603,060	\$459,366	\$455,799
Balance, surplus.....	\$2,928	\$156,720	\$87,784

—V. 62, p. 990.

## Terre Haute & Indianapolis Railroad.

(Report for the year ending October 31, 1896.)

President McCrea, in the annual report, furnished a detailed explanation as to the causes which have produced the change in the company's position. The loss from operating the leased lines, he shows, has increased from \$15,070 for the year ending Oct. 31, 1892, to \$210,925 for the year ending Oct. 31, 1895. The loss of \$1,531,172 through the failure of Ives & Co. in 1887 and the settlement of accounts in 1890 with the St. Louis Vandalia & Terre Haute and Pittsburg Cincinnati Chicago & St. Louis, which called for cash payments aggregating over \$420,000 and the giving of a series of notes for \$657,666 maturing monthly in 1891 and 1892, necessitated economies in operation which have since required an abnormal outlay to place the property in a condition to meet the strong competition to which it is subjected.

**Leased Lines.**—Regarding the leased lines President McCrea says the losses have been :

	1896.	1895.	1891.	1893.	1892.
St. L. V. & T. H.....	\$81,047	\$470,820	\$31,360	\$9,156	\$10,075
T. H. & I. R. R.....	6,149	48,000	24,231	87,198	42,484
T. H. & M. R. R.....	25,951	25,889	23,193	14,367	17,943
T. H. & I. R. R.....	102,405	66,161	104,930	102,168	

**St. Louis Vandalia & Terre Haute R.R.**—The loss has been a most valuable one, all things considered, to the T. H. & I. R. R. Co. From 1893 to 1895, inclusive, the losses from operation amounted to \$113,333; but, as prior to 1894, the losses were made up through the business controlled. The expenses were largely increased during these years owing to expenditures to restore the track and motive power and for other purposes. There is, however, grave doubt if it will be possible to operate the line with direct profit to your company on the basis of a rental of 30 per cent of the gross receipts. Throughout the country lower rates have raised the operating percentage above 70 per cent. [The remarks touching the other leases are given below in the separate statement for each company.]

If it had not been for the losses on the Terre Haute & Peoria and Indiana & Lake Michigan lines, the dividends of 1893 could have been paid and left a surplus of \$23,127, instead of a deficit of \$13,095. In 1894 there would have been a full dividend and a surplus of \$22,875, instead of one cent annual dividend and a deficit of \$30,214. In 1895 a 6 per cent dividend would have shown a deficit of \$80,366, but the treasury reserve should have been ample to pay it.

**Changes in Balance Sheet.**—The balance sheet of Oct. 31, 1896, shows material changes compared with the previous years. These changes are explained as follows:

The fixed assets are increased by including the sum of \$188,185, representing the non-transferable one-fifth ownership of your company in the Indianapolis Union Ry. Co. The value of deferred assets has been reduced by placing the items of betterments to leased lines at a nominal value. This was also done with the stock held by your company in the T. H. & P. T. H. & L. and L. & L. M. companies, and the price of St. L. V. & T. H. preferred stock was reduced from \$125 per share to par (\$100), while the value of the common stock was placed at \$10 per share instead of \$20. All these changes seemed necessary in order to present a true statement of affairs.

In the current liabilities appears an item of \$220,522 for locomotive trust obligations, while among the current assets appears locomotives covered by trust, T. H. & P. T. H. Co., \$30,205, St. L. V. & T. H. RR. Co., \$130,317. These items represent the purchase of 22 freight locomotives of modern type, which were to be paid for in monthly instalments of \$5,000, covering a period of four years.

The reduction of current assets of \$187,939 is due to a diminution of the cash on hand and cash assets to the amount of \$322,315, which is partially offset by a decrease in the amount of bills payable and amounts due to other companies amounting to \$134,376.

**Receivership.**—As to the receivership the report says:

Early in the year it became apparent that the revenues would not be sufficient to meet the obligations of the leases; in fact, not enough to provide for taxes, rentals, interest, etc.; that large expenditures were necessary to place the main line in a condition to do business economically; that several hundred thousand dollars of floating debt was pressing for payment. A default in interest occurred on the bonds of the leased lines, and on application of the bondholders of the Terre Haute & Peoria RR. Co., on Nov. 13, the Court, with full acquiescence of your representatives, appointed Mr. V. T. Malott, of Indianapolis, the receiver of your property. Mr. Malott is President of the Indiana National Bank, a gentleman of large railway experience, and your property could not be in better hands.

**Physical Condition.**—The condition of the property Nov. 1, 1895, and the improvements since made were:

On the main line division there was a large number of bridges not adapted to the modern car and its load. Of the 239 miles between Indianapolis and St. Louis 54 per cent was laid with steel of sixty pounds to the yard weight, both light in weight and many years in use. Fifty miles were badly in need of ballast, and of the total fourteen railroad crossings but two were provided with interlocking machines. The locomotive equipment of the main line consisted of one hundred and two locomotives—thirty-four, or one-third of which, were over twenty years in service; thirty-four between ten and twenty years, and thirty-two less than ten years, two numbers being vacant. There were but twenty-six engines in the equipment which carried more than one hundred and forty pounds steam pressure.

An interlocking plant was put up at Greencup, the crossing of the P. D. & E. The work of overhauling the bridges commenced in previous years was continued. About 5,000 feet, or 50 per cent, of the trestle bridges received new tops, and about 2,234 feet, or 22 per cent, received new piling. About twenty-three miles of new steel weighing eighty-five pounds to the yard were laid.

The necessary ballast was put under the track. Twenty-two modern freight engines were purchased for use on the main line to take the place of a like number of old engines. The shops at Terre Haute were remodeled. The purchase of the engines has so far fully justified the expectations, the average train load on the main line having increased some 27 per cent.

**Earnings, Etc.**—The T. H. & L. proper shows:

	1896.	1895.	1894.	1893.
Tons carried	1,652,032	1,681,104	1,491,872	1,730,988
Rate per ton per mile	873 cts.	.90 cts.	.854 cts.	.892 cts.

Betterments (\$652,880), value nominal	Due other companies
Cash	Coupons not presented
Due by station agents and conductors	Miscel. liabilities
Due by other cos.	Car trust obligations
Due on miscel. accs.	Locomotive trust obligations
Car and locom. trusts	
R. E. Thompson, treas.	
Securities owned	
Bal. defic. in assets	
<b>Total</b>	<b>Total</b>

**Note.**—The car trusts assets above include cars and locomotives covered by trusts as follows: T. H. & L., \$143,100; St. L. V. & T. H., \$183,473; T. H. & L., \$21,722; total, \$348,295.

The securities owned consist of:  
3,260 shares of preferred stock of St. L. V. & T. H. RR. Co.  
5,000 shares of common stock (\$20) St. L. V. & T. H. RR. Co.  
5,442 shares of preferred stock T. H. & Peoria RR. Co.  
13,880 shares of common stock T. H. & P. RR. Co.  
8,000 shares of common stock T. H. & Logansport RR. Co.  
—V. 63, p. 1011.

**Terre Haute & Logansport Railroad.**

(Report for year ending Oct. 31, 1896.)

The report of the Terre Haute & Indianapolis RR. Co. gives the following facts regarding this road, which was leased by it at a rental of 25 per cent of gross receipts. Out of this rental was to be deducted taxes, rentals and interest.

The Terre Haute & Logansport lease has never been directly profitable to your company. The total losses from 1890 to 1895, inclusive, aggregate \$1,113,771, to which must be added the advances for betterments, \$130,658 [\$788,843 less \$337,935 repaid.—Eos.] As the T. H. & L. RR. Co. owns four-fifths of the stock, and the remaining one-fifth cannot receive any of the surplus out of the 25 per cent rental until the debt for betterments (\$430,658) has been paid, it may be said that the lease practically consists of a guaranty of the interest on the bonds. On this basis the road was almost self-sustaining between the years 1890 and 1894, inclusive. Whether the indirect benefits received from the operation of this line have compensated for the direct losses is difficult to determine. The falling off in earnings and consequent increase in loss was due almost entirely to business depression.

The earnings, expenses, etc., have been:

	1896.	1895.	1894.	1893.
Tons of freight carried	561,309	655,430	619,168	690,895
Rate per ton per mile	.899 cts.	.75 cts.	.725 cts.	.702 cts.
<b>Earnings—</b>				
Passenger earnings	169,542	175,549	159,779	179,462
Freight	395,710	480,018	465,031	527,102
Express, mail, etc.	30,487	25,082	25,007	24,398
<b>Total earnings</b>	<b>595,739</b>	<b>680,649</b>	<b>649,817</b>	<b>730,962</b>
<b>Operating expenses—</b>				
Maintenance of way and struc.	110,858	146,392		
Maintenance of equipment	99,722	100,045	513,593	585,719
Conducting transportation	289,988	297,807		
General expenses	14,823	14,257		
<b>Total operating expenses</b>	<b>514,192</b>	<b>558,493</b>	<b>513,593</b>	<b>585,719</b>
<b>Net earnings</b>	<b>81,527</b>	<b>122,146</b>	<b>136,224</b>	<b>145,243</b>
<b>Rental from lessee</b>	<b>148,930</b>	<b>170,152</b>	<b>182,955</b>	<b>182,741</b>
<b>Loss to lessee</b>	<b>67,403</b>	<b>48,006</b>	<b>26,231</b>	<b>37,493</b>

The decrease of \$84,307, or 17.56 per cent, in earnings from freight, was made up of \$53,589 from local freight and \$30,738 from foreign freight. The decrease from local freight was largely due to the strike of the coal miners in the bituminous mines, which commenced May 1, and continued throughout the fiscal year. During the time not one car of coal was mined on the T. H. & L. RR., and the loss of revenue from this source was \$32,238 as compared with the previous year. Average rate per ton per mile in 1896 was .899 cents, against .702 cents in 1893.—V. 61, p. 374.

**Terre Haute & Peoria Railroad.**

(Report for year ending Oct. 31, 1896.)

The report of the Terre Haute & Indianapolis RR. Co. says:

The Terre Haute & Peoria lease has never been directly profitable, and it is doubtful whether any indirect profits have accrued. The losses under the lease to Oct. 31, 1895, have amounted to \$277,741, to which must be added \$39,312 on account of betterment advances.

The earnings, etc., have been as follows:

	1896.	1895.	1894.	1893.
Passenger	88,572	100,367	88,811	93,959
Freight	295,291	323,222	293,457	300,689
Express, mail, etc.	19,897	21,894	22,847	21,510
<b>Total earnings</b>	<b>403,559</b>	<b>445,483</b>	<b>404,915</b>	<b>416,157</b>
Maint. of way and struc.	88,204	88,815		
Maintenance of equipment	50,172	54,785	393,070	393,468
Conducting transportation	235,957	223,535		
General expenses	10,561	10,802		
<b>Total expenses</b>	<b>384,896</b>	<b>377,939</b>	<b>393,070</b>	<b>393,468</b>
<b>Net earnings</b>	<b>18,663</b>	<b>67,544</b>	<b>11,845</b>	<b>22,689</b>

<b>Average rate per ton per mile</b>	<b>.715 cents</b>	<b>.715 cents</b>	<b>.715 cents</b>	<b>.715 cents</b>

1893.—V. 63, p. 924; V. 63, p. 924.

**Indiana & Lake Michigan Railway.**

(Report for the year ending Oct. 31, 1896.)

The report of the Terre Haute & Indianapolis Co. gives the following facts:

The Indiana & Lake Michigan lease is, for the reason that the T. H. & L. RR. Co. owns all of the stock, nothing more than a guaranty of the bonds, principal and interest. It is practically an extension of the T. H. & L. RR. from South Bend to Lake Michigan, and on no way benefit the T. H. & L. RR. Co. except through the business it may contribute to the T. H. & L. RR. It was opened in October, 1890, and has never paid operating expenses. The losses under the lease up to Oct. 31, 1895, have been \$112,047, to which must be added the advances on account of betterments, \$201,219.

	1896.	1895.	1894.	1893.
<b>Earnings—</b>				
Passenger earnings	18,835	15,748	9,878	12,472
Freight	47,209	43,370	39,139	38,484

## National Linseed Oil Company.

(Statement for year ending Dec. 31, 1896.)

Contrary to its usual custom, the company has issued no annual report and has given out no figures relating to its operations during the last year. President Euston, however, in his annual address to the stockholders at the meeting held in Chicago last week said:

The last year, whether in manufacture, transportation, banking or the distribution of goods, was one of more than ordinary anxiety and disappointment. No branch of business was exempt, and it was with a feeling of relief that all business men saw the year 1896 depart. The business of the National Linseed Oil Co. has been no exception, while in some degree its difficulties have been greater than the average, through conditions peculiar to the trade.

At a time when all business has been contracted and consumption is at its lowest, two of the largest crops of linseed in the history of the country have been raised, with the necessary consequence of a great reduction in the market value of the seed and linseed oil. Under the conditions which have prevailed in the many lines of business which are dependent upon linseed oil, the low prices have not had the usual effect of stimulating consumption.

During the twelve months we have seen occasional signs of improvement, which have proved transitory. In looking back upon the year 1896 we may well congratulate ourselves that by the most careful economies and watchful regard for your interests the credit of the company has been preserved, the cost of production reduced, and the trade of the company protected, and the physical condition of its manufacturing plants, storehouses and stations fully maintained.

Financial connections have been formed (which it would be premature to describe in detail at this moment) which will enable the cancellation of \$3,000,000 in debenture and the placing of \$1,500,000 of first mortgage fifteen-year 6 per cent gold bonds.

"This company has a monopoly, as you are aware, in the manufacture of linseed oil and oil cake, but it does not fear competition. The most exist in every line of business, and our cost of production and facilities are such that when there is business to be done we can do it in competition with any one and make a profit when many cannot. No further reduction in price of either our raw material or manufactured product on any serious scale is likely to occur, and an increased consumption and demand becomes daily more apparent.

"Our stock in trade has been secured at the lowest prices which have ever been obtained in this country, and it is reasonable to expect that our business will participate in the improvement foreshadowed in others."

A. O. Hall, Marcus Simpson and Samuel Thomas, whose terms as directors had expired, were re-elected without opposition.—V. 64, p. 380

## Quincy Mining Company.

(Report for the year ending Dec. 31, 1896.)

**Earnings, Etc.**—The company has outstanding capital stock of \$1,250,000, which on and after April 16, 1897, will be increased to \$2,500,000. It has no bonds outstanding, and its small current liabilities are shown below. Its earnings have been as follows:

	1896.	1895.	1894.
Mineral produced, lbs.	20,370,725	19,732,970	18,931,754

**Altoona Clearfield & Northern Ry.**—Sold in Foreclosure.—This road was sold in foreclosure Feb. 26 to W. L. Shellenberger, representing the bondholders.—V. 63, p. 601.

**Atchison Topeka & Santa Fe Ry.**—Atlantic & Pacific RR.—Official Statement as to Purchase of A. & P. Western Division.—The directors of the Atchison, in a circular to the stockholders, state that the consideration given for the Atlantic & Pacific Western Division bonds recently purchased was \$8,400,000 Atchison general mortgage bonds, 92,000 shares of preferred stock and \$530,000 in cash. The circular adds:

Decrees foreclosing the mortgage securing the bonds purchased have been entered, and it is expected to complete the sale of the property at an early date, under proper arrangements whereby it will be acquired by this company and the line of the Atchison general mortgage will be extended to include the Western Division of the Atlantic & Pacific RR. The property so acquired is subject to a receiver's indebtedness of about \$700,000 net. The sum of \$530,000 in cash above mentioned, together with the not indebtedness of the receiver, will be capitalized by the sale of general mortgage bonds when a satisfactory price therefor can be obtained. The bonds required for this purpose, together with the \$8,400,000 of general mortgage bonds which have been delivered upon said purchase, are taken from the \$20,000,000 of general mortgage bonds expressly reserved for the acquisition of auxiliary lines or securities representing satisfactory control thereof. The 92,000 shares of Atchison preferred stock delivered upon said purchase are in like manner taken from the \$20,000,000 of preferred stock set aside for the acquisition of auxiliary lines under the Atchison reorganization plan.

The added mileage obtained is 564.7 miles from Atlantic & Pacific Junction to the Needles, together with 210.6 miles additional under lease from the Needles to Mojave, 805.3 miles in all. Its gross earnings have exceeded \$3,500,000 annually for the past two years. Its net earnings during the past year, after deducting taxes and rentals paid by the receiver, have been sufficient to meet the interest charge assumed by the Atchison, which will be about \$400,000 per annum. It is proposed gradually to make the permanent improvements upon the road acquired which are necessary to bring its physical condition up to the standard of other Atchison main lines; and it is expected that important economies in the future operation of the property will result therefrom and from its incorporation as an integral part of the Atchison system.—V. 61, p. 328.

**Price of Stock.**—Explanation.—It should be understood that the recent change in the quotation price of Atchison common stock, which is quoted about 2 points lower than heretofore, arises from the fact that former quotations were of trust company certificates issued under the reorganization plan, which included rights to preferred stock representing assessments paid. These certificates have been dropped from the list of the New York Stock Exchange. The present quotations represent the new common stock issued therefor, preferred stock being separately issued to certificate holders.—V. 64, p. 328.

**Augusta Southern RR.**—South Carolina & Georgia RR.—Lease—Bonds Guaranteed.—The Augusta Southern RR., extending from Augusta, Ga., to Fenille, Ga., on the Central of Georgia Ry., a distance of 84 miles, has been leased in perpetuity to the South Carolina & Georgia RR. Co., possession having been taken on Monday. The \$400,000 five per cent bonds of the Augusta Southern are guaranteed, principal and interest, by the lessee, and will be so endorsed. By its new acquisition the South Carolina & Georgia expects to control considerable business heretofore diverted to other lines.

**Earnings**—The South Carolina & Georgia for the eight months ending Feb. 28, 1897 (February partly estimated), reports: Gross earnings, \$361,733; net earnings, \$365,852.—V. 60, p. 561; V. 63, p. 905.

**Burlington (Iowa) Electric Ry.**—Ordered Sold.—At Burlington, Iowa, March 1, Judge Smyth signed the decree ordering the foreclosure sale of this property.—V. 61, p. 41.

**Central Pacific RR.**—Government's Formal Demand.—At San Francisco, March 3, under instructions from the Secretary of the Treasury, bearing date of Feb. 17, Assistant Treasurer Berry made a formal demand upon the officers of this company for \$9,605,210, the sum claimed to be remaining due to the Government on account of the principal and interest of the instalments of the Government loan which matured in January, 1895, 1896 and 1897, after crediting the company

with the amount of the sinking fund. The action is merely technical, and was taken to preserve the Government's claim. The company, on the other hand, claims offsets for transportation on non-sided lines, etc., which would more than counterbalance the present demand.—V. 64, p. 423.

**Cayler & Woodburn RR.—Sale in Foreclosure.**—This property, including road "constructed and to be constructed" from Cayler to Woodburn, Ga., was sold in foreclosure at Statesboro, Ga., March 2, to A. A. Adams for \$23,500. V. 64, p. 134.

**Detroit Lansing & Northern RR.—Detroit Grand Rapids & Western RR.—New Securities Ready March 22.**—*Mortification of Plan.*—The reorganization committee has deemed it wise to modify the plan so as to have the new bonds dated Jan. 1, 1897, the first coupon for three months' interest to be payable April 1, 1897. Interest from April 1, 1896, to the date of the new bonds, Jan. 1, 1897, will be paid in preferred stock of the new company. The new consolidated bonds and stocks will be delivered on and after March 22, 1897, upon surrender of the Boston receipts at the company's office and of the New York receipts at the office of the Guaranty Trust Company.

The new securities to which the holders of reorganization receipts for the several issues disturbed are entitled are shown in the INVESTORS' SUPPLEMENT of January, 1897, except that each \$1,000 Detroit Lansing & Northern 7 per cent bonds with all over-due coupons is to be given also from *division of sinking fund*, \$79 73 in new first consols, \$73 11 in new preferred stock and \$3 31 in cash, and except that in accordance with the above notice the receipts for every \$1,000 Detroit Lansing & Northern bonds will receive as interest on the \$399 73 new bonds to which each is entitled \$24 89 in new preferred stock, while receipts for every \$1,000 Grand Rapids Lansing & Detroit, Saginaw & Western, Saginaw Valley & St. Louis bonds, and each \$1,000 Saginaw & Grand Rapids stock, will be given as interest on the \$750 new bond to which each of them is entitled \$22 50 also in said new preferred stock.—V. 63, p. 1063.

**Jacksonville Tampa & Key West Ry.—Foreclosure sale Postponed till April 5.**—The property was offered for sale at auction under foreclosure of the consolidated mortgage March 1, but as no purchaser appeared the sale was postponed until April 5. The upset price remains at \$350,000.—V. 63, p. 74.

**Kansas City Pittsburg & Gulf RR.—Through Service to Shreveport.**—On March 3 through train service was established between Kansas City and Shreveport, La., a distance of 569 miles. By May 1 it is expected trains will be running to Sabine Pass on the Gulf of Mexico. In our editorial columns will be found some further facts regarding the enterprise.—V. 64, p. 330.

**Lake Shore & Michigan Southern RR.—Refunding Mortgage—Offer to Holders of Maturing Bonds.**—The directors of the company on Wednesday authorized the making of a mortgage to secure \$50,000,000 of 100 year 3½ per cent gold bonds. They also accepted an offer from a syndicate represented by Speyer & Co to take the entire issue. The new bonds will be used to refund the present bonds as they mature, or to retire them in advance of maturity on the special terms to be offered in accordance with the announcement which is made below.

The following table shows the bonds to be refunded and the approximate amount of 3½ per cent bonds which would be required to retire them should the exchange on the terms mentioned be effected as of April 1, 1897. The later the exchanges are made the smaller, of course, will be the amount of 3½ per cents to be allotted:

LOAN—	Amount.	When due.	3½ per cents in exch.— Per bond.	Total.
Buffalo & Erie 1st M. 7s.....	\$2,705,000	April 1, 1898	\$1,000	\$2,720,000
Lake Shore Divisional 7s.....	1,455,000	April 1, 1897	1,041	1,410,000
1st mortgage 7s.....	14,440,000	July 1, 1900	1,680	15,595,000
Retired by sinking fund.....	8,500,000			
Lake Shore 2d mortgage 7s.....	21,692,000	Dec. 1, 1901	1,177	23,062,000
Not outstanding.....	308,000			
Adjustment of interest, say.....				1,000,000
Total.....	\$50,000,000			\$49,796,000

**NOTE.**—The value of the 7 per cent bonds on April 1 for the purpose of exchange will be approximately as follows: Buffalo & Erie firsts, 103½; Lake Shore Divisional bonds, 108½; Lake Shore firsts, 110½; Lake Shore seconds, 120½. At about those prices they would then be exchangeable (in case the exchange is then in progress) for the new bonds, the latter being taken at the prices of 102½. The amount of the new bonds to which each \$1,000 old bond would thus be entitled is shown approximately in the above table.

As shown by this table, \$6,808,000 of the new bonds represent old bonds already retired by the sinking fund or never issued. This amount of the new loan, therefore, is available for payment of premiums on the old 7 per cent bonds whenever exchanged at the rate above indicated. The inducement to make the exchange lies in the fact that the bondholder will secure practically the same net return on his money as now (the 7s are selling on about a 3½ per cent basis; after the exchange the return will be 3 7/16 per cent), and in addition, instead of a bond maturing in the immediate future he will have one due 100 years hence. As stated below, holders of between \$8,000,000 and \$9,000,000 of the old 7s have already agreed to make the exchange, and it is believed the remaining bonds will be rapidly turned in. The new bonds have been selling at 103, some sales having been made as high as 108½.

The syndicate which will take such of the new bonds as are not issued in exchange for the old 7s includes: Speyer & Co., J. P. Morgan & Co., Lazard Freres, Heidelbach, Ickelheimer & Co., F. A. Smithers & Co., the Central Trust Co. of New York, J. K. Conedy Tod & Co., E. H. Harriman, as well as

Teixeira de Mattos Brothers of Amsterdam, Speyer Brothers of London and Laz. Speyer Ellissen of Frankfurt-on-Main.

Speyer & Co. on Tuesday made this statement:

"The Lake Shore & Michigan Southern RR. Co. has decided to perfect now its arrangements for the refunding of its total existing bonded debt, the longest issue of which matures Dec. 1, 1903, and in this connection we have bought from the company now the total amount of the new issue of 3½ per cent 100-year gold bonds, which issue is limited to \$50,000,000, and which, upon the cancellation of the present mortgages, will become a first lien upon all the property of the company.

"As soon as practicable we shall offer for a limited time to the holders of the existing bonds the privilege of exchanging their present bonds for the bonds of the new issue. The existing bonds will be accepted on a basis of interest at 3½ per cent per annum in payment for the new bonds, which we shall offer to the bondholders at 103½ and interest.

"The unquestionable conservatism of the management of the Lake Shore & Michigan Southern RR. Co., and the fact that the interest charge, as it will be upon the retirement of the existing bonds, will amount to less than one-third of the present net earnings of the company, places these bonds almost in the same category with the best State and municipal securities, which now yield holders between 3½ per cent and 3¾ per cent upon the investment.

"The new 3½ per cent 100-year gold bonds at 103½ and interest will yield the holders about 3 7/16 per cent, so it is believed that the existing bonds will be exchanged very rapidly for the new bonds. In fact we already have the promise of such exchange of between \$8,000,000 and \$9,000,000 of the existing bonds by parties most familiar with the strength of the security of the new bonds."

When the above exchange is completed and the old 7 per cents shall all have been retired, the new loan will have reduced the company's annual interest charge by about \$1,370,000, equal to over 2½ per cent on the \$50,000,000 of capital stock now outstanding, and have relieved it from an annual sinking fund of \$250,000 yearly. This sinking fund, however, has never been charged against income. The \$6,500,000 bonds heretofore retired by it are represented in the balance sheet merely as a part of the \$11,449,850 which on Jan. 1, 1897, stood to the credit of the company's income account. The reduction in interest charges is here based on the amount of 7 per cents outstanding Jan. 1, 1897, after the retirement for the sinking fund of the usual \$250,000 of bonds.—V. 64, p. 423.

**Long Island RR.—New Directors.**—To give representation to the syndicate that bought the Corbin holdings of stock the following directors have resigned: J. G. K. Dier, Daniel Lord, Austin Corbin, Jr., George S. Elgell and A. C. Bedford. The Board now consists of James Timps, Jr., Vice-President of the United States Mortgage & Trust Co.; W. G. Oakman, President of the Guarantee Trust Co.; H. H. Vreeland, President of the Metropolitan Traction Co.; J. S. Auerbach, of Davies, Stone & Auerbach; F. G. Bourne, President of the Singer Manufacturing Co.; W. H. Baldwin, Jr., President of the Long Island RR. Co.; C. M. Pratt, L. C. Ledyard, F. L. Babbott, Dumont Clarke, President of the American Exchange National Bank; George W. Young, President of the United States Mortgage & Trust Co.; Theodore A. Havemeyer, Vice President of the American Sugar Refining Co. and August Belmont. A. C. Bedford remains as Secretary and Treasurer of the road.

**Atlantic Avenue Bill Introduced.**—The bill to enable the city of Brooklyn to meet its share of the cost of changing the grade of the company's tracks on Atlantic Avenue, a necessary preliminary to the carrying out of the proposed plans of the new managers of the company for a connection by tunnel with New York City, was introduced in the Senate at Albany on Wednesday. The bill authorizes the city to pay one-half the expense of this improvement, but in no case to exceed \$1,250,000, and for this purpose to issue its bonds with terms not exceeding twenty years. As the expenditure, and, therefore, the sale of the city's bonds, will be distributed over several years, and as the consolidation of Brooklyn with New York will soon take place, no hindrance, it is thought, will result from the nearness of Brooklyn to its debt limit. The bill forbids the use of steam for moving passenger trains on Atlantic Avenue except in case of emergency preventing the use of the other motive power employed.—V. 64, p. 373.

**Missouri Kansas & Texas Ry.—Earnings for Six Months.**—For the six months ending Dec. 31, 1896, the company reports its earnings, charges, etc., as follows:

Gross earnings.	Oper. exp. and taxes.	Net earnings.	Interest and rentals.	Balance, surplus.
\$6,549,022	\$4,573,821	\$2,025,201	\$1,712,918	\$312,283

—V. 64, p. 132.

**Nassau Electric RR. (Brooklyn, N. Y.).—Quarterly.**—Earnings for the quarter ending Dec. 31, 1896, have been reported as follows: The lines of the Atlantic Avenue RR., including Brooklyn Bath & West End, were leased in April, 1896, and their results are included below:

1896.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
3 mos. to Dec. 31.....	\$367,782	\$130,417	\$17,300	\$145,803	\$1,911
3 mos. to Sept. 30....	551,170	242,088	18,858	177,868	82,876
Total, 6 mos.....	918,952	372,505	35,958	323,674	84,787

For the six months of 1895 the combined gross earnings of the three roads above mentioned were \$733,360.

General balance sheet of Dec. 31, 1896, shows loans and bills payable of \$552,710.—V. 64, p. 373.

**New York Pennsylvania & Ohio First Mortgage Trust—Dividend Payment.**—A full year's interest has been received on the Erie prior lien bonds owned by the Trust. This will permit of a distribution on the present occasion of an extra 80s. per cent on the ordinary stock over and above the 10s. which would otherwise have been available for the half-year. The trustees therefore recommended that a dividend of 2 per cent less income-tax, be paid on the 17th ult. on the ordinary stock, carrying forward, £881. V. 63, p. 229.

**New York & Staten Island Electric—Mortgage for \$500,000.**—This company has filed a mortgage to the Central Trust Co., trustee, to secure \$500,000 of fifty-year gold 5s, which will be used for completing the light, heat and power plant recently purchased. This mortgage is not, as commonly reported, made by the New York & Staten Island Electric Railroad Co., the two corporations being distinct, though largely controlled in the same interest.—V. 64, p. 331.

**Norwich & Worcester RR.—New York New Haven & Hartford RR.—New Bonds.**—A press dispatch from New Haven says that the railroad committee of the State Legislature has reported favorably on the bill allowing the Norwich & Worcester to issue \$3,000,000 bonds and to extend the road from Allyn's Point to Groton.—V. 64, p. 133, 374.

**Peoria Decatur & Evansville RR.—Ordered to Be Sold.**—Judge Allen, in the United States Court, at Springfield, March 3, entered an order for the foreclosure sale of their road on application of the Central Trust Co. and William A. Heilman, the trustees under the second mortgage.—V. 64, p. 288.

**Peoria Water.—Coupon Payment.**—Two per cent interest on the bonds is being paid at the Atlantic Tr. Co.—V. 62, p. 779.

**Quincy Omaha & Kansas City Ry.—Reorganization Notice.**—Out of a total issue outstanding of \$1,459,240 non-preferred bonds there are now held by the Guaranty Trust Co. of New York, subject to the various agreements for the reorganization and sale of the property, \$1,445,640 bonds, leaving a balance not deposited of \$42,600 bonds. The holders of these \$42,600 bonds are requested to deposit them with the said Guaranty Trust Co. in order to secure the benefits of the plan of reorganization. Until further notice bonds will be received without penalty. See notice in another column.

**Interest Payment.**—Holders of certificates of deposit issued by the Guaranty Trust Co. for non-preferred bonds will receive six months' interest, due March 12, 1897, under the proposed lease. Checks will be mailed to holders of record March 5.—V. 64, p. 181.

**Raleigh & Gaston RR.—Seaboard & Roanoke RR.—New Mortgage—Refunding.**—The Raleigh & Gaston RR. Co. has made a mortgage to the Mercantile Trust & Deposit Co. of Baltimore, as trustee, to secure \$1,500,000 fifty-year 5 per cent first mortgage gold bonds of \$1,000 each, payable January, 1947. This mortgage, which covers all the property of the company, provides, it is stated, that \$1,000,000 of the new bonds shall be used only to retire \$1,000,000 eight per cent bonds due July 1, 1898; \$200,000 for betterments and improvements; and \$300,000 for additional construction or extensions; but these last cannot be issued for at least three years without the consent of the trustee. Of the maturing bonds \$300,000 have already assented to the exchange. The fixed charges, heretofore \$80,000 per annum, will now be reduced to \$60,000. The net earnings for the six months ending Dec. 31, 1896, are reported as \$110,780.—V. 62, p. 634; V. 64, p. 331.

**Reading Co.—Philadelphia & Reading RR.—Improvement Bonds to Be Extended at 4 per cent.**—The Philadelphia & Reading Company has arranged with Messrs. Drexel & Co. of Philadelphia to extend the \$9,364,000 of 6 per cent improvement mortgage bonds maturing Oct. 1 next for a period of fifty years from April 1, 1897, with interest at the rate of 4 per cent per annum, payable semi-annually, on the first days of October and April in each year, at the office of the Railway Co. in the city of Philadelphia. The following facts regarding the extension are furnished:

Both principal and interest of the extended bonds will be payable in gold coin of the United States, of the present standard of weight and fineness, without deduction for any taxes imposed by the United States or the State of Pennsylvania, under present or future laws. The lien of the mortgage now securing said bonds will continue unimpaired, and the Reading Company (the owner of the capital stock of said railway company) is also to become responsible for the payment of the principal and interest of said bonds.

The right to extend, as above, has been reserved to such of the present holders as shall deposit their bonds for that purpose with Drexel & Co., Philadelphia; J. P. Morgan & Co., New York, or J. S. Morgan & Co., London, on or before April 15, 1897.

The coupon due April 1, 1897, will be cashed at time of deposit, and at the same time depositors will be paid \$10 in cash on each \$1,000 bond, being the difference between interest at the rate of 6 per cent and the rate of 4 per cent for the period from April 1, 1897, to the present date of maturity of the bond, on October 1, 1897.

The firm named are also prepared to buy at par and interest at the rate of 4 per cent per annum to Oct. 1, 1897, less discount at the rate of 2 per cent per annum, any of the bonds the holders of which may prefer to sell rather than to extend.—V. 64, p. 424.

**Rochester (Street) Railway.—Quarterly.**—Earnings for the quarter and the six months ending December 31:

	3 months ending Dec. 31	Gross earnings	Net earnings	Other income, taxes, etc.	Interest	Balance, sur. or def.
1896		\$105,067	\$52,165	\$1,848	\$74,247	def. \$24,194
1895		212,723	86,831	3,261	73,663	sur. 16,320
6 months						
1896		410,844	137,639	4,012	155,937	def. 14,280
1895		452,521	190,114	5,038	147,173	sur. 47,979

Loans and bills payable Dec. 31, 1896, \$218,797, against \$148,000 on June 30.—V. 63, p. 670.

## Reports and Documents.

### PENNSYLVANIA RAILROAD CO.

FIFTIETH ANNUAL REPORT, FOR THE YEAR ENDING DEC. 31, 1896.

OFFICE OF THE  
PENNSYLVANIA RAILROAD COMPANY,  
PHILADELPHIA, March 2d, 1897.

The Board of Directors submit herewith a synopsis of their Fiftieth Annual Report for the year 1896:

The gross earnings of the three grand divisions east of Pittsburgh and Erie, embracing the Main Line, United Railroads of New Jersey and Philadelphia and Erie Railroads and Branches, were.....\$62,096,502 68  
Expenses.....43,459,326 91

Net earnings.....\$18,637,175 75  
To which add:  
Interest from investments.....\$4,935,808 42  
Rental of equipment, &c.....483,012 42  
5,418,880 84

Gross income.....\$24,056,056 59  
Deduct:  
Rentals, leased and operated roads.....\$8,824,163 09  
Interest on funded debt.....4,257,818 73  
Interest on mortgages and ground rents,  
car trusts, taxes, &c.....1,582,954 07  
14,661,935 89

Net income.....\$9,391,120 70  
From this amount the following deductions have been made:

Payments account Sinking and Trust Funds, and guaranty of interest on Allegheny Valley Railway bonds.....\$642,398 72  
Extraordinary renewals, &c.....1,516,898 72  
2,159,297 44

Balance after above payments.....\$7,231,823 26  
Dividends of 5 per cent.....6,465,122 50

Amount transferred to credit of profit and loss for the year 1896.....\$766,700 76  
Previous amount to credit.....23,553,469 86

\$24,320,170 62  
Amount charged off in reduction of value of securities and settlement of sundry accounts.....167,847 76

Balance to credit of profit and loss December 31st, 1896, \$24,152,322 86

In view of the severe business depression prevailing during a large portion of the year, and the consequent reduction of traffic and the sharp competition between the transportation interests, the results may be considered as satisfactory. After providing for all obligations, and expending about \$1,500,000 in improving your property, the regular dividend of five per cent was paid and a surplus of nearly \$900,000 carried to the credit of profit and loss.

#### SINKING FUNDS.

Under the provisions of the consolidated mortgage of the company, \$324,780 were set apart on the first day of July last, out of the net income, as a sinking fund for the redemption of the outstanding bonds secured by that mortgage. There are now \$4,798,682 10 in securities and cash in the fund for the redemption of these bonds.

Under the provisions of the four per cent Equipment Trust Gold Loan, there was paid to the trustee during 1896, for the sinking fund, the sum of \$136,400. The trustee was unable to obtain any of the bonds at the price fixed in the lease, and in accordance with the terms thereof the whole amount has been invested in additional equipment.

#### SECURITIES OF OTHER CORPORATIONS.

The entire cost of the securities of other corporations, including real estate mortgages now held by your company, is \$119,992,895 08. The direct revenue received therefrom was \$4,615,432 97, which amounted to nearly four per cent upon their cost, and more than provided for the interest on your funded debt.

#### CAR TRUSTS.

No further issues of these securities were made during the year. The outstanding certificates of Series "B" of the Pennsylvania Equipment Trust have been paid and canceled. This series covered 500 standard box cars sublet to the Pittsburgh Cincinnati Chicago & St. Louis Railway Company, and 500 standard box cars and 1,200 standard gondola cars to the Pennsylvania Company, representing a total cost of \$1,000,000.

The total number of cars provided under the car-trust system is 57,897.

Total amount of certificates issued therefor.....\$30,644,000 00  
Amount redeemed.....26,537,000 00

Balance of certificates outstanding December 31, 1896, \$4,107,000 00

The amount expended upon the Main Line and branches, and charged to capital account during the year, was \$2,537,214 65, of which the larger portion was for equipment and real estate. The expenditure for equipment represented, in addition to the purchase of two boats for use on the new ferry between Jersey City and Twenty-third Street, New

York, the usual outlay in payment for trust cars, and the purchase of 1,300 box and 1,000 gondola cars, which the activity prevailing in industrial pursuits during the beginning of the year seemed to render a necessity. In the early summer, however, in consequence of the unsettled condition of financial affairs, a serious depression occurred in the manufacturing and commercial interests of the country, which continued throughout the remainder of the year, and caused a heavy reduction in your traffic and revenue. Under these circumstances it was deemed prudent to not only restrict the expenditures on construction account, but also to discontinue a large portion of the work which had been authorized in the revision of alignments and grades upon the Main Line. A considerable amount had, however, already been done at the points especially referred to in the last annual report, namely, Kinzer's and Mt. Joy, on the Philadelphia Division, and Lilly's and Radebaugh, on the Pittsburgh Division; but at the present time no further outlay is being made in this direction except at Radebaugh, where the work upon the tunnel had so far progressed that it was deemed unwise to suspend operations.

The depression referred to extended over your entire system, and as your lines traverse a territory particularly dependent for its prosperity upon the coal and iron industries, their revenues necessarily show a greater proportionate reduction than in the case of other lines not so situated.

The amount expended in construction on branch and auxiliary lines was \$1,283,630 80, the most important items of which were the completion of the bridge over the Delaware River at Frankford, the construction of a portion of the Philadelphia Bustleton & Trenton Railroad and the double-tracking of the Pittsburgh Virginia & Charleston Railway.

The number of tons of freight moved on the three grand divisions east of Pittsburgh and Erie in 1896 was 72,967,125, a decrease of 5,292,401, or 6.76 per cent; the number of passengers was 36,170,220, a decrease of 1,282,317, or 3.42 per cent.

The other railroad companies east of Pittsburgh and Erie in which your company is interested show generally decreased earnings, due to the business depression prevailing throughout the country. Detailed statements of their operations will be found in their respective annual reports, as well as in the pamphlet report of your company. The total amount of coal mined during the year by the four coal companies in which you are interested was 1,975,385 tons, a decrease of 232,849 tons.

#### 

On the lines west of Pittsburgh operated by the Pennsylvania Company and the Pittsburgh Cincinnati Chicago & St. Louis Railway Company the results were as follows:

	1896.
Earnings of Pennsylvania Co .....	\$19,423,975 31
Expenses.....	12,111,604 30
Leaving net earnings.....	\$7,312,371 01
Rental, interest, &c.....	7,102,938 96
Net profit on Penna. Co.'s lines.....	\$209,382 05
Earnings of Pittsburgh Cincinnati Chicago & St. Louis Railway.....	\$16,873,851 82
Expenses.....	12,359,999 04
Leaving net earnings.....	\$4,513,855 78
Rental, interest, &c.....	3,850,912 30
Net profit on Pittsburgh Cincinnati Chicago & St. Louis Railway Company's lines.....	\$662,943 49
Net profit on lines directly operated west of Pittsburgh.....	\$872,325 53

The other lines west of Pittsburgh, on account of which your Company has assumed direct obligations, or in which it is largely interested through ownership of securities, but which are operated through their own organizations, show the following results:

The aggregate gross earnings of these roads were.....	\$6,222,397 67
Expenses.....	5,090,992 96
Net earnings.....	\$1,131,404 71
Deduct rental, interest, &c.....	1,408,237 96
Loss.....	\$276,833 25
Of this loss the Pennsylvania Railroad is responsible for Which deducted from the profit shown above.....	\$197,738 04
	872,325 53
Leaves a net profit on all lines west of Pittsburgh for 1896.....	\$674,587 49

The results from the working of these lines emphasize the unfavorable conditions prevailing in the manufacturing interests of the country, and show a large falling off in tonnage and revenue. They were, however, fully able to meet all liabilities and carry a surplus to the credit of the profit and loss on each system.

The amount expended on account of construction, equipment and real estate during 1896 on the lines west of Pittsburgh was \$2,380,099 44.

The expenditures for capital account on these lines were for additional equipment and real estate, tracks and terminal facilities. A further sum of about \$2,100,000 was invested in the purchase of the stock of the New Castle & Beaver Valley and Cincinnati Lebanon & Northern railway companies. The former road was operated under your lease of the Pittsburgh Fort Wayne & Chicago Railway, but as the requirements of the lease in regard to the division of

traffic and revenue were not in harmony with your general interests, it was deemed wise for the Pennsylvania Company to become its owner. The Cincinnati Lebanon & Northern Railway is a line running northerly from Cincinnati, a distance of about 36 miles, and having terminal facilities in that city of special value in connection with your lease of the little Miami Railroad.

#### 

The funds for the above purposes were obtained from the sale of the \$3,000,000 of four per cent Consolidated Mortgage bonds of the Pittsburgh Cincinnati Chicago & St. Louis Railway Company, referred to in the last annual report, and from a further sale of \$2,000,000 of the same securities made during the past year. These securities were held in the treasury of the Pennsylvania Company and involved no increase in the funded debt of the Pittsburgh Cincinnati Chicago & St. Louis Railway Company.

The work of rebuilding the bridge over the Ohio River at Cincinnati is almost completed, and its improved highway and trolley facilities are expected to largely increase that part of its traffic. For the purpose of retiring the outstanding seven per cent bonds, amounting to \$1,100,000, of the Newport & Cincinnati Bridge Company, and providing a portion of the funds for the reconstruction of its bridge, that company sold \$1,400,000 of its four and one-half per cent bonds, guaranteed principal and interest by the Pennsylvania Company, which owns a large majority of its capital stock.

It also became necessary for the Union Depot Company of Columbus, Ohio, in which your Company is largely interested, to rebuild its passenger station, and thus furnish improved terminal facilities at that important point. For this purpose it created a general mortgage securing \$800,000 of four and one-half per cent fifty-year bonds, of which \$450,000 were sold, the balance of the issue being reserved to retire such of the prior lien bonds of the Company as might not be redeemed through the operations of the sinking fund connected therewith. The work upon the new station is rapidly progressing and will be completed during the coming summer.

The number of tons of freight moved on the lines west of Pittsburgh was 46,176,140, a decrease of 6,202,941. The number of passengers was 16,379,284, a decrease of 309,720.

The gross earnings of all lines east and west of Pittsburgh for the year were \$123,634,120 19, operating expenses \$38,329,329 39 and net earnings \$35,804,790 80, a decrease in gross earnings, compared with 1895, of \$6,635,233 35, and in net earnings of \$4,120,952 79. There were 145,192,644 tons of freight moved, being a decrease of 12,472,765 tons, and 71,919,860 passengers carried, a decrease of 2,734,256.

#### 

There has been paid the Managers of the Trust created October 9th, 1878, by the Company, to December 31st, 1896, the sum of \$4,582,407 78. The total income therefrom has been \$6,067,399 80, and on that date securities amounting at par to \$8,212,730 were held in the Trust, yielding an interest of five and one-half per cent for the year. There was appropriated to the Trust for the year 1896 the sum of \$73,048 72.

The bonds of the American Steamship Company, amounting to \$1,500,000, the principal and interest of which were guaranteed by your Company, matured on October 1st, 1896, and \$1,485,000 thereof, which had been presented up to the close of the year, were paid out of the Trust Fund. That amount, together with \$673,665, the aggregate of the coupons purchased from time to time as they matured, has been charged against the principal of the fund, as well as \$160,000 of the bonds of the Pemberton & Hightstown Railroad, which were guaranteed by the United New Jersey Railroad & Canal Company, and assumed by you under the lease of the property of the latter company. These obligations have practically no value, and, as a result of the conservative policy pursued in the creation and maintenance of the Trust, have been met without any draft upon your treasury.

The assets of the Insurance Fund at the end of the year were \$3,762,611 27, being a decrease of \$17,089 88 as compared with 1895.

The membership of the Employees' Relief Fund at the close of the year was 40,853, the largest since its establishment. During the year the members contributed \$694,776 49, while the company and its affiliated lines contributed \$103,748 11 for operating expenses and \$40,214 20 for extra benefits to members whose disability had continued more than 52 weeks, and who were therefore no longer entitled to regular benefits from the Fund. The total receipts were \$855,880 44, and the balance on hand at the beginning of the year \$294,954 96. After distributing \$257,048 48 in death benefits and \$313,398 87 in cases of disability arising from sickness and accident, and meeting all its obligations and providing unadjusted death claims, a balance of \$388,284 73 was carried over to the present year.

The number of depositors in the Employees' Saving Fund at the end of the year was 4,944, an increase of 431. The amount received from depositors during the year was \$461,189 46, and the balance in the fund at the close of the year was \$1,759,893 26, of which \$1,700,000 is invested in securities bearing interest at the average rate of four per cent.

Necessary funds were deposited in New York to purchase the \$1,899,000 of seven per cent first mortgage bonds of the St. Louis Vandalia & Terre Haute Railroad Company which

matured January 1st, 1897. This road is operated under lease by the Terre Haute & Indianapolis Railroad Company, and the latter having been unable to meet its obligations to the other lines leased by it, all its properties have been, at their instance, placed in the hands of a receiver. Under this state of facts, although the Vandalia Company was in no way responsible for the default of its lessee, and was fully able to meet its own obligations, it was found impracticable to sell its securities to a tenant and thus provide the means to retire the bonds referred to. Your Company has therefore become the indirect guarantor thereof, become their purchaser, and will hold them until the relations between the Terre Haute & Indianapolis Railroad Company and its leased lines are finally adjusted.

On April 18th, 1896, the fiftieth anniversary of the incorporation of the company was appropriately celebrated by a public meeting of the stockholders at the Academy of Music, at which addresses were made by your late President, Mr. Roberts; also by the Governor of Pennsylvania, the Mayor of Philadelphia, the City Attorney of Pittsburgh, representing the Mayor of that city; Mr. Frederick Fraley, President of the Philadelphia Board of Trade; Mr. J. Twing Brooks, one of the vice-presidents of your Western lines, and Mr. Joseph H. Choate, of New York, the eminent orator and lawyer.

Mr. David S. Gray having resigned as General Manager of the Union Line to accept the position of representative of your system on the Board of Managers of the Joint Traffic Association, Mr. E. A. Dawson was appointed on 15th July, 1896, to fill the vacancy, and Mr. C. W. Forrester was appointed Western Manager of the Union Line in Mr. Dawson's place.

The Board have to record the death of one of their oldest members, Mr. Henry D. Welsh, on the 19th of December, 1896. Mr. Welsh's connection of over eighteen years with the Company, and faithful service in its behalf, make his loss one to be deeply regretted, both personally and officially. As a leading member of your committees, and as an officer and director of a large number of your subsidiary corporations, he gave the greater portion of his time to your interests, and won the affection and esteem of his associates.

Mr. Edingham B. Morris was elected a member of the Board to succeed Mr. Welsh, and Mr. R. Dale Benson appointed Auditor of the Trust Fund of October 9th, 1878, to fill the vacancy created by the resignation of Mr. Morris from that position.

Mr. John Scott, who for forty years had been connected with your legal department, during eighteen years of that period had been your General Solicitor, and then, until his death, the Counsel of the Company, died on the 29th of November, 1896. Mr. Scott's signal ability in his profession, high integrity and conscientious discharge of duty made him an invaluable adviser and trusted friend, and the Board desire to acknowledge the sterling traits of character that won for him the confidence and regard of all with whom he came in contact.

Mr. Robert Neilson, General Superintendent of the Philadelphia & Erie and Northern Central Railways, died on the 12th of October, 1896. Mr. Neilson had been connected with the lines of your system since 1863, and had filled the responsible position which he held at the time of his death since 1883. His intimate knowledge of the properties under his charge, and his intelligent and zealous devotion to the interests of the Company, made him one of its most trusted officers. Mr. J. M. Wallis, formerly Superintendent of Motive Power of the Pennsylvania Railroad Division, was promoted to fill the vacancy thus caused.

Since the close of the year the Company has to record the loss of your late President, Mr. George B. Roberts, whose life had practically been spent in your service, and who, beginning as a member of an engineer corps on the original construction of the Main Line, had successively filled more and more responsible positions until he was elected President, in June, 1880. During the seventeen years of his administration, he devoted his exceptional abilities to strengthening and consolidating your system, and brought to that work a ripe judgment and long experience which were of the greatest value in the determination of the important questions which from time to time affected your welfare. Mr. Roberts died on the 30th of January, 1897, after a protracted illness; and the Board submit with their full report the minute adopted by them, in the belief that it will meet the full approval of the stockholders, and that they will share the profound regret felt by the management at the loss of one whose controlling thought during his entire official life was for the conservation and advancement of the interests of the Company.

Mr. Frank Thomson was elected President on the 3d of February, 1897, to fill the vacancy caused by the death of Mr. Roberts; and in accordance with the revised organization adopted on the 10th of February, Mr. John P. Green was elected First Vice-President, Mr. Charles E. Pugh, Second Vice-President and Mr. Sutherland M. Prevost, Third Vice-President; Mr. Samuel Rea was appointed First Assistant and Messrs. William A. Patton and E. T. Postlethwaite additional Assistants to the President; Mr. William H. Joyce, Freight Traffic Manager; Mr. J. B. Hutchinson, General Manager, vice Mr. Prevost, elected Vice-President, and Mr. Michael Trump, General Superintendent of Transportation to fill the vacancy created by Mr. Hutchinson's promotion.

A condensed General Balance-Sheet of the Company is hereto appended.

The Board renew their acknowledgments to the officers and employes for the fidelity and efficiency with which they have discharged their duties during the past year.

By order of the Board.

FRANK THOMSON, President.

ROBT. W. SMITH, Treasurer.

Stockholders can obtain copies of the report in pamphlet form on application in person or by letter to the Secretary, Room 271, Broad Street station, Philadelphia.

**St. Joseph & Grand Island Ry.—New Company in Possession Feb. 28.**—On Sunday, Feb. 28, the new company, with William L. Bull as President, took possession of all the property of the old railroad company which was purchased at foreclosure sale Dec. 23, 1896, by the reorganization committee. The new securities are being printed.—V. 64, p. 424.

**St. Louis Iron Mountain & Southern Ry.—Missouri Pacific R.R.—Announcement as to Refunding.**—Messrs. Vermilye & Co. and Kuhn, Loeb & Co. announce that they have closed a contract with the St. Louis Iron Mountain & Southern Ry. Co. for the extension of the 1st and 2d mortgage bonds of that company maturing May 1 next. The 1st mortgage bonds will be extended at 4½ per cent and the 2d mortgage bonds at 5 per cent; both loans to run for fifty years, principal and interest to be payable in gold with the option to the company to retire either or both issues upon six months' notice at 105 and interest. The Cairo Arkansas & Texas 1st mortgage bonds maturing June 1, 1897, and belonging to the same system, will be paid off in cash.—"New York News Bureau."—V. 63, p. 1116; V. 64, p. 424.

**Second Avenue R.R. (N. Y. City)—Quarterly.—Earnings for the quarter and the six months ending December 31:**

3 months end. Dec. 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
1896.....	\$167,390	\$25,495	\$834	\$24,612	\$1,717
1895.....	218,798	41,608	625	33,150	9,093
6 months.					
1896.....	386,442	90,633	1,251	54,780	37,104
1895.....	494,719	129,561	1,250	72,767	58,344

Loans and bills payable Dec. 31, 1896, \$60,000, against \$10,000 on June 30.—V. 64, p. 235.

**Union Pacific Ry.—Coupon Payment**—The interest due Jan. 1, 1897, on the Union Pacific first mortgage bonds is being paid at the office of the Union Trust Co., New York, or at the office of the receivers in Boston, being \$30 30 on each bond.—V. 64, p. 424.

**West Chicago Street R.R.—Debentures Called.**—In view of the recent sale of consolidated bonds the company has called for redemption on April 28, 1897, \$2,000,000 of its debenture bonds. The remaining \$700,000 of debentures can be called June 1, 1897, if not previously retired by voluntary exchange. The \$6,000,000 of consolidated bonds now placed will be offered shortly by the Central Trust Co. and Hallgarten & Co., New York.

A Chicago paper says:

The sale of the additional \$2,500,000 of the consolidated bonds making \$6,000,000 in all.—Eda.) clears up the financial situation of the West Chicago Street R.R. and leaves that company in good condition. The several committees which looked into the condition of that company made reports which were invariably satisfactory, and it is the belief of those who are now most interested that the future of the company is assured.—V. 64, p. 424.

# The Commercial Times.

## COMMERCIAL EPITOME

FRIDAY NIGHT, March 5, 1897.

The inauguration of Mr. McKinley on Thursday as President of the United States has been the feature of the week. Naturally the attention of the nation was centered on the event, consequently business has been interrupted to a slight extent; furthermore weather conditions have been less favorable, and this too has had a tendency to restrict business in some lines of trade. The inaugural address of the new President has been favorably received and promises to further strengthen the gradually returning business confidence. During the latter part of the week advices from Europe stating that the Cretan situation had taken a more threatening aspect had considerable influence upon the course of prices in speculative commodities.

The following is a comparative statement of stocks of leading articles of merchandise at dates given:

	Feb. 1, 1897.	Mar. 1, 1897.	Mar. 1, 1896.
Pork.....bbls.	14,003	11,227	7,020
Lard.....tes.	25,457	24,661	26,153
Tobacco, domestic.....bbls.	13,528	13,120	15,663
Tobacco, foreign.....bales.	6,023	5,070	21,017
Coffee, Rio.....bags.	373,514	307,282	218,503
Coffee, other.....bags.	33,973	58,651	77,186
Coffee, Java, &c.....bales.	86,897	40,558	42,069
Sugar.....bbls.	2,329	2,521	482
Sugar, &c.....bags.	1,732,469	1,543,906	485,183
Molasses, foreign.....bbls.	None.	None.	215
Hides.....No.	51,800	27,400	110,600

Sisal hemp.....bales.	19,024	23,170	27,039
Flour.....bbls. and sacks.	131,300	115,100	162,400

Lard on the spot has had only a limited call from refiners and the export demand has been slow. Off-rings, however, have been light and prices have advanced, closing firm at 4:35@4:37½c. for prime Western, 4@4:05c. for prime City and 4:70c. for refined for the Continent. The local market for lard futures has been neglected. At the Western market the speculation has been fairly active at advancing prices, the fact that stocks do not increase materially and a decreased movement of swine stimulating a demand for investment account. The close was firm.

### DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thur.	Fri.
May.....c.	4:37	4:37	4:35	4:40	4:45	4:50

Pork has had a slightly better sale and prices have advanced to \$8 50@89 00 for mess. The home trade has been a fair buyer of tallow and prices have advanced to 8½c. Oleostearine has advanced to 4½@4¼c. Cotton seed oil has been quiet and prices have weakened slightly, closing at 20c. for prime crude and 23½c. for prime yellow. Fresh eggs have declined but the close was steady at 13½c. for choice Western.

Coffee of Brazil growth has had only a very limited sale, and as offerings have increased slightly the close was easy at 9½c. for Rio No. 7 on the spot and 9½c. to arrive. The demand for the mild grades has been quiet but prices have held steady, closing at 16¼c. for good Cuouta and 24@25c. for standard Java. There has been a quiet market for contracts and prices have declined under increased crop estimates, closing dull. Following were the final asking prices:

March.....	8:95c.	June.....	9:00c.	Sept.....	9:00c.
April.....	8:95c.	July.....	9:00c.	Oct.....	9:05c.
May.....	8:95c.	Aug.....	9:00c.	Dec.....	9:05c.

A limited amount of business was transacted in sugar at slightly lower prices, but the close was firm with these figures bid and sellers asking former prices. Centrifugals 96-deg. test quoted at 3¼@3¼c., and muscovado 88-deg. test at 2¾c. bid. Refined sugars have had a better sale at ½c. decline, closing at 4¼c. for granulated. Teas have been steady. The passage of the bill preventing the importation of adulterated teas has had a favorable influence.

Kentucky tobacco has been in demand for desirable grades at firm prices. Sales made, however, have been small, owing to light stocks. Seed leaf tobacco has continued in demand at strong prices. Sales for the week were 6,565 cases.

The market for Straits tin has been quiet and prices have declined, closing at 13:40@13:50c. Ingot copper has had only a limited sale and prices have weakened slightly, closing at 11:90@12c. for Lake. Lead has been in fairly active request and prices have advanced, closing firm at 3:40@3:45c. for domestic. Spelter has also advanced slightly, and the close was steady at 4:10@4:15c. for domestic. Pig iron has been quiet but steady at \$10 25@12 50 for domestic.

Refined petroleum has been dull, closing at 6:30c. in bbls., 3:80c. in bulk and 7c. in cases; naphtha dull at 6½c. Crude certificates have been neglected. Credit balances have been steady at 91c. Spirits turpentine has further advanced and the close was steady at 30c.@30½c. Rosins have been dull and closed lower at \$1 65 for common and good strained. Wool has had a fair sale at firm prices. A and B super pulled have advanced ½c. per lb. Hops quiet and easier for State.

## COTTON.

FRIDAY NIGHT, March 5, 1897.

THE MOVEMENT OF THE CROP, as indicated by our telegram from the South to-night, is given below. For the week ending this evening the total receipts have reached 95,263 bales, against 84,395 bales last week and 119,423 bales the previous week, making the total receipts since the 1st of Sept., 1896, 6,035,475 bales, against 4,515,497 bales for the same period of 1895-6, showing an increase since Sep. 1, 1896, of 1,489,978 bales.

Speculation in cotton for future delivery has been quiet and the tendency of prices has been downward. Foreign advices have been disappointing. The demand for actual cotton in the English markets has shown something of a shrinkage as a result, it is stated, of the diplomatic situation of Europe. The interior movement of cotton has increased slightly, due, so it is reported, to the large export purchases recently made. As a consequence longs have become somewhat timid and have shown a disposition to liquidate their holdings. Saturday there was an advance of 6 to 11 points in prices. There was moderate buying for foreign account and Southern advices reported a continued export demand for spot cotton, which induced some buying for local account. On Monday, however, the market turned weaker. Foreign advices were decidedly disappointing; demand at the South for cotton was smaller and there was some selling by longs to realize profits. The close was at a decline of 3 to 6 points for the day. Tuesday there was a further break in values. Advices from abroad were again disappointing and the crop movement was larger; this prompted increased offerings and prices closed at a decline of 9 to 13 points. Wednesday there was a quiet market but under advices from Manchester, England, reporting a falling off in the demand for spot cotton and continued selling by local traders, prices further declined 1 to 5 points. Thursday the downward course of prices continued. There was selling both for foreign and Southern account and as prices declined stop orders were reached and this added to the weakness. The close was barely steady at a decline of 10 to 11 points for the day. To-day the market opened at a decline of 2 to 8 points in response to weaker foreign advices but the "bear" interest was not aggressive and on the execution of new buying orders, attracted by the low prices, the loss was more than recovered. The close was firm at an advance of 3 to 5 points for the day. On Saturday a fair export business was transacted in spot cotton at 1½c. advance but this week the market has been dull and prices declined 1-16c. on Tuesday, 1-16c. on Wednesday and 1½c. Thursday. To-day the market was quiet but steady, middling uplands closing at 7 3-16c.

The total sales for forward delivery for the week are 798,600 bales. For immediate delivery the total sales foot up this week 26,219 bales, including 1,700 for export, 1,719 for consumption, — for speculation and 22,800 on contract. The following are the official quotations for each day of the past week—February 27 to March 5.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.		Sat.	Mon.	Tues.	Wed.	Th.	Fri.

Total sales this week Average price, week Sales since Sep. 1, '96*	798,600 — 22,756,000	446,900 — —	6,253,300 — —	293,800 — —	3,716,200 — —	500,000 — —	301,300 — —	680,000 — —	37,800 — —	74,700 — —	168,200 — —	106,000 — —	800 — —

\* Includes sales in September, for September, 15,100; September-October, for October, 334,800; September-November, for November, 372,000; September-December, for December, 2,200,000; September-January, for January, 7,114,100.

We have included in the above table, and shall continue each week to give, the average price of futures each day for each month. It will be found under each day following the abbreviation "Av'ge." The average for each month for the week is also given at bottom of table.

For exchanges see page 476.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the float are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Mch. 5), we add the item of exports from the United States, including in it the exports of Friday only:

	1897.	1896.	1895.	1894.
Stock at Liverpool.....bales.	1,396,000	1,148,000	1,860,000	1,800,000
Stock at London.....	3,000	5,000	7,000	7,000
Total Great Britain stock.	1,399,000	1,153,000	1,867,000	1,807,000
Stock at Hamburg.....	19,000	26,000	30,000	24,000
Stock at Bremen.....	219,000	278,000	347,000	217,000

The imports into Continental ports the past week have been 131,000 bales.

The above figures indicate an increase in the cotton in sight to-night of 49,729 bales as compared with the same date of 1896, a falling off of 938,656 bales from the corresponding date of 1895 and a decrease of 612,738 bales from 1894.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1895-96—is set out in detail below.

TOWNS.	Receipts		Shipments		Stock	
	This week.	Since Sept. 1, '96.	This week.	Since Sept. 1, '96.	This week.	Since Sept. 1, '96.

\* This year's figures estimated.  
† Last year's figures are for Newberry, S. C.

The above totals show that the interior stocks have decreased during the week 21,111 bales and are now 31,141 bales less than at same period last year. The receipts at all the towns have been 15,858 bales more than same week last year and since Sept. 1 they are 845,939 bales more than for same time in 1895-96.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below are closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending March 5.	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—					
	Satur.	Mon.	Tues.	Wednes.	Thurs.	Fri.
Galveston ..	7 1/8	7 1/4	7 1/4	7 3/8	7 1/8	7 1/8

Louisville...	7	7	7 1/8	7 1/8	7 1/8	7 1/8

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta.....	6 1/8	Eufaula.....	6 7/8	Natchez.....	6 7/8
Charlotte....	7 1/8	Little Rock..	6 1/8	Raleigh.....	6 7/8
Columbus, Ga.	6 3/4	Montgomery..	6 3/4	Selma.....	6 7/8
Columbus, Miss	6 3/4	Nashville.....	6 7/8	Shreveport....	6 7/8

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns.		
	1897.	1896.	1895.	1897.	1896.	1895.	1897.	1896.	1895.
Jan. 29.....	138,302	122,902	199,835	171,186	505,875	489,801	106,571	95,092	182,160
Feb. 5.....	101,564	113,589	155,098	141,460	479,143	466,453	74,778	88,854	131,750
" 12.....	119,423	106,440	132,980	120,094	458,279	442,289	104,117	85,582	108,825
" 19.....	81,304	109,396	91,807	101,906	438,487	420,269	57,745	89,603	60,787
" 26.....	84,395	95,859	137,940	374,238	410,983	402,728	56,728	63,155	120,390
Mch. 5.....	95,266	85,286	119,835	350,127	384,268	388,860	71,155	58,571	105,927

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1896, are 6,261,063 bales; in 1895-96 were 4,897,065 bales; in 1894-95 were 7,187,559 bales.

2.—That although the receipts at the outports the past week were 95,266 bales, the actual movement from plantations was only 71,155 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 58,571 bales and for 1895 they were 105,927 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Mch. 5 and since Sept. 1 in the last two years are as follows.

March 5.	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis.....	9,678	436,791	10,788	435,073
Via Cairo.....	3,619	234,680	5,361	201,435
Via Parker.....	596	14,003	155	13,553
Via Evansville.....	209	2,387	8	68
Via Louisville.....	2,728	116,492	3,616	110,140
Via Cincinnati..	4,501	114,140	5,290	73,655
Via other routes, &c.....	4,033	103,478	1,940	75,332
Total gross overland.....	25,361	1,021,974	27,158	909,256
Deduct shipments—				
Overland to N. Y., Boston, &c..	6,005	270,626	7,263	202,003
Between interior towns.....	84	3,315	266	2,870
Inland, &c., from South.....	1,345	27,222	874	35,861
Total to be deducted.....	7,434	301,163	8,403	240,734
Leaving total net overland*..	17,930	720,811	18,755	668,522

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 17,930 bales, against 18,755 bales for the week in 1896, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 54,289 bales.

In Sight and Spinners' Takings.	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Mch. 5.....	95,266	6,035,475	85,286	4,543,497
Net overland to Mch. 5.....	17,930	720,811	18,755	668,522
Southern consumption to Mch. 5.	19,000	547,000	18,000	534,000
Total marketed.....	132,196	7,303,286	122,041	5,748,019
Interior stocks in excess.....	24,111	229,533	26,715	351,568
Came into sight during week.	108,085		95,326	
Total in sight Mch. 5.....		7,532,819		6,099,587
North's spinners tak'gs to Mch. 5.	34,029	1,301,110	46,096	1,305,143

\* Decrease during week.

It will be seen by the above that there has come into sight during the week 108,085 bales, against 95,326 bales for the same week of 1896, and that the increase in amount in sight to-night as compared with last year is 1,133,332 bales.

**WEATHER REPORTS BY TELEGRAPH.**—Advices to us by telegraph this evening denote that while rain has been quite general at the South during the week, as a rule the precipitation has been light. Temperature has been a little lower. In Texas good progress has been made with farming operations, much corn having already been planted and preparations now being under way for planting cotton. In some portions of the State rain would be very beneficial, as ground is rather dry. The Department of Agriculture of Alabama reports that sales of fertilizer tags have been very heavy.

**Galveston, Texas.**—The weather during the week has been very favorable for farming operations as a rule, but the ground is beginning to get rather dry for spring planting. A general rain would be beneficial to farming interests. Much corn is being planted, and preparations are now being made for planting cotton. There has been light rain on one day of the week, the rainfall being two hundredths of an inch. Average thermometer 57, highest 69 and lowest 45. Month's rainfall, two inches and twenty-five hundredths.

**Palestine, Texas.**—We have had rain on one day of the week, to the extent of eight hundredths of an inch. The thermometer has averaged 54, the highest being 78 and the lowest 80. During the month of February the rainfall reached twenty-nine hundredths of an inch.

**Huntsville, Texas.**—There has been rain on one day during the past week, to the extent of four hundredths of an inch. The thermometer has averaged 56, ranging from 35 to 76. February rainfall sixty-three hundredths of an inch.

**Dallas, Texas.**—Good rains would be beneficial. Ground is too dry for plowing. We have had rain on one day of the past week, to the extent of eleven hundredths of an inch. The thermometer has ranged from 23 to 73, averaging 48; month's rainfall one hundredth of an inch.

**San Antonio, Texas.**—Rain is badly needed. There has been light rain on one day of the week, the rainfall being eight hundredths of an inch. Average temperature 58, highest 78 and lowest 38. February rainfall twenty-one hundredths of an inch.

**Luling, Texas.**—Rain has fallen on one day of the week, to the extent of seven hundredths of an inch. The thermometer has averaged 59, the highest being 78 and the lowest 40. February rainfall twenty-five hundredths of an inch.

**Columbia, Texas.**—It has been dry all the week. The thermometer has averaged 60, ranging from 42 to 77. During the month of February the rainfall reached two inches and thirty-three hundredths.

**Cuero, Texas.**—We have had no rain during the week. The thermometer has ranged from 40 to 78, averaging 59. Month's rainfall eighteen hundredths of an inch.

**Breham, Texas.**—It has been showery on one day of the week, the rainfall reaching two hundredths of an inch. Average thermometer 55, highest 75 and lowest 35. February precipitation thirty-five hundredths of an inch.

**Fort Worth, Texas.**—It has rained lightly on one day of the week, the rainfall reaching eleven hundredths of an inch. The thermometer has averaged 48, ranging from 24 to 72. February rainfall, one inch and eighty hundredths.

**Weatherford, Texas.**—There has been light rain on one day of the past week, the rainfall reaching eight hundredths of an inch. The thermometer has ranged from 23 to 74, averaging 48. Month's rainfall, sixteen hundredths of an inch.

**New Orleans, Louisiana.**—We have had no rain during the week. Average thermometer 58.

**Shreveport, Louisiana.**—There has been rain on three days during the week, to the extent of twenty-eight hundredths of an inch. The thermometer has averaged 57, the highest being 80 and the lowest 31. Month's rainfall forty-three hundredths of an inch.

**Columbus, Mississippi.**—It has rained on one day of the week, the precipitation reaching forty-seven hundredths of an inch. The thermometer has averaged 60, ranging from 45 to 80. Month's rainfall, two inches and sixty-one hundredths.

**Leland, Mississippi.**—We have had no rain during the week. The thermometer has ranged from 25 to 68, averaging 49. Month's rainfall, four inches and twenty-nine hundredths.

**Vicksburg, Mississippi.**—We have had light rain on two days during the past week, the rainfall being seven hundredths of an inch. Average thermometer 57, highest 77 and lowest 31. February rainfall, two inches and sixty-seven hundredths.

**Little Rock, Arkansas.**—There has been rain on three days during the week, the precipitation reaching twenty-eight hundredths of an inch. The thermometer has averaged 46, the highest being 71 and the lowest 21.

**Helena, Arkansas.**—We have had rain on four days of the week, the rainfall reaching one inch and eight hundredths. Too wet. The thermometer has ranged from 20 to 65, averaging 46. Month's rainfall six inches and twenty-one hundredths.

**Memphis, Tennessee.**—There has been rain on three days during the week, the precipitation being fifty-five hundredths of an inch, and rain is now falling. The river is two and one-tenth feet below the danger line and rising. The thermometer has averaged 44.2, ranging from 20 to 66. Month's rainfall five inches and seventeen hundredths, on eleven days.

**Nashville, Tennessee.**—It has rained on three days of the week, to the extent of eighty-one hundredths of an inch. Average thermometer 38, highest 69 and lowest 3. February rainfall three inches and eighty-four hundredths.

**Montgomery, Alabama.**—The Commissioner of Agriculture of Alabama says the sales of fertilizer tags have been unprecedentedly heavy, and it is feared that too much cotton will again be planted. We have had rain on two days of the week, the precipitation reaching twenty-three hundredths of an inch. The thermometer has averaged 52, ranging from 48 to 60. Month's rainfall five inches and sixty-five hundredths.

**Mobile, Alabama.**—Planting preparations are backward. There has been no rain, the past week. The thermometer has averaged 54, the highest being 71 and the lowest 32. Month's rainfall, seven inches and seventy hundredths.

**Madison, Florida.**—Present indications are that the cotton acreage will be about the same as last season. There has been no rain during the week. Average thermometer 66, highest 86 and lowest 31.

**Savannah, Georgia.**—There has been rain on three days during the past week, to the extent of one hundredth of an inch. The thermometer has averaged 54, ranging from 32 to 82. Month's rainfall, eight inches and eighty-five hundredths.

**Augusta, Georgia.**—We have had rain on two days of the past week, to the extent of nineteen hundredths of an inch. The thermometer has ranged from 27 to 78, averaging 51. February rainfall, eight inches and fifty-seven hundredths.

**Charleston, South Carolina.**—Rain has fallen on three days of the week, to the extent of twenty-eight hundredths of an inch. The thermometer has averaged 54, the highest being 75 and the lowest 38. Rainfall for the month, seven inches and sixty-one hundredths.

**Stateburg, South Carolina.**—It has rained lightly on three days of the week, the precipitation reaching twenty-one hundredths of an inch. The thermometer has averaged 50.7, ranging from 30 to 77. February rainfall eight inches and thirty-nine hundredths.

**Greenwood, South Carolina.**—We have had rain on one day during the week, the precipitation reaching sixteen hundredths of an inch. The thermometer has ranged from 44 to 60, averaging 52.

**Wilson, North Carolina.**—It has been dry all the week. Average thermometer 49, highest 74 and lowest 24.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 9 o'clock March 4, 1897, and March 5, 1896.

**ALEXANDRIA RECEIPTS AND SHIPMENTS.**—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, March 3.	1896-97.	1895-96.	1894-95
Receipts (cantars*)....			
This week.....	115,000	90,000	80,000
Since Sept. 1.....	5,031,000	4,856,000	4,250,000
Exports (bales).....			
To Liverpool.....	11,000	7,000	8,000
To Continent.....	6,000	5,000	13,000
Total Europe.....	17,000	12,000	21,000

\* A cantar is 98 pounds.  
 † Of which to America in 1896-97, 29,379 bales; in 1895-96, 41,672 bales; in 1894-95, 29,911 bales.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market is firm for yarns and quiet for shirtings. Merchants are not willing to pay present prices. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

1897.						1896.

**SEA ISLAND COTTON MOVEMENT.**—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (March 5) and since Sept. 1, 1896, the stocks to-night, and the same items for the corresponding periods of 1895-96, are as follows.

Receipts to March 5.	1896-97.		1895-96.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1897.	1896.
Savannah.....	517	80,530	492	71,907	17,795	12,421
Charleston, &c.....	78	10,237	153	10,330	3,866	2,545
Florida, &c.....	56	6,491	....	4,783	4,091	812
Total.....	649	97,267	645	87,080	25,452	15,778

The exports for the week ending this evening reach a total of 760 bales, of which 735 bales were to Great Britain, 25 to France and — to Reval, and the amount forwarded to Northern mills has been 754 bales. Below are the exports for the week and since September 1 in 1896-97 and 1895-96.

Exports from—	Week Ending Mch. 5.			Since Sept. 1, 1896.			North'n Mill.	
	Great Brit'n.	Fr'nce &c.	Total.	Great Brit'n.	Fr'nce &c.	Total.	Week.	Since Sept. 1.
Savannah, &c.....	....	....	....	15,029	2,776	17,804	550	23,285
Charleston, &c.....	....	....	....	2,933	....	2,933	148	1,424
Florida, &c.....	....	....	....	....	....	....	56	6,491
New York.....	185	25	210	9,100	5,278	14,378	....	....
Boston.....	550	....	550	7,795	....	7,795	....	....
Philad., &c.....	....	....	....	575	102	677	....	....
Total.....	735	25	760	35,431	8,156	43,587	754	31,200
Total 1895-6.....	1,650	13	1,663	32,608	5,796	38,404	650	33,283

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations March 5 at Savannah, for Floridas, common, 8½c.; medium fine, 10½c.; choice, 14c.

Charleston, Carolinas, medium fine, 17½c.; fine, 18c.; fully fine, 19@20c.; extra fine, 25@28c.

**JUTE BUTTS, BAGGING, &c.**—The market for jute bagging has been very dull and featureless during the week under review, but ruling quotations are unchanged at 4½c. for 1¼ lbs., 5c. for 2 lbs. and 5½c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4½c. for 1¼ lbs., 5c. for 2 lbs. and 5½c. for 2¼ lbs. f. o. b. at New York. Jute butts continue dull at 11-16c. for paper quality, 14@15½c. for mixing and bagging and 1 and 1½c. for spinning butts, all to arrive. From Messrs. Ira A. Kip & Co.'s circular we ascertain that the deliveries of jute butts and rejections at New York and Boston during February were 31,714 bales, against 53,336 bales for the same month last year and for the two months since January 1, the deliveries have been 51,666 bales against 87,048 bales last year. Importers and speculators at New York and Boston on February 23 held no stock, against 2,300 bales at the corresponding date in 1896; and the amount afloat for the United States reaches 167,333 bales, against 169,497 bales last year.

**FALL RIVER MILL DIVIDENDS.**—Twenty-five of the cotton-manufacturing corporations in Fall River have declared dividends during the first quarter of the year, but the aggregate of the dividends is very much below the total for the corresponding period a year ago. Twelve corporations have passed their dividends this quarter, and two of them followed the same course in the quarter of last year; eight mills have maintained the same rate of distribution as in 1896, but generally dividends have been reduced and in some cases materially. The aggregate of the amount paid out has been \$230,050, or an average of 1.01 per cent on the capital. In 1896 the average dividend for the first quarter was 1.99 per cent, in 1895 it was 1.50 per cent, in 1894 it was 1.498 per cent, in 1893 was 2.24 per cent and in 1892 reached 1.55 per cent.

**EXPORTS OF COTTON GOODS FROM GREAT BRITAIN.**—Below we give the exports of cotton yarn, goods, &c., from Great Britain for the month of January and since October 1 in 1896-97 and 1895-96, as compiled by us from the British Board of Trade returns. It will be noticed that we have reduced the movement all to pounds.

000s omitted.	Yarn & Thread.		Cloth.				Total of All.	
	1896-97.	1895-96.	1896-97.	1895-96.	1896-97.	1895-96.	1896-97.	1895-96.

Total exports of cotton manufactures.....	....	....	....	....	....	....	420,168	428,103

The foregoing shows that there has been exported from the United Kingdom during the four months 420,168,000 lbs. of manufactured cotton, against 428,103,000 lbs. last year, or a decrease of 7,935,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during January and since October 1 in each of the last three years:

**EXPORTS OF PIECE GOODS AND YARNS TO PRINCIPAL COUNTRIES IN JANUARY AND FROM OCTOBER 1 TO JANUARY 31.**

**SHIPPING NEWS.**—The exports of cotton from the United States the past week, as per latest mail returns, have reached 109,744 bales. So far as the Southern ports are concerned these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales.
<b>NEW YORK</b> —To Liverpool, per steamer Tauric, 1,176.....	1,176
To Hull, per steamer Francisco, 2,083.....	2,083
To Manchester, per steamer Herschel, 185 Sea Island.....	185
To Havre, per steamer La Champagne, 750 upland and 25 Sea Island.....	775
To Marseilles, per steamer Victoria, 260.....	260
To Bremen, per steamer Dresden, 1,870.....	1,870
To Amsterdam, per steamer Edam, 150.....	150

## BREADSTUFFS.

FRIDAY, March 5, 1897.

There has been a small and uninteresting market for wheat flour during the past week. The volume of business transacted has been decidedly limited, as buyers and sellers have been apart in their views. The former have been holding off for lower prices, but as stocks in sellers' hands have been small they have held for full values. The business transacted has been almost exclusively in trade brands and has been limited to a few hand-to-mouth orders. Rye flour has sold slowly and prices have been lowered 5c. per bbl. Buckwheat flour has been flat, as the season is about ended. Corn meal has had only a limited sale, but values have held steady. Today there was an increased jobbing demand for wheat flour at firm prices.

Speculation in the market for wheat futures has been fairly active and prices have tended upward, closing at an advance of 2½¢@3½¢. for the week. Saturday there was very little change in prices, but on Monday there was a sharp upward turn to values. Buying was general stimulated by the strong statistical position. The American visible supply showed considerable of a shrinkage, the amount on passage to Europe decreased materially, and the world's shipments showed a falling off. The close was an advance of 1@1½¢. for the day. Tuesday there was a further gain of ¼¢@½¢. in prices in response to stronger foreign advices. Wednesday selling to realize profits caused a reaction of ½¢@¾¢., but on Thursday stronger foreign advices, the result of the unsettled diplomatic relations of Europe, stimulated renewed buying and prices gained ¼¢@¾¢. Today the market was fairly active and 1½¢@1¾¢. higher. The buying was general. Foreign advices were decidedly stronger and the European political situation attracted increased attention. In the spot market only a limited amount of business was transacted early in the week. At the close, however, a fair business was transacted for export at advancing prices. The sales to-day amounted to about 200,000 bushels and included No. 1 New York Northern at 85½¢. f. o. b. afloat, and No. 1 Duluth Northern at 87½¢. f. o. b. afloat. No. 2 red winter was quoted at 87½¢. f. o. b. afloat; choice do. at 96½¢. f. o. b. afloat and No. 1 hard Duluth at 92½¢. f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

There has been a slightly increased activity to the speculative dealings in the market for Indian corn futures, and prices have advanced slightly. There has been some buying by shorts to cover contracts, stimulated by stronger foreign advices and a revival of the export demand, particularly for forward delivery, sales having been reported of about 500,000 bushels No. 2 mixed for August delivery at 6@6<sup>1</sup>/<sub>4</sub>c. over the July option in Chicago f.o.b. afloat. Advices from the West have reported the grading as poor, and this has also had a strengthening influence. To-day the market was fairly active and <sup>1</sup>/<sub>2</sub>@<sup>3</sup>/<sub>4</sub>c. higher on buying by shorts to cover contracts. The spot market was firm but quiet. No. 2 mixed in elevator was quoted at 29<sup>1</sup>/<sub>2</sub>c. for old and 27<sup>1</sup>/<sub>2</sub>c. for new.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
March.....c.	29 <sup>3</sup> / <sub>8</sub>	29 <sup>1</sup> / <sub>8</sub>	29 <sup>1</sup> / <sub>8</sub>	29 <sup>1</sup> / <sub>8</sub>	29 <sup>1</sup> / <sub>8</sub>	29 <sup>1</sup> / <sub>8</sub>
May delivery.....c.	30 <sup>3</sup> / <sub>8</sub>	31	31	31	31	31 <sup>1</sup> / <sub>8</sub>

September delivery.....c.	29 <sup>3</sup> / <sub>8</sub>	29 <sup>1</sup> / <sub>8</sub>	29 <sup>1</sup> / <sub>8</sub>	29 <sup>1</sup> / <sub>8</sub>	29 <sup>1</sup> / <sub>8</sub>	29 <sup>1</sup> / <sub>8</sub>

Oats for future delivery have continued dull, but prices have advanced slightly in sympathy with the advance in wheat and corn. To-day prices advanced <sup>3</sup>/<sub>8</sub>c. on buying by a few shorts to cover contracts. In the spot market the home trade has been a fairly active buyer, but the demand from shippers has been flat. The sales to-day included No. 2 mixed at 22c. in elevator and No. 2 white at 23<sup>1</sup>/<sub>4</sub>c. in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., March 5, 1897.

There has been a large attendance of buyers in the market again this week and business suffered little if any in comparison with last week, either in the primary market or with jobbers. Reports from out-of-town distributing centres indicate a free outward movement of staples and spring merchandise and show that current business is of a decidedly solid character. There is still an indispotion on the part of buyers to make purchases for any length of time ahead, and it is a re-assuring feature that the recent gain in volume of business has been secured without discounting the future. Still most sellers would welcome business for future delivery as an aid to them in handling goods in stock. Meanwhile they are meeting buyers quite readily at previous prices in nearly all directions. The print cloth market has shown further weakness, although there has been more business than last week. Printed lines for spring are generally well situated and in continued request. The woolen goods situation has undergone no material change and is regarded as generally encouraging in comparison with the corresponding period last year.

**DOMESTIC COTTON GOODS**—The exports of cotton goods from this port for the week ending March 1 were 2,016 packages, valued at \$103,590, their destination being to the points specified in the tables below:

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$1,725,845 in 1897 against \$1,796,488 in 1896.

The market for brown sheetings and drills shows business still largely confined to purchases for quick delivery from stocks in both heavy and light weights and the demand was met quite as readily as before. Brown ducks and osenaburgs have been in light request and are unimproved in prices. Bleached cottons have been without prominent feature. The demand is steady, but of a cautious character, and buyers have no difficulty in filling their requirements. There has been an indifferent request for wide sheetings, and cotton flannels and blankets rule quiet. The coarse, colored cotton market has also been quiet; denims sell in small lots still and are easy, and a limited demand only is reported for ticks, checks and stripes, plaids, etc., without quotable change in prices. Fancy prints and finer specialties have been in steady request. In regular prints the market has been without change, excepting for an advance of <sup>1</sup>/<sub>4</sub>c. in "American" black and white and grey prints. Dress style ginghams in moderate re-order demand for fine grades; low qualities neglected. Staples have been in improved request. Moderate sales of print cloths are reported this week in an easy market. Extras quoted at the close at 2<sup>3</sup>/<sub>8</sub>c. to 2<sup>9</sup>/<sub>16</sub>c.

**WOOLEN GOODS.**—This week has seen the finer grades of men's wear woolen and worsted fabrics securing relatively a larger share of attention than the lower qualities, upon which the demand has until lately been running so heavily. Fine fancy worsteds and fine plain goods have been in quite improved request and some good orders have been taken in qualities at \$1 50 per yard and over. Higher duties are likely to tell more in favor of these than of low qualities and they are therefore more interesting just now. There has been little change in the price situation. A limited number of re-orders for light-weights still come to hand. Overcoating business is on a moderate scale and chiefly in qualities under \$1 50 per yard. Cloakings continue quiet. Cotton-warm fabrics, satinetts and doeskin jeans in moderate request. Flannels have again sold fairly and blankets moderately at previous prices. Dress goods have been in improved request for both spring and fall lines.

**FOREIGN DRY GOODS.**—A good general business has been reported in foreign merchandise, while jobbers and importers have had an improved supplementary business in seasonable merchandise. Orders for woolen and worsted dress goods for fall have been more numerous, and heavy-weight woolens and worsteds for men's wear have sold fairly.

IMPORTATIONS AND WAREHOUSE WITHDRAWALS OF DRY GOODS.

The importations and warehouse withdrawals of dry goods at this port for the week ending March 4, 1897, and since January 1, 1897, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1897 AND 1896.

## STATE AND CITY DEPARTMENT.

## TERMS OF SUBSCRIPTION.

THE INVESTORS' SUPPLEMENT will be furnished *without extra charge* to every annual subscriber of the **COMMERCIAL AND FINANCIAL CHRONICLE**.

THE STATE AND CITY SUPPLEMENT will also be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

THE STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

THE QUOTATION SUPPLEMENT, issued monthly, will also be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

TERMS for the **CHRONICLE** with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

## Terms of Advertising—(Per inch space.)

One time.....	\$3 50	Three Months (13 times).....	\$25 00
One Month (4 times).....	11 00	Six months (26 times).....	43 00
Two Months (8 times).....	18 00	Twelve Months (52 times).....	58 00

(The above terms for one month and onward are for standing cards.)

## MUNICIPAL BOND SALES IN FEBRUARY.

The total amount of municipal bonds reported to the **CHRONICLE** as being issued and sold during last month was over 12 millions of dollars. This is to be compared with only \$4,423,520 for February 1896, and is in excess of the sales for either of the two previous months, when the aggregate of securities marketed was in each case about 10½ millions of dollars.

The principal sales of February were: \$6,000,000 of State of Massachusetts 3½ per cent water bonds of 1935 at 107-82; \$1,453,300 of City of Baltimore 3½ per cent stock of 1936 at 105-77 and \$946,953 97 of New York City 3 per cent school-house and fire-department bonds of 1916 at par. Other large sales were: \$569,000 of New Bedford, Mass., 4s of 1907-1927 at 104-629@110-83; \$555,000 of Buffalo, N. Y., 3½s of 1898-1917 at 101-51@102-12; \$400,000 of Camden, N. J., 4s of 1926 at 101-40, and \$350,000 of Cleveland, Ohio, 4s of 1927 at 108-125.

In the following table we give the prices which were paid for February loans to the amount of \$11,923,477, issued by 59 municipalities. The aggregate of sales for which no price has been reported is \$511,000, and the total sales for the month, \$12,434,477. In the case of each loan reference is made to the page of the **CHRONICLE** where a full account of the sale is given.

\* 3-07 per cent discount and \$3 premium.

In the **CHRONICLE** of February 13, 1897, page 341, a list of January bond sales amounting to \$10,401,776 will be found. Since the publication of that statement we have received the following report:

## ADDITIONAL JANUARY BOND SALE.

Page.	Location.	Rate.	Maturity.	Amount.	Award.
388..	Franklin, Minn.....	6	1912	\$4,000	100

This additional loan will make the total sales reported in January amount to \$10,405,776.

**Durham, N. C.—Assessed Valuation.**—The assessed valuation of personal property of Durham is far in excess of that of real estate, the amounts for 1896 being: Personal property, \$3,640,551; real estate, \$1,539,097; total valuation, \$5,178,648.

In order to satisfy the various inquiries in regard to this, we have obtained the following statement from Geo. W. Woodward, Clerk of the Board of Aldermen:

"In this State holders of stock in the American Tobacco Company, as well as holders of stock in any company whose place of business is situated out of the State, are required to pay tax to the State, county and town in which they reside. As three (3) members of the American Tobacco Company reside in Durham, you will readily perceive why the listing under the head of shares of incorporated companies amounts up so rapidly. Large stocks of leaf tobacco are carried by the Blackwell Durham Tobacco Company as well as by the American Tobacco Company."

The following is an itemized statement of the assessed valuation for 1896:

Real estate—	
Acres of land.....	\$8,000
Town lots.....	1,530,097
Personal property—	
Cattle.....	23,068
Money on hand.....	49,262
Solvent credits.....	254,148
Stocks of national and State Banks.....	287,551
Shares of incorporated companies.....	1,436,739
Railroad franchise.....	48,060
All other property (including leaf tobacco).....	1,543,723

Total assessed valuation.....\$5,178,648

**Bond Proposals and Negotiations.**—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

**Allegheny, Pa.—Bond News.**—James Brown, City Comptroller, reports to the **CHRONICLE** that it is probable the 4 per cent five-year bonds to be issued for the improvement of California and Clifton avenues will be placed in the sinking fund.

**Arizona.—Bonds Authorized.**—It is reported that the Territory of Arizona has authorized the issuance of Capitol bonds to the amount of \$100,000.

**Arkansas.—Bond News.**—The Governor of the State of Arkansas has refused to sign the bill providing for a compromise of the indebtedness of this State to the United States on the ground that the State should not be viewed in the light of a poor debtor, as it is amply able and willing to pay its indebtedness in full. The bill provided that of the \$538,000 of old State bonds held by the United States, all but \$160,000 should be returned and that the State should relinquish all claims to its proportion of the various funds held by the United States which were derived from the sale of public lands of the State.

**Atlantic City, N. J.—Bond Offering.**—Proposals will be received until 12 o'clock noon March 15, 1897, by A. M. Heston, City Comptroller, for the purchase of \$35,000 of 4 per cent gold coupon funding bonds of this city. Interest will be payable semi-annually at the Union National Bank of Atlantic City, and the principal will mature in ten years from date of issue. The securities will be of the denomination of \$1,000 and are to be issued to retire \$11,450 of 5 and 6 per cent bonds and to fund \$23,550 of the floating debt.

The total bonded debt of the city, including this issue, is \$1,125,210; floating debt, \$73,000; total debt, \$1,198,210. A sinking fund has been created for the redemption of all outstanding bonds. Cash and securities on hand or assessed amount to \$45,427; special assessment bonds, \$10,000. The water-works of the city are self-sustaining and the total water debt (included in the above total debt) is \$875,000. The assessed valuation for 1896 (about  $\frac{1}{2}$  of the actual value) is: Real estate, \$11,918,914; personal property, \$1,177,040; total valuation, \$13,095,954; tax rate (per \$1,000) \$19 00. The permanent population is estimated at 22,000 and the transient population from 25,000 to 150,000.

**Augusta, Ga.—Bond Sale.**—On February 27, 1897, the \$62,000 of 4 per cent bonds of this city were awarded as follows:

Bowdre Phinisey, \$5,000 for \$5,050.  
John Jay Cohen, \$5,000 for \$5,013 50.  
Clarence Clark, \$52,000 for \$52,081.

The securities are dated April 1, 1897, interest is payable semi-annually on the first days of April and October, and the principal will mature in thirty years from date of issue. The bonds are of the denominations of \$100, \$250 and \$500, and are issued to retire a like amount of bonds maturing April 1, 1897.

**Arverne-by-the-Sea, N. Y.—Bond Election.**—The Board of Trustees has passed a resolution to the effect that the citizens of this village shall, at an early date, vote on a proposition to issue \$45,000 of bonds, \$40,000 of which will be applied to street improvements and the remainder to the dredging and improvement of the Amstel Canal.

**Bay City Union School District, Mich.—Bond Offering.**—Proposals will be received until March 11, 1897, by the Finance Committee for the purchase of \$10,000 of school bonds. The securities are to be dated Feb. 15, 1897; interest at a rate not exceeding 5 per cent will be payable semi-annually on the 15th days of February and August at the City Treasurer's office, and the principal will mature at the rate of \$5,000 each year, beginning with Feb. 15, 1899. The bonds are to be of the denomination of \$5,000 and are part of an authorized issue of \$15,000.

**Belmar, N. J.—Bond Offering.**—Proposals will be received until March 10, 1897, for the purchase of \$85,000 of 5 per cent gold improvement bonds. The securities will mature in twenty years from date of issue.

**Bradford, Pa.—Bond Sale.**—On March 1, 1897, the \$22,500 of 4 per cent bonds of this city were awarded to Rudolph Kleybolte & Co., of Cincinnati, Ohio, at par, accrued interest and \$762 75 premium. Interest on the securities is payable semi-annually and \$3,500 of the principal will mature in 1907, \$10,000 in 1917 and the remaining \$10,000 in 1927.

**Brooklyn, N. Y.—Bond News.**—A bill has been introduced in the State Senate providing for the depressing and raising of the tracks of the Long Island Railroad Co. in the city of Brooklyn between Flatbush and Atkins avenues. The bill further provides that the city shall share one-half of the expense of this work, and for this purpose shall issue bonds not to exceed \$1,250,000. The securities are to be known as the Atlantic Avenue bonds, and shall be sold at not less than par. They will bear such rates of interest as the city officials may deem best and shall mature in not more than twenty years from date of issue.

**Buffalo, N. Y.—Bond Offering.**—Proposals will be received until 12 o'clock noon to day by Erastus C. Knight, City Comptroller, for the purchase of \$194,637 11 of  $3\frac{1}{2}$  per cent registered grade-crossing loan bonds of this city. The securities will be dated February 1, 1897, interest will be payable semi-annually on the first days of February and August at the office of the City Comptroller of Buffalo, or at the Gallatin National Bank of New York City, and the principal will mature February 1, 1917.

Bids for less than par and accrued interest will not be considered, and each proposal must be accompanied by a certified check for 2 per cent of the amount bid for. The bonded debt of the city of Buffalo on February 15, 1897, less amounts held in the sinking funds, was \$12,701,187 75; the assessed valuation of taxable real estate for 1896 is \$225,435,795.

**Caldwell County, Mo.—Bonds Defeated.**—At an election held on February 27, 1897, the citizens of this county defeated a proposition to issue \$25,000 of court-house bonds.

**Chagrin Falls, Ohio.—Bonds Authorized.**—On February 16, 1897, the citizens of this municipality voted in favor of a proposition to issue \$35,000 of 6 per cent 25 year bonds.

**Cherry County School District No. 1, Neb.—Bond Offering.**—Proposals will be received until March 26, 1897, by J. C. Pettijohn, Secretary of the School Board, for the purchase of \$10,000 of 6 per cent school-house bonds. Interest on the securities will be payable semi-annually and the principal will mature in twenty years from date of issue, subject to call after 1907. The bonds will be of the denomination of \$1,000 each.

**Cleburne, Tex.—Bonds Proposed.**—It is reported that this municipality proposes to issue \$60,000 of bonds for the purchase of a water-works plant.

**Columbus, Ga.—Bonds Defeated.**—At an election held on February 23, 1897, the citizens of this municipality defeated a proposition to issue water-works bonds.

**Columbus, O.—Bond Sale.**—On March 2, 1897, the \$163,000 of bonds of this city were awarded to the Fourth National Bank of Columbus, Ohio. The various issues and the prices received for them were as follows:

	Premium.
\$90,000 of 4 per cent fire department bonds, due 1916.....	\$1,742 50
9,000 of 5 per cent fire department bonds, due 1904.....	92 50
4,000 of 6 per cent Rich Street sewer bonds, due 1902.....	281 00
50,000 of 5 per cent Franklin Park bonds, due 1908.....	4,701 00
1,500 of 5 per cent main sewer ext. bonds, due 1911.....	175 00
18,500 of 5 per cent sewer bonds, due 1902.....	640 75

The bonds are secured by a sinking fund and are issued to provide for the payment of certain bonds about to mature.

The total bonded debt of the city, not including this issue, is \$7,523,800, of which \$1,112,000 are water bonds and \$2,695,800 assessment bonds. Sinking fund assets amount to \$1,962,500; net debt, \$5,561,300. The assessed valuation for 1896 (about  $\frac{1}{2}$  of actual value) was \$63,130,360; total tax rate (per \$1,000), \$27; population about 125,000.

**Bonds Proposed.**—Water bonds of this city have been proposed, and the question of issuing the same will soon be put to a vote of the people.

**Elyria, Ohio.—Bond Sale.**—The \$8,000 of 6 per cent sewer bonds of this municipality were awarded to Seasongood & Mayer, of Cincinnati, Ohio, for \$8,288. The other bids received were:

The Lamprecht Bros. Co., Cleveland, Ohio.....	\$8,243 75
Rudolph Kleybolte & Co., Cincinnati, Ohio.....	8,243 00
J. B. Works, Cleveland, Ohio.....	8,233 00
Dietz, Denison & Prior, Cleveland, Ohio.....	8,203 00
W. J. Hayes & Sons, Cleveland, Ohio.....	8,187 00
Fourth National Bank, Columbus, Ohio.....	8,085 00

**Evanston, Ohio.—Bond Offering.**—Proposals will be received until 1 o'clock P. M., March 27, 1897, by Wm. H. Knapp, Village Clerk, for the purchase of \$4,001 51 of 6 per cent extension bonds of this village. The securities will be dated Feb. 25, 1897, interest will be payable annually at the Atlas National Bank, of Cincinnati, Ohio, and the principal will mature in ten years from date of issue. No bid for less than par will be considered, and each proposal must be accompanied by a certified check for \$200.

**Fairfield, Iowa.—Bond Sale.**—On February 1, 1897, the city of Fairfield sold \$12,000 of funding and \$25,000 of refunding bonds to the First National Bank of Chicago, Ill., at par, this being the only bid received. Both loans will bear interest at the rate of 5 per cent, payable semi-annually. The funding bonds will mature in from three to fifteen years from date of issue and the refunding as follows: Nos. 1 to 10, inclusive, will be payable after seven years; Nos. 11 to 20, inclusive, after ten years, and Nos. 21 to 25, inclusive, after fifteen years from date of issue.

**Fall River, Mass.—Bond Sale.**—On March 2, 1897, the \$150,000 of 4 per cent bonds of this city were awarded to Blodgett, Merritt & Co. of Boston, Mass., at 104 673. The other bids received were:

Jas. W. Longstreet & Co., Boston, Mass.....	104-630
Lee, Higginson & Co., Boston, Mass.....	104-580
E. H. Rollis & Sons, Boston, Mass.....	104-379
R. L. Day & Co., Boston, Mass.....	104-339
Kestbrook & Co., Boston, Mass.....	104-317
Farnson, Leach & Co., New York, N. Y.....	104-273

The securities are dated March 1, 1897, interest is payable semi-annually on the first days of March and September, and the principal will mature on March 1, 1907. The loan is in the form of registered bonds of \$1,000 or a multiple thereof and is secured by a sinking fund.

**Gloversville, N. Y.—Bond Sale.**—The \$27,000 of  $3\frac{1}{2}$  per cent refunding railroad bonds of this city have been sold to Isaac W. Sherrill, of Poughkeepsie, N. Y., at par. The securities are dated February 1, 1897, interest is payable semi-annually on the first days of February and August at the Fourth National Bank of New York City, and the principal will mature in twenty years from date of issue. The bonds are of the denomination of \$1,000 each.

**Hatfield, Mass.—Bonds Proposed.**—Bonds of this town have been proposed to pay the cost of extending the water-works.

**Hinds County, Miss.—Bond News.**—Suit has been brought against the Yazoo & Mississippi Valley R.R. Co to recover \$200,000 of Hinds County bonds. These bonds were issued by the county to aid in the building of the Natchez Jackson

& Columbus Railroad, and when this road was sold to the Yazoo & Mississippi Valley Railroad Company the bonds were included in the transaction; this, it is now claimed, was illegal.

**Hiram, Ohio—Bond Offering.**—Proposals will be received until 12 o'clock noon, March 30, 1897, by Edwin L. Hall, Clerk of the hamlet, for the purchase of \$12,000 of 6 per cent water-works bonds. The securities will be dated April 1, 1897, interest will be payable semi-annually on the first days of April and October, and the principal will mature at the rate of \$500 per annum from April 1, 1904, to 1927, inclusive, both principal and interest to be payable at the First National Bank of Garrettsville, Ohio. The bonds will be of the denomination of \$500 each.

The hamlet has no other debt; its assessed valuation is \$154,040; real valuation about \$250,000, and population about 400.

**Holden, Mo.—Bond Offering.**—Proposals will be received until 5 o'clock P. M., March 16, 1897, by T. J. Halsey, for the purchase of \$12,000 of 5 per cent electric-light bonds of this city. The securities will be dated April 1, 1897, interest will be payable semi-annually on the first days of April and October at the office of the City Treasurer of Holden or any bank designated by the purchaser in St. Louis or Kansas City, Mo. The principal will mature in from five to twenty years from date of issue.

The city at the present time has no bonded debt. The assessed valuation (about two-thirds of the actual value) is \$830,263; the population in 1895 was 3,049.

The official advertisement of this bond offering will be found elsewhere in this Department.

**Indianapolis, Ind.—Bonds Proposed.**—Park bonds of this city to the amount of \$150,000 are under consideration.

**Lehigh, Pa.—Bond Election.**—On March 30, 1897, the citizens of this town will vote on a proposition to issue \$10,000 of electric-light bonds.

**Lynn, Mass.—Bonds Proposed.**—The Boston News Bureau reports that a petition has been presented to the Massachusetts

State Legislature to authorize this city to issue \$100,000 of sewer bonds and \$35,000 of library bonds.

**Madison School District, N. J.—Bond Sale.**—On March 4, 1897, the \$15,000 of 5 per cent school bonds were awarded to Edward C. Jones Co., of New York, at 108½. The securities are dated April 1, 1897, and will mature in from twenty to twenty-eight years from date of issue.

**Middletown, N. Y.—Bond Sale.**—It is reported that this city has sold \$14,500 of school bonds at 101 25. The securities will bear interest at the rate of 4½ per cent, and the principal will mature in from one to five years from date of issue.

**Mount Vernon, N. Y.—Bonds Authorized.**—The Common Council has passed a resolution authorizing an issue of \$20,000 of sewerage bonds.

**Muskingum County, O.—Bond Sale.**—On March 1, 1897, the County Commissioners awarded the \$25,000 of funding bonds to Seabrook & Mayer, of Cincinnati, Ohio, for \$28,313 50. The other bids received were as follows:

Dietz, Denison & Prior, Cleveland, Ohio.....	\$28,282 50
E. C. Stanwood & Co., Boston, Mass.....	28,208 00
E. H. Gay & Co., Chicago, Ill.....	28,205 50
Mason, Lewis & Co., Chicago, Ill.....	28,152 50
Farson, Leach & Co., Chicago, Ill.....	28,075 00
Rudolph Kleybolte & Co., Cincinnati, Ohio.....	27,939 00
Ohio Savings Bank, Columbus, Ohio.....	27,900 00
The Lamprecht Bros. Co., Cleveland, Ohio.....	27,892 50
O. H. White & Co., New York, N. Y.....	27,875 00
Estabrook & Co., Boston, Mass.....	27,787 50
Fourth National Bank, Columbus, Ohio.....	27,632 50
E. H. Rollins & Sons, Boston, Mass.....	27,644 75
Jan. W. Longstreet & Co., Boston, Mass.....	27,418 75
E. D. Shepard & Co., New York, N. Y.....	27,162 50
Oyros Pierce, Philadelphia, Pa.....	27,100 00
S. A. Keao, Chicago, Ill.....	26,375 00
H. C. Herbig, Coshocton, Ohio (for \$10,000).....	10,350 00

The securities are dated March 1, 1897, interest is payable semi-annually on the first days of March and September, at the County Treasurer's office, Zanesville, Ohio, or at the Nassau Bank of New York City, and the principal will mature March 1, 1919.

The bonds are of the denomination of \$1,000, and are issued for the purpose of funding part of the floating debt of the county.

The total bonded debt of the county, including this issue, amounts to \$181,000; floating debt about \$10,000; total debt,

## NEW LOANS.

### BIDS FOR BONDS.

Consolidated Sinking Fund Bonds  
OF THE

### CITY OF CINCINNATI, O., 3.65% 40-Year Gold Bonds.

Proposals are solicited for the purchase of \$3,034,000 of coupon or registered bonds of the City of Cincinnati, Ohio, to be issued to pay, under an option of redemption, the amount of the City's outstanding bonds of the following series of Cincinnati bonds: \$500,000, 4½% \$17 (1897), \$230,000, 4½% \$18 (1901), \$700,000, 4½% \$19 (1904), \$237,000, 4½% \$20 (1907), \$700,000, 4½% \$21 (1910), \$237,000, 4½% \$22 (1913), \$700,000, 4½% \$23 (1916), \$237,000, 4½% \$24 (1919), \$700,000, 4½% \$25 (1922), \$237,000, 4½% \$26 (1925), \$700,000, 4½% \$27 (1928), \$237,000, 4½% \$28 (1931), \$700,000, 4½% \$29 (1934), \$237,000, 4½% \$30 (1937), \$700,000, 4½% \$31 (1940), \$237,000, 4½% \$32 (1943), \$700,000, 4½% \$33 (1946), \$237,000, 4½% \$34 (1949), \$700,000, 4½% \$35 (1952), \$237,000, 4½% \$36 (1955), \$700,000, 4½% \$37 (1958), \$237,000, 4½% \$38 (1961), \$700,000, 4½% \$39 (1964), \$237,000, 4½% \$40 (1967), \$700,000, 4½% \$41 (1970), \$237,000, 4½% \$42 \$491,000; sinking fund, \$25,000; net debt, \$466,000. The assessed valuation is \$23,233,139, and the real valuation is estimated at \$35,000,000. The population of the county is about 60,000.

**Naugatuck, Conn.—Bond Sale.**—It is reported that the borough of Naugatuck has sold bonds to the amount of \$50,000. The securities bear 4 per cent interest.

**Nebraska.—Bond News.**—The Governor of the State of Nebraska is at work on a plan to reduce the floating debt of the State, which is estimated at about \$1,600,000, and to refund the bonded debt at a lower rate of interest.

In April, 1897, there will mature \$450,000 of 8 per cent funding bonds. Of this amount about \$325,000 are held in the permanent school fund and against the \$125,000 outstanding there is a sinking fund of \$324,064. There are also outstanding certain 4½ per cent bonds, which will mature this year. According to the plan, the money held in the permanent school fund and the sinking fund will be applied to payment of part of the floating debt and the bonds, as they mature, will be refunded at a rate of interest not to exceed 4 or 4½ per cent.

There is an article in the State Constitution to the effect that the State may, to meet deficits or failures in revenue, issue bonds not to exceed \$100,000. If the courts decide that it is not contrary to this article, the bill, as formulated by the Governor, will be presented to the State Legislature.

**New York, N. Y.—Bonds Authorized.**—On March 1, 1897, the Board of Estimate authorized the issuance of \$500,210 of bonds, the proceeds of which will be applied to paving various streets.

**Bonds Proposed.**—The Board of Education has prepared a bill to present to the State Legislature authorizing this city to issue \$7,500,000 of school bonds.

**Niles, Ohio.—Bond Sale.**—It is reported that this city has disposed of \$10,000 of 5 per cent school bonds at par.

**Norwood, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock noon, March 26, 1897, by W. E. Wichgar, Village Clerk, for the purchase of \$5,000 of 5 per cent water-works bonds. The securities will be dated March 1, 1897, interest will be payable semi-annually, and the principal will mature in twenty years from date of issue. The bonds

will be of the denomination of \$500 each. No bid for less than par and accrued interest will be considered and each proposal must be accompanied by a certified check for \$250.

**Philadelphia, Pa.—Bonds Authorized.**—The city of Philadelphia has authorized the issuance of \$3,000,000 of bonds for various purposes.

**Pierre, S. D.—Bonds Invalid.**—It has been decided by the courts of South Dakota that certain bonds issued by this city are invalid because they were issued beyond the constitutional debt limit. Parties holding these bonds had brought suit to compel the payment of the coupons which had matured.

**Pueblo, Col.—Bond Offering.**—This city offers for sale \$22,000 of park bonds. The loan is part of an issue of \$70,000, the remaining bonds having been sold and their proceeds applied to the purchase of a site for the park.

**Reading, Pa.—Bonds Proposed.**—It is reported that the city of Reading proposes to issue street paving bonds to the amount of \$100,000.

**Rensselaer County, N. Y.—Bond Offering.**—Proposals will be received until 12 o'clock noon, March 25, 1897, by John Dow, County Treasurer, for the purchase of \$100,000 of 3½ per cent sinking fund bonds of this county. The securities will be dated April 1, 1897, interest will be payable semi-annually on the first days of April and October, and the principal will mature at the rate of \$10,000 each year from April 1, 1898, to 1907, inclusive.

The loan will be in the form of registered bonds of \$5,000 each and is part of an authorized issue of \$250,000. No bid for less than par will be considered. It is provided that all funds derived from the late County Treasurer or from his property, or the proceeds of any action brought by the county by reason of any liability growing out of his defalcation, shall be held for the payment of the principal and interest on these bonds as they become due.

The total debt of the county, including this issue, is \$747,000 and the assessed valuation for 1896, \$79,013,577. The population for 1890 was 124,511.

**St. Louis, Mo.—Bonds Proposed.**—A bill has been introduced in the State Senate to the effect that at the next gen-

eral election, which is to be held in November, 1898, the citizens of the State shall vote on an amendment to that part of the State Constitution which relates to the limit of municipal indebtedness. The amendment provides that the city of St. Louis shall be authorized to issue \$10,000,000 of bonds, the proceeds of which shall be applied to the alteration and repair of the various hospitals and poor houses belonging to the city and to the construction and improvement of the bridges over the railroad tracks in the city.

**Springfield, O.—Bond Sale.**—On March 2, 1897, the Board of Education awarded the \$34,000 of 5 per cent school bonds to E. C. Starwood & Co. of Boston, Mass., for \$37,500. The other bids received were:

Rudolph Kleybelle & Co., Cincinnati, Ohio.....	\$37,499
N. W. Harris & Co., New York, N. Y.....	37,188
R. Kuhn & Co., Cincinnati, Ohio.....	36,950
Seasongood & Mayer, Cincinnati, Ohio.....	36,800
W. J. Hayes & Sons, Cleveland, Ohio.....	36,500
E. D. Shepard & Co., New York, N. Y.....	35,810
E. H. Rollins & Sons, Boston, Mass.....	106-10
Jas. W. Longstreet & Co., Boston, Mass.....	105-78
S. A. Kemp, Chicago, Ill.....	103-50

Interest on the securities is payable semi-annually and the principal will mature in from eleven to thirteen years from date of issue.

**Superior, Wis.—Bond News.**—On January 1, 1897, the City of Superior defaulted in the payment of the interest and principal of certain of its street improvement and sewer bonds. Parties holding these securities are now depositing them with the Knickerbocker Trust Company, of New York, whereby they authorize C. H. White & Co., of New York, to bring suit against the City of Superior to recover the accrued interest and principal of their securities or to secure new bonds in exchange therefor. All interested parties should communicate with C. H. White & Co.

**Waterford, Me.—Bonds Authorized.**—The citizens of this town have voted in favor of a proposition to issue \$10,000 of bonds to aid in the construction of an electric railroad.

**Wells County, N. Dak.—Bond Sale.**—It is reported that Wells County has sold \$30,000 of funding bonds. The securities bear interest at the rate of 6 per cent, and the principal will mature in twenty years from date of issue.

**White Plains, N. Y.—Bond Sale.**—The \$9,000 of assessment bonds authorized by the Board of Trustees have been sold to the People's Savings Bank of Yonkers.

**Wildwood, N. J.—Bond Offering.**—Proposals will be received until March 8, 1897, by Latimer R. Baker, Mayor, for the purchase of \$13,000 of 6 per cent improvement bonds of this borough. The securities will be dated March 1, 1897, interest will be payable semi-annually on the first days of March and September at the Tradesman's Bank, of Vineland, N. J., and the principal will mature in from five to twenty years from date of issue.

The loan will be in the form of coupon bonds of \$50 each. The borough has no previous bonded indebtedness, and the assessed valuation for 1896 is \$150,410. The summer population is estimated at from 1,500 to 2,000.

**Marlborough, Mass.—C. L. Bartlett, Mayor.** The following statement has been corrected to January, 1897, by means of a special report to the CHRONICLE from Geo. S. Haskell, Auditor.

This place is in Middlesex County; incorporated as a city on January 1, 1891.

### THE FINANCIAL SITUATION.

Our money market this week has shown indications of a hardening of rates. A chief influence operating in that direction has been the prospective tariff legislation. For that reason imports are increasing and Government Customs receipts are likewise increasing; the latter covers both larger imports and withdrawals from warehouse. These movements have given rise to an inquiry for money from importers of goods. Withdrawals from warehouse have been in a measure hastened by a report that the tariff would in some manner be made retroactive, applying to all goods in warehouse at the date of the introduction of the bill. Although the general belief was that this could not be done, and indeed it was soon semi-officially denied, yet the fear the suggestion gave rise to continued to have some influence. The urgency of the Treasury need for more revenue made the rumor of such a desire and effort plausible and encouraged the fear. No one can fail to see the urgency existing for more revenue. The current deficit and the fact that the appropriations have been further increased this year are indicative of that condition. An article to-day in subsequent columns will throw light on this phase of the subject.

Then, again, if the tariff enactment should be long delayed in passing the Senate it is an obvious fact that the added revenue it is expected to provide might be quite disappointing for a considerable time. Take wool for illustration; when the duty on that article in the ordinary course of legislation went into effect, it is not an improbable circumstance that a year's supply of the foreign qualities needed would be in stock. Even now it is stated that a large lot of wool is afloat for America. Hence, whatever the duty on wool may be, it cannot in reason be expected to yield much revenue the current calendar year. This outlook as to revenue and a continued deficit encourages the fear, as already stated, that something may be attempted in the direction of making the law retroactive, although it is very easy to see that nothing effectual of that character can be accomplished.

The above-mentioned facts are for the moment improving the monetary situation. They have stimulated the payment of duties and increased the demand for money by importers. The circumstance, too, that importers will to a greater or less extent anticipate the passage of the new tariff law by large importations during near-by months, of goods now free or lightly taxed, gives promise of a considerable increase in the probable need they will have for their own cash balances and for bank accommodation. A further and a special movement influencing money rates, and leading to a withdrawal of tobacco from warehouse, has been a speculation in that article and higher prices for it. A considerable amount of paper connected with the payment of duties on tobacco has been on the market within the past few days. Still another spur to the demand for money has been a call for currency for the East and other interior points in response to requirements from manufacturing and general business enterprises. These our bank managers claim are growing. But notwithstanding all the circumstances recited, it hardly seems possible in the face of the large surplus reserves our banks now hold and the full reserves held at other monetary centres that our money market should show any very material change for the better until a greater revival of business in the West and South sets in than is apparent as yet.

Among the favorable events of the week, first place must be accorded to the arrangement by which the Lehigh Valley Railroad secures the co-operation of J. P. Morgan & Co. and Drexel & Co. in readjusting its finances. Last week's Lake Shore bond negotiation was an event of considerable moment. The Lehigh Valley transaction is in its way of equal consequence. The details of the arrangement are given in our railroad columns, and we will only say here that the transaction is important for a variety of reasons. In the first place it provides for the floating debt of the Lehigh Valley and also supplies the company with substantial working capital for some time to come. In the second place it funds the indebtedness of the Packer estate and removes the Packer promissory notes, known as "Packer paper", from the market. In the third place, it enlists a new and powerful interest in Lehigh Valley affairs—an interest which has always proved a conservative factor in the affairs of our railroads, putting new life into properties with which it may become identified. The event is also important in demonstrating that the insinuations of unsoundness in the affairs of the company, which have lately been made with the evident purpose of hurting its credit, have been utterly without foundation. In its wider scope, too, as affecting the future of all the anthracite roads, the arrangement must prove beneficial. We may be sure it will be the endeavor of the new interests in the company to promote harmony in the operation of the various anthracite properties.

There are other indications of improvement in the situation which hold out considerable promise for the future. Returns of railroad earnings are beginning to improve. As evidence of this we may point to the fact that our statement for the month of February shows a falling off of less than one per cent, though comparison is with heavily increased earnings last year and though furthermore the month this year contained one less working day and there were some other important drawbacks. The New York Central in the East and the Illinois Central in the West, each having large manufacturing interests along its lines, both show heavier earnings than a year ago.

At the same time the iron industry, activity in which means so much, is undoubtedly in much better shape than it was a few weeks ago—before the collapse in the steel rail pool. It is true that prices are proving disappointing, recessions in some instances having occurred, but the volume of business is steadily growing. The "Iron Age" has this week published its usual monthly record of pig iron production, and the showing is, all things considered, satisfactory. There has been a net addition of two in the number of furnaces in blast, and the weekly capacity of the active furnaces March 1 was 169,986 tons, against 162,959 tons February 1. This of course is not a very large increase, but it is not desirable that it should be, so long as enterprise to a considerable extent remains in abeyance waiting for the full revival of confidence. The important point to notice is that the expansion in production, though slow, continues steady and uninterrupted, so that since the 1st of last October there has been an increase of from 130 to 156 in the number of active furnaces and from 112,782 tons to 169,986 tons in weekly product. With respect to stocks, a further small increase is reported, the total now standing at 995,931 tons, against 965,907 February 1 and 938,241 last October. But it is possible to lay too much stress on this feature. The "Age" points

out that the figures do not include the stocks at the steel works. It says it is known that these have been drawn upon quite heavily, and that the position statistically, therefore, is probably improving, taking the country as a whole.

There is one feature in the affairs of our railroads which is bound to exert an important influence before long on their future in a great many cases. We refer to the possibility of an important lowering of interest on outstanding bond issues. Some of the largest and strongest of our railroad companies still have considerable amounts of 6 and 7 per cent bonds outstanding. It will be remembered that it was not until the resumption of gold payments in 1879 that the credit of our railroads was materially improved, and it became possible to borrow at reduced rates. The bonds we refer to as bearing high interest were issued up to about 1876. As they had about twenty-five to thirty years to run, they are now maturing, and unless some further untoward events occur in the railroad, the financial or the political world, it ought to be possible to renew or extend the greater part of these maturing bonds at a saving of two to three per cent in the annual interest charge. The difference in the annual payments on that account in the case of a number of companies will be very great. In this sense the Lake Shore negotiation is important, not only as showing what this company can do, but the similar possibilities that are open to other companies. In a separate article on a subsequent page we discuss the subject at length to-day. We also present an elaborate table, occupying two pages, from which the reader can see for himself just what companies have bonds falling due in the near future and what gain must result from refunding these bonds at current interest rates for first-class issues.

The following furnishes a four-year comparison for a number of roads that have this week submitted statements of earnings for January.

\* Includes St. Louis Alton & Terre Haute for all the years.

Money on call, representing bankers' balances, has loaned generally this week at 1½ and at 1¼ per cent, with the bulk of the business at 1½, and though belated borrowers have paid 2 per cent for small amounts the average has been about 1½ per cent. Time contracts are in better demand because of borrowing in connection with the withdrawal of goods from the bonded warehouses in anticipation of tariff changes, and for other reasons referred to above in this article. Quotations are 2 per cent for thirty days; 2½ per cent for sixty days; 3 per cent for ninety days to four

months, and 3½ per cent for five to seven months on good Stock Exchange collateral. There is an increasing inquiry for commercial paper, but the offerings are just about equal to the demand. Rates are firmer at 3 @ 3½ per cent for sixty to ninety days endorsed bills receivable; 3½ @ 4 per cent for first class and 4 @ 5 per cent for good four to six months' single names.

There has been some relaxation in the political tension in Europe this week, which has been reflected in an improvement in the foreign financial markets. On Monday Greece replied to the ultimatum of the Powers. Conferences since then between the Powers, preparatory to the use of coercive measures, seem to have disclosed the fact that the Powers are not in accord, Russia and Germany being inclined to proceed to extremities, while France, Italy and Great Britain are disposed to continue negotiations at Athens. The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety day bank bills in London 1½ per cent. The open market rate at Paris is 1¾ per cent, and at Berlin and Frankfort it is 2¼ per cent. According to our special cable from London, the Bank of England gained £368,478 bullion during the week and held £39,398,054 at the close of the week. Our correspondent further advises us that the gain was due to the import of £455,000 (of which £421,000 were from Australia, £19,000 from China, £10,000 from Africa and £5,000 miscellaneous), to an export of £100,000 (of which £50,000 were to South America and £50,000 were to Roumania), and to receipts of £13,000 net from the interior of Great Britain.

The foreign exchange market has been easier a part of this week, though the changes in rates have not been important, and as the week closes they are firmer again. Commercial bills are scarce, and those which are offered are at comparatively high rates, while there is still some inquiry for long sterling for investment based upon the expectation of higher rates sixty days hence. Consequently long sterling has been comparatively firm. Short sterling yielded slightly to offerings of maturing bills, while the demand was not urgent, and the tone for this class and for cable transfers consequently became easy. The range for posted rates has remained at 4 86 to 4 86½ for sixty day and from 4 88 to 4 88½ for sight during the week, but after Wednesday, when Brown Bros. reduced the short rate half a cent, only two of the drawers, the Bank of British North America and Baring, Magoun & Co. posted 4 88½ for sight, and the above-named and Heidelbach, Ickelheimer & Co. were the only bankers posting 4 86½ for sixty day until yesterday, when Lazard Freres advanced to the same figure. Rates for actual business opened on Monday at an advance of one-quarter of a cent all around, compared with the close of Friday of last week, at 4 85½ @ 4 85½ for long, 4 87½ @ 4 87½ for short, and 4 87½ @ 4 87½ for cable transfers, and the market was quoted dull and firm. On the following day a light inquiry and offerings of maturing bills made the tone easier, though it was not quotably lower, but on Wednesday rates for actual business in sight sterling and in cable transfers were reduced one-quarter of a cent to 4 87 @ 4 87½ for the former and 4 87½ @ 4 87½ for the latter, while those for long sterling were unchanged. The market was steady and dull at unaltered rates on Thursday and Friday. The following shows the daily posted rates for exchange by some of the leading drawers.

## A QUEER REPORT FROM THE ANTI-TRUST LEGISLATIVE COMMITTEE.

The Lexow Anti-Trust Committee of the New York State Legislature has made its report to that body this week. It is in some respects an odd document. In one part it appears to admit facts and conclusions which go to prove the purpose of the committee's appointment to be unwise and uncalled for. Then in another part the report assumes facts and draws conclusions which, according to the principles previously expressed, seem not to be warranted, but if they were warranted show a state of affairs greatly needing correction. Finally, when it comes to recommendations, it proves clearly enough that the committee has undertaken something beyond its reach. Taking the document as a whole it reads as if the early and closing portions had been prepared by one member of the committee well equipped for the work, and the middle section by another member of very different acquirements and views.

The early part of the document frankly admits that large aggregations of capital are a feature of the times, not in themselves open to criticism, but a concomitant

of progress. Its words are that such combinations "for the purpose" (mark what follows) "of reaping the reward arising from economies growing out of the concentration of resources, and the employment of the best skill, the highest intellect, the most improved machinery and the most qualified labor, are not in themselves reprehensible or against any known principle of public policy". These aggregations, the writer goes on to state, have been increasing in importance and relatively in influence with recent years; that although this movement "gives rise to discussion", and "in some cases to apprehension", it should not excite either. It is a situation "which seems to be the natural evolution growing out of the fierce contest for supremacy in the fields of commerce, and finding a reflection in almost every department of human activity. That it is a natural evolution seems clear from the fact that it marks, to a very large extent, the progressive stages of commercial development created by the natural impulse towards better conditions, and in its turn creating that complex system upon the proper adjustment of which the welfare, comfort and prosperity of the people also largely depend".

What the report here so well says is just what, and all that, we have in past discussions claimed with reference to such combinations. It is admitted, as will be noticed, that there is no valid objection to them when gotten up "for the purpose of reaping the reward arising from economies growing out of the concentration of resources", &c. That is to say, the mere facts of large capital and a reward resulting from these large resources and skill and economies evidenced by large dividends—that these facts are no argument at all against a trust. There could not be, as we think, safer ground in this discussion than that to stand upon, and we agree with the committee up to this point. No doubt large combinations of capital are an element of progress, a development of the new commercial environment. No doubt, too, they afford advantages that the small capitalist and the less skilful manager cannot reach and to that extent they restrict competition. Still they exist, and have their uses, while the inequalities they introduce are a factor and must continue to be in every department of industry. The members of the committee see all this, and see that it is not only a necessary outcome of conditions beyond their control, but that if they attempted to check it they would check progress and harm everyone in any way connected with the free development of commercial affairs.

But after having made these broad assertions and admissions, the committee goes on to give the public a few paragraphs of generalizations intended as descriptive of combinations amazingly like and yet, in its opinion, very different from what it had just been describing; we refer to the organizations examined by the committee, against which it urges "effective legislation" in "the interest of the industries and the capital of the people of this State" because, as the writer expresses it, they are "monopolies" "operating under foreign charters". For these reasons it appears that what are called the industrials or Trust companies have connected with them in the estimation of the committee certain features which prevented their falling within the classification they had already sketched. The report does not state distinctly what these differences were. It says, without going into unnecessary details as to the origin and development of particular combinations, that the situation of the organizations examined may be generalized in this way. For ease in

reading and understanding the following extract from the report, we have divided the quotation into numbered paragraphs.

(1) In every case of combination which presented itself to your committee, independent concerns represented either by partnerships or by corporate organizations, or both, had been competing against each other in the markets of this State and nation when, by promotion or otherwise,

(2) They were combined together generally under the laws of the State of New Jersey into one large organization, controlling approximately 80 per centum of the production of a particular product of common use.

(3) Every combination thus made was accompanied by an enormous capitalization and was generally followed by a supposable effort to distribute its stock to the public through the channels of speculation.

(4) Every such combination was followed by the closing and dismantlement of factories, the discharge of laborers and the concentration of the business of many separate organizations into a few of the many factories controlled by the combination.

(5) Every such combination was followed by the substantial control of product and by the ability of the combination to fix a price upon its own product as well as on that of ostensible competitors.

(6) Every such combination was followed by a system of factors' agreements which enabled it to control the means of distribution and maintain a fixed price without regard to ostensible competitors or to the normal rules of supply and demand.

(7) Finally, every such combination was followed by increasing difficulties of new competition, by lesser capital and increased ability to destroy or absorb any existing competition or new competition that might arise.

Interpreting the first four of the foregoing strictures in the light and with the help of the principles laid down in the opening portions of the report, a method of interpretation everyone who would understand the document is forced to adopt, they would appear to be wholly immaterial and irrelevant so far as the question of an objectionable combination of capital is concerned. Granted that the object was to build up a large and profitable sugar refining business so as best—we use the committee's own words—to “reap the reward arising from economies growing out of the concentration of resources, and the employment of the best skill, the highest intellect, the most improved machinery and the most qualified labor” the trade afforded—granted that this was the object, how could it have been otherwise, or at least more promisingly, accomplished than it was. All, too, who know anything about the sugar trade are fully aware what “a fierce contest for supremacy,” yes, and what a severe struggle for existence, was in progress on account of the unprofitableness of the refining industry when this combination of capital was first undertaken. The new organization was consequently a “natural evolution” in the truest sense of the words. Whether it was evolved from a lot of old factories or by the same individuals leaving their old buildings and starting afresh does not change the character of the new creation in the least. Nor can it be a matter of the slightest importance in this discussion whether the organization was made under New Jersey or New York law. Lumbering the issue by lugging in such inconsequential statements only suggests the straits to which the committee appears to have been reduced in trying to establish differences between the principles its report starts with, and the facts its investigation unfolded.

We ought perhaps to say a few words more with reference to the third of the above strictures—that “every combination thus made was accompanied by an enormous capitalization.” Remember that the principle laid down by the committee at the opening of the report was that it made no difference as to the size of the capitalization if the *value* was there; hence this stricture must mean over-valuation. What better or truer

test of valuation could we have than productive power? In other words, if a company be formed and puts out securities and earns and pays the interest on every one of the same from the start, is not that the strongest evidence we can have that there is no over-valuation, no over-capitalization? Just that is what the Sugar Trust (the organization the committee chiefly refers to) has done with reference to all its forms of capital. We do not need to say, for it is obvious to every one, that no escape can be found from the conclusion we have drawn except it be clearly proved that the dividends have been wrung by fraud or other unfair means out of the consuming public. We assert most positively that no such proof was offered and that no such proof exists. The facts as to the margin between raw sugar and refined show just the contrary state of affairs. There has been no injustice, there have been no evidences of a grinding or even of a moderate monopoly so far as the price of refined sugar is the index; and hence the payment of interest from the start on all the company's capital proves that there was no over-capitalization, no over-valuation.

These facts and this situation the committee well knows, and consequently it nowhere charges in its report that an exorbitant or unfair price for refined sugar was fixed; all it claims is the possession of “the *ability* by the combination to fix a price upon its own product as well as on that of ostensible competitors.” The committee, though, does make on an allied point a very disingenuous statement. It says that “the record shows, on the other hand, that a combination controlling 80 per cent of a staple product, hence a purchaser of 80 per cent of the raw material, should and did exert substantial influence upon the price of raw material, and could by dint of that influence force down the price of the raw material to a point which enabled it to appear as having decreased the price of the finished product to the consumer.” The natural and only inference the above permits is that the combination, inasmuch as it manufactured 80 per cent of the refined sugar in the United States, purchased 80 per cent of the world's raw material, and that it consequently had control over the price of the raw sugar, which the managers manipulated to their own advantage. A statement with less to support it could not be uttered. The Sugar Refining Company make their purchases of the raw material all over the world wherever they find it cheapest and import it themselves, the purchases being delivered at the doors of their own refineries. To cart the raw material once across the city would cost them all the profit there is in refining. The trifling amount of sugar the United States raises in no appreciable degree affects price. The aggregate of the world's crops is estimated at say about  $7\frac{1}{2}$  million tons; the annual imports into the United States for all consumers and purposes are about  $1\frac{1}{2}$  million tons. These few facts show how misleading and unauthorized the above quoted passage from the committee's report is.

But it is not worth while to pursue this matter further. We had it in mind to notice other statements in the report equally unsupported. This review has already grown longer than we intended it should be, and as other citations would only be of like character to those already noticed, no useful purpose would be served by continuing it. In closing we add that the member of the committee who wrote the opening portions of the report evidently had a hand in the closing sections.

This we assume because the statements made are in the main unexceptionable. The report quotes from the recent decision by Judge Swayne of the Federal Court annulling the Anti-Trust law of Texas (about which we wrote at length two weeks since) and states that the law is set forth by the Judge in that decision "with great force and perspicuity and the conclusions reached are amply fortified by authoritative decisions of the highest courts of the various States and of the Nation." Then the writer goes on to remark concerning the decision and its teaching as follows.

The right of contract inherent in the individual is a Constitutional privilege. A full and free right of contract, so far as the same may not conflict with public policy, or be prejudicial to public interest, must *a priori* be conceded. The right of contract co-exists with and is incidental to the right of liberty and property, and is recognized in the natural law as the very foundation of human progress and development: it is a sacred privilege of the citizen which is carefully guarded by the Constitution.

A review of the decisions rendered in this State would seem to emphasize the conclusion that this Constitutional freedom of contract may not be interfered with unless accompanied by or resulting in acts of oppression, or in restraint of trade which trench upon the Constitutional liberty and privileges of others. We can find no valid reason for any departure from the policy of the State in the encouragement and protection of combinations legally; on the contrary every consideration of public interest and policy demands that the most generous invitation, the widest latitude, the utmost freedom, and the largest opportunity, be extended to capital in any form of lawful combination to embark in every field of industry and commerce.

The foregoing is both good law and good sense. After reading it, one is not surprised to find that the committee was unable to reconcile with its principles the putting of the Sugar Trust into a strait-jacket.

#### HAP-HAZARD CONGRESSIONAL APPROPRIATIONS.

The report of the party leaders on the Appropriations Committee of the House of Representatives is habitually submitted at a session's close. This year the report had been awaited with great curiosity. In the first place, the Senate had been occupied so exclusively with the Nicaragua jobbery and with explosions over Cuba that the great appropriation bills hardly obtained consideration until a day or two before adjournment. But in the second place, it was suspected that deficit-making might in this session reach a stage unparalleled in our recent history. The \$69,803,260 deficit of the fiscal year 1894 had been reduced by 1896 to \$25,203,245. During the current fiscal year, however, the increase in the deficit has been extremely rapid; for the full year it will certainly be at least \$30,000,000 heavier than that of 1896. It was an interesting problem what Congress would do, in the face of such a situation, by way of fixing public expenditure for the fiscal year beginning next July.

It must be acknowledged that while the average intelligent citizen may be exasperated at the actual results, he will not be surprised. There were few optimists to look for systematic economy in the extraordinary Congress just adjourned. The two reports on the appropriations of the session were submitted last Tuesday. In their figures, Mr. Cannon, speaking for the Republicans, and Judge Sayers, speaking for the Democrats, substantially agree. The expenditures prescribed by Congress in its recent session were \$2,258,264 in excess of those voted in the preceding session; they are larger by \$20,094,933 than those voted in 1895 and by \$25,872,773 than those of 1894. In its two sessions, the Fifty-fourth Congress managed to break all records of extravagance; its total appropria-

tions, during its two years of existence, reached the extraordinary sum of \$1,043,437,018. The Government's annual expenditure in 1888 was \$320,619,959; this was itself a large increase over the average annual disbursements of the preceding decade. For the fiscal year ending with last June the Treasury reported total expenditures of \$434,678,654; this year its outlay will have increased over the year preceding by fifteen to twenty millions. Such figures speak with sufficient eloquence for themselves.

In their condemnation of this profligacy with the public purse, the reports of Mr. Cannon and Mr. Sayers speak with gratifying frankness. Mr. Cannon in particular, although himself a member of the party which has controlled legislation in the Fifty-fourth Congress, admits that the appropriations have been needlessly and inexcusably excessive. He divides the blame between the Executive and Congress, bringing up two points in the matter which are worth examination. Although the actual appropriations of the recent session have been excessive, they were smaller by \$25,000,000, Mr. Cannon alleges, than the total estimate submitted at the session's opening by the Secretary of the Treasury. This statement appears, from the comparative figures added to his report by Mr. Cannon, to be correct. It should, however, be remembered that the Secretary's hands are tied by the Congressional habit of authorizing contracts covering subsequent years, to be met by appropriations whenever Congress may be disposed to vote them. During the session preceding Mr. Carlisle's estimates, Mr. Sayers points out, the River and Harbor Act, "passed under a suspension of the rules, without the opportunity of discussion or amendment," authorized thirty-seven works, "involving a total expenditure of \$59,616,404". This was the bill which Mr. Cleveland vetoed a year ago, and which was jauntily passed over his veto by statesmen almost every one of whom admitted privately that the President was right. Several of the continuing-contract appropriations of this measure have turned out, on investigation, to be scandalous jobs; the others were necessarily recognized in the estimates. It has, we believe, been the practice of all Treasury Secretaries to incorporate in their preliminary estimates provision for such contracts. Congress is then at liberty to vote the requisite supplies or not. It had the grace this year to withhold immediate approval to a few of these contingent extravagances.

But in any case the plea of excessive estimates by the Executive will hardly meet the issue, and Mr. Cannon appears to recognize the fact. The tacit supposition that Congress was betrayed into an unwise fiscal policy because the Administration pointed out the way applies somewhat grotesquely to the last two sessions. It is in its second explanation that Mr. Cannon's report touches the real root of the difficulty. Current extravagance, the report declares, is "the result of conditions growing out of the rules of the House and out of the rules, practice and so-called courtesies of the Senate." Anybody familiar with Congressional methods will understand what this means. The appropriation bills originate, under the Constitution, with the House of Representatives. But the work is not assigned to a single House committee; it is distributed among eight separate and independent committees. It thus results, not only that the "budget" system as conceived by European legislatures—the duty of equalizing prospective revenue with projected expenditure—is wholly abandoned in

our Government, but that nobody is responsible even for equalizing the several appropriation bills with one another. In the British Parliament, for instance, a heavy increase in one line of appropriation must be counterbalanced, either by a reduced allotment to some other branch of public expenditure or by provision for an increased revenue. This, it is hardly necessary to remark, is the only rational system of government finance. To bring this foreign budget-making to our own hap-hazard basis, we should have to imagine the war, navy, civil service, and post-office expenditures of the British Government arranged by as many different Parliamentary committees, without mutual conference, and without the slightest reference to the Government's income, past, present or future. The supposition is absurd; yet it describes exactly the practice of our Government.

Not one of these House committees is limited in its work by restrictions which it must respect. There is no rule providing that a given appropriation bill may not be twenty millions larger than it was last year. Something like eighty members of the House serve on these various committees, and each of these eighty committeemen has his own political interests, and the particular interests of his district, to serve in drawing up the general appropriation bill. Mutual concession, under such circumstances, ends not infrequently in concession of everything to everybody. In the end the various committees toss their bills into the maelstrom of Congressional debate, never defending without reservation the work of their own hands, often, as in the case of Mr Cannon, who is himself the Chairman of the Committee on Appropriations, declaring that the bills are inexcusable.

From the House these various bills go to the Senate, where the practice now prevails, in Mr. Cannon's words, "of amending appropriations bills, notably the General Deficiency Bill, by incorporating provisions to pay claims of every kind and character outstanding against the Government—claims that have no status in many cases other than perfunctory reports from committees, mere findings of the Court of Claims and recommendations and requests from bureau officers and other officials of the Government". Here, as might be imagined, that curious relic known as "Senatorial courtesy" gives the log-roller his chance, until the measure is at length "transformed into a mere vehicle wherein the Senate loads up and carries through every sort of claims that should have no consideration by either branch of Congress except as independent bills reported from competent committees". Let the further fact be now considered that delay in Senate votes, such as was caused deliberately by the pro-Cuban agitators in the recent session, throws the bill back into conference, usually in the last few hours of an excited session—when careful deliberation or amendment is no longer possible—and the reason for our increasing public extravagance, with its accompanying deficits, will be plain.

Undoubtedly the restoration of the bills to the control of one committee—as they were lodged prior to 1885—would be one useful step towards curbing this profligacy in expenditure. Mr. Cannon's further proposition that the House and Senate claims committees should "provide a tribunal of final jurisdiction", whither all separate claims "may be sent for full and intelligent consideration", would remove from the great appropriation bills a good many of the barnacles which now-a-days cling to them. But a far more effective

plan was suggested by Mr. Dockery last week; that the general management of appropriation bills be entrusted, as it was before 1865, to the Ways and Means Committee. A systematic scheme of sub-committees would of course be necessary under such a plan, but the main committee would retain its jurisdiction over all expenditure at the same time as it made provision for the revenue. This was as near to a logical plan of fiscal legislation as our Government has ever come; since that simple and effective plan was permanently laid aside every successive change has made the matter worse. Mr. Cannon notices the fact that the average annual appropriation per capita of population, which was only \$29 26 under the single committee system prior to 1885, has risen under the plan of separate committees to \$34 67. The seemingly plausible argument, moreover, advanced in favor of the change, that it would bring about earlier and more intelligent legislation, has proved in the event wholly erroneous. The experiment is admitted by all competent authorities to have been a blunder.

By separating the executive completely from the legislative branch of government, our Constitution made it forever impracticable that the money bills should be considered with the simplicity and system which attends their presentation by a ministry seated in the Legislature. The work which was the most conspicuous individual achievement of Walpole, Pitt, Peel and Gladstone cannot be done by any individual under our system of divided powers. The loss had its compensation in some very direct substantial gains. But there was one provision logically involved in this separation of the executive from active work on the appropriations, and this provision the makers of the Constitution unfortunately overlooked. The President may veto any bill which comes before him; but he must veto or approve it as a whole. With the average appropriation bill this is a useless power. Few money bills are passed by Congress which do not contain some proper and necessary provisions; few could be vetoed outright without either inflicting some injustice or hampering the work of government. In 1882, when vetoing the River and Harbor bill, President Arthur wrote in his veto message: "Many of the appropriations in the bill are clearly for the general welfare, and most beneficent in their character. Two of the objects for which provision is made were by me considered so important that I felt it my duty to direct to them the attention of Congress". But Congress, after the plan which has since grown considerably more familiar, had loaded down the measure with gratuities to every sort of local enterprise, and the anomalous result was that the President had to refuse approval to a law enacting his own recommendations. Where Mr. Arthur or Mr. Cleveland were ready to disapprove an objectionable money bill under such circumstances, the great majority of Presidents have let such measures pass uncriticized, only because of the harsh alternative.

Had the Constitution committed to the President the power of withholding approbation from certain items only of a money bill while approving all the rest, much of the mischief of recent fiscal legislation might have been avoided. The Government had not, in fact, existed long before the bad results of this omission were detected. The fact is noteworthy that as the constitutions of the several States were revised in the light of subsequent experience, this right of vetoing appropriation bills by clauses was very generally con-

ferred on the State executive. At the present time nineteen States out of the forty-five, comprising most of those which have adopted new constitutions in the last half century, and including New York, New Jersey and Pennsylvania, grant to their governors this power of discriminating veto.

How far, in default of an improbable Constitutional amendment in this matter, the bad results of the existing system of Federal appropriations can be escaped hereafter, is an open question. That they may at least be mitigated is unquestionable, but even this cannot be done until the absurdities of the present Congressional machinery are removed. The present tendency of national legislatures, pretty much throughout the world, is towards a steady increase in the public expenditure. Even with its system of ministerial budgets, Great Britain's annual disbursements rose from £82,184,797 in 1880 and £86,083,314 in 1890 to £97,759,000 for the exchequer year ending with March 1896, and estimates for the current year were larger still by upwards of £2,000,000. So far as this increase in the European governmental outlay results from increased armament, these nations have an apology which the United States has not. But in any case, it is high time that our existing system, or rather lack of system, in constructing plans of annual income and expenditure should be ended. As matters stand it makes us a laughing-stock among the nations, and by way of added irony our currency system has been entangled in the same Congressional game of hazard. The new House of Representatives is beginning work with the commendable purpose of providing sufficient revenue. But unless the House simultaneously reforms its methods of appropriation legislation, its increased revenue will very probably serve for little more than a bait for greatly increased extravagance.

#### POSSIBILITIES OF SAVING IN REFUNDING HIGH-RATE INTEREST BONDS.

The Lake Shore negotiation last week has suddenly brought to the front as a matter of great interest the subject of the saving in charges to be effected in refunding in the near future at a low rate of interest bonds now bearing high rates. There is a general desire to know what other companies are so situated that they too can avail of the early maturity of large amounts of bonds to bring about a great reduction in their charges. We have received numerous inquiries on this point, and for the time being it has become an engrossing topic of conversation and discussion. As we proceed, too, it will appear that the subject is of large importance in its bearing on some prominent roads.

We think it was the CHRONICLE that first directed attention to the great advantage which must accrue to many roads at the close of the century by reason of the maturity of considerable amounts of bonds bearing 6, 7 and even 8 per cent interest. Just eight years ago, in our INVESTORS' SUPPLEMENT for March 1889, we published a very extended compilation, furnishing a list of the bonds that would fall due before the year 1901 and showing the saving in interest that must result with the replacing of these bonds by others bearing a smaller rate. The renewed interest felt in the subject has prompted us to prepare another similar compilation based on the situation at the present time.

Of course since the publication of our earlier statement many of the bonds therein contained have ma-

tured, and the year 1900 is now so close at hand that it seems desirable in any new compilation to extend the period embraced beyond that year. We accordingly now take all bonds falling due up to and including 1905. Besides this, we make another change in our compilation. In the statement given in 1889 we included only bonds bearing 6 per cent interest and above, and figured what the saving would be if these bonds were refunded at 5 per cent and what if refunded at 4 per cent. Now we take all bonds bearing 5 per cent interest and higher and figure what the saving would be on a 4 per cent basis and what on a  $3\frac{1}{2}$  per cent basis—the figure at which the Lake Shore and the Pennsylvania have recently placed loans. We exclude bonds of defaulted roads with the exception of one or two large properties like the Union Pacific, where the bonds are mostly underlying liens and where the saving in interest from a reduction in charges will be very large and will play an important part in the future of the concerns. We also exclude the miscellaneous companies, confining ourselves entirely to railroad undertakings with three exceptions, namely the Lehigh & Wilkesbarre Coal Company, the Lehigh Coal & Navigation Company and the Western Union Telegraph Company. The first two are added by reason of their relation to the anthracite coal properties, the Western Union because it is an important property in itself.

On this basis, what is the aggregate of bonds available as a field for refunding operations? Perhaps the reader will be surprised to learn that the amount foots up to over 710 million dollars—in exact figures, \$710,689,262. Some of these are 5 per cent obligations, but most of them bear 6 and 7 per cent. If they should all be refunded at 4 per cent the saving in interest would be  $16\frac{1}{2}$  million dollars per annum (\$16,678,690), and if it should be found possible to refund them at the low rate obtained by the Lake Shore road, namely  $3\frac{1}{2}$  per cent, the saving would be, roughly,  $20\frac{1}{2}$  million dollars—\$20,232,138. Of course it is not within the power of every road to float bonds at  $3\frac{1}{2}$  per cent, and for this reason the full amount of saving computed on that basis is hardly within the range of probabilities. At the same time, examination of our tables will show that by far the larger part of these maturing bonds are underlying liens on important systems, and therefore possess advantages which should give the lowest market rates. Besides, when times shall improve and business and earnings again expand, even the least favorably situated of these maturing bonds will no doubt in most cases wear an attractive look. But we need not bank on a  $3\frac{1}{2}$  per cent rate. The saving will be large, even on a 4 per cent basis, as we have seen.

While the figures given indicate how extensive is the field for refunding operations as a whole, it is when we deal with the situation of the separate companies that the advantages become especially marked; for the total is so large mainly because of the heavy amounts contributed by a few leading roads. We have picked out from the detailed statement on another page the following roads where the amounts are particularly striking.

Name of Company.	Amount of maturing bds. \$	—Saving if refunded—	
		at 4 p. c.	at $3\frac{1}{2}$ p. c.
Lake Shore.....	43,192,000	1,295,760	1,511,720
New York Central.....	51,433,333	1,225,667	1,482,834
Southern and Central Pacific.....	60,837,420	1,105,744	1,409,930
Chicago Burl. & Quincy.....	50,806,000	1,118,820	1,372,850
Union Pacific.....	43,212,000	943,070	1,159,130
Phil. & Reading.....	42,809,542	849,880	1,063,927
Pennsylvania RR.....	38,640,020	784,070	977,315
Chic. Mil. & St. Paul.....	24,712,500	781,433	904,195
Chic. & North West.....	21,865,500	608,695	718,022
Louisville & Nashville.....	18,824,660	508,953	603,086
Missouri Pacific.....	24,383,782	446,333	568,251
Total 11 companies.....	420,727,757	9,668,425	11,772,060

Here are eleven companies with an aggregate of maturing indebtedness of \$420,727,757. In other words, these eleven companies have about 60 per cent of the whole total (\$710,689,262) of maturing bonds.

The New York Central presents an opportunity for reducing charges hardly less noteworthy than that afforded by the Lake Shore. The company has over 51 million dollars of bonds which fall due within the next seven years (not counting the \$12,000,000 of New York & Harlem 7 per cent consols), and as the bonds are high-grade underlying liens, and the management is the same as that of the Lake Shore, we see no reason why it, too, should not be able to borrow at  $3\frac{1}{2}$  per cent. But on that basis the saving as compared with the present charges would be \$1,482,834, equal to nearly  $1\frac{1}{2}$  per cent on the outstanding amount of Central stock. The Southern Pacific and the Central Pacific together have \$60,837,420 of bonds falling due, and in these the saving, if renewed at 4 per cent, would be \$1,105,744 per annum, and at  $3\frac{1}{2}$  per cent \$1,409,930. The Union Pacific is of course bankrupt at present, but it is, nevertheless, interesting to see how great the difference in interest will be on a 4 per cent or a  $3\frac{1}{2}$  per cent basis as compared with the present interest charge on the prior debt. We say prior debt because we do not of course take any account of the Government debt. The saving on a 4 per cent basis would be \$943,070 and on a  $3\frac{1}{2}$  per cent basis \$1,159,130.

The Pennsylvania has \$38,649,020 bonds which it can pay off in or before 1905, and on these the reduction at  $3\frac{1}{2}$  per cent will be \$977,315 per year, equal to three-quarters of one per cent on the company's capital stock. Even the Reading has \$42,809,542 of bonds which can be thus treated, some of which are now being extended or exchanged into 4 per cents; if all should be refunded on that basis the saving would be \$849,880. The Louisville & Nashville has \$18,826,660 of maturing bonds, involving the possibility of a reduction in interest of \$508,953 at 4 per cent and of \$603,086 at  $3\frac{1}{2}$  per cent. The Missouri Pacific has \$24,383,782 which could be refunded at a saving of \$446,333 on a 4 per cent basis and at a saving of \$568,251 on a  $3\frac{1}{2}$  per cent basis. This includes the 10 million dollars of Iron Mountain 1sts and 2ds, which are now being extended respectively at  $4\frac{1}{2}$  per cent and 5 per cent. As the company reserves the right, however, to call the bonds at 105, refunding on a better basis hereafter will be possible.

Mention should also be made of some of the Northwestern systems. The Milwaukee & St. Paul has \$24,712,500 of bonds which it can redeem within the period taken, and a renewal at 4 per cent would knock off \$781,433 of the present interest charge and a renewal at  $3\frac{1}{2}$  per cent would cut off \$904,995; either amount would give one per cent extra on both classes of stock. The Chicago & North Western has \$21,865,500 of such bonds, on which it will save \$608,695 at 4 per cent and \$718,022 at  $3\frac{1}{2}$  per cent; in this case also the reduction would give an additional one per cent on both classes of stock. The most striking example of all remains to be mentioned. The Burlington & Quincy has \$50,806,000 of bonds falling due, and could decrease charges \$1,118,820 and \$1,372,850 at 4 and  $3\frac{1}{2}$  per cent respectively—equal in the one case to a little under  $1\frac{1}{2}$  per cent and in the other to somewhat over  $1\frac{1}{2}$  per cent on Quincy stock. But that tells only part of the story in this case. The paying off of these bonds will relieve the company of heavy sinking fund pay-

ments yearly, and, besides, the sinking fund assets alone will provide for a considerable portion of the maturing bonds. But we have not the space to go into that matter at this time.

That refunding operations in these various cases are perfectly feasible admits of no doubt. It would seem to be equally clear that they will be undertaken as soon as the conditions warrant the step. The effect, of course, must be distinctly beneficial, for obviously as the result of this conversion of high-rate bonds into low-rate bonds the condition of many properties will be materially improved, and perhaps their outlook entirely changed. It seems quite within the range of probabilities, therefore, that during the next few years the country will witness a new era in railroad affairs, to be known in history as the Refunding Era, and in its way exercising as marked an influence on the situation as the Consolidation Era which followed the resumption of gold payments in 1879.

We have enumerated above only the companies where the reduction in charges is to be especially large. There are many other cases where the saving, though smaller in amount, will yet be important in itself. Thus on the Denver & Rio Grande the replacement in 1900 of the \$6,382,500 of first mortgage 7s by 4 per cents would diminish charges nearly two hundred thousand dollars. The Chicago & Alton on its maturing issues can save \$191,647 at 4 per cent and \$233,771 at  $3\frac{1}{2}$  per cent; the Baltimore & Ohio \$229,560 and \$283,322 respectively; the Baltimore & Ohio Southwestern \$262,990 and \$306,960; the Cleveland Cincinnati Chicago & St. Louis \$179,850 and \$209,825 respectively; the Delaware Lackawanna & Western, \$198,660 and \$231,770; the Pittsburg Cincinnati Chicago & St. Louis, \$390,390 and \$456,685; the Michigan Central, \$297,500 and \$359,890; the Northern Central, \$217,840 and \$267,300; the New England, \$268,000 and \$320,000, &c., &c. The Central of New Jersey, by replacing its maturing issues at 4 per cent, would save \$210,420 and at  $3\frac{1}{2}$  per cent \$250,025, and in addition there is the possibility of a saving in refunding the debt of the Lehigh & Wilkesbarre Coal Company.

The complete compilation from which these figures are drawn occupies two complete pages, and will be found in a subsequent part of this paper—pages 499 and 500. In that table we show the results at length for each company. In the case of very small issues—say \$400,000 or less—we state them separately only where they appear along with larger amounts for the same company; the rest we have lumped together in one item at the end of the table. The statement does not include any bonds falling due later than 1905, but we may note here that three roads have large amounts maturing the very next year. These are the Albany & Susquehanna forming part of the Delaware & Hudson system, which has \$7,000,000 of 6s and \$3,000,000 of 7s that fall due in that year; the Boston and Maine, which has \$8,558,200 Eastern RR. certificates of indebtedness bearing 6 per cent interest, that fall due then; and the Burlington Cedar Rapids & Northern, which has \$6,500,000 of 5s falling due in the same year. With regard to the saving in interest as computed in the tables, it should always be remembered that if the bonds are refunded in advance of maturity, as in the Lake Shore case, the amount of the saving will necessarily be somewhat reduced, since some allowance has to be made to the bondholders to cover the existing premium on the bonds.

### THE CANADIAN PACIFIC REPORT.

The Canadian Pacific annual report is now issued with very great promptness. The report is for the calendar year ending December 31. It used to take until about the 1st of June before the report was ready. Last year and the two previous years the report was to be had at the beginning of April. The present year we have it at the beginning of March. It is of course a great advantage to have it so early. The annual meeting of the shareholders takes place on the 7th of April. As the report was sent out the latter part of last week, shareholders will have had by the time of the meeting fully thirty days in which to examine and study it. No doubt this is the purpose the managers have in view, and it is also in accordance with the suggestion made by the New York Stock Exchange that annual reports be issued at least fifteen days in advance of the annual meetings. The report now comes about as early as that of the Pennsylvania Railroad, which is for the same fiscal year, and has always been one of the first reports for the calendar year to make its appearance.

The showing in the report must be regarded as very satisfactory considering the conditions which prevailed during the twelve months. In reviewing the report for the previous year (1895) we pointed out what a marked recovery had taken place from the depression in 1894 and how greatly the outlook had changed as a consequence. During 1896 this recovery made further progress, notwithstanding many adverse developments. President William C. Van Horne notes that the recovery in business which afforded such good promise at the date of the last annual report did not long continue. General stagnation in business in the United States occurred on account of the dread and uncertainty felt concerning the outcome of the Presidential election on an issue involving momentous consequences to the country. The Canadian Pacific is of course a Canadian road, and Mr. Van Horne says that while the depression in the United States had no very marked effect upon the local business in Canada, it reduced to a serious extent the interchange of traffic between the two countries. The company's subsidiary lines in the United States, namely the Minneapolis St. Paul & Sault Ste. Marie and the Duluth South Shore & Atlantic, suffered an important shortage, not only in their domestic traffic, but in the business exchanged with the Canadian Pacific, making it necessary for the latter to again extend financial assistance to these lines. The chief cause of loss in the Canadian business the last half of the year was the short wheat crop in the West, which furnished for carriage about 10,000,000 bushels less than the crop of 1895. Better prices for wheat, however, Mr. Van Horne points out, and the development of traffic in the mining districts of British Columbia prevented so large a shrinkage in earnings during the half-year referred to as might otherwise have been expected.

Despite the various drawbacks, a very decided addition was made to both the gross and the net earnings of the year. The recovery in 1895 to which we have alluded related mainly to the net results, and was brought about in chief part through a reduction in expenses. But in 1896 gross earnings again increased heavily, allowing room for a large augmentation in expenses and yet leave a substantial gain in the net earnings. In brief, while in 1895 gross earnings had

increased only \$183,869, and this had been accompanied by a contraction of \$868,773 in expenses, thus producing a gain of \$1,057,642, in 1896 on the other hand the gain in gross earnings reached the large sum of \$1,740,560, expenses increased \$1,113,930 and the gain in net was \$626,630. Notwithstanding this recovery, earnings in 1896 were by no means up to the best previous figures, either in the gross or in the net. Thus though the total of the gross in the late year was \$20,681,597, in 1892 it had been \$21,409,352, and though the net now is \$8,107,582, in 1892 the amount was \$8,420,348.

While the fact that earnings are not as large as in some previous years clearly indicates the presence of unfavorable conditions, it must not be supposed that this loss follows from a smaller volume of traffic. The system carried 4,442,055 tons of freight in 1896 against 4,274,667 tons in 1895 and 4,230,676 tons in 1892, and the tonnage movement one mile was 1,769,958,865 tons in 1896, against 1,490,639,847 tons in 1895 and 1,582,554,352 tons in 1892. In this latter case (which is the true measure of the amount of transportation service rendered) the increase over 1892 it will be seen is over 11 per cent. This is striking evidence that the traffic of the system is not stationary, but on the contrary is being steadily developed—and in the face, too, of unfavorable conditions. Yet, notwithstanding this increase of 11 per cent as compared with 1892, freight earnings for 1896 are actually \$142,980 less than they were in 1892. The explanation of course is found in the decline in the rates. In the late year there was a further drop in the average received per ton per mile, making it only 7.5 mills, against 8.0 mills in 1895, 8.4 mills in 1892, and 9.01 mills in 1891.

It seems really surprising that earnings should have been so well maintained in view of this large and constant shrinkage in rates. But the managers met the decline by the introduction of further economies in operating. Most of all, they undertook to enlarge their train loads, which is the best evidence of economy in operations, and which is the same as saying that on a given freight train mileage they did a greatly increased amount of work. In 1896 the average train load was but little less than 200 tons; in 1892 it was 182 tons and in 1890 but 160 tons. Owing to this addition to the train load the company now earns nearly as much money per freight train mile as in 1892 and very much more than in 1890, notwithstanding the lower average rates received. During the late year the freight train earnings per mile fell off from \$1.53 to \$1.46, but in 1890 the amount was only \$1.31; in 1892 the average had been \$1.52. We should expect the grain traffic to form a very large item in the company's tonnage, especially in a year of comparatively heavy grain movement like 1896, and so the item is large, the company having carried 32,528,256 bushels of grain and 3,291,299 bbls. of flour in 1896, against 27,628,593 bushels of wheat and 2,832,304 bbls. of flour in 1895 (the increase having come on the movement in the early part of the year), and there having also been an increase in the live-stock traffic, of which the road carried 766,219 head in 1896 against 562,135 head in 1895 and 468,218 head in 1894. Nevertheless it is worth noting that the company's traffic in manufactured articles and general merchandise forms nearly one-half its aggregate tonnage. Thus in 1896 total tonnage was 4,442,055 tons, and the tonnage in manufactured and "all other" articles 1,948,-

936 tons, the latter thus constituting 44 per cent of the whole.

Reference was made above to the company's advances to its auxiliary roads, namely the Duluth South Shore & Atlantic and the Minneapolis St. Paul & Sault Ste. Marie. The losses on these lines in 1894 largely accounted for the poor results in that year, necessitating the suspension of dividends at the time. While affairs on these lines, for the reason already stated, again took an unfavorable turn in 1896, there was by no means a relapse to the situation prevailing in 1894. In this last-mentioned year the company had to advance \$694,487 on account of the Minneapolis St. Paul & Sault Ste. Marie, or "Soo" road, with which to meet interest on that company's bonds, and \$456,187 to the Duluth South Shore & Atlantic, making \$1,150,674 of loss to the Canadian Pacific in that way. In 1895, on the other hand, the "Soo" required no assistance whatever, while the South Shore & Atlantic needed aid only to the extent of \$148,717. In the late year the Canadian Pacific was called upon to advance \$335,757 to the South Shore & Atlantic and \$203,890 to the "Soo," or \$539,647 to the two together. The latter amount, it will be seen, is nearly four hundred thousand dollars larger than the loss sustained in the same way in 1895, and that shows the extent to which the Canadian Pacific suffered *directly* as the result of business depression in the United States and the falling off in the spring-wheat crop.

After deducting this loss and all charges for interest and rentals, there remained a surplus on the operations of the twelve months of 1896 of \$1,706,773, against a surplus calculated in the same way on the operations of 1895 of \$1,374,385. Deducting from the \$1,706,773 the sum of \$312,946 for the four per cent dividends on the preferred stock, there was left a balance of \$1,393,827 applicable to dividends on the common stock. Two dividends come out of this, namely, the dividend of one per cent paid in October 1896 and the dividend of one per cent to be paid in April 1897, calling together for \$1,300,000. In other words, the road earned a little over two per cent on its \$65,000,000 of stock, and pays just two per cent.

The company's financial condition is very strong, it holding \$4,366,921 of actual cash in bank. President Van Horne takes a hopeful view of the outlook, saying: "At this time the tide seems to have turned again towards better conditions, and business on both sides of the international boundary is improving. A much larger area than ever before is prepared for seeding in Western Canada, and the farmers are in better circumstances generally than for a number of years back. The mining operations in British Columbia, which have heretofore been chiefly in the way of development, have reached the producing stage; the shipments of ore, which were considerable last year, will be very largely increased during the present one; a great number of mines have been proven, a considerable number are in full and profitable working and others are coming into operation day by day, and your directors have no doubt that their most sanguine expectations in regard to the traffic to be gained from this source will be exceeded in the very near future."

The management recommend a number of capital expenditures, among others the building of a line of 325 miles into the mining districts of Southern British Columbia. The unfavorable conditions which have prevailed they say for the past three years have pre-

vented any effective action towards providing for the traffic of the mining country, but the directors feel now that the improved position and prospects of the company, together with the magnitude of the interests at stake, will fully warrant this important step. It is added that the interests of the country at large are so much concerned in the question that the director confidently expect assistance at the hands of the Dominion Government in the prosecution of this enterprise.

### RAILROAD GROSS EARNINGS FOR FEBRUARY.

Railroad gross earnings for February still show a loss, but the loss is small, and on the whole the result must be regarded as quite satisfactory and indicative of a change for the better, which it is to be hoped will be permanent. The loss is \$319,966, and 70 of the 130 roads from which we have secured returns have fallen behind; but the loss amounts to less than one per cent as against \$2,543,101 (or almost 7 per cent) in January.

This comparatively favorable result has been reached in face of the fact that there was one less day in the month this year, February last year having contained 29 days, and notwithstanding a number of other drawbacks. Thus there was a large falling off in the movement of wheat (though a gain in the movement of other kinds of grain), especially in the Northwest, on account of the smaller spring-wheat crop. Then also the cotton movement fell below that of last year in certain parts of the South. Furthermore, while the weather was on the whole mild, considerable interruption to traffic and loss of earnings was occasioned in the last week of the month on many roads by the great floods at Cincinnati and throughout the Ohio Valley; the Baltimore & Ohio Southwestern and several other roads suffered severely in this way and the Kanawha & Michigan reports that no trains were run at all in West Virginia the last week of the month, on account of the flood. In Colorado snow-storms caused some trouble. Finally it should be remembered that we are comparing with heavily increased earnings a year ago, our statement then having been the best with one exception in four years, it showing no less than \$4,199,171 increase, or 13.52 per cent. The following carries the comparisons back for a series of years.

	Mileage.		Earnings.		Increase or Decrease.
	Year Given.	Year Preceding	Year Given.	Year Preceding	
<b>February.</b>	<b>Miles.</b>	<b>Miles.</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>

We have spoken of the smaller wheat movement. The receipts at the Western ports for the four weeks ending February 27 were 6,266,265 bushels, against 10,873,308 bushels in 1896. On the other hand, the receipts of corn were very heavy, reaching 16,938,176 bushels, against 9,340,635 bushels, though not all the ports shared in the increase. In the case of oats also the movement was heavy, the receipts reaching 14,605,272 bushels, against 9,821,905 bushels. Below we show the grain movement in detail.

## RECEIPTS OF FLOUR AND GRAIN FOR FOUR WEEKS ENDING FEBRUARY 27.

Chicago gained largely in both corn and oats, and notwithstanding the loss in wheat the grain receipts as a whole at that port were 18,379,731 bushels in February 1897, against 15,406,764 bushels in February 1896 and 8,171,002 bushels in February 1895. There was also a considerable increase over 1896 in the receipts of live hogs at that point, the deliveries having been 709,538 head in 1897, against 561,827 head in 1896 and 786,586 head in 1895, as will appear by the following.

## RECEIPTS AT CHICAGO DURING FEBRUARY AND SINCE JANUARY 1.

	February.			Since January 1.		
	1897.	1896.	1895.	1897.	1896.	1895.
Wheat bush.	418,732	1,196,042	374,117	988,169	2,073,572	1,099,619

While the large gains and the large losses in earnings by the separate roads are not very striking this time, it is noteworthy that both the New York Central and the Illinois Central, each a representative road in its section, and getting a good deal of traffic from manufacturing industries, show gains—the New York Central \$94,819 gain, the Illinois Central \$48,459.

Chlo. Mil. & St. Paul.....	\$185,042		
Great Northern.....	125,091		

\* For three weeks only.

The Northwestern group on the whole has done poorer than any other. This follows from the smaller spring-wheat movement, and then it should also be remembered that the comparison is with strikingly heavy earnings last year. Only the Chicago Great Western, the Wisconsin Central and three minor lines have gains; all the rest have losses. On the other hand, as compared with two years ago there is in most cases an increase. Following is a six-year statement for a number of leading roads.

## EARNINGS OF NORTHWESTERN LINES.

February.	1897.	1896.	1895.	1894.	1893.	1892.
	\$	\$	\$	\$	\$	\$

Total.....	5,370,216	5,803,495	4,804,974	5,218,993	5,658,841	6,066,119

In the Southwest the gains, on the whole, predominate. Some of the roads were favored by a larger corn movement. Others had the advantage of a larger cotton movement.

## EARNINGS OF SOUTHWESTERN GROUP

\* Figures here for 1897 and 1896 are simply the totals of the earnings for the four weeks of the month as reported in the weekly returns; the month's earnings usually exceed the weekly estimates quite considerably.

† Galveston Houston & Henderson not included for these years.

In the South the losses were more numerous than the gains. But here, also, there had been decided improvement a year ago.

Three weeks only in February.

Not at St. Louis Alton & Terre Haute for both years.

## DEBT STATEMENT FEBRUARY 27, 1897.

The following statement of the public debt of the United States on February 27, 1897, is made up from official figures issued on that day. Lower down we give an interesting exhibit of the bonds issued in aid of the Pacific Railroads, and the Treasury cash holdings, all of the same date.

### INTEREST-BEARING DEBT FEBRUARY 27, 1897.

Title of Loan—	Interest payable.	Amount issued.	Registered.	Amount outstanding.	Total.
U.S. Fund. loan, 1891, 1 Q.—M.		250,000,000	25,364,500		25,364,500
Continued at 3 p.c. 1 Q.—M.					
U.S. Funded loan, 1907, 1 Q.—J.		740,000,000	490,432,900	69,208,700	559,639,600
U.S. Refund'g cert's, 1 Q.—J.		40,618,760			46,450
U.S. Loan of 1904, 1 Q.—F.		100,000,000	60,021,250	31,978,750	100,000,000
U.S. Loan of 1905, 1 Q.—F.		102,316,400	102,339,350	69,679,650	102,316,400
Total, excluding Pac.					
U.S. Bonds		1,293,280,100	678,058,000	189,231,530	847,384,950

NOTE.—The denominations of bonds are as follows: Two per cents (registered only), \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, \$20,000, \$50,000; 4s of 1907, registered, \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, \$20,000, \$50,000, coupon, \$50, \$100, \$500, \$1,000; 4s, refunding certificates, \$10; 6s of 1904, registered, \$50, \$100, \$1,000, \$10,000, coupon, \$50, \$100, \$1,000; 4s of 1905, registered, \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, coupon, \$50, \$100, \$500, \$1,000.

### DEBT ON WHICH INTEREST HAS CEASED SINCE MATURITY.

	Jan. 30, 1897.	Feb. 27, 1897.
Funded Loan of 1891, matured September 2, 1891.	\$107,350 00	\$152,650 00
Old debt matured prior and subsequent to Jan. 1, '61.	1,215,680 25	1,2 5,600 25

Debt on which interest has ceased.....\$1,382,930 25 \$1,358,210 25

### DEBT BEARING NO INTEREST.

United States notes.....	\$346,681,016 00
Old demand notes.....	54,347 50
National Bank notes—Redemption account.....	23,089,944 50
Fractional currency.....	10,205,175 14
Less amount estimated as lost or destroyed.....	8,378,934 00
	6,880,241 14

Aggregate of debt bearing no interest.....\$376,714,540 14

### RECAPITULATION.

	Feb. 27, 1897.	Jan. 31, 1897.	Increase or Decrease.
Class (location) of Debt			
Interest-bearing debt.....	\$47,384,456 00	\$47,384,750 00	Inc. 294 00
Debt, interest ceased.....	1,382,930 25	1,358,210 25	Dec. 24,720 00
Debt bearing no interest.....	\$70,714,849 14	\$74,623,057 14	Inc. 2,061,492 00
Total gross debt.....	1,225,437,709 40	1,223,370,787 40	Inc. 2,066,972 00
Cash balance in Treasury.....	212,837,255 63	216,302,420 73	Dec. 2,525,165 10
Total net debt.....	1,012,600,453 77	1,006,968,316 67	Inc. 4,592,137 10

The foregoing figures show a gross debt on February 27 1897 (interest-bearing and non interest-bearing) of \$1,325,437,709 40 and a net debt (gross debt less net cash in the Treasury) of \$1,012,600,453 77.

Pacific Railroad bonds are never included in the official total of the Government debt. The status of these obligations to-day is as below. Methods of book-keeping make the official record unintelligible to most readers, and hence we have brought together in our compilation the leading fact relating to the subject.

### BONDS ISSUED IN AID OF PACIFIC RAILROADS.

Name of Railroad.	Bonds issued and accumulated interest.	Bonds paid, or date of maturity.
Central Pacific.....	25,845,120	35,498,635
Kansas Pacific.....	6,303,000	6,549,028
Union Pacific.....	27,238,612	30,524,246
Cent. Br. U. P.....	1,000,000	9,154,430
Western Pacific.....	1,070,560	3,255,036
Sioux City & Pac.....	1,628,320	2,529,461
Total.....	54,623,512	80,551,835
		20,714,000
		29,904,052
		14,004,660

The cash holdings of the Government as the items stood February 27 we take from the Treasury statement of that date. The net cash balance given below is the same as deducted above in reaching the net debt.

### CASH IN THE TREASURY.

Gold—Coins.....	\$179,386,403 89
Bars.....	46,819,625 04
Silver—Dollars.....	890,089,029 00
Subsidiary coin.....	18,805,023 13
Paper—United States notes.....	108,914,614 43
Treasury notes of 1890.....	85,946,400 00
Gold certificates.....	4,876,003 00
Certificates of deposit (Act June 8, 1872).....	270,000 00
National bank notes.....	15,005,993 70
Other—Bonds, interest and coupons paid, awaiting reimbursement.....	146,041 00
3-month coin and fractional currency.....	1,305,853 74
Deposits in nat'l bank depositories—gov't acct.....	12,923,724 40
Disbursing officers' balances.....	3,580,316 25
Aggregate.....	\$864,338,166 99

### DEMAND LIABILITIES.

Gold certificates.....	\$90,046,780 00
Silver certificates.....	873,955,504 00
Certificates of deposit act June 8, 1872.....	76,795,000 00
Treasury notes of 1890.....	111,550,250 00
Fund for redemp. of uncurrent nat'l bank notes.....	8,724,593 15
Outstanding checks and drafts.....	4,315,067 17
Disbursing officers' balances.....	25,046,130 19
Agency accounts, &c.....	5,681,964 81
Gold reserve.....	\$100,000,000 00
Net cash balance.....	112,837,255 63

Aggregate.....\$864,338,166 99

Net cash balance in the Treasury January 31, 1897.....\$15,362,420 73

Net cash balance in the Treasury February 27, 1897.....212,837,255 63

Decrease during the month.....\$2,525,165 10

## HIGH-RATE INTEREST BEARING BONDS MATURING UP TO 1906.

The following table shows all bonds bearing 5 per cent interest and above which mature between now and the close of the year 1905, and the saving in interest which can be effected by refunding them at 4 per cent or  $3\frac{1}{2}$  per cent. An article on a previous page explains the method of compiling the figures and comments on the results disclosed.

BONDS MATURING BEFORE 1906 AND POSSIBLE SAVING OF INTEREST.				Name—				Savings if refunded—			
Name—	Inter- est.	Bonds when due.	Principal. \$	At 4 per cent. \$	At 3½ per cent. \$	Inter- est.	Bonds when due.	Principal. \$	At 4 per cent. \$	At 3½ per cent. \$	At 3½ per cent. \$

NOTE.—Iron, woollens and cottons include all the branches of those manufactures; machinery includes implements and tools; lumber includes saw, planing, ash and door mills, carpenters and coopers; clothing includes millinery and furnishings; hats include furs and gloves; chemicals include drugs, fertilizers, paints and oils; printing and books include engraving and maps; milling includes baking; leather and shoes include makers of harness, saddlery, trunks and rubber goods; liquors include tobacco, wines, brewers and beer; glass includes earthenware, pottery, brick, lime and cement; groceries include meats and fish; hotels include restaurants; dry goods include carpets and curtains; furniture includes crockery; hardware includes stoves and tools and jewelry includes clocks and watches. Brokers include all real estate, note, insurance and produce dealers whose main business is not the handling of actual products, with mortgage and other loan concerns, and transporters include all except incorporated railway companies.

Monetary Commercial English News

LONDON, SATURDAY, February 27th, 1897.

[From our own correspondent.]

On Monday, Mr. Balfour in the House of Commons, M. Hanotaux in the French Chamber, and Baron Marschall von Bleberstein in the German Parliament, made statements to the effect that the concert of the Powers was complete, and that Crete would not be allowed to return under direct Turkish rule. M. Hanotaux's statement was by far the clearest and most emphatic, but then he had to meet a fiercer attack than was made either here or in Germany. On Wednesday Mr. Goschen confirmed what had been said on Monday, and promised a detailed statement by Lord Salisbury the next evening. Lord Salisbury, however, was only able to say that he had made proposals to the other Powers ensuring Home Rule for Crete, but he had not received the answers.

In spite of all these reassurances, however, there is very much apprehension. It is known that the Sultan has been brought to agree to autonomy for Crete. In fact he has no means of sending troops to the Island, and is powerless, therefore, in the matter. But there are doubts whether Greece will yield without the application of force, and if force is applied there is a fear of much popular excitement here at Home, in France, Italy and Russia. But even if Greece can be induced to yield to superior force, without resistance, there remains the apprehension of an outbreak in Macedonia, with a probable invasion by Greece, Serbia and Bulgaria.

There is a rumor, which is believed to be substantially correct, that Russia and Austria-Hungary induced Bulgaria and Serbia, a little while ago, to bind themselves not to interfere in Macedonia, if Greece would do the same. But Greece has refused up to the present. If Greece remains recalcitrant, Serbia and Bulgaria may also take the offensive, and then the question is anxiously asked, Will the powers be able to unite to restrain the three little States?

One statement made by M. Hanotaux on Monday has attracted a great deal of attention all over Europe. He admitted that at the close of 1895 it had been proposed by one Power to close the Dardanelles and seize the Sultan. At first it was supposed that this meant England, but the Under Secretary of State denied any such intention on the part of this Government. Now it is believed that the proposal was

actually made to France and was declined by her. France has very powerfully contributed to maintain peace and complete the concert of the Powers. She will not assist in any way in breaking up the Turkish Empire and Russia shrinks from action without the support of France.

The fear of war between the United States and Spain has again sprung up, and is adding to the several causes of disquiet; while the proposal of President Krüger to practically take away all independence from the Transvaal judges is increasing the embarrassment in South Africa. The judges maintain that they have a power similar to that of the Supreme Court of the United States, to decide whether a law passed by the Volksraad is, or is not, constitutional. The President and the Volksraad deny this, and the President has introduced and carried a bill declaring by the Volksraad that the Court has no such right, and even giving the Government power to remove judges who attempt to go behind the acts of the Volksraad. In India there is very little improvement with regard to the plague, while the famine is becoming more acute.

At this period of the year the collection of the taxes is on a much greater scale than at any other time. Practically the bulk of the Income Tax and a very large part of the other direct taxes are gathered in in the three months following New Years Day. And the collections are largest between the middle of February and the middle of March. At present, therefore, the outside market is being drained of funds, while the Bank of England is every day growing stronger. Owing to this, rates of interest and discount are somewhat higher, although practically there is no speculation and trade is quieter. At the fortnightly settlement on the Stock Exchange this week the bull account was found to be greatly reduced, and consequently the demand for loans was much less. For all that, considerable sums have had to be borrowed from the Bank of England.

The silver market is very quiet, and the India Council is not selling its drafts as well as it did just before Christmas. It offered for tender on Wednesday 40 lacs; the applications were for 63 lacs, but only about 20 were actually sold. After the allotment, however, the Council sold considerable amounts by private contract. It seems odd at first sight that there should be so little demand for Council drafts when the rates of interest and discount are so exceedingly high in India. But the explanation is that trade is almost paralyzed, except in Burmah, by the plague and famine. The quarantine regulations adopted all over Europe and the fear of disease are preventing cotton being sent down to Bombay. Consequently, the cotton has to be carried on borrowed money up country. The exports from Kurrachee are equally checked, and they are very small from other ports.

On the Stock Exchange the public is doing absolutely nothing. Business is entirely in the hands of members and outside professional operators. Because of the hope of an early settlement in Crete there has been a recovery in consols, British railway stocks and foreign government bonds. Yet there has been exceedingly little increase in business. The American market suffered like the rest, though there is some more inclination to buy good bonds. The market, however, which has suffered most is that for South African mining shares. The Transvaal Government refuses concessions to the mine owners, and they complain that between high duties on provisions and the railway and dynamite monopolies it is impossible to work the lower grade ores at a profit. The bill with regard to the judges is adding to the apprehension of the public, and practically therefore all business in the market is suspended.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1897. Feb. 21. £	1896. Feb. 26. £	1895. Feb. 27. £	1894. Feb. 28. £

Messrs. Pixley & Abell write as follows under date of February 25:

Gold.—There is no change to report to the gold demand, and arrivals continue to be disposed of readily. £299,000 has reached the Bank, chiefly from Australia. Arrivals: South Africa, £118,000; New Zealand, £6,000; Australia, £348,000; China, £14,000; Bombay, £50,000; Chili, £4,000; Total, £250,000. Shipments: Bombay, £18,184; Japan, £217,000. Total, £235,184.

Silver.—With comparatively little doing, the market remained at 29 1/2 d. until yesterday, when 20 1/2 d. was quoted. At this price the market closes with a tendency to weakness. The India price is 80 1/2 s. Arrivals from New York, £158,000; Chili, £32,000. Total, £190,000. Shipments to Bombay, £97,300.

Mexican Dollars.—These coin remain without change in the absence of dealings. Arrivals from New York, £9,500.

The quotations for bullion are reported as follows:

—Reports of the condition of the following national banks at the close of business March 9 will be found in our advertising columns: City, American Exchange, Gallatin and Mercantile.

—In another column will be found the offering of \$500,000 of Sanitary District of Chicago bonds by the Merchants' Loan & Trust Co., Chicago.

—Attention is directed to the list of investment securities offered in our advertising columns by Messrs. Redmond, Kerr & Co.

—It is a curious fact, in consideration of the enormous amount of paper used by our commercial houses in their ledgers and journals, that until recently only very few manufacturers have had a first-class reputation in producing such a paper. Undoubtedly the requirements in the way of strength, good surface and wearing qualities make it a delicate undertaking. But within the last few years various mills have attempted the problem. Among these the Whiting Paper Company of Holyoke, Mass., has been notably successful. The Whiting Linen Ledgers keep steadily growing in popularity among banks and large business houses. One point of peculiar interest is the fact that the Whiting Company has made a study to provide papers that will save strain on the eyes. They send free, on request, samples and a valuable little book written by a specialist about the eyes and ways to save them in office work. In the manufacture of fine writing papers the Whiting Company has been in the front ever since it began business, more than thirty years ago, and with its large mills it is to-day the largest maker, we believe, of such papers in the world.

**Auction Sales.**—Among other securities the following, not regularly dealt in at the Board, were recently sold at auction: By Messrs. R. V. Harnett & Co.:

WALL STREET, FRIDAY, MAR. 12, 1897-5 P. M.

**The Money Market and Financial Situation.**—Of the outside influences affecting business in Wall Street the foreign political situation has been the most prominent of the week. It is generally understood that uncertainty as to the outcome of the Cretan controversy has recently caused some liquidation of American securities by foreign holders, but if that is true the effect is not perceptible in the local market. The prospects of serious disturbance have diminished as the week advanced and under a growing belief that Cretan affairs will be amicably adjusted the European bourses have now become more settled.

Among the developments of a domestic nature which attracted attention was the announcement that a prominent New York financier has become newly interested in the Lehigh Valley Railroad Company. Sentiment in regard to the anthracite securities has changed and in some cases quotations have advanced since this announcement was made, as it is confidently expected that the disastrous competition which has existed in the anthracite coal industry will, in the near future, be checked and the whole business be put on a more reasonable and substantial basis.

One of the features of a dull market this week was the limited supply of offerings. A modest demand for almost any security was quickly reflected in higher quotations, which was generally not confined to the particular issues sought. There is a strong hope in all business circles that the coming extra session of Congress will be brief; and a wide-spread belief that when the tariff question is settled new activity may be expected in all departments.

The money market is showing a little life, owing to an increased inquiry for loans. Bankers regard with favor a demand for currency, and especially for small bills at manufacturing points, as indicating a larger need for pay-roll purposes.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1 1/2 to 2 per cent. To-day's rates on call were 1 1/2 to 2 per cent. Prime commercial paper is quoted at 8 to 4 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £368,478 and the percentage of reserve to liabilities was 54.55, against 52.96 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows a decrease of 837,000 francs in gold and 3,479,000 francs in silver.

The New York City Clearing-House banks in their statement of Mar. 6 showed a decrease in the reserve held of \$1,041,100 and a surplus over the required reserve of \$15,559,925, against \$57,520,875 the previous week.

	1897. Mar. 6.	Difference from Prev. week.	1896 Mar. 7.	1895. Mar. 9.
Capital	59,772,700		61,122,700	62,622,700

**Foreign Exchange.**—Early in the week the market for foreign exchange was a little firmer than it had previously been, but owing to easier discount rates abroad and a limited demand, the firmness was not maintained.

The market was easy on Wednesday; showed some hardening tendency on Thursday and closes dull but firm.

To-day's actual rates of exchange were as follows: Bankers, sixty days' sterling, 4.85 1/2 @ 4.85 1/2; demand, 4.87 @ 4.87 1/2, cables, 4.87 1/2 @ 4.87 1/2.

The following were the rates of domestic exchange on New York at the order-mentioned cities to-day: Savannah, buying, 1-16 discount, selling par; Charleston, buying par, selling 1/4 premium; New Orleans, bank, \$1.00 premium; commercial, 25c. per \$1,000 discount; Chicago, 50c. per \$1,000 discount; St. Louis, 25c. per \$1,000 discount.

Posted rates of leading bankers follow:

	March 12.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 86 @ 4 86 1/2	4 88 @ 4 88 1/2	
Prime commercial	4 84 1/2 @ 4 85		
Documentary commercial	4 84 1/2 @ 4 84 1/2		
Paris bankers' (francs)	5 18 1/2 @ 18 1/2	5 16 3/4 @ 16 3/4	
Amsterdam (guilders) bankers	40 1/2 @ 40 1/2	40 1/2 @ 40 1/2	
Frankfort or Bremen (reichmarks) bankers	95 @ 95 1/2	95 1/2 @ 95 1/2	

**United States Bonds.**—Government bonds strong. Sales at the Board include \$250,000 4s. coup., 1925, at 123 1/2 to 123 3/4; \$29,000 4s. coup., 1907, at 118 1/2 to 118 3/4; \$18,500 4s. reg., 1907, at 111 1/2 to 111 3/4; \$15,000 5s. reg., at 114 1/2, and \$4,000 5s. coup., at 114 1/2. The following are closing quotations:

**United States Sub-Treasury.**—The following table shows the daily receipts and payments at the Sub-Treasury during the week.

Date.	Receipts.	Payments.	Balances.		
			Coin.	Coin Cert's.	Currency.
Mar. 6	3,398,080	2,493,603	131,182,823	1,294,116	63,227,440
" 8	2,757,479	2,572,704	131,174,625	1,421,431	63,243,187
" 9	2,067,162	2,227,224	131,199,724	1,450,053	63,062,812
" 10	3,037,796	2,730,864	131,151,672	1,870,073	63,194,478
" 11	3,464,104	3,580,562	131,132,744	1,753,814	63,013,187
" 12	3,302,763	2,343,906	131,118,615	2,017,103	63,522,914
Total	18,058,383	16,148,658			

**Coins.**—Following are the current quotations in gold for coins:

Sovereigns.....	\$4 86 @ 4 89	Fine silver bars.....	— 63 1/2 @ — 64 1/2
Napoleons.....	8 86 @ 8 89	Five francs.....	— 93 @ — 95 1/2
X & Y Reichmarks.	4 74 @ 4 78	Mexican dollars.....	— 49 1/2 @ — 50 1/2
25 Pesetas.....	4 77 @ 4 81	Peruvian soles.....	— 45 @ — 46 1/2
Span. Doubloons.	15 55 @ 15 75	English silver....	4 84 @ 4 88
Mex. Doubloons.	15 50 @ 15 75	U. S. trade dollars	— 65 @ — 75
Fine gold bars...	par @ 1/4 prem.		

**State and Railroad Bonds.**—Sales of State bonds at the Board include \$12,500 Virginia fund. debt 2 1/2 of 1991 at 62 1/2 to 62 3/4, \$2,500 Virginia 6s deferred trust receipts, stamped, at 5 and \$25,000 Tennessee settlement 3s at 79 1/4 to 80.

The market for railway bonds has been strong, and changes, although generally fractional, are in most cases to higher prices. The demand for Lake Shore bonds noted last week has continued, and quotations have further advanced. Lehigh Valley issues have come into prominence and are notably higher on the announcement that representatives of new interests in the company have become identified with its financial management. Northern Pacific and Reading bonds have been among the strong and active features. In addition to the above the active list includes Atchafalpa, Kansas Pacific, Missouri Kansas & Texas, St. Louis & Iron Mountain, Texas & Pacific, Union Pacific, Chicago & Northern Pacific, Milwaukee & St. Paul, North West., Rock Island, Chicago & Eastern Illinois, Wabash, Erie, Chesapeake & Ohio, Southern Railway and Central of New Jersey bonds.

**Railroad and Miscellaneous Stocks.**—Although the volume of business has been exceptionally light in the stock market there is a general feeling that when any change occurs it will be for the better, and, except some weakness in a few cases for special reasons, the market has been firm with few stocks being offered. Central of New Jersey has been one of the weak features, selling down to 92 1/2 on Tuesday, but has regained a part of the loss. Manhattan Elevated sold off over 3 points on the announcement that the quarterly dividend had been reduced to 1 per cent. On Thursday this stock was the most active on the list and advanced over 2 points. Lake Shore and other Vanderbilt stocks have continued firm on limited transactions, including sales of New York & Harlem for the first time in several years. Omaha common has advanced 4 1/2 points within the week, closing to-day at 60 1/2, the highest in its history. The active railroad list shows a net advance averaging about 1 point.

American Tobacco has been the prominent feature of the miscellaneous list and shows the result of manipulation in a net advance of about 4 points. United States Rubber has been especially weak, the common and preferred having declined 2 1/2 and 4 1/2 points respectively. Western Union was active to-day and closes at 85, a gain of 2 1/2 points from the lowest of the week. American Sugar has been usually dull and narrow, fluctuating over a range of less than 2 points. Other stocks in this list have been dull and featureless except some erratic movement of local gas shares.

NEW YORK STOCK EXCHANGE—ACTIVE STOCKS for week ending MARCH 12, and since JAN. 1, 1897.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

ROADS	Latest Gross Earnings.		Jan. 1 to Latest Date.		
	Week or Mo		1896-97. 1895-96.

York Southern.	November.								

Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & Southwestern. These figures include results on leased lines.

Includes earnings from ferries, etc., not given separately. Mexican currency. Includes only half of lines in which Union Pacific has a half interest.

Includes operations of the Chic. Burlington & Northern in both years.

Covers results for lines directly operated east of Pittsburg.

Includes results on affiliated lines.

Covers besides the Atlantic System the Houston & Texas Central, Austin & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans.

Includes St. Louis Alton & Terra Haute for all periods.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows:

For the first week of March our preliminary statement covers 42 roads, and shows 1.69 per cent increase in the aggregate over the same week last year.

**Net Earnings Monthly to Latest Dates.**—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of February 27, 1897. The next will appear in the issue of March 20, 1897.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

\* St. Louis Alton & Terra Haute included in all periods except for the three months from July 1 to September 30.

† Deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in January was \$107,100, agst. \$109,008 last year. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus or deficit above or below those charges.

### STREET RAILWAYS AND TRACTION COMPANIES

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

### STREET RAILWAYS AND TRACTION COMPANIES.

\* Figures were exceptional in 1895 on account of Atlanta Exposition; Decrease in earnings due to factories being shut down.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of February 27, 1897. The next will appear in the issue of March 20, 1897.

Roads.	Gross Earnings.		Net Earnings.	
	1896-7.	1895-6.	1896-7.	1895-6.

\* In addition to above assets the company owns 17,608,394 acres of land.—V. 64, p. 465.

Missouri Pacific Railway Company.

(Report for the year ending Dec. 31, 1896.)

President George J. Gould, in the report, says in substance: **General Results.**—The consolidated income accounts of the Missouri Pacific Railway, St. Louis Iron Mountain and Southern Railway, and leased and operated lines (excluding the Central Branch Union Pacific RR and the Arkansas & Louisiana Ry.), exhibit for the year 1896, as compared with the previous year a decrease in gross earnings of \$640,043; in expenses of \$529,815; in net earnings of \$130,237. A large amount of bridge work was contracted for, which it was necessary to complete in the year 1896; the increase of work of this character over that of 1895 was \$149,099; the decrease in net earnings will be found to be less than this one item alone. The Osage Division of the Missouri Kansas & Texas Ry., 54 miles in length, formerly operated under lease, was surrendered to the owners on Sept. 1, 1895; for the year 1896, therefore, comparisons are made as against a greater mileage to the extent above referred to.

**Maintenance, Improvements, Etc.**—The decrease in cost of maintenance of cars, amounting to \$319,492, occurred by reason that less cars were rebuilt and a less number of cars received general and heavy repairs than in 1895. At the same time the following improvements were made:

1,717 freight cars were equipped with automatic couplers at an additional cost of \$11,668; 8,064 freight cars were raised to the standard height of drawbars, at a cost of \$12,096; 2,260 broken wooden bolsters on freight cars were replaced with baso steel bolsters at a cost of \$28,443; metallic roofs were placed on 1,651 freight cars at an expense of \$54,420; 17,964 cars were re-weighted and re-steeled.

The roadway has been fully maintained during the year, and improved as follows: 137 miles of steel rails were laid, nearly all weighing 75 pounds per yard; side track facilities were increased over six miles; 37 miles of track were newly ballasted; 1,971,321 cross ties and 950 sets of switch ties were laid, at a cost, including labor, of \$939,000; 42 miles of road were protected with new wire fence, over three miles of new board fence built and 193 miles of old fence repaired, at a cost of \$17,494.

Many steel and iron bridges were erected, replacing wooden or other structures at an expense during the year of \$311,959, an increase over the year 1895 of \$149,099.

**Changes in Other Income, Interest Charges, Etc.**—Receipts classed as "other income" compared with previous year show decreases as follows: Dividends from investments, \$183,917; sleeping-car and ferry earnings, \$25,995; adjustment of accrued interest, general insurance, inventory accounts, etc., \$204,229; the expiration of the contract with the St. L. & S. F. Ry. for terminal facilities, etc., at St. Louis, Dec. 31, 1895, will explain a further comparative decrease during the year 1896 of \$180,247.

The increase shown in "interest accrued on bonds" represents the increased charges occasioned by the issuance of gold funding notes from time to time as the advances by directors were funded, thus decreasing the charge heretofore made to "interest on advances by directors".

**Assets and Liabilities.**—The following statement shows the available assets and liabilities:

Available Assets.		Liabilities.	
Cash—Mo. Pac. Ry.	\$499,034	Interest due and accrued—	
St. L. I. M. & S. Ry.	139,924	Missouri Pacific Ry.	\$187,810

St. L. I. M. & S. Ry.	71,854	from St. L. I. M. & S.	166,384
		Excess of assets ov. liab.	659,925
<b>Total</b>	<b>\$6,439,970</b>	<b>Total</b>	<b>\$6,439,970</b>

**Passenger Traffic—Competition of Electric Lines.**—The improvement in passenger traffic noted in 1895 was not sustained throughout the year 1896, the financial and industrial depression of the previous two years being aggravated by the political canvass.

The competition due to the establishment of electric lines to and from suburban points within a radius of fifteen miles of St. Louis and Kansas City was fully developed during this year. As intimated in our annual report for 1895, this competition has contributed to a substantial reduction in local and commutation passenger earnings, being particularly noticeable since their completion in the early part of the year. The depreciation in revenue from this source amounts to \$70,093, of which \$50,159 is from commutation passengers and \$19,933 from local traffic. The country has been fully occupied by these competing electric lines, and no further decrease of revenues on this account is anticipated; on the contrary, owing to the increase of population stimulated by these lines, it is expected we will regain ultimately a large share of the travel that has been lost during the year. Freight revenues to suburban points are increased, as electric lines do only a passenger business; the increase in number of people living at suburban stations is being reflected in the increase of freight revenues to and from those stations. The decrease in local passengers was 90,988, and in commutation 671,772.

**Traffic Statistics.**—The following tables compiled from the company's reports show the changes in tonnage of principal articles carried, and other statistics:

MISSOURI PACIFIC RY.—TONS CARRIED (000 omitted).					
Year.	Total.	Lumber.	Live stock.	Bulk grain.	Coal.
1896	4,687	338 (7.2%)	420 (8.9%)	874 (18.7%)	1,192 (25.4%)
1895	4,379	330 (7.5%)	364 (8.3%)	540 (12.4%)	1,160 (26.5%)
1894	4,326	318 (7.4%)	367 (8.5%)	787 (18.4%)	1,015 (23.4%)
1893	5,081	387 (7.6%)	350 (6.9%)	1,102 (21.7%)	1,407 (27.7%)

The revival in business which set in at the beginning of the latter half of 1895, and which was making steady headway until the close of that year, was, owing to a variety of causes, checked during 1896, and extreme dulness in the general freight business of the country ruled throughout the year.

**Rates.**—Rates generally were well maintained during the year, with the exception of disturbance of rates to Texas, which was checked in the month of March, since which time rates in this direction have been absolutely maintained; no reduced tariffs resorted to. In July the reduction from the Missouri River and grain fields west, to points east and south, on grain and grain commodities, was forced upon us. This continued until Nov. 2, when the reduced rates and unprofitable tariffs were withdrawn. Since Nov. 2 rates have been fully maintained. There has been considerable competition between the salt producers of Kansas and those of Michigan, with the result of low rates on this commodity, which continued to the close of the year.

**Statistics.**—The statement of operations and earnings of the combined Missouri Pacific and St. L. I. M. & So. systems for three years is as below given. The Central Br. Union Pac. Ry. and the Ark. & La. Ry. results are not included:

OPERATIONS AND FISCAL RESULTS OF MO. PAC. AND ST. L. I. M. & SO.

## Chicago St. Paul Minneapolis &amp; Omaha Railway Co.

(Report for year ending Dec. 31, 1896.)

The report of President Marvin Hughitt says in substance: **General Results.**—The changes from preceding year were: Increase in gross earnings, \$647,428; increase in operating expenses and taxes, \$300,381; increase in net earnings, \$347,047. [After payment of 7 per cent (\$787,976) on the preferred stock and 2 per cent (\$470,982) on the common stock (the first dividend on this stock) there remains a surplus on the year's operations of \$310,901.]

**Physical Condition**—The general physical condition of the property was fully maintained during the year. A brown stone passenger depot building, substantial and ornamental in construction, was erected during the year at the city of Eau Claire. The condition of the road-bed on the more important divisions was greatly improved by the addition of ballast, new rail of heavy section on the main lines, new side tracks and other much needed facilities. The usual number of temporary bridges and culverts were replaced with permanent structures of iron, stone and embankments during the year. Some of the improvements were:

Decrease in the length of wooden bridging during the year of 1,953 feet. Net additions to side tracks aggregating 13-55 track miles. New steel of eighty pounds to the yard laid in the main line to a total of 72-29 track miles. New ties laid in renewal numbering 441,048. Ballasting as follows: Gravel, 118-83 miles; clender, 8-49 miles; total miles, 127-32 miles.

Two combination mail, baggage and passenger cars and ten refrigerator cars; four cabooses, fifty box and ten flat cars were built. Freight cars fitted with Westinghouse air brakes and M. C. B. automatic couplers, 670. Freight cars were fitted with M. C. B. automatic couplers, but not air brakes, 512. To December 31, 6,786 freight cars have been equipped with automatic couplers; of this number 6,274 are also equipped with air brakes. The equipment Dec. 31, 1896, was as follows, viz.: Locomotives, 269; passenger cars, 204; freight cars, 8,959; miscellaneous, 4.

**Stock and Bonds.**—There was no change in the aggregate amount of capital stock during the year and the funded debt at the close of the fiscal year was the same as on Dec. 31, 1895.

**Traffic.**—The number of passengers carried decreased 1-43 per cent, while the number carried one mile increased 2-67 per cent. The earnings from freight traffic increased 11-75 per cent. This increase was due in the main to the heavy movement of grain from the St. Paul & Sioux City division of the road to Minneapolis and Lake Superior. There was an increase of about 13 per cent over the previous year in the number of tons of freight carried and of about 60 per cent in the tonnage of grain alone. The number of tons carried one mile increased by 23-30 per cent. The average rate per ton per mile fell from 1-150 cents in 1895 to 1-042 cents, a decrease of 9-39 per cent, while the average distance each ton was hauled increased 9-39 per cent. There was an appreciable increase in shipments of flour and other millstuffs, and in live stock, while in some other commodities, and especially in lumber, there was correspondingly a falling off.

The following traffic statistics have been compiled for the CHRONICLE:

	1896.	1895.	1894.	1893.	1892.
Average ton per train.....	171	157	157	147	162

## Texas Central Railroad Company.

(Report for the year ending Dec. 31, 1896.)

Vice-President Charles Hamilton says in part:

The condition of the property, including equipment, has been maintained and in many particulars greatly improved. The total payments for renewals and improvements outside of actual operating expenses were \$28,790, charged to income account. In the amount charged

to maintenance of way is included 55,231 ties, costing \$23,830, an average of 43 cents per tie.

The decrease in earnings as compared with the year 1895, amounting to \$23,747, was caused by the short cotton crop last season.

**Statistics.**—The earnings and balance sheet have been :

	1896.	1895.	1894.
<b>Earnings—</b>

**New York & New Jersey Telephone Co.**

(Report for year ending Dec. 31, 1896.)

The report of President Charles F. Cutler says in part:

**Additions.**—On March 12, 1896, the authorized capital stock was increased from \$3,500,000 to \$5,000,000, and \$320,000 of the increased stock was offered at par to the stockholders. Practically the entire amount of this offering was subscribed for, and the proceeds thereof have been used in the large extensions of the company's system which have been made during the year. The substantial increase in the revenues resulting therefrom has demonstrated almost beyond question that there is still room for further large expenditures. The number of stations maintained at the close of 1896 was 14,333, representing a net gain for the year of 2,450.

A corner plot, about 100 feet square, has been acquired on Wiltoughy Street, in the city of Brooklyn, upon which it is proposed to erect during the present year a substantial eight-story building to accommodate the general offices of the company, as well as its principal Brooklyn exchange.

**Earnings.**—While the gross earnings show a substantial increase, they are, we believe, much less than they would have been had it not been for the business depression. At the same time, the large number of new central offices established during the year and the rapid change from the former "flat rate" to "message" contracts, upon a somewhat lower basis, have both caused a temporary increase in the expense, which should, in a large degree, adjust itself during the coming year.

**Favorable Decision.**—Since the close of the year a decision has been handed down by the court of last resort of the State of New York, affirming the judgments in the courts below, granted in favor of your company in its litigation with the Metropolitan Telephone & Telegraph Company of New York, in reference to the acquisition of the Newark territory some years ago. While the amount of the judgment is yet to be finally settled, it is believed that the recovery will afford a very substantial and satisfactory fund for the purposes of the company during the coming year.

Earnings, charges, etc., have been as follows :

	1896.	1895.	1894.	1893.
<b>Gross earnings.....</b>	<b>1,554,585</b>	<b>1,405,882</b>	<b>1,252,509</b>	<b>1,183,332</b>

**Terminal Railroad Association of St. Louis.**

(Report for year ending Dec. 31, 1896.)

President Julius S. Walsh in the report says in part:

The increase of gross earnings, as compared with 1895, was \$11,426, but the increase in expense was \$35,744, there having been charged to operating expenses the damage sustained from the tornado, viz: \$76,647. The items of expenditure which may be called extraordinary aggregated about \$333,242, including: Construction Account—New electric light plant final payment on headhouse, &c., \$56,264; St. Louis Merchants' Bridge Terminal Co., advances to meet interest on bonds and other expenses, \$180,000; bills payable, \$31,503; Improvement Account—Yards, 12th and 21st streets, new coal chutes, &c., \$40,211.

It is estimated that the extraordinary expenditures for the year 1897 will aggregate \$222,500, namely: Improvement account, third section, east approach, \$90,000; estimated to meet contracts, \$120,000; bills payable, \$22,500. Or a decrease from similar accounts for previous year of upwards of \$100,000.

Of the outstanding notes of the company, given for real estate purchases, which matured during the year, all were renewed for a term of three or five years, in most cases at a reduced rate of interest.

With the completion of the reconstruction of the east approach of the bridge now under way, the physical condition of all the property will be excellent. Any growth in general business will be quickly appreciable.

**Statistics.**—The earnings and expenses and balance-sheet were as follows :

	1896.	1895.	1894.	1893.

**GENERAL INVESTMENT NEWS.**

**Reorganizations.**—For index to reorganization plans, defaults, etc., see last week's CHRONICLE.

**American Tobacco.—Dismissal of New Jersey Suit.**—At Trenton yesterday Vice-Chancellor Reed filed a decision dismissing the suit brought against the company jointly in the name of the Attorney-General and Miller Brothers, tobacco dealers of Newark, for the purpose of restraining it as a trust from doing business and from "conducting the business in a manner prejudicial to the complainants and injurious to the people of the State of

New Jersey." The Vice-Chancellor holds that in refusing to sell to parties who will not agree not to handle the goods of other manufacturers, the company is acting within its rights and that the court has not power to interfere. The only question to his mind in the case is whether the American Tobacco Company is legally formed and that is a matter for a court of law to decide, as it involves the right to the charter itself.—V. 64, p. 81.

**Atchison Colorado & Pacific RR.—Atchison Jewell County & Western RR.—Reorganization Committee.**—Department of Bonds Called For.—A committee consisting of T. Jefferson Choldge, Jr., Chairman; Oliver Ames, Edward H. Ladd, Jr., James P. Comerov, with F. K. Cummins, Jr., Secretary, Room 37, Ames Building, Boston, has prepared a protective agreement for the first mortgage bonds of each of the above-mentioned companies. Holders are invited to deposit their bonds with the Old Colony Trust Company in Boston, or the Union Trust Company of New York, in exchange for negotiable receipts. Foreclosure suits have been instituted by the trustee for the bonds of the lessee company, the Central Branch Union Pacific RR., known as the Atchison & Pike's Peak RR. first mortgage bonds, and by the trustee of the Atchison Colorado & Pacific and the Atchison Jewell County & Western bonds. A movement has been made by the Atchison & Pike's Peak bondholders for a separate receiver. Prompt measures, therefore, may be needed to protect the rights of the bondholders to whom the present notice is addressed. The committee has named April 1 as the limit of time within which bonds may be deposited without penalty.—V. 61, p. 924.

**Atchison Topeka & Santa Fe Ry.—Texas Louisiana & Eastern RR.**—Purchased by Atchison.—The Texas Louisiana & Eastern has been acquired by the Atchison. The road extends from Comstock, Texas, on the Gulf, Colorado & Santa Fe Division of the Atchison in an easterly direction 30 miles. It will extend the Atchison lines into the Beaumont timber section and will be especially useful in connection with supplying the system with railroad ties. At Somerville, Texas, where the Comstock branch joins the main line the company have a plant for treating ties with a zinc process which, it is said, troubles the life of the ties.

**Bonds Listed.**—The Atchison has listed on the New York Stock Exchange \$493,000 additional general mortgage 4s, making total amount listed to date \$106,750,000.—V. 64, p. 468.

**Purchase of Southern Pacific Line.**—As stated in the CHRONICLE some weeks ago, negotiations have been pending for a reduction of the rental (\$436,266) paid the Southern Pacific annually for the use of the Mojave Division, from Barstow to the Needles, 212 miles. President Ripley is now quoted as saying that negotiations have been completed for the purchase of the road, thus affording the Atchison an unbroken line of its own from Chicago to the Pacific.—V. 64, p. 468.

**Atlanta & West Point RR.—Court Declines to Appoint a Receiver.**—Injunction as to Making Mortgage.—At Atlanta, Ga., March 6, Judge J. H. Lumpkin, of Fulton County Superior Court, this afternoon handed down his decision on the Nelson bill. The order of the Court says:

1. The appointment of a receiver prayed for is refused and denied. 2. Injunction is granted enjoining the defendants until the final hearing of this case, or further order of Court to the contrary, from seeking to carry into effect the provisions of the act of the Legislature, approved Dec. 19, 1898, touching a repeal of sections 7, 8 and 9 of the act of Dec. 27, 1847, or a repeal of section 1 of the act of Jan. 15, 1852, and also the provision for power to borrow money and execute deeds of trust or mortgages, as set out in section 4 of the act of Dec. 19, 1898, or from altering the present status of the defendant, the Atlanta & West Point RR. Co. as to such powers or changes.—V. 63, p. 1158.

**Atlantic & Pacific RR.—Land Grant Forfeited where Road not Constructed.**—The U. S. Supreme Court rendered a decision last month which settles the question as to the claim of the Atlantic & Pacific to lands through the territory in which the company failed to construct any road. The following facts, published in the daily papers, have been confirmed for the CHRONICLE:

The title of the case is "The Atlantic & Pacific RR. Co. vs. Robert Mingus," and it comes from the Supreme Court of the Territory of New Mexico. The litigation was over the title to a tract of land situated within the limits of that part of the grant originally made in 1866 to the Atlantic & Pacific RR. Co., and declared to be forfeited to the United States by the act of 1896, because the road exterminus therewith had not been constructed in accordance with the conditions of the grant. The Supreme Court of the Territory affirmed Mingus's title to the land, and the railroad company appealed to the Supreme Court of the United States, which now affirms the decision of the New Mexico Court that the grant had been forfeited. It was claimed by the railroad that by an act passed in 1871 Congress expressly authorized the company to mortgage the land grant, and that having been done Congress could not forfeit the land, at least until after the time when that mortgage became due, which time has not yet arrived.

**Notice to Holders of Income Bonds, Western Division.**—The Bachs Committee, referring to its previous call for deposit of bonds, states that large amounts of the same have been deposited, and that it is imperative that the bondholders who desire to co-operate should deposit their holdings before the 15th instant, the date fixed by the original call. See advertisement in another column.—V. 64, p. 328.

**Brooklyn Elevated RR.—Reorganization Plan.**—A plan for a material reduction of the company's fixed charges is being arranged, but those interested decline to give out the facts. The "Brooklyn Eagle," however, says: The plan in brief is to reduce the interest of the outstanding bonded indebtedness of all three elevated companies [Brooklyn, Union and Seaside and Brooklyn Bridge companies.—Eds.], that are

now being operated by the Brooklyn company, to a 4 per cent basis for five years and thereafter to a 5 per cent basis. It is said that the holders of the first mortgage Brooklyn Elevated bonds have nearly all consented to the plan.

The interest on the outstanding bonds yearly is \$709,700. Under the proposed reduction the interest on the bonds would only amount to \$190,566 for five years [and thereafter to \$613,204.—Eds.] The saving in the fixed charges would at once put the company on a paying basis, as the deficiency last year was considerably less than the proposed cut in the fixed charges, being, in fact, only \$75,000.

It is understood that a still further project for improving the finances of the company is being talked of. This is the selling of the company's treasury bonds [\$1,232,000 of the Seaside and Union companies] to the stockholders in proportion to their holdings of stock.

President Frederick Uhlmann refused to discuss the reorganization plan, but said that it was getting along all right. "We must reduce our fixed charges by some means," he added.—V. 64, p. 373.

**Central Ohio RR.—Baltimore & Ohio RR.—Reply to Reiman Committee.**—The reply of the managers of the Central Ohio RR. to the circular of the Reiman stockholders' committee will be found in full on another page of to day's CHRONICLE. A résumé of the reply was published in our issue of Feb. 27, 1897, page 422, and the circular of the Reiman Committee was cited in the issue of Jan. 16, 1897, page 133. The managers believe the lease to the B. & O. is a valuable one to the Central Ohio and that no action should be taken which might jeopardize the rights under that lease. The statement explains clearly the present status of affairs.—V. 64, p. 422.

**Central Vermont RR.—Penalty on Deposits After March 25.**—The committee of the Consolidated RR. of Vermont 5 per cents announces that as over \$5,100,000 bonds have been deposited with the American Loan & Trust Co. under the April 7, 1896, agreement, and as foreclosure proceedings have been instituted, no more bonds will be received after March 25, 1897, except on payment of the penalty of 1 per cent on each bond.—V. 64, p. 373.

**Chattanooga Rome & Columbus RR.—Reorganization Plan.**—Simon Borg & Co. have prepared a plan of reorganization which will be submitted at a meeting of the bondholders to be held April 8th. The plan provides for an authorized issue of \$500,000 first mortgage 5 per cent 50-year gold bonds of \$1,000 each, \$1,600,000 5 per cent non-cumulative preferred stock and \$1,600,000 common stock. Present bondholders to receive 70 per cent in new preferred and 70 per cent in new common stock and have the privilege of subscribing to \$250 of the new bonds at par for each \$1,000 of their present holdings, receiving a bonus of 25 per cent of the amount of their subscription in preferred and 25 per cent in common stock.—V. 64, p. 133.

**Chicago & Eastern Illinois RR.—Bonds Listed.**—On the New York Stock Exchange have been listed \$2,230,000 additional general consolidated and first mortgage 5s of 1897, making total amount on list to date \$9,767,000. The bonds now listed are those mentioned on page 422 as about to be issued on account of the Chicago Paducah & Memphis and the extension of 24 miles built to unite the two roads, in all 127 miles of line.—V. 64, p. 422.

**Cleveland Canton & Southern RR.—Status of Foreclosure Proceedings.**—In the foreclosure suit instituted by the International Trust Co., Boston, trustee under the Cleveland & Canton first mortgage, time has been allowed for taking testimony and a decree, it is expected, will be obtained during the coming summer. It is thought the first mortgage bondholders will have to take the road, as no agreement among the junior security holders to raise the necessary cash appears probable.—V. 63, p. 1156.

**Columbus Hocking Valley & Toledo RR.—Suit Against Burke continued in Ohio Courts.**—At Columbus, Ohio, on Tuesday, the Circuit Court affirmed the decision of Judge Pugh rendered last August in the Common Pleas Court, which overruled the motion of the Central Trust Company of New York, to dismiss the suit against Judge Stevenson Burke and his associates in the \$8,000,000 Columbus Hocking Valley & Toledo bond case. The application to dismiss the suit on the part of the Trust Co. was made, first, because the Court of Appeals of New York has decided that there is no cause of action, and, secondly, that only a very small portion of the bondholders have requested the proceedings. The Trust Company will appeal from the decision.—V. 64, p. 422.

**Columbus Hocking Valley & Toledo Ry.—Coupons in Default.**—The coupons due March 1 on the \$600,000 Columbus & Toledo bonds remain unpaid. The recent order as to interest payment applies only to a few unrepresented coupons that matured prior to the receivership. No intimation is given as to when a reorganization plan may be expected. In the meantime further deposits of bonds are requested.—V. 64, p. 422.

**Edison Illuminating Company of St. Louis.—Reorganization Plan.**—The plan for the reorganization of this company requires the holders of the bonds and stock to deposit their holdings on or before April 1, 1897. A copy of the plan can be seen at H. B. Hollins & Co.'s, New York City. George A. Medill is chairman of the reorganization committee.

**Gainesville Jefferson & Southern RR.—Receiver Appointed.**—On March 4 this road—running from Gainesville to Social Circle, Ga., 40 miles—was placed in the hands of Mar-

tin Dooly as receiver. Of the \$245,000 first mortgage bonds, \$161,500, as also the \$75,000 second mortgage bonds, are endorsed by the Georgia RR., which has paid the interest upon them, but on the unendorsed bonds no interest has been paid since July 1, 1895.

**Georgia Railroad.—Central of Georgia Ry.—Louisville & Nashville RR.**—On April 1, 1881, the Georgia RR. was leased jointly to the Central of Georgia and the Louisville & Nashville RR. During the receivership of the Central, however, it failed one year to put up its half of the deficit, under the lease, and the Louisville & Nashville paid the whole amount. The latter thereupon took the position that the Central's interest in the lease was dead and later when the Central made a tender of its share of the deficit it was declined. Suit was begun by the Central at Macon, Ga., Feb. 18, to compel recognition of the Central as joint lessee of the property. The case will be heard by Judge Speer at Macon, March 18.

**Refunding Bonds Sold.**—The Georgia RR. Co., is negotiating the sale of \$1,000,000 of 5 per cent 25-year bonds at par, to retire the same amount of 6 per cent debentures due July 1, 1897.—V. 64, p. 180, 231, 287.

**Grand Rapids Gas Light Co.—Securities Listed.**—On the New York Stock Exchange have been listed the company's \$1,225,000 first mortgage 5 per cent twenty-year gold bonds of 1915 and \$1,000,000 capital stock, in \$50 shares.

**Jefferson & Clearfield Coal & Iron.—Securities Listed.**—On the New York Stock Exchange have been listed the company's \$2,000,000 first mortgage 5 per cent gold bonds of 1926, Nos. 1 to 2,000 inclusive; the \$1,000,000 second mortgage 5 per cent thirty-year gold bonds of 1926, Nos. 1 to 1,000 inclusive, and \$1,500,000 preferred stock. These securities were fully described in the CHRONICLE of June 18, 1896, p. 115, 116.

**Kansas Railroad Bill Vetoed.—Objections to Measure.**—Gov. Leedy, at Topeka, Kan., March 9, vetoed the railroad bill in a message of about 4,000 words. A dispatch to the "St. Louis Globe-Democrat" recites the following six objections which the Governor makes to the measure:

1. The bill suggests no way by which an aggrieved shipper can secure practical relief.
2. The penalties named are so hedged about that they will neither compel obedience to the terms of the law nor enforce subjection to the orders of the Commission.
3. The bill makes of the Railroad Commission a mere justice of the peace court, from which litigants pass to the district court to begin anew the trial of their cause, but fails to give to this tribunal even the power to compel attendance and to enforce its decrees with which that less august functionary is gifted.
4. Offering the shipper no defensible advantage that is not his under the present legislation and securing to him no means of redress that is not his already by virtue of the ancient principles of the common law, this bill actually circumscribes the rights that he would have under the common law in that it induces him to a struggle before the Railroad Commission which only lands him in the district court in a better position than that of his contemporary who begins his action there without reference to this statute, but who has not lost the time consumed before the Commission.
5. The bill itself offers an opportunity and suggestion for such an infinite array of technical legal complications that it is difficult to see how anything can be definitely accomplished under its provisions.
6. An attempt on the part of the Railroad Commission to go into the court and enforce their recommendations would involve the expenditure of large sums of money for which this Legislature has made no appropriation and without which the bill would be wholly ineffectual, leaving the Commissioners with neither power to give effect to their opinions nor to have them heard in the court of justice which can enforce its decrees.

In conclusion the Governor makes these recommendations: The Legislature should make a schedule of rates itself, then there would be no question as to delegated power; but if the Legislature in its wisdom sees fit to delegate powers to a commission, that commission should be given large judicial powers to compel obedience to its writs—the commission to be empowered to make rates upon a hearing, the commission to be a representative of the Legislature and not an adjunct of the courts.

**Lehigh Valley RR.—Drexel-Morgan Interests to Vote the Packer Stock and Take New Bonds to Fund the Company's Floating Debt.**—On Tuesday the following announcement was made by Messrs. J. P. Morgan & Co., with whom is associated in the transactions named the firm of Drexel & Co. of Philadelphia:

"The trustees of the Packer estate have arranged with J. P. Morgan & Co., of this city, to fund for a period of years the entire indebtedness of the estate. In connection with this transaction J. P. Morgan & Co. receive the voting power of all the Lehigh Valley stock controlled by the estate. [Reported to be 150,000 shares.—EDS.]

"The Lehigh Valley RR. Co. has also contracted with the same firm for a general readjustment of the road's finances. The company has agreed to create a series of \$8,000,000 5 per cent bonds, to be secured by ample unencumbered assets now held by it. Of these bonds \$5,000,000 are to be issued now, and they have been sold to J. P. Morgan & Co., and \$3,000,000 may be issued as needed in the next two or three years. The company reserves the right to increase the amount of the mortgage after 1899 by \$1,000,000 annually for seven years. The last-mentioned bonds are to be used to acquire new property, equipment, etc., all of which shall become subject to the mortgage. The \$5,000,000 bonds now sold are expected not only to pay the entire floating debt of the railroad company, every dollar of which represents absolutely new property purchased, but also to leave it a substantial working capital and provision for its legitimate construction needs hereafter. These transactions are based upon a certification of the railroad company's accounts, which were submitted to J. P. Morgan & Co. The successful accomplishment of these negotiations proves how unjustified have been the recent attacks on the Lehigh Valley and its securities."

**Effect of Above Arrangement.**—Philadelphia "Press" says:

This successful negotiation has an important bearing not only on the Lehigh Valley itself, but on the trunk-line situation and the anthracite coal trade. It is not believed that any change will take place immediately, but it is necessarily inferred that the control of the property will go into the hands of the Drexel-Morgan interests. Mr. Morgan, as it is well known, through his affiliation with the Vanderbilts, and to his position as the leading banker of the country, already has a large voice in the trunk-line, New England and in the bituminous coal and anthracite coal-carrying companies. There can be but little doubt that the Lehigh Valley, for a time at least, will be under his eye, and it may be taken for granted that the anthracite coal transportation interests will dwell together in harmony.—V. 64, p. 373.

**Earnings in New York State.**—The lines in New York State now include: Lehigh Valley in New York, 283 miles; Lehigh & New York (formerly Southern Central), 115 miles; Rochester Southern (of which 14 miles included only since Aug. 14, 1895), 30 miles; Elmira Cortland & North, (since Feb. 20, 1896), 139 miles, and Middlesex Valley (since Dec., 1895), 30 miles; total 597 miles. Earnings of the quarter and the six months ending December 31 have been reported as follows:

3 mos. end. Dec. 31.	Gross earnings.	Net earnings.	Interest, taxes, etc.	Balance, surplus.
1896.....	\$1,691,298	\$742,329	\$285,301	\$457,028
1895.....	1,543,374	630,168	260,765	369,403
6 months—				
1896.....	3,279,365	1,346,282	536,258	810,024
1895.....	2,770,376	1,027,947	466,217	561,730

—V. 64, p. 373.

**Long Island RR.—Quarterly.**—Earnings for the quarter and the six months ending Dec. 31 are reported as follows:

3 mos. end. Dec. 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, sur. or def.
1896.....	\$30,730	\$173,865	\$35,855	\$302,01	def. \$92,381
1895.....	\$59,059	218,980	37,350	270,937	def. 14,106
6 months—					
1896.....	\$2,236,377	\$813,906	\$115,982	\$616,222	sur. \$313,646
1895.....	2,297,552	837,439	104,450	566,075	sur. 425,864

Loans and bills payable Dec. 31, 1896, \$1,084,000, against \$900,000 on Sept. 30. The general balance sheet of Sept. 30, 1896, was given in V. 63, p. 1010, and there were no important changes to Dec. 31.—V. 64, p. 469.

**Louisville New Albany & Chicago Ry.—Chicago Indianapolis & Louisville Ry.—Sold in Foreclosure.**—The Louisville New Albany & Chicago Ry. was sold in foreclosure at Indianapolis on Wednesday, subject to first mortgages aggregating \$5,300,000, and purchased by A. H. J. line, representing the bondholders' committee, for \$3,001,000. The securities of the successor company (the Chicago Indianapolis & Louisville Ry.) will carry interest from July 1, at which date they will be ready for distribution. The foreclosure sale has been confirmed.—V. 64, p. 273.

**Manhattan (Elevated) Ry.—Quarterly Dividend Reduced to One Per Cent.**—The directors on Tuesday reduced the quarterly dividend from  $1\frac{1}{2}$  to 1 per cent. The rate had previously been 6 per cent annually since and including January, 1891. The reduction, if maintained, will save the company 2 per cent per annum on \$30,000,000 capital stock, or \$600,000. The deficit for the year ending June 30, 1896, after paying the full 6 per cent, was \$681,904. For the six months, however, ending Dec. 31, 1896, the balance available for dividends showed an increase as a result of refunding the New York Elevated 7s compared with the previous year of \$65,000. Dividends, therefore, at the rate now adopted bring the accounts into substantial equilibrium.—V. 64, p. 373.

**Metropolitan Traction.—The Underground Trolley.**—At the hearing this week before the State Railroad Commissioners, on the application to change the motive power of the Sixth, Eighth and Ninth avenue lines, and also the Belt line, from horse to underground trolley, William C. Whitney, representing the Company, said:

"We think that we have the very best motive power obtainable for street railroads. You can gauge the measure of our confidence in this improved underground trolley system by the fact that we are prepared to spend nearly \$6,000,000 in giving it to the people of New York. We ought to be able to begin work at once in order to equip our horse-car lines before next winter. To accomplish that feat it will be necessary for us to do 2,000 feet of construction each twenty-four hours. Every day's delay, therefore, is an exasperating obstruction."—V. 64, p. 330.

**Metropolitan West Side Elevated RR., Chicago.—Distribution of Stock to Construction Company Stockholders.**—The directors of the Construction Company, by circular of March 5, announce the proposed distribution to the Construction Company stockholders of reorganization receipts representing 124,121 shares of the Metropolitan West Side Elevated RR. The distribution will be made March 31 to stockholders of record March 25. The stock itself is deposited with the Central Trust pending reorganization.—V. 64, p. 237.

**Mexican National RR.—Interest on A Bonds.**—Holders of second mortgage A bonds are entitled to 3 per cent on account of past-due interest from the earnings of 1896, and they will be paid on presentation of coupons Nos. 2 and 3 at the National City Bank on March 22.—V. 63, p. 1115.

**Middle Tennessee & Alabama RR.—Ordered Sold.**—A despatch from Nashville, Tenn., March 9, says that in the case of the State Trust Co. versus the railroad company before United States Circuit Judge Lurton, a decree of foreclosure of the mortgage has been entered and the road ordered sold. The upset bid is \$100,000, of which \$30,000 must be cash.—V. 63, p. 968.

**Mobile & Ohio Railroad.—Official Statement as to Sale of Bonds to Build Montgomery Extension.**—The long-pending negotiations looking to the extension of the Mobile & Ohio RR. to Montgomery, Ala., have been successfully completed by the sale of \$4,000,000 five per cent bonds of the Mobile & Ohio RR. having fifty years to run, principal and inter-

est payable in gold, and secured by a first lien upon the "Montgomery Division of the Mobile & Ohio RR." (including therein two branches to the Warrior and Cahawba coal fields and the equipment, to which the proceeds of a part of the bonds are to be applied). The construction of this division will add about 200 miles to the Mobile & Ohio system, and will give it an important terminus at Montgomery, where it will connect with the several railroads radiating from that rapidly growing railroad centre.

The cost of the division and its equipment, including interest during construction, is covered by carefully guarded contracts, ensuring the application of the entire proceeds of the \$4,000,000 bonds solely to that purpose. Terminal grounds and facilities granted by the City of Montgomery have been secured at that point and at Tuscaloosa. By Acts of Congress authority has been given to the Mobile & Ohio RR. Co. to construct bridges across the Alabama, Cahawba and Warrior rivers. The work will be vigorously proceeded with, and it is expected that the Montgomery Division will be in operation early in 1898.

Referring to the above, Mr. W. Butler Duncan, Chairman of the Board, remarked to a representative of the CHRONICLE:

I have not been willing, however desirable I may have considered the project in the interest of the Mobile & Ohio Railroad, to enter definitely upon its construction until the amount necessary to complete it is "in bank," and this has been accomplished without any increase in the debt of the company beyond that requisite to complete the extension, and without any increase of stock or other character of non-cash security so common now a-days in the shape of bonds. In fact, beyond a reasonable margin of profit to the contractor, nobody is benefited but the Mobile & Ohio Railroad Company and its present stock and bond holders.

**Stockholders' Opposition to above Extension.**—There was a meeting of stockholders March 9 at the office of Taylor & Meyer, 11 Wall Street, to protest against the building of the proposed extension and issue of bonds.—Vol. 64, p. 181.

**Mobile & Birmingham RR.—First Payment on Income Bonds.**—The coupons due Jan. 1, 1897, on the income bonds will be paid upon presentation at the Chase National Bank when accompanied by coupons Nos. 1 and 2.—V. 63, p. 1112.

**National Docks & New Jersey Junction Ry.—National Storage.—Road About Completed.**—The National Docks & New Jersey Junction Ry. is now about completed from a point on the National Docks Ry. to a junction with the New Jersey Junction RR (New York Central system), a distance of about one-half mile. This new line, which has been built at much expense, crosses the meadows in Jersey City on a trestle, and passes under the Pennsylvania RR at the Point of Rocks by means of a tunnel. It is designed to facilitate traffic through Jersey City, affording direct communication between the West Shore, Delaware Lackawanna & Western and Erie on the north, and the Lehigh Valley, Baltimore & Ohio, Central RR of New Jersey, Reading and National Docks Ry. on the south.

The National Storage Co., of which Charles A. Sterling, 45 Broadway, is President, controls both the National Docks Ry. and the National Dock & New Jersey Junction Ry., and is owner of extensive stores, docks, warehouses, etc., in that part of Jersey City known as Communipaw. The Storage Company also is planning to erect a large grain elevator (one of 5,000,000 bushels capacity is talked of) for the transfer of grain direct from car to ship board.—V. 62, n. 233.

**New York Central & Hudson River RR.—Quarterly.**—Earnings for the quarter and the nine months ending March 31 have been reported as follows, March, 1897, being estimated:

3 mos. end. Mar. 31.	Gross earnings.	Net earnings.	First charges.	Dividends, surplus & def.
1897 (est.)	\$1,242,100	\$3,224,000	2,624,000	(1897) \$1,000,000 d. 10,000
1896 (actual)	10,284,911	3,254,543	2,944,527	(1896) 1,000,000 d. 39,914

9 months—  
 1897 (est.) \$13,179,000 13,672,000 7,492,000 (3%) \$3,000,000 d. 120,000  
 1896 (actual) 134,232,313 11,073,925 7,923,029 (3%) 3,000,000 s. 150,796  
 —V. 64, p. 424.

**New York & Harlem RR.—New York Central & Hudson River RR.—Who is Entitled to Saving from Refunding of Harlem Bonds?**—The question has been raised as to which of these companies will be entitled to the saving that will result from the refunding of the \$12,000,000 Harlem RR. 7 per cent bonds due May 1, 1901. The provisions of the lease on this point are somewhat obscure, but the intent seems to be that the benefit shall accrue to the Harlem stockholders. The article of the lease bearing on the subject is as follows:

Sixth.—The said party of the second part [the New York Central] covenants and agrees that it will pay the principal of all bonds described in said schedule "A," other than the bonds therein described as "Consolidated Mortgage," due May 1, 1900, or as they shall respectively mature and be presented for payment (aid prior bonds since retired)—Etc.—and that it will, at the maturity thereof, pay the principal of the said "Consolidated Mortgage" bonds, if and in case, it should not be paid by the said party of the first part [the Harlem RR. Co.]

In case of the payment thereof, or of some or any part thereof by the said party of the first part, then, and in that event, the said party of the second part shall, thereafter, pay to the said party of the first part, semi-annually, on the days when interest would become due and payable on the said bonds, May 1 and Nov. 1.—Etc. If the time thereof had been extended, an amount equal to such interest on said bonds, or on such part of them as may have been paid by the said party of the first part, so as fairly to adjust the obligation of the said party of the second part, herein contained, as to the annual rental on the said railroad and property herein contained. The rental which the New York Central had in a previous article covenanted to pay was (1) eight per cent on the capital stock, (2) interest on the \$1,000,000 bonds of the Harlem RR., (3) the rental to the New York & Mahopac RR.—Etc.

In case, however, the said "Consolidated Mortgage" bonds shall be paid by the said party of the second part, the said party of the first part agrees that it will, whenever requested by the said party of the second part so to do, issue in lieu thereof new bonds bearing a similar rate of interest, or such other rate as may be agreed upon, with, so far as may be required, proper coupons or interest warrants therefor

appended and secured by a suitable mortgage upon the railroad property and franchises hereby demised; such bonds to be payable at such time or times, and to such person or persons, as may be prescribed by the said party of the second part; and will deliver such new bonds to the said party of the second part to be sold or disposed of in its discretion; in which case the obligation of the said party of the second part herein contained, with regard to the payment of interest on the said "Consolidated Mortgage" bonds shall be deemed and held to apply to interest on such new bonds.

And at the maturity of such new bonds the process herein provided for shall be repeated; and so on, as often as may be necessary, during the continuance of this contract.

The reduction in charges from refunding at  $3\frac{1}{2}$  per cent the \$12,000,000 of 7s would, of course, be \$420,000, which is equal to  $4\frac{1}{2}$  per cent on the \$10,000,000 of capital stock.—V. 63, p. 116; V. 64, p. 424.

**Ogdensburg & Lake Champlain RR.—Quarterly.**—Earnings for the quarter and the six months ending Dec. 31:

3 mos. end. Dec. 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, &c.	Balance, sur. or def.
1896.....	\$203,953	\$14,459	\$1,154	\$68,428	def. \$22,316
1895.....	197,409	65,629	518	66,540	def. 393

6 months—  
 1896.....\$428,296 \$110,523 \$2,141 \$133,142 def. \$20,478  
 1895.....429,268 149,663 2,154 134,080 sur. 17,737

Loans and bills payable Dec. 31, \$35,000; interest on funded debt due and accrued, \$280,782.—V. 64, p. 374.

**Panama RR.—New Mortgage for Refunding, &c.**—At the annual meeting, April 5, the stockholders will vote on a proposition to authorize an issue of mortgage gold bonds to pay off the 7 per cent due Oct. 10, 1897. The bonds maturing aggregate \$4,000,000 (£200,000), but of these the holders of the \$1,011,000 issued in 1893 have the option of having them extended till Oct. 10, 1907, at 5 per cent interest, subject to redemption at the option of the company at 105. The remaining \$2,989,000 of the loan do not carry this option, but of these last the sinking fund held Jan. 1, 1896, \$693,000, along with \$326,000 Panama RR. 6 per cent subsidy bonds and \$210,200 other bonds. Only about \$2,000,000 of new bonds therefore it is thought will be required to provide for the bonds due Oct. 10, 1897. The new loan may, however, be made for a larger amount.—V. 63, p. 76.

**People's Railway—Fourth Street & Arsenal Ry. (St. Louis, Mo.)—Receiver Appointed.**—At St. Louis, March 7, Judge Talty, of the St. Louis Circuit Court, appointed President Charles Green receiver of the People's Railway, on application by C. C. Maffitt, trustee under the consolidated mortgage of 1899, interest on which is in default. The company is slated to have a floating debt (including unpaid taxes) of \$370,000. Judge Flitcraft also on Monday appointed Mr. Green receiver for the Fourth Street & Arsenal Ry., both corporations being held in the same interest.—V. 64, p. 181.

**Peoria Decatur & Evansville Ry.—Status of Reorganization.**—As stated in our last issue a decree has been obtained in the foreclosure suit under the second mortgage. It is quite uncertain when a date will be fixed for the sale. No plan for an adjustment of the company's finances has yet been matured.—V. 64, p. 288.

**St. Louis Iron Mountain & Southern RR.—Missouri Pacific Ry.—Refunding.**—Agreeably with the announcement made last week (page 472) Vermilye & Co. and Kuhn, Loeb & Co. inform holders of the first and second mortgage bonds of the St. Louis Iron Mountain & Southern RR. that the privilege to extend their bonds is offered to them until April 15, 1897, upon payment of 1 per cent in cash. See advertisement in another column. This refunding operation will effect a saving of about \$120,000 in the company's annual interest charge.

**Cairo Arkansas & Texas Bonds to be Paid June 1, 1897.**—Holders of the \$1,450,000 first mortgage bonds of the Cairo Arkansas & Texas RR., maturing June 1 next, are notified that the principal of their bonds, together with the coupons thereon maturing June 1, 1897, will be paid on that date at the office of the Mercantile Trust Co., No. 120 Broadway, New York City.—V. 64, p. 472.

**St. Paul Minneapolis & Manitoba Ry.—Great Northern Ry.—Manitoba Bonds Called.**—The trustees of the first mortgage of the St. Paul Minneapolis & Manitoba have called for redemption \$357,400 bonds, all that remained outstanding of the \$8,000,000 issue. The second mortgage 6 per cent bonds (\$8,000,000) will now be a first lien on 624 miles of railway in Minnesota, including the terminals at St. Paul and Minneapolis. The consolidated mortgage bonds (6 per cent and  $4\frac{1}{2}$  per cent) become the first and only lien on the company's land grant and on 670 miles of railway in Minnesota, and a second lien on the remaining 1,873 miles in Minnesota and the Dakotas, the prior liens on which average only \$7,300 per mile. Bonds may be presented for redemption at the office of the Great Northern Railway Company, No. 27-29 Pine Street. Interest will cease to accrue June 1, 1897.—V. 63, p. 1115.

**Western Union Telegraph—Quarterly.**—The estimated revenue for the quarter and the nine months ending March 31, 1897, compares with actual results in 1896 as follows:

3 months end Mar. 31.	Revenue.	Interest & fund.	Dividend.	Balance.
1897 (estimated).....	\$1,100,000	\$243,359	\$1,191,081	def. \$335,320
1896 (actual).....	1,051,715	243,339	1,191,952	def. 383,576

9 months—  
 1897 (estimated).....\$1,232,987 \$730,077 \$3,575,393 def. \$72,973  
 1896-6 (actual).....4,497,780 730,453 3,575,343 sur. 191,481

Total surplus Mar. 31, 1897 (estimated), \$7,575,731, against actual surplus in 1896 of \$7,638,957. The regular  $1\frac{1}{2}$  per cent dividend is payable April 15, 1897.—V. 64, p. 1065.

## Reports and Documents.

### CANADIAN PACIFIC RAILWAY COMPANY.

#### SIXTEENTH ANNUAL REPORT—FOR THE FISCAL YEAR ENDING DECEMBER 31ST, 1896.

##### To the Shareholders :

A balance sheet of the affairs of the Company at 31st December, 1896, together with the usual statements and schedules are herewith submitted.

The gross earnings for the year were..... \$20,681,596 84  
The working expenses were..... 12,574,015 10

And the net earnings were..... 8,107,581 74

Add interest earned on deposits and loans. \$196,762 02

Add interest due from Duluth  
South Shore & Atlantic Ry.  
Co. on Consolidated bonds  
held by your Company  
against Debenture Stock  
issued.....\$597,980 00

Less advanced by your Com-  
pany..... 335,756 92 262,223 09

Add interest due from Minn-  
neapolis St. Paul & Sault  
Ste. Marie Ry. Co. on bonds  
held by your Company  
against Debenture Stock  
issued..... 52,180 00

511,165 10

Deduct Fixed Charges accrued during the year, includ-  
ing interest on Land Bonds (see page 521). \$8,618,746 84

\$1,910,662 42

Deduct interest paid on account guaranty Minneapolis  
St. Paul & Sault Ste. Marie Ry. Co..... 203,839 82

The surplus for the year was..... \$1,706,772 60

From this there has been charged off the half-yearly  
dividend on Preference Stock—

2 per cent paid 1st October, 1896.....\$152,813 33

And half-yearly dividend on Ordinary Stock—

1 per cent paid 1st October, 1896..... 650,000 00

802,813 33

Leaving balance..... \$903,959 27

From this there has been declared a half-  
yearly dividend on Preference Stock of 2

per cent payable 1st April, 1897.....\$160,133 33

And a dividend on Common Stock for the

last half year of 1 per cent payable 1st

April, 1897.....\$650,000 00

5. The recovery in business which afforded such good promise at the date of the last annual report did not long continue. A feeling of dread and uncertainty as to the result of the last general elections in the United States, in view of the serious financial questions at issue, caused a stagnation in business in that country probably more serious than that of any of the three preceding years. While this had no very marked effect upon the local business in Canada, it reduced, to a serious extent, the interchange of traffic between the two countries, and your subsidiary railways in the United States, the Minneapolis St. Paul & Sault Ste. Marie and the Duluth South Shore & Atlantic, suffered an important shortage not only in their domestic traffic, but in the business interchanged with your lines, making it necessary for your Company to again give them financial assistance.

6. The chief cause of loss in your Canadian business during the last half of the year was the short wheat crop in the West, which furnished for carriage about 10,000,000 bushels less than that of 1895. Better prices for wheat and the development of traffic in the mining districts of British Columbia prevented so large a shrinkage in earnings during the second half-year as might otherwise have been expected, and the year's results are, considering everything, not unsatisfactory to your Directors.

7. At this time the tide seems to have turned again towards better conditions and business on both sides of the International Boundary is improving. A much larger area

than ever before is prepared for seeding in Western Canada, and the farmers are in better circumstances generally than for a number of years back. The mining operations in British Columbia, which have heretofore been chiefly in the way of development, have reached the producing stage; the shipments of ore, which were considerable last year, will be very largely increased during the present one; a great number of mines have been proven, a considerable number are in full and profitable working, and others are coming into operation day by day, and your directors have no doubt that their most sanguine expectations in regard to the traffic to be gained from this source will be exceeded in the very near future.

8. The Company's Ocean and Lake Steamships and its Telegraph, Express, Sleeping Cars and Grain Elevators all returned increased profits as compared with the preceding year.

9. No serious accidents occurred on the Company's lines during the year.

10. The Company's property has been thoroughly maintained in all its parts and many improvements have been made. The details of the improvements and additions will be found on pages 521 and 522.

11. Timber bridges of an aggregate length of 31,556 feet were replaced by masonry, or steel structures, or by earth embankments.

12. Heavy rails were substituted for lighter ones on 102 miles of the principal lines of the Company.

13. You will be asked to approve expenditures on capital account during the coming year for permanent bridges and improvements of roadway, for terminals at Montreal and Toronto, for Grain Elevators at Owen Sound, for additional equipment and for various station and other facilities, aggregating \$2,056,736.

14. During the past year the Montreal & Ottawa Railway was extended to Alfred, a distance of 29½ miles, leaving but 39 miles of the line to be completed. The Temiscamingue and the Revelstoke branches were fully completed early in the year.

15. The Toronto Hamilton & Buffalo Railway, which is controlled by the New York Central, Canada Southern, Michigan Central and Canadian Pacific companies, was practically completed at the end of the year and is now about ready for working. Your Company's joint use of the Grand Trunk line between Toronto and Hamilton will take effect on the opening of the Toronto Hamilton & Buffalo line for regular traffic.

16. A traffic agreement has been reached with the Seattle & International Railway Company (formerly the Seattle Lake Shore & Eastern), extending from a connection with your system at Huntington, on the International Boundary, southward through the Puget Sound country to Seattle. This agreement involves no financial responsibility on the part of your Company.

17. You will be asked to approve the purchase of the Montreal & Western Railway extending from St. Jerome, in the Province of Quebec, to a point beyond Labelle, 70 miles in length, which line has for a number of years been worked by your Company for a percentage of its earnings. The proposed agreement provides that the railway shall become the property of your Company on the payment of 30 annual instalments of \$28,000 each, representing principal and interest, which is about equivalent to the purchase of the line at \$6,000 per mile, in pursuance of the agreement approved by the shareholders at their general meeting in 1891 and duly confirmed by Act of Parliament, and the Directors recommend this arrangement as advantageous to your Company.

18. You will be asked to approve an arrangement for working the railway of the Qu'Appelle Long Lake & Saskatchewan Company for a term of five years, your Company acting as agents and assuming no financial responsibility. The agreement is substantially the same as that with the Calgary & Edmonton Company which was approved at the last Annual Meeting.

19. During the year \$2,609,000 Minneapolis St. Paul & Sault Ste. Marie Consolidated Mortgage Bonds (guaranteed by your Company under its contract of 1888) were acquired by the issue of your 4 per cent Consolidated Debenture Stock. While the rate of interest on the bonds acquired is the same as that on the Debenture Stock issued, the transaction enabled the M. St. P. & S. Ste. M. Company to take up its outstanding Minneapolis & Pacific 5 per cent bonds, thereby effecting a saving of \$26,090 per annum.

20. Duluth South Shore & Atlantic Consolidated bonds amounting to \$53,000 were acquired in a like manner and for a like purpose; and £61,000 of North Shore Railway 5 per cent bonds were also acquired by the issue of 4 per cent Debenture Stock.

21. The land sales for the year were somewhat better than in 1895, showing an increase of \$109,648. The abundant crop of 1891 resulted in large land sales in 1892, but owing to the exceedingly low prices of wheat for the succeeding three years, the purchasers were, in many cases, unable to meet the stipulated payments. In reviewing the outstanding contracts, the Directors considered it desirable to cancel a large portion of these sales; care has, however, been taken

that the cancellations shall work as little hardship as possible to actual settlers.

22. The position of the Company's land grant and the sales for the past year are shown in Schedule "D."

23. The Company has been at a great disadvantage in reaching the traffic of the mining districts of Southern British Columbia in having to depend upon steamboat connections controlled by other parties. The rapid growth of the traffic, the high rates exacted, and the inadequate service performed, led your Directors recently to negotiate for the purchase of the entire property of the Columbia & Kootenay Navigation Company, consisting of seven steamboats, ten barges, mechanical shops, office buildings, warehouses, etc., and to put under contract for immediate construction three additional steamers for service on the Arrow and Slocan Lakes. You will be asked to approve the expenditure of \$280,000 for the boats purchased and under contract, and for a tugboat and barges that will probably be required.

In the event of the establishment of direct rail connections with the mining districts, both from the east and the west, this steamboat property will still have ample occupation, for the extraordinary system of navigable waters in Southern British Columbia will afford for many years to come the most feasible means of connection with many of the important mining sections.

But even with these important additions to its facilities for handling the traffic of the mining districts, your Company will continue at a disadvantage in competing with the American lines (which have already reached Nelson, Ross-

land and other important centres in these districts) until it shall have direct railway connections of its own. Until then the greater part of the mining traffic will be beyond its reach and will continue to be, as at present, carried by the American lines southward.

Your Directors are strongly of the opinion that any delay in securing your interests in that direction will be extremely dangerous—that unless your Company occupies the ground others will, the demand for shipping and traveling facilities being most urgent. The Directors feel that they cannot too strongly urge the immediate construction of a line from Lethbridge to a connection with your Columbia & Kootenay Railway at Nelson, a distance of 425 miles, and anticipating your approval they have already taken steps towards commencement of the work on the opening of spring.

The unfavorable conditions which have prevailed for the past three years have prevented any effective action towards providing for the traffic of the mining country, but the Directors feel now that the improved position and prospects of the Company, together with the magnitude of the interests at stake, will fully warrant this important step. The interests of the country at large are so much concerned in this question that your Directors confidently expect reasonable assistance at the hands of the Dominion Government.

For the Directors,

WM. C. VAN HORNE,  
President.

THE CENTRAL OHIO RAILROAD COMPANY AS REORGANIZED.

COLUMBUS, OHIO, February 11, 1897.

To the Stockholders of the Central Ohio Railroad Company as Reorganized:

Messrs. Joseph H. Rieman, Wm. H. Conkling and Basil B. Gordon have sent to the Stockholders of the Central Ohio Railroad Company, as reorganized, a circular under date of January 7, 1897. Without questioning the motives which have led to the publication of such a paper, the form of it is calculated to mislead the Stockholders as to the relation of the Receivers of the Baltimore & Ohio Railroad Company to the property of The Central Ohio Railroad Company, and for this reason the Board has deemed it wise to issue this explanation, that no one may be misled.

The plain import of the circular of Messrs. Rieman et al. is that the Receivers of the Baltimore & Ohio Railroad Company are operating The Central Ohio Railroad under a certain lease and stating accounts not required by the lease as a pretext for withholding the rental.

The real facts are:

1st. The Receivers are not operating The Central Ohio Railroad under the lease at all, and cannot be compelled to do so. 2d. They are operating it under an order of the United States Court. 3d. The system of accounts that is treated as a mere pretext is required by the order of the Court.

It is to be regretted that a circular sent to all the Stockholders should have been inaccurate in matters so essential.

A word of explanation will make this clear. The Baltimore & Ohio Railroad Company is bound by the lease, and when operating its own railroad would operate The Central Ohio under its terms. The Receivers of the Baltimore & Ohio Railroad are different from the Baltimore & Ohio Railroad Company. They are officers of the Court, appointed to represent, not that Company, but a number of other interests. It would not be incumbent upon them as Receivers to assume the obligations of the lease, and the order of the Court has expressly directed them to do otherwise. The order is that they operate The Central Ohio Railroad, keeping a separate account of its earnings and the expenses of such operation. (Under the lease no such accounts would be required, the lessee simply paying to the lessor 35 per cent of the gross earnings, whatever the expenses might be.) Out of the gross earnings of the property the Receivers first pay the expenses of operating, including taxes and cost of necessary improvements on the line; any balance is applied, under the authority of The Central Ohio Railroad Company, to the payment of the interest upon the Mortgage Bonds of that Company, and any remainder is held for account of The Central Ohio Railroad Company.

It is not meant that the Court in appointing receivers of a railroad empowers them to operate a leased line against the will of its owners and on terms to which they have not agreed. The status is simply this: The receivers, from the nature of the purpose for which they are appointed, are not obliged to assume the obligation of leases which the company has made. It would, however, often be bad for all in-

terests, including the owners of the leased line, to have the connection severed. The Court, therefore, simply gives the receivers power to operate a leased line on certain terms for the good of all parties, keeping an account of the results. If the owners of the leased line are not satisfied, they have the right to take their property.

The receivers have distinctly stated that they do not claim the right to hold the Central Ohio Railroad if the Central Ohio shall at any time demand the return of its property because of non-compliance with the terms of the lease.

On the other hand, this Board knows of no way by which they can compel the receivers to adopt the lease or assume its obligations. The order of the Court does not require them to do so, and this is well-settled law in the United States Courts and has been established in similar cases in these Courts sitting in Ohio, where this property is located.

The Receivers of the Baltimore & Ohio Railroad have furnished the Board a statement of the earnings and expenses of this line for the first nine months of the receivership—viz., March 1, 1896, to November 30, 1896, which is as follows:

STATEMENT OF EARNINGS, EXPENSES AND NET EARNINGS, CONSTRUCTION AND TAXES, OF THE CENTRAL OHIO RAILROAD, AS REORGANIZED, FROM MARCH 1, 1896, TO NOV. 30, 1896.

Earnings.....	\$937,101 19
Tonnage Revenue.....	\$589,289 26
Passenger Revenue.....	272,502 72
Mail Revenue.....	32,197 93
Express Revenue.....	27,780 80
Miscellaneous.....	15,030 48
Expenses.....	842,016 18
General Expenses.....	\$57,141 49
Conducting Transportation.....	421,252 38
Maintenance of Equipment.....	208,250 45
Maintenance of Way.....	152,371 86
Net Earnings.....	95,085 01
Construction.....	11,809 11
Taxes.....	29,675 10

The Receivers have paid the interest upon the First Mortgage Bonds, including the semi-annual interest falling due March 1, 1896, the date the Receivership took effect. At a meeting of this Board, held in Baltimore, Md., January 4, 1897, Messrs. Rieman, Conkling and Gordon appeared, claiming to be a committee appointed by certain stockholders of the Company, and presented to the Board a resolution purporting to have been passed by certain Stockholders of the Company, requesting the Board to take certain steps in relation to the collection of the debt due by the Baltimore & Ohio Railroad Company. After a full discussion with this committee the Board visited Mr. John K. Cowen, one of the Receivers of the Baltimore & Ohio Railroad. He expressed his willingness to answer any questions regarding the operation of The Central Ohio Railroad by the Receivers and the intentions of the latter. He explained the relation of the Receivers to The Central Ohio Railroad, and stated distinctly that they did not adopt the lease or assume any of its obligations; that they could not and would not pay the rental provided thereunder; that they were keeping a separate account of the earnings of the Central Ohio and the expense of its operation, and that, under the order of the Court, they would apply the earnings in the manner heretofore explained. At the meeting of the Board on January 4, 1897, the receivers gave to them a statement of the earnings and

expenses of the line for the eight months ended October 31, 1896. They have since furnished us with the statement for the first nine months, which has been given above.

The Receivers also state that there was due to The Central Ohio Railroad Company, as reorganized, under the terms of the lease, on March 1, 1896, the date of the Receivership, the sum of \$662,314 41, and that, upon the basis of 35 per cent of the gross earnings, the books of the Company (not of the Receivers) showed that there was due to The Central Railroad Company October 31, 1896, the sum of \$775,295 74.

Questions from individual members of the Board as to the various items in the earnings and expenses were answered, and full explanations given.

The following expression is used in the circular of Messrs. Rieman, Conkling & Gordon:

"Among other items we are charged with \$142,000 for six months' maintenance of equipment, whereas the rolling stock of the road belongs to the Baltimore & Ohio Company, and it is specifically pledged to maintain it. Such a statement needs no comment."

The answer is that such a statement does need comment. Its only possible meaning is that the Receivers are pledged to maintain rolling stock for the Central Ohio, which is not the fact. This very subject was discussed at the meeting with Receiver Cowen, and the explanation then given by him is clear. It is as follows: The Receivers, in operating the Central Ohio, use the cars and engines of the Baltimore & Ohio Company. No charge is made for the use of either, but the Central Ohio earnings are charged with the maintenance of both. As the cars are used over the various lines of the Baltimore & Ohio system, the Central Ohio earnings are charged with such proportion of the entire cost of maintaining the equipment as the mileage upon its road bears to the entire mileage made by the equipment. This, we are assured by railroad officers, is a fair and proper method of ascertaining the due proportion of the cost of maintaining the equipment. If the customary engine rental and car mileage were charged, the charge to the Central Ohio earnings would be much in excess of the amount now charged. The Central Ohio is practically getting the equipment for nothing and simply paying for such repairs thereon as are made necessary by the use thereof on the lines of the company's road. It is true that under the lease the Baltimore & Ohio Railroad Company undertook to furnish this equipment free of cost to the Central Ohio Railroad Company, but the circular of Messrs. Rieman et al. neglects to state that the account into which they interject this obligation of the lease is an account of the Receivers, to whom the lease does not apply, and that the Receivers had made this charge for equipment as a fair and equitable way of handling the matter under the Court's order. To make the statement these gentlemen have, without explanation, would simply mislead.

Receiver Cowen further stated that while the Receivers were under no obligation to apply to the securities of The Central Ohio anything beyond the net earnings of that line, they had paid, and would continue to pay, the interest upon The Central Ohio First Mortgage Bonds as long as they had earnings of the Baltimore & Ohio System sufficient to apply to that purpose, as the Receivers desired and were authorized to keep the system in its integrity.

Another statement contained in the circular referred to is as follows, viz:

"In addition to this there are other obligations in the way of leased lines which have been put upon the road without the knowledge of the Stockholders, and which claim to be upon the same footing as the bonded debt."

Why a "Committee" composed of reputable gentlemen should think it necessary to state that these leases were made "without the knowledge of Stockholders" is more than the Board can understand. There are two leases referred to. One is of The Sandusky Mansfield & Newark Railroad, under date of February 13, 1869. It was submitted to the Stockholders at a meeting held on April 28, 1869, the published notice thereof calling special attention to the lease. It was ratified by more than a two-thirds vote, 42,867 shares of stock being present and all voting for the lease except two (probably the tellers). An amendment to it was submitted to a Stockholders' meeting, called in the same manner, on May 19, 1880. It was again approved by more than a two-thirds vote, there being present 45,505 shares and all cast in favor of the lease. The lease has been ratified by the Stockholders and the road operated under it for nearly thirty years.

The other lease is that of the Columbus & Cincinnati Midland Railroad. A Stockholders' meeting, called for the express purpose of approving this lease, the published notice so stating, was held January 2, 1890. It was approved by more than a two-thirds vote, there being 42,760 shares at the meeting, and all cast in favor of the lease.

We call attention to these facts from the Company's records in connection with the surprising statement of this circular that these leases "were put upon the road without the knowledge of the Stockholders." In view of the large attendance and unanimous vote, it is impossible to avoid the conclusion that unless the stock represented by these gentlemen be very small in amount, some of it must have been represented and voted for these very leases.

In fact, there is now on file in the records of the Company the original proxies of Basil B. Gordon and W. H. Conkling, by which their stock was voted for the Midland lease.

The Receivers have increased the earnings of The Sandusky Mansfield & Newark Railroad so that they are nearly sufficient to pay the rental upon that line, and they hope to still continue the increase of these earnings to a considerable extent, which will remove the burden of this lease. Receiver Cowen explained what had already been done in this direction and what they still hoped to do in the way of increasing these earnings.

It is quite evident from the terms of the circular of Messrs. Rieman, Conkling and Gordon that its purpose is to invite hostile proceedings against the Receivers of the Baltimore & Ohio RR. and against the company itself.

If the stockholders could ignore, as this circular does, the distinction between the Baltimore & Ohio Railroad and its Receivers, the nature of the Receivers' duties, the fact that they are not bound by the lease and are bound by the order of the Court—in other words, if they could ignore all the facts of the situation, such a policy might require no further consideration than Messrs. Rieman, Conkling and Gordon have given.

Before the stockholders, or any considerable portion of them, commit themselves to the adoption of hostile measures against the Receivers, they should carefully consider all the circumstances and what might possibly follow such action.

1st. The demand for the return of the property and its restoration would, of course, mean the destruction of the lease.

2d. The Receivers cannot be compelled to adopt the lease or assume its obligations.

3d. Even if there were net earnings in the hands of the Receivers over and above the interest of the Mortgage Bonds of the Company, the Board could not at present declare a dividend on the stock, for the reason that The Sandusky Mansfield & Newark Railroad Company, and parties interested in the Columbus & Cincinnati Midland Railroad Company have given notice that they, as creditors of The Central Ohio Railroad Company, claim any such net earnings under the obligations created by the respective leases.

4th. At present the Receivers have expressed the intention of paying the interest upon the Mortgage Bonds of the Central Ohio Railroad in order to prevent the disintegration of the Baltimore & Ohio System, even if the earnings of the line in any one half-year be not sufficient for the purpose. The Receivers are also at present forwarding over The Central Ohio Railroad a large portion of the through traffic to and from the West which it is perfectly feasible for them to send over other portions of their system. They are also doing all possible, so far as we can see, to prevent the obligations of The Sandusky Mansfield & Newark lease from becoming a burden upon The Central Ohio, especially by sending over that road traffic it would not receive except as a part of the Baltimore & Ohio System.

Under these circumstances, the Board respectfully requests the Stockholders to whom the circular of Messrs. Rieman, Conkling and Gordon has been addressed to carefully consider the question of the propriety of hostile measures that might result either in the loss of the contract right under the lease of the Baltimore & Ohio Railroad or in conflict with the general interests of the Baltimore & Ohio System represented by the Receivers.

Whenever it becomes necessary for the Board to act, through litigation or otherwise, the Stockholders may be assured that the most vigorous action will be taken; but at present the wise course seems to be to preserve the integrity of the property and prevent any hostile proceedings being taken against it. The Board has a firm conviction of the ultimate outcome of the property, but as the Baltimore & Ohio Railroad is in the hand of Receivers, and as time is required for the reorganization of a great system of railroads, the Board deprecates any imprudent and inopportune attempts to force a conflict which can result only in disaster to the Stockholders of The Central Ohio Railroad Company, as reorganized.

This Board believes that the lease to the Baltimore & Ohio Railroad is a valuable one to The Central Ohio Company, and it has been very careful to do nothing to jeopard the rights of this company under that lease.

By order of the Board of Directors.

J. H. COLLINS, President.

P. C. SNEED, Secretary.

**Southern Ry.—Seaboard & Roanoke RR.—North Carolina RR.—Lease Undisturbed**—A dispatch to the "Evening Post" from Raleigh, N. C., March 8, says: "In the House today, after the majority had made ineffectual attempts to get a vote on the Senate substitute bill leasing the North Carolina RR. to the Southern Ry. for thirty years, the friends of the lease moved to table it, and the whole business was tabled permanently. Nothing more will be done this session, which ends to-morrow. This leaves the matter exactly as it was before the Legislature met, with the Southern in possession of a ninety-nine years' lease."

**Injunction Against Gov. Russell.**—Ex Secretary Carlisle, as special counsel for the Southern Railway, on March 9, obtained an order from Judge Simonton, at Lynchburg, Va., compelling Gov. Russell and the directors of the North Carolina Railroad to show cause at Greensboro, N. C., on April 6, why an injunction should not issue restraining them from further attempts to annul the Southern's lease of the North Carolina road.—V. 64, p. 331, 373, 470.

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, March 12, 1897.

As intimated in his inaugural address, the President issued a call for an extra session of Congress to convene on the 15th inst. Although the general business situation has not changed in any important particulars, something of a halt has been noticeable in trade, as merchants generally have shown a disposition to hold back, awaiting the opening of the new Congress. Rumors of a retroactive tariff law to prevent the inrush of foreign goods prior to the proposed new tariff schedule going into effect has been much discussed. Latest advices from Washington, however, indicate that no such action will be taken. The Cretan situation has continued to exercise considerable influence in speculative circles. At the close, however, advices received foreshadow a pacific settlement of this question.

There has continued a quiet market for lard on the spot as neither refiners nor exporters have been buying and prices have weakened slightly, closing dull at 4-3c. for prime Western, 4-4-05c. for prime City and 4-65c. for refined for the Continent. There has been no trading in the local market for lard futures. At the West realizing sales caused a reaction during the first half of the week. At the close lighter receipts of swine at primary points stimulated a demand to cover contracts and there was a partial recovery.

### DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May.....c.	4-50	4-45	4-45	4-40	4-40	4-50

There has been a moderate call for pork and prices have held steady, closing at \$3 50@\$9 for mess, \$9 50@\$10 for family and \$8 75@\$10 25 for short clear. Cut meats have had only a limited sale, but prices have held steady, closing at 5@5½c. for pickled bellies, 12@10 lbs. average, 5½c. for pickled shoulders and 8¼@9¼c. for pickled hams. Beef has been in moderate jobbing demand and firm, closing at \$7@\$8 for mess, \$7 50@\$9 for packet, \$9@\$11 for family and \$13 50@\$15 for extra India mess. Beef hams have held steady at \$18@\$18 50. Tallow has been quiet and closed with sellers at 8¾c. Oleo-stearine has advanced slightly and closed steady at 4¼c. Lard stearine has been quiet, but prices have advanced to 4½c. Cotton-seed oil has sold slowly and the close was easy at 20@20½c. for prime crude and 23¼c. for prime yellow. Butter has been in fair demand for choice and steady, closing at 10@19c. for creamery. Cheese has had a fair call at steady prices, closing at 9@12¼c. for State factory, full cream. Fresh eggs have been in large supply and prices have declined to 11c. for choice Western.

The demand for the Brazil grades of coffee has been slow and as advices from primal markets have been weaker and offerings have increased, prices have declined, closing at 9¼@9¾c. for Rio No. 7. The mild grades have sold slowly and prices have weakened slightly, closing at 16c. for good Cucuta and 24@25c. for standard Java. There has been a larger volume of business transacted in the market for contracts, but at lower prices, the result of increased offerings prompted by weaker foreign advices, the close was steadier. Following were the final asking prices:

March.....	8-75c.	June.....	8-75c.	Sept.....	8-30c.
April.....	8-70c.	July.....	8-75c.	Oct.....	8-55c.
May.....	8-70c.	Aug.....	8-90c.	Dec.....	8-55c.

Raw sugars had only a very limited sale, as buyers and sellers have been apart in their views, closing firm at 3-3-16@3¼c. for centrifugals, 96-deg. test, and 2-13-16c. for muscovado, 89-deg. test. Refined sugars have had an active sale and prices have been advanced ½@3-16c.; granulated closed at 4¾c. Tea has been moderately active and firm.

Kentucky tobacco has continued in fair demand for desirable grades, but as offerings have been small only a limited business has been transacted. Seed leaf tobacco has had a fairly large sale at firm prices. The sales for the week were 5,060 cases, as follows: 400 cases 1895 crop, New England Havana seed, 14@25c.; 300 cases 1895 crop, New York State Havana, 10@14c.; 500 cases 1894 crop, Zimmers, 15@16c.; 400 cases 1895 crop, Zimmers, 13½@17c.; 1,000 cases 1895 crop, Pennsylvania Havana, 11¼@13c.; 450 cases 1895 crop, Pennsylvania seed leaf, 11@12c.; 240 cases 1894 crop, Pennsylvania Havana, 12@13c.; 450 cases 1894 crop, Pennsylvania seed leaf, 11@12c.; 100 cases 1893 crop, Pennsylvania Havana, 13¼c., &c., &c.; also 600 bales Havana at 80c. to \$1 10 in bond and 300 bales Sumatra at 75c. to \$2 in bond.

There has continued a quiet market for Straits tin, but prices have held steady, closing at 13-45@13-50c. Ingot copper has had very little call, but prices have ruled steady, closing at 11½@12c. for Lake. Lead has been in only moderately active demand, but prices have been maintained, closing at 3-42½@3-45c. for domestic. Spelter has been quiet but steady at 4-10@4-15c. for domestic. Pig iron has been quiet and the close was weak at \$10-25@\$12-50 for domestic.

Refined petroleum has been steady, closing at 6-30c. in bbls. 3-80c. in bulk and 7c. in cases; naphtha dull at 6½c. Crude certificates have been neglected. Credit balances have been steady at 91c. Spirits turpentine has been quiet and prices have declined to 29½@30c. Rosins have been in slightly better demand and steady at \$1 55 for common and good strained. Wool has continued in demand and firm. Hops have had only a limited call and prices have been barely maintained.

## COTTON.

FRIDAY NIGHT, March 12, 1897.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 79,931 bales, against 95,266 bales last week and 84,395 bales the previous week, making the total receipts since the 1st of Sept., 1896, 6,115,406 bales, against 4,617,015 bales for the same period of 1895-6, showing an increase since Sep. 1, 1896, of 1,498,391 bales.

A very quiet speculation has continued in the market for cotton futures. The fluctuations in prices have been within comparatively narrow limits, and the daily course of prices has been largely influenced by the nature of the advices received from Europe. The net changes in prices for the week were unimportant. Saturday the market was weaker. The advices from Eastern Europe was of a disquieting nature and prices lost 5 to 8 points. Monday the market turned stronger. European advices reported the political situation as improved and brought buying orders largely to cover contracts. Home operators also bought to cover short sales. The close was at an advance of 12 to 14 points for the day. Tuesday the market opened lower under general selling, prompted by disappointing advices from the English markets. Toward the close, however, advices received from Europe were of a more Pacific nature, and part of the loss was recovered. The close showed prices 3 to 6 points lower for the day. Wednesday there was a firmer market, as European advices continued of an encouraging nature, and prices closed 2 to 4 points higher. Thursday there was a dull market, and as foreign advices came slightly lower prices weakened somewhat, closing at a decline of 3 to 5 points for the day. To-day the market opened 2 to 4 points lower and then further declined 3 points in response to weaker foreign advices. Toward the close, however, buying for Southern account, stimulated by anticipated serious overflow of the Mississippi River, caused an advance, and most of the loss was recovered. The close was steady, with prices 2 points lower to 4 points higher for the day. Cotton on the spot has been steady, and on Monday prices were advanced 1-16c. To-day the market was quiet and unchanged, middling uplands closing at 6 1/4c.

The total sales for forward delivery for the week are 473,400 bales. For immediate delivery the total sales foot up this week 11,175 bales, including 8,932 for export, 1,723 for consumption, — for speculation and 500 on contract. The following are the official quotations for each day of the past week—March 6 to March 12.

Rates on and off middling, as established Nov. 22, 1893, and revised Dec. 11, 1895, by the Revision Committee at which grades other than middling may be delivered on contract:

Fair	on	Good Ordinary	off
Middling Fair	on	Good Middling Tinged	Even
Strict Good Middling	on	Strict Middling Stained	7 3/4 off
Good Middling	on	Middling Stained	3 1/2 off
Strict Low Middling	on	Strict Low Mid. Stained	25 3/4 off
Low Middling	on	Low Middling Stained	1 1/4 off
Strict Good Ordinary	on		

On this basis the prices for a few of the grades would be as follows.

UPLANDS.		Sat.	Mon.	Tues.	Wed.	Th.	Fri.

The imports into Continental ports the past week have been 76,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 55,433 bales as compared with the same date of 1896, a falling off of 1,045,959 bales from the corresponding date of 1895 and a decrease of 675,557 bales from 1894.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1895-96—is set out in detail below.

TOWNS.	Receipts	This week.	Since Sept. 1, 1896.	Stock	This week.	Since Sept. 1, 1896.	Shipments	This week.	Since Sept. 1, 1896.	Stock	This week.	Since Sept. 1, 1896.

\* This year's figures estimated.  
† Last year's figures are for Newberry, S. O.

The above totals show that the interior stocks have *decreased* during the week 26,808 bales and are now 39,315 bales less than at same period last year. The receipts at all the towns have been 19,011 bales more than same week last year and since Sept. 1 they are 864,980 bales more than for same time in 1895-96.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below are closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending March 12.	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—

Louisville.....	7	7	7	7 1/8	7 1/8	7 1/8

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta.....	6 3/4	Enfauila.....	6 7/8	Natchez.....	6 1/2
Charlotte.....	7	Little Rock.....	6 1/2	Raleigh.....	6 7/8
Columbus, Ga.....	6 3/4	Montgomery.....	6 3/4	Selma.....	6 1/2
Columbus, Miss.....	6 1/2	Nashville.....	6 7/8	Shreveport.....	6 1/2

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns.		
	1897.	1896.	1895.	1897.	1896.	1895.	1897.	1896.	1895.
Feb. 5.....	101,564	113,580	155,098	444,460	479,143	406,453	74,778	80,854	131,750
" 12.....	119,423	106,446	132,089	429,994	458,279	442,389	104,117	85,582	108,825
" 19.....	84,304	109,395	91,807	401,906	438,487	420,260	57,745	58,603	69,787
" 26.....	84,395	95,659	137,940	374,238	410,983	402,728	56,728	61,155	120,390
Mch. 5.....	95,290	85,286	119,835	350,127	381,268	388,860	71,155	68,671	105,987
" 12.....	70,981	71,518	132,381	323,319	262,634	362,976	53,123	49,884	97,497

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1896, are 6,318,131 bales; in 1895-96 were 4,946,949 bales; in 1894-95 were 7,285,056 bales.

2.—That although the receipts at the outports the past week were 79,931 bales, the actual movement from plantations was only 53,123 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 49,884 bales and for 1895 they were 97,497 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Mch. 12 and since Sept. 1 in the last two years are as follows.

March 12.	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
<b>Shipped—</b>				
Via St. Louis.....	9,164	445,958	11,564	446,637
Via Cairo.....	2,575	236,055	4,334	205,769
Via Parker.....	378	14,381	710	14,263
Via Evansville.....		2,387		68
Via Louisville.....	894	117,396	2,670	112,810
Via Cincinnati.....	3,471	117,611	1,541	75,196
Via other routes, &c.....	1,137	105,815	589	75,921
Total gross overland.....	17,619	1,039,593	21,408	930,664
<b>Deduct Shipments—</b>				
Overland to N. Y., Boston, &c..	3,664	274,290	4,999	207,002
Between interior towns.....	138	3,453	15	2,885
Inland, &c., from South.....	1,041	28,263	989	36,850
Total to be deducted.....	4,843	306,006	6,003	246,737
Leaving total net overland*.....	12,776	733,587	15,405	683,927

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 12,776 bales, against 15,405 bales for the week in 1896, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 49,680 bales.

In Sight and Spinners' Takings.	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Mch. 12.....	79,931	6,115,406	71,518	4,617,015
Net overland to Mch. 12.....	12,776	733,587	15,405	683,927
Southern consumption to Mch. 12	19,000	566,000	17,000	551,000
Total marketed.....	111,707	7,414,993	103,923	5,851,942
Interior stocks in excess.....	26,808	202,725	21,234	329,934
Came into sight during week.....	84,899		82,289	
Total in sight Mch. 12.....		7,617,718		6,181,876
North's spinners tak'g to Mch. 12	35,137	1,356,247	20,826	1,325,974

\* Decrease during week.

It will be seen by the above that there has come into sight during the week 84,899 bales, against 82,289 bales for the same week of 1896, and that the increase in amount in sight to-night as compared with last year is 1,435,842 bales.

**WEATHER REPORTS BY TELEGRAPH.**—Our telegraphic reports from the South this evening indicate that rain has fallen in almost all districts during the week and that the temperature has been higher. In some sections, particularly in the Gulf States, the precipitation has been heavy, and as a result of the excessive rainfall overflows have occurred. In Texas the moisture has been beneficial, but in the western and southwestern portions of the State more is needed. Some cotton has been planted in Texas, but generally farm operations have been delayed by the wet weather. The Mississippi River at Memphis is but nine-tenths of a foot below extreme high-water mark and rising.

**Galveston, Texas.**—General rains during the week have been very beneficial for farming interests and all crops, but more rain is badly needed over Southwest and Western Texas. Some cotton has been planted in Southwest Texas and much ground has been prepared for cotton, but it needs rain to improve working conditions. We have had rain on five days, the precipitation being two inches and twenty-six hundredths. The thermometer has averaged 66, the highest being 72 and the lowest 61.

**Palestine, Texas.**—Farmers are busy planting corn and preparing land for cotton. Rain has fallen on two days of the week, the precipitation reaching eighty-three hundredths of an inch. The thermometer has averaged 67, ranging from 54 to 80.

**Huntsville, Texas.**—We have had rain on two days of the week, the precipitation reaching seventy-five hundredths of an inch. The thermometer has averaged 69, the highest being 82 and the lowest 52.

**Dallas, Texas.**—Farming interests were benefited by the week's weather and planters are busy putting in corn. We have had rain on one day of the week, the precipitation reaching ninety-nine hundredths of an inch. The thermometer has ranged from 49 to 84, averaging 62.

**San Antonio, Texas.**—A good rain would be beneficial. We have had light rain on one day of the week, the rainfall reaching five hundredths of an inch. The thermometer has averaged 71, the highest being 86 and the lowest 53.

**Luling, Texas.**—Nearly all corn has been planted and some cotton is being put in the ground. A good rain would be beneficial to crops. It has rained on one day of the week, the precipitation reaching eight hundredths of an inch. The thermometer has averaged 71, ranging from 53 to 89.

**Columbia, Texas.**—There has been only a trace of rain during the week. The thermometer has ranged from 63 to 82, averaging 72.

**Cuero, Texas.**—Some cotton and corn are up but doing poorly, rain being badly needed. There have been showers on two days of the past week, the precipitation reaching eight hundredths of an inch. Average thermometer 70, highest 85 and lowest 55.

**Brenham, Texas.**—We have had rain on two days during the week, the precipitation being sixty hundredths of an inch. The thermometer has averaged 68, the highest being 86 and the lowest 50.

**Fort Worth, Texas.**—We have had rain on two days during the week, the precipitation reaching ninety-nine hundredths of an inch. The thermometer has ranged from 33 to 86, averaging 62.

**Weatherford, Texas.**—We have had rain on one day of the past week, the rainfall reaching eighty-eight hundredths of an inch. Average thermometer 62, highest 84 and lowest 40.

**New Orleans, Louisiana.**—It has rained on two days of the week, the precipitation being one inch and fifty-two hundredths. The thermometer has averaged 70.

**Shreveport, Louisiana.**—There has been rain on five days of the past week, the rainfall being eighty-seven hundredths of an inch. The thermometer averaged 65, ranging from 52 to 80.

**Columbus, Mississippi.**—There has been rain on four days of the week, to the extent of three inches and thirty-five hundredths. The thermometer has ranged from 46 to 82, averaging 63.

**Leland, Mississippi.**—Rain has fallen during the week to the extent of two inches and forty hundredths. The thermometer has averaged 61.7, ranging from 43 to 75.

**Vicksburg, Mississippi.**—We have had rain on four days during the week, the precipitation being two inches and twenty-four hundredths. The thermometer has averaged 68, the highest being 81 and the lowest 51.

**Meridian, Mississippi.**—Excessive rains have caused overflows. Planting preparations have been delayed in consequence.

**Little Rock, Arkansas.**—It has rained on four days of the week, the precipitation reaching two inches and sixty-one hundredths. The thermometer has averaged 59, ranging from 40 to 77.

**Helena, Arkansas.**—Farming has been delayed by wet weather. Rain has fallen on five days of the week, to the extent of four inches and one hundredth. An overflow from Memphis to the Gulf is threatened. The thermometer has ranged from 37 to 66, averaging 60.

**Nashville, Tennessee.**—Telegram not received.

**Memphis, Tennessee.**—Wet weather has stopped all farm work. The river is nine tenths of a foot below extreme high-water mark and rising. The week's rainfall has been two inches and twenty-eight hundredths on five days. The thermometer has averaged 56.2, the highest being 72.2 and the lowest 37.

**Mobile, Alabama.**—Excessive rains and overflow have delayed planting preparations. There has been rain during the

week to the extent of one inch and eighty hundredths, on three days. The thermometer has averaged 66, ranging from 59 to 77.

**Montgomery, Alabama.**—Rain has fallen on three days of the week, the precipitation being four inches and eighty-eight hundredths. The thermometer has ranged from 58 to 72, averaging 65.

**Madison, Florida.**—We have had no rain during the week. The thermometer has averaged 72, the highest being 84 and the lowest 56.

**Savannah, Georgia.**—We have had rain on four days of the week, the precipitation reaching one inch. The thermometer has ranged from 46 to 80, averaging 64.

**Augusta, Georgia.**—There has been rain on two days, the precipitation reaching twenty-one hundredths of an inch. Average thermometer 59, highest 80 and lowest 43.

**Charleston, South Carolina.**—It has rained on five days of the week, the precipitation reaching thirty-five hundredths of an inch. The thermometer has averaged 60, ranging from 46 to 74.

**Stateburg, South Carolina.**—We have had light rain on two days of the week, the precipitation reaching nineteen hundredths of an inch. The thermometer has ranged from 40 to 81, averaging 58.1.

**Greenwood, South Carolina.**—The week's rainfall has been two inches and six hundredths, on four days. Average thermometer 52, highest 60 and lowest 45.

**Wilson, North Carolina.**—We have had rain on two days of the week, the rainfall reaching one inch and sixty-five hundredths. The thermometer has averaged 55, the highest being 72 and the lowest 40.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 9 o'clock March 11, 1897, and March 12, 1896.

\* A cantar is 98 pounds.  
† Of which to America in 1896-97, 33,969 bales; in 1895-96, 45,717 bales; in 1894-95, 31,018 bales.

This statement shows that the receipts for the week ending Mch. 10 were 70,000 cantars and the shipments to all Europe 32,000 bales.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market is firm for yarns and dull for shirtings. Manufacturers are generally complaining. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

1897.						1896.					
32s. Oop. Twist.			8 1/4 lbs. Shirts, common to finest.			32s. Oop. Twist.			8 1/4 lbs. Shirts, common to finest.

**SEA ISLAND COTTON MOVEMENT.**—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (March 12) and since Sept. 1, 1896, the stocks to-night, and the same items for the corresponding periods of 1895-96, are as follows.

'Receipts to March 12.	1896-97.		1895-96.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1897.	1896.
Savannah.....	625	81,164	333	72,300	16,484	10,954
Charleston, &c.....	56	10,293	2	10,332	3,293	2,446
Florida, &c.....	95	6,586	....	4,783	4,271	1,233
Total.....	776	98,043	335	87,415	24,048	14,633

The exports for the week ending this evening reach a total of 1,504 bales, of which 1,183 bales were to Great Britain, 36 to France and 800 to Reval, and the amount forwarded to Northern mills has been 676 bales. Below are the exports for the week and since September 1 in 1896-97 and 1895-96.

Exports from—	Week Ending Mch. 12.			Since Sept. 1, 1896.			North'n Mills

Quotations March 12 at Savannah, for Floridas, common, 8c.; medium fine, 10c.; choice, 13 1/2c.

Charleston, Carolinas, medium fine, 17 1/2c.; fine, 18c.; fully fine, 19@20c.; extra fine, 25@30c.

**TO ABOLISH COTTON EXCHANGES.**—From time to time our State legislatures advance unique propositions, as the following press despatch, dated Austin, Texas, March 10, would seem to indicate:

The Senate to day passed a joint resolution providing for the calling of an international cotton convention August 2, 1897, at Galveston. The purpose of the convention is to secure concerted legislation for the abolition of bucket shops and cotton exchanges, which, it is contended, are ruining the price of cotton by their adroit management of markets of the world.

**JUTE BUTTS, BAGGING, &c.**—There has been nothing doing for jute bagging during the week under review and prices are nominal at 4 1/2c. for 1 1/4 lbs., 5c. for 2 lbs. and 5 1/2c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4 1/2c. for 1 1/4 lbs., 5c. for 2 lbs. and 5 1/2c. for 2 1/4 lbs. f. o. b. at New York. Jute butts are dull at 1 1-16c. for paper quality, 1-40c. for mixing and bagging, all to arrive.

**EXPORTS OF YARN FROM INDIA TO CHINA AND JAPAN.**—We give below a statement of the shipments of yarn from India to China and Japan during the calendar years 1877 to 1896, inclusive:

	To China (bales 400 lbs. each.)	To Japan (bales 400 lbs. each.)	Total bales.
1877.....	28,516	142	28,658
1878.....	45,933	1,745	47,678
1879.....	45,530	4,842	50,372
1880.....	61,194	4,527	65,721
1881.....	61,783	7,378	69,161
1882.....	81,434	9,354	90,788
1883.....	94,942	17,421	112,403
1884.....	127,318	18,846	146,164
1885.....	154,517	19,020	173,537
1886.....	199,407	20,543	219,950
1887.....	205,158	39,730	244,888
1888.....	234,071	52,697	286,768
1889.....	254,697	62,220	316,917
1890.....	325,060	37,722	362,782
1891.....	365,038	10,939	375,977
1892.....	385,771	21,445	407,216
1893.....	317,900	14,102	332,002
1894.....	369,089	10,654	379,743
1895.....	403,075	2,830	405,905
1896.....	471,025	2,167	473,192

From the above it will be seen that the shipments to China during the year 1896 were by far the heaviest on record, but that the exports to Japan were smaller than in any year since 1878.

**EXCHANGES.**—The following exchanges have been made during the week:

09 pd. to exch. 400 May for July.	13 pd. to exch. 200 Apr. for Aug.
11 pd. to exch. 600 May for Aug.	04 pd. to exch. 200 May for June.
01 pd. to exch. 1,200 July for Aug.	32 pd. to exch. 500 Dec. for July.
23 pd. to exch. 200 Dec. for May.	19 pd. to exch. 500 Mch. for Aug.
10 pd. to exch. 100 Oct. for Sept.	18 pd. to exch. 300 Mch. for July.
10 pd. to exch. 100 May for Aug.	22 pd. to exch. 1,000 Dec. for May.
07 pd. to exch. 100 Oct. for Dec.	30 pd. to exch. 500 Dec. for July.
05 pd. to exch. 100 May for June.	14 pd. to exch. 400 Mch. for June.
05 pd. to exch. 200 June for Aug.	

**EUROPEAN COTTON CONSUMPTION TO MARCH 1.**—We have received to-day (Friday) by cable Mr. Ellison's figures brought down to March 1. We have also received the revised totals for last year and give them for comparison. The spinners' takings in actual bales and pounds have been as follows:

October 1 to March 1.	Great Britain.	Continent.	Total.
<b>For 1896-97.</b>			
Takings by spinners....bales	1,501,000	1,997,000	3,498,000
Average weight of bales,lbs.	503	485	492.7
Takings in pounds.....	755,003,000	968,545,000	1,723,548,000
<b>For 1895-96.</b>			
Takings by spinners....bales	1,432,000	1,754,000	3,186,000
Average weight of bales,lbs.	503	487	495.3
Takings in pounds.....	723,522,000	851,469,000	1,577,992,000

According to the above, the average weight of the deliveries in Great Britain is 503 pounds per bale this season, against 505 pounds during the same time last season. The Continental deliveries average 485 pounds, against 487 pounds last year, and for the whole of Europe the deliveries average 492.7 pounds per bale against 495.3 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

Oct. 1 to March 1. Bales of 500 lbs. each, 000s omitted.	1896-97.			1895-96.		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Spinners' stock Oct. 1.	24.	277.	301.	67.	535.	602.
Takings to March 1..	1,510.	1,977.	3,447.	1,447.	1,709.	3,158.
Supply.....	1,534.	2,214.	3,748.	1,514.	2,244.	3,758.
Consumpt'n, 21 weeks	1,344.	1,630.	3,024.	1,344.	1,663.	3,007.
Spinners' stock Mch. 1	190.	534.	724.	170.	581.	751.
<b>Weekly Consumption.</b>						
00s omitted.						
In October.....	64.0	80.0	144.0	64.0	79.0	143.0
In November.....	64.0	80.0	144.0	64.0	79.0	143.0
In December.....	64.0	80.0	144.0	64.0	79.0	143.0
In January.....	64.0	80.0	144.0	64.0	79.0	143.0
In February.....	64.0	80.0	144.0	64.0	80.0	144.0

The foregoing shows that the weekly consumption is now 144,000 bales of 500 pounds each, against 141,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have increased 120,000 bales during the month but are now 27,000 bales less than at the same date last season.

**SHIPPING NEWS.**—The exports of cotton from the United States the past week, as per latest mail returns, have reached 128,540 bales.

	Total bales.

## BREADSTUFFS.

FRIDAY, March 12, 1897.

There has continued a very narrow and uninteresting market for wheat flour. Demand has been limited almost exclusively to small jobbing orders for trade brands, as buyers generally have shown a disposition to hold back. Mills, however, have shown no disposition to force business and prices have been fairly well maintained. At the close city mills were having a fair call at steady prices. Rye flour has continued to sell slowly but values have been maintained. Demand for corn meal has been quiet but prices have ruled steady. To-day the market for wheat flour was quiet and barely steady.

There has been a moderate amount of activity to the speculative dealings in the market for wheat futures, but there has been a decided break in values, the decline for the week amounting to 3½¢@3¾¢. The changes in prices on Saturday were unimportant. Monday there was a weak market. Foreign advices were easier as a result of the improved political situation in Europe, and this prompted general selling, under which prices declined 1½¢@1¾¢. Tuesday the market was weaker during early 'Change under foreign advices. Toward the close, however, there was a demand to cover contracts on European advices reporting the political situation as less favorable, and all of the early loss was recovered. Wednesday there was a quiet market as traders were holding off awaiting the Government report. The close was at fractional declines, in sympathy with easier foreign markets. Although the Government report placed the reserves in farmers' hands at only 83,000,000 bushels, the market broke badly on Thursday. There was free liquidation by longs as foreign advices were weaker and European political advices were of a more pacific nature. The close was at a decline of 1½¢@1¾¢ for the day. The market today was lower during early 'Change in response to weaker foreign advices. Subsequently, however, the loss was recovered as an improved export demand stimulated buying by shorts to cover contracts. In the spot market business was quiet early in the week. Yesterday and to-day, however, a fair export business was transacted. The purchases amounted to about 500,000 bushels spring wheat for forward loading. The particulars were kept private. At the close No. 1 hard Duluth was quoted at 83¾¢ f. o. b. afloat; No. 1 Northern Duluth at 83¾¢ f. o. b. afloat; No. 2 red winter at 83¾¢ f. o. b. afloat and choice do. at 92¾¢ f. o. b. afloat.

### DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT

July delivery .....	80½	77½	79	78½	76½	77
September delivery .....	77½	76	76½	75½	73½	74½

There has been a quiet market for Indian corn futures. Early in the week prices made fractional gains on buying by a few shorts to cover contracts. Subsequently, however, there was a decline in sympathy with the weakness of the wheat market, and at the close prices showed a slight loss for the week. In the spot market a limited export business has been transacted for forward loading. To-day the market was quiet but steady. The sales included old No. 2 mixed at 29½¢ in elevator and 31c f. o. b. afloat; new do. at 29c f. o. b. afloat and steamer mixed and yellow at 27c in elevator.

### DAILY CLOSING PRICES OF NO. 2 MIXED CORN

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
March .....	29½	29½	29½	29½	29½	29½

July delivery .....	31½	31½	31½	31½	31½	31½
September delivery .....	...	...	...	31½	32½	...

Oats for future delivery have been very quiet. During the first half of the week prices held steady. Later, however, prices weakened, in sympathy with the depression of other grains, and the close was quiet. In the spot market a limited business has been transacted with the home trade, but the export demand has been quiet. To-day the market was unchanged. The sales included No. 2 mixed at 22c in elevator and No. 2 white at 23½¢ in elevator.

### DAILY CLOSING PRICES OF NO. 2 MIXED OATS

THE AGRICULTURAL DEPARTMENT'S REPORT FOR MARCH 1.—The report of the Department of Agriculture on Distribution and Quality of the Corn and Wheat Crops of 1896 was issued on the 10th inst. as follows:

The crop report of the Department of Agriculture, based on returns from three independent sets of regular correspondents, added to several thousand from mills and elevators, all carefully combined and weighted, relates principally to the distribution of principal grains, the stocks remaining on farms and the proportions of merchantable and unmerchantable. All grain in the hands of farmers, including amounts remaining over from previous years, are included in the estimates given.

The corn on hand, as estimated, aggregates 1,164,000,000 bushels, or 51 per cent of the last crop, against 1,072,000,000 in March, 1896. Both the proportion and the quantity in original hands at this date are unprecedented, although closely approached last year and in March, 1890. Correspondents report large stocks in cribs, particularly in the Prairie States, awaiting better prices.

The aggregate sold from farms to go beyond county lines is 623,000,000 bushels, or 27.3 per cent of the crop. The proportion merchantable is 1,936,000,000, or 94.8 per cent.

The wheat reserves in farmers' hands amount to 26.8 per cent of the crop, or 88,000,000 bushels, against 123,000,000 bushels last March. Of this amount 3 per cent is reported as coming over from previous crops. The proportion of wheat sold outside the county is 51.7 per cent.

Of oats there are 313,000,000 bushels, or 44.2 per cent of the 1896 crop (707,346,104 bushels), yet in farmers' hands. Proportion shipped beyond county lines, 27 per cent.

As of interest in connection with this report we give below a statement covering the stock of corn on March 1 for a series of years as made up by us from the Agricultural Department's figures.

CORN.	Product of previous year. Bushels.	On hand March 1. Bushels.	Per ct.	Consumed or distributed. Bushels.
March, 1883..	1,618,896,100	587,465,943	33.7	1,029,530,157
" 1884..	1,551,086,895	512,224,003	33.0	1,038,862,892
" 1885..	1,795,000,000	875,000,000	37.6	1,120,000,000
" 1886..	1,936,000,000	773,000,000	39.9	1,163,000,000

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., March 12, 1897.

There has been a quieter market on the spot at first hands this week than was noticeable the previous week and jobbers have also recorded smaller results, although still fairly busy. Reports from the Western and Southwestern jobbing centres, however, continue of an encouraging character, a decidedly liberal distribution of seasonable merchandise being in progress. There has been no material change in the tone of the primary market in any direction. The demand for staple lines seems sufficient to prevent further accumulations of stocks, but has no appreciable effect upon the volume, and sellers are not any more difficult to deal with than before for ready supplies. They do, in a number of instances, show some reserve in accepting contracts for future delivery on the basis of current prices, but it must be conceded that the conservative policy of buyers gives them but few opportunities to exercise it, and quotations are without change in any direction. Cotton dress fabrics are generally in good shape, particularly in fancy printed lines. The woolen goods division of the market has ruled quieter, but, as was the case a week ago, this arises from the lessened demand for low-grade goods in men's wear fabrics. Financial conditions are good, complaints regarding collections being seldom heard.

WOOLEN GOODS.—Buyers appear to have got pretty well through with their first round of business in low-priced grades of all-wool fancies in chevots, cassimeres and the like, and the aggregate business in heavy-weights for men's wear shows a decrease in consequence. There has been no falling off in the demand for the better grades, however, and fair sales have been recorded in qualities ranging from \$1.25 to \$1.50 in both woollens and worsteds and in still higher grades of fancy worsteds. Late as it is, reorders for spring weights come forward for quick deliveries of low-priced goods. Overcoatings have sold fairly in both plain and rough-faced goods, and there has been more doing in cloakings. Dress goods have been reordered in spring lines with some freedom, and a fair business done in new fall goods. Plain lines in Henriettes and cashmeres have an upward tendency. Flannels and blankets are steady, with fair sales.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending March 8 were 4,834 packages, valued at \$194,083, their destination being to the points specified in the tables below:

NEW YORK TO MARCH 8.	1897.		1896.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	82	751	24	383
Other European.....	.....	615	27	1,028
China.....	2,001	19,696	231	16,790
India.....	89	663	155	2,292

Total.....	4,834	46,844	2,803	42,217
China, via Vancouver.....	.....	8,750	.....	7,317
Total.....	4,834	55,594	2,803	49,534

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$1,919,428 in 1897 against \$1,939,610 in 1896.

In brown sheetings and drills the actual demand has been moderate again and readily met in all weights. Few bids for forward deliveries of any volume have come to hand, and these have generally been too low for sellers' acceptance. In bleached cottons both jobbers and manufacturers still confine their orders to limited quantities, but a considerable number are buying in this way, and prices are unaltered. Wide sheetings slow and unchanged. There has been more doing in cotton flannels and blankets, mostly on memorandum. Denims are dull and easy to buy. Ticks steady, with moderate sales. Other coarse colored cottons quiet and featureless. Kid-finished cambrics steady at 3c. for 61 squares. In fancy calicos and medium-priced printed specialties a fair supplementary business has been done. Regular prints generally quiet. Staple ginghams irregular, with moderate sales. Fine dress styles fairly reordered, but low grades inactive. Print cloths have ruled dull on the basis of 2 9-16c. for extras.

Stock of Print Cloths—	1897.		1896.		1895.		1894.

\* By agreement among the cloth brokers no detailed statement of the print cloth market is made public.

FOREIGN DRY GOODS.—Seasonable lines have been in steady request in dress goods, silks, ribbons and various fancy department, the general market being in good shape. Fall business has been interfered with this week by disturbing reports of arbitrary action by Congress in connection with tariff changes, and in all directions a falling off in orders is reported.

## Importations and Warehouse Withdrawals of Dry Goods.

# STATE AND CITY DEPARTMENT.

## TERMS OF SUBSCRIPTION.

THE INVESTORS' SUPPLEMENT will be furnished *without extra charge* to every annual subscriber of the **COMMERCIAL AND FINANCIAL CHRONICLE**.

THE STATE AND CITY SUPPLEMENT will also be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

THE STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

THE QUOTATION SUPPLEMENT, issued monthly, will also be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

TERMS for the **CHRONICLE** with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

### Terms of Advertising—(Per inch space.)

One time .....	\$3 50	Three Months (13 times) ..	\$25 00
One Month (4 times) ..	11 00	Six months (26 times) ..	43 00
Two Months (8 times) ..	18 00	Twelve Months (52 times) ..	58 00

The above terms for one month and upwards are for standing cards.

**Territorial Bonds.**—The bill providing for the funding of the existing indebtedness of the counties and school districts in all the Territories has failed to pass the House of Representatives.

**Anaconda, Mont.—Bond Sale.**—It is reported that school bonds of this municipality to the amount of \$20,000 have been disposed of at par. The securities bear 6 per cent interest and mature in 1917.

**Androscoggin County, Maine.—Bond Offering.**—Proposals will be received until 3 o'clock P.M. March 24, 1897, by the County Commissioners for the purchase of \$30,000 of 4 per cent bonds. The securities will be of the denomination of \$500 each and will mature in from ten to nineteen years from date of issue. Each proposal must be accompanied by a certified check for \$1,000.

The county's present indebtedness is \$45,000; assessed valuation, \$28,477,903.

**Barre, Vt.—Note Sale.**—The Boston News Bureau reports that the City of Barre has awarded a note for \$10,000 to Dunscomb & Jennison at 3½ per cent interest. The loan was issued in anticipation of taxes, and will mature September 10, 1897.

**Belmar, N. J.—Bond Sale.**—It is reported that the \$85,000 of 5 per cent gold improvement bonds of this borough have been awarded to M. B. Phillips & Co. of Trenton, N. J., at par. The other bidders were E. Beckman Underhill, D. A. Moran & Co. and S. A. Kean. Interest on the securities is payable semi-annually and the principal will mature at the rate of \$5,000 per annum from January 1, 1901 to 1917, inclusive. The bonds are of the denomination of \$1,000 and are issued to provide for the construction of sewers and water works and the improvement of various streets.

**Black Hawk, Col.—Bonds Proposed.**—Water-works bonds of this city to the amount of \$25,000 have been proposed, and the question of issuing the same will probably be determined by the people on April 5, 1897.

**Bluffton, Ohio.—Bond Sale.**—On March 1, 1897, the \$8,000 of 6 per cent bonds of this village were awarded to N. W. Harris & Co., of New York City. The securities are dated March 1, 1897, interest is payable semi-annually at the Village Treasurer's office, and the principal will mature at the rate of \$500 per annum from March 1, 1900, to March 1, 1915, inclusive.

The bonds are of the denomination of \$300 and are issued to provide funds for the construction of an electric-light plant. The assessed valuation of the village is \$292,903; real valuation, \$900,000, and the population about 1,900.

**Boulder, Col.—Bond Election.**—A proposition to issue \$25,000 of electric-light bonds will be submitted to a vote of the people of Boulder in April next. The securities, if authorized, will bear interest at the rate of 6 per cent and mature in ten years from date of issue.

**Brambleton, Norfolk P. O., Va.—Bond Election.**—On May 27, 1897, the proposition to issue \$150,000 of bonds for street and sewer improvements will be voted on by the people of this place.

**Buffalo, N. Y.—Bond Sale.**—On March 6, 1897, the \$194,687 11 of 3½ per cent grade crossing bonds of this city were awarded to Joseph E. Gavin of Buffalo, N. Y., at the following prices: 102-385 for \$50,000; 102-315 for \$59,000; 102-185 for \$50,000; 102-165 for \$41,687 11. The other bids received were:

Eric County Savings Bank, Buffalo, N. Y. ....	102-180
L. W. Morrison, New York, N. Y. ....	101-625
H. L. Day & Co., Boston, Mass. ....	101-320
Jas. W. Longstreet & Co., Boston, Mass. ....	101-273
Blodget, Merrill & Co., Boston, Mass. ....	101-278
C. H. White & Co., New York, N. Y. ....	101-200

The securities are dated Feb. 1, 1897, interest is payable semi-annually on the first days of February and August at the office of the City Comptroller of Buffalo, or at the Gallatin National Bank of New York City, and the principal will mature February 1, 1917.

The bonded debt of the City of Buffalo on February 15, 1897, less amounts held in the sinking funds, was \$12,701,187 75; the assessed valuation of taxable real estate for 1896 is \$235,485,795.

**Burlington, N. J.—Bond Sale.**—It is reported that Burlington has sold \$5,500 of bonds at 101-25 and \$1,800 at 100-10.

**Canton, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock noon, March 20, 1897, by F. H. Belden, City Clerk, for the purchase of \$13,100 of 5 per cent street improvement bonds of this city. Seven thousand seven hundred dollars of the securities will be dated August 1, 1893, and the remainder April 1, 1897; interest will be payable semi-annually by the City Clerk of Canton, or at the office of Kounize Bros., New York City, as the purchaser may desire. The bonds are of the denominations of \$300, \$400, \$600 and \$900, and will mature as follows: \$2,000 at the rate of \$400 every two years from August 1, 1898 to 1906 inclusive; \$5,400 at the rate of \$600 per annum, from August 1, 1897 to 1905 inclusive; \$300 on August 1, 1906; \$5,400 at the rate of \$900 per annum from April 1, 1898 to 1908 inclusive.

No bid for less than par will be considered, and each proposal must be accompanied by a certified check for \$1,000.

**Cincinnati, Ohio.—Bond Call.**—Notice has been given that the following bonds of the City of Cincinnati have been called for payment on May 1, 1897, after which date the securities will cease to bear interest:

Police-fund deficiency bonds of 1885, Nos. 1 to 36, inclusive, of \$1,000 each, and Nos. 1 to 2,000, inclusive, of \$100 each.

General deficiency bonds of 1885, Nos. 1 to 474, inclusive, of \$500 each.

**Cleveland, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock noon, April 7, 1897, by H. L. Rossiter, City Auditor, for the purchase of \$100,000 of 4 per cent police station coupon bonds of this city. The securities will be dated April 1, 1897, interest will be payable semi-annually on the first days of April and October, and the principal will mature April 1, 1917, both principal and interest being payable at the American Exchange National Bank, of New York City. The bonds are of the denomination of \$1,000 each and are to be issued to extend the time of payment of a like amount of police station bonds maturing May 1, 1897.

No bid for less than par and accrued interest will be considered, and each proposal must be accompanied by a certified check for 5 per cent of the amount bid for.

The city's present indebtedness amounts to \$10,854,526; water debt (included in total debt), \$2,091,977; sinking funds, \$1,818,200; net debt, \$6,441,349. The tax valuation is \$134,562,905; real valuation, \$500,000,000. The population is estimated at 375,000.

**Columbus, Ohio.—Bond Call.**—Notice has been given that various street-improvement bonds of this city to the amount of \$383,500 have been called for payment on March 15, 1897, after which date the securities will cease to bear interest.

**Bond Sale.**—This city has awarded \$47,000 of 4 per cent twenty-year bonds to the Ohio Savings Bank of Columbus, Ohio, at 111-875.

**Denton County, Texas.—Bond Sale.**—Court-house bonds of this county to the amount of \$32,000 have been sold.

**Eastchester, N. Y.—Bond Offering.**—Proposals will be received until 8 o'clock P. M., March 16, 1897, by Herbert D. Lent, Town Supervisor, for the purchase of \$30,000 of 4 per cent and \$5,520 of 5 per cent highway improvement bonds of this town. The securities will be dated April 1, 1897, and the interest will be payable semi-annually at the People's National Bank of Mount Vernon, N. Y. The \$30,000 of 4 per cent bonds will mature at the rate of \$5,000 per annum from April 1, 1905, to 1910, inclusive; \$5,000 of the 5 per cent bonds, at the rate of \$1,000 per annum from April 1, 1898 to 1902, inclusive, and \$520 on April 1, 1903. The securities are of the denomination of \$1,000, except one of the 5 per cent bonds, which is for \$520.

Each bid for the 4 per cent bonds must be accompanied by a certified check for \$500, and for the 5 per cent bonds by a certified check for \$100.

The present indebtedness of the town is \$31,520, a part of which is chargeable to the City of Mount Vernon, N. Y. The assessed valuation (about 30 per cent of the actual value) is \$923,687.

**Elsinore, Cal.—Bonds Authorized.**—This city has decided to issue \$20,000 of 6 per cent gold bonds. The securities will be dated July 1, 1897; interest will be payable semi-annually, on the first days of January and July, and the principal will mature at the rate of \$500 per annum from July 1, 1898, to 1937 inclusive, both principal and interest being payable at the office of the City Treasurer of Elsinore. The bonds will be of the denomination of \$500, and are to be issued to provide funds for the construction of a water system. This issue will be the only debt of the city. The assessed valuation for 1896 was \$187,000; actual value about \$459,000. The population is estimated at 600.

**Far Rockaway, N. Y.—Bonds Authorized.**—A bill authorizing this municipality to issue \$35,000 of sewer bonds has

passed the New York State Legislature and has been signed by the Governor.

**Galveston, Tex.—Bond News.**—A bill has been introduced in the State Legislature of Texas to amend the present charter of the City of Galveston. Among the various amendments proposed it is provided that, in addition to the \$1,240,000 of bonds authorized by the present charter, the city shall be allowed to issue \$550,000 of bonds, of which \$200,000 shall be applied to funding the existing floating indebtedness; \$300,000 to the construction of a sewerage system and \$50,000 to the improvement of various streets. The securities will be of the denominations of \$100 or a multiple thereof, the funding and street-improvement bonds to bear interest at a rate not exceeding 5 per cent and to mature in forty years from date of issue. The sewerage bonds are to be secured by a sinking fund of  $2\frac{1}{2}$  per cent of the amount outstanding, which shall be applied to the redemption of the bonds when the same can be obtained on reasonable terms.

**Gillett, Col.—Bond Election.**—It is reported that a proposition to issue \$20,000 of bonds for the construction of water-works will be put to a vote of the people of this town in the spring.

**Greensboro, N. C.—Bonds Authorized.**—Bonds of this city to the amount of \$50,000 have been authorized.

**Green Spring, Ohio.—Bond Election.**—It is reported that a proposition to issue \$20,000 of bonds to pay the cost of water-works and an electric-light plant will be put to a vote of the people of Green Spring in a few months.

**Greenwood, S. C.—Bond Election.**—On April 13, 1897, the citizens of this town will vote on a proposition to issue \$25,000 of thirty year bonds for the construction of a court-house and jail.

**Hamilton County, Ohio.—Bond Sale.**—It is reported that the \$5,000 of 4 per cent seven year plating bonds of Hamilton County were taken by Seasongood & Mayer, of Cincinnati.

**Haverhill, Mass.—Bond Sale.**—On March 5, 1897, the \$66,000 of 4 per cent highway and sewerage bonds of this city were awarded to Blodget, Merritt & Co., of Boston, Mass., at 103.77. The other bids received were:

Cushman, Fisher & Phelps, Boston, Mass.	103.673
Tewer, Giddings & Co., Boston, Mass.	103.570
Jose Parker & Co., Boston, Mass.	103.5479
Jas. W. Longstreet & Co., Boston, Mass.	103.504
Geo. A. Fernald & Co., Boston, Mass.	103.410
Parkinson & Burr, Boston, Mass.	103.333
R. L. Day & Co., Boston, Mass.	103.329
Blake Bros. & Co., Boston, Mass.	103.310
E. H. Rollins & Sons, Boston, Mass.	103.280
Estabrook & Co., Boston, Mass.	103.190
W. J. Hayes & Sons, Boston, Mass.	103.170
C. H. White & Co., New York.	103.150
Dietz, Denison & Prior, Boston, Mass.	103.077
E. H. Gay & Co., Boston, Mass.	102.510

The securities are dated March 1, 1897; interest is payable semi-annually, on the first days of March and September, and the principal will mature March 1, 1907, both principal and interest being payable at the office of the City Treasurer of Haverhill. The bonds are of the denomination of \$1,000 each, and their payment is provided for by a sinking fund. The gross bonded debt of the city on March 1, 1897, including this issue, was \$1,865,679; net water debt (included in total debt), \$862,934.75; sinking fund, \$302,276; net city debt, \$700,468. The debt limit ( $2\frac{1}{2}$  per cent on the net average valuation for the last three years), together with the various excesses allowed, is \$707,260. The assessed valuation for 1896 was \$23,863,290; the population for 1897 is estimated at 35,000.

**Harriman, Tenn.—Bonds Proposed.**—The people of this municipality propose to issue bonds for the erection of an electric-light plant.

**Helena, Mont.—Bond Offering.**—Proposals will be received until 12 o'clock noon March 29, 1897, by Massena Bullard, City Clerk, for the purchase of \$161,500 of 5 per cent series F refunding bonds. The securities will be dated January 1, 1896; interest will be payable semi-annually, and the principal will mature as follows: \$3,000 at the rate of \$500 per annum from January 1, 1900, to 1915 inclusive, and \$153,500 on January 1, 1916, both principal and interest being payable at the office of the City Treasurer of Helena or at the Third National Bank of New York City, as the purchaser may desire. The bonds are of the denomination of \$500 each. The bonded debt of the city, including this issue, is \$391,500; assessed valuation (about  $\frac{1}{2}$  of actual value), \$12,650,783. The population is estimated at 15,000.

**Hico, Texas.—Bond Offering.**—Proposals will be received until March 22, 1897, by G. W. Hail, Secretary, for the purchase of \$75,000 of 5 per cent town bonds.

**High Point, N. C.—Bond Election.**—It is reported that an election will soon be held at this place to vote on issuing school bonds to the amount of \$10,000.

**Hoboken, N. J.—Bonds Authorized.**—School-building bonds of this city to the amount of \$90,000 have been authorized.

**Holden, Mo.—Bonds Unsold.**—The \$25,000 of 5 per cent water-works bonds of this city were not sold on February 16, 1897, no satisfactory bids for the same having been received.

**Holyoke, Mass.—Temporary Loan.**—The eight months loan of \$50,000 of this city was awarded to Jas. W. Longstreet & Co., of Boston, Mass., at 3.05 per cent interest and \$1.50 premium. The other bids received were as follows:

	Per Cent.
Bond & Goodman, Boston, Mass.	3.16
Blodget, Merritt & Co., Boston, Mass.	3.17
Duncomb & Jennison, Boston, Mass.	3.18
Blake Bros. & Co., Boston, Mass.	3.30
Rogers, Newman & Tolman, Boston, Mass.	3.40
Curtis & Molley, Boston, Mass.	3.50 and \$7.00 premium.
Edgerly & Crocker	3.50 and \$6.25 premium.
E. H. Rollins & Sons, Boston, Mass.	3.50 and \$5.00 premium.
Estabrook & Co., Boston, Mass.	3.50

**Bond Offering.**—Proposals will be received until 7:30 P. M., March 16, 1897, by Pierre Bonvouloir, City Treasurer, for the purchase of \$109,000 of 4 per cent coupon gold school bonds of this city. The securities will be dated March 1, 1897; interest will be payable semi-annually on the first days of March and September, and the principal will mature March 1, 1917, both principal and interest being payable at the National Hide & Leather Bank, of Boston, Mass.

The bonds will be of the denomination of \$1,000 each and will be secured by a sinking fund.

Each proposal must be accompanied by a certified check for \$2,000.

**Homestead, Pa.—Bond Sale.**—Refunding bonds of this borough to the amount of \$20,000 have been sold. The securities are dated January 1, 1897; interest is payable at the rate of 5.25 per cent, and the principal will mature in twenty years from date of issue, subject to call after 1902.

**Indianapolis, Ind.—Bond Offering.**—Proposals will be received until 12 o'clock noon March 31, 1897, by E. M. Johnson, City Comptroller, for the purchase of \$350,000 of 4 per cent park-improvement bonds of this city. The securities will be dated April 1, 1897; interest will be payable semi-annually on the first days of January and July, and the principal will mature January 1, 1927, both principal and interest being payable at the office of Winslow, Lanier & Co., New York City. The bonds will be of the denomination of \$1,000 each.

No bid for less than par and accrued interest will be considered, and each proposal must be accompanied by a certified check for  $2\frac{1}{4}$  per cent of the amount bid for.

The official advertisement of this bond offering will be found elsewhere in this Department.

**Jackson, Tenn.—Bonds Proposed.**—It is reported that the town of Jackson proposes to issue \$25,000 of school bonds.

**Jamaica, N. Y.—Bond News.**—Mr. J. F. Hume, of New York City, is contesting the validity of \$450,000 of bonds of this town, recently awarded to him, on the ground that they were illegally issued. Under the general law a proposition to issue bonds must be voted upon by the people. This was not done in this case.

**Bond News.**—A bill authorizing this village to issue \$200,000 of street-improvement bonds has passed the State Assembly.

**Lawrence County, Ohio.—Bond Sale.**—It is reported that Lawrence County has sold \$0,000 of 5 per cent refunding bonds at 101.25.

**Lebanon, Ohio.—Bond Election.**—On April 5, 1897, the question of issuing electric-light bonds to the amount of \$16,000 will be submitted to a vote of the citizens of Lebanon.

**Lillian Irrigation District, Walworth, Neb.—Bond Offering.**—Proposals will be received until April 1, 1897, by P. L. Metcalf, Secretary of the district, for the purchase of bonds to the amount of \$32,000. The securities will bear interest at the rate of 7 per cent, payable semi-annually, and the principal will mature in from ten to twenty years from date of issue. The bonds will be of the denomination of \$500 and \$100.

**Lima, Ohio.—Bond Sale.**—The \$33,000 of 6 per cent 1-11 year assessment bonds of this city have been awarded to S. A. Baxter & Sons, at 107.25. The bonds were originally sold to the Fourth National Bank of Columbus, Ohio, through a misinterpretation of their bid, but the question was reconsidered and the securities awarded as above.

**Lockport, N. Y.—Bonds Proposed.**—This city will petition the Legislature for authority to issue bonds to the amount of \$50,000 for the erection of an electric-light plant.

**Madison County, Mont.—Bond Sale.**—It is reported that Madison County has sold \$3,000 of 6 per cent 5-10 year bonds at 101.

**Marlette, Ohio.—Bonds Authorized.**—The citizens of this municipality have voted in favor of a proposition to issue \$15,000 of electric-light bonds.

**Miamisburg, O.—Bond Sale.**—A. C. Schell, Village Clerk, has awarded \$10,320 of 6 per cent 1-10 year street improvement bonds of this village to N. J. Curo & Co., of Miamisburg, Ohio, at 107. The other bids received were:

Rudolph Kiebolte & Co., Cincinnati, Ohio.	106.656
C. H. White & Co., New York City, N. Y.	106.269
The Lamprecht Bros. Co., Cleveland, Ohio.	106.250
Seasongood & Mayer, Cincinnati, Ohio.	105.668
Farson, Leach & Co., Chicago, Ill.	104.777
W. J. Hayes & Sons, Cleveland, Ohio.	103.817
Mason, Lewis & Co., Chicago, Ill.	103.071

The bonded debt of Miamisburg is \$54,720; assessed valuation, \$1,555,560; tax rate (per \$1,000), \$23.40. The population is estimated at about 3,600.

**Montgomery, Ala.—Bonds Authorized.**—The City Council has decided to issue \$15,000 of 5 per cent street-improvement bonds. Each bond will be for the sum of \$500, and will mature at the rate of \$25 per annum.

**Monal Vernon, N. Y.—Bond Offering.**—Proposals will be received until 5 o'clock P. M., March 29, 1897, by the Common Council for the purchase of \$20,000 of 4 per cent sewerage loan bonds of this city. The securities will be dated April 1, 1897, interest will be payable semi-annually at the office of the City Treasurer and the principal will mature as follows: \$5,000 on April 1, 1919; \$10,000 on April 1, 1920, and \$5,000 on April 1, 1921. The bonds are of the denomination of \$1,000 each. No bid for less than par and accrued interest will be considered and each proposal must be accompanied by a certified check for \$500.

**New Rochelle School District No. 1, N. Y.—Bond Offering.**—Proposals will be received until 8 o'clock P. M., March 15, 1897, by H. S. Clarke, Secretary of the Board of Education, for the purchase of \$104,000 of 4 per cent coupon gold bonds of this school district. The securities will be dated May 1, 1897; interest will be payable semi-annually on the first days of May and November, and the principal will mature as follows: \$33,000 at the rate of \$3,000 per annum, from May 1, 1903 to 1913 inclusive; \$5,000 on May 1, 1914; \$6,000 on May 1, 1915, and the remainder at the rate of \$5,000 each year thereafter, until paid.

The bonds will be of the denomination of \$1,000 and are to be issued to provide funds for the purchase of two sites and building school houses thereon.

**New York.—Bond News.**—The bill exempting bonds of this State from taxation has passed the Assembly.

**New York City.—Bond Offering.**—Proposals will be received until 2 o'clock P. M., March 23, 1897, by Ashbel P. Fitch, City Controller, for the purchase of \$929,333 97 of 3 per cent school-house bonds of this city. Interest on the securities will be payable semi-annually on the first day of May and November, and the principal will mature November 1, 1916. No bid for less than par will be considered.

**Bond News.**—A bill has been introduced in the State Legislature authorizing this city to issue \$10,000,000 of bonds for the construction of additional school buildings and the improvement of those erected. This is independent of a bill which has been presented authorizing the city to issue \$2,500,000 of bonds for the erection of four high-school buildings.

**Oakdale, Pa.—Bond Sale.**—It is reported that this borough has disposed of \$8,000 of 5½ per cent 30-year street improvement bonds.

**Palmsville, Ohio.—Bonds Proposed.**—It is reported that the Council of this city proposes to issue bonds for the construction of sewers.

**Penobscot County, Me.—Bond Sale.**—It is reported that refunding bonds of this county to the amount of \$20,000 and bearing interest at the rate of 4 per cent have been sold at 100-71.

**Pittsford, N. Y.—Bond Election.**—An election will probably be held in this city to determine the question of issuing bonds for the construction of water works.

**Plattsburgh, Mo.—Bonds Proposed.**—It is reported that highway bonds of this town to the amount of \$50,000 are under consideration.

**Pocahontas, Va.—Bond Sale.**—This municipality has disposed of funding bonds to the amount of \$10,000. The securities bear interest at the rate of 6 per cent and will mature in 1902.

**Quaker City, Ohio.—Bond Sale.**—It is reported that the Quaker City National Bank has been awarded \$1,400 of the city's refunding 5 per cent bonds at 104-48.

**Randolph County, Ala.—Bonds Authorized.**—The citizens of this county have authorized an issue of \$18,000 of 6 per cent court-house bonds. The securities will be dated April 1, 1897, and will mature in ten years from date of issue.

**Sacramento, Cal.—Bonds Proposed.**—Electric-light bonds of this city to the amount of \$40,000 are under consideration.

**Saginaw, Mich.—Bond Sale.**—On February 27, 1897, the \$5,000 of 4 per cent water refunding bonds of this city were awarded to C. H. White & Co., of New York, N. Y. The securities are dated March 1, 1897; interest is payable semi-annually at the Chemical National Bank of New York City, and the principal will mature March 1, 1906. The bonds will be of the denomination of \$1,000.

The bonded debt of the city, including this issue, amounts to \$1,229,000, of which \$339,000 are water bonds and \$276,000 assessment bonds, paid for by assessments upon the property benefited. A sinking fund of \$10,000 is held to retire certain bonds at maturity. The total assessed valuation for 1896 is \$15,337,070, and the population is estimated at 50,000.

**St. Paul, Minn.—Temporary Loan.**—Proposals will be received until 2 o'clock noon to-day by J. J. McCarty, City Comptroller, for the purchase of \$290,000 of 4 per cent certificates of indebtedness to be issued in anticipation of the collection of the taxes for 1897. The securities will be dated March 15, 1897, interest will be payable semi-annually and the principal will mature June 15, 1899. No bid for less than par and accrued interest will be considered. The certificates will be of the denomination of \$500 each.

**Sand Beach, Mich.—Bonds Authorized.**—On March 8, 1897, the voters of this village authorized the issuance of water-works bonds to the amount of \$15,000.

**Sea Cliff, N. Y.—Bond Sale.**—On March 10, 1897, the \$50,000 of highway improvement bonds of this village were awarded to Street, Wykes & Co. of New York, N. Y., at 104 91. The securities bear interest at the rate of 5 per cent and the principal will mature at the rate of \$2,500 each year, beginning with September 1, 1901.

**Spartanburg, S. C.—Bond Election.**—It is reported that the question of issuing school building bonds will soon be put to a vote of the people of this municipality. The securities, if authorized, will bear 6 per cent interest, payable semi-annually, and the principal will mature in thirty years from date of issue.

**Summerville, Ga.—Bond Election.**—On March 31, 1897, the citizens of this village will vote on a proposition to issue \$50,000 of 5 per cent water and sewer bonds.

**Toledo, Ohio.—Bond Sale.**—On February 8, 1897, the \$90,000 of 4 per cent school bonds of this city were sold to Farnon, Leach & Co. of Chicago, Ill., for \$91,437 80. The securities are dated March 8, 1897; interest is payable semi-annually at the Importers' & Traders' National Bank of New York City, and the principal will mature in thirty-two years from date of issue. The bonds are of the denomination of \$1,000, and are issued to provide funds for the improvement of public school property.

**Upper Sandusky, O.—Bond Sale.**—On March 8, 1897, the \$7,000 of 6 per cent refunding bonds of this village were awarded to Dietz, Denison & Prior, of Cleveland, Ohio, for \$7,438 90. The other bids received were:

Macon, Lewis & Co., Chicago, Ill.	\$7,404 00
W. J. Hayes & Sons, Cleveland, Ohio.	7,324 00
James A. Harris, New York, N. Y.	7,211 00
Jas. W. Longstreet & Co., Boston, Mass.	7,107 27
Ohio Savings Bank, Columbus, Ohio.	7,601 30
Feenood & Mayer, Cincinnati, Ohio.	7,592 25
The Lamprecht Bros. Co., Cleveland, Ohio.	7,541 00
Spitzer & Co., Toledo, Ohio.	7,491 00

\* Bids withdrawn.

The securities are dated April 1, 1897, interest is payable semi-annually and the principal will mature April 1, 1905, both principal and interest being payable at the Ninth National Bank of New York City. The bonds are of the denomination of \$1,000 and are issued for the purpose of refunding certain loans maturing April 1, 1897.

**Victor, Col.—Bonds Proposed.**—Water-works bonds of this city to the amount of \$75,000 are under consideration.

**Wallingford, Conn.—Bond Offering.**—Proposals will be received until 5 o'clock P. M., March 22, 1897, by this city for the purchase of \$30,000 of sinking fund coupon bonds. The loan will bear interest at the rate of 4 per cent and mature in thirty years from date of issue.

**Waltham, Mass.—Bond Offering.**—The Boston News Bureau reports that proposals will soon be received by the City of Waltham for the purchase of \$31,000 of 4 per cent water bonds.

**West Chester, Pa.—Bond Sale.**—Refunding bonds of this borough to the amount of \$75,000 have been sold to local bidders at par. The securities are dated April 1, 1897; interest is payable at the rate of 3½ per cent, and the principal will mature April 1, 1927.

**Westwood, O.—Bond Call.**—Notice has been given that the following bonds of this village have been called for payment May 1, 1897, after which date the securities will cease to bear interest:

Town-hall bonds of 1888, Nos. 26 to 45, inclusive.  
Town-hall bonds of 1889, Nos. 201 to 220, inclusive.  
Elmwood Ave. improvement bonds of 1889, Nos. 8 to 17, inclusive.

Fairview Ave. improvement bonds of 1889, Nos. 12 to 21, inclusive.

Grandview Ave. improvement bonds of 1889, Nos. 19 to 28, inclusive.

All of the above securities are of the denomination of \$100. The village of Westwood was annexed to Cincinnati in 1895 and its indebtedness assumed by that city.

**Worcester, Mass.—Bond Sale.**—The city of Worcester has awarded the \$150,000 of 4 per cent twenty-nine year funding bonds to N. W. Harris & Co. of Boston, Mass., at 112-44. The other bids received were:

Estabrook & Co.	112-330
E. H. Rollins & Sons.	111-919

**Yeadon, Pa.—Bonds Authorized.**—The citizens of this borough have authorized an issue of \$10,500 of sewer bonds, for which bids will be requested. This loan is in place of an issue of \$11,000 of bonds made in August, 1890, for which the borough was unable to receive bids, the securities having been illegally issued. The loan was based on an assessed valuation of property of \$555,000, which amount was found to be too great.

**Youngstown, Ohio.—Bond Offering.**—Proposals will be received until 2 o'clock P. M. March 29, 1897, by F. C. Brown, City Clerk, for the purchase of \$5,400 of 5 per cent sewer bonds of this city. Interest on these securities will be payable semi-annually, and the principal will mature as follows: \$4,000 at the rate of \$1,000 per annum from October 1, 1898, to 1901 inclusive, and \$1,400 on October 1, 1902, both principal and interest being payable at the office of the City Treasurer of Youngstown.

**Zanesville, Ohio.—Bond Sale.**—On March 6, 1897, \$23,010 of 6 per cent 1-5 year street-paving bonds of this city were awarded to Dietz, Denison & Prior, of Cleveland, Ohio, at a premium of \$770 27. The other bids received were:

### BIDS FOR BONDS.

Consolidated Sinking Fund Bonds  
OF THE

## CITY OF CINCINNATI, O., 3.65% 40-Year Gold Bonds.

Proposals are solicited for the purchase of \$3,634,000 of coupon or registered bonds in the City of Cincinnati, Ohio, to be issued to pay, under an option of redemption, the amounts respectively outstanding of the following issues of Cincinnati bonds: \$500,000, \$18,000, \$17,000, \$234,000, \$237,000, \$2,000,000, \$700,000.

The bonds will be dated February 1st, 1897, will mature at the end of forty years from their date, with interest at the rate of 3.65 per cent per annum, payable semi-annually on August 1st and February 1st, and will be \$1,000, \$500 or \$100 pieces, or registered in the sum of \$1,000 or any multiple thereof as bidders may desire. Principal and interest will be payable in New York City in gold coin of the United States of America of the present standard of weight and fineness.

All bids must be accompanied by the payment of accrued interest from February 1st, 1897, to date of delivery of bonds.

Bids must be in writing, signed by the proposer and be delivered sealed at the office of the Trustees of the Sinking Fund of the City of Cincinnati, City Hall, Cincinnati, Ohio, by or before half past two o'clock of the afternoon of Monday, March 29th, 1897.

The sealed envelope containing bids must have endorsed on the outside "Bids for Bonds."

Each bid must be accompanied by a certified check for one per cent of the par value of bonds bid for; said check must be payable to the order of "The Trustees of the Sinking Fund of the City of Cincinnati, Ohio," without condition. Bids may be drawn upon an incorporated bank or trust company located in the City of Cincinnati, Boston or New York.

Bidders are requested to read the advertisement carefully, as no bid will be considered that is not clearly expressed and does not strictly comply with all of the above conditions. The bonds are to be issued under authority of Section 2729 of the Revised Statutes of Ohio, as supplemented by Sections 2729 G, 2729 H, 2729 I, March 30th, 1846—92 Ohio Laws, page 94—and this advertisement is made in compliance with Section 2709 of said Ohio Revised Statutes—80 Ohio Laws, page 108.

Payment for and delivery of bonds may be at the Third National Bank of Cincinnati or at the American Exchange National Bank of New York. Bidders may designate; payment will be required upon delivery of bonds and such delivery of bonds will be made in installments corresponding to one or more of the outstanding amounts of the issues of bonds to be paid, and not later in any case than ten days before such issue or issues become payable to the holders thereof under the terms of the bonds therefor. The net amounts of the issues outstanding are \$195,500, \$234,000, \$237,000, \$1,999,000, \$700,000, corresponding to the amount of the bonds offered for sale under this advertisement.

The checks of unsuccessful bidders will be immediately returned to them by the Trustees through the mail, unless otherwise requested by bidders. No interest will be allowed on the check of the successful bidder, proceeds of which will be applied toward payment for bonds.

The Trustees of the Sinking Fund reserve the right to reject any or all bids, and to accept such bid or bids as may seem to them the most advantageous to the city.

By order of the Trustees of the Sinking Fund of the City of Cincinnati, Ohio, this February 23d, 1897.

Attest: LOUIS CARROLL, Clerk. JULIUS DEXTER, President.

**Albany, N. Y.**—John Boyd Thacher, Mayor. The following financial statement of the city of Albany has been corrected to January 1, 1897, by means of a special report to the CHRONICLE from James Rooney, City Chamberlain.

Albany is in Albany County. In the statement of the city's total debt only the loans under the headings "General Bonded Debt" and "Water Debt" are included.

### \$350,000

## INDIANAPOLIS PARK IMPROVEMENT BONDS OF 1897.

DEPARTMENT OF FINANCE,  
OFFICE OF THE CITY COMPTROLLER,  
INDIANAPOLIS, IND.

Sealed bids will be received by the City of Indianapolis, Indiana, until Wednesday, the 31st day of March, 1897, at 12 o'clock M. for the whole or any part of \$350,000 Indianapolis Park Improvement Bonds of 1897 of said City. Said bonds will be designated "Indianapolis Park Improvement Bonds of 1897"; will be dated April 1, 1897, and be of the denomination of \$1,000 each, with interest coupons attached; will bear interest at the rate of four (4) per cent per annum, payable semi-annually on the first day of January and first day of July of each year. The first coupon on each bond to be for three months' interest only, or from April 1st to July 1st, 1897. The principal is payable on January 1st, 1927, and both principal and interest are payable at the banking house of Winslow, Lanier & Company, New York City. Bids for the purchase of said bonds should be endorsed "Proposals for Indianapolis Park Improvement Bonds", and directed to the City Comptroller, Indianapolis, Indiana. Bidders may bid for all or any part of said bonds.

The proposals will be opened by the City Comptroller, at his office, on the 31st day of March, 1897, between the hours of 12 o'clock M. and 2 o'clock P. M., and said Comptroller will thereupon award said bonds, or, if he shall see fit, a part of any number thereof, to the highest and best bidder therefor; but said City Comptroller shall have the full right to reject any and all bids or proposals, or any part thereof, and shall have the right to accept a part of any bid, and to award upon any bid the whole or any less number of bonds covered by such bid, he being the sole judge of the sufficiency or insufficiency of any bid, excepting only that no bond shall be sold at less than par and accrued interest. He may also in his judgment and discretion award a part of said bonds to one bidder and a part to another.

Each bid shall be accompanied by a certified check upon some responsible bank of the City of Indianapolis, Indiana, payable to the order of William H. Schuch, City Treasurer, for a sum of money equal to two and one half (2½) per cent of the face or par value of the bonds bid for or proposed to be purchased. The bonds awarded will be delivered at the banking house of Winslow, Lanier & Company, in the City of New York, on the 10th day of April, 1897, and the successful bidder or bidders shall take the bonds awarded to him or them, and his or their omission, neglect or refusal so to do shall be a breach of the contract of his bid or proposal, on account of which damages shall be retained or recovered as liquidated and provided in the ordinance covering this issue.

Said bonds are offered for sale under and by virtue of General Ordinance No. 13, 1897, passed by the Common Council on the 1st day of March, 1897, and approved by the Mayor on the 4th day of March, 1897.

E. M. JOHNSON,  
City Comptroller.

### \$65,000

## FLAGSTAFF, ARIZ, 6% Water Works Bonds.

OFFICE OF TOWN CLERK.

Sealed bids will be received by the Town Clerk of the town of Flagstaff, Arizona, up to two (2) o'clock P. M. Monday, March 29th, 1897, for the purchase of sixty-five thousand (\$5,000) dollars worth of six per cent thirty (30) year bonds of \$1000 each; said bonds are dated March 1st, 1897, bearing interest from March 1st, 1897, at the rate of six (6) per cent interest, payable semi-annually, July 15th and January 15th of each year, at some bank in the City of New York, to be agreed on and designated in the face of the bonds.

First interest coupons will be due July 15th, 1897. These bonds were voted by the citizens of Flagstaff for Water Works in strict conformity with the laws of the Territory of Arizona, and according to an Act, No. 8678, passed by Congress and approved by the President of the United States, and in perfect accord with every legal requirement of the charter of the town of Flagstaff. The town reserves the right to reject any and all bids. A certified check of five (5) per cent to accompany each bid. Said bonds to be payable in lawful money of the United States of America and shall not be sold for less than their par value.

F. W. SMITH,

Clerk of the Town of Flagstaff.

## RAILROAD LOAN.

Payable by Delaware & Hudson Canal Co.:

NAME AND PURPOSE.	Rate.	Interest.	Principal.	
			When Due.	Outstand'g.
Albany & Susquehanna R.R. 6			May 1, 1897	\$250,000

**TOTAL DEBT, SINKING FUNDS, ETC.**—The subjoined statement shows Albany's total general and water debt and the sinking fund held by the city against the same on each of the dates indicated.

	Jan. 1, 1897.	Jan. 1, 1896.	Jan. 1, 1895.	Jan. 1, 1894.
General bonds.....	\$2,487,000	\$2,558,000	\$2,582,000	\$2,262,000
Water bonds.....	1,582,000	1,631,000	1,584,000	1,624,000
Total bonds.....	\$4,069,000	\$4,189,000	\$4,166,000	\$3,886,000
Sinking funds.....	1,142,000	1,077,290	907,570	997,938
Net debt.....	\$2,927,000	\$3,111,710	\$3,258,430	\$2,888,064

The sinking funds are invested mostly in the city's own bonds.

In addition to the total debt as stated above there is the railroad loan for \$250,000 issued to the Albany & Susquehanna R.R. Company and secured to the city by a first mortgage payable, principal and interest, by the Delaware & Hudson Canal Company. The street improvement bonds are payable by special assessment on property benefited, and therefore they also are omitted in the statement of the city's total debt.

**ASSESSED VALUATION.**—The city's assessed valuation and tax rate at different periods have been as follows, property being assessed at about its actual value.

## NEW LOANS.

\$12,000

### HOLDEN, MISSOURI, 5 PER CENT BONDS.

Proposals will be received until 5 o'clock P. M., March 17th, 1897, by T. J. HALSEY, Holden, Mo., for purchase of \$12,000 City of Holden 5% 5-20 Bonds. These bonds will be dated April 1st, 1897. Interest will be payable semi annually, October 1st and April 1st of each year, at the City Treasury or any bank designated by the purchaser, in St. Louis or Kansas City, Mo. These Bonds are for an Electric Light System. No bids for less than par will be considered. The City has no bonded debt. The assessed valuation is \$400,262, about two-thirds actual value. Population 3,049 in 1895.

		Population in 1880 was..... 5,477

The permanent population, according to local figures, is 22,000, in creased in summer months to 150,000.

Keene, N. H.—Francis A. Perry, Mayor. The following statement has been corrected to January 1, 1897, by means of a special report to the CHRONICLE from J. P. Wellman, City Clerk.

This is the county seat of Cheshire County.

LOANS—	When Due.	WATER BONDS—
RAILROAD AID BONDS—		5s, J&J, \$35,000.....Jan. 1, 1899
4s, J&J, \$105,000.....	July 1, 1897	4s, A&O, 5,000.....Oct. 1, 1913
(\$15,000 yearly) to July 1, 1903		4s, A&O, 40,000.....Oct. 1, 1914
4s, J&J, \$10,000.....	July 1, 1904	(\$10,000 yearly) to Oct. 1, 1917
SEWER BONDS—		3 1/2s, J&J, \$7,000.....Jan. 1, 1910
4s, J&J, \$60,000.....	July 1, 1905	3 1/2s, J&J, 30,000.....Jan. 1, 1911
(\$15,000 yearly) to July 1, 1908		(\$10,000 yearly) to Jan. 1, 1913
4s, J&J, \$10,000.....	July 1, 1909	

INTEREST on all issues is payable at the City Treasury, and on the water 4 per cents also in Boston.

TOTAL DEBT, SINKING FUNDS, ETC.—The subjoined state ment shows Keene's total municipal debt and the sinking funds held by the city against the same on the first of Jan. for four years.

	1897.	1896.	1895.	1894.
Total bonded debt.....	\$307,100	\$327,000	\$342,100	\$357,100
Cash and sinking funds.....	65,977	49,982	48,707	49,475
Net debt on January 1.....	\$241,123	\$277,018	\$293,393	\$307,625
Water debt (included above).....	\$117,000	\$127,000	\$127,000	\$127,000

CITY PROPERTY.—The city owns its water works, valued on January 1, 1897, at \$200,000, and other property to the amount of \$85,432. Water works are more than self supporting. The railroad loans were a gratuity to the Manchester & Keene RR., and are not offset by any railroad securities in the hands of the city.

ASSESSED VALUATION.—The city's assessed valuation and tax rate have been as follows:

Years.	Total Valuation.	Rate of Tax per \$1,000.	Years.	Total Valuation.	Rate of Tax per \$1,000.
1896.....	\$6,293,186	\$13.50	1890.....	\$6,117,404	\$13.00
1895.....	6,223,142	11.50	1889.....	6,096,732	12.00
1894.....	6,280,465	12.50	1888.....	6,089,996	12.00
1893.....	6,259,608	12.50	1880.....	5,757,752	.....
1892.....	6,156,366	12.50	1875.....	4,676,117	.....
1891.....	6,051,111	12.50			

In addition to the tax rate as above given there was in 1896 in the Union School District a tax of \$1.25 and in the City School District a tax of \$60 per \$1,000.

POPULATION.—In 1890 population was 7,446; in 1880 it was 6,874; in 1870 it was 5,971.

POST OFFICE BOX 958. NEW YORK.

## CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, March 20, have been \$959,544,935, against \$894,160,289 last week and \$975,863,803 the corresponding week of last year.

CLEARINGS. Returns by Telegraph.	Week Ending March 20.		
	1897.	1896.	Per Cent.
New York .....	\$459,323,957	\$487,381,550	-1.7
Boston .....	73,175,957	67,515,147	+8.4
Philadelphia .....	49,158,514	51,159,890	-3.9
Baltimore .....	11,784,204	12,038,363	-2.0
Chicago .....	62,478,084	70,541,805	-11.4
St. Louis .....	20,062,063	20,413,235	-1.7
New Orleans .....	7,375,693	8,060,007	-8.5
Seven cities, 5 days .....	\$883,368,474	\$697,109,497	-2.0
Other cities, 5 days .....	121,927,638	123,000,213	-0.9
Total all cities, 5 days .....	\$805,296,112	\$820,109,710	-1.8
All cities, 1 day .....	154,248,723	155,754,093	-1.0
Total all cities for week .....	\$959,544,935	\$975,863,803	-1.7

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, March 13, and the results for the corresponding week in 1896, 1895 and 1894 are also given. Contrasted with the preceding week, there is a decrease in the aggregate exchanges of about one hundred and thirty-two million dollars, and at New York alone the loss is eighty-two millions. In comparison with the week of 1896 the total for the whole country shows a decrease of 4.9 per cent. Compared with the week of 1895 the current returns record a decline of 4.3 per cent, but the excess over 1894 is 4.4 per cent. Outside of New York the loss from 1896 is 5.3 per cent. The decrease from 1895 reaches 4.3 per cent, and making comparison with 1894 the gain is seen to be 2.9 per cent.

### THE FINANCIAL SITUATION.

The feature of the week in financial circles has been the large withdrawals of imported goods from the bonded warehouses. We foreshadowed this movement and indicated its cause last week in this column, though we did not at all anticipate that it would assume such large proportions as it has. The affair may well be called a psychological phenomenon. A mere rumor that the tariff bill to be introduced at the extraordinary session of Congress which began Monday would be made retroactive, though officially denied, and stated by us and by others not to be lawful if attempted, obtained sufficient credence to inspire a widespread fear of its truth. On Thursday and Friday of last week the payments of duty on withdrawals at New York alone averaged each of those two days a little over five hundred thousand dollars, against an ordinary daily average of less than \$100,000. On Saturday the duties on withdrawals at this center ran up to \$1,210,697; on Monday they were \$2,178,515; on Tuesday (the tariff bill having been introduced into the House and found to contain no such clause as that feared) they fell to \$527,335, and since then have continued to decline, until now they are nearly normal again.

These facts are worth recording because, if for no other reason, they are a good illustration of the way the public repeatedly lets the bulls and the bears put it into bondage to a senseless fear, and play ducks and drakes with its money and securities. We are informed that during this frenzy the better portion of the sugar in bond and very large amounts of tobacco were withdrawn. Among fabrics the most extensive withdrawals were in woolen manufactures and linens. Some of the importers put themselves to considerable trouble and expense by transferring their goods, after paying the duties, to private warehouses. We have heard it said that this additional work was likewise done because considered necessary to escape the threatened retroactive operation of the new law. On inquiry we are inclined to believe that the object of the transfer was so as better to borrow money to pay the duties. The transfer was only made by those who could not sell their single-name paper and for the purpose of having warehouse receipts as security for a loan. No noticeable effect of these borrowings has been apparent in money, except a little greater firmness in all branches of the market as more fully explained in our remarks below on money in this article.

The meeting of Congress, President McKinley's message submitted to the same, and the introduction of the new tariff bill by Chairman Dingley, its reference to the Committee on Ways and Means, the report of the bill back to the House by the Committee, and the fixing of March 31 for the vote on the bill in the House, are all among the events of the week. Our readers will find an article we have written with reference to the tariff legislation on a subsequent page. We are informed by leading bankers who claim to be well posted on the subject that those who have the tariff bill in charge believe the legislation will be completed and the bill in the President's hands by the first of May; they further claim that from six to eight is assured.

**WILLIAM B. DAVIS** of Pine St is statement would be highly satisfactory. Tested by past experience, it is not so trifling sanguine; but the source of our reports from the

merchandise markets all show that no perceptible effect is as yet anywhere noticeable from the introduction of the tariff bill, either on prices or on the demand for goods. Purchasers' transactions still exhibit a very conservative character, and yet no doubt there is a slow but healthy progress making towards the development of more active business.

Another important feature this week has been the strength and activity of the Vanderbilt properties on the Stock Exchange, imparting tone to the whole market. The movement in these properties has been the more significant in view of the coincident weakness in a number of special stocks, the decline in which yesterday operated to give a temporary setback to the general list. No doubt the large Customs payments had somewhat of a stimulating effect on the speculation, improving as they do for the time being the position of the Government in the matter of its revenues. But the chief cause for the rise and active buying of the Vanderbilt properties must be sought in the advantage which is expected to accrue to them as the result of the refunding of their maturing high-rate bonds at a considerable saving in interest. The Lake Shore bond negotiation two weeks ago showed the importance of the saving to be effected in the case of that road, and the extensive tables we published last week brought out the fact that there are other properties where there is a like possibility of a very large reduction in the yearly fixed charges through refunding. For instance the New York Central has over 51 millions of bonds falling due the next few years (not counting the \$12,000,000 Harlem 7 per cent consols), on which the saving in interest on a 3½ per cent basis would be \$1,482,834, equal to nearly 1½ per cent on the company's stock. Reports, too, this week have indicated that negotiations to that end in the case of this company were actively under way and likely soon to be completed. Then there are other cases, like the Chicago & North Western, the Burlington & Quincy, &c. The St. Paul & Omaha Company, whose stock has been especially strong, has no high-rate bonds maturing in the near future, but here, too, there is a special reason for the rise in the fact that the company has the present year begun the payment of dividends on its common stock.

While on this subject of maturing bonds, a word or two with reference to the case of the Milwaukee & St. Paul will not be out of place. Several of our subscribers have written us pointing out that most of the bonds of this company are convertible into preferred stock. We had not overlooked that fact, but did not mention it because the purpose of our article last week was a general one, and we did not intend to deal specifically with the affairs of any one company. It is a feature, however, in the situation of the St. Paul company that must be taken into consideration in contemplating the possibility of refunding the bonds. The privilege of conversion into preferred stock is a valuable one, but no one can tell the extent to which it may be availed of. In some past instances quite considerable amounts of bonds were presented for payment when they fell due, notwithstanding that the option to take preferred stock had existed. Besides, the bonds being high-grade issues, they are held by a class of investors who, as a rule, do not care to hold stock, and if a refunding plan were proposed they might, if the terms offered were fair, be found willing to take new bonds. Altogether there are a good many doubtful elements in the case. Of

78½ PINE ST

THE WALL STREET

Gives valuable information daily on 45 a year. Dow, Jones & Co., 44

course to the extent that the bonds were converted into stock the road would save the *whole* amount of interest now paid on the bonds, but this, while strengthening the position of the company, would not count as an advantage to the common stock, since the preferred stock has a first preference of 7 per cent, which is the amount of interest that the maturing bonds now bear—except in the case of one issue of \$1,106,000, where the interest is 7.3 per cent. There is also (among the maturing bonds) an issue of \$3,674,000 bearing 8 per cent interest, but these have no option of exchange.

It is interesting to note, as one of the signs of the times, that the people of the West and South are in many instances furnishing evidence that they are possessed of a much greater amount of conservatism and shrewd common sense than they are given credit for. It is undeniable that some very radical measures are proposed from time to time, and that less often than could be wished these fail of rejection. But by no means all such propositions escape condemnation. Usually when a bad law is proposed, great prominence to the matter is given in the press through telegraphic dispatches sent to the papers here in the East which print the news in a conspicuous way. The fact that the measure has failed of approval, however, is not always chronicled. The latter part of February a dispatch from Guthrie, Oklahoma Territory, announced that a law making non-collectible and void all contracts payable in gold had passed both houses of the Territorial Legislature. But it seems that the bill, nevertheless, failed to become a law, the Governor having interposed his veto. In our State and City Department to-day we print the reasons which the Governor gave for returning the bill without his approval. He shows that the United States Supreme Court could not be expected to sustain an enactment of that kind, and furthermore that the matter is outside the jurisdiction of the Territory in any event, since the Legislative Assembly does not possess the power to legislate on the subject. Hence, he says, "the only effect of such an amendment would be to frighten timid capital, and to injure the credit of the Territory abroad without producing any benefit at home." Mr. M. L. Turner, the Territorial Treasurer, in forwarding us the Governor's remarks, takes particular pains to say: "We have no vicious or populist laws; no disposition on the part of our people to have them."

In the South, too, there are evidences that the people are beginning to appreciate the importance of a sound monetary standard in their daily affairs. They are learning that the investor will not loan his money out unless he can feel sure of repayment in the same standard of value. Lee County, Alabama, last week disposed of \$25,000 bonds and made them payable in gold. The Montgomery "Advertiser," in reporting the transaction, says there was "considerable joking at the expense of the good-natured Judge of Probate, who is a red-hot silver disciple, because he voluntarily had 'gold bonds' issued." Our contemporary adds: "The judge, in explanation of his action, says that silver does very well for politics, but when it comes to business he must look out for the best interests of the county. The public-spirited gentleman who had the private deal with the judge is himself a silver man, but states that the bonds could not have been sold if they had not been made payable in

gold." This last fact is the all-important one for the Southern and Western people to recognize. Let them once understand that a stable monetary standard is the first requirement of the situation, and a new era of prosperity will open up to them.

While the tone of all branches of the money market has been firmer this week there is but little change in rates. Money on call, representing bankers' balances, has loaned at  $1\frac{1}{2}$  and at 2 per cent at the Stock Exchange with the largest transactions at the first-named rate and at  $1\frac{1}{2}$ , averaging about  $1\frac{3}{8}$ . Banks loan over the counter at 2, while the trust companies conform to the ruling Stock Exchange rate. The market for time contracts is firm at 2 per cent for thirty days;  $2\frac{1}{2}$  per cent for sixty days; 3 per cent for ninety days to four months;  $3\frac{1}{2}$  per cent for five to seven, and 4 per cent for eight to nine months on good Stock Exchange collateral. The inquiry was somewhat urgent early in the week in connection with the withdrawal of goods from the bonded warehouses, but after the middle of the week the demand became normal. The commercial paper market is well supplied with acceptable names and a good business has been done in tobacco paper by those banks familiar with this trade, but the bulk of these transactions has been by trust companies who have also bought paper secured by warehouse receipts on imported goods as collateral. Much of the borrowing has been done at  $4@4\frac{1}{2}$  per cent for five to eight months. Quotations for commercial paper are  $3\frac{1}{2}$  per cent for sixty to ninety-day endorsed bills receivable,  $3\frac{1}{2}@4$  for first-class and  $4@5$  for good four to six months' single names.

There continues to be greater or less political tension over the Crete affair in Europe, which has some influence upon the markets for securities, though comparatively little upon discounts. The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety day bank bills in London  $1\frac{3}{8}$  per cent. The open market rate at Paris is  $1\frac{1}{2}$  per cent and at Berlin and Frankfurt it is  $3@3\frac{1}{4}$  per cent. According to our special cable from London, the Bank of England gained £282,491 bullion during the week, and held £39,680,545 at the close of the week. Our correspondent further advises us that the gain was due to the import of £263,000 from Australia and to the receipt of \$19,000 *net* from the interior of Great Britain.

The foreign exchange market has been dull this week, and some bankers report it almost stagnant. Though nominal rates show some change there was none in those for actual business. Commercial bills against grain are held at such high figures that few bankers care to buy them, and the cotton season seems to be substantially over, for the agents of foreign houses are closing up their accounts preparatory to a rest until the next season opens. The low discounts in London and the comparatively high rates for money here seem effectually to stop all further transactions in long sterling for investment, but still sixty-day bills are firmly held. The maturing sterling which comes upon the market is absorbed by the demand for remittance, the run-off bills being exchanged for short, delivered on options recently sold, and the maturing bills are then canceled. As often as the tone for demand sterling grows easier under the influence of offerings of maturing bills, the pressure is relaxed and the tone becomes steadier again. Since February 18 when rates for actual business in sixty day sterling were  $4\ 85@4\ 85\frac{1}{2}$ , the market for

these bills has been firm, advancing to 4 85½@4 85¾ on March 8 and there remaining. In the interval of more than a month since February 13 actual rates for sight sterling and cable transfers have moved upward one quarter of a cent and reacted the same fraction, and they now stand unchanged compared with the figures on the above-named date. This remarkable steadiness is very largely due to the fact that the market is in an abnormal condition resulting from the operations in long sterling for investment which began in November and continued to a greater or less extent until last week. The range for nominal rates on Monday was unchanged, compared with Friday of last week, at 4 86@4 86½ for sixty-day and 4 88@4 88½ for sight, but a reduction in the short rate by the Bank of British North America left only one of the drawers quoting 4 88½ for sight. There was a change on Tuesday by the Merchants' Bank of Canada, which reduced the short rate half a cent, making the range 4 86@4 86½ for sixty-day and 4 87½@4 88½ for sight, and there was no further change thereafter. Rates for actual business have remained entirely unaltered throughout the week at 4 85½@4 85¾ for long, 4 87@4 87½ for short and 4 87½@4 87¾ for cable transfers. The following table show the daily posted rates for exchange by some of the leading drawers.

of Canada.....	60 days. 85½	85½	85½	85½	85½	85½

The market closed firm on Friday at 4 86@4 86½ for sixty day and 4 87½@4 88½ for sight. Rates for actual business were 4 85½@4 85¾ for long, 4 87@4 87½ for short and 4 87½@4 87¾ for cable transfers. Prime commercial bills were 4 84½@4 85 and documentary 4 84½@4 84½. The Bureau of Statistics at Washington has this week issued the statement of the country's foreign trade for February, and we give the figures below in our usual form.

## FOREIGN TRADE MOVEMENT OF THE UNITED STATES.

## TARIFF LEGISLATION AND CURRENCY REFORM.

We are not inclined to take issue with the Administration over the question raised by the early introduction of a protective tariff bill. Protective duties are what we consider the independent voter consented to when he helped elect Mr. McKinley as President. There would have been nothing especially noteworthy in his action if it had not been for the sacrifice thereby made in behalf of sound money. On the financial question the President's party had pronounced for gold money and the other party for silver money. That presented a definite issue of deeper importance than any kind of a tariff measure could raise. For the country can prosper for a time under almost any degree of protection; but the overwhelming catastrophe with which the possibility of free silver threatened our industries and nearly all forms of invested capital was so frightful a contingency that very few men of enough education to understand the danger dared to do otherwise than work and vote as they did.

But it is claimed by many that the vote last November was certainly first of all for sound money, with the tariff as a secondary issue, and we are not only

getting the tariff first without the accompaniment of sound money but no movement at all is being made towards currency reform. That thought is not without plausibility and force, and yet there is something to be said in favor of the order of work which has been undertaken. Mr. McKinley's party at its nominating convention declared first of all for higher duties, and nominated a man best representing that idea; next and following that it declared unequivocally for gold money. We would like very much to have had the order reversed, and we hoped when the Administration forces came down to practical legislative business it might be done. Yet we are aware that the large majority of the Republicans (the portion of the party which cast by far the most votes for Mr. McKinley) claim and believe that there is no prosperity possible without higher duties and more protection. Just now too there is another condition which, it is quite generally urged, likewise favors the conclusion that tariff legislation should be first considered, and that is the Government deficit, which by the way has been growing larger instead of smaller. It is consequently contended with obvious reason that additional revenue is a matter which cannot be delayed. To be sure revenue might be obtained in a more simple and different way, but it would be without protection. If the Republicans are to adhere to and carry out their proposed policy of securing higher duties, protection no doubt must be gained as now planned, that is concurrently with supplying additional income and correcting the deficit.

Very many who voted for the President would have found much less to criticise in the proposed measure had it not been for the character of the wool and woolen schedules. We think that those changes are extreme, and as we view the situation unwise. In our opinion they will harm both the wool and the woolen industry, and will put more votes in the opposition than all the other schedules together. At the same time, it is to be said, even with reference to those features of the bill, it could hardly have been expected that there would be no duty on wool, and if foreign wool was dutiable it must likewise be admitted that it would become necessary to adjust woollens to the change. We cannot consequently see how a tariff for protection could have been framed without taking wool off the free list; if that were not done as a part of such a measure, Ohio, not to mention other States carried by Mr. McKinley, would have reason to consider that it had been discriminated against. Be that as it may, it seems not unlikely that these features of the bill before the law is passed will be altered; we think the chances are that the duty on wool may be lowered materially. The majority in the Senate will at best be small, and a combination may be required which will force a compromise on that article; or it may be that as the discussion progresses such high rates on a raw material of such wide and general use may be made to appear impolitic to the majority of our legislators, as it most certainly is distasteful to a majority of the people at this centre and in this neighborhood.

Less income from the wool schedule would not be missed if Mr. Dingley's estimate is reliable, and if we measure rightly the wants of the Treasury. That is to say, the higher duties now proposed, accepting Mr. Dingley as a guide, would seem to promise a larger revenue than is desirable. An excessive surplus is a dangerous temptation to Congressional extravagance. Taking the experience of the last eight years, the conclusion is a safe one that a state of the revenue which

would induce economy is very desirable and would be a wholesome situation. No doubt this country can under ordinary circumstances endure greater waste than almost any other in the world without apparent suffering. But when our industries are at a standstill, when prices of all products are very low, when individual incomes are greatly reduced and consumption restricted, it would obviously be a helpful and wise policy to keep appropriations at the lowest figures consistent with a proper regard to the needs of the Government.

Mr. Dingley says that the bill he has prepared will produce \$112,000,000 more revenue than the Customs duties yielded in 1896. This estimate, he states, is made on the imports of that year, when the imports reached \$776,724,674, and we assume it to apply to the second year of the operation of the new law. The Customs income in 1896 was \$160,534,351; consequently the total yield of the duties under this proposed tariff, if the imports remained as they were in that twelve months, would aggregate \$272,534,351, or over 35 per cent of the total imports. The significant fact with reference to this aggregate is that it indicates a larger Customs revenue than the Treasury has ever received within the history of the Government. The year of greatest productiveness was 1890, when the receipts from Customs were \$229,668,584. We, however, get a more correct idea of the extent of the revenue the duties under the proposed bill would be likely to produce in an active business year if we reckon the yield on the imports of a recent year when the movement was more nearly normal than in 1896. For instance, during the fiscal year of 1893 the imports reached \$866,400,922. If we use these figures as a basis for an estimate of the probable productiveness of the new tariff measure—taking, of course, the same percentage (35 per cent) as that reached above with reference to Mr. Dingley's estimate on the 1896 imports—the proposed duties would be found to have yielded an income of \$303,240,322.70. We see, therefore, that there is a fair promise of obtaining—say the second year of the operation of the proposed tariff bill should it go into effect as it stands to-day—about 142½ million dollars more revenue than was received from customs duties in 1896.

But all these matters relate to the tariff legislation which the members of the President's party in the Senate and House will in the main settle among themselves. They are responsible for the character of the legislation, and, as we understand, are certain of a majority in the Senate as well as in the House, and will reap the consequences whether favorable or unfavorable. With reference to the other part of the contract relating to the currency, there is no reason up to this time why any one should question the President's determination to live up to it and to use his best endeavor to obtain the reforms needed. Indeed, as we have often said, he has in the appointment of the present Secretary of the Treasury given the country a guaranty which, for the time being, every one ought to be satisfied with, of an unquestionable purpose to right our currency defects so far as it lies in his power to do so. That the tariff question is to be settled first is for one reason at least a favorable fact. Many think it will cure business depression. No doubt an income that corrects the deficit will strengthen the Treasury and to an important extent help to defend its gold reserve. But the cycle of activity will prove a short one unless currency reform follows.

## EARLY SESSIONS OF CONGRESS.

We think it quite within the fact to say that this week's convocation of Congress in a spring session has met with very wide approval. There was, to be sure, some special reason for an early session during the present year. The revenue had shown itself to be wholly inadequate to meet current expenditures. The Government's January deficit (according to the figures in President McKinley's message to Congress on Monday) had reached to \$5,952,395; in February it was \$4,395,059. Longer continuance of such a drain would have brought the Treasury eventually into a position where the apprehensions of 1893 and 1894 might be again excited.

This situation made the extra session in any case inevitable. But public approval of this meeting of Congress promptly upon the inauguration of the new administration is not, in our opinion, wholly based on the feeling that such a session is an exceptional necessity. We believe that the business community, though not over-disposed to welcome any session of Congress, is relieved to know that the expected change in legislative policy is to be promptly discussed, enacted and put into operation. People may approve the action of the session or they may not. Every one recognizes, however, that certain changes in fiscal legislation are to be made; to postpone debate and vote until the following December would be, therefore, only to prolong uncertainty and discontent. No class of prospective legislation causes by such postponement more loss and trouble than legislation on the import duties. With an altered policy in this direction clearly foreshadowed, but with the actual character of the changes left in uncertainty for a year or more, all business operations—the making of contracts, fixing of price schedules, accumulation of stocks through importation or domestic manufacture—all these must be in a considerable degree suspended. Industry is forced into either confusion or stagnation. This country's trade has had enough experience of the kind since the close of 1888 to lend the strongest emphasis to approval of the pending early session.

Nor is the preference of business interests the only reason why Congress and the President ought logically to enter at once upon their separate duties. The system of Congressional sessions, as we are accustomed in this country to apply it, is full of obvious anomalies. The new Congress is chosen during the first or second week of November; so far as concerns the political platforms and promised public policies, the results of this election are universally accepted as the expression of the people's will. At times this voice finds so emphatic expression at the polls as to amount to a political revolution. Yet if the ordinary rule be followed the newly-elected legislators will not convene even for the selection of officers and committees until December of the ensuing year. Thirteen months must elapse before the new Congress is even organized; it then habitually postpones important work until some time after the Christmas holidays, when the new committees will have had opportunity to arrange their work. Debate on an important measure in the two houses of Congress will then frequently occupy two months or more before the bill can reach a final vote.

In other words, it is not only possible, but probable, when the people have voted distinctly in November for a given law or policy, that they must wait nearly two years before they find the measure on the statute

books. That this statement is no exaggeration, recent experience is sufficient witness. The election of November 1892 was unmistakably a vote for a lower tariff. The bill constructed in response to this demand was introduced in December 1893, and finally enacted only in August 1894—one year and nine months after the people's vote. The tariff act of the preceding administration, purporting to respond to the vote of November 1888, did not pass into law until September 1890. So it has been with a dozen other statutes of recent administrations.

From such a policy there are several obvious results. One, and the most important, is that no measure thus enacted has a chance of fair and reasonable test in friendly hands. In the case of the two measures to which we have referred, the Republicans still assert that the McKinley bill had no sufficient trial before the Presidential vote of 1892; the Democrats have made similar complaint regarding the Wilson bill. Neither complaint is wholly unreasonable; both have their basis in our methods of belated legislation. Embarrassments of the present plan are emphasized by the probability that if the law works awkwardly in its first few months of trial—something quite likely to occur even with the best of laws—or if other circumstances so combine as to make the public mind dissatisfied with any half-tried policy, the party in power will be unseated at the intermediate Congressional elections. Another year must then elapse, during which period the Executive is conscious of the popular vote against its own particular policies without even knowing what the new Congress will be disposed to do. Such periods of interregnum occurred from precisely such a cause between November 1890 and December 1891; between November 1894 and December 1895. Their ill effects will be readily recalled. It is possible in fact that public opinion may have radically changed even between the election of a Congress and its convocation. Not infrequently it has happened that the opposition party has reversed majorities in State elections before the Congress chosen in the preceding year has even organized. This certainly happened in 1893; it happened in 1877; and the results were obviously embarrassing. For knowledge of such a change in public sentiment is a serious handicap to the initial work of legislation; it is bound at least to provide encouragement to factious opposition.

It is our opinion that the public interest is undoubtedly subserved when Congress, after a plain and unmistakable vote of the people on a public question, convenes immediately upon the President's inauguration. At least one year will then intervene before the people are summoned to pass judgment on the session's most important laws, and this will afford fair opportunity for judgment. We certainly regard it for the public advantage that the pending extra session should consider, not alone the tariff bill, but the question of currency reform. It would equally have helped the cause of rational government if the extra session of 1893 had taken in hand, not only the repeal of the Silver-Purchase Act, but the tariff reduction law. The delay of tariff legislation then had unquestionably bad results, both financial and political; the consequences of delay in currency legislation now might be even worse. No other national legislatures imitate our curious plan. The general elections in Great Britain in 1895 were held during July; Parliament met in August and went to work at once. The new Parliament with which Mr. Gladstone,

in 1892, returned to office, began the work of legislation within a month of the general elections. With France a similar practice prevails; in both governments the rule has been found to work satisfactorily. It has at least the merit of being reasonable, which our own system is not.

No doubt the answer will be made that the present practice of Congress regarding time of sessions is embodied in our Constitution, where it was placed for presumably good and sufficient reasons, and whence it cannot be dislodged without a Constitutional Amendment. This is a very familiar argument. Some of our readers may therefore be surprised to learn that the Constitution nowhere stipulates finally for a December session, that our present system is wholly the result of accident, and that a March session of Congress was regularly held, without a special summons by the President, during six years of comparatively recent history.

The Convention which drew up our Federal Constitution did, it is true, provide that in default of a different arrangement, subsequently to be made by Congress, a session should be annually convoked during December. It must, however, be remembered that when this provision was adopted in 1787, the question of the beginning of the term, not only of Congress, but of the President, was entirely in doubt. Any one who will take the trouble to read the Constitution of the United States, without the amendments adopted subsequently, will make the curious discovery that no date is fixed, either for the beginning of the government or for the annual change in the Executive or Legislative branch. The single definite provision for a date occurs in the fourth section of article first of the Constitution, where it is stipulated that "the Congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day."

This clause, according to Justice Story's "Commentaries," "for the first time made its appearance in the revised draft of the Constitution near the close of the Convention; and was silently adopted, and, so far as can be perceived, without opposition." But the purpose of the provision, as it presented itself to the minds of the Convention, is plain enough. It was believed, in the light of previous experience, that annual sessions of Congress were indispensable to protect the people from Executive aggression. For such an annual meeting the organic law therefore provided, and by way of added certainty it fixed upon an arbitrary date, leaving that date, however, wholly subject to the will of future legislators. The fixing of the fourth of March for the President's inauguration was a matter of simple chance. Before the close of 1788 the old Congress of the Confederation had received enough assents of States to the Constitution to make its preparations for the change in government. It fixed accordingly on the first Wednesday in January for the choice of Presidential electors, on the first Wednesday in February for the meeting of electors, and on the first Wednesday in March for the inauguration day. This date happened to fall in 1789 on the 4th of March, and although the first inauguration was delayed beyond that date, the President constructively entered office at the appointed time. By this decision inauguration day was forever settled. For when one administration had assumed its office on the 4th of March it then at once fell subject to the Constitutional

provision that the President "shall hold his office for the term of four years." The Constitutional amendment expressly stipulating March 4th as inauguration day was not approved until 1804.

In other words, provision for a December session of the Congress was tentative and preliminary only, and the March date for change of administrations was a matter of accident. By precisely the same chance the opening sessions of the first United States Congress fell, like the pending session, in the spring. The December date was necessarily ignored because the President could not be sworn in until Congress should have counted the electoral votes and officially announced who had been chosen, and Congress could not do this except in formal session. Thus singularly did it result that although the December date was tentatively fixed by the Constitution, the precedent of the first Congress was for a regular session beginning with the inauguration of the President.

Succeeding Congresses did not convene until December. Up to the close of the Civil War only eight sessions had been called in the early months. In 1866 a bill was introduced providing for regular sessions to begin on the 4th of March. This plan was formally adopted at the opening of 1867, and it governed the meetings of three successive Congresses. Oddly enough almost the only argument then advanced in favor of the change was the danger of allowing nine months to elapse with no organized Federal legislature in existence. Against the plan was urged only the added expenso for mileage paid to Congressmen. Whether this motive of economy was the actual guiding influence, or whether the Congressmen found three sessions too much for their personal convenience, the law of 1867 was repealed after six years of trial, and thenceforward, up to the present day, early sessions were held only on call of the Executive.

Our present system, it will thus appear, has nothing but habit to justify it, and not even precedent is uniform. Spring sessions might be to-day established as a regular institution by simple vote of Congress. We referred last week to the action of the State constitutions in conferring, through a wise instinct directed by experience, the executive power of discriminating veto on appropriations. The practice of the States is equally interesting in this matter of legislative sessions. In nearly all the States the governor and legislature are elected at the same time of the year as that in which the Federal President and Congressmen are chosen. If anything is gained by a long postponement of the Federal legislative session, the same advantage would arise from a similar practice in the States. If there is any danger or inconvenience in a meeting of Congress simultaneous with the President's inauguration, the same obstacle would exist to a convocation of State legislatures on the State executive inauguration day. Yet of the forty-five States there are at present thirty-nine which by law convene their legislatures at the opening of January, almost immediately after the newly-elected Governor has taken office, and barely two months after the election. No disadvantage or inconvenience has in any case arisen as a result of such a practice; the precedent is recognized as wise and satisfactory. We are confident that the results of a similar experiment with Congress would be equally favorable.

### COMPENSATORY TOLLS—HOW FAR MAY A LEGISLATURE REDUCE RATES.

One of our subscribers has sent us a clipping from a legal periodical commenting upon a recent decision of the United States Supreme Court [*Covington & Lexington Turnpike Road Co., et al., v. Sandford et al.*], in which the point at issue was the right of the legislature to reduce the rates of tolls charged by a turnpike company, with the effect of preventing the company from earning dividends on its stock. The writer of the article after noting that fixing rates so low that they would not be remunerative is regarded as a taking of property without due process of law and therefore unconstitutional, goes on to say that the question what rates will be considered unreasonable and unjust or unremunerative has not been very definitely answered yet by the U. S. Supreme Court. He points out, however, that the decisions and discussions plainly show a disposition to interfere and condemn legislative rates only when it is clear that their enforcement amounts to a destruction of the value of the property. As bearing on that contention reference is made to a decision in a case which came up in the Circuit Court several years ago, where it was held that rates fixed by legislative authority which will give some compensation, however small, to the owners of railroad property, can not be held by the courts to be insufficient. While the U. S. Supreme Court has not yet had occasion to decide whether this proposition is altogether correct, says the writer, it has decided nothing inconsistent therewith. Then the article adds: "This rule leaves large power to the legislature. It would sanction statutes which cut down railroad dividends to a mere pittance."

This latter view our correspondent is not prepared to accept. He points out that all roads have been constructed with legislative sanction—that is, either under a special charter or under a general law. Besides this the State legislatures have generally established rates at which money may be loaned. Hence, he argues that when a State reduces the rates to such a point that the railroad company cannot earn at least legal interest upon the actual cost (not the fictitious capitalization) of the road, the result is confiscation, and the act will be held to be unconstitutional and void by the Federal if not by the State courts. He well says that it would be unjust to reduce rates even so far, since no one will put his money into any business with the idea of making no more than the legal interest. Moreover, as the risks of railroad building are greater than those of ordinary business, and railroads being a public necessity, justice requires that a much wider margin of profit should be allowed. At any rate to the extent first indicated every moral and every legal obligation, our correspondent contends, requires that the railroads should be protected.

We do not think there can be any doubt as to what the decision of the Supreme Court will be when it is actually called upon to pass on a question of that kind. We remember very distinctly how, some years ago, fears were expressed lest the Court might refuse to interfere at all with legislative attempts to impose unjust and unremunerative rates, on the ground that the fixing of rates was a legislative and not a judicial function. But in the Minnesota milk cases the Court took a broad stand in defense of property rights, holding that the question of the reasonableness of a rate of charge for transportation by a railroad company is a

question for judicial investigation, requiring due process of law for its determination. If, said the Court, the company is deprived of the power of charging reasonable rates for the use of its property, and such deprivation takes place in the absence of an investigation by judicial machinery, it is deprived of the lawful use of its property, and thus, in substance and effect, of the property itself.

In like manner, if the question as to the rate of return to which shareholders in railroad companies may be entitled should come up, the Court would, there is every reason to think, see that substantial justice was done and such protection accorded the roads as it lay within its power to grant. The Court has repeatedly held that the capital invested in railroads is entitled to compensation or reward, and that rates when fixed by legislative enactment must be just and reasonable to the roads and the public alike; obviously they are not just and reasonable to the roads (other things being the same) if they allow only "a mere pittance" to the stockholders of the roads. Of course, what the rate of return shall be in any given case must depend on the circumstances of the case. Most assuredly, however, a mere pittance would not answer the requirements.

But as it happens, the present Turnpike case itself affords a pretty clear indication of the views and probable action of the Court in a contingency such as that suggested. The case involved some collateral points, aside from the issue as to rates, but we shall not touch upon these, confining ourselves entirely to the rate question. The Turnpike Company had refused to accept the schedule of tolls which the General Assembly of Kentucky by act approved May 24, 1890, had prescribed for the company, and thereupon suit was brought to restrain it from exacting tolls in excess of those fixed by that act. A temporary injunction, in accordance with the prayer of the petitioner, was granted, and later the Court by final order made the injunction perpetual. After this judgment had been affirmed by the Kentucky Court of Appeals, the case was carried on appeal to the United States Supreme Court. In its answer the company alleged that the 1890 Act attempts to reduce the tolls on its road about 50 per cent and that if the same were adopted the income of the company from tolls would not be more than \$8,000 per annum (where under the old rates of toll it had averaged about \$16,000), and therefore only sufficient to enable it to pay the ordinary expenses of operating the road. Nothing would be left with which to meet certain extraordinary expenses, which, as the answer showed, it was absolutely necessary should be made, and there would be no income out of which dividends could be paid to stockholders upon the money which they had invested in the stock of the road. Hence it was contended that to permit the proposed schedule of tolls to be enforced would be to destroy the value of the property of the company and the value of the shares of stock held by the stockholders, and destroy entirely the dividend-earning capacity of the company.

Reviewing these facts, the Court, speaking by Justice Harlan, says: "We have, then, the case of a corporation invested by its charter with authority to construct and maintain a turnpike road, and to collect tolls 'agreeable' to certain named rates, and which is required by a subsequent legislative enactment to conform to a tariff of rates that is unjust and unreasonable, and which also prevents it, out of its receipts,

from maintaining its road in proper condition for public use, or from earning any dividends whatever for stockholders." Is such legislation forbidden by the clause of the Constitution of the United States declaring that no State shall deprive any person of property without due process of law? Answering its own question, the Court says: "We are of opinion that taking, as we must do, the allegations of the answer to be true, this question must be answered in the affirmative."

The Court declares it is now settled that corporations are persons within the meaning of the Constitutional provisions forbidding the deprivation of property without due process of law, as well as a denial of the equal protection of the laws. Citations are given from previous decisions to show the view the Court has always held regarding the limitations upon the powers of the States in regulating rates. Justice Harlan quotes from the Railroad Commission cases where Chief Justice Waite, while saying that a State has power to limit the amount of charges by railroad companies for the transportation of persons and property within its own jurisdiction, unless restrained by some contract in the charter, or unless what is done amounts to a regulation of foreign or inter-State commerce, takes care to announce that "it is not to be inferred that this power of limitation or regulation is itself without limit. This power to regulate is not a power to destroy, and limitation is not the equivalent of confiscation. Under the pretense of regulating fares and freights, the State cannot require a railroad to carry persons and property without reward." Again, in the case of the Texas Railroad Commission, the Court declared it to be the power and duty of the courts "to inquire whether a body of rates prescribed by a legislature or a commission is unjust and unreasonable, and such as to work a practical destruction to rights of property, and, if so found to be, to restrain its operation." It was added furthermore in that case that "while it is not the province of the courts to enter upon the merely administrative duty of framing a tariff of rates for carriage, it is within the scope of judicial power, and a part of judicial duty, to restrain anything which, in the form of a regulation of rates, operates to deny to the owners of property invested in the business of transportation that equal protection which is the Constitutional right of all owners of other property."

These are all cases relating to the power of the legislature over rates to be collected by railroad corporations. But the principles announced in them, the Court declares, are equally applicable, in like circumstances, to corporations engaged under legislative authority in maintaining turnpike roads for the use of which tolls are exacted.

From what has been said it will be seen that in this Turnpike case the Court has simply reaffirmed with added emphasis the doctrines and rules laid down by it in previous decisions. The portion of the opinion, however, which attracts especial attention is that where the Court deals directly with the question of the rate of return to be allowed to those having ownership in the properties. We quote this part of the remarks in full. We do not remember ever having seen that phase of the question discussed so fully or with so much precision. As will be seen, the Court treats the matter on broad general grounds. Here is what it says:

"It cannot be said that a corporation operating a public highway is entitled as of right, and without reference to the interests of the public, to realize a given per cent upon its capital stock. When the question arises whether the legislature has exceeded its Constitutional power in prescribing rates to be charged by a corporation controlling a public highway, stockholders are not the only persons whose rights or interests are to be considered. The rights of the public are not to be ignored. It is alleged here that the rates prescribed are unreasonable and unjust to the company and its stockholders. But that involves an inquiry as to what is reasonable and just for the public. If the establishing of new lines of transportation should cause a diminution in the number of those who need to use a turnpike road, and consequently a diminution in the tolls collected, that is not, in itself, a sufficient reason why the corporation operating the road should be allowed to maintain rates that would be unjust to those who must or do use its property. The public cannot properly be subjected to unreasonable rates in order simply that stockholders may earn dividends. The legislature has the authority in every case where its power has not been restrained by contract to proceed upon the ground that the public may not rightfully be required to submit to unreasonable exactions for the use of a public highway established and maintained under legislative authority. If a corporation cannot maintain such a highway and earn dividends for stockholders, it is a misfortune for it and them, which the Constitution does not require to be remedied by imposing unjust burdens upon the public. So that the right of the public to use the plaintiffs' turnpike upon payment of such tolls as in view of the nature and value of the service rendered by the company are reasonable, is an element in the general inquiry whether the rates established by law are unjust and unreasonable. That inquiry also involves other considerations—such, for instance, as the reasonable cost of maintaining the road in good condition for public use and the amount that may have been really and necessarily invested in the enterprise. In short, each case must depend upon its special facts; and when a court, without assuming itself to prescribe rates, is required to determine whether the rates prescribed by the legislature for a corporation controlling a public highway are, as an entirety, so unjust as to destroy the value of its property for all the purposes for which it was acquired, its duty is to take into consideration the interests both of the public and of the owner of the property, together with all other circumstances that are fairly to be considered in determining whether the legislature has, under the guise of regulating rates, exceeded its Constitutional authority and practically deprived the owner of property without due process of law. What those other circumstances may be it is not necessary now to decide. That can be best done after the parties have made their proofs."

We think the foregoing is sufficiently indicative of the views of the Court as to what would be a proper rate of return to stockholders upon their investment. No definite rule can be laid down. It all depends upon the circumstances of the case. Rates will not be declared unreasonable and unjust merely because they do not yield a given per cent on the stock. Other factors may enter into the matter. It is possible that in some instances rates yielding a "mere pittance" would be sustained, but if so it would be only because of some exceptional facts or circumstances connected with the particular case under review. Legislatures can not, as a settled rule of policy, undertake to reduce rates so low as to yield only "a pittance" and hope to escape judicial condemnation of their acts. For, as we see, the Court has distinctly declared that the "power to regulate is not a power to destroy, and limitation is not the equivalent of confiscation," and also that it is "a part of judicial duty to restrain anything which in the form of a regulation of rates operates to deny to the owners of property invested in the business of transportation that equal protection which is the Constitutional right of all owners of other property." On the same point, too, the further statement from the case of the Texas Railroad Commission might also be cited, namely that "justice demands that every one should receive some compensation for the use of his money or property if it be possible without prejudice to the rights of others." The closing clause here defines clearly the limits within which the rule laid down must be applied. Compensatory rates

will be insisted on if that be possible "without prejudice to the rights of others." Such a rule affords no warrant for the wholesale marking down of rates to an unremunerative or an inadequately remunerative basis. The legislature cannot "under the guise of regulating rates" exceed "its Constitutional authority and practically" deprive "the owner of property without due process of law."

### THE MEXICAN NATIONAL REPORT.

We have frequently had occasion to refer to the great growth which has occurred in recent years in the revenues of the leading Mexican roads. The Mexican National in its returns furnishes a striking illustration of this growth. The annual report of the company is just being printed and we have been favored with an early copy of the same. Taking the records for the last few years, it is really surprising to see how steadily and largely the earnings have been added to. Here are the figures of gross and net for 1889 and each year since then.

	Gross Earnings.	Net Earnings
1889.....	\$3,660,124	\$666,692
1890.....	3,754,466	827,004
1891.....	4,206,423	1,159,021
1892.....	4,756,030	1,700,613
1893.....	4,224,804	1,638,438
1894.....	4,329,078	1,891,962
1895.....	4,513,205	2,071,408
1896.....	5,299,025	2,525,958

Thus gross earnings have risen since 1889 from \$3,660,124 to \$5,299,025, and the net earnings from \$666,692 to \$2,525,958. In the first case the increase has been nearly 50 per cent, in the second case it has been about 233 per cent. In other words the net now is almost four times what it was in 1889. This last statement discloses a feature in the Mexican National affairs peculiar to itself. With the growth in traffic there has been a coincident saving in expenses. In fact it cost less to operate the road in 1896 with gross earnings of \$5,299,025 than it did in 1889 when gross was only \$3,660,124—that is to say, expenses were \$2,773,067 in 1896 against \$2,993,432 in 1889. The economy effected may be indicated by saying that in 1889 it took 81.78 cents to earn a dollar; in 1896 it took only 52.33 cents. In the earlier period, while it was felt that the operating cost was high, hardly any one dared to hope for such a great reduction as has actually been achieved.

When one comes to inquire as to the advantage that has resulted to the company from this gain in net revenues, one is reminded of the fact that there is a drawback in the affairs of the Mexican roads which does not exist in the case of railroads in the United States. The revenues of the Mexican roads are in silver, and before they can be made available they must first be converted into gold. But, as we all know, the price of silver has steadily declined, so that a given amount in silver has yielded a constantly decreasing amount in gold.

Few persons have any idea of the extent of the loss which the Mexican roads sustain annually in converting Mexican dollars into gold. Every one understands of course that the Mexican dollar now is not worth a dollar at all, but less than 50 cents in gold; not many of us, however, appreciate what a large sum the depreciation represents when applied to the entire net earnings of a company like the Mexican National. With net in Mexican currency of \$2,525,958, the report gives the equivalent in gold at \$2,020,766, showing a shrinkage through conversion of \$505,192.

But this is only part of the loss sustained. It represents merely the depreciation on the basis of an assumed currency value for the Mexican dollar of 80 cents. This was the basis determined on some years ago when the dollar approximately had that value, and as a matter of convenience in book-keeping the company converts all Mexican dollars into American money on this assumed basis of 80 cents. All depreciation beyond that is charged separately as a loss from "exchange". In the late year this item of exchange reached the sum of \$991,760. Adding that to the \$505,192 above we have a total loss resulting from the depreciation in the value of silver of \$1,496,952 expressed in Mexican currency. How this loss has been growing year by year under the decline in the price of silver and the increased amount of earnings to convert is indicated in the following.

#### LOSS FROM CONVERTING SILVER REVENUES INTO GOLD.

In 1889.....	\$159,227
In 1890.....	147,063
In 1891.....	296,549
In 1892.....	650,900
In 1893.....	870,489
In 1894.....	1,263,542
In 1895.....	1,275,963
In 1896.....	1,496,952

The table first above given reflects the efforts of the management through economies and savings to add to the revenues of the road. This second table shows the extent to which such additions to the net revenues were offset by the augmenting losses from the depreciation of silver. In 1889 the shrinkage through conversion was only \$159,227 and in 1890 but \$147,063—in 1896 the amount was \$1,496,952. And this item of depreciation must always be an element in the affairs of the Mexican roads. Everything depends upon the price of silver. As far as the extension and development of their traffic is concerned, the future of the Mexican roads is bright. But the extent to which the fluctuations in silver may affect the results, no one can venture to predict. It was supposed a year ago that the decline in the price of silver had reached its limit. But the metal has a way of taking a plunge when least expected, and now the price seems again to be tending downward. Nothing could illustrate more clearly the evils of a fluctuating standard of values.

Despite the loss in the purchasing value of silver, the final net results have greatly improved. After deducting the cost of exchange and amounts spent for extraordinary renewals and replacements, the income account for 1896 shows \$1,090,377 of income in gold available for the payment of interest on the company's securities. The interest on the Prior Lien bonds took only \$687,755, leaving \$402,622 to be applied to the payment of interest on the \$12,265,000 of series A second mortgage bonds, equal to about 3½ per cent. The company has announced a dividend of 3 per cent on these bonds payable March 22.

President Raoul in his report refers to the arrangements entered into last November for resuming the pooling agreement with the roads via Vera Cruz on European traffic, this involving also the traffic from the United States. He says: "The Vera Cruz lines having abandoned the extreme and untenable positions as to the management of traffic from the United States, which they insisted upon in 1894, and which caused the ruptures between the companies, an agreement was reached by which the Mexican Traffic Association was re-established and the European traffic pooled between

the four lines, including a firm agreement for the maintenance of rates on United States traffic and its methodical control on legitimate lines. Provision is made for the agreement to run for a definite period and for its continuance thereafter as long as satisfactory, without further special contract, but the agreement to maintain the European pool is concurrent with and dependent upon the faithful carrying out of the agreement on United States traffic. The failure to maintain just such an agreement was the cause of the rupture and the long war of rates which ensued". Nothing is said in the report as to the organization of the new "Mexican National Railway Company, Limited", a depositary company formed in 1896 by the Class A and B bondholders, and indeed there was no occasion to say anything, as the matter is an outside affair which does not concern the company at all.

### RAILROAD NET EARNINGS FOR JANUARY.

While our statement of railway net earnings for January, the first month of the year, reveals unfavorable results, on the whole it is not as poor as might have been expected from the conditions which prevailed. In the gross the decrease on the roads reporting reaches \$3,441,217, or somewhat less than 6 per cent; in the net the decrease is \$1,222,326, or 7.58 per cent.

The falling off is not difficult to understand. Business was inactive and our industries in a very quiet state. Then there was one less working day the present year, the month having contained five Sundays against only four last year. Besides this, there was, as pointed out in our review of the month in our issue of February 13, a large contraction in the grain movement and a diminution in the live-stock movement, and the weather conditions also were in some instances adverse to the railroads. The following are the totals for the month.

January. (134 roads.)	1897.	1896.	Decrease.	
			Amount.	Per Cent
Gross earnings.....	\$4,753,774	\$5,194,991	\$441,217	8.91
Operating expenses .....	\$9,852,901	\$10,071,792	\$218,891	2.17
Net earnings.....	\$14,900,873	\$16,123,199	\$1,222,326	7.58

Another fact should be remembered in interpreting the results. We are comparing with heavily increased earnings a year ago, our statement for January of that year having recorded \$4,662,219 increase, or 8.94 per cent, in the gross, and \$2,328,294, or 16.91 per cent, increase in the net. The following carries the comparisons back for a series of years.

Year and number of roads.	Gross Earnings.			Net Earnings.		
	Year Given.	Year Preceding.	Increase or Decrease.	Year Given.	Year Preceding.	Increase or Decrease.
January.						
1904 (125)	\$5,834,303	\$5,194,170	+640,133	\$13,423,177	\$12,841,126	+582,051
1903 (125)	\$5,890,965	\$5,100,108	+790,857	\$13,361,256	\$12,642,255	+719,001
1904 (135)	\$7,050,389	\$6,127,817	+922,572	\$16,831,190	\$15,765,024	+1,066,166
1905 (138)	\$9,073,190	\$8,071,945	+1,001,245	\$18,220,873	\$17,123,398	+1,097,475
1906 (141)	\$9,820,778	\$8,154,055	+1,666,723	\$19,090,145	\$17,764,291	+1,325,854
1907 (134)	\$4,753,774	\$5,194,991	-\$441,217	\$14,900,873	\$16,123,199	-\$1,222,326

Out of the whole 134 roads which have contributed returns to our tables, only 43 show an increase in the gross. In the case of the net the number of increases is somewhat larger, being 68, this resulting from the economies in operating forced upon many of the companies. There are very few increases for large amounts. The Burlington & Quincy has \$79,024 increase in gross, \$214,321 increase in net; the Union Pacific \$136,994 increase in gross, \$164,974 increase in net; and the Mexican Central \$251,670 increase in gross,

\$58,693 increase in net. The Baltimore & Ohio, though having \$132,912 gain in gross, has \$121,921 decrease in net, the reason for this having been explained on previous occasions. On the other hand, the Pennsylvania Railroad, while having \$613,000 loss in gross, makes \$87,500 gain the net, the exhibit both as to the gross and the net being the best for a great many months. Below we show all losses and also all gains above \$30,000 both in the gross and the net.

† Covers lines directly operated east and west of Pittsburg; the net on Eastern lines increased \$32,400 and on Western lines \$5,100.

When arranged in groups every group records a loss in gross, with the single exception of the Mexican group. In the net, besides the Mexican group three other groups are able to report gains in the net, namely the Northwestern, the Middle Western and the Eastern and Middle. The poorest showing is made by the anthracite coal roads, the decrease there being over 33 per cent. The Southwestern group also has a heavy ratio of decline, namely 27.42 per cent.

### IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

Through the courtesy of the Collector of Customs at San Francisco we have received this week the details of imports and exports of gold and silver through that port for the month of February, and they are presented below, together with the figures for the preceding months, thus completing the results for the eight months of the fiscal year 1896-97. The imports of gold were small in February, the amount received reaching only \$58,804, of which \$1,098 was in coin, and of silver there came in \$112,223, of which \$108,741 was bullion. There has been received during the eight months a total of \$9,238,578 gold and \$1,547,155 silver, which compares with \$677,995 gold and \$1,299,517 silver in 1895-96. The shipments of gold during February were \$2,940, all coin, and

the exports of silver have been \$391,938 coin and \$934,848 bullion. For the eight months the exports of gold have been \$913,216, against \$504,528 in 1895-96 and \$6,928,514 silver has been sent out, against \$9,739,318 in 1895-96. The exhibit for February and the eight months is as follows:

IMPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

## Monetary and Commercial English News

LONDON, SATURDAY, March 6th, 1897.

[From our own correspondent.]

The political anxiety this week is keener than before. The concert among the Powers is well maintained, but there is a strong fear that Greece will refuse to yield to the demands, and that force will have to be applied. Beyond all question the sympathy with Greece is exceedingly strong in this country, in France and in Italy. Indeed, it is so strong in Italy that volunteers are leaving in considerable numbers for Crete. If British, French and Italian ships are employed against Greece, there is a very serious danger that public opinion in these three countries may declare so strongly against the policy pursued that the three governments may be unable to act with the other Powers. If that happens, nobody can foresee what may be the result.

In the city the belief is strong that somehow or other peace will be maintained. In political circles, on the other hand, there is a very fervent hope that the city may be right, but there certainly is not much confidence.

The attitude assumed by President Krüger too, is giving rise to not a little uneasiness. Whether it be for election purposes, or because he is no longer able to keep the burghers in hand, the President is certainly much less amenable to reason than he was last year. Even those great mine owners who opposed the raid most vigorously and supported President Krüger's government are now complaining that the President refuses all redress of grievances. He promised to use his influence with the Netherland Railway Company to reduce the coal rate to a penny per ton per mile, which would have given a relief of about 5s. 6d. per ton in the price. Now he proposes to give a relief of only tenpence, and the mine owners assert that that is utterly insufficient. So again, he has promised a subsidy to education at Johannesburg, but instead of making English the language, as he was understood to promise a little time ago, Dutch is to be taught as soon as the children are forward enough to learn it. Naturally Johannesburg complains that English is to be proscribed and Dutch to be made the language of the whole community.

Then, again, there is some disquietude about Cuba. The Spanish authorities have utterly failed to put down the insurrection, and have also failed to take advantage of President Cleveland's forbearance and to come to some kind of settlement. Naturally therefore, it is feared that the Cuban question may come up in a more acute stage. Lastly, though it is believed that the plague is somewhat abating in Bombay, it is certain that the famine is becoming more severe. Every day the number employed on the relief works is growing larger.

Although the revenue is being collected at a rapid rate and most successfully, money is very cheap. For example, the rate for three months' bills is barely  $1\frac{1}{2}$  per cent. Partly this

is due to the slackness of business because of political uneasiness and partly to the belief that in a week or ten days the Government expenditure will exceed the Government receipts. The revenue promises to exceed the budget estimates of last April by at least one million sterling, if not more, and will probably exceed last year's receipts very considerably. From all of which it is clear that the country is in a very prosperous state. And although trade has been somewhat affected by the political apprehension, it is still very good.

The silver market is very quiet and the demand for India Council drafts has fallen off. The Bank of Bombay reduced its rate of discount on Thursday from 12 per cent to 10 per cent, and though the Bank of Bengal has not changed its rate, it is increasing its reserves. It appears, therefore, that the worst of the stringency is over. Owing to the plague, the export of cotton from Bombay is very trifling this week, and unless the plague abates and quarantine regulations are relaxed, it seems probable that the exports for some time to come will not much increase. The rice exports from Burmah are large, but they are expected to end early in April. Therefore the demand for moving the crops will very soon terminate, and then the rate of exchange is certain to decline.

Business upon the Stock Exchange is almost at a standstill. In spite of the dividend payments last month and the month before, members of the Stock Exchange complain that buying is on a smaller scale than it has been since 1893. Speculation is almost at an end, or, perhaps it would be more correct to say, what speculation there is for a fall. There would seem to be a very considerable bear account in the market for South African shares. The news received from Johannesburg by the great mine owners here has been exceedingly bad during the past month or so, and consequently the great houses have been selling on a large scale. That a good deal of the selling is purely speculative is highly probable, if not certain; but prices have been driven down in every direction. The public is utterly disheartened, and the fall in the South African market has helped to intensify the stagnation everywhere else.

In the American market there is more disposition to invest than there has been. The public has been waiting to see what kind of Cabinet Mr. McKinley would form and what policy he would announce. His inaugural message has made an exceedingly good impression here. It is hardly probable, however, that there will be much activity in the American market until there is some possibility of forming a judgment as to politics.

In consols, British railway stocks, colonial bonds, and the like, there is practically nothing doing. But it is remarkable that in Continental securities there has been exceedingly little fall, always excepting, of course, Turkish, Greek, Spanish, Italian and the like. The business public in London and at the great Continental centres, though very anxious, does not take so gloomy a view as politicians. They believe that somehow peace will be maintained.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1897. March 5. £	1906. March 4. £	1895. March 6. £	1894. March 7. £
Circulation .....	26,074,685	26,878,990	26,071,110	24,238,450

Messrs. Pixley & Abell write as follows under date of March 4:

Gold—There are no changes to report in the gold demand, and the East continues to be the chief buyer. During the past week the Bank has received £63,000, while to-day £50,000 has been withdrawn, chiefly for South America. Arrivals: South Africa, £272,000; River Plate, £8,000; West Indies, £48,000; Total, £328,000. Shipments: Calcutta, £20,500; Bombay, £20,500; Japan, £162,000. Total, £203,000.

Silver—The market was slowly declining on continued Chinese sales when the announcement that the Japanese Government had decided to adopt a gold standard, at a ratio of 32 1/2 to 1, caused heavy selling in New York, and the price fell to 29 3/4, at which the market has now a steadier appearance. The Bombay price to-day is not to hand. Last price, Rs. 80 1/2. Arrivals: New York, £195,000; West Indies, £30,000. Total, £225,000. Shipments: Calcutta, £82,500; Bombay, £46,500; Hong Kong, £5,000; Australia (coin), £29,600. Total, £163,600.

Mexican Dollars—These coin for the present may be quoted at 11-16d under bar silver, making the price to-day, 23 11-16d. Shipments: Hong Kong, £19,962.

The quotations for bullion are reported as follows:

- 4526—The Scotchman National Bank, Scotchman, Wash., has gone into voluntary liquidation by resolution of its stockholders dated February 13, 1897, to take effect February 25, 1897.
- 4707—The Mercantile National Bank of Dallas, Texas, has gone into voluntary liquidation by resolution of its stockholders dated February 27, 1897.

INSOLVENT.

- 868—The National Bank of Potsdam, New York, was on March 2, 1897, placed in the hands of Josiah Van Vraiker, Receiver.
- 2,476—The Northwestern National Bank of Great Falls, Montana, was on March 6, 1897, placed in the hands of James B. Lazear, Receiver.

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods Mar. 11 and for the week ending for general merchandise Mar. 12; also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK.

For week.	1897.	1896.	1895.	1894.
Dry goods.....	\$2,578,980	\$2,877,582	\$3,867,116	\$1,857,830
Gen'l mer'dise	6,832,503	6,558,271	8,303,669	9,117,498
Total.....	\$9,411,483	\$9,435,853	\$12,230,785	\$10,975,378
Since Jan. 1.				
Dry goods.....	\$25,193,097	\$32,437,900	\$35,804,478	\$19,949,331
Gen'l mer'dise	68,559,634	68,198,357	66,310,057	64,094,725
Total 10 weeks	\$94,751,731	\$100,636,256	\$102,735,535	\$84,043,056

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending March 15 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1897.	1896.	1895.	1894.
For the week..	\$7,015,831	\$8,545,224	\$8,507,357	\$8,116,155
Prev. reported	70,050,080	69,458,319	59,584,655	65,150,507
Total 10 weeks	\$77,065,911	\$78,003,543	\$68,092,012	\$73,266,662

The following table shows the exports and imports of specie at the port of New York for the week ending Mar. 3 and since January 1, 1897, and for the corresponding periods in 1896 and 1895:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....				\$10,177
France.....	\$116,000	\$434,245		
Germany.....				10
West Indies.....	11,000	330,040	\$142,878	695,604
Mexico.....			859	21,811
South America.....		87,496	1,517	88,360
All other countries.				42,921
Total 1897.....	\$127,000	\$901,771	\$145,251	\$858,916
Total 1896.....	12,500	12,440,985	42,985	17,500,698
Total 1895.....	146,501	28,783,849	1,360,955	9,445,172
Silver.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	\$1,037,750	\$8,342,530		\$545
France.....		431,000		
Germany.....		5,750		1,000
West Indies.....	1,033	27,436	\$1,406	48,615
Mexico.....			11,215	228,243
South America.....		11,475		150,760
All other countries.			79	4,225
Total 1897.....	\$1,038,783	\$8,838,200	\$12,700	\$433,390
Total 1896.....	1,015,244	10,434,470	98,705	501,475
Total 1895.....	4,268,716	6,136,324	15,684	277,962

Of the above imports for the week in 1897 \$25,903 were American gold coin and \$332 American silver coin. Of the exports during the same time \$11,000 were American gold coin.

**Breadstuffs Figures Brought From Page 577.**—The statements below are prepared by us from the figures of the New York Produce Exchange. We first give the receipts at Western lake and river ports, arranged so as to present the comparative movement for the week ending March 13, 1897, and since August 1, for each of the last three years:

Receipts at—	Flour.	Wheat.	Corn.	Oats.	Barley.	Rye.
	Bbls 100 lbs	bu. 60 lbs	bu. 56 lbs	bu. 32 lbs	bu. 48 lbs	bu. 56 lbs

## WALL STREET, FRIDAY, MAR. 19, 1897—5 P. M.

**The Money Market and Financial Situation.**—Operations in Wall Street this week have been on a more liberal scale and of a more substantial character than of late. Securities in which the Vanderbilts are largely interested have continued to be the prominent features, and the advance in them has tended to strengthen other branches of the market.

The foreign political situation has become more acute. The possibility of a declaration of war between Greece and Turkey disturbed anew the financial centres abroad and caused some selling of American securities at London and elsewhere. Fortunately the local market was buoyant as noted above, and the foreign offerings were readily absorbed without unfavorable effect. Later reports indicated that this movement had largely ceased.

Of domestic affairs the meeting of Congress, appointments by the President and consideration of the proposed new tariff bill have been most prominent. Their effect in Wall Street, however, will be largely reflected from their direct influence upon the business of the country generally. In regard to the latter there is still room for large improvement. Railroad earnings are better in a majority of cases, according to recent reports, but as a whole are unsatisfactory, and the bank clearings continue to show a smaller total than last year.

Early in the week there was a heavy withdrawal of goods from bond in anticipation of an increased tariff, and on Monday the receipts at the New York Custom House were the largest for any one day in its history, amounting to over 2 1/2 millions of dollars. This naturally created a new demand for loans, but did not materially affect the money market, and rates remain unchanged.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1 1/2 to 2 per cent. To-day's rates on call were 1 1/2 to 2 per cent. Prime commercial paper is quoted at 3 1/2 to 4 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £282,491 and the percentage of reserve to liabilities was 55.03, against 54.85 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows an increase of 2,950,000 francs in gold and 50,000 francs in silver.

The New York City Clearing-House banks in their statement of Mar. 13 showed a decrease in the reserve held of \$2,385,200 and a surplus over the required reserve of \$52,863,550, against \$55,556,925 the previous week.

	1897. Mar. 13.	Difference from Prev. week.	1896. Mar. 14.	1895. Mar. 16.

**Foreign Exchange.**—There is no change to note in the market for foreign exchange, which remains dull and steady.

To-day's actual rates of exchange were as follows: Bankers, sixty days' sterling, 4 85 1/2 @ 4 85 1/4; demand, 4 87 @ 4 87 1/4; cables, 4 87 1/4 @ 4 87 1/2.

The following were the rates of domestic exchange on New York at the order-mentioned cities to-day: Savannah, buying 1-16 discount, selling par; Charleston, buying par, selling 1/2 premium; New Orleans, bank, \$1 00 premium; commercial,

25c. per \$1,000 discount; Chicago, 35c. per \$1,000 discount; St. Louis, 25c. per \$1,000 discount.

Posted rates of leading bankers follow:

	March 19.	Sixty Days.	Demand.
Prime bankers' sterling bills on London..	4 86 @ 4 86 1/2	4 87 1/2 @ 4 88 1/2

\* This is the price bid at the morning board, no sale was made.

**United States Sub-Treasury.**—The following table shows the daily receipts and payments at the Sub-Treasury during the week.

Date.	Receipts.	Payments.	Balances.		
			Coin.	Coin Cert's.	Currency.
Mar. 13	\$3,741,336	\$2,636,547	\$131,150,941	\$1,831,095	\$64,751,386
" 15	4,533,335	3,100,733	131,109,434	2,009,555	66,443,425
" 16	2,633,399	2,425,905	131,102,783	2,207,744	66,728,911
" 17	2,899,737	2,506,303	131,112,767	2,443,908	66,876,147
" 18	3,177,986	3,135,440	131,76,465	2,364,977	64,761,866
" 19	3,175,279	3,120,396	131,074,513	2,317,625	66,837,274
Total	20,786,682	17,225,632			

**State and Railroad Bonds.**—Sales of State bonds at the Board include \$92,500 Virginia fund. debt 2-3-4 of 1891 at 62 1/2 to 63 1/2; \$4,000 Tenn. settlement 3s at 78 1/2 to 80, and \$5,000 Virginia 6s deferred trust receipts, stamped, at 6.

In the railway bond market the volume of business has been good, and includes a large proportion of high-grade issues, indicating that the investment demand is still maintained. Prices are generally steady. The new Norfolk & Western consol. 4s have been in favor and advanced 3 1/2 per cent. Hocking Valley 5s made a further gain of 2 per cent and close at 74. Standard Rope & Twine 6s dropped to 65 1/2 on Thursday, a decline of 1 1/2 per cent from our last quotations, a part of which has been recovered. Of the active list, which includes Atchison, Broadway & Seventh Avenue, Brooklyn Elevated, Chesapeake & Ohio, Burlington & Quincy, Chicago & Northern Pacific, Rock Island, Denver & Rio Grande, Erie, Fort Worth & Denver City, Kansas Pacific, Lake Shore, Louisville & Nashville, Milwaukee & St. Paul, Missouri Kansas & Texas, New York Ontario & Western, Northern Pacific, Ohio & Mississippi, Ohio Southern, Oregon Short Line, Reading, S. Joseph & Grand Island, St. Louis & Iron Mountain, St. Paul Minn. & Manitoba, Southern Railway, Texas & Pacific, Union Pacific and Wabash bonds, several issues have fractionally advanced.

**Railroad and Miscellaneous Stocks.**—The market for railway shares has developed new life this week under the stimulus of investment buying, which is most conspicuous in the Vanderbilt stocks. Under this movement New York Central, New York Chicago & St. Louis, Canada Southern, Michigan Central, Cleveland Cincinnati Chicago & St. Louis, North West and Omaha advanced from 2 to 5 per cent, an average of over 3 1/2 per cent. The strangers advanced an average of about 1 point and Illinois Central 3 1/2 points. The activity was not attended with the same result in all cases, however. The coal shares have been weak. Central of New Jersey, which had previously lost nearly 2 per cent, sold off 3 points to-day, closing at 90 1/4; Reading declined 2 1/4 points, while Delaware & Hudson lost 2 1/4 points. Lackawanna was exceptional in the group, and advanced to 157 1/2, a gain of 3 1/2 per cent. Missouri Pacific declined 5 1/4 points under a vigorous bear attack, but has recovered more than half the loss. In most cases, in fact, these extremes have been modified somewhat by reactions, and the net changes are generally narrower.

The miscellaneous list has, as usual, been subject to speculative manipulation, which is largely responsible for a decline of 2 points in American Tobacco and of 3 1/4 points and 5 1/4 points respectively in United States Rubber common and preferred. Western Union advanced 1 1/2 points, but sold off sharply to-day on the decision of the Stock Exchange authorities not to renew its ticker contract. American Sugar sold ex-dividend on Tuesday, and has been strong and active. Standard Rope & Twine was weak in sympathy with the bonds, selling down to 6 1/2 on Thursday.

## NEW YORK STOCK EXCHANGE—ACTIVE STOCKS for week ending MARCH 19, and since JAN. 1, 1897.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

**Net Earnings Monthly to Latest Dates.**—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month.

The returns of the street railways we give by themselves under a separate head at the extreme end of these tabulations—see page 562.

a Net earnings here given are after deducting taxes.  
b Net earnings here given are before deducting taxes.  
c Deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in January was \$107,100, against \$108,005 last year. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.  
d Results of coal mining operations only.  
e After allowing for improvements, etc., total net on Railway for January, 1897, \$610,711, against \$695,504, and from Dec. 1 to Jan. 31, \$1,385,082, against \$1,462,457. On the Coal & Iron Co., after allowing for improvements, etc., there was for January, 1897, a deficit of \$134,257, against a surplus of \$22,341, and from Dec. 1 to Jan. 31, 1897, there was a deficit of \$146,631, against a deficit of \$60,079.  
g After allowing for other income received net in January was \$105,238, against \$84,495, and from July 1 to January 31 \$130,471, against \$89,401.  
i Includes besides Atlantic System the Houston & Texas Central, Austin & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans.  
j Includes Chicago Burlington & Northern for both years.  
k St. Louis Alton & Terre Haute included in all periods except that for the three months from July 1 to September 30; that road's results are not included for 1895.  
\* For January, 1897, taxes and rentals amounted to \$151,380, against \$151,468, and from July 1 to January 31, 1897, \$1,111,918, against \$1,136,811, after deducting which net for January, 1897, was \$246,575, against \$612,164, and from July 1 to January 31, 1897, \$1,312,638, against \$3,172,340.  
l Figures are given exclusive of results on Oregon Railway & Navigation, Union Pacific Denver & Gulf, Fort Worth & Denver City, Leavenworth Topoka & Southwestern, Montana Union and Kansas City & Omaha.  
m Results on Albany Florida & Northern are included only for July and August, 1895.  
n Including income from ferries, &c.

## NORTHERN PACIFIC.

	Jan., 1897.	Sept. 1 to Jan. 31.
Gross earnings.....	\$958,868	\$8,428,420
Operating expenses.....	821,598	4,746,370
Net earnings.....	\$137,270	\$3,681,550
Taxes.....	86,500	214,481
Net operating income.....	\$100,770	\$3,467,069
Miscel. income not includ'g land sales..	25,901	126,820
Total net income.....	\$126,761	\$3,593,889

The operating expenses from Sept. 1, 1895, include a proportionate part of the estimated taxes and rail and the renewals for the current fiscal year of the new company, being ten months to July 1, 1897.

## STREET RAILWAYS AND TRACTION COMPANIES

The following table shows the gross earnings for the latest period of all street railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

\* Figures were exceptional in 1895 on account of Atlanta Exposition.  
† Decrease in earnings due to factories being shut down.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all street railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Saturday of the month) we bring all the roads reporting together, as is done to-day.

## Mexican National Railroad.

(Report for the year ending December 31, 1896.)

The annual report of President Raoul will be found on subsequent pages of the CHRONICLE. The company has adopted an arbitrary rate of 8) cents to the dollar as a basis of converting its Mexican dollars into United States gold, but the actual loss of late years has been much greater, and this loss is charged in the item of "Exchange." In 1893 this item amounted to \$243,623, in 1893 to \$431,212, in 1894 to \$703,119, in 1895 to \$693,941 and in 1896 to \$791,312, these sums representing the loss in converting into gold that portion of the silver dollars needed to meet its gold payments, &c.

Earnings, expenses, &c., for four years were as follows:

EARNINGS AND EXPENSES (MEXICAN CURRENCY).				
	1896.	1895.	1894.	1893.

## Texas &amp; Pacific Railway Co.

(Report for the year ending Dec. 31, 1896.)

In the report President George J. Gould says in part:

**Financial Condition.**—Owing to the general business depression the result of the operations of the year were not as satisfactory as hoped for, but the financial condition of your company at the close of the year was in every respect satisfactory. The physical condition of the property also has been greatly improved. During the year there was purchased and paid for in cash 5,249 tons of 75-lb. steel rails and 300 new box cars, amounting to a total of \$312,615. In addition \$111,149 of car trust notes were paid and canceled, leaving outstanding on Dec. 31 \$102,104, of which \$77,145 is payable in the year 1897 and \$24,959 in 1898.

The income account for the year shows a deficit of \$6,011. This deficit is more apparent than real. In the last annual report attention was called to the fact that 6,778 tons of new steel rails, purchased and paid for during the year, had not reached the line in time to be used, and were therefore carried over in material account, and would appear in the expenses of 1896. If this derangement had not occurred, there would have been no deficit shown.

Your company has no special fund upon which it can draw for improvements, and is therefore dependent entirely upon its earnings for the maintenance and betterment of your property. It is carrying in its treasury, however, a large amount of second mortgage income bonds; these bonds have not at any time in the past reached a price in the market that would warrant their disposal, but as the condition of your road improves these bonds will become a valuable asset.

**Improvements.**—Much has been done during the year in the matter of permanently improving the road, particularly in the matter of filling trestles. Your company has 337 en-er-ate struc-ures of this character on its line, covering 232,632 feet, or upwards of 44 miles, and your management aim to reduce this mileage by filling wherever practicable. A considerable amount was also spent in reducing curvatures and lowering grades; if this can be continued the result will speedily show in an increased number of loaded cars to a train and lead to permanent economy in operation.

On Jan. 1, 1896, your company had on hand 6,794 tons of 75 lb. steel rails. In addition your company purchased 5,249 tons, making a total of 12,043 tons of 75-lb. steel rails placed in track during the year 1896. There yet remain 40 miles of iron rails in the main line of your western division, which will be replaced with steel during 1897, new rails for the purpose having already been contracted for. This accomplished, the entire main line of your road, exclusive of branches, will be laid with steel rails, and no further expenditure in that direction will be required except for renewal.

**Rates.**—Owing to more perfect organization of the South-western Traffic Association, rates were fairly maintained during the year, but at a lower level than obtained in previous years, owing to lighter business and increased competition.

**Traffic.**—The revenue from freight traffic shows a loss of \$67,445, owing to a large falling off in local and non-competitive traffic, caused mainly by the long-continued depression in trade. Through traffic increased 65,097 tons, while local traffic decreased 119,292 tons. The principal decrease was in the transportation of manufactures and merchandise, the most profitable class of traffic. The increase in through traffic was principally in grain for export. There was a marked and encouraging increase in the fruit traffic from Mexico and California to the northeast.

Your passenger earnings were severely affected by the general business stagnation prevailing throughout the country; the loss in this traffic amounted to \$127,934. A line of new Pullman sleepers of superior design is now running between Fort Worth, Dallas and St. Louis, making by far the best equipped train between Texas points and the North and East. It is hoped that the offer of such facilities will have a marked effect on the passenger travel of 1897.

**Requirements for 1897.**—The operating expenses in 1896 were pruned closer than ever before, and, aside from the large expenditure for steel rails, show a marked decrease in all items of maintenance. To hold the advantages you have already gained, however, and to increase the earning capacity of the property, it will be necessary to make considerable expenditures during 1897, not only in improving the line, but adding to the facilities at your New Orleans terminal. New Orleans is becoming one of the largest grain exporting points in the United States, and its value in this respect will probably be increased in the near future by the removal of all port charges, making its wharfage free.

In order to keep your equipment up to its present standard, 800 standard box cars and 200 coal cars should be purchased during the coming year. Nearly all your locomotives have been equipped with standard appliances, but more than two-thirds of your cars are yet to be equipped.

**General Remarks.**—The partial failure of crops in Texas and Louisiana, added to the general depression in business and unsettled condition growing out of the Presidential election, retarded the development of industries along your line. The cultivation, however, of the sugar beet for the production of sugar has been inaugurated in the Pecos Valley in the past year and much confidence is felt that it will rapidly become an important interest in that irrigated section of Texas. The crop of beets grown in the past season amounted to only 13,000 tons; this acreage will be greatly increased during the coming season.

The rains and snows of the past winter have put the entire country along your line in better condition than it has been for years, and all indications point to an increased acreage of crops of all descriptions; if this is realized, the sections penetrated by your lines will experience a season of rapid growth and development.

**Statistics.**—The comparative statistics of operations, earnings, income account, and the general balance sheet, for four years, have been compiled for the CHRONICLE as follows:

## Union Pacific Denver &amp; Gulf Railway.

(Report for the year ending Dec. 31, 1896.)

**Damage by Floods.**—Through cloudbursts and floods on July 24, 1896, almost simultaneously, two divisions, two hundred and forty miles apart, viz., the Colorado Central Narrow Gauge, near Golden, and the Catskill Branch, southwest from Trinidad, were damaged to an extent unprecedented in the history of the road. Six miles of the former division and twelve miles of the latter, and eighty-four bridges, were so completely wrecked as to necessitate almost entire reconstruction. Traffic was suspended on the Colorado Central Division for twenty days, and on the Catskill Division business was not well resumed until November 15. It is estimated that but for this exceptional addition to expenditure and reduction of revenue the net results for the year 1896 would have been over \$100,000 larger than the figures herein reported.

**Receiver's Certificates, Etc., Paid.**—During the year one-half of the receiver's certificates, viz., \$150,000, was paid, and the remainder has been discharged since January 1. The deferred notes on new equipment, amounting to \$58,448, outstanding Dec. 31, 1895, were all paid off in 1896, and a settlement was reached with the Union Pacific receivers, by virtue of which \$48,848 was paid over by them. The current assets and liabilities of this receivership are accordingly in better position in every respect than at any previous time.

**Improvements, Etc.**—The balance of cash on hand Dec. 31, 1895, was \$171,026, and on Dec. 31, 1896, was \$279,124, in-

terest on Colorado Central bonds aggregating \$335,160 was paid as in previous years.

New steel rail was laid as follows: 65-lb. 24 miles, 70-lb. 5 miles. Betterments aggregating \$135,217 were made during the year and charged into operating expenses (including \$49,463 for new rail), and additions to the property aggregating \$12,823 were charged to improvement account and \$19,443 was charged to new equipment account. Six locomotives (three for standard and three for narrow gauge freight service) were received and paid for early in 1897. The results are very satisfactory.

The reduction of curves on the Colorado Central Narrow Gauge Division was continued with excellent immediate results. Before this work was done it was impossible to run a consolidation engine over the division referred to, and three engines were required to haul eleven or twelve loaded cars, whereas ten loaded cars can now be hauled by each of the new (narrow gauge) locomotives.

The number of crcssties laid in track during the year was 222,183; the estimated requirement for 1897 is 203,000.

The value of the new line between Walsenburg and Trinidad, constructed in 1895, has been well demonstrated by the more economical service already attained, the ret saving effected by the new arrangement in 1896 being nearly the amount of the reduction in rental, viz, \$100,000 per annum. [A table is presented to show that during the three years of the receivership earnings of the property have been applied to improvements, etc., as follows: Betterments included in operating expenses, \$306,308; construction, \$333,464; improvements (additional to betterments), \$53,773; equipment, \$179,127.—Eds.]

**Traffic Statistics.**—The reports show:

	Total Tons.	Coal and Coke.	Earnings per Mile of Road.	Freight Train M.
1896.....	1,605,000	1,687,000 (88 p.c.)	\$3.185	\$1.83
1895.....	1,468,000	848,000 (58 p.c.)	3.132	1.76
1894.....	1,422,147	859,051 (60 p.c.)	2.816	1.80

**Financial Statistics.**—The financial results for four calendar years were as follows:

	1896.	1895.	1894.	1893.

—V. 62, p. 1140.

### Tennessee Coal, Iron & RR. Co.

(Report for year ending Dec. 31, 1896.)

President N. Baxter, Jr., in the report, says in part:

**General Results.**—Though the number of furnaces in blast and the weekly output of the furnaces in the United States was enormously reduced, our company made during the last fiscal year approximately as much iron as it made in the previous year, the difference in 1895 over 1896 being only 2,832 tons. About the 1st of April, for a short season we had a very active buying movement. After this extreme stagnation was in evidence as the summer advanced because of the Presidential election. Many of those to whom we had made sales declined to allow us to ship them the iron. Considering it best to continue our furnaces in blast, this resulted in our accumulating a larger stock of iron than ever before.

**Sales in Europe.**—In the last of July I sent an agent to England and the continent of Europe to arrange for introducing our iron to foreign manufacturers. This he did, and we began at once efforts to make sales for foreign export, and have succeeded in reaching most of the important foreign markets. Our iron has given universal satisfaction, and the business has grown until in the last few months it has assumed considerable proportions. Our sales abroad have been between 60,000 and 70,000 tons. The prices obtained have been fully as good in all cases, and in many better, than the equivalent of our domestic sales. The success of the company in the different foreign markets is regarded as of the greatest importance, as it gives us an outlet which we can never be deprived of, on account of our lower cost of production and closer proximity to tide water, enabling us to deliver our iron on board ship at Gulf or South Atlantic ports at a much less price than can be done by any other iron district in the United States.

**Financial—Physical Condition.**—Many economies in cost of production have been instituted; so that, notwithstanding the fact that the average selling price in 1896 is the lowest ever obtained, we were able to maintain the physical condition of the property and more than earn the interest on our

bonds. All the reductions effected were brought about by a slight reduction in the price of labor and largely increasing the capacity of our respective plants by improved methods and greater skill and care. Every expenditure of every kind and all expenditures for improvements and betterments have been charged to cost of production.

Our profits for the year were really larger than the amount shown in the report of the Treasurer, \$174,717 of the earnings having been applied to depreciation in the value of the iron carried in stock since the previous year.

The amount of undivided profits brought forward from last year (\$543,664) has all been applied in writing down the book values of the various assets by way of depreciation. The total so applied from 1883 to date has been \$3,520,282.

**Statistics.**—The following statistics have been prepared for the CHRONICLE.

	1896 (12 mos.)	1895 (11 mos.)	1894-5.	1893-4.

### Commercial Cable Company.

(Report for the year ending Dec. 31, 1896.)

President John W. Mackay in the report says:

**General Results.**—The gross earnings, including interest from investments, amounted to \$2,019,256, being an increase of \$9,518 over 1895. The expenses increased \$18,350, which was principally due to cable repairs, eight repairs having been made during 1896 as compared with five the previous year. The net earnings amount to \$1,776,565, out of which have been declared quarterly dividends of 1 1/4 per cent, together with a bonus of 1 per cent, making total dividends of 2 1/4 per cent, which have absorbed \$400,000 and left a balance of undivided profits of \$376,565; this has been added to the credit of profit and loss, making the balance of undivided profits carried forward to 1897 \$346,678. The reserve fund has been increased by \$250,000, which has been invested in first mortgage bonds of the Commercial Cable Building Co., secured by valuable real estate in New York City. The amount now standing to the credit of the reserve fund is \$2,042,821.

**Acquisition of Postal Telegraph-Cable Co.**—At a special meeting of shareholders held on December 22, 1896, it was unanimously voted to purchase the entire property of the Postal Telegraph-Cable Company. The property was acquired by the Commercial Cable Company on January 1, 1897, and will be dealt with in the annual statement for the current year.

**Accounts Audited.**—The company's accounts have been audited by the chartered accountants, Messrs. Deloitte, Dwyer, Grubbs & Co.; a similar yearly examination will be made in the future.

The earnings for the late fiscal year are shown in comparison with those for previous years in the table below. "Gross"

here include in 1896 \$52,912 for "interest," against \$18,140 in 1894. The working expenses in 1896 include \$578,788 for ordinary operation, \$139,537 for maintenance and repairs, \$101,692 for rent of leased lines, and \$1,524 for legal expenses. The earnings have been:

Years.	Gross.	Net.	Dividends.	Roll. sur.
1896	\$2,019,555	\$1,176,565	\$800,000	\$376,565
1895	2,009,738	1,215,308	700,000	515,308
1894	1,734,434	1,010,438	700,000	310,438
1893	1,842,347	1,057,747	700,000	357,747

## BALANCE SHEET DECEMBER 31, 1896.

Assets.	Liabilities.
Plant.....\$12,140,801	Capital stock.....\$10,000,000
Sundry securities.....2,660,000	Dividends.....275,713
Sundry debtors.....653,184	Sundry creditors.....257,154
Cash at banks.....550,249	Reserve fund.....2,042,820
Spare cable and miscellaneous.....230,000	Revenue appl. to ext's prior to Dec. 31, '95.....2,250,000
	Revenue account.....816,678
Total.....\$15,642,666	Total.....\$15,642,666

The reserve fund increased \$250,000 during the year.—V. 64, p. 330.

## Tamarack Mining Company.

(Report for the year ending December 31, 1896.)

The directors in their report call attention, first, to the slight increase of cost per ton of rock stamped and mined, owing to "our doing all expensive work first for the double purpose of safety and ultimate economy." Next to the new coal storage shed and dock at Dollar Bay, which makes a large saving in cost of coal, and principally to the low grade of rock, which has been met with for the last two years and more, and the decided improvement in this respect shown in the openings, both of the old and new mine.

Superintendent Parnall closes his report as follows:

Perhaps a word to stockholders who have professed disappointment in the net earnings during the past two years may not be amiss. For these years the percentage of mineral in the rock has not exceeded 2-42 per cent, whereas from 1890 to 1893 the least to any of those years was 3-18 per cent and in 1890 it was 3-87 per cent. The facts are, the mine from the 15th to the 21st level opened lean, except in patches, compared with the ground above; and there was no chance for special selection nor would it have been good mining to leave behind and expose to absolute loss ground on which a small profit could be made. This, I am pleased to state, has been struggled through, and the decided improvement at many points leads me to conclude that from a mining standpoint the Tamarack is yet in its infancy.

## EARNINGS FOR 12 MONTHS TO DEC. 31, 1896.

Receipts from copper.	Operating expenses.	Net earnings.	Dividends paid.	Balance, surplus.
\$1,746,188	\$1,377,492	\$368,697	\$360,000	\$8,697

For the year ending June 30, 1895, gross receipts were \$1,515,173; net earnings, \$402,165.

## ASSETS AND LIABILITIES DEC. 31, 1896.

Assets.	Liabilities.
Accts. receivable at Boston and H. & C. RR. bonds.....\$176,379	Unpaid dividends.....\$5,673
250 sh. H. & C. RR. stock.....25,000	Drafts outstanding.....41,357
Cash and accts. receivable at mine.....19,428	Accounts payable at mine.....58,465
Supplies at mine.....191,544	Accounts payable at Boston.....32,508
Wood and timber lands.....180,490	Balance of assets.....783,305
Cash at Boston, and copper, since sold.....425,469	
Total.....\$1,021,308	Total.....\$1,021,308

The balance of assets surplus is derived as follows: Surplus Dec. 31, 1895, \$1,031,328; surplus as above, \$8,697; construction and sinking of shaft 5, \$256,721; total surplus, \$783,305.

The dividends from March, 1888, to December, 1896, have aggregated \$4,890,000.—V. 62, p. 587.

## Pennsylvania Steel Company.

(Report for year ending Dec. 31, 1896.)

President E. C. Felton in the report says in part:

The prostration of business during a great part of the year 1896 has rendered it impossible to operate our works at Steelton at a profit, after paying interest charges and charging to operating expenses the extensive additions made to the plant. At the same time the small output of rails in the United States for the year has operated very much to the disadvantage of the Maryland Steel Company. The operations of both plants show a net loss for 1896 of \$10,704, compared with a gain of \$85,737 in 1895.

Of the output of our Bessemer department in 1896 79,000 tons were made during the first half of the year and 33,000 tons during the last half. The rebuilding of our No. 1 blooming mill, which is now well under way, will lower our labor cost materially. The number of tons of rails rolled in our rail mills during the first half of 1896 amounted to 50,000 tons; during the latter half to only 18,700 tons. These figures indicate the extreme depression in the most profitable branch of our business, especially during the last half of 1896.

Our frog and switch department did about \$80,000 less business than in 1895. Our bridge and construction department has been enlarged by the addition of two electric traveling cranes and additional tools in the finishing shops, and is now second to no shop in this country in equipment and facilities for handling work cheaply. Early in the year we purchased on advantageous terms a farm of about 150 acres, from which our supplies of limestone can be procured for many years to come at a minimum cost.

The closing of the year finds our plant in excellent condition and well fitted to operate at low labor costs.

The results for the year are shown in the following tables. The Steelton plant shows a loss of \$113,309, after charging to operating expenses \$104,001, which was expended in improvements to Bessemer department, in building new blooming mill and in extensions and additions to bridge and construction department and frog and switch department. Before deducting these extraordinary expenditures the net surplus of the Steelton plant was \$80,692, comparing with a net surplus of \$121,657 for 1895:

## GENERAL RESULTS.

Steelton Plant.	Md. Steel.	Result on Ad. Impts.
Sales, Etc. Sur. Income.	Net Loss.	Both Plants. Sur. Pft.
1896. \$5,865,933 sur. \$80,692 loss \$121,309	loss \$40,704	\$194,001
1895.. 6,679,957 sur. 121,657 loss 35,920	sur. 85,737	.....

The following shows more in detail the results of the year's work:

Blast Furnace.	Bessemer Depart.	Open Hearth Depart.	Rails Rolled.	Bridge and Con. Dept.
1896.....85,000	112,000	87,000	68,700	11,000
1895.....185,000	157,000	122,000	111,000	10,000

—V. 62, p. 870.

**Atlantic & Pacific RR.—Income Bonds (Western Division) Final Notice.**—Notice is given that the Bache Committee now represents \$5,400,000 of bonds, being a majority held by the public, but owing to the delay elapsing in the receipt of bonds destined for deposit, an extension of time is granted until the 23d instant. Thereafter a penalty of one-half of 1 per cent will be charged. See advertisement in another column.—V. 64, p. 516.

**Baltimore & Ohio RR.—Expenditures for Improvements.**—When the receivers were appointed they found that, in order to successfully compete with other trunk lines, it would be necessary to improve the general physical condition of the road. They have now prepared a statement of their expenditures from March 1st, 1896, to Feb. 1st, 1897, for additions, equipment and betterments. This statement shows that almost \$7,000,000 have been spent, as follows:

Motive department.	Engineering department.
Betterments:	Rails (see below).....\$583,000
Locomotives.....\$18,000	Fastenings, frogs, etc.....78,872
Passenger cars, etc.....86,000	New bridges.....105,000
Freight cars built.....147,000	Tunnels, etc.....89,000
Equipment purchased:	Construction:
75 locomotives.....3,300,000	Cumberland termin's.....182,000
5,000 freight cars.....	Glenwood.....434,000
Extraordinary repairs.....1,348,000	Miscellaneous.....569,000
Total, say.....\$5,000,000	Total, say.....\$2,000,000

The amount shown for rails above (\$583,000) represents the difference in the cost of the new 85-pound rails and that of the old 67-pound rails, which were laid on the main stem, the Parkersburg branch, the Washington branch, the Pittsburg division and the Philadelphia division. The statement does not include the 53,000 tons of 85 pound steel rails which were ordered a few weeks ago and which will cost in the neighborhood of \$1,000,000.—V. 64, p. 516.

**Central Ohio RR.—Reply to Company's Circular.**—The Rieman Committee has issued a circular in reply to that printed in last week's CHRONICLE from the management of the company. The burden of the reply is that the present officers of the Central Ohio are also officers of the B. & O. RR. Co. and cannot be expected to act freely in the interest of the security holders. The committee, therefore, urges that proxies to be used at the annual meeting at Columbus, Ohio, on April 28 be sent at once to the committee, P. O. box 934, Baltimore, Md.—V. 64, p. 523.

**Cleveland Lorain & Wheeling Ry.—Columbus Hocking Valley & Toledo RR.—Ohio Southern RR.—Toledo & Ohio Central Ry.—Wheeling & Lake Erie Ry.—Results Compared.**—In view of the prominence of late of the Ohio bituminous coal roads, the following data from a statement prepared by William H. Brown, head of the statistical department of Simon Borg & Co., is of value. The results are all for the year ending June, 1896, except those for the Ohio Southern, which are for the year preceding.

STATISTICS PER MILE OF ROAD.

	Wheeling Cleveland & Lake Erie.	Lorain & Wheeling.	Ohio Southern.	Toledo & Ohio Central.	Col. Hook & Valley & Toledo.

Earn. per pass. train..	1.93 cts.	1.99 cts.	2.01 cts.	1.86 cts.	
Rate per pass. per mile					

—V. 64, p. 39, 135, 374, 424, 516.

**Colorado Coal & Iron Development.—Foreclosure Proceedings.**—H. K. Pomroy, of Pomroy Bros., and others, trustees, have commenced foreclosure proceedings under the collateral trust 6 per cent mortgage for \$374,000, interest on which went to default last December.—V. 63, p. 29.

**Dallas City Street Ry.—Receiver Appointed.**—At Dallas, Texas, March 12, Judge W. J. Smith appointed Charles Bird receiver of this company on an application made by the Mercantile Trust & Deposit Company of Baltimore, trustee of the mortgage of January, 1896, for \$250,000, interest on which is in default.—V. 63, p. 185.

**Joint Traffic Association.—Eastern Trunk Lines.—Association Upheld.**—Judges Wallace and Lacombe, in the United States Circuit Court of Appeals yesterday, dismissed the application for an injunction in the case of the United States against the Joint Traffic Association. The injunction sought to restrain the railroads from operating under the Joint Traffic agreement. Judge Wallace, in announcing the decision, said the Interstate Commerce Act could not be invoked in the present case for several reasons. The United States had no right under that act to employ the method of injunction. There was grave doubt whether the Commission itself had any such recourse. The Anti-Trust Act was not meant to apply to railway carriers. It was unnecessary to decide the question whether the agreement was a pooling contract. The case will be carried to the Supreme Court of the United States.—V. 63, p. 504.

**Kansas City & Omaha RR.—Status, Earnings, Reorganization.**—This road since Nov. 1, 1896, has been operated independently, but by the same General Manager as the St. Joseph & Grand Island, under an agreement for division of rates. The earnings are showing a very substantial improvement over last year, the gross from Nov. 1 to March 1, four months, being about \$73,000 and the net \$31,000, exclusive of taxes, which are about \$2,700 a month. On the assessment of \$100 per bond \$75 has so far been called. A permanent reorganization is in abeyance pending a settlement of Union Pacific affairs.—V. 63, p. 504.

**Little Rock & Memphis RR.—Sale Postponed Until June 10.**—The foreclosure sale has been postponed until June 10. Negotiations are pending for an extension of the road from Little Rock to Wister Junction, on the Choctaw Oklahoma & Gulf, a company having been formed to build the extension, as stated in the CHRONICLE of Jan. 30, p. 234.

**Louisville New Albany & Chicago Ry.—Last Instalment on Stock Now Payable.**—The fourth cash payment of 20 per cent on the old common and preferred stock became due and payable on March 15th, being \$150 on each 100 shares of preferred and \$50 on each 100 shares of common.—V. 64, p. 517.

**Metropolitan Street Ry.—Kansas City Cable Railway Co.—Extension of Bonds Due April 1, 1897.**—Messrs. Blair & Co. and the New York Security & Trust Co. have agreed to extend the first and consolidated mortgage bonds issued by the Kansas City Cable Ry. Co., maturing April 1 next, for a period of four years, at 5 per cent interest, both principal and interest to be payable in United States gold coin or of equivalent to the present standard of weight and fineness. The lien of the mortgage now securing the bonds will continue unimpaired, and the Metropolitan Street Ry. Co. (the owner of the properties of the Kansas City Cable Ry.) will also become responsible for the payment of both principal and interest. Holders wishing to make the extension must, on or before March 20, deposit their bonds with one of the companies named, who are also prepared to buy at par and accrued interest to maturity the bonds of any holders that may desire to sell rather than to extend them.—V. 63, p. 27.

**Missouri Pacific Ry.—Official Statement.**—Early in the week a heavy decline occurred in the prices of the company's stock, owing to rumors of a receivership. President George J. Gould thereupon made the following statement:

The report that receivers will be appointed is absolutely without foundation. There is no interest in default, and if any of the bondholders wish to cash their April coupons now I will pay the coupons at their face value, charging 6 per cent interest on the money thus advanced. The net earnings for January show an increase of \$148,000 over January last year and the gross earnings for February show a satisfactory increase. In my opinion, the reports are the result of a desire to cover short sales in other stocks.—V. 64, p. 518.

**New York New Haven & Hartford RR.—The New Bonds Authorized.**—The directors on Saturday declared their regular quarterly dividend of 2 per cent, payable March 31. They

also approved the sale of \$5,000,000 of New York & New England consols held by the N. Y. N. H. & H. R. R. Co. and voted to issue \$3,000,000 of 4 per cent currency debenture bonds, to be dated March 1, and run for 50 years.

**Expenditures During Mr. Clark's Presidency.**—The "Boston News Bureau" says that President Clark at the last meeting of the board presented a statement of the expenditures on capital account made during the ten years of his administration. This showed in round figures an expenditure of \$60,000,000 for the reconstruction, improvement and extension of the road, including its investment in the New England R. R., but excluding expenditures on the Old Colony and Boston & Providence, except for advances made in connection with the Boston terminal. The main items are:

Four-tracking New York Division.....	\$9,730,886
Real estate and right of way.....	7,584,774
Double-tracking Shore Line Division.....	3,223,389
Other elimination of grade crossings.....	1,324,555
Harlem River Branch.....	774,897
New rolling and floating stocks.....	3,926,908
Other improvements.....	2,647,938
Total above improvements and equipment.....	\$29,113,247
Advances account of Boston & Providence terminals.....	2,073,125
Acquisition of stocks of leased lines merged (New York Providence & Boston, etc.).....	5,900,000
Acquisition of securities of leased lines not merged.....	10,127,347
Stocks and bonds of New England R. R.....	10,842,890
Securities of Providence & Stonington R. R., etc.....	2,146,227
Miscellaneous.....	222,902

Grand total capital expenditures.....\$60,425,738

The increase of capitalization has been \$57,370,900, and the balance has been taken from surplus earnings. The stock has been increased from \$15,500,000 to \$47,475,700, and there have been created \$16,397,200 of debentures and \$3,898,000 of notes payable, making the above increase.—V. 64, p. 470.

**New York & North Shore Ry.—New York & Queens County Ry.—New Long Island Trolley Company.**—This company has been incorporated with authorized capital stock of \$1,000,000 in the interest of the New York & Queens County Ry. (formerly Steinway Ry. Co.), to build 20 miles of trolley road on Long Island to connect Newtown, Jamaica, North Hempstead, Middle Village, Flushing, Whitestone, Willett's Point and Manhattan. It is hoped to have the lines running by next winter.—V. 64, p. 234.

**Ogdensburg & Lake Champlain RR.—Central Vermont RR.—Charles Parsons Appointed Receiver.—Foreclosure and Reorganization.**—The U. S. Circuit Court for the Northern District of New York has substituted Charles Parsons in place of Charles M. Hays and Edward C. Smith as receiver of the Ogdensburg & Lake Champlain RR. Messrs. Hays and Smith are the receivers of the Central Vermont RR., and they have been operating the Ogdensburg & Lake Champlain under an order of the Court which allowed them until March 1, 1897, to elect whether or not they would adopt the agreement of 1886 for the operation of the road as part of the Central Vermont system. They having not so elected, the road is ordered to be turned over to Mr. Parsons, who is Chairman of the bondholders' committee, at midnight March 21. It is expected that a decree in the foreclosure suit will be obtained within thirty days, and that at the sale the road will be bid in by the committee and a reorganization effected in accordance with the plan of August last; see CHRONICLE issue of August 29, page 353.—V. 64, p. 516, 518.

**Reading Company.**—See important item on page 570.

**St. Louis Salem & Arkansas RR.—St. Louis & San Francisco RR.—Sold in Foreclosure.**—The St. Louis Salem & Arkansas line was sold this week under foreclosure of the first mortgage and acquired for the St. Louis & San Francisco R. R., which holds nearly all of the bonds, they having been obtained per offer in V. 62, p. 1140.—V. 64, p. 185.

**South Jersey Traction.—Sold in Foreclosure.**—This property was sold in foreclosure at Bridgeton, N. J., March 11 to F. L. Lewis, representing the bondholders. The price was \$90,000.—V. 64, p. 331.

**Union Pacific Ry.—Morgan Plan for 6 per Cent Collateral Trust Gold Notes of 1891.—Notes to Be Purchased at Par and Refunded Under an Agreement with the Union Pacific Committee.**—Messrs. J. P. Morgan & Co. announce that at the request of holders of large amounts of the above-described notes, they have prepared a plan by which those not holders desiring immediate cash payment shall be accommodated, and at the same time the remaining noteholders (in consideration of an allowance of preferred stock of the reorganized Union Pacific Railway Co.) shall arrange to take over the collateral which is pledged for their present debt, and to liquidate the same within a definite period, in a manner to avoid unnecessary disintegration of the Union Pacific system.

The plan has been formulated with the co-operation of the committee consisting of Messrs. Moore, Alexander and Atkins that issued a plan of its own in December, 1896; see V. 63, p. 1116. The present plan provides that the existing gold note 6s shall be deposited, the depositor receiving a new 6 per cent certificate of \$1,000 for each \$1,000 notes deposited. The new certificates will be limited in amount to \$3,488,000, being the same as the amount of notes now outstanding. The deposited notes will be used by J. P. Morgan & Co. for the purpose of foreclosing the present trust and of purchasing the collateral held thereunder, so far as deemed advisable. The securities thus acquired are to be administered and gradually liquidated by the firm (substantially in

the same way they are now doing) for the purpose of redeeming the new certificates after paying interest thereon at 6 per cent per annum from Feb. 1, 1897.

In consideration of the opportunity thereby afforded to acquire in behalf of the Union Pacific all or any of the properties held for these new certificates, the Union Pacific Committee agrees that the reorganized Union Pacific Co. shall pay to each certificate holder 15 per cent par value in its new preferred stock when issued. If by February 1, 1902, there shall not have been realized a sum in cash (in addition to said preferred stock) equal to the par of the new certificates with interest accrued to that date, then all the securities shall be sold and the proceeds, to the necessary extent, shall be applied toward such payment; or, if insufficient then, first, to pay all interest, and, secondly, to make a ratable distribution on account of principal. The Union Pacific Reorganization Committee assumes no responsibility for the result of any such liquidation.

Arrangements have also been made with a syndicate to underwrite the plan, and to purchase any notes which the holders may desire to sell. Holders desiring to refund their notes are notified to deposit them with J. P. Morgan & Co., obtaining receipts therefor. Holders who prefer to sell their notes to the syndicate at par and interest are informed that they may do so at the same office.

The Moore Committee, under agreement of December 14, 1896, signifies its entire approval of the above-described arrangement and advises all noteholders who have deposited their notes with the Mercantile Trust Company, or with the American Loan & Trust Company, to surrender such receipts to Messrs. J. P. Morgan & Co. and obtain receipts under the new arrangement. Further action by this committee is abandoned. See further facts in advertisement in another page.

#### Agreement of Holders of Collateral Notes.

This agreement is made between the holders of the gold note 6s, parties of the first part, J. P. Morgan & Co. (the "depositaries") parties of the second part, and the Union Pacific "reorganization committee" party of the third part. It provides that the holders of the \$3,438,000 gold note 6s shall receive in exchange for their notes an equal amount of "certificates of interest" in the collateral, which shall be acquired by J. P. Morgan & Co. upon foreclosure of the collateral trust deed securing the gold notes. The certificates of interest will be for \$1,000 each, registrable as to principal, and carry ten semi-annual interest warrants. These warrants and also the certificates of interest themselves will be payable only in so far as the income derived from the interest or dividends on and the sale of the collateral shall suffice therefor; the new Union Pacific and the reorganization committee. It is provided, being under no obligation respecting the same. If, however, after paying to the holders of the certificates and warrants the full amount of such interest and principal a surplus shall remain, then such surplus is to be turned over to the reorganization committee or to the new Union Pacific company.

The agreement is a pamphlet of twenty-nine pages, but the more important provisions relating to the payment of principal and interest of the new certificates, the right to sell the collateral and the distribution among the certificate-holders of the new Union Pacific preferred stock are substantially as follows:

**APPLICATION OF INCOME FROM COLLATERAL SECURITIES.**—All sums in cash received by the depositaries for principal or interest upon any securities in the trust estate may be applied by the depositaries to the payment of all expenses of the trust and any balance shall be applied as follows:—

**FIRST—TO INTEREST PAYMENT.**—Semi-annually on the first days of February and August in each year such balance of moneys shall be applied to the payment to the holders of such warrants of installments equivalent to interest at the rate of 6 per cent per annum from Feb. 1st, 1897, upon the principal sum of \$1,000 in respect of each certificate then outstanding or the portion of such principal then remaining unpaid. In case the depositaries shall not be ready to pay in full any such semi-annual installment, then such installment, or such portion thereof as shall not be paid, shall thereafter be payable out of any such balance of moneys before payment of any subsequent installment, and in every such case of deferred payment interest thereon shall be paid at the rate of 6 per cent per annum.

**SECOND—TO PAYMENT ON ACCOUNT OF PRINCIPAL.**—Any surplus moneys remaining in the hands of the depositaries after paying all such semi-annual installments for interest theretofore payable, and after reserving such sums as may be deemed advisable for future expenses, and also not exceeding 6 per cent on the outstanding certificates, shall be applied by the depositaries according to any of the following methods, viz:—

(a) **PAYMENT OF CERTIFICATES WHEN DRAWN BY LOT.**—The depositaries may by lot designate outstanding certificates for payment at \$1,000 each, together with interest from the date of the last payment, such payment to be made after not exceeding six weeks' notice by advertisement; and from the date of payment specified in such notice no interest shall accrue or be payable to the holders of any certificates so designated. But upon surrender of any such certificate in respect of which full payment shall have been made as aforesaid, the holder thereof surrendering the same shall be entitled, as hereinafter provided, to receive \$150 in the preferred stock of such new company, at par, when such preferred stock shall be received by the depositaries.

(b) **PURCHASE OF CERTIFICATES.**—Or the depositaries may purchase certificates issued hereunder, either at the New York Stock Exchange or at public or private sale, certificates so purchased to be canceled.

(c) **PROPORTIONATE PAYMENTS ON ALL THE CERTIFICATES.**—Or the depositaries may apply the surplus moneys towards the equal proportionate payment of any part of the unpaid principal of all the certificates issued hereunder, and thereafter the semi-annual installments for interest at the rate of 6 per cent per annum shall be payable only upon the balance of principal up to \$1,000 remaining unpaid on every such certificate.

Whenever the depositaries shall have realized from the securities comprised in the trust estate sums in cash sufficient to pay all the outstanding certificates and warrants, then, in case such fifteen per cent of preferred stock shall have been received by them, as below provided, the depositaries shall deliver to the reorganization committee any surplus of bonds, stocks, securities and cash remaining in their hands.

**RIGHTS OF CERTIFICATES TO PRINCIPAL AND INTEREST.**—Neither the depositaries nor the reorganization committee assume any personal responsibility for the payment of any sum to the holders of the certificates or warrants issued hereunder; and no sums shall be payable to the holders of such certificates except to the extent and in the manner herein provided when and as declared by the depositaries out of the net proceeds of the trust estate.

**TRUST MAY BE LIQUIDATED IF PAYMENT IN FULL IS NOT MADE BY FEB. 1, 1902.**—In case on Feb. 1, 1902, the depositaries shall not have paid in cash the full principal sum of \$1,000 upon every such certificate and the interest as above specified, then the depositaries may, and, if requested in writing by the holders of not less than one-fifth in amount of all the certificates then outstanding, shall sell at public auction all the bonds, stocks and other securities then held, either as an entirety or in separate parcels, as depositaries may deem best.

The net proceeds of any such sale shall be applied, first, to the payment of any unpaid installment for interest to Feb. 1, 1902, with interest on deferred payments as above provided; secondly, to the ratable payment of unpaid interest thereon from Feb. 1, 1902, and, thirdly, to the payment of any unpaid balance of the principal sum of \$1,000 on each certificate.

**DISTRIBUTION OF NEW UNION PACIFIC PREFERRED STOCK.**—Whenever, pursuant to the plan of reorganization, the preferred stock of the new Union Pacific Company shall be issued, the reorganization committee will deliver to the depositaries \$1,273,200 par value of such preferred stock, being fifteen per cent of the collateral notes now outstanding. Upon receipt of such preferred stock the depositaries shall deliver to the holders of the certificates issued hereunder and then outstanding, severally and respectively, \$150 par value of such preferred stock for each certificate.

**RIGHT OF THE DEPOSITARIES TO SELL COLLATERAL AND OF THE NEW UNION PACIFIC OR THE COMMITTEE TO BUY THE SAME.**—All securities in the trust estate may be sold by the depositaries, at any time or times, at such prices as the depositaries in their discretion may deem proper, and at any stock exchange, or at private or public sale; but before making any sale of any shares of stock prior to Feb. 1, 1902, the depositaries shall give to the reorganization committee (or to the new Union Pacific Company) notice of the intention to make such sale, and of any offer made for the purchase of such stock at private sale. In any such case the reorganization committee shall have the preferential right to purchase such stock (all or none) on such terms as the depositaries may then be willing to accept, provided that within three days after such notice the reorganization committee shall agree to purchase the same on such terms and within five days thereafter shall pay therefor.

At any time, in their discretion, on such terms as they may deem reasonable, the depositaries may sell to the reorganization committee any stocks, bonds or other securities comprised in the trust estate.

**OPTION OF NEW UNION PACIFIC, OR THE COMMITTEE, TO PURCHASE ALL THE COLLATERAL AT ANY TIME.**—At any time after delivery of such preferred stock as aforesaid, the reorganization committee shall have the option to purchase all the trust estate by paying to the depositaries a sum in cash sufficient to pay all expenses under this agreement, and to enable the depositaries to pay to the holders of the outstanding certificates and warrants any principal and interest then remaining unpaid. Thereupon the depositaries shall publish a notice that on a specified day not more than six weeks thereafter they will be ready to pay such sums, and they shall make such payment upon presentation and surrender for cancellation of the respective certificates and the warrants for interest installments not theretofore paid.

**RIGHT OF NEW UNION PACIFIC TO VOTE ON STOCKS.**—Unless the reorganization committee shall have made default in the performance of any of its agreements herein contained, the depositaries prior to February 1, 1902, shall give to the reorganization committee, or to its nominees, or to the new Union Pacific Company, proxies to vote upon any shares of stock then held by the depositaries hereunder for the election of any directors and for any other purpose except as such election or purpose shall be objected to by the depositaries as prejudicial to the interests of the holders of the certificates issued hereunder. In case of a disagreement the depositaries shall be authorized to vote as they deem best.—V. 64, p. 472.

**Wilmington Newbern & Norfolk Ry.—Receiver Appointed.**—This company was placed by Judge C. H. Simonton, at Charleston, on Monday, in the hands of H. A. Whiting as receiver, on application of the State Trust Co of New York, the mortgage trustee. Interest on \$1,125,000 of bonds is in default. The road is eighty-eight miles long and its net earnings for the year ending June 30, 1896, were only \$4,099.

## Reports and Documents.

### MEXICAN NATIONAL RAILROAD CO.

TENTH ANNUAL REPORT—FOR THE YEAR ENDING  
DECEMBER 31, 1896.

CITY OF MEXICO OFFICE,  
PASEO DE LA REFORMA.

NEW YORK OFFICE,  
NO. 6 WALL STREET.

MARCH 1, 1897.

#### To the Stockholders and Bondholders :

The following report of the operation of your property for the year ending December 31, 1896, is respectfully submitted by the Board of Directors.

#### STATEMENT OF EARNINGS FROM ALL SOURCES AND DISBURSEMENTS UPON ALL ACCOUNTS FOR THE YEAR ENDING DECEMBER 31, 1896.

Earnings from the operation of the road, in Mexican currency.....\$5,299,025 77  
Cost of working the road.....2,773,068 06

Net over cost of working.....\$2,525,957 71

Equivalent in gold.....\$2,020,766 17

From which deduct extraordinary repairs and replacements, not properly chargeable to Capital Account.

	U. S. Currency.
Replacement of rails.....	\$13,624 88
Replacement of locomotives.....	16,791 00
Replacement of bridges.....	25,715 54
Stations and warehouses.....	41,395 39
Additions to tracks and right-of-way grounds.....	1,044 06
Additions to shops.....	19,071 14
Increasing permanent water facilities.....	3,399 14
Permanent ballasting.....	1,636 79
Change of line and gradient.....	2,591 16
	125,269 10

Balance remaining.....\$1,895,497 07

From which deduct the following general expenses, not included in the cost of working the road.

Exps. collection and distribution of subsidy.....	\$1,559 43
Expenses London Agency.....	5,942 91
Exchange.....	\$794,312 54
Less interest and discount.....	904 20
	793,408 34
Expenses in connection with settlement of debts of old company.....	1,009 20
Cintura bond forfeiture.....	3,200 00
	805,119 88

Net over all expenses, renewals and replacements.....\$1,090,377 19  
Interest on Prior Lien Bonds for 1896.....687,755 00

\$402,622 19

Balance from year 1895.....\$187,176 36  
Less 1½ per cent dividend declared on "A" bonds in 1896.....182,475 00

4,701 36

Balance remaining in hand.....\$407,323 55

The tables numbered from I. to VIII., submitted with the Treasurer's report [in pamphlet report] supply further information as to Earnings and Expenses.

A statement will be found under the head of Operation, enumerating the properties which have been produced or acquired through the expenditure of the sums stated above as having been charged against "Extraordinary Repairs and Replacements."

The increase in the amount charged against Exchange, as compared with last year, is due chiefly to the enlarged volume of traffic, which required increased purchases of foreign supplies payable in gold, and to the increased surplus earnings which are converted into gold.

The concession for your Cintura Road contemplated its construction entirely around the City of Mexico, and a bond in the sum of \$8,000 was required by the Government as security for its completion, which was given with individual sureties.

At the time you took over the property, in 1887, only about half of the line was completed, extending from the Mexican National terminals on the west of the city to the terminals of the Inter-oceanic Railway on the east, connecting at intermediate points with the Mexican Railway, the Mexican Central Railway, the Hidalgo Railway, and the Cuernavaca & Pacific Railway; the two last named having been extended into the city since the construction of the Cintura Road. The portion completed has served and is serving a useful purpose, but it was not believed that the remaining part could be operated with profit if built, and the time allowed for its completion was consequently allowed to lapse. The Government declared the concession forfeited so far as it applied to the unfinished half, and allowing credit upon the bond for the completed half; forfeited the remainder.

The Item "Bond Forfeited" in the above statement for \$3,200 in United States Currency, which, at the arbitrary rate of conversion used in these accounts, is the equivalent of \$4,000 in Mexican currency, represents the payment upon this bond.

The concession for the line from Matamoros to a junction with the main line of the National has been canceled so far

as it related to the unfinished portion, the time prescribed for its completion having elapsed.

No obligation was assumed by your Company on taking over the properties to complete this line, and no penalty is incurred through the cancellation of the unused part of the concession.

The time having passed within which the Sabinas Coal Road was to have been built, that concession has also been canceled. The line was proposed to be built from a point on the main stem at or near Lampasas, about seventy-five miles, in a northwesterly direction to the Sabinas district, where extensive beds of coal were supposed to exist. An exhaustive examination of those fields made in the early period of your undertaking demonstrated that coal was not there in workable quantities; and consequently there no longer existed a purpose for its construction.

The pledge given to the Government as security for the construction of the main line does not apply to this branch, and besides, the advisability of abandoning the purpose to construct was too obvious not to be cheerfully recognized by the Government.

The original and amended concession under which your predecessor Company was operating provided for a pledge of money value for the faithful compliance with the concessionaire's obligations to construct the Main or International line and the Pacific line; and at the time you took over the obligation to complete the International line under the Matheson-Palmer agreement in 1886, the pledge was resolved into a deposit of \$150,000, par value, of Mexican Government 3 per cent internal bonds. Half the cost of these bonds were paid for by your Company and half by the Mexican National Construction Company, and the whole, taking the place of securities formerly on deposit by the Mexican National Construction Company for the completion of both lines, continued with conditions technically unchanged. Obviously now you are entitled to have your portion of the pledge returned, either by the Mexican Government in recognition of your having complied with the obligation assumed by you to construct the International line, or by the Construction Company, in recognition of the fact that the pledge now stands for its benefit only and responsible only for the obligations to construct the lines assumed by it.

The Federal Government has granted to your Company a concession to extend its Patzcuaro Branch to the town of Uruapan, in the State of Michoacan, a distance of about eighty kilometers, and a subvention of \$5,000 per kilometer, payable on each 30th of June, for the number of kilometers previously completed, in 5 per cent Government bonds.

The State of Michoacan, in addition to this, pays the Company in aid of its construction the sum of \$160,000, payable in cash in annual instalments of indefinite amounts, but not less than \$12,000 per year.

The surveys for locating the road are about being finished, and construction will soon begin. It is expected to complete its construction during the present year.

The country through which this extension will be built is rich in agricultural possibilities and well watered, and has much available water power for the encouragement of manufacturing enterprises. There is already considerable development of agriculture, manufacturing and trade, and the increased facilities of transportation that will be afforded by the construction of this road will, it is believed, rapidly advance this progress and prove the extension a profitable feeder to your existing lines.

In addition to this a considerable field will be opened for a supply of wood and timber, which is a matter of no small importance to the continued economical operation of your main line.

The work of opening the harbor of Aransas Pass to deep draught vessels, discussed in the last annual report as promising value to your property, is still progressing, and with confidence on the part of its projectors in ultimate success

#### OPERATION.

The following statement gives a comparison of the results of operating with the year 1895:

All Divisions.	Mexican Currency.
Gross earnings.....	\$5,299,025 77
Gross earnings last year.....	4,513,205 91
Increase in gross earnings.....	\$785,819 86
Cost of working the line.....	\$2,773,068 06
Cost of working the line last year.....	2,441,797 41
Increase in working expenses.....	\$331,270 65
Expenditures for betterments and additions to property.....	\$156,586 37
Expenditures for betterments and additions to property last year.....	121,534 70
Increase.....	\$35,051 67
Net over actual working expenses.....	\$2,515,957 71
Net over actual working expenses last year.....	2,071,408 50
Increase in net over actual working expenses.....	\$454,549 21
Percentage of gross earnings for working road.....	52.33
Percentage of gross earnings for working road last year.....	54.10
Decrease in working percentages.....	01.77
Number of miles run by all revenue trains.....	2,529,212
Number of miles run by all revenue trains last year.....	2,202,877
Percentage of increase in mileage.....	14 81

Gross earnings per revenue train mile.....	Mexican Currency. \$2 09 51
Gross earnings per revenue train mile last year.....	2 04 88
Percentage of increase per mile run.....	2 24
Operating expenses per revenue train mile.....	\$1 09 65
Operating expenses per revenue train mile last year.....	1 10 85
Percentage of decreased expense per mile.....	1 08
Net earnings per revenue train mile.....	\$0 99 87

Percentage of increase.....	18 57
Net earnings per mile of road operated.....	2 072 85
Net earnings per mile of road operated last year.....	1 699 84
Percentage of increase.....	21 94

The foregoing comparison, together with the data given in table No. 8 of the Treasurer's report, will afford assistance to a study of the physical management of the property; and the tabulated statement on the last page of this report will afford an interesting exposition of the progress of the earning power of the property from the first year it was operated as a through line, in 1889, to the close of 1896.

The property has been well maintained throughout; the expenditures for that purpose having not only met the needs of repairs, but have, in fact, added largely to its improved condition, and, therefore, to that extent to its permanent value.

[Here follows in the pamphlet report a statement of the improvements and additions that have been produced or acquired through the expenditures under the head of "Extraordinary Repairs and Replacements," stated on the first page of the report—Eps.]

The extraordinary floods on the Northern Division in September, 1895, and referred to in the report of that year, cut the line in many places, but at two specific points, Santa Maria and Los Muertes, the most serious breaks occurred, and demonstrated weak construction and defective location, which involved hazards for the future important to be remedied. To one of these points, Santa Maria, the improvement has been completed by making some slight change in the line and replacing a long wood trestle with an iron bridge on masonry abutments, with a span of 100 feet. The cost has been \$28,070 01, as shown under the head of replacement of bridges in the statement above.

Los Muertes involves a more radical change of line and more expensive work, costing probably over \$90,000, Mexican currency; but the improvement to be effected which will insure safety and reduce the cost of operation, amply justifies the undertaking. It would, perhaps, be more accurate to say that the strengthening of the line must be effected and that the additional cost in putting the track where it should be, over the cost of strengthening the old location, is so small that it cannot admit of discussion in the light of the advantages to be obtained. The work has been commenced. It is expected to distribute its cost over two years and thereby avoid making any material increase in extraordinary expenses over the average of the past several years.

Reference to the statement of rolling stock published herewith will disclose the losses or gains in equipment. We have added by purchase to the passenger equipment two dining cars, and by construction in our shops one baggage car. There has been built in the company's shops during the year 100 box cars, and the expenses of construction, less the credits which have accrued to the car construction accounts from sale of old cars and worn-out car materials, etc., have been charged out in current operating expenses.

The final adjustment of the losses and gains in the freight equipment is as follows:

We have on hand twenty-three cars less than at the beginning of last year, having lost in condemned, wrecked and sold 123, and gained by construction 100.

As those disposed of comprised 108 of the old light capacity cars, and those built were of the standard 40,000 pounds capacity, the result is a gain, both in value of stock and in carrying capacity.

#### TRAFFIC.

In view of the fact that there has been large gains in the aggregate gross earnings, and no falling off in any of the specific sources of revenue, except a slight decrease in the Cintura Branch, it is believed the results may be accepted as satisfactory and extremely encouraging.

The passenger business has only held its position with last year, but receipts from freight traffic show a large advance, while the increased revenue from the express and telegraph is very satisfactory.

The total earnings from all sources has increased 17 4-10 per cent over last year. Earnings from both imports and exports increased very heavily. Earnings for local traffic have increased 4 per cent.

The increase in imports is abnormally large and is chiefly due to corn importations made necessary in consequence of the droughts which prevailed in many parts of the Republic during the year and seriously impaired the corn crops, but not so comparable to the drought of 1892.

Enduring actions which had been in progress for some months such preferred settlement of the question between the north- (b) Prachand the lines through Vera Cruz, which had for certificates 15 months previous found their expressions in a change of rates, culminated in November last. The

able positions as to the management of traffic from the United States, which they insisted upon in 1894 and which caused the ruptures between the companies, an agreement was reached by which the Mexican Traffic Association was re-established and the European traffic pooled between the four lines, including a firm agreement for the maintenance of rates on United States traffic and its methodical control on legitimate lines.

Provision is made for the agreement to run for a definite period and for its continuance thereafter as long as satisfactory without further special contract, but the agreement to maintain the European pool is concurrent with and dependent upon the faithful carrying out of the agreement on United States traffic. The failure to maintain just such an agreement was the cause of the rupture, and the long war of rates which ensued; but it is hoped that the experience of the past may have brought wisdom if not profit, and that the result may be broader views and more careful conservatism which should assure all the railways in the enjoyment of a long period of freedom from similar unnecessary strife.

#### FIRST MORTGAGE BONDS AND SUBSIDY.

The usual statements of the Trustees of the Subsidy, showing the cash collected and its application, are published herewith.

The following statement gives the number of bonds which have been drawn up to the close of 1896:

Drawn for redemption in 1891.....	\$319,000 00
" " " " 1892.....	305,000 00
" " " " 1893.....	298,000 00
" " " " 1895.....	46,000 00
" " " " 1896.....	119,000 00
	\$1,087,000 00
Paid and canceled up to close of 1895.....	\$954,000 00
Paid and canceled during 1896.....	118,000 00
	1,072,000 00

Leaving yet to be paid and canceled..... \$15,000 00

It is the sad office of your Board to record that since the close of the year death has claimed one of its valued and esteemed members and faithful officers, Mr. Josiah Anstice Horsey, First Vice President.

Mr. Horsey was the first President of the company under its provisional organization, and has been a member of your Board of directors from its origin, serving your interests faithfully and loyally.

The contemplation of the loss is the more painful to family, friends and associates from the distressing circumstances under which it occurred, having been the result of a painful accident which happened to him while disembarking from a railway train at Chelmsford, Essex County, England, on the 12th day of February, 1897, while on a short business trip connected with the affairs of your company.

Respectfully submitted,

W. G. RAOUL,

President.

[On page 563 will be found a detailed statement of earnings and expenses for a series of years, the balance sheet, etc.]

**Reading Company.—New Securities to Be Ready Early in April.**—The new securities are being rapidly signed and it is expected will be ready for delivery early in April, at which time they will also be listed on the New York Stock Exchange, probably about April 8. The new securities will be issued by the *Reading Company*, which is the owner of all the stock of both the Philadelphia & Reading Railway Company and the Coal Company, and also of all the other stocks and bonds which were formerly owned by the Railroad Company, as well as of various other properties, all these stocks, bonds and properties being subjected to the new mortgage. The company will shortly begin issuing monthly statements showing the earnings, expenses and fixed charges of the entire property.

**Official Statement as to Position of New Company on Basis of Last Year's Operations.**—The CHRONICLE has been furnished with the following statement showing the earnings of all companies for the year ending Nov. 30, 1896, after paying all fixed charges as they will stand when the plan is fully carried out.

	Deficit.	Surplus.
Railway Company.....		\$130,159
Coal & Iron Company.....	\$625,356	
Reading Company.....		1,303,261
Total.....	\$625,356	\$1,433,420
Balance surplus, all companies.....		\$868,064

Stated in the simpler form, which was adopted in the plan of reorganization, and eliminating all accounts between the three companies

Net earnings of entire property (including income from all sources) in year ending November 30th, 1896, were \$9,480,736  
Fixed charges of entire property on completion of reorganization will be \$8,672,672

For the present year, pending completion of re-funding scheme, etc., the fixed charges will be, perhaps, \$300,000 to \$400,000 more.—V. 64, p. 470.

**St. Joseph & Grand Island RR.—Decree Value of Unassented Bonds.**—Each of the 298 \$1,000 first mortgage bonds not assenting to the reorganization plan is entitled to receive in cash, as its share of the proceeds from the foreclosure sale, \$421 54. The non-assenting second mortgage bonds are of course wiped out by the foreclosure of the first mortgage.—V. 64, p. 472.

# The Commercial Times.

## COMMERCIAL EPITOME

FRIDAY NIGHT, March 19, 1897.

The feature of the week was the opening of the Fifty-fifth Congress in extraordinary session on Monday. The proposed new tariff law as prepared by the Ways and Means Committee and presented in the House of Representatives has elicited wide discussion, and business circles express various opinions of the measure. The effect on business has not been material. The floods in the lower Mississippi Valley and the reported high water in the Mississippi River and tributaries have had a tendency to interrupt trade. The Arbitration Treaty has again been introduced in the Senate, and indications are that it will be reported with amendments, but just what the amendments will be is not fully known. During the last few days of the week the political situation of Europe has been reported as less favorable, but other than to restrict speculation it has had little or no influence locally.

Lard on the spot has had a slightly increased demand from refiners but the export trade has been quiet. Prices have advanced and the close was steady at 4.50c. for prime Western, 4.20@4.25 for prime City and 4.75c. for refined for the Continent. The local market for lard futures has been neglected, but at the West there has been a fair amount of activity to the trading, and prices have advanced on buying by packers and shors, stimulated by the continued moderate receipts of swine.

### DAILY CLOSING PRICES OF LARD FUTURES

	Sat.	Mon.	Tues.	Wed.	Thur.	Fri.
May.....c.	4.55	4.60	4.62	4.55	4.55	4.57

Pork has continued in moderate demand and prices have advanced, closing at \$8.75@9.25 for mess, \$9.75@10.50 for family and \$9.50@10.75 for short clear. Cut meats have been in only limited demand but values have held steady, closing at 5@5.5c. for pickled bellies, 12@10 lbs. average, 5.1@5.3c. for pickled shoulders and 8.5@9.5c. for pickled hams. Beef has been firm but quiet, closing at \$7.00@8.00 for extra mess, \$7.50@9.00 for packer, \$9.00@11.00 for family and \$13.00@15.00 for extra India mess. Beef hams have advanced, closing firm at \$19. Tallow has been quiet and unchanged at 3.5c. Oleo-stearine has had a moderate sale and the price has advanced to 4.5c. Lard stearine has been firm, closing at 4.5@5c. Cotton-seed oil has sold slowly; the close was quoted steady at 20@20.5c. for prime crude and 23.5c. for prime yellow. Butter has continued in fair demand for choice at steady prices, closing at 10@19c. for creamery. Cheese has met with a fair trade at steady values, closing at 9@12.5c. for creamery. Fresh eggs have been in large supply and prices have further declined to 10.5c. for choice Western.

The Brazil grades of coffee have continued to meet with a slow trade, and under free offerings prices have further declined, closing dull at 8.5c. for Rio No. 7 on the spot and 8.5c. for shipment. The mild grades have had very little call and the close was weak, with good Cucuta quoted nominally at 16c.; standard Java was at 25@25.5c. There has been only a limited amount of business transacted in the market for contracts, but prices have declined, breaking sharply at the close under free offerings, prompted by large receipts at primal points. Following were the final asking prices:

March.....	8.30c.	June.....	8.25c.	Sept.....	8.30c.
April.....	8.20c.	July.....	8.25c.	Oct.....	8.35c.
May.....	8.20c.	Aug.....	8.30c.	Dec.....	8.35c.

Raw sugars have advanced on restricted offerings, closing firm at 8.5-16c. for centrifugals, 96-deg. test and 2.15-16c. for muscovado, 80-deg. test. Refined sugars have continued in demand and prices have further advanced; granulated closed at 4.5c. Teas have had a moderate call at steady prices.

The better grades of Kentucky tobacco have been in increased supply and business has been more active at full values. Sales 275 bbls. Seed leaf tobacco has been in fair demand and firm. Sales for the week were 4,010 cases, including 331 cases 1895 crop, New England Havana, 14@25c.; 250 cases 1895 crop, State Havana, 9@15c.; 625 cases 1894 crop, Zimmers, 18@16.5c.; 600 cases 1895 crop, Zimmers, 15.5@17c.; 100 cases 1894 crop, Gebhart, 12c.; 100 cases 1896 crop, Zimmers, 5c.; 290 cases 1895 crop, Pennsylvania Havana, 12.5@13c.; 264 cases 1894 crop, Pennsylvania Havana, 12@15c.; 200 cases 1895 crop, Pennsylvania acid leaf, 11@12c.; &c. &c.; also 800 cases Havana at 70c. to \$1.10 in bond and 450 bales Sumatra at 5c. to \$2 in bond.

The market for Straits tin has been easier, but the close was fairly active and steady at 13.30@13.35c. Ingot copper has sold slowly and the close was barely steady at 11.5c. for Lake. Lead has been in fair demand, closing firm at 3.40@3.45c. for domestic. Spelter has been quiet, but prices have advanced, and the close was firm at 4.20@4.25c. for domestic. Pig iron has sold slowly and prices have ruled easy at \$10.50@12.50 for domestic.

Refined petroleum has been unchanged, closing at 6.3c. in bbls., 3.80c. in bulk and 7c. in cases; naphtha dull at 6.5c. Crude certificates have been neglected. Credit balances have been steady at 91c. Spirits turpentine has sold slowly and prices have further declined to 29@29.5c. Rosins have been quiet and unchanged, closing at \$1.65 for common and good strained. Wool has been in demand and prices have advanced. Hops have had only a limited call and the tone of the market has been easy.

## COTTON.

FRIDAY NIGHT, March 19, 1897.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 65,459 bales, against 79,931 bales last week and 95,263 bales the previous week, making the total receipts since the 1st of Sept., 1896, 6,180,865 bales, against 4,636,475 bales for the same period of 1895-6, showing an increase since Sep. 1, 1896, of 1,494,390 bales.

Speculation in cotton for future delivery has been dull. The daily changes in prices have been slight, but the tendency has been to work towards a higher basis. At the close prices show an advance of about 10 points. Saturday the market was slightly higher. The easier feeling over the European political situation produced increased confidence and despite the slowness of the trading prices advanced slightly, closing 2 to 5 points up for the day. On Monday the advices received from the English markets, both spot and futures, were of an encouraging nature, and reports of rising waters in the Mississippi Valley had a tendency to stimulate limited buying by local traders, and prices advanced 3 to 4 points for the day. The market was slightly higher during early 'Change on Tuesday in response to stronger foreign advices. Subsequently, however, under realizing sales by longs the market reacted, and the close showed prices unchanged to 1 point lower for the day. Wednesday weaker foreign advices caused an easier market at the opening but later in the day a small crop movement, together with advices from the South reporting firm markets and an improved spot trade latterly, stimulated some buying, and prices closed at an advance of 2 points. Thursday there was a dull but slightly higher market during early 'Change in response to foreign advices and reports from the South of the critical condition owing to the rising waters. Toward the close there was selling to realize profits and prices weakened, closing 1 to 4 points lower for the day. To-day there was a dull and narrow market. At the opening prices showed no changes. Later in the day, however, advices from the South reporting fear of floods had a strengthening influence, but the reports on the Cretan situation had a tendency to restrict speculation. The close was steady at an advance of 2 to 3 points for the day. Cotton on the spot has had a moderate sale and prices have been steady. To-day the market was  $\frac{1}{2}$ c. higher, closing steady at  $\frac{3}{4}$ c. for middling uplands.

The total sales for forward delivery for the week are 372,300 bales. For immediate delivery the total sales foot up this week 7,598 bales, including 2,883 for export, 2,316 for consumption, — for speculation and 2,400 on contract. The following are the official quotations for each day of the past week—March 13 to March 19.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

Tinnevely Good, Liverpool.....	31 3/4d.	4 1/4d.	3 3/4d.	4 1/2d.

The imports into Continental ports the past week have been 73,000 bales.

The above figures indicate an increase in the cotton in eight to-night of 67,459 bales as compared with the same date of 1896, a falling off of 1,063,167 bales from the corresponding date of 1895 and a decrease of 731,217 bales from 1894.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1895-96—is set out in detail below.

TOWNS.	Receipts This week.	Receipts Since Sept. 1, 1896.	Shipments This week.	Shipments Since Sept. 1, 1896.	Stock This week.	Stock Sept. 1, 1896.

Total, all towns.....	30,543	3,322,035	55,964	3,322,035	30,543	3,322,035

\* This year's figures are estimated.  
\* Last year's figures are for Newberry, S. C.

The above totals show that the interior stocks have decreased during the week 23,180 bales and are now 33,044 bales less than at same period last year. The receipts at all the towns have been 2,541 bales more than same week last year and since Sept. 1 they are 865,559 bales more than for same time in 1895-96.

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns.	
	1897.	1896.	1895.	1897.	1896.	1895.	1897.	1896.
Feb. 12.....	119,423	106,446	132,989	429,094	458,279	442,289	104,117	85,582
" 19.....	84,394	109,395	91,807	401,905	438,487	402,269	57,745	89,003
" 26.....	84,395	95,659	137,940	374,238	410,983	402,728	56,728	63,155
Mch. 5.....	95,260	86,280	119,835	350,127	381,268	388,860	71,155	58,571
" 12.....	79,931	71,518	132,381	323,319	362,634	352,976	53,123	49,884
" 19.....	65,450	69,460	123,133	301,139	334,183	344,836	43,279	41,009

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1896, are 6,361,410 bales; in 1895-96 were 4,987,958 bales; in 1894-95 were 7,399,049 bales.

2.—That although the receipts at the outports the past week were 63,459 bales, the actual movement from plantations was only 43,279 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 41,009 bales and for 1895 they were 113,993 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Mch. 19 and since Sept. 1 in the last two years are as follows.

March 19.	1896-97.		1895-96.	
	Week.	Since Sept. 1	Week.	Since Sept. 1
Shipped—				
Via St. Louis.....	8,229	454,187	9,211	455,848
Via Cairo.....	4,579	240,634	5,218	210,987
Via Parker.....	156	14,537	350	14,613
Via Evansville.....		2,387		68
Via Louisville.....	2,610	119,996	2,266	115,076
Via Cincinnati.....	3,934	121,546	2,827	78,023
Via other routes, &c.....	1,326	107,141	823	76,744
Total gross overland.....	20,835	1,060,428	20,695	951,359
Deduct shipments—				
Overland to N. Y., Boston, &c.....	4,427	278,717	5,823	212,825
Between interior towns.....	78	3,531	16	2,901
Inland, &c., from South.....	805	29,068	1,205	38,055
Total to be deducted.....	5,310	311,316	7,044	253,781
Leaving total net overland*.....	15,525	749,112	13,651	697,578

\* Decrease during week.

The foregoing shows that the week's net overland movement this year has been 15,525 bales, against 13,651 bales for the week in 1896, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 51,534 bales.

In Sight and Spinners' Takings.	1896-97.		1895-96.	
	Week.	Since Sept. 1	Week.	Since Sept. 1
Receipts at ports to Mch. 19.....	65,459	6,180,865	69,460	4,686,475
Net overland to Mch. 19.....	15,525	749,112	13,651	697,578
Southern consumption to Mch. 19.....	19,000	5,550,000	17,000	568,000
Total marketed.....	99,984	7,514,977	100,111	5,952,053
Interior stocks in excess.....	22,180	180,545	28,451	301,483
Came into sight during week.....	77,804		71,660	
Total in sight Mch. 19.....	77,804	7,695,522		6,253,536
North'n spinners tak'g to Mch. 19.....	18,417	1,354,664	38,366	1,364,340

\* Including movement by rail to Canada.

It will be seen by the above that there has come into sight during the week 77,804 bales, against 71,660 bales for the same week of 1896, and that the increase in amount in sight to-night as compared with last year is 1,441,936 bales.

**WEATHER REPORTS BY TELEGRAPH.**—Advices to us by telegraph from the South this evening denote that rain has been quite general during the week and that at many points the rainfall has been excessive. In sections of Southern and Western Texas, however, more rain is needed. The Mississippi River at Memphis is one and a-half feet above the highest water mark previously recorded, and much land has been overflowed. In districts of Alabama and Mississippi some lowlands have been inundated. On the whole, farm work has been much retarded, or suspended, as a result of the wet weather.

**Galveston, Texas.**—Farm work has been retarded, but the weather has been very beneficial to farming interest in general, although more rain is needed over the southern and western portions of the State. It has been showery on four days of the week, the precipitation reaching four hundredths of an inch. The thermometer has averaged 60, ranging from 46 to 75.

**Palestine, Texas.**—The rain has put ground in fine condition. Farm work has been retarded but crops are looking well. We have had rain on six days of the past week, to the extent of two inches and seventy hundredths. The thermometer has ranged from 39 to 76, averaging 58.

**Huntsville, Texas.**—There has been rain on two days during the week, the rainfall being eighty hundredths of an inch. Average thermometer 59, highest 78 and lowest 49.

**Dallas, Texas.**—Rain was beneficial. Ground is now in good condition. We have had heavy rain on two days of the week, to the extent of two inches and twenty nine hundredths. The thermometer has averaged 58, the highest being 84 and the lowest 32.

**San Antonio, Texas.**—It has rained beneficially on four days of the week, the precipitation reaching eighty-two hundredths of an inch. The thermometer has averaged 64, ranging from 43 to 84.

**Luling, Texas.**—Crops need good rains. We have had light rain on three days of the week, to the extent of forty-one hundredths of an inch. The thermometer has ranged from 42 to 84, averaging 65.

**Columbia, Texas.**—There has been no rain during the week. Average thermometer 66, highest 82 and lowest 51.

**Cuero, Texas.**—The weather has been favorable for crops the past week, but more rain is needed. We have had light rain on three days of the past week, to the extent of sixty-five hundredths of an inch. The thermometer has averaged 67, the highest being 88 and the lowest 46.

**Brenham, Texas.**—It has rained beneficially on two days of the week, the precipitation reaching ninety hundredths of an inch. The thermometer has averaged 60, ranging from 40 to 80.

**Fort Worth, Texas.**—There has been heavy rain on two days during the week, the rainfall being two inches. Average thermometer 58, highest 83, lowest 32.

**Weatherford, Texas.**—Rain has fallen heavily on two days of the week, the precipitation being two inches. The thermometer has averaged 56; the highest being 80 and the lowest 32.

**New Orleans, Louisiana.**—There has been rain on one day of the week, the rainfall reaching two inches and eight hundredths. The thermometer has averaged 70.

**Shreveport, Louisiana.**—We have had rain on five days during the past week, to the extent of three inches and twenty five hundredths. The thermometer has ranged from 38 to 73, averaging 55.

**Columbus, Mississippi.**—The wet weather retards planting operations. An overflow of the Tombigbee River is doing damage to lowlands. Rainfall for the week two inches and forty-six hundredths, on five days. The thermometer has averaged 63, the highest being 80 and the lowest 46.

**Leland, Mississippi.**—It has rained during the week, to the extent of five inches and forty-nine hundredths. The thermometer has averaged 53, ranging from 38 to 76.

**Vicksburg, Mississippi.**—There has been rain on five days during the week, the rainfall reaching seventy-five hundredths of an inch. Average thermometer 60, highest 79 and lowest 43.

**Meridian, Mississippi.**—Continued heavy rains prevent preparations for planting.

**Little Rock, Arkansas.**—We have had rain on six days of the past week, the precipitation reaching five inches and sixty four hundredths. The thermometer has averaged 58, ranging from 33 to 69.

**Helena, Arkansas.**—Heavy showers on each day of the past week has resulted in a precipitation of eight inches and sixty-five hundredths. The river is four inches below the highest water mark, with prospects of a rise of at least two feet more unless it veer away. A disastrous overflow is expected on the west side of the river and reaching to the Gulf. Not much work has been done this week except on levees. The weather is now warm, with indications of more rain. The thermometer has ranged from 39 to 66, averaging 48.

**Memphis, Tennessee.**—All farm work has been suspended. The river is now thirty-seven and one-tenth feet on the gauge or four and one-tenth feet above the danger line, and one and five-tenths feet above the highest water previously recorded. There has been rain on each day during the week, the precipitation reaching four inches and forty-nine hundredths and the weather now looks threatening. Average thermometer 50, highest 67 and lowest 34.

**Nashville, Tennessee.**—Rain has fallen the past week, the

precipitation reaching three inches and fifty hundredths. The thermometer has ranged from 30 to 66, averaging 49.

**Montgomery, Alabama.**—Low lands are partly overflowed, but the inundation is doing good, as it will mean a saving of many tons of fertilizers. Farm operations are however delayed. The week's rainfall has been three inches and sixty-nine hundredths on three days. The thermometer has averaged 64, the highest being 72 and the lowest 57.

**Mobile, Alabama.**—Continuous excessive rains in the interior. The river situation is critical. Lowlands have been inundated. Planting preparations are generally backward. Rain has fallen on five days of the week to the extent of forty-seven hundredths of an inch. Average thermometer 70, highest 79 and lowest 57.

**Maitson, Florida.**—We have had showers on two days of the week, the precipitation being too small to measure. The thermometer has ranged from 53 to 90, averaging 76.

**Savannah, Georgia.**—There has been rain on four days of the week, the precipitation reaching one inch and sixty-one hundredths. The thermometer has averaged 67; the highest being 83 and the lowest 51.

**Augusta, Georgia.**—It has rained on three days of the week, the precipitation reaching two inches and sixty-seven hundredths. The thermometer has averaged 57, ranging from 41 to 75.

**Charleston, South Carolina.**—Rain has fallen on six days of the week, the rainfall reaching two inches and eleven hundredths. Average thermometer 61, highest 74, lowest 50.

**Stateburg, South Carolina.**—Farm work is backward. The weather has been cloudy all the week, with rain on five days, the precipitation being one inch and eighty-five hundredths. The thermometer has averaged 53 6, the highest being 71 and the lowest 43.

**Greenwood, South Carolina.**—There has been rain during the week, to the extent of one inch and forty-eight hundredths of an inch, on four days. The thermometer has averaged 50, ranging from 43 to 58.

**Wilson, North Carolina.**—The weather has been very bad for two months and farmers are very much behind with their work. We have had rain on four days during the week, the precipitation reaching two inches and ninety-seven hundredths. The thermometer has ranged from 38 to 62, averaging 52.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 9 o'clock March 18, 1897, and March 19, 1896.

	Mch. 18, '97.	Mch. 19, '96.
New Orleans.....	Above zero of gauge. 14.2	8.1
Memphis.....	Above zero of gauge. 36.9	10.1
Nashville.....	Above zero of gauge. 43.9	29.8
Shreveport.....	Above zero of gauge. 10.2	12.2
Stateburg.....	Above zero of gauge. 42.7	18.6

**JUTE BUTTS, BAGGING, &C.**—The market for jute bagging has been very dull during the past week and prices are nominal at 4½c. for 1½ lbs., 5c. for 2 lbs. and 5½c. for standard grades in a jibbing way. Car-load lots of standard brands are quoted at 4½c. for 1½ lbs., 5c. for 2 lbs. and 5½c. for 2½ lbs. f. o. b. at New York. Jute butts are featureless at 1 1-16c. for paper quality, 1 40c. for mixing and 1 bagging, all to arrive.

**INDIA COTTON MOVEMENT FROM ALL PORTS.**—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to March 18.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

**ALEXANDRIA RECEIPTS AND SHIPMENTS.**—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following

are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, March 17.	1896-97.	1895-96.	1894-95.
Receipts (cantars)....	95,000	60,000	65,000
This week.....	5,256,000	5,001,000	4,390,000
Since Sept. 1.....			
Exports (bales)....	This week. Since Sept. 1.	This week. Since Sept. 1.	This week. Since Sept. 1.
To Liverpool.....	6,000 269,000	8,000 284,000	5,000 231,000
To Continent.....	6,000 257,000	11,000 249,000	5,000 260,000
Total Europe.....	12,000 526,000	19,000 533,000	10,000 491,000

\* A cantar is 98 pounds.  
Of which to America in 1896-97, 51,433 bales; in 1895-96, 46,785 bales; in 1894-95, 34,840 bales.

This statement shows that the receipts for the week ending Mch. 17 were 95,000 cantars and the shipments to all Europe 12,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is steady for both yarns and shirtings. The demand for both India and China is poor. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1897.						1896.					
	32s Cop. Twist.		8½ lbs. Shirt- ings, common to finest.		Cott'n Mid. Ups		32s Cop. Twist.		8½ lbs. Shirt- ings, common to finest.		Cott'n Mid. Ups

EXPORTS OF COTTON GOODS FROM GREAT BRITAIN.—Below we give the exports of cotton yarn, goods, &c., from Great Britain for the month of February and since October 1 in 1896-97 and 1895-96, as compiled by us from the British Board of Trade returns. It will be noticed that we have reduced the movement all to pounds.

	Yarn & Thread.		Cloth.		Total of All.	
000s omitted.	1896-97.	1895-96.	1896-97.	1895-96.	1896-97.	1895-96.
October.....	23,469	24,978	419,049	448,847	76,773	85,360
November.....	21,514	28,704	397,483	418,887	75,865	80,667
December.....	22,205	19,747	431,830	409,393	82,208	78,442
Total 1st quar.	67,191	68,399	1,248,371	1,277,127	238,846	244,469
January.....	21,581	32,696	447,452	437,490	85,228	83,293
February.....	19,909	21,421	363,019	453,006	69,318	86,235
Stocks and socks.....					494	533
Sundry articles.....					10,796	19,771
Total exports of cotton manufactures.....					511,787	538,190

The foregoing shows that there has been exported from the United Kingdom during the five months 511,787,000 lbs. of manufactured cotton, against 538,130,000 lbs. last year, or a decrease of 26,343,000 lbs.

A further matter of interest is the destination of these

exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during February and since October 1 in each of the last three years:

EXPORTS OF PIECE GOODS AND YARNS TO PRINCIPAL COUNTRIES IN FEBRUARY AND FROM OCTOBER 1 TO FEBRUARY 28.

	February.			Oct. 1 to Feb. 29.

## BREADSTUFFS.

FRIDAY, March 19, 1897.

There have been few changes in the market for wheat flour. Early in the week sales of the extreme low grades were made for export. Exclusive of these sales, however, business has continued slow. Demand has been limited to a few hand-to-mouth orders from the local trade, but as supplies have been small there has been no pressure to sell, and prices have held steady. There has been a steady market for city mills but only a limited number of sales have been made. Rye flour has had very little call and prices have been lowered 10c. per bbl. Corn meal has had a better sale and prices have advanced 5c. per bbl.

There has been only a limited amount of activity to the trading in the market for wheat futures but prices have shown an upward tendency, closing at an advance of 1½¢ 2½¢ for the week. The principal feature has been less favorable crop accounts from the West. Saturday the market opened easier in response to foreign advices. Toward the close, however, reports of damage to the growing crop in the winter-wheat belt stimulated buying and prices advanced, closing ½¢ higher for the day. Monday there was a further gain of ½¢ 1½¢ in prices, on continued buying for investment account induced by further reports of crop damage in the winter-wheat belt. During early 'Change on Tuesday the market was weaker under realizing sales by longs and in response to easier foreign advices. Subsequently, however, on the renewal of crop damage reports from the Southwest, accompanied by buying orders, the market rallied and most of the early loss was recovered. Wednesday the market opened stronger and advanced on foreign advices and the reported crop damage. Toward the close, however, realizing sales caused a reaction and nearly all the improvement was lost. Thursday there was an easier market at the opening but later in the day there was an advance on the crop news. To-day the market advanced ¼¢ ½¢ on moderate buying, stimulated by stronger foreign advices and the recent unfavorable crop advices. In the spot market only a limited business was transacted during the week, but at the close exporters were fair buyers, taking 250,000 bushels Nos. 1 and 2 hard Manitoba. The terms were kept private. No. 1 Northern Duluth was quoted at 85½¢ f. o. b. afloat; No. 2 red winter at 84½¢ f. o. b. afloat, and choice do. at 94½¢ f. o. b. afloat.

### DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

July delivery .....	77½	77½	78½	78½	78½	78½
September delivery .....	74½	75½	75½	76½	76½	76½

There has been increased activity to the speculation in the market for Indian corn futures. There has been a demand from shorts to cover contracts and there has been some buying for investment account, stimulated by a decreasing movement of the crop at the West. The upward turn to wheat values has also had a strengthening effect. To-day the market was quiet, but prices advanced slightly on the falling off in the crop movement and in sympathy with the improvement in wheat. In the spot market business has been quiet. Both shippers and the local trade have been slow buyers, but prices have advanced. The sales to-day included old No. 2 mixed at 33½¢ delivered and 31½¢ f. o. b. afloat; No. 2 yellow at 30½¢ in elevator and No. 3 mixed at 28½¢ in elevator.

### DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

September delivery .....	33½	33½	33½	33½	33½	33½

Oats for future delivery have been quiet, but prices have made fractional advances in sympathy with the stronger markets for other grain. To-day the market was dull but there was a slight improvement in prices in sympathy with the advance in corn. There has been a fair amount of business transacted in the spot market, as both shippers and the home trade have been buying. The sales for export for the week amounted to about 200,000 bushels. The sales to day included No. 2 mixed at 22c. in elevator and No. 2 white at 24c. in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

Total value.....	49,167,354	62,114,878	56,968,116

\* Including cattle and hogs in all months and years.  
NOTE.—All the above figures are based on the monthly preliminary returns issued by the Bureau of Statistics, and cover about 98 per cent of the total exports of breadstuffs and oil, 99 per cent of provisions and nearly 100 per cent of cotton.

For other tables usually given here see page 552.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., March 19, 1897.

The publication of the tariff bill has not appreciably affected the market in any direction. Even the course of the woolen goods division, the most sensitive to tariff legislation, has not been changed to any extent, and in the foreign goods division there has been no noticeable augmentation of demand. In the primary market for cotton goods business has pursued its even tenor. The day-to-day demand has been steady from the home trade, but always kept within moderate bounds, and with very rare exceptions has been met as readily as before. The exceptions have been in prints, in which an occasional hardening tendency is manifest. For some time past the export demand for staple cottons has been decidedly slow, but orders are now making their appearance, and one or two good sized transactions indicate a reviving interest on the part of exporters. Business with local jobbers has been very fair for the time of year, but is of course gradually falling off. From out-of-town centres good reports still come to hand of the distribution of spring merchandise. The majority of the Fall River mills have been closed all week but there has been no improvement in the cloth market. The extra four days' shut-down by these mills will be counted into their contribution to the curtailment policy.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending March 15 were 1,666 packages, valued at \$92,731, their destination being to the points specified in the tables below:

NEW YORK TO MARCH 15.	1897.	1896.
	Week. Since Jan. 1.	Week. Since Jan. 1.
Great Britain.....	187	938
Other European.....	187	618
China.....	187	16,790
India.....	187	1,663
Arabia.....	187	4,349
Africa.....	187	2,015
West Indies.....	187	3,949
Mexico.....	187	547
Central America.....	187	1,347
South America.....	187	1,347
Other Countries.....	187	1,700
Total.....	1,666	49,510
China, via Vancouver.....	187	8,750
Total.....	1,666	57,260

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$2,012,159 in 1897 against \$2,043,565 in 1896.

Home buyers of brown sheetings and drills have not operated any more freely than before. Actual orders are moderate and there is little bidding for quantities for forward deliveries. Prices are easy but without quotable change. Some fair sales of drills for export are reported. Brown ducks and Osoburgs slow. Business in bleached cottons has been steady but still moderate in the aggregate. Sellers fill orders readily as a rule at previous prices, but an exceptional advance of 1/4c. has been quoted in Hill 4-4 bleached. Kid-finished cambrics dull at previous prices. Wide sheetings inactive. Cotton flannels and blankets show quiet sales for new season. Denims are still quite easy to buy, but the demand drags. Ticks have been very irregular, with breaks in the prices of some leading makes. Other coarse, colored cottons without feature. Fancy calicoes and printed specialties in steady demand. In regular prints the only feature is an advance of 1/4c. in American indigo blues, Trouville greys and Peabody mourning prints. The gingham market is without material change. Print cloth extras have been inactive all week at 29-16c., a moderate business being reported in odd goods.

Stock of Print Cloths—	1897.	1896.	1895.	1894.
At Providence, 64 squares.....	Mar. 13	Mar. 14.	Mar. 16.	Mar. 17.
At Fall River, 64 squares.....	202,000	110,000	192,000	322,000
At Fall River, odd sizes.....	617,000	51,000	104,000	78,000

Total stock (pieces)..... 1,278,000 265,000 592,000

\* By agreement among the cloth brokers no detailed statement of the print cloth market is made public.

WOOLEN GOODS.—The demand for men's-wear woolen and worsted fabrics has been fair, but not as large as some sellers expected to follow the publication of the details of the tariff bill. Chief attention has again been given to the better grades in both woolen and worsted trouserings and suitings. The progress in these is decidedly satisfactory to sellers and compares favorably with recent seasons. In grades between 60c. and \$1 00 there has been a light demand only, but some new cheap lines under 60c. have done fairly well in fancies. Plain goods are quiet. 1 overcoatings there has been an occasional advance of 10 per cent in plain-faced goods. The cloaking business for fall is developing, but still moderate. Dress goods are in improved demand for the new season in a generally firm market. Flannels in moderate request. Blankets quiet.

FOREIGN DRY GOODS.—Importers have been busily occupied in taking goods out of bond, but have not been able to report any improvement in business this week. Seasonable lines are fairly well situated in first hands. Fall business has been quiet in all directions.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending March 18, 1897, and since January 1, 1897, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1897 AND 1896.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

### Terms of Advertising—(Per inch space.)

One Time .....	\$3 50	Three Months (13 times) ..	\$25 00
One Month (4 times) ..	11 00	Six Months (26 times) ..	43 00
Two Months (8 times) ..	18 00	Twelve Months (52 times) ..	58 00

The above terms for one month and upwards are for standing cards.

**Oklahoma Territory.—Attempt to Make Gold Contracts Illegal Not Successful.**—On February 24, 1897, a bill providing that all contracts payable in gold shall be non-collectible and void passed both branches of the Oklahoma Territorial Legislature. The bill failed to meet with the approval of the Governor and was returned by him to the Legislature with the following letter:

"Section 6 of the Organic act prescribes 'that the legislative power of the Territory shall extend to all rightful subjects of legislation not inconsistent with the Constitution and laws of the United States.' If the subject matter of this bill were within the grant of power given to the Legislative Assembly there might be some excuse for its enactment, but as I understand the question the exclusive power over the subject is vested by the Federal Constitution in the Congress of the United States, and that no State or Territory can enact a valid law prohibiting a citizen from entering into a contract and specifying therein the kind of money recognized by the Government in which his debt shall be paid.

"At the October, 1895, term of the Supreme Court of the United States, Mr. Justice Field, in passing upon this question, uses the following language: 'In my judgment no transaction of commerce or business, or obligation for the payment of money that is not immoral in its character, and which is not, in its manifest purpose, detrimental to the peace, good order and general interest of society, can be declared or held to be invalid because enforced or made payable in gold coin or currency when that is established or recognized by the Government. And any acts by State authority impairing or lessening the validity or negotiability of obligations thus made payable in gold coin are violations of the laws and Constitution of the United States.' This same doctrine had previously been announced by the same high authority in several decisions prior to the above.

"It seems evident from the authorities that the bill in question would and could not become a valid law, for the reason that the Legislative Assembly does not possess the power to legislate upon the subject.

"The only effect of such an enactment would be to frighten timid capital and to injure the credit of the Territory abroad without producing any benefit at home.

"Believing that no possible good could come from this bill and that much evil might result from it, I return the same without my approval."

**Bond Proposals and Negotiations.**—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

**Alabama.—Bonds Authorized.**—The General Assembly of this State has authorized the Governor to issue bonds to refund the present indebtedness of the State. The securities will bear such rate of interest as may be agreed upon and will mature in not more than fifty years from date of issue. The bonded debt of the State at the present time amounts to about \$9,000,000, bearing interest at an average rate of 4½ per cent.

**Anniston, Ala.—Bond News.**—A suit brought by the Safe Trust Company of Baltimore, Md., against the city 7, on account of the city's default in the payment has resulted in a verdict in favor of the com-

**Union School District, Mich.—Bond Sale.**—The Committee on March 11, 1897, awarded the \$10,000 school bonds to Dietz, Denison & Prior, of Philo, at 101½. The securities are dated Feb. 15,

1897; interest is payable semi-annually on the 15th days of February and August at the City Treasurer's office, and the principal will mature at the rate of \$5,000 each year, beginning with Feb. 15, 1899. The bonds are of the denomination of \$5,000, and are part of an authorized issue of \$15,000.

**Bedford City, Va.—Bond Issue.**—This city has decided to issue \$45,000 of funding bonds. The securities will bear interest at the rate of 6 per cent, and the principal will mature in thirty-four years from date of issue, subject to call after ten years.

**Berkley, Va.—Bond Offering.**—Proposals will be received until 12 o'clock noon April 15, 1897, by John Whetstone, Chairman of the Finance Committee, for the purchase of \$25,000 of 5 per cent improvement bonds of this town. The securities will be dated July 1, 1897, interest will be payable semi-annually, and the principal will mature in thirty years from date of issue. The bonds will be of the denomination of \$1,000. Each proposal must be accompanied by a certified check for 5 per cent of the amount bid for.

**Brockton, Mass.—Bonds Proposed.**—This city proposes to borrow \$55,000, \$30,000 of which will be used for sewerage purposes and \$25,000 for the extension of the water-works.

**Cincinnati (Ohio) School District.—Bond Offering.**—Proposals will be received until 12 o'clock noon, April 12, 1897, by the Board of Education, care of George R. Griffiths, Clerk, for the purchase of \$75,000 of 4 per cent school bonds. The securities will be dated Sept. 1, 1896; interest will be payable semi-annually at the American Exchange National Bank of New York City, and the principal will mature Sept. 1, 1906, subject to call after Sept. 1, 1906. The denomination of the bonds will be \$500. Each bid must be accompanied by a certified check for 5 per cent of the amount bid.

**Cleveland, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock noon, April 12, 1897, by H. L. Rosier, City Auditor, for the purchase of \$45,000 of 4 per cent bridge-repair bonds dated October 1, 1896; interest will be payable semi-annually on the first days of April and October, and the principal will mature October 1, 1906, both principal and interest being payable at the American Exchange National Bank of New York City. The bonds are of the denomination of \$1,000 each.

No bid for less than par and accrued interest will be considered, and each proposal must be accompanied by a certified check for 5 per cent of the amount bid for.

The city's total indebtedness, including this issue, amounts to \$10,398,026; water debt (included in total debt), \$3,091,977; sinking funds, \$1,823,500; net debt, \$6,482,549. The tax valuation is \$184,562,905; real valuation is estimated at about \$500,000,000. The population is estimated at 375,000.

**Colbert County, Ala.—Bonds Authorized.**—A special dispatch to the New Orleans "Times-Democrat" states that the citizens of Colbert County have voted in favor of a proposition to issue \$100,000 of road improvement bonds.

**Columbus, Ga.—Bonds Proposed.**—It is reported that the City of Columbus will petition the Legislature for authority to issue sewer and water-works bonds to the amount of \$50,000.

**Coraopolis, Pa.—Bond Offering.**—Proposals will be received until 6 o'clock P. M., March 27, 1897, by Sanford H. Ferreo, Chairman of the Finance Committee, for the purchase of \$16,000 of 4½ per cent bonds of this borough. The securities will be dated April 1, 1897, interest will be payable semi-annually, and the principal will mature in thirty years from date of issue, subject to call after April 1, 1902. The loan will be in the form of coupon bonds of \$500 each and is issued for the following purposes: \$2,000 for fire protection, \$3,000 for public buildings, \$6,000 for sewerage system and \$5,000 for street improvements. All of the bonds shall be exempt from State taxation. Each bid must be accompanied by a certified check for \$250.

**Crowley, La.—Bond Issue.**—It is reported that negotiations are being made by P. K. Tyng & Co., of Buffalo, N. Y., for the purchase of water-works and electric-light bonds to be issued by the town of Crowley.

**East Chester, N. Y.—Bond Sale.**—On March 16, 1897, Hebert D. Lent, Town Supervisor, awarded the \$30,000 of 4 per cent improvement bonds to C. H. White & Co., of New York City, at 102½ and the \$5,520 of 5 per cent improvement bonds to G. M. Hahn, of New York City, at 103½. The securities are dated April 1, 1897, and the interest is payable semi-annually at the People's National Bank of Mount Vernon, N. Y. The \$30,000 of 4 per cent bonds will mature at the rate of \$5,000 per annum from April 1, 1905 to 1910, inclusive; \$5,000 of the 5 per cent bonds at the rate of \$1,000 per annum from April 1, 1898 to 1902, inclusive, and \$520 on April 1, 1903. The securities are of the denomination of \$1,000, except one of the 5 per cent bonds, which is for \$520.

The present indebtedness of the town (not including this issue) is \$21,520, a part of which is chargeable to the City of Mount Vernon, N. Y. The assessed valuation (about 30 per cent of the actual value) is \$923,687.

**Essex County, N. J.—Bond Sale.**—On March 10, 1897, \$140,000 of 4 per cent ten-year gold bridge bonds of this county were awarded to The Lamprecht Bros. Co. of Cleveland, Ohio, at 102½. The other bids received were:

Rudolph Kleybolte & Co., Cincinnati, Ohio.....	102-130
Walter Stanton & Co., New York, N. Y.....	102-048
E. D. Shepard & Co., New York, N. Y.....	101-970
Benwell & Everitt, New York, N. Y.....	101-650
Franklin Institution of Savings, Newark, N. J.....	101-500
E. C. Jones Co., New York, N. Y.....	101-310
Farson, Leach & Co., New York, N. Y.....	101-070
N. W. Harris & Co., New York, N. Y.....	100-550
S. A. Kean, Chicago, Ill.....	100-000

**Far Rockaway, N. Y.—Bonds Authorized.**—A bill has been passed by the State Legislature and signed by the Governor authorizing this municipality to issue \$35,000 of sewer bonds.

**Galveston County, Texas.—Bond Offering.**—Proposals will be received until 12 o'clock noon, April 5, 1897, by the Chairman of the Finance Committee, care of George H. Law, Jr., County Clerk, for the purchase of \$200,000 of 5 per cent coupon court-house bonds. The securities will be of the denomination of \$1,000; interest will be payable semi-annually on the tenth days of April and October, at the office of the County Treasurer, and the principal will mature in from ten to forty years from date of issue.

**Greensboro, N. C.—Bond Election.**—The issue of \$50,000 of bonds of this city has not been authorized, as reported by us last week, but the proposition will be submitted to a vote of the citizens on May 3, 1897.

**Grenada, Miss.—Bond Sale.**—The \$40,000 of water works and sewer bonds offered by this city on March 10, 1897, were awarded to local bidders at 100-25. The securities bear 6 per cent interest and mature in 1917.

**Hartford (Conn.) South School District.—Bond Sale.**—On March 16, 1897, the \$50,000 of 4 per cent bonds of this district were awarded to E. C. Stanwood & Co. of Boston, Mass., at 103-35. There were 14 other bids received. The securities are dated May 1, 1897; interest is payable semi-annually and the principal will mature May 1, 1927, subject to call after May 1, 1907. The loan is in the form of coupon bonds of \$1,000 each, issued to fund part of the floating debt of the district.

**Holyoke, Mass.—Bond Sale.**—On March 16, 1897, the \$109,000 of 4 per cent gold school bonds of this city were awarded to Parkinson & Burr, of Boston, Mass., at 107-739. The other bids received were as follows:

Cushman, Fisher & Phelps, Boston, Mass.....	107-550
Jas. W. Longstreet & Co., Boston, Mass.....	107-512
Estabrook & Co., Boston, Mass.....	107-419
Jose Parker & Co., Boston, Mass.....	107-389
N. W. Harris & Co., Boston, Mass.....	107-335
Budget, Merrill & Co., Boston, Mass.....	107-300
R. L. Day & Co., Boston, Mass.....	107-257
E. H. Rollins & Sons, Boston, Mass.....	106-850
E. C. Stanwood & Co., Boston, Mass.....	104-600
Blake Bros. & Co., Boston, Mass.....	106-420
Farson, Leach & Co., New York, N. Y.....	106-070

The securities are dated March 1, 1897; interest is payable semi-annually on the first days of March and September, and the principal will mature March 1, 1917, both principal and interest being payable at the National Hide & Leather Bank, of Boston, Mass.

The bonds are of the denomination of \$1,000 each and are secured by a sinking fund.

**Indiana.—Bond News.**—The State Board of Finance has decided to redeem on April 1, 1897, \$150,000 of bonds of the 3½ per cent series.

**Jamaica, N. Y.—Bond News.**—A vote taken on March 18, 1897, on the question of bonding the town of Jamaica to the amount of \$450,000 for highway improvements resulted in favor of the proposition by 605 to 145.

**Jefferson County, W. Va.—Bond Offering.**—Proposals will be received until 10 o'clock A. M., April 1, 1897, by W. F. Alexander, County Clerk, for the purchase of \$80,000 of 4 per cent refunding bonds of this county. The securities will be dated April 1, 1897; interest will be payable semi-annually on the first days of April and October, and the principal will mature April 1, 1930, subject to call after April 1, 1907, both principal and interest being payable at the National Union Bank of Maryland in the City of Baltimore. The bonds will be of the denomination of \$100, \$500 and \$1,000, and will be exempt from all county, district or municipal tax levies. No bid for less than par will be considered.

**Jersey City, N. J.—Bond News.**—A bill has been passed by the State Assembly authorizing this city to issue \$50,000 of park bonds.

**Kansas.—Bonds Proposed.**—A bill providing for the issuance and sale of \$212,000 of refunding bonds has been passed by the Senate. These securities, if authorized, are to be issued for the payment of \$85,000 of bonds maturing July 1, 1897, and \$127,000 maturing July 1, 1898. The denomination of the bonds will be \$1,000; they will bear interest at the rate of 4 per cent, and the principal will mature in twenty years from date of issue. A special tax will be levied each year for the payment of interest on the bonds.

**Kossauqua, Iowa.—Bond Sale.**—This city has awarded \$10,000 of 5 per cent water-works bonds to the B. L. & Geo. D. Cook Company, of Chicago, Ill.

**Knoxville, Tenn.—Bond Sale.**—On March 15, 1897, the \$50,000 of 5 per cent market-house and school bonds of this city were awarded to N. W. Harris & Co. of Chicago, Ill., at 106-25. The other bids received were:

Farson, Leach & Co., Chicago, Ill.....	Premium.
Rudolph Kleybolte & Co., Cincinnati, Ohio.....	\$2,434 80
Hietz, Denison & Prior, Cleveland, Ohio.....	2,710 00
W. J. Hayes & Sons, Cleveland, Ohio.....	2,021 75
C. H. White & Co., New York, N. Y.....	1,755 75
	105 70

The securities are dated April 1, 1897, interest is payable semi-annually on the first days of April and October in this city or in New York, and the principal will mature as follows: \$15,000 on April 1, 1907; \$15,000 on April 1, 1917, and \$20,000 on April 1, 1927. The bonds are of the denominations of \$500 or \$1,000, as the purchaser may desire, and are issued to provide funds for building a market-house and school-houses.

The city has no floating debt; its bonded debt amounts to \$1,026,000; tax valuation for 1896, \$9,747,553; total tax rate (per \$1,000), \$12-50, and real valuation about \$15,000,000. According to the Census of 1890 the population was 22,375; it is estimated now at 37,000.

**Laurel, Md.—Bond Issue.**—It is reported that this town will issue improvement bonds to the amount of \$11,000. The securities are to bear interest at the rate of 5 per cent.

**Lee County, Ala.—Bond Sale.**—The \$25,000 of gold coupon court-house bonds of Lee County have been sold at 102-25. The securities bear 6 per cent interest, payable semi-annually, and are exempt from city and county taxation.

**Le Roy, Minn.—Bond Sale.**—The village of Le Roy has disposed of the \$8,000 often to twenty year water-works bonds which were offered for sale on February 27, 1897.

**Louisville, Ky.—Bond Offering.**—On April 1, 1897, the Sinking Fund Commissioners of this city will sell \$558,000 of 4 per cent forty-year bonds. The securities will be of the denomination of \$1,000 each, and are to be issued to refund certain bonds now outstanding bearing interest at the rate of 6 per cent.

**Lynchburg, Va.—Bond Offering.**—Proposals will be received until April 5, 1897, by N. C. Manson, Jr., Chairman of the Finance Committee, for the purchase of \$425,000 of thirty-year refunding bonds of this city. The bonds will be sold in lots of not less than \$5,000. Bidders are requested to state the price at which they will take the securities, first, when bearing interest at the rate of 4½ per cent, and, second, when bearing interest at the rate of 5 per cent, and both, on the basis of the bonds being taxed by the City of Lynchburg and of their being non-taxable. The total indebtedness of the city on February 1, 1897, was \$1,403,780; sinking fund, \$15,000; net debt, \$1,388,780. The assessed valuation is; real estate, \$7,689,715; personal property, \$2,475,285; total, \$10,165,000; tax rate (per \$1,000), \$15. The population is estimated at about 25,000.

**Mahoning County, Ohio.—Bond Offering.**—Proposals will be received until 1:30 o'clock P. M. March 30, 1897, by the Board of County Commissioners, for the purchase of \$50,000 of bridge bonds of this county. The securities will be issued for the purpose of constructing a bridge over the Mahoning River. They will bear interest at the rate of 5 per cent, payable semi-annually on the first days of March and September at the office of the County Treasurer, and the principal will mature from 1900 to 1909, inclusive, at the rate of \$5,000 each year. A certified check for 2 per cent of the amount bid for must accompany each proposal.

**Medford, Mass.—Bonds Proposed.**—A bill has been presented to the Massachusetts State Legislature, authorizing this city to issue \$300,000 of 4 per cent thirty-year bonds to refund its present floating indebtedness.

**Minso Junction, Ohio.—Bond Offering.**—Proposals will be received until April 5, 1897, by C. G. Carey, City Clerk, for the purchase of \$16,500 of park bonds. The securities will bear interest at the rate of 6 per cent and mature in from ten to fifteen years from date of issue.

**Monticello, Fla.—Bond Election.**—On April 5, 1897, a proposition to issue bonds for the construction of water-works will be put to a vote of the citizens of Monticello.

**Moultrie, Ga.—Bonds Authorized.**—City Treasurer W. B. McPhaul reports to the CHRONICLE that the citizens of Moultrie have voted in favor of issuing the \$5,000 of 6 per cent twenty-year school bonds.

**Newberg, Oregon.—Bond Sale.**—On Feb. 7, 1897, at a private sale the \$15,000 of gravity system water-works bonds of Newberg were awarded to Morris & Whitehead, of Portland, Ore., at 95. The securities bear 6 per cent interest, and the principal will mature in twenty years from date of issue. Principal and interest will be payable by Kountze Bros., of New York City.

**New Rochelle, N. Y., School District No. 1.—Bond Sale.**—On March 15, 1897, the \$104,000 of 4 per cent bonds of this district were awarded to E. C. Stanwood & Co., of Boston, Mass., at 104-949. There were 26 other bids received. The securities are dated May 1, 1897; interest is payable semi-annually on the first days of May and November, and the principal will mature as follows: \$33,000 at the rate of \$3,000 per annum from May 1, 1903 to 1913, inclusive; \$6,000 on May 1, 1914; \$6,000 on May 1, 1915, and the remainder at the rate of \$5,000 each year thereafter until paid.

The bonds are of the denomination of \$1,000 and are issued to provide funds for the purchase of two sites and building school houses thereon.

**Newtown, N. Y.—Bonds Proposed.**—A proposition to issue street improvement bonds to the amount of \$600,000 has been adopted by the Town Board of Newtown, and will be submitted to a vote of the electors at the annual town meeting on April 7, 1897.

**New York.**—*Bond News.*—A bill has been passed by the State Legislature and signed by the Governor, providing that the rate of interest on municipal bonds of this State shall not exceed 5 per cent.

**New York City.**—*Bond News.*—The bill authorizing this city to issue bonds to pay for the property acquired for Fort Washington Park, has been signed by the Governor.

**North Adams, Mass.**—*Bond Sale.*—It is reported that North Adams has sold school, sewer and refunding bonds to the amount of \$200,000. The securities bear interest at the rate of 4 per cent, and the principal will mature in 1927.

**Norfolk County, Mass.**—*Temporary Loan.*—County Treasurer Chas. H. Smith has placed a loan of \$50,000 at 3½ per cent interest. The loan was authorized in anticipation of taxes, and will mature in ten months from date of issue.

**North Dakota.**—*Bond Offering.*—Proposals will be received until 2 o'clock P. M. April 15, 1897, by State Treasurer Geo. E. Nichols, for the purchase of \$63,000 of refunding bonds. The securities will be dated May 1, 1897; interest at the rate of 4 per cent will be payable semi-annually on the first days of May and November, and the principal will mature May 1, 1927. Principal and interest will be payable at the Chemical National Bank of New York City. Each bid must be accompanied by a certified check for 5 per cent of the amount bid for, payable to the order of the State Treasurer.

**North Hempstead, N. Y.**—*Bond Offering.*—Proposals will be received until 3 o'clock P. M., March 29, 1897, by Samuel Hooper, Town Clerk, for the purchase of \$58,000 of 4 per cent road bonds. Interest on the securities will be payable semi-annually on the first days of January and July at the office of the Town Clerk. Twenty-nine thousand dollars of the principal will mature at the rate of \$1,000 per annum from July 1, 1897 to July 1, 1925, inclusive, and the remainder on July 1, 1926. A certified check for ten per cent of the amount bid for must accompany each bid. The total bonded indebtedness of North Hempstead does not exceed \$76,000. The assessed valuation, real and personal, amounts to \$4,088,000, and the population in 1890 was 23,756.

**Oyster Bay, N. Y.**—*Bond Election.*—The Town Board has decided to submit to a vote of the people a proposition to issue \$300,000 of road improvement bonds. The securities, if authorized, shall be of the denomination of \$500 each, issued in lots of not to exceed \$50,000; interest will be payable at a rate not exceeding 4 per cent per annum, and the principal will mature in thirty years from date of issue.

**Phoenix, A. T.**—*Bond Issue.*—This city proposes to issue \$10,000 of gold refunding fire-department bonds. The securities will bear interest at the rate of 5 per cent and will mature in fifteen years from date of issue, subject to redemption after ten years at the rate of \$2,000 per annum. The bonds will be of the denomination of \$500.

An option on the bonds at par has been given till April 1, 1897, but the city reserves the right to cancel the same on the 21st of this month.

**Port Huron, Mich.**—*Bond Offering.*—Proposals will be received until 12 o'clock noon, March 27, 1897, by this city for the purchase of \$3,500 of public-building bonds. The securities will be dated January 1, 1897, they will bear interest at the rate of 4 per cent, and the principal will mature January 1, 1906.

**Providence, R. I.**—*Bond Offering.*—Proposals will be received until 12 o'clock noon March 25, 1897, by D. L. D. Granger, City Treasurer, for the purchase of \$1,550,000 of 4 per cent bonds of this city. Of this amount \$250,000 are water bonds, \$300,000 sewer bonds, \$500,000 highway bonds and \$500,000 school bonds. The securities will be dated April 1, 1897; interest will be payable semi-annually on the first days of April and October, and the principal will mature April 1, 1927, both principal and interest being payable in gold. The loan will be in the form of coupon or registered bonds as the purchaser may desire, the coupon bonds being payable, both principal and interest, at the office of the City Treasurer of Providence or at the National City Bank of New York.

Each proposal must be accompanied by a certified check for 2 per cent of the amount bid for.

The total indebtedness of the city on March 1, 1897, was \$16,814,823; sinking funds, \$3,531,979; net debt, \$13,283,849. The assessed valuation for 1896 was \$174,232,500; tax rate (per \$1,000), \$14.50. The population for 1897 is estimated at 154,000.

The official advertisement of this bond offering will be found elsewhere in this Department.

**Queens County, N. Y.**—*Bond Offering.*—Proposals will be received until March 25, 1897, by this county, for the purchase of \$496,000 of road improvement bonds. The securities will bear interest at the rate of 4 per cent and the principal will mature in twenty years from date of issue. The denomination of the bonds will be \$500.

**Racine, Wb.**—*Bond Sale.*—This city has sold \$20,000 of 5 per cent paying bonds to C. H. White & Co., of New York City, at 113 per cent.

**Roanoke, Va.**—*Bond Issue.*—The city of Roanoke proposes to issue bonds to the amount of \$12,000.

**St. Croix County, Wb.**—Bonds of this county to the amount of \$10,000 have been sold to N. W. Harris & Co., of Chicago, Ill., at a premium of \$900. There were eleven other bids received. The securities bear interest at the rate of 5 per cent and mature in seventeen years from date of issue.

**South Orange, N. J.**—*Bonds Authorized.*—The citizens of this township have voted in favor of a proposition to issue \$25,000 of 5 per cent twenty-year school bonds.

**Tacoma, Wash.**—*Bond News.*—The Supreme Court has decided that certain warrants of this city, now outstanding, bearing 8 and 10 per cent interest, are invalid, because they were once paid. The securities were redeemed by the City Treasurer, but were re-sold by him without receiving the proper authority to do so.

**Tarrytown, N. Y.**—*Bond Offering.*—Proposals will be received until 2 o'clock P. M. March 27, 1897, by K. Hershel Purdy, Clerk of the Board of Education of Union Free School District No. 1, town of Greenburg, Westchester County, N. Y., at his office in the village of Tarrytown, N. Y., for the purchase of \$89,000 of 4 per cent school bonds. The securities will be dated April 1, 1897; interest will be payable semi-annually on the first days of April and October, and the principal will mature as follows: \$69,000 at the rate of \$3,000 per annum from October 1, 1897 to 1919, inclusive, and \$20,000 at the rate of \$3,000 per annum from October 1, 1920 to 1923, inclusive.

The official advertisement of this bond offering will be found elsewhere in this Department.

**Taunton, Mass.**—*Bonds Proposed.*—The city of Taunton has petitioned the Legislature for authority to issue additional water bonds.

**Tecumseh, O. T.**—*Bond Offering.*—Proposals will be received until April 10, 1897, by this city for the purchase of \$8,000 of 7 per cent bonds. The securities will be dated May 1, 1897, and the principal will mature May 1, 1912. Each bid must be accompanied by a certified check for \$500. Tecumseh has at present no indebtedness of any kind.

**Texas.**—*Bonds Proposed.*—A bill has been presented to the State Legislature authorizing counties having no railroads to issue bonds for the purpose of building them.

**Terre Haute, Ind.**—*Bond News.*—This city recently awarded \$19,539 95 of 6 per cent 1 to 10 year street improvement bonds to Seawood & Mayer, of Cincinnati, Ohio, at a premium of \$837 75. That firm has refused to take the securities, claiming some technical illegality in their issue. The bonds will be re-advertised for sale.

**Wetumpka, Ala.**—*Bonds Authorized.*—The Alabama State Legislature has authorized this city to issue \$10,000 of gold bonds to provide funds for the purchase of a school site and the erection of a building thereon. The securities will bear interest at the rate of 6 per cent, payable semi-annually on the first days of January and July, and will mature in thirty years from date of issue, subject to call after twenty years, both principal and interest to be payable at the American Exchange National Bank of New York City. The loan will be in the form of coupon bonds of \$50 each. The city at present has no indebtedness.

## STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT. Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

**Boston, Mass.**—Josiah Quincy, Mayor. The following financial statement of the city of Boston has been corrected to February 1, 1897, by means of a special report to the CHRONICLE from Alfred T. Turner, City Treasurer.

The county of Suffolk, in which Boston is situated, contains also the city of Chelsea and the towns of Revere and Winthrop. Boston, however, receives all the county income, pays all the county expenses, owns the county buildings, and is responsible for the county debt, which amounted on February 1, 1897, to \$3,649,000. The details of this county debt are included in the following financial report for this city.

**NEW LOANS.**  
**BIDS FOR BONDS.**  
**Consolidated Sinking Fund Bonds**  
**OF THE**  
**CITY OF CINCINNATI, O.,**  
**3.65% 40-Year Gold Bonds.**

Proposals are solicited for the purchase of \$3,651,000 of coupon or registered bonds of the City of Cincinnati, Ohio, to be issued to pay, under an option of redemption, the amounts respectively outstanding of the following issues of Cincinnati Bonds: \$500,000, \$18,000, \$17,000, \$234,000, \$237,000, \$2,000,000, \$700,000.

The bonds will be dated February 1st, 1897, will mature at the end of forty years from their date, with interest at the rate of 3 1/2 per cent per annum, payable semi-annually each August 1st and February 1st, and will be \$1,000, \$500 or \$100 pieces, or registered in the sum of \$1,000 or any multiple thereof as bidders may desire. Principal and interest will be payable in New York City in gold coin of the United States of America of the present standard of weight and fineness.

All bids must provide for the payment of accrued interest from February 1st, 1897, to date of delivery of bonds.

Bids must be in writing, signed by the proposer and be delivered sealed at the office of the Trustees of the Sinking Fund of the City of Cincinnati, City Hall, Cincinnati, Ohio, by or before half past two o'clock of the afternoon of Monday, March 23rd, 1897.

The sealed envelope containing bids must have endorsed on the outside "Bids for Bonds of the City of Cincinnati, Ohio." Each bid must be accompanied by a certified check for one per cent of the par value of bonds bid for; said check must be payable to the order of "The Trustees of the Sinking Fund of the City of Cincinnati, Ohio," without conditions, and must be drawn upon an incorporated bank or trust company located in the City of Cincinnati, Boston or New York.

Bidders are requested to read the advertisement carefully, as no bid will be considered that is not clearly expressed and does not strictly comply with all of the above conditions. The bonds are to be issued under authority of Section 2729 of the Revised Statutes of Ohio, as supplemented by Sections 2729 G, 2729 H, 2729 I, March 1, 1896—22 Ohio Laws, page 24—and this advertisement is made in compliance with Section 2729 of said Ohio Revised Statutes—80 Ohio Laws, page 108.

Payment for and delivery of bonds may be at the Third National Bank of Cincinnati or at the American Exchange National Bank of New York, as bidders may desire; payment will be required upon delivery of bonds and such delivery of bonds will be made in installments corresponding to one or more of the outstanding amounts of the issues of bonds to be paid, and not later in any case than ten days before such issue or issues become payable to the holders thereof under the call made by the city therefor. The net amount of the issue of bonds being \$3,651,000, \$234,000, \$237,000, \$2,000,000, \$700,000, corresponding to the amount of the bonds offered for sale under this advertisement.

The checks of unsuccessful bidders will be immediately returned to them by the Trustees through the mail, unless otherwise requested by bidders. No interest will be allowed on the check of the successful bidder, proceeds of which will be applied toward payment for bonds.

The Trustees of the Sinking Fund reserve the right to reject any or all bids, and to accept such bid or bids as may seem to them the most advantageous to the city.

By order of the Trustees of the Sinking Fund of the City of Cincinnati, Ohio, this February 23d, 1897.  
Attend: **LOUIS CARROLL, Clerk.** **JULIUS DEXTER, President.**

**NEW LOANS.**  
**\$350,000**  
**INDIANAPOLIS**  
**PARK IMPROVEMENT**  
**BONDS OF 1897.**

DEPARTMENT OF FINANCE,  
OFFICE OF THE CITY COMPTROLLER,  
INDIANAPOLIS, IND.

Sealed bids will be received by the City of Indianapolis, Indiana, until Wednesday, the 31st day of March, 1897, at 12 o'clock M. for the whole or any part of \$350,000 Indianapolis Park Improvement Bonds of 1897 of said City. Said bonds will be designated "Indianapolis Park Improvement Bonds of 1897"; will be dated April 1, 1897, and be of the denomination of \$1,000 each, with interest coupons attached; will bear interest at the rate of four (4) per cent per annum, payable semi-annually on the first day of January and first day of July of each year. The first coupon on each bond to be for three months' interest only, or from April 1st to July 1st, 1897. The principal is payable on January 1st, 1927, and both principal and interest are payable at the banking house of Winslow, Lanier & Company, New York City. Bids for the purchase of said bonds should be endorsed "Proposals for Indianapolis Park Improvement Bonds", and directed to the City Comptroller, Indianapolis, Indiana. Bidders may bid for all or any part of said bonds.

The proposals will be opened by the City Comptroller, at his office, on the 31st day of March, 1897, between the hours of 12 o'clock M. and 2 o'clock P. M., and said Comptroller will thereupon award said bonds, or, if he shall see fit, a part of any number thereof, to the highest and best bidder therefor; but said City Comptroller shall have the full right to reject any and all bids or proposals, or any part thereof, and shall have the right to accept a part of any bid, and to award upon any bid the whole or any less number of bonds covered by such bid, he being the sole judge of the sufficiency or insufficiency of any bid, excepting only that no bid shall be sold at less than par and accrued interest. He may also in his judgment and discretion award a part of said bonds to one bidder and a part to another.

Each bid shall be accompanied by a certified check upon some responsible bank of the City of Indianapolis, Indiana, payable to the order of William H. Schmidt, City Treasurer, for a sum of money equal to two and one half (2 1/2) per cent of the face or par value of the bonds bid for or proposed to be purchased. The bonds awarded will be delivered at the banking house of Winslow, Lanier & Company, in the City of New York, on the 10th day of April, 1897, and the successful bidder or bidders shall take the bonds awarded to him or them, and his or their omission to register or refusal so to do shall be a breach of the contract of his bid or proposal, on account of which damages shall be retained or recovered as liquidated and provided in the ordinance covering this issue.

Said bonds are offered for sale under and by virtue of General Ordinance No. 13, 1897, passed by the Common Council on the 1st day of March, 1897, and approved by the Mayor on the 4th day of March, 1897.  
**E. M. JOHNSON,**  
City Comptroller.

**NEW LOANS.**  
**\$1,550,000**  
**City of PROVIDENCE**  
**LOAN.**

OFFICE OF THE CITY TREASURER,  
PROVIDENCE, R. I., March 10, 1897.

Sealed proposals addressed to **D. L. D. Granger** City Treasurer, Providence, R. I., each endorsed "Proposals for Loan," will be received at his office until 12 o'clock M., Thursday, March 25, 1897, for the whole or any part of the following loans to the City of Providence:

Water Loan: Two hundred and fifty thousand dollars (\$250,000) on bonds of said city.  
Sewer Loan: Three hundred thousand dollars (\$300,000) on bonds of said city.  
Highway Loan: Five hundred thousand dollars (\$500,000) on bonds of said city.  
School Loan: Five hundred thousand dollars (\$500,000) on bonds of said city.

The above series of bonds will be dated April 1, 1897, will become due April 1, 1927, and will bear interest at the rate of four (4) per centum per annum payable semi-annually in April and October. Both principal and interest will be payable in gold coin of the United States, equal to present value of fineness and weight. Either coupon or registered bonds, as desired, will be issued, and coupon bonds may at any time thereafter be converted into registered bonds. The principal and interest of coupon bonds will be payable at the Treasury in Providence or at the National City Bank of New York. Bonds will be ready for delivery April 1, 1897.

Proposals should state whether bid is either for the whole or any less portion of said loans, or for both, and should be accompanied with a certified cheque, payable to the order of the City Treasurer for two per cent of the total amount of the bid. Further information can be obtained of the undersigned. The right is reserved to reject any and all bids.  
**D. L. D. GRANGER,**  
City Treasurer.

**DEBT LIMITATIONS.**—The general provision as to debt limitation which applies only to Boston is found in the Supplement to the Public Statutes of Massachusetts, Laws of 1885, Chapter 178. The act is entitled "An act to limit the municipal debt of, and the rate of taxation in, the city of Boston."

**SECTION 1.**—Provides that the taxes exclusive of State tax and of sums required by law to be raised on account of the city debt shall not exceed in any one year \$9 on every \$1,000 of the average of the as-

sessors' valuation for the preceding five years, the valuation year to year being first reduced by all abatements.

**SECTION 2.**—Provides that the limit of indebtedness of the city of Boston shall hereafter be 2 1/2 per cent until January 1, 1897, and thereafter shall be 2 per cent on the average valuation prescribed in section 1 of this act.

The foregoing limitation is of course exclusive of debts created for water supply.

Another exception is found in Laws of 1896, Chapter 304—which act authorizes a loan for \$500,000 each year to a total amount not to exceed \$2,500,000, for the construction of a public park. Section 4 of this act provides that the debt authorized shall not be included within the limit fixed by section 2, chapter 178 above cited.

A further exception is found in Laws of 1897, Chapter 312, which authorizes \$100,000 bonds issued for the purpose of paying for lands already acquired for public parks adding (in section 3) that the debt authorized shall not be included within the limit fixed as above.

Still another exemption to this debt limitation is found in Laws of 1888, Chapter 392, which act authorizes, for the purpose of purchasing such additional lands for its public parks as the Park Commissioners shall deem necessary, the issue of bonds not exceeding \$600,000, adding that this issue of bonds shall be considered outside the debt limit fixed as above.

In addition to the foregoing, which cover special authorizations of bond issues by the legislature for park purposes, &c., not included in the debt limit, there are a number of other laws, of which we make a brief mention below.

Chapter 101 Laws of 1887 and Chapter 288 Laws of 1892 authorized loans for the Suffolk County Court House.

Chapter 282 Laws of 1887 authorized \$250,000 for New Harvard Bridge.

Chapter 394 Laws of 1887 authorized not exceeding \$75,000 for Stony Brook Sewer.

Chapter 322 Laws of 1889 authorized not exceeding \$500,000 to extend improved sewerage system.

Chapter 68 Laws of 1889 authorized \$1,000,000 to complete the new Public Library building.

Chapter 254 Laws of 1889 authorized not exceeding \$75,000 to extend West Chester Park to Harvard Bridge.

Chapter 283 Laws of 1889 authorized \$500,000 for extension, &c., of Congress, Oliver and other streets.

## NEW LOANS.

\$80,000

### TARRYTOWN, N. Y., 4% SCHOOL BONDS.

Sealed proposals will be received by the Clerk of the Board of Education of Union Free School, District No. 1, Town of Greenburgh, Westchester Co., N. Y., at his office in the Village of Tarrytown, Westchester Co., N. Y., until March 27th, 1897, at 2 o'clock in the afternoon, for the purchase of Eighty-nine (\$89,000) bonds of said School District, to be issued for the erection of a new School Building.

The bonds so to be sold consist as follows:  
**FIRST.**—Sixty-nine (69) bonds of one thousand dollars (\$1,000) each, dated April 1st, 1897, bearing interest at the rate of four per cent per annum from that date, interest payable on the first days of October and April in each year.

The principal of said bonds to be payable as follows: Three thousand dollars (\$3,000) on the first day of October in each year until said bonds shall be fully paid.

**SECOND.**—Twenty bonds of one thousand dollars (\$1,000) each, dated April 1st, 1897, bearing interest at the rate of four per cent per annum from that date, interest payable on the first days of October and April in each year.

The principal of said last-mentioned bonds to be payable as follows: Five thousand dollars (\$5,000) on the first day of October in each of the years 1920, 1921, 1922 and 1923.

Bids may be for the whole or any part of said Bonds.

The Board reserves the right to reject any and all proposals.

Further particulars may be obtained of W. J. Townsend, Counsel, No. 40 Wall Street, New York City.

K. HERSHEL PUDY,  
Clerk of Board, Tarrytown, N. Y.

\$65,000

### FLAGSTAFF, ARIZ., 6% Water Works Bonds.

Sealed bids will be received by the Town Clerk of the town of Flagstaff, Arizona, up to two (2) o'clock P. M. Monday, March 29th, 1897, for the purchase of sixty-five thousand (\$65,000) dollars worth of six per cent thirty (30) year bonds of \$1000 each; said bonds are dated March 1st, 1897, bearing interest from March 1st, 1897, at the rate of six (6) per cent interest, payable semi-annually, July 15th and January 15th of each year, at some bank in the City of New York, to be agreed on and designated in the face of the bonds.

First interest coupons will be due July 15th, 1897. These bonds were voted by the citizens of Flagstaff for Water Works in strict conformity with the laws of the Territory of Arizona, and according to an Act, No. 8076, passed by Congress and approved by the President of the United States, and in perfect accord with every legal requirement of the charter of the town of Flagstaff. The town reserves the right to reject any and all bids. A certified check of five (5) per cent to accompany each bid. Said bonds to be payable in lawful money of the United States of America and shall not be sold for less than their par value.

P. W. SMITH,  
Clerk of the Town of Flagstaff.  
Dated FLAGSTAFF, Ariz., Feb. 18th, 1897.

Street Department.....	113,400	
Miscellaneous.....	12,100	
Fire-boat.....	16,000	
Massachusetts Historical Society building.....	25,000	
<b>Totals.....</b>	<b>\$1,311,500</b>	<b>\$8,495,000</b>

**BORROWING POWER.**—The city's borrowing power January 1, 1897, is shown in the following statement:

Total debt, city and county.....	\$71,902,600 57
Less special loans (outside of limit).....	\$21,255,000 00
do county loans (outside of limit).....	2,921,000 00
do Coochituate water debt.....	18,261,273 08
<b>Total deductions.....</b>	<b>42,437,273 98</b>
Total debt less above deductions.....	\$29,465,326 59
Sinking funds, less \$12,839,086 14 held for loans deducted as above (water loans, etc.).....	12,528,500 99
<b>Net debt, excluding debts outside of limit.....</b>	<b>\$16,936,825 60</b>

Two per cent on \$927,838,628 (average valuation for five years, less abatements).....\$18,556,772 56  
Net debt, as above.....16,936,825 60

Right to borrow January 30, 1897, under chapter 178 acts of 1885.....\$1,619,946 96  
Right to borrow January 30, 1897, under chapter 93 acts of 1891, estimated.....1,314,381 14

Bonds to the amount of \$1,311,500 inside of the debt limit have been authorized, but are not yet issued.

**ASSESSED VALUATION.**—The city's assessed valuation of real estate and personal property and tax rate, at different periods, have been as follows:

Years—	Real.	Assessed Valuation. Personal.	Total.	Rate of Tax per \$1,000.
1896.....	770,261,700	210,990,726	981,252,426	12-90
1895.....	744,743,550	206,618,969	951,362,519	12-80
1894.....	723,728,750	204,363,706	928,092,456	12-80
1893.....	707,762,275	216,331,476	924,093,751	12-80
1892.....	680,279,900	213,695,800	893,975,700	12-90
1891.....	650,238,375	204,827,700	855,066,075	12-60
1890.....	619,990,275	202,051,525	822,041,800	13-30
1889.....	593,799,975	201,633,768	795,433,744	12-90
1888.....	563,013,275	201,439,273	764,452,548	13-40
1887.....	547,171,175	200,471,342	747,642,517	13-40
1886.....	517,503,275	193,118,060	710,621,335	12-70
1880.....	437,370,100	202,002,395	639,462,495	15-20
1870.....	365,593,100	218,496,300	584,089,400	15-30

The tax rate for 1896 includes the State tax \$0.58 per \$1,000; the county tax, \$0.84; the city tax proper, \$11.48, including \$2.32 for schools; total per \$1,000, \$12.80.

**POPULATION.**—State census, 1895, was 494,205. In 1890 population was 448,477; in 1880 it was 362,839; in 1870 it was 250,526.

**Cascade County, Mont.**—The following statement has been corrected to Jan. 1, 1897, by means of a special report to the CHRONICLE from A. E. Dickerman, Treasurer.

County seat is Great Falls.

LOANS—	When Due.	Total debt Jan. 1, 1897.
<b>BRIDGE BONDS—</b>		Cash and sinking fund..... 136,360

106 LA SALLE STREET, CHICAGO.

## MISCELLANEOUS.

### CRIPPLE CREEK, COLO.,

the leading gold-mining region in the U. S., with nearly 300 paying mines, producing \$1,000,000 per month; population of town, 20,000; of district, 40,000,—is yet in its infancy. The big profits come from developing mining claims and advance in value. I offer undeveloped claim, near shipping mines, \$10,000, can let and bond at \$30,000. Five-sixths of stock to company owning 19 acres choice location, \$20,000; can bond at \$70,000. \$1,500 buys lease, now working, heart of district, with bond for claim at \$40,000. Half interest in claim \$1,500; \$600 produces patent and gets one-third interest in another; both fair locations.

Partly developed mine, shipping and paying, has produced \$30,000; price \$150,000.

Total all cities for week.....	\$907,059,374	\$873,162,945	+3.9

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, March 20, and the results for the corresponding week in 1896, 1895 and 1894 are also given. Contrasted with the preceding week, there is an increase in the aggregate exchanges of about sixty-nine and a quarter million dollars, and at New York alone the gain is nearly sixty-one and a half millions. In comparison with the week of 1896 the total for the whole country shows a decrease of 1.3 per cent. Compared with the week of 1895 the current returns record an increase of 8.2 per cent, and the excess over 1894 is 26.2 per cent. Outside of New York the loss from 1896 is 3.7 per cent. The decrease from 1895 reaches 0.5 per cent, and making comparison with 1894 the gain is seen to be 14.3 per cent.

### THE FINANCIAL SITUATION.

An event this week completely unsettling the values of railroad securities at the Stock Exchange, and consequently giving more or less of a set-back to recuperative movements generally, was the announcement of the decision by the United States Supreme Court, which was construed as bringing every traffic association of the roads under the Trust law of 1890 and thereby presumably making them all illegal combinations in restraint of trade. We have written an article with reference to the scope and results of this decision on a subsequent page and need not enter upon those matters here. It is sufficient to say in this column that the decision was made in the Trans-Missouri Freight Association case, and except inferentially only determined of course the status of that arrangement. But on Monday, when the announcement was made, a much broader view was taken of its consequences that caused it to be at once widely disturbing, the market further yielding under a selling pressure by those interested in lower prices. Tuesday the general weakness continued, it still appearing, according to the morning press reports, that the managers of the railroads throughout the country were inclined to regard the decision as affecting all railroad combinations. By Wednesday, however, this belief was modified in some measure, it being claimed that so far as the Joint Traffic Association was concerned it would probably not be affected. Since then, there has been a little better feeling apparent, but anxiety over the possible results has continued to be the important feature in business circles.

We notice that Mr. J. Pierpont Morgan, before leaving for Europe on Tuesday, stated as his opinion that the events of the last two years have greatly lessened the possible results of this decision. He added that during the last twenty months one-third of our railroad mileage has been reorganized, and the basis of reorganization will form the protection against wholesale rate cutting; the power to make rates has been taken away from freight agents and lodged with the boards of directors and the railroad presidents. There were also additional safeguards thrown around the properties reorganized, in that voting trusts were in almost every instance formed, good for five years. These conditions which Mr. Morgan refers to will no doubt prove conservative influences. And yet as we look at it the ruling of Judge Peckham is so broad that an immediate appeal to Congress for relief appears very desirable. To be sure there is much in that opinion which seems to have been unnecessary for a decision of the case before the Court; so far as that exists it is mere dictum. Dictum, however, adopted by a majority of the Court is enough to at least throw doubt about and unsettle confidence in all contracts and arrangements to such an extent as to prevent for the time being their enforcement. This means that rate wars are again a threatened outcome of the conditions, and that of course signifies that this great carrying industry is once more to be condemned to a state of unprofitableness.

Here is a thought that the entire business public—not by any means investors alone or chiefly—are interested in. We do not need to show what breeders of general prosperity railroads are when they are allowed to make the money they need to spend for their sustenance and growth. The business man well knows how much added labor under such circum-

stances they directly employ; how many allied industries they at once set in motion; how many other trades their demand puts a spirit of activity and enlargement into. This is all so well known that the railroad interest in general estimation has become the pulse that measures and announces the degree of prosperity the country is permitted to anticipate. Every one is aware, too, how low freight charges are at the present time and that there are railroad commissioners both National and State empowered everywhere to prevent rates ever going high enough to be unjust or burdensome. Under these circumstances does it not behoove the public to bestir itself and urge upon Congress to at least pass an act declaring that the Trust law of 1890 does not include railroads? We are all looking forward to an era of prosperity. Recent weeks have given fresh signs of its coming. Shall we let this new risk stand in the way of the benefits so nearly within reach?

Both the Atchison management and the Southern Pacific management are to be congratulated upon the arrangement which has been perfected between them for the exchange of certain pieces of road in the two systems. Under this arrangement the Atchison will acquire full ownership of the Mojave division, now operated under lease by it, and the Southern Pacific will acquire the Sonora Railway, in Mexico, now the property of the Atchison, together with the connecting piece of road on the north, namely the New Mexico & Arizona, also owned by the Atchison, the two together forming a line extending from Benson, Arizona, to Guaymas, Mexico—350 miles. As we understand the arrangement, the sole consideration paid in each case is the line to be acquired by the other—that is, the exchange is an even one. That it is very desirable for the Atchison to own the Mojave line there can be no doubt. The company has just acquired the Atlantic & Pacific, and the piece of road mentioned will complete the system, giving the Atchison an unbroken line under its absolute ownership extending from Chicago all the way to the Gulf of Mexico in the one direction and all the way to the Pacific coast in Southern California in the other. The Atchison has quite an extensive system of mileage in Southern California and the Atlantic & Pacific and the Mojave division constitute the connecting link between that mileage and the main stem of the Atchison. Moreover the Atchison now has to pay a rental of \$436,266 per annum for the 242 miles of road constituting the Mojave division, and this it will save under the change made. The rental was considered very onerous, and doubtless if the present arrangement had not been arrived at, the Atchison would in the near future have taken advantage of the provision in the general mortgage and built a new line at a reduction in charges. Of course while the company under the new arrangement saves the rental, it will lose the net revenue now derived from the operation of the line from Benson to Guaymas which it gives in exchange for the Mojave division. But this line is disconnected from the parent system, and the Atchison has never been able to operate it to the best advantage, so that the net income from it is, roughly, only about \$150,000 per year. On the other hand, to the Southern Pacific the line should prove very valuable, as it connects directly with that system and forms a natural extension of the same to the Gulf of California. Mr. Huntington already has very extensive interests in

Mexico, and we may rest assured he will make it a profitable investment.

We print in another part of to-day's issue of our paper, under the head of Reports and Documents, a very complete digest of the new Reading mortgage for \$135,000,000. As the securities of the reorganized company will shortly be ready for delivery, much interest will be taken in studying the terms and provisions of this important document. As stated by us in our railroad news columns last week, the *Reading Company* is the owner of all the stock of both the Philadelphia & Reading Railway Company and the Coal & Iron Company, and also of all the other stocks and bonds which were formerly owned by the Railroad Company, as well as of various other properties, and all these stocks, bonds and properties are made subject to the mortgage. The combined properties in the year ending November 30 1896—a period of very unfavorable conditions—earned a surplus of \$808,064 over the charges as they will stand after the reorganization has been fully carried out. During the current fiscal year, pending the completion of the refunding schemes, the charges it is thought may be \$300,000 to \$400,000 larger than this.

A number of returns of railway net earnings for February have been received this week and several of them make a much better showing than those for the months immediately preceding. The Cleveland Cincinnati Chicago & St. Louis reports \$14,712 increase in gross, \$7,159 increase in net; the Northern Central, \$105,853 increase in gross, \$118,749 increase in net; the Allegheny Valley, \$2,501 decrease in gross, \$4,152 increase in net; the Central of New Jersey \$27,389 increase in gross, \$37,277 increase in net; the Southern Railway \$61,338 increase in gross, \$75,150 increase in net; the Alabama Great Southern \$20,986 increase in gross, \$9,500 increase in net; and the Georgia Railroad \$2,006 increase in gross, \$1,330 decrease in net. The following furnishes a four-year comparison for a number of companies that have this week and last week submitted exhibits for February.

Money on call has been easier this week and in abundant supply at the Stock Exchange. Bankers balances have loaned generally at 1½ per cent, with some at 1¼ and only small lots at 2 per cent. The average for the week has been barely 1½ per cent.

Banks loan at 2 per cent over the counter, but the majority, as well as the Trust companies, are represented in the Stock Exchange with offerings at the current rates. Not much business is reported in time loans and rates are 2 per cent for thirty days; 2½ per cent for sixty days; 3 per cent for ninety days to four months; 3½ per cent for five to seven and 4 per cent for eight to nine months on good mixed Stock Exchange collateral. The business in commercial paper is fair and the bulk of it is done at 4 per cent, and though quotations remain unchanged very little paper is accepted below the above-named rate. The banks are not buying much paper, having full lines, and the demand from other purchasers is moderate. Rates are 3½ per cent for sixty to ninety day endorsed bills receivable, 3¼@4 per cent for first-class and 4@5 per cent for good four to six months single names.

The European political tension has been relaxed this week so far as regards affairs in the Levant, but toward the close some uneasiness was felt in London concerning the South African situation. The pacific blockade of Cretan ports by the Powers began on Sunday morning. It was reported on Wednesday that there had been a renewal of Armenian outrages, and this news is said to have induced England to refuse to order the British fleet to assist in the proposed blockade of Greek ports, though it has been announced that England will acquiesce in such blockade. The Bank of England's minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety day bank bills in London 1½ per cent. The open market rate at Paris is 1¼ per cent and at Berlin and Frankfurt it is 3 per cent. According to our special cable from London the Bank of England gained £365,190 bullion during the week and held £40,045,735 at the close of the week. Our correspondent further advises us that the gain was due to the import of £480,000, all of which was from Australia, and to shipments of £115,000 net to the interior of Great Britain.

The foreign exchange market was strong until Thursday, when it grew easier, though not quotably lower, for short sterling, while sixty-day bills were firm. The early strength was reported to be due to a scarcity of bankers' and commercial bills, and it was said that the market had absorbed about all the run off bills then offering, while the commercial drafts were chiefly for remote delivery and held at such high figures as to make them unavailable. At the same time there were a few bills against provisions and some grain. The easier tone for short sterling on Thursday was reported to be caused by a lighter demand for remittance while the firmness in long sterling was attributed to an insufficient supply, and it was also said that buying of these bills for investment had been renewed. Bankers are of the opinion that it is possible to figure out a profit upon such transactions, and that if money can be borrowed here at 1½ per cent for sixty days, and if the rate of 4 SS, which has been bid for sight bills deliverable late in May, is maintained, the difference between retaining and borrowing upon sixty day bills bought at 4 85¼ and sending such bills abroad for acceptance and discount, including the stamp, would be about ¼ of 1 per cent. Bankers who are investing may have money which they cannot employ at remunerative rates in our money market, and therefore they may be placing it in long sterling. The range for posted rates was unchanged on Monday at 4 86 to 4 86½ for

sixty-day and 4 87½ to 4 88½ for sight, compared with Friday of last week, but rates for actual business were one-quarter of a cent higher all around at 4 85½@4 86 for long, 4 87½@4 87½ for short and 4 87½@4 87½ for cable transfers, and the tone was strong. On the following day there was no change in the range, but Brown Bros. and the Bank of British North America advanced the short rate half a cent, and the market was firm though without any alteration in rates for actual business. On Wednesday the posted rates were 4 86½ for sixty-day and 4 88 to 4 88½ for sight, the Bank of Montreal, the Canadian Bank of Commerce and the Merchants' Bank of Canada advancing both long and short half a cent, but rates for actual business remained unchanged and the tone continued firm. There was no alteration in the range on Thursday, and none in rates for actual business, but the market was firm for long and easier for short sterling. Yesterday much the same conditions ruled, the tone being easier, but with no change in either posted or actual rates. The following shows the daily posted rates for exchange by some of the leading drawers.

DAILY POSTED RATES FOR FOREIGN EXCHANGE.

	FRI. Mar. 19.	MON. Mar. 22.	TUES. Mar. 23.	WED. Mar. 24.	THUR. Mar. 25.	FRI. Mar. 26.

## THE SUPREME COURT DECISION IN THE TRANS-MISSOURI FREIGHT CASE.

It is a long time since a decision promulgated by the United States Supreme Court has produced such a deep feeling of disquietude as that announced this week in the case of the Trans-Missouri Freight Association. It is not merely that the Court has made a ruling which is at variance with that of all the other courts that have had to pass upon the question, and which runs counter to the opinions held until now by the best and ablest lawyers in the country, but that the effect of the decision (if it is to be given broad general application and extended to all cases where rates are fixed through the agency of traffic associations or other like bodies) must be to overturn established usages in the railroad world, throw the railroads back upon primitive methods in their relations with the public and with one another (as far as the fixing of the price of transportation is concerned), and leave them for the time being utterly helpless.

The Court decides that the Sherman Anti-Trust law of 1890 applies to the case of railroads, and that the Trans-Missouri Freight Association comes within the scope of the provisions of that law forbidding combinations in restraint of trade or commerce. This is a view of the matter for which most people were wholly unprepared. Until the United States District Attorney brought an action in the Circuit Court at Topeka, Kansas, asking for the dissolution of the Association, no one had seriously contended that the Anti-Trust Act was meant to cover the case of the railroads. Indeed it was plain from the language of the Act and from the discussions preceding its passage that it was the aim of the law-making body to reach a wholly different class of combinations, namely the industrial corporations or trusts, which were then in the hey-day of their existence. Section 1 of the law reads: "Every contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several States, or with foreign nations, is hereby declared to be illegal".

The language, it will be observed, is very broad, and it is on this the Supreme Court rests its contention that railroads are included within the provisions of the statute. But other sections of the law, and particularly the 6th section, seem to make such a view wholly untenable. Section 6 reads: "Any property owned under any contract or by any combination, or pursuant to any conspiracy (and being the subject thereof) mentioned in section one of this act, and being in the course of transportation from one State to another, or to a foreign country, shall be forfeited to the United States, and may be seized and condemned by like proceedings as those provided by law for the forfeiture, seizure and condemnation of property imported into the United States contrary to law". We have here a repetition of the same words as those in the first section—"contract", "combination", and "conspiracy"—and as they are used in connection with the clause which we have put in italics, namely "and being in the course of transportation", &c., this would appear to fix their meaning, and make it evident that it was the commodities the subject of "contract", "combination", or "conspiracy" which the law-maker intended to reach and not the agencies of transportation. And with all due respect to the Supreme Court we fail to see how this sixth section can be reconciled with the idea that the law was meant to embrace the operations

of the railroads. It deserves to be noted, however, that the Court was pretty nearly evenly divided on the question, five of the Justices (Messrs. Peckham, Fuller, Harlan, Brewer and Brown) being ranged on the majority side and four (Messrs. Field, Gray, Shiras and White) on the minority side.

The judges in the lower courts had equal difficulty in seeing how the law could be construed so as to cover the carrying interest. The case originally came before Judge Riner at Topeka, and later went on appeal to the Circuit Court of Appeals, sitting at St. Paul, Minn. Both tribunals upheld the legality of the Freight Association, and we reviewed their opinions at length in the CHRONICLE of October 7 1893. Judge Riner said that the test must be whether the agreement or contract attacked was prejudicial to public interest. While contracts which have a direct tendency to prevent healthy competition are detrimental to the public, and therefore must be condemned, contracts which go to the length only of preventing *unhealthy* competition are lawful. He also pointed out that the term competition must be construed in its broadest sense, so as to include other considerations besides the mere question of rates. For instance, there may be competition as to the kind and character of the service, as to time, as to facilities and accommodations, and in various other ways. He stated, too, that he had been unable to discover in the contract impugned a single element of monopoly. "The public is not entitled to free and unrestricted competition, but what it is entitled to is fair and healthy competition, and I see nothing in this contract which necessarily tends to interfere with that right". He likewise saw nothing to support the claim that it was the purpose of Congress to make the Anti-Trust law apply to the railroads. In his opinion its purpose was to remedy a very different evil.

The Circuit Court of Appeals agreed entirely with this course of reasoning. Judge Sanborn, who spoke for the Court, saying that freedom of contract was as essential to unrestricted commerce as freedom of competition, and that one who asks the Court to put restrictions upon the right to contract ought to make it clearly appear that the contract assailed is against public policy. He argued that such an agreement as the Trans-Missouri Freight Association "could not be adjudged to be a contract or conspiracy in restraint of trade under the Anti-Trust act when it is admitted that the rates maintained under the same have been reasonable and that the tendency has been to diminish rather than to enhance rates, and there is no other evidence of its consequences or effect".

As already said, the Supreme Court, speaking by a majority of its members, reaches a wholly different conclusion, and reverses the judgment of the lower courts, so that the Trans-Missouri Freight Association now stands condemned by the court of last resort. Judge Peckham, who read the opinion of the Court, said that the case involved two important questions, the first whether the Trust Act applies to and covers common carriers by railroad, and if so, second, whether the terms of the Trans-Missouri Freight Association violate the provisions of the Act. As to the first point, a contract that is in restraint of trade or commerce, he said, is by the strict language of the Act prohibited, even though such contract is entered into between common carriers by railroad, and only for the purpose of thereby affecting rates for the transportation of persons and property. "If

such an agreement restrains trade or commerce it is prohibited by the statute, unless it can be said that an agreement, no matter what its terms, relating only to transportation, cannot restrain trade or commerce. We see no escape from the conclusion that if any agreement of such a nature does restrain it, the agreement is condemned by this Act. It cannot be denied that those who are engaged in the transportation of persons or property from one State to another are engaged in inter-State commerce and it would seem to follow that if such persons enter into agreements between themselves in regard to the compensation to be secured from the owners of the articles transported, such agreement would at least relate to the business of commerce, and might more or less restrain it".

The railroads had contended that the Trust Act was intended to reach only those who were engaged in the manufacture or sale of articles of commerce, and who, by means of trusts, combinations and conspiracies, were engaged in affecting the supply or the price or the place of manufacture of such articles. The opinion holds that the terms of the Act do not bear out such construction. "We see nothing either in contemporaneous history, in the legal situation at the time of the passage of the statute, in its legislative history, or in any general difference in the nature or kind of these trading or manufacturing companies from railroad companies, which would lead us to the conclusion that it can not be supposed the Legislature in prohibiting the making of contracts in restraint of trade intended to include railroads within the purview of that Act". "Transporting commodities is commerce, and if from one State to or through another it is inter-State commerce".

Having decided that the law does apply to railroads, the second question comes up, namely what is the meaning of the language as used in the statute, that "every contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several States, or with foreign nations, is hereby declared to be illegal". Is it confined to a contract which is only in unreasonable restraint of trade, the Court asks, or does it include, what the language of the Act plainly and in terms covers, *all* contracts of that nature? The Court says it has reached the conclusion that the Anti-Trust Act renders illegal all agreements which are in restraint of trade or commerce.

As to whether the Freight Association agreement restrains trade so as to be a violation of the Act, the Court says it has no doubt it does. "The agreement on its face recites that it is entered into 'for the purpose of mutual protection by establishing and maintaining reasonable rates, rules and regulations on all freight traffic, both through and local'. To that end the association is formed and a body created which is to adopt rates which, when agreed to, are to be the governing rates for all the companies, and a violation of which subjects the defaulting company to the payment of a penalty, and although the parties have a right to withdraw from the agreement on giving thirty days notice of a desire so to do, yet while in force, and assuming it to be lived up to, there can be no doubt that its direct, immediate and necessary effect is to put a restraint upon trade or commerce as described in the Act. For these reasons the suit of the Government can be maintained without proof of the allegation that the agreement was entered into for the purpose of restraining trade or commerce or for maintain-

ing rates above what was reasonable. The necessary effect of the agreement is to restrain trade or commerce, no matter what the intent was on the part of those who signed it".

The old Trans-Missouri Association has long since been dissolved, but the Court seemingly says that all agreements to maintain or establish rates between competing roads come within the prohibition of the Anti-Trust law, and therefore are forbidden. However, while no one would venture to affirm in view of the broad language of the Court that other traffic associations may not fall within the scope of this ruling, it is yet evident that there are essential points of difference between the newer associations, like the Joint Traffic and the Western Freight, and the older associations, of which the Trans-Missouri Freight stood as a type. Whether the difference is sufficient to insure for the newer kind judicial sanction where the older kind are condemned, is of course the question regarding which everybody is at sea. On this point the fact that the Court is so evenly divided obviously is a fact of great importance. For each case will depend upon its own special circumstances, and a change of one vote will suffice to convert the majority opinion into a minority opinion. Then also a different result might possibly be obtained through a rehearing. We make this suggestion because though we have not followed the case in its course before the Supreme Court with that close attention which we would have given it had we thought there was the slightest possibility of such an outcome as has now occurred, yet the impression prevails quite widely that the railroads, feeling absolutely confident of the correctness of their position, did not have all the points argued as fully as they might have done and should have done.

Still, while we think that no stone should be left unturned in the effort to secure a re-consideration of a decision fraught with such serious consequences to the material interests of the country, it must be obvious that real, positive relief will have to come from another direction. The Supreme Court does not make the laws. It only interprets them. In this case, too, it is not a Constitutional provision but merely a statute that is involved. The statute can be changed or repealed, or altered in any way to meet the requirements of the situation. Hence it is to Congress we must turn for a remedy; and the duty to provide the remedy without delay is certainly imperative. Assume that under this latest decision traffic organizations and agreements of any kind for the maintenance of rates are illegal, and what follows? In that event railroads can no longer act collectively but must act individually. The result could only be industrial chaos and confusion. In the present highly developed state of railroad transportation, each road can no more act singly and individually in matters affecting all the roads than the citizens of a municipality can act singly in matters affecting the whole community, such as the opening of streets, the building of sewers or the securing of fire and police protection. Action must be had through some central body or organization, no matter how constituted.

The carrier in his operations is obliged to make rates not only on a thousand different articles but he must make them to a thousand different points—to points on his own line, to points on connecting, adjoining and intersecting lines. Without knowledge as to what other roads were doing, rates would be wholly haphazard, the result of chance, whim and

caprice, ever fluctuating. There could be no uniformity or stability. The roads would always be working at cross purposes, for they could not learn each other's intentions except by consulting with each other and agreeing upon a common plan of action, and this, according to the Supreme Court decision (or at least the inference generally put on that decision), would be in restraint of trade and therefore void. In other words, under such conditions the fabric of rates would collapse. The consequences are hard to measure. As rail transportation enters as a factor into nearly every branch of trade, the effect necessarily would be that the whole internal commerce of the country would be deranged and disorganized.

Of course this is not a contingency which immediately threatens. Our railroad managers will not invite catastrophe by hasty action. Rates having been fixed by agreement, they can be kept on the present basis and at the present figures for the time being, even though the agency through which they were established should be removed. But the contingency mentioned is probable in the future should the doctrine announced in the Trans-Missouri case be extended by the Court so as to apply to the cases of all traffic associations and bodies for establishing rates, and no remedy provided meanwhile. For obviously one disgruntled manager could in such event upset the whole present complex system of rates. The railroad industry is the largest single industry in the country. It represents a capitalization of over ten thousand million dollars, its yearly income exceeds a thousand million, and it gives employment in prosperous times to nearly a million men. Disaster and ruin to this industry must by all means be avoided. Congress is now in session, and it cannot too speedily enact measures designed to remove any and all doubt as to the legality of arrangements between the roads for the establishment of uniform and stable rates. The issue has been suddenly raised, but in our estimation it involves the possibility of consequences hardly less momentous than those involved in the enactment of tariff and currency legislation.

#### VAGARIES OF TREASURY BOOKKEEPING.

Probably there never was a time in a period of profound peace when it was so essential and desirable that the people of the United States should be correctly informed as to the condition of the Treasury and the relation between receipts and disbursements as at the present moment. The Government revenues, as we all know, have been running behind for many months, and Congress has just been convened in extraordinary session to correct this defect, and is now considering a new tariff bill expressly devised to overcome the deficiencies in revenues. But as it happens, just when it is most important that we should know the exact facts, the Treasury statements, owing to faulty bookkeeping (or rather owing to imperfect methods of accounting under which the bookkeeping results are presented in a misleading form), leave us in a state of utter perplexity as to the actual situation of affairs.

Any one who has studied official statements and documents during the last two months must have been bewildered and amazed, as we have been, at the great variety of results that could be deduced from the published figures. Indeed, so widely have these results differed that it was possible to reach almost any conclusion suited to one's desires and fancy. If it was desired to show a very large current deficiency,

the figures were ready to hand to prove the contention. If on the contrary it was sought to have it appear that the deficit was small, the official returns could be cited to sustain that conclusion also. That this is not an exaggerated statement will appear from a brief examination of the published figures. The Treasury issues what is known as a monthly debt statement. According to the present form of the statement, this does not pretend to show the actual net debt or the changes in the same. But it summarizes the bonded and other indebtedness of the country and also furnishes an account of the cash in the Treasury, and by deducting this latter from the former the result ought to reflect accurately the net debt from month to month. There is also at the extreme end of the statement, set off from the rest of the figures, a table showing the Pacific Railroad indebtedness—principal, interest, sinking funds, cash, &c.—which has always been treated and considered as a separate and distinct matter, having no connection with the other statements and figures.

What, then, has been the course of the net debt in recent months? Let us take the month of January for example. Comparing the figures of net debt on January 31 with those on December 31, there was an increase during January in the sum of \$15,078,735. From that the conclusion seems authorized that the Government fell that much behind during the month. The amount appears large, to be sure, but criticism is disarmed when one recalls that heavy interest payments have to be made in January, the aggregate amounting to over 7 million dollars. The correctness of the result, moreover, seemed to be put beyond doubt when the changes in the money holdings and the cash balance were considered, both showing equally heavy contraction—the money holdings having fallen off \$10,312,663 and the cash balance \$12,957,959.

When the figures of receipts and disbursements, however, are analyzed, totally different and much smaller changes are found. According to the returns first furnished, the disbursements in January ran only \$5,952,395 ahead of the receipts, and this also was the amount used in President McKinley's message; by the corrected returns the excess was substantially the same, or \$5,837,985. This is without the operations on account of the national bank redemption fund. Including those operations, the revenues fell \$3,831,539 behind, according to the original return, and \$3,717,129 according to the corrected figures. Thus by one method of calculation the deficiency for the month was less than 3¼ million dollars; by another it was over 15 million dollars. It will be interesting to bring together in tabular form the results as computed in the different ways mentioned above. We add the changes for February computed in the same way.

	January.	February.
Apparent increase in debt.....	\$15,078,735	\$4,592,137
Diminution in cash balance. ....	12,957,959	2,525,165
Diminution in money holdings. ....	10,312,663	5,266,047
<i>Disbursements over Receipts—</i>		
Without bank note fund.....	5,837,985	4,395,059
With bank note fund ..	3,717,129	2,302,304

Now what is the correct amount of deficiency for January? The 15 million dollar loss would be at the rate of 180 million dollars a year, the 3¼ million loss at the rate of only 45 million dollars. Of course this latter includes the national bank redemption fund, which has been adding about two million dollars a month to the Treasury cash. But that would account

for only about 24 million dollars of the difference between the 45 millions loss per annum and the 180 millions loss. How then is the discrepancy to be explained, and what is the real amount of loss? The Government paid off in January \$9,712,000 of Pacific Railroad bonds. It would seem at first sight that this operation could not have affected the result, since, as already stated, the accounts of the Pacific roads are presented in a separate table, and there has never been anything to indicate that they were not wholly distinct. But on investigation we find that it is that operation that is chiefly responsible for the discrepancy. For it appears that while the Pacific Railroad bonds are never included in the official total of the Government debt, the cash held in the sinking funds for those roads, and which it was supposed was held entirely separate, is commingled with the general cash in the Treasury, and as a consequence the maturing Pacific bonds paid off in January had to be paid out of this general cash, thus presenting a wholly erroneous view of the Treasury situation.

It may be asked, did not the Government sell bonds held in the sinking fund to procure the cash, and did not the one transaction count as an offset to the other? The Government did obtain some five millions of cash in that way, but it was received in December and went to swell the Treasury cash in that month and not in January. It follows of course that the result as worked out from the debt statement was wrong in both months—being five million dollars too favorable in December and not favorable enough by \$9,712,000 in January. Moreover, as the railroad sinking funds previously held five millions of cash, the results in the earlier months must also have been disturbed to the extent that the cash was accumulated in those months. The Treasury reported altogether \$10,373,534 of cash in the sinking funds with which to meet the \$9,712,000 of bonds, and to show how utterly absurd and misleading the whole monthly debt statement is we find that though all this cash was long since taken up in the general cash and \$9,712,000 of it paid out in January to redeem maturing bonds, the debt statement for March 1 actually reports the entire amount of cash, and a little more too (\$10,578,402 71), as still held in the sinking fund.

If we deduct the \$9,712,000 of Pacific Railroad bonds paid, from the \$15,078,735 apparent increase in the debt, arrived at above, the increase is reduced to \$5,366,000, and this does not differ very greatly from the \$5,837,985 deficiency in revenue reported for that month. The February results by the different methods, it will be seen, do not vary greatly except so far as they have been affected by the operations in connection with the bank fund.

Nor is this the only time that the debt statement has been entirely misleading. When the bond contract with the Morgan-Belmont Syndicate was being carried out, the whole amount of cash received on the foreign half of the loan counted in the Treasury cash on July 1 1895, while the entry to represent the thirty-one million dollars of bonds issued to obtain the cash was not made until the next month. The daily statements from Washington are often equally full of pitfalls for the unwary. Thus, when coupons or bonds are redeemed the practice is to hold them as assets and leave the available balance unreduced until the end of the month. The effect was well illustrated in the daily statements a few weeks ago. On January 30 the Treasury reported its available cash balance as \$230,227,995; the next day, or

rather on February 1 (January 31 being Sunday), it dropped suddenly to \$215,362,421. The reason was that on January 31 \$16,505,941 paid out through January for interest and bonds had not yet been marked off.

The monthly debt and Treasury statements have been changed in form a great many times during the last quarter of a century, but it must be said that the only time when they were presented in a really intelligible form was when Mr. Jordan, the present Assistant Treasurer at New York, was Treasurer of the United States. Mr. Jordan completely revised the statement. He made the Pacific Railroad debt a part of the Government total of debt, entered the accrued interest as a current liability, set aside 100 millions of gold as a reserve against the outstanding notes, and treated the fractional silver as an unavailable asset which it clearly was. Nor would he allow this fractional silver to stand as an offset against the debt. The latter was, perhaps, carrying conservatism too far, and it certainly had the effect of introducing variations in the total of the debt from month to month outside of those occurring in the course of the ordinary business of the Government. But that was the only exception to be taken to the arrangement. In 1890 Congress tried its hand at bookkeeping and directed that the national bank note fund should no longer be treated as a current liability but counted as part of the Treasury cash. In 1891 Secretary Foster went a step further and again re-cast the form of the statement. He eliminated accrued interest, took out the Pacific Railroad bonds and generally discarded the excellent features introduced by Mr. Jordan. Though a new administration came into power in 1893 the form was not again altered, and it has been continued in this shape up to the present date. We took occasion when Secretary Foster first issued the new form of statement to show that it was absolutely worthless as affording any indication of the Treasury situation, and experience has demonstrated the truth of the criticism. It is high time that a change was made to something clearer and better.

#### THE ENGLISH LIBERALS AND THE EUROPEAN CONCERT.

It has been obvious from the start that the combination of the European Powers to coerce the Government of Greece might meet with some domestic obstacles. Among the peoples ruled by parliamentary governments a note of protest was sounded early in the controversy. In England, naturally, this protest found its most emphatic public expression. It culminated a week ago in the remarkably vigorous pamphlet of Mr. Gladstone, and in the positive repudiation by the Liberal leaders of further endorsement of pro-Turkish diplomacy. The party, in the words of Lord Kimberley, its leader in the Upper House, "repudiated and utterly refused to accept a policy based upon the integrity of Turkey". Along with this came the sharp collision in the House of Commons on Thursday of last week between the Ministry and the Opposition, when Mr. Balfour, driven squarely to the wall by the searching questions of Sir William Harcourt, Sir Charles Dilke and Mr. Morley, turned on his antagonists and defied them to invite a vote of censure.

Mr. Balfour's challenge was entirely safe. The Salisbury Ministry went into power in 1895 with a clear plurality of 163 House of Commons votes over the Liberals, and subsequent bye-elections have only in a

slight degree impaired this great advantage. Nevertheless, although last week's events could hardly serve to shake the Ministry's present control in Parliament, they were exceedingly important as defining for the Opposition Party a distinct change in its fundamental policy. Lord Kimberley indeed laid emphasis on the fact that this was a real reversal of opinion. He frankly acknowledged that he had for many years sustained the policy of the Turkish Empire's integrity as the key-stone of Great Britain's Continental diplomacy. But he added that "a policy which has been treated as a mere fiction by every Power in Europe is no longer a sound basis for the European policy of this country." In other words, the Liberal leaders in both Houses of Parliament, with the applause of all their followers, declared in favor of the disruption of the Turkish Empire. Some time the Liberals will return to power; when that occurs, last week's positive declarations will be remembered.

Mr. Gladstone's pamphlet, published in the form of a letter to the Duke of Westminster, took even more distinct ground against the use of European diplomacy to maintain the so-called "Turkish integrity". This keen and brilliant political diatribe, coming from a man of eighty-seven, would be sufficiently remarkable as a literary achievement only. It is, however, even more noteworthy as a review of Turkish history, and of the relations of the Powers to that history, by a statesman who has had a most important hand in that series of international episodes. Mr. Gladstone shows, with frequent references to events in which he was himself concerned, that each successive collision between the Ottoman Empire and its tributary States has resulted, first in intervention by the Powers, finally by the separation of these States from Turkey, with the official sanction of the rest of Europe. "The integrity of the Ottoman Empire", Mr. Gladstone pointedly suggests, has "had a different meaning in almost every decade of the century now expiring. In 1830 it meant that this baleful sovereignty had been abridged by the excision of Greece from Turkish territory. In 1860 it meant that the Danubian principalities, now forming the kingdom of Roumania, had obtained an emancipation virtually, as it is now formally, complete. In 1878 it meant that Bosnia, with Herzegovina, had bid farewell to all active concern with Turkey; that Serbia was enlarged, and that Northern Bulgaria was free. In 1880 it meant that Montenegro had crowned its glorious battle of 400 years by achieving acknowledgment of its independence and obtaining great accession of territory, and that Thessaly was added to free Greece. In 1886 it meant that Southern Bulgaria had been permitted to associate itself with its northern sisters". In short, he submits conclusive proof that Lord Kimberley's affirmation is true, and that the duty of Europe to keep intact the Ottoman Empire's territory is a "mere fiction" of diplomacy.

This aggressive attitude of the Opposition cannot be easily interpreted except as a plain declaration that the Liberal leaders do not believe the peace of Europe to be involved in the Cretan situation. The conservatism, even of a factious Parliamentary opposition, in the face of a genuine diplomatic crisis, is notorious. When danger of a serious rupture actually threatens, the free cross-questioning of the Ministry in the House is instantly suspended. Intimation by the Ministry that answers to such questions would be against the public policy is invariably sufficient at such times to silence public

criticism. "It is this well-known fact which lends particular importance to the open attacks upon the Government's present policy. Mr. Gladstone's letter adds to the impression that public men are ceasing to take in serious part the talk of European war. Very adroitly, he refers to the partial dismemberment of Turkey in 1880, under the auspices of the Powers; adding, significantly, that "there was no war in Europe, though doubtless this bugbear would have been used for intimidation had our proceedings passed beyond the stage of privacy". In a seemingly almost parallel movement to coerce the Greeks in 1886, the demonstration by the British Government was begun by Lord Salisbury, was conducted in the face of little criticism, and was continued, after a reversal of Parliamentary majorities, with Mr. Gladstone himself as Premier. It was in fact Mr. Gladstone and Lord Rosebery, and not their Conservative opponent, who ordered that year's blockade of the Piræus. It is not perhaps unnatural that people should accuse both Mr. Gladstone and the Liberals of inconsistency in attacking now a policy which they personally put in practice eleven years ago. To us, however, this very change of attitude seems most significant as showing that conditions, too, have changed. If the Liberal leaders believed to-day, as they believed in 1886, that the general peace of Europe hung in the balance of this Cretan negotiation, their present policy would be inconceivable.

Whether this Parliamentary opposition has or has not exerted any actual influence on the action of the Powers is a difficult matter to determine. That the governments are at least resolved to make a formal show of coercing Greece—a David facing six Goliaths, as Mr. Gladstone contemptuously describes the situation—is an obvious fact. It is no less obvious that the British Ministry is resolved to keep its place in this European coalition even at a sacrifice of personal self-respect. Nothing more singular in European diplomacy has been witnessed in many years than the Premier's reference to the Ministry of France as the single oracle on the situation. On the sixth of February the Chancellor of the British Exchequer was bitterly scoring France for its "unwarranted meddling" with the English plans in Egypt and was threatening summary measures to restrain the Paris Ministry. On the sixteenth of March—only one month later—Lord Salisbury replies in the House of Lords: "The policy of the Powers was explained in the speeches of MM. Hanotaux and Meline. If I have not used their brilliant language, it is my misfortune and not my fault". There is possibly a strain of characteristic cynicism even in this speech; but no one could better understand than Lord Salisbury that the position chiefly vulnerable to caustic wit was that occupied by himself. The comment of the Premier's early diplomatic guide, Lord Palmerston, on such a public declaration would have been brief, pointed, and not at all flattering to his pupil's feelings.

But Lord Salisbury is not the man to place himself in such an attitude without good reason. If he made a sacrifice of personal dignity and prestige, he must have anticipated some return for it, and it is this undoubted fact which lends peculiar interest to the progress of these manœuvres in diplomacy. It is possible that the English Premier may be able later on to claim the credit of having settled the Cretan question satisfactorily to all concerned. The project of a Greek

Governor for Crete under Turkish suzerainty—rumored occasionally in the newspaper dispatches, proposed by the apologists for the Greeks at London and suggested even by Mr. Gladstone—may conceivably be the goal towards which the British Ministry is working. Undoubtedly such an end would be subserved if the foreign Ministry of France could be detached from Russian influence, and the French Ministers are perhaps not impervious to flattery from the House of Lords.

For the time, at all events, conviction that the problem is approaching some such compromise solution seems to be increasing. The international problems to arise from the "pacific blockade" are discussed as matters chiefly of academic interest. As might have been anticipated, some of our own Senatorial experts on international disputes have raised the question longingly, and have expressed a half regret that we possess no Cretan trade through which to stir up controversy. European comment has a rather similar ring of curiosity devoid of serious concern. Even the foreign security markets have recovered sharply, notably the public funds; and, as we have seen, the British opposition is already scoffing at the notion of serious results. Under such circumstances, the diplomat who manages to bring the matter to an issue without an outbreak of hostilities, without a quarrel between the Powers themselves, and without a serious sacrifice of dignity, will doubtless have achieved a victory. A Disraeli could have made as much of such achievement as of the Treaty of Berlin.

In precisely what position the "European concert" will be left, supposing such a compromise issue to the whole affair, is an interesting question. Usually, when Turkey was defended in the past some other argument than Turkey's welfare was effectively employed. In 1886 the interference of the Powers with the plans of Greece was publicly based on the alleged friendliness of the other governments to the State which they blockaded. The interference was "in Greece's own best interests", the London newspapers alleged. "Europe", said the "Spectator" when the British men-of-war threatened the port of Athens, "which defends her from Turkey, has always a right of intervention." It is somewhat noteworthy that no such apology has been advanced this year. It is very plainly Europe which is defending now not Greece but Turkey; and it is growing evident that, however the diplomatists may cling to old traditions and pretenses, the people have had enough of both.

#### IMPORTS AND EXPORTS FOR FEBRUARY.

The Bureau of Statistics has issued a detailed statement of the foreign commerce of the country for the month of February, 1897 and 1896, and for the eight months ending February 28 in 1896-97 and 1895-96, as follows:

MERCANDISE.		February.	8 mos. end. Feb. 28.
1896-97.—Exports—Domestic.....	\$77,796,210	\$722,259,986	
Foreign.....	1,977,188	12,690,539	
Total.....	\$79,773,398	\$734,950,525	
Imports—Free of duty.....	\$32,730,490	\$212,037,639	
Dutiable.....	26,463,378	210,434,246	
Total.....	\$59,193,868	\$422,471,885	
Excess of exports.....	\$20,579,530	\$312,478,640	
1895-96.—Exports—Domestic.....	\$78,378,143	\$590,281,348	
Foreign.....	1,323,761	12,385,525	
Total.....	\$77,701,904	\$602,666,873	
Imports—Free of duty.....	\$28,513,192	\$260,226,804	
Dutiable.....	33,961,924	280,963,029	
Total.....	\$62,475,116	\$541,194,833	
Excess of exports.....	\$15,223,778	\$81,472,040	

## GOLD COIN AND BULLION.

	February.	8 mos. end. Feb. 28.
1896-97.—Exports.....	\$338,897	\$14,515,934
Imports.....	544,760	78,695,906
Excess of imports.....	\$205,863	\$64,179,972
1895-96.—Exports.....	\$2,183,700	\$82,123,811
Imports.....	11,559,089	28,480,819
Excess of exports.....		\$53,642,992
Excess of imports.....	\$9,375,389	

## GOLD IN ORE.

1896-97.—Exports.....	\$10,450	\$240,521
Imports.....	282,468	1,861,214
Excess of imports.....	\$206,018	\$1,620,693
1895-96.—Exports.....	\$7,101	\$56,953
Imports.....	100,008	1,365,682
Excess of imports.....	\$92,907	\$1,218,729

## SILVER COIN AND BULLION.

1896-97.—Exports.....	\$4,660,362	\$41,760,222
Imports.....	762,942	8,200,204
Excess of exports.....	\$3,897,420	\$33,560,018
1895-96.—Exports.....	\$5,367,319	\$40,291,344
Imports.....	1,411,967	9,443,140
Excess of exports.....	\$3,955,352	\$30,758,204

## SILVER IN ORE.

1896-97.—Exports.....	\$66,158	\$379,543
Imports.....	1,568,369	12,401,320
Excess of imports.....	\$1,502,211	\$11,521,777
1895-96.—Exports.....	\$33,115	\$165,308
Imports.....	1,388,938	9,832,097
Excess of imports.....	\$1,355,823	\$9,366,791

STOCK EXCHANGE CLEARING-HOUSE TRANSACTIONS.—The subjoined statement includes the transactions of the Stock Exchange Clearing-House from March 15 down to and including Friday, March 26; also the aggregates for January and February in 1897 and 1896.

## STOCK EXCHANGE CLEARING HOUSE TRANSACTIONS.

## Monetary &amp; Commercial English News

LONDON, SATURDAY, March 13th, 1897.

[From our own correspondent.]

There is a more hopeful feeling regarding politics this week, not only in London but in most Continental capitals, and especially in Paris. The Greek reply to the Powers is neither an acceptance of their conditions nor a direct refusal. It leaves the door open for a compromise, and it is certain that the British, French and Italian governments are using all their influence to get the best possible terms for Greece.

In this country the sympathy for Greece is almost universal. Indeed it has been so from the very beginning of the troubles, and the sympathy in France and Italy is now almost as great. For a long time the French people hardly dared to assert their real feelings through their regard for the Russian alliance, but during the past few months all considerations of that kind have been overcome by the action of the Cretans and the support given by Greece. So general, indeed, is the sympathy now that the French Government was obliged at the beginning of the week to promise that it would take no action without consulting the Chambers. Italy is less free, of course, to take an independent action, but in that country the public feeling threatens to carry away the Government with it.

Under these circumstances the opinion has begun to grow in Paris, as well as in London, that a better understanding will grow up between France and England, and that the Russian Government, through its desire to maintain the *entente* with France, will act with both. Austria-Hungary will do anything that is likely to maintain the peace. For the moment, therefore, Germany is the chief difficulty. The Emperor has put himself forward very prominently; his lead has been recognized neither by England nor by Russia, and it is believed that he feels very sore therefore, and would be very glad to seize any opportunity to make himself unpleasant to this country. But little doubt is entertained for all that that the concert of the Powers will be maintained and that a peaceful settlement will be arrived at.

In South Africa the situation is serious. President Krüger obstinately refuses to make any concessions of any kind to the Uitlanders. His attack upon the Judicial Bench has produced an exceedingly bad impression all over Europe as well as South Africa, and there is no denying that Mr. Rhodes's evidence before the Committee of Inquiry has profoundly changed opinion in this country. A little while ago the feeling was against the authors of the raid. Mr. Rhodes's frank acknowledgement of his own responsibility, the readiness with which he spent vast sums of money for what he considered patriotic purposes, his summing up of the hostile policy pursued by the Boers, and his reference to German interference, have all told upon English opinion. It will require much tact and judgment, therefore, to bring about a peaceful and satisfactory settlement.

In India the famine is growing worse, and there is not very much improvement in the plague; but fortunately the money market is becoming somewhat easier.

Under all these circumstances business upon the Stock Exchange is very restricted, although there has been a remarkable recovery in many departments during the past week. The American market has not been so active as some others, as both investors and operators are waiting for the discussion of the Tariff bill. But in foreign government stocks, British railway stocks and in mining shares there has been a considerable upward movement. The advance in foreign stocks came almost entirely from Paris. The recovery in mining shares has been brought about by the buying back of "bears." It is clear now that there is a very large bear account open, although it is possible that much of it is only apparent. That is to say, that the great mining houses have sold stock which they do not wish to deliver but which they can deliver if necessary. At all events, for the time being the bear account is large. At the Stock Exchange settlement, which began on Tuesday morning, the bull account was found to be greatly reduced and there was exceedingly little demand for loans. Bankers were able to obtain only about 2½ per cent on the average.

Rates in the money market are fairly well maintained because the collection of the revenue is on an immense scale and is transferring very large sums from the outside market to the Bank of England. On the other hand, from now till the end of March the payments out of the Exchequer will be immense. Under our fiscal system all moneys not paid by the Government within the financial year, which ends with the 31st of March, must be handed over to the Treasury and cannot be disbursed without a fresh vote of the House of Commons. Therefore contractors and others to whom money is due by the Government will all send in their claims during the next three weeks. Furthermore, all official salaries, which are payable quarterly, will be paid about the 25th, and the interest on the national debt will be distributed on the 5th of April. In consequence of all this the payments out of the

Exchequer are likely to be exscedingly large during the next three or four weeks.

It is also expected that exceptionally large amounts of gold will be received both from South Africa and Australia during the next few months. The imports into South Africa greatly exceed the exports in value, and it seems likely, therefore, that the balance will have to be covered by shipping more gold than usual. Australia, owing to the smallness of its wool clip and the damage done to the wheat crop, is not likely to be able to pay the interest on all its loans by the exports of commodities. Those best informed, consequently, look for greatly increased shipments of gold. It seems reasonable to conclude, therefore, that during the next few months the rates of interest and discount in London will rule very low. Of course speculation may spring up at any moment if political anxieties are removed, and trade, in spite of everything, continues very good.

The silver market is neglected, and the India Council has difficulty in disposing of its drafts at satisfactory prices. It offered on Wednesday 40 lacs of rupees, but disposed by public tender of only about 33 lacs. Since then, however, it has sold the balance by private contract. The average price obtained on Wednesday was 1s. 3d. per rupee. The Council could, of course, sell more freely if it were willing to take a lower price, but the general belief is that the Council is not disposed to sell very largely. The expenditure on famine relief in India is on an immense scale and will continue immense until July or August. The Government Treasuries, therefore, are hardly in a position to meet many drafts from London. Consequently it is expected that before long there will be a considerable sterling loan. The general opinion is that it will amount to 8 or 10 millions sterling, but nothing is known officially, though it is expected that the Indian budget will be published on the 18th of this month, and that in it the policy of the Government will be declared.

The imports since January 1 have been as follows:

	1897.	1896.	Difference.	Per Ct.
Imports.				
January .....	39,975,668	33,473,856	+1,501,812	+3.90
February .....	37,245,164	33,476,738	+1,768,428	+4.98
2 months...	77,220,832	73,950,592	+3,270,240	+4.42

The exports since January 1 have been as follows:

	1897.	1896.	Difference.	Per Ct.
Exports.				
January .....	19,762,378	21,146,491	-1,384,113	-6.54
February .....	17,864,682	19,704,095	-1,839,413	-9.33
2 months...	37,627,060	40,850,586	-3,199,663	-7.83

The re-exports of foreign and colonial produce since January 1 show the following contrast:

	1897.	1896.	Difference.	Per Ct.
Re-Exports.

Messrs. Pixley & Abell write as follows under date of March 11:

Gold—Excepting that the price has slightly receded in the open market, there are no changes to report in the character of the demand. The Bank has received £450,000 during the week, of which the bulk was in Australian sovereigns. £50,000 has been withdrawn for Roumania. Arrivals: Australia, £426,000; New Zealand, £8,500; China, £20,000; Bombay, £66,000; Capetown, £170,000; Chili, £1,500; total, £692,000. Shipments: Bombay, £2,500; Koba, £268,000; total, £270,500.

Silver—The general course of the market has been downward since our Circular of last week. A fair amount of inquiry was induced by the low price ruling, but in spite of American sellers being rather inclined to hold off, the amounts offering have proved rather too much to admit of steadiness. The Indian price in the Bazaar is quoted to-day as 79 1/2 Rs. per 100 Tolahs. Arrivals: New York, £230,000; Chili £47,000; total, £277,000. Shipments: Bombay, £43,500.

Mexican Dollars—With no fresh transactions to report, the nearest price is now 28 1/2d.

The quotations for bullion are reported as follows:

CORPORATE EXISTENCE EXTENDED.  
2,350—The Mahoning National Bank of Youngstown, Ohio, until March 15, 1917.  
2,353—The Moravia National Bank, Moravia, N. Y., until March 19, 1917.  
RESUMPTION.  
1,757—The First National Bank of Sioux City, Iowa, which was declared insolvent on the 7th of January, 1897, and placed in the hands of a receiver, has been restored to solvency and permitted to reopen its doors for business March 16, 1897.  
LIQUIDATION.  
4,136—The Manufacturers' National Bank of Pittsburg, Kansas, has gone into voluntary liquidation by resolution of its stockholders, dated March 16, 1897.  
INSOLVENT.  
2,795—The Union National Bank of Minneapolis, Minnesota, was on March 20, 1897, placed in the hands of Charles W. Sexton, receiver.  
4,332—The Merchants' National Bank of Jacksonville, Florida, was on March 17, 1897, placed in the hands of E. T. Shubtlek, receiver.

**IMPORTS AND EXPORTS FOR THE WEEK.**—The following are the imports at New York for the week ending for dry goods Mar. 19 and for the week ending for general merchandise Mar. 19; also totals since the beginning of the first week in January.

For week.	1897.	1896.	1895.	1894.
Dry goods.....	\$2,337,601	\$2,821,241	\$2,349,535	\$1,811,274
Gen'l mer'dise	8,317,285	6,722,621	6,030,636	9,282,231
Total.....	\$10,654,886	\$9,543,862	\$8,380,191	\$11,093,525
Since Jan. 1.				
Dry goods.....	\$27,532,698	\$35,259,150	\$38,154,013	\$21,759,605
Gen'l mer'dise	76,876,919	74,920,978	72,961,713	73,376,976
Total 11 weeks	\$104,409,617	\$110,180,128	\$111,115,726	\$95,136,581

The imports of dry goods for one week later will be found in our report of the dry goods trade.  
The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending March 23 and from January 1 to date:

For the week..	1897.	1896.	1895.	1894.
Prev. reported	\$8,107,256	\$6,301,832	\$6,381,174	\$7,330,872
Total 11 weeks	\$85,173,170	\$84,308,377	\$74,473,186	\$80,597,534

The following table shows the exports and imports of specie at the port of New York for the week ending Mar. 20 and since January 1, 1897, and for the corresponding periods in 1896 and 1895:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.				
Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....				\$10,177
France.....	\$87,750	\$521,995		
Germany.....				10
West Indies.....	45,700	425,740	\$107,259	\$62,863

South America.....		8,486	21,462	109,822
All other countries.....				42,921
Total 1897.....	\$1 3,450	\$1,035,221	\$129,353	\$988,263
Total 1896.....	150,000	12,590,985	149,663	17,300,269
Total 1895.....	78,422	29,573,271	2,207,430	11,652,602
Silver.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	\$977,700	\$9,310,239		\$545
France.....		431,000		
Germany.....		5,750		1,000
West Indies.....	13,564	41,001	\$5,360	53,975
Mexico.....			33,657	261,902
South America.....		11,475		150,760
All other countries.....				4,225
Total 1897.....	\$991,268	\$9,829,468	\$39,017	\$472,107
Total 1896.....	1,209,424	11,944,294	72,363	573,768
Total 1895.....	609,984	6,746,305	3 291	281,253

Of the above imports for the week in 1897 \$6,600 were American gold coin and \$10 American silver coin. Of the exports during the same time \$45,700 were American gold coin.

—The Central Trust Co. of New York and Hallgarten & Co. invite subscriptions at 99% and accrued interest for \$6,000,000 5 per cent forty-year consolidated mortgage gold bonds of the West Chicago Street Railroad Company. The company operates 259 miles of road, of which it owns 72.70 miles and leases the remainder. The greater part of the system is operated by electric power and nearly all the balance by cable. The various companies composing the system own real estate valued at \$4,328,234, upon which improvements have been made valued at \$5,753,463, making a total of \$10,081,701. The proceeds of the bonds now offered are to be used to retire \$2,700,000 of debenture bonds and to fund a floating debt of about \$3,000,000. This debt was incurred and the proceeds of the debentures used in improving the prop-

erty. The proceeds of \$3,189,000 of stock at par have also been used for the same purpose since 1890, and besides a part of the net earnings, making the total expenditures for improvements since the year mentioned over \$10,000,000. The first mortgage bonds amounting to \$3,968,000 were issued to pay for the 6,251 shares of the stock of the Chicago West Division R. Co., and this majority interest in the stock estimated now worth double its cost is pledged for the consols, subject to the first mortgage. The total fixed charges of the system, less income from securities held, are \$910,915 per annum. With taxes added the charges are \$1,016,114, leaving for the year 1896 a surplus of \$864,455. The surplus during the last five years has been sufficient to enable the company to pay dividends regularly upon its capital stock, of which there is \$13,189,000 outstanding. The subscription lists to the bonds will be opened March 25 and close March 29 or earlier. Application will be made to have the bonds listed on the New York Stock Exchange. The subscriptions will be opened also in Chicago by the Illinois Trust & Savings Bank and in Philadelphia by Messrs. George A. Huhn & Sons.

Coins.—Following are the current quotations in gold for coins:

WALL STREET, FRIDAY, MAR. 26, 1897—5 P. M.

**The Money Market and Financial Situation.**—By far the most potent influence in Wall Street this week was the United States Supreme Court decision against the Trans-Missouri Traffic Association, which was handed down on Monday. Its immediate effect upon the market for railway securities was a heavy decline in prices, and it created a feeling of general uncertainty as to how far-reaching its effect may be in the future. The opinion seems to be gaining ground, however, in Stock Exchange circles, that it will not be likely to prove as disastrous to railroad interests as was at first feared.

The foreign situation has not materially changed during the week and is largely lost sight of in view of the more absorbing domestic affairs. Of these the proposed new tariff bill is the most important, while National and State politics and legislation are prominent themes of discussion. Inasmuch as there is a considerable degree of uncertainty in regard to the outcome of these matters, Wall Street, in common with the country at large, is disposed to wait for developments.

The foreign exchange market has displayed some strength since our last report, although on account of the limited demand for bills rates for actual business have only fractionally advanced. This movement suggests that an increased demand might advance rates to a point which would admit of gold exports, but it is thought that only a heavy increase of merchandise imports or return of our securities from abroad can, in the near future, create such a demand.

There is no new feature in the money market.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1 1/2 to 2 per cent. To-day's rates on call were 1 1/2 to 1 3/4 per cent. Prime commercial paper is quoted at 3 1/2 to 4 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £365,190 and the percentage of reserve to liabilities was 55.32, against 55.03 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows an increase of 2,826,000 francs in gold and a decrease of 52,000 francs in silver.

The New York City Clearing-House banks in their statement of Mar. 20 showed a decrease in the reserve held of \$5,785,900 and a surplus over the required reserve of \$18,168,975, against \$32,863,550 the previous week.

**Foreign Exchange.**—The market for foreign exchange has been firm on a more limited supply of bills and although the volume of business is small rates have advanced.

To-day's actual rates of exchange were as follows: Bankers, sixty days' sterling, 4 85 3/4 @ 4 86; demand, 4 87 1/4 @ 4 87 1/2,

cables, 4 87 1/2 @ 4 87 3/4. Posted rates of leading bankers follow

	March 26.	Sixty Days.	Demand.
Prime bankers' sterling bills on London..	4 86 1/2		4 88 @ 4 88 1/2
Prime commercial.....	4 85 @ 4 85 1/2		
Documentary commercial.....	4 84 1/2 @ 4 84 3/4		
Paris bankers' (franco).....	5 18 1/2 @ 17 1/2		5 16 1/2 @ 15 1/2
Amsterdam (guilder) bankers.....	401 1/2 @ 40 1/2		40 1/4 @ 40 1/2
Frankfort or Bremen (reimarks) bankers.....	95 1/2 @ 95 1/2		95 1/2 @ 95 1/2

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling par; Charleston, buying par, selling 1/8 premium; New Orleans, bank, \$1 00 premium; commercial, 25c. per \$1,000 discount; Chicago, 25c. per \$1,000 discount; St. Louis, 25c. per \$1,000 discount.

**United States Bonds.**—Sales of Government bonds at the Board include \$155,000 4s. coup., 1925, at 123 1/4 to 123 3/4; \$42,000 4s. reg., 1925, at 123 1/4; \$5,000 4s. reg., 1907, at 111 1/2; \$1,000 4s. coup., 1907, at 113 1/4 and \$2,000 5s. coup., at 114 to 114 1/4. The following are closing quotations:

\* This is the price bid at the morning board, no sale was made.

**United States Sub-Treasury.**—The following table shows the daily receipts and payments at the Sub-Treasury:

Date.	Receipts.	Payments.	Balances.		
			Coin.	Coin Certs.	Currency.
Mar. 20	3,457,157	2,769,640	131,087,335	2,311,537	67,518,355
" 22	3,119,054	3,009,689	131,089,502	2,429,321	67,507,761
" 23	1,982,777	2,225,432	131,086,887	2,407,103	67,289,934
" 24	3,058,683	2,548,995	131,005,107	2,756,584	67,532,228
" 25	1,936,677	2,118,853	130,913,075	2,613,695	67,545,042
" 26	2,190,512	2,039,593	130,944,737	2,456,170	67,831,754
Total	15,744,260	14,711,312			

**State and Railroad Bonds.**—Sales of State bonds at the Board are limited to \$16,000 Virginia fund, debt 2-3s of 1891 at 63 1/4 and \$4,000 Tenn. settlement 3s at 79 3/4.

The market for railway bonds has been weak in sympathy with stocks. Business in this department has been less extensive, and a larger proportion of it centered in the speculative issues than of late. Bonds of this class have generally declined an average of about 1 per cent, while high-grade issues have been steady with few offerings. More than the average decline is noted in bonds of some of the coal roads, including Central of New Jersey and Hocking Valley. The active list includes Atchison, Chicago & Erie, Chicago & Eastern Illinois, Chicago & Northern Pacific, Chesapeake & Ohio, Central of New Jersey, Burlington & Quincy, Rock Island, North West, Fort Worth & Denver City, Missouri Kansas & Texas, Texas & Pacific, Union Pacific, Northern Pacific, Oregon Short Line, Oregon Short Line & Utah Northern, S. Louis & San Francisco, St. Louis & Iron Mountain, St. Jos. & Grand Island, San Antonio & Aransas Pass, Milwaukee & St. Paul, St. Paul Minn. & Manitoba, Wabash, Lake Shore, Louisville & Nashville, Ohio & Mississippi, Hocking Valley, Erie, Reading, Southern Railway, New York Central, Union Elevated and Standard Rope & Twine bonds.

**Railroad and Miscellaneous Stocks.**—The market for railroad stocks has been active again this week, but for quite a different reason from that noted last week. The desire to dispose of stocks seemed generally to prevail and sales were freely made for both long and short account. This movement was stimulated by the United States Supreme Court decision referred to above and extended to the entire active list. Naturally the granger stocks were largely affected and declined from about 3 per cent, as in the case of St. Paul and North West, to 5 1/2 per cent in Burlington & Quincy and 4 1/2 in St. Paul & Omaha. Central of New Jersey has been conspicuously weak and rumors of a reduction of the dividend rate accompanied a decline of 6 points to 84 3/4, the lowest quotation it has made since March, 1895. This was evidently due in part to a bear raid, however, as the stock sold at 87 1/2 on Wednesday and closes to-day at 86 3/4. The Vanderbilt stocks suffered less than many other stocks of the active list, although Lake Shore and Cleveland Cincinnati Chicago & St. Louis lost 2 1/2 points. New York Central was up to 102 on Monday, sold at 98 1/4 to-day and recovered to 99 1/2, closing with a net gain of 3/8. Louisville & Nashville was down 3 1/2 points on Wednesday, when Manhattan Elevated, Reading and Southern Railway preferred had each lost 2 points. The reaction which began before the close on Wednesday carried prices up an average of about 1 point from the lowest of the day, since which the market has been unsettled but generally weak.

The miscellaneous list has been less conspicuous than usual. Changes are generally to a lower level, but in most cases are unimportant.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every **STREAM** railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

\* Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & Southwestern. These figures include results on leased lines.

† Includes earnings from ferries, etc., not given separately. ‡ Mexican currency. § Includes only half of lines in which Union Pacific has a half interest.

¶ Includes operations of the Ohio, Burlington & Northern in both years.

§ Covers results for lines directly operated east of Pittsburg.

¶ Includes results on affiliated lines.

§ Covers besides the Atlantic System the Houston & Texas Central, Austin & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans.

† Includes St. Louis Alton & Terre Haute for all periods.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows:

For the third week of March our preliminary statement covers 45 roads, and shows 0.92 per cent increase in the aggregate over the same week last year.

#### STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

## STREET RAILWAYS AND TRACTION COMPANIES.

\* Figures were exceptional in 1896 on account of Atlanta Exposition & decrease in earnings due to factories being shut down.

**Street Railway Not Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of March 20, 1897. The next will appear in the issue of April 17, 1897.

Roads.	Gross Earnings.		Net Earnings.

## STREET RAILWAYS.

Louisville Ry..... 468

## Cleveland &amp; Pittsburg Railroad.

(Report for the year ending Nov. 30, 1896.)

President R. F. Smith says:

In view of the great depression in business, largely if not wholly due to the political conditions prevailing during the year, the result from operations is very gratifying. The expenditures on account of betterments to the property for the year 1896 are reported by the lessee as amounting to \$67,745.

There have been issued, to apply on the amount due the lessee company for betterments, \$316,000 of general mortgage bonds (\$200,000 of this for 375 new coal cars—Erie), and \$173,000 of consolidated and construction and equipment bonds have been retired and canceled by the operations of the sinking funds.

The annual meeting of the stockholders will hereafter be held the day following the third Wednesday in May.

Earnings and charges are reported by the lessee as follows:

Earnings.	EARNINGS AND EXPENSES.			
	1896.	1895.	1894.	1893.
Passenger.....	576,678	615,658	584,186	641,767
Freight.....	2,506,955	2,794,145	2,188,019	2,269,334

Total.....	\$20,531,752	Total.....	\$20,531,752

—V. 62, p. 1097.

## Oregon Improvement Company.

(Report for the year ending Nov. 30, 1896.)

The statement of earnings from the annual report was published in the CHRONICLE of Feb. 6, page 234. In the full report now at hand Receiver C. J. Smith says substantially:

"General Results.—The unsatisfactory exhibit of the comparative business of 1896 may be accounted for as follows:

"First. The severe competition on all its steamer routes and the expensive character of the operation of the majority of its steamers.

"Second. The reduced output of its Franklin mine, due to fires of previous years, and the reduced prices of coal consequent on the increased competition, both local and foreign.

"Third. The scattered character of the property, a portion of which (railroad branches more particularly) are not profitable in themselves, can not be reasonably made so, and contribute very little as feeders."

The receipts of the company's steamers per ton have fallen from \$3.12 in 1891 to \$2.71 in 1895 and \$2.62 in 1896. The present rates are abnormally low and can be materially increased.

**Need of New Steamers, etc.**—It should be the policy of the company, however, to maintain its service and improve it, where necessary. Its future success will depend very largely upon the adoption of such a policy and its ability to carry it out. The past policy has been unfortunate. For thirteen years, with one exception (the "Corona"), the company has built no new steamers. As a consequence, while they have added during this period eight steamers to their fleet, none of them were adapted to the special requirements of the service, or provided with economical devices; all were second hand, and some of them were purchased at high prices and with the view of retiring competition, which the policy of the company and the character of its fleet invited. Two vessels of the class of the "Pomona" and "Corona" would do the work of seven wooden boats. The cost of two such boats would be about \$100,000, the net income of which would be nearly 2½ per cent per annum.

A definite policy of providing a reserve fund for building regularly such steamers as its business necessities demand should be adopted at once and adhered to, regardless of temporary depressions. With this end in view the steamer "Queen" has been thoroughly overhauled. This work will cost about \$30,000 and will be completed in January, 1897. Wharves should also be purchased in several locations, controlling by this means tributary business and limiting competition.

The Columbia & Puget Sound RR. is suffering from the same narrow policy that affects the steamers. Its gauge should be changed.

**Financial.**—In addition to the current expenditures for operation there have been paid during the year the following amounts:

Seattle tide lands.....	\$10,859
Judgments on account of personal accidents of Oct., 1892.....	7,787
Judgment for insurance premium of 1891.....	11,105
Interest on 1st mortgage bonds Dec., '95, and June, '96.....	244,260
Interest on same to October 15th.....	2,727
Repairs of steamers "Corona" and "Coo's Bay".....	54,000
Final payment on steamer "St. Paul".....	20,000
Overdraft of Pacific Coast Steamship Co. date of receivership.....	40,000
Taxes prior to 1896.....	1,798

Total.....\$392,536

The obligations of the receiver for repairs, etc., aggregate \$226,000, against which there is available cash on hand about \$110,000; balance, \$116,000. As \$90,000 of this is on long time payments, the present debt to be paid from future earnings is about \$26,000.

The outlook for the coming year is better than 1896. There will be less competition on the steamer routes, better rates and slightly increased business, and the coal business also promises better results.

**Requirements for 1897.**—The requirements for the year 1897, as estimated by the receiver at Seattle are stated in a letter to the Manhattan Trust Co. and the Farmers' Loan & Trust Co. approximately as follows:

Oregon Impt. property, coal lands and openings.....	\$285,000
Columbia & Puget Sound RR. improvements.....	315,000
Steamships and wharves.....	1,540,000
Pacific Coast Railway Company.....	30,000

Total.....\$2,170,000

Less cash on hand.....130,000

Net total requirements.....\$2,040,000

Expert Thomas L. Greene in 1896 estimated the immediate cash requirements for improvements at.....\$1,500,000

The estimates in the report of Mr. Green (which was cited in the CHRONICLE of June 13, 1896, p. 1084) are therefore more than upheld by the independent judgment of the receiver.—V. 62, p. 284.

### Central Vermont RR.

(Expert Little's Report to June 30, 1896.)

Mr. Stephen Little's report, recently made public, is addressed to President Peabody, of the American Loan & Trust Company of Boston, and covers operations for the three years ended June 30, 1896, its object being to show what is considered the real net earning capacity of the property and its financial condition June 30, 1896.

Mr. Little therefore deducts from the net earnings of the several lines of the system the charges for "additions and betterments," which on the entire system for the three years aggregated \$463,442, and a further amount for impairment of equipment of \$69,437. Regarding the propriety of these deductions, he says:

Up to June 30, 1892, this was the method employed by the company itself, and I believe the proper method. The receiver, moreover, have also adopted it since their appointment on March 19, 1896.

The money, however, has been spent for the benefit of the property, and whether it was derived from the income or from borrowing, or both, seems to me to be immaterial. Unless the income is charged with the whole amount, one cannot safely determine what your net earnings applicable to interest on funded and floating debt, etc., really were. Another strong reason why the income should be thus charged is the fact that while your net indebtedness from 1893 to 1896 increased \$936,011, or 23.57 per cent, your net earnings from all sources increased but \$159,653, or 14.48 per cent.

The fact that this equipment has disappeared from the lists, but that no provision has been made in the accounts for its renewal, is undisputed; the equipment has died in the lists, but at no time in the equipment account on the books as a live asset. There can be no question then as to the propriety of my treatment of this account.

As to other matters Mr. Little says:

A severe drain on your revenues is the very large amount you pay for the use of cars of other companies in excess of what other companies pay for the use of your cars, thus proving very clearly that your car equipment is inadequate for the conduct of your business. In the three years, 1894 to 1896 inclusive, \$699,977 was paid out for car mileage over and above amounts received for the three years.

Cross-ties laid per mile of road in 1894 were about 34; in 1895 about 37 and in 1896 about 37.6. At 3,000 ties to the mile, this shows a fair average for maintenance. Of the steel rails laid, 955 tons were put down in 1891, 235 in 1895 and 2,300 in 1896.

Touching the deficit of \$17,841 on the Rutland Division for the three years, it should have been largely assumed that it was diverted the through freight over the Central Vermont Lines proper, and are practically parallel to it. Your Auditor estimates that in 1894 the Rutland Division earned gross \$189,919 and in 1895 \$210,000, business that could have been sent the other way. And vice versa figures the cost of operating that division in each year, and you have net for 1894 \$5,000 and for 1895 \$80,000, total \$85,000, which could be added to its deficit and subtracted from the deficit of the "consolidated," so called.

**Earnings.**—From Mr. Little's statement we have compiled the following, showing the results on each division of the road for two of the three years:

	Year end, June 30, earnings.	Gross earnings.	Net earnings, deducting taxes, etc.	Mr. Little's Rentals, Balance, sur. or def.
Consol. RR. of Vt.	1896..	2,205,090	\$588,727	140,681

† NOTE.—Reduction compared with 1895 is due to non-payment of rental of Rutland R.R. after March 19, 1897, when receivers were appointed for Central Vt.

Mr. Little's balance sheet, as of June 30, 1896, in condensed form, is as below given. That it may embrace the Consolidated RR. of Vermont (leased) he introduces the item of \$4,050,000 Estate of the Consolidated RR. of Vermont, and offsets it on the credit side by the \$7,000,000 5 per cent bonds due in 1913, preferred stock \$750,000 and common stock \$300,000.

### GENERAL BALANCE SHEET June 30, 1896.

Total.....\$16,905,775	Total.....\$16,905,775

† NOTE.—The par value of stocks owned June 30, 1896, were as follows: Montpelier & White Riv. RR. (all), \$500,000; Ogdensburg & Lake Champlain, \$1,591,000; Stantead S. & C. RR. (all), \$500,000; Vermont Central, \$250,000; Ogd. Tran. (out of \$800,000) \$405,000; Grand Isle Steamboat Co., \$30,000.

**Mileage, Securities and Rentals of Leased Lines.**—As the company's relations to its subsidiary lines have been difficult of comprehension we give below a table prepared by us to show the mileage, securities and rentals of the several lines leased and controlled. On Dec. 14, 1891, it was voted to consolidate the Central Vermont RR. Co. itself, which owns no line in fee, with the Consolidated RR. of Vermont (including the Vermont & Canada) and the Montpelier & White River, the latter being entirely controlled. The consolidation was approved by the Legislature of Vermont, but apparently was never formally carried out, the stock of the Consolidated RR. of Vermont being still in the hands of the public and all reports showing the companies as independent organizations. It is stated that the matter may come up for investigation by the courts during future litigations.

The table prepared by us is as follows:

Company—	Miles.	Lease runs.	Annual rental.	Bonds outstanding.	Stock outstanding.
Consol. RR. of Vt. Wind's, Vt., to Rouses Pt., N. Y., & brs ...	179	30 years from 1884.	\$350,000 int rest on bonds.	\$7,000,000 of 5s.	c'm. \$750,000 pfd. 300,000
Mont. & White R.R. Montpelier to Williamstown, Vt. ....	14	none.	none.	none.	\$500,000 all owned.
Burl. & Lam. Val. RR. Essex Junc. to Cambridge Junc., Vt. ...	26	95 years from 1880.	\$20,200 5 p. c. on stk., &c.	none.	\$100,000 5 per cent.
Mississquoi Valley RR. St. Albans to Richfort, Vt. ....	28	95 years from 1884.	\$20,200 4 p. c. on stk., &c.	none.	\$500,000 4 per cent.
Montreal & Vt. Jc. Rty. Canada line to near St. Johns, P. Q. ....	23	97 years from 1887.	\$50,000	\$200,000	\$1,000,000
Mont. Port. & Bost. RR. St. Lambert to Farnham, P. Q., & br ...	41	(?)	\$7,200	\$1,000,000	\$900,000
Stansted Shef. & C. RR. St. Johns to Waterloo, P. Q. ....	43	(?)	\$7,752	\$479,300	\$107,000 all owned.
New London North'n. New London, Conn., to Brattleboro, Vt. ...	121	90 years from 1891.	\$201,400 int. & divs.	\$1,500,000 of 4s & 5s.	\$1,500,000 8-9 per ct.
Brattleboro & White R.R. Brattleboro to South Londonderry, Vt. ....	36	99 years from 1880.	\$9,600 minimum	\$150,000 6 p. cts.	\$200,000
LEASED LINES ABANDONED BY RECEIVERS.					
Rutland RR. Bellows Falls to Burlington, Vt., & br ...	135	999 years from 1890.	\$305,557 in 1895	\$3,500,000 of 4s, 5s & 6s	pf \$1,232,100 4 per cent.
Ogd. & L. Champlain. Rouses Point to Ogdensburg, N. Y., & br.	126	In perpetuity.	\$220,450 interest on bonds, &c.	\$3,850,000 of 4s & 5s.	\$3,077,500 (\$1,591,000 owned.)
Total .....	772		\$1,258,359		

+ Central Vermont pays 2 per cent interest (\$7,752) on this amount and owns \$191,200 of the loan in addition.  
 \* To New London Northern; operated since 1883 by Central Vermont.

—V. 64, p. 567.

### Street's Western Stable Car Line.

(Report for the year ending Dec. 31, 1896.)

At the annual meeting President Fisher said in part:

The results accomplished during 1896 surpassed somewhat those of 1895. There was disbursed for interest on bonds the sum of \$70,000, and in addition \$30,000 bonds were purchased for the sinking fund at prices ranging from 98 1/4 to par. Dividend of 7 per cent was paid upon the preferred stock outstanding, amounting to \$54,383; a surplus for the year remaining, after paying operating expenses, of \$91,022. This surplus was absorbed by the payment of \$96,964 on account of car trust notes, being all of such notes maturing during the year. In brief, your company has been able during the year promptly to meet its outstanding obligations.

On January 1, 1897, there remained outstanding car trust notes amounting to \$152,749, as against \$239,983 Jan. 1, 1896. These notes are payable by years, including interest, as follows: 1897, \$93,546; 1898, \$42,211; 1899, \$29,470. It will be noted that by far the larger amount is payable in 1897.

A resolution was passed authorizing the directors at their discretion to extend the car trust obligations so as to increase in future the funds available for dividends.

Statistics.—The earnings and expenses were as follows:

	1896.	1895.	1894.	1893.
Mileage earnings .....	\$121,015	\$112,320	\$117,484	\$527,714
Miscellaneous receipts .....	3,199	7,531	26,716	9,730
Total .....	\$124,514	\$119,901	\$144,200	\$537,444
Operating expenses .....	159,109	160,744	165,169	158,500
Net earnings .....	\$265,405	\$259,157	\$279,031	\$378,944
Interest .....		\$70,000		
Sinking funds .....	50,000	50,000		
Dividends .....	54,383	54,383	\$229,949	\$341,836
Miscellaneous .....		4,753		
Total .....	\$174,383	\$179,136	\$229,949	\$341,631
Surplus .....	\$91,022	\$30,021	\$49,032	\$37,303

—V. 62, p. 275.

### The Baltimore Traction Company.

(Balance Sheet Dec. 31, 1896.)

Referring to the annual report in our issues of Feb. 6 and 13, pages 285 and 326, we give the following balance sheet:

STATEMENT DECEMBER 31, 1896.

Assets.	Liabilities.
Cash .....	Capital stock .....
Construction, real estate, etc. ....	Bonds, 5% 1st mort. ....
Materials on hand .....	6% exten. & imp'v't. ....
Stocks and bonds of other roads owned by Co.—actual cost ..	5% North Balt. Div. ....
Cars—actual cost .....	5% collat. tr. 1st M. ....
Bills receivable .....	5% convertible gold. ....
Capital stock (in treasury) 1/2 share .....	Open accts., incl. all taxes ac'd but not yet due, pay'ble Jan. 9, 1897, \$30,886 .....
Open accounts .....	Int. on bonds accrued but not yet due .....
	Dividend No. 3 pay'ble Jan. 15, 1897 .....
Total .....	Surplus .....

—V. 64, p. 326.

### Akron Street Railway & Illuminating Co., Akron, Ohio.

(Statement for year ending Dec. 31, 1896.)

The following statement has been furnished:

	1896.	1895.	Increase.
Gross earnings .....	\$110,246	\$189,256	\$20,990
Operating expenses .....	124,129	108,718	15,411
Net earnings .....	\$86,117	\$80,538	\$5,579

"The company during the year built a new power house 104x98 feet, laid additional track and made other general betterments amounting to \$54,000. Because of including extraordinary betterments, the item of operating expenses in 1896 is unusually large (59 per cent of gross); through economies possible the coming year it will be much

less, thus showing a corresponding increase in net earnings. Four million passengers were carried during the year. Considering the general depression the past twelve months the company, it is thought, has done well."—V. 61, p. 1063.

### Wilkesbarre & Wyoming Valley Traction Co.

(Report for year ending Dec. 31, 1896.)

Earnings, expenses, etc., for the late year compare with previous years, as follows:

Years ending Dec. 31 -	1896.	1895.	1894.
Gross earnings .....	\$507,362	\$451,941	\$400,143
Operating expenses .....	232,183	209,600	196,824
Net earnings .....	275,674	242,341	203,319
Charges—			
Interest on bonds .....	112,960	100,125	93,259
Rentals, taxes, etc. ....	43,330	34,089	29,348
Total .....	156,340	134,214	122,607
Balance, surplus, for year .....	119,334	108,127	80,712

COMPARATIVE GENERAL BALANCE SHEETS OF DECEMBER 31.

	1896.	1895.
Assets—		
Property and franchises .....	6,668,105	6,823,039
Personal property .....	215,250	215,335
Pittston street car sinking fund .....	12,000	6,000
Supplies on hand .....	9,694	8,600
Bills receivable, etc. ....	639	4,000
Open accounts (construction) .....	90,965	60,769
Cash on hand .....	4,083	14,363
Total .....	6,998,741	7,132,156
Liabilities—		
Capital stock .....	5,000,000	5,000,000
First mortgage bonds .....	1,500,000	1,500,000
Collateral trust bonds .....	325,000	153,000
Unfunded debt .....	84,167	
Open accounts (construction) .....	17,695	182,531
Profit and loss, surplus .....	71,879	296,622
Total .....	6,998,741	7,132,156

—V. 62, p. 361.

### American Biscuit Company.

(Statement for the year ending Dec. 31, 1896.)

This company, which is a competitor of the New York Biscuit Company, and operates about forty bakeries, makes the following statement:

The affairs of the corporation are in a healthy condition. The regular dividend of 6 per cent was paid out of last year's earnings; 3 per cent having been disbursed Aug. 1, 1894, and 3 per cent Feb. 1, 1897. This report states that the bonded debt of the company is \$615,000, or same as it was last year; \$100,000 of which matures in 1900, balance in 1910. These bonds were issued in payment for real estate purchased by the company some time ago, and are secured by specific liens on such real estate. They are liens on no other property owned by the company. The company owns valuable real estate free and clear from this incumbrance. Aside from the bonded indebtedness, the company is entirely out of debt, having cash on hand considerably more than sufficient to pay all outstanding bills. Following directors were elected for the ensuing year: J. L. Looze, L. D. Dozier, D. F. Bremner, W. W. Shaw, H. F. Vorles, A. Manewal, J. S. Looze, M. Carpenter, R. A. Johnston, Joseph Garneau, J. T. Frost, F. W. Crocker, I. J. Lingias, F. L. Sommer and S. D. Works.

The officers are: President, J. L. Looze; First Vice-President, D. F. Bremner; Second Vice-President, L. D. Dozier; Secretary, H. F. Vorles; Treasurer, W. W. Shaw.—V. 62, p. 363.

### American Screw Company.

(Report for the year ending Dec. 31, 1896.)

In the report of this company, which has headquarters at Providence, R. I., President Edwin G. Angell says in part:

General Results.—The general adverse conditions have been supplemented by an intense competition among screw makers and the recent exceptional decline in consumption of wood screws. Following the dissolution of the screw pool in 1894 our sales showed a very considerable increase, but during the past year they were less than one-half of those of the year previous. Prices of wood screws declined heavily and now are about one-third less than those obtained at an auction sale some years since, then considered ruinously low.

Labor difficulties at Leeds have delayed prosperity there. The British Screw Company, Limited, has, however, secured a business beyond its present capacity. To double the present output will require but a moderate expenditure beyond the cost of a mill building. Prices for screws in England have been reduced to a very low point to meet our Leeds competition, and are now but little more than one-half of what they recently were.

Capital Requirements.—Consolidation.—If business continues long depressed and the extensions mentioned be desirable at Leeds and at the New England mill (for rolling mill to produce wire rods) we may require additional capital. For ten years past our earnings enabled us to apply to extensions the required amount, and to pay you in dividends a similar amount without materially increasing our floating indebtedness. This matter may be made the occasion for a consolidation of the American, Canadian and British companies, with a new organization and form of capital, as we have outgrown many of our early methods of working.

Prospects.—No need for Tariff.—The United States foreign trade has a most promising opportunity, which can be partly realized from observation of its large and growing exports during the past year of pig iron, rails, rods, nails, machinery, and other iron and steel products. A large export business will be of much service to us, for what we want now is not so much higher prices for our products as an increased demand. We have greatly reduced the costs of manufacture, and the selling price for a leading size of wood screw has declined from 53 1/2 cents in 1873 to the present price of 8 1/2 cents a gross. We have gotten beyond the necessity for a high tariff; pools have proven to be of no permanent advantage to us; we have to adapt our lives to new methods of manufacture and new conditions requiring adjustment which only time can accomplish. By this time next year we may hope to inform you of a more prosperous business and at moderately remunerative rates. Meanwhile prices may drop somewhat lower because we are not now meeting the lowest prices of competitors who from necessity or otherwise are selling at rates much below cost. So long as we can hold our present business we need not change.

Treasurer's Report.—The net profits for the year ending Dec. 31, 1896, amounted to \$124,033, and its financial condition on that date to have been as follows:

Assets—	
Accounts receivable.....	\$ 450,568
Goods and goods in hand.....	679,271
Raw material.....	118,312
Supplies.....	26,067
Scrap and turnings.....	3,990
Cash.....	143,409
Bills receivable.....	12,189
Plant.....	(a) 2,135,000
Drawings, patterns and templates (\$1 00), good will and trade mark (\$1 00) and patents (\$1 00).....	(a) 3
Duplicate parts of machinery, dies, tools, etc.....	318,143
Capital stock in Canada Screw Co.....	(a) 25,000
Capital stock in British Screw Co.....	(a) 243,163
Total assets.....	4,386,115
Liabilities—	
Accounts payable.....	69,520
Bills payable.....	448,500
Guarantee fund.....	(a) 90,344
Capital stock.....	3,250,000
Surplus.....	521,751
Total.....	4,386,115

(a) The valuation of the several plant accounts, and of drawings, patterns and templates, good will and trade mark, and patents, is nominal. The property represented by these accounts was originally entered upon the books at cost. The valuation of the stock in the British and Canada companies has also been reduced to the present nominal valuation of 50 per cent of par. The resolution under which these reductions were made authorized the directors in their discretion to create by appropriations from the surplus a guarantee fund to be used in liquidating values, and the sum of \$2,000,000 was so appropriated. The balance to the guarantee fund account represents the present unused portion of this appropriation.

### Consolidation Coal Company.

(Report for the year ending December 31, 1896.)

This company owns the Cumberland & Pennsylvania RR. In the report President C. K. Lord says in part:

**Coal.**—The coal tonnage handled by your railroad during the year amounted to 2,419,542 tons, an increase of 239,214 tons over that of the preceding year, being, with the exception of the year 1888, when it amounted to 2,424,848 tons, the largest in its history. The total output of your mines in 1896 was 1,157,200 tons, an increase over the output of the preceding year of 233,545 tons, and an increase over the output of 1895, which up to the year 1896 was the largest in the history of the company, of 133,951 tons.

**New Equipment, Etc.**—Your company has no floating debt; moreover it is free from either construction or suspended accounts. During the year the company purchased for cash two hundred modern coal cars under a car trust agreement with the Baltimore & Ohio RR. The freight and passenger equipment have all been kept up to a high standard of efficiency. The same may be said of your roadway and buildings.

**Bonds Sold.**—There was a large over-subscription for the \$600,000 bonds offered for sale in December last. (See V. 63, p. 1062; V. 64, p. 82.) The proceeds of this sale, together with \$50,000 in cash taken on January 1st, 1897, from your Royalty Fund, has enabled us to pay off at maturity the \$1,100,000 of outstanding bonds. Therefore our interest charges from and after that date will be reduced to the extent of \$39,000 per annum.

**Earnings, etc.**—Results for three years were as follows.

	1896.	1895.	1894.
Receipts from mines, railroads, rents, &c., including coal on hand.....	1,690,901	2,230,044	2,175,182

—V. 64, p. 82.

### Chicago Telephone Company.

(Report for the year ending June 30, 1896.)

During the year the capital stock outstanding was increased from \$3,795,200 to \$4,335,500. The following directors have been elected: J. Russell Jones, Henry B. Stone, Norman Williams, Robert T. Lincoln, John D. Koven, George M. Pullman, Arthur G. Fuller, C. E. Perkins, W. A. Jackson.

The earnings, etc. have been:

	1896.	1895.	1894.
Gross earnings.....	1,955,829	1,759,753	1,636,964
Expenses.....	1,355,624	1,216,914	1,124,388
Net earnings.....	600,205	542,839	509,576
Dividends paid.....	400,224	455,543	455,544
Surplus.....	100,981	87,291	53,032

### Edison Electric Illuminating Company, of Boston.

(Report for the year ending Dec. 31, 1896.)

President Jacob C. Rogers in the report says:

For a conservative development of the business it was voted by the stockholders Dec. 10, 1896 to increase the capital stock by an issue of 5,000 shares of a par value of \$100 each, at such times as may appear advisable to the directors. During the year \$1,000 of debenture certificates have been converted into stock, and there remains of this issue \$174,000 now outstanding, the convertible privilege attaching to which will expire May 1, 1897.

The earnings, expenses, etc., have been as follows:

Year ending Dec. 31—	1896.	1895.	1894.
Earnings.....	\$773,473	\$701,002	\$628,408
Expenses.....	498,398	456,301	311,242
Net.....	\$275,140	\$252,701	\$317,164

### Southern New England Telephone Company.

(Report for the year ending Dec. 31, 1896.)

President Morris F. Tyler, of New Haven, says:

The business for 1896 has been little more than a repetition of that of 1895. Work has been continued on the same lines, the intention being to provide service by which all the demands of the public shall be met. This practice has received the support of the public, as shown by the increase in our toll-line business and by the increase of 1,197 to the number of our stations. We believe we are truthfully saying that the plant and service of the company are in better condition than ever before.

Earnings, etc., have been as follows:

	1896.	1895.	1894.
Subscribers Dec. 31.....	7,519	6,384	5,144
Toll stations Dec. 31.....	359	304	257

**American Bell Telephone.**—*New Stock.*—The stockholders vote March 30 on the question of a further issue of stock at an upset price to be named by Commissioners of Corporations, as heretofore. The present outstanding capital is \$23,850,000; amount authorized, \$50,000,000. The company's officials say the amount of the new issue has not been decided upon, but in Boston it is believed that it will be about \$1,350,000, which will net the company nearly \$3,000,000.—V. 63, p. 563.

**American Sugar Refining.**—*Decision Against the Arbuckles.*—At Toledo, Ohio, March 22, Judge Morris handed down his decision on the petition of Arbuckle Brothers and Thomas J. Kuhn, of Cleveland, for a receiver for the Woolson Spice Co. The temporary order restraining the Woolson company from making further reductions in the price of coffee is dissolved, the application for a receiver denied and the defendant's demurrer sustained. The grounds for the decision are stated in the daily press substantially as follows:

Judge Morris holds that so long as the directors of a corporation act in good faith the court cannot restrain it from selling at a low price, even though the minority stockholders may show that business discretion would dictate a different policy. He also holds that the agreement of the majority stockholders to sell the product for a time at such a price as will drive a competitor out of business will not make the corporation an unlawful conspiracy against such competitor, nor liable for his actual loss, nor entitle him to relief in the courts. A competitor for public favor must bow to that law of trade that allows every man to dispose of his own property in the ordinary course of business, on such terms as he sees fit.—V. 64, p. 328.

**Fraudulent Report.**—The "New York News Bureau" calls attention to the fact that the report which was published this week purporting to show the assets and liabilities of the company on Dec. 31, 1896, was a fraudulent production, the figures given being those for the year 1893, as will be found by comparing the statement with that in our INVESTORS' SUPPLEMENT.—V. 64, p. 328.

**Atchison Topeka & Santa Fe Ry.**—*Atlantic & Pacific RR.*—*Southern Pacific RR.*—*Official Statement as to Acquisition of Mojave Division.*—An arrangement has been arrived at between the Atchison and the Southern Pacific for an exchange of the Atchison line—Benson, Arizona, to Guaymas, Mexico (New Mexico & Arizona RR. and Sonora Ry.)—for the Southern Pacific line, Needles to Mojave (Mojave Division of the Atlantic & Pacific RR.). The necessary contracts and conveyances are now being formulated by counsel, the matter having as yet not proceeded beyond a preliminary understanding upon the main features of the trade, which is in substance an "even swap," the Atchison to retain its present contract rights in connection with the Southern Pacific line from Mojave to San Francisco.

From the Atchison point of view the arrangement is excellent. The Atlantic & Pacific has been paying at the rate of \$436,266 annual rental for the Mojave Division, under a contract to purchase the road at \$30,000 per mile, payable in 1905, when the Southern Pacific mortgage matures and a clear title can be made to the 242 miles in question. The new arrangement will probably be carried into effect through an exchange of leases until such time as good title can be made, so that the above annual rental charge against the Atlantic & Pacific will disappear. The Atchison lines to be leased to the Southern Pacific in exchange therefor comprise 350 miles, of which 262 miles are in Mexico. They are entirely disconnected from the remainder of the Atchison system, the distance from Deming to Benson being 175 miles, for which the Atchison has been obliged to use the line of the Southern Pacific in order to reach its own property. Their net earnings for the six months ending June 30, 1896, as shown by the last Atchison annual report, aggregated \$73,254 20, American currency, or say \$150,000 per year. It is evident that the position of the Atchison will be financially improved, and that it will be benefited from an operating standpoint by surrendering a piece of road which has been operated under many embarrassments, and which has been of comparatively trifling value to the system, for an assured title to the only missing link in its trans-Continental line.

The Southern Pacific, on the other hand, obtains a line with which it connects directly, being the only railroad now constructed in the great State of Sonora. It believes, and has good reason to believe, that the development of that region has already commenced, and will hereafter be rapid. It obtains control of the beautiful harbor of Guaymas, enabling it to reach by easy steamer connection the entire west coast of Mexico and the Central American States. For this it surrenders a rental claim which was likely to occasion much friction, as it is well known that the Atchison reorganization plan provided for the construction of a new road from the Needles to Barstow in case a satisfactory reduction in the present rent was not obtainable.

The subject of the exchange has evidently been considered on broad lines by both companies, and all concerned are to be congratulated upon the adoption of methods tending to the avoiding of controversy through an agreement sure to be mutually beneficial.—V. 63, p. 835; V. 64, p. 566.

**Atlantic & North Carolina RR.**—*Gov. Russell Appoints New Directors.*—Gov. Russell has appointed an entirely new Board of Directors as follows: Robert Hancock, Wm. Chadbourne, Jr., and E. H. Meadows, of Craven; W. J. Pope, John F. Mewborne and Council G. Wooten, of Lenoir; Wm. H. Sawyer, of Pamlico and T. D. Hewitt, of Carteret. The term of office of the old directors was for one year and would not, by limitation, expire until next September, but the Governor claims the right to remove them under an act passed at

the last session of the Legislature, entitled an "Act to restore to the State of North Carolina the control and management of the Atlantic & North Carolina RR." The State owns a little over two-thirds (\$1,266,500) of the company's capital stock (\$1,797,100), and the present action is taken in view of the attempt of the old board to make a lease of the road.—V. 61, p. 470.

**Atlantic Short Line RR.**—*Bruton & Pineora RR.*—*Reorganized Company.*—The Atlantic Short Line RR. Co. has been reorganized as the Bruton & Pineora RR., with A. F. Daly, of Wrightsville, as President. The new company is authorized to build from its connection with the Wrightsville & Tennille at Bruton to a connection with the Central of Georgia system at Pineora, Ga., making about 100 miles of road in all. About 29 miles are completed from Bruton south.—V. 64, p. 133.

**Baltimore & Ohio Southwestern Ry.**—*Friendly Suit Preparatory to Extending Bonds.*—The consolidated mortgage of 1889 requires the payment of all the underlying bonds as they mature. Consequently preparatory to extending, as proposed, at 4 per cent, the \$3,463,000 Ohio & Mississippi 7 per cents due January 1, 1898, a friendly suit has been begun by the Farmers' Loan & Trust Co., trustee of the consolidated mortgage, to establish the right of the company to make the extension. The holders of a large majority of the consols, it is stated, have given their assent to the action, which is taken in the interest of all the security holders, the company not being in a position to retire the maturing bonds with consols as originally contemplated.

A representative of the company is quoted as saying:

We have already arranged for a syndicate to underwrite the new issue, which is to be on a 4 per cent interest basis, and the applications for participation in the syndicate were much in excess of the amount available. Naturally, however, it was felt that the term of the consolidated mortgage made some trouble from that quarter a contingency to be considered. We have therefore forestalled this by the friendly suit just begun, which has been brought with the assent of a very large majority of the consol bondholders. The settlement of this friendly suit will leave us in shape to go ahead with the syndicate movement.

The most recent mortgages of the large reorganized companies, it may be mentioned, like that of the Reading published in the CHRONICLE this week, especially reserve to the company the right, if deemed best, to extend the underlying bonds at maturity, this right, it is recognized, being under some conditions, as in the present case, of much importance.—V. 64, p. 180.

**Bay State Gas.**—*Auction Sale.*—An injunction was served on the auctioneers yesterday to prevent the sale of 5,000 shares of stock hypothecated and \$103,000 income bonds, but notwithstanding, the sale took place. John H. Griesel purchased the stock for 5 per cent and the bonds for 15 per cent. The injunction was served by Lawson, Widenfeld & Co.—V. 64, p. 81.

**Brooklyn Elevated RR.**—*Receiver Appointed.*—Judge Van Wyck in the Supreme Court, in Brooklyn, on Thursday appointed President Frederick Uhlmann as receiver of this company, in friendly proceedings, preparatory to reorganization under the plan below mentioned:

**Reorganization Plan.**—A committee consisting of F. P. Olcott, Chairman, James T. Woodward, Charles Parsons, Ernst Thalmann and Leonard Lewisohn, with Adrian H. Joline as Counsel, and J. N. Wallace, 54 Wall Street, N. Y., as Secretary, has prepared a plan of reorganization by which all the mortgages of the Brooklyn, Union and Seaside & Brooklyn Bridge companies are to be foreclosed, and their properties transferred to a new company, which will issue thereon the following new securities:

**First Mortgage Bonds,** due in 1950, bearing interest at 4 per cent until the year 1935 and 5 per cent thereafter; principal and interest payable in United States gold coin of present standard; interest payable in New York City semi-annually; mortgage to cover all the property and franchisees of the new company, including after-acquired property. No bonds to be issued beyond those required for the purpose of the reorganization, and to meet the expense of making connections with the New York & Brooklyn Bridge, of acquiring necessary property and rights of way and change of motive power and cars, except upon consent of the trustee of the mortgage.

Total authorized issue	\$16,000,000
Of which to retire old bonds at rate mentioned below	11,800,000
Authorized to be sold to syndicate as below stated for Brooklyn Bridge connection, change of motive power, etc.	1,000,000
Remainder for building the lines which the Seaside Company is authorized to construct, etc.	3,000,000
<b>Preferred Stock,</b> 5 per cent noncumulative, but entitled to share pro rata with common stock in all dividends over and above 5 per cent on both stocks and with voting powers as below stated (see common stock)	\$5,000,000
To go to holders of old securities	3,370,100
Applicable to reorganization purposes and future requirements	1,660,800
<b>Common Stock</b> entitled to dividends as above stated; also to elect a majority of one in the board of directors, the remainder of the board to be elected by the preferred stock	13,000,000

The old bonds and stock (paying assessments) if deposited will receive:

OLD SECURITIES	IF PAYING	WILL RECEIVE
IN AMOUNTS AS FOLLOWS:	ASSESSMENT.	Cash, New 1st M. P. Stk. O. Stk.
Brooklyn El. 1st M., \$1,000	none	\$200
Union El. 1st M., \$1,000	none	200
Seaside & B. B. 1st M., \$1,000	\$100	1,000
Brooklyn El. 2d M., \$1,000	200	700
Union El. 2d Inc., \$1,000	100	600
Brooklyn El. stock, \$100	10	10

¶ This amount for each coupon maturing after April 1, 1897, pending reorganization.

The cash contributions levied aggregate \$1,921,500 and are to be payable as called by the committee. They will be paid at

to payment of coupons, as required by plan, to payment of \$665,000 secured floating debt, to improvements, reorganization expenses, etc.

**Sales of Bonds to Syndicate.**—If within one year from the completion of the reorganization a contract shall have been obtained permitting the trains of the company to cross the New York & Brooklyn Bridge, or the new company shall have determined to change the motive power of the railroad, and to make other changes and betterments connected therewith, the syndicate which underwrites the plan shall purchase not exceeding \$1,000,000 of the new first mortgage bonds and pay therefor \$800 in cash for each \$1,000 bond, receiving as commissions \$200 in new preferred stock with each bond.

**Fixed Charges.**—Assuming that no new construction will be required, the committee estimates the obligations and charges of the new company as follows:

First mortgage bonds, \$11,890,000 @ 4 per cent.....	\$475,600
Taxes on structure per annum.....	\$4,000
State taxes (estimated).....	21,000

Total annual fixed charges.....	\$520,600
Present fixed charges.....	\$82,083
Net earnings for year 1896.....	\$638,699

**Deposits.**—Holders wishing to take part in the reorganization must deposit their securities with the Central Trust Co.—see notice in our advertising columns. The committee may declare the plan effective whenever they think a sufficient amount of bonds has been deposited. The plan has been underwritten by a bankers' syndicate.—V. 61, p. 516.

**Belle City Street Ry., Racine, Wis.—Reorganization.**—The bondholders, it is stated, have agreed to scale their bonds and accept preferred stock for the difference, with a slight reduction of the interest charge, thus avoiding the necessity for foreclosure, the management to remain as heretofore.

**Brooklyn Rapid Transit.—\$306,000 Bonds.**—Additional 5 per cent bonds of 1895 for \$306,000 have been issued in part payment for \$1,921,000 first consolidated mortgage bonds of the Brooklyn Queens County & Suburban RR Co.; and for construction on the Brooklyn City RR., the cost of which construction is repayable by the Brooklyn City RR. Co. at the termination of the lease. This makes the total amount listed to date on the N.Y. Stock Exchange \$5,181,000.—V. 64, p. 373.

**Called Bonds.**—The following bonds have been called for payment. The numbers may be learned at the respective offices:

**CORNWALL & LEBANON.**—Thirteen car trust certs. will be paid April 30, interest ceasing that day.

**CORNINO COWANESQUE & ANTRIM.**—One hundred and seventy five bonds have been drawn for payment, interest ceasing May 1.

**LOUISVILLE & NASHVILLE.**—Two hundred and thirty-eight general mortgage bonds have been called for payment; the numbers and other details are given in our advertising columns. Also fifty-five Cecilia Branch bonds will be paid off September 1.

**NORTHERN PACIFIC.**—Twenty-one Missouri Division bonds have been called, interest ceasing May 1.

**Central of Georgia Railway Company.—Bonds Listed.**—On the New York Stock Exchange have been listed \$1,000,000 first mortgage Macon & Northern 5 per cent gold bonds of 1946; \$840,000 first mortgage Mobile division 5 per cent gold bonds of 1946; \$4,000,000 first preferred 5 per cent gold income bonds of 1945; \$7,000,000 second preference 5 per cent gold income bonds of 1945, and \$4,000,000 third preference 5 per cent gold income bonds of 1945.—V. 64, p. 517.

**Cincinnati Street Ry.—\$500,000 New Stock.**—A circular sent out by the company announces a new issue of stock:

Each stockholder of record of March 17, 1897, shall be entitled to purchase at par (\$50 per share) 4 per cent of the par value of their holdings. Payments must be made for the said stock between March 25 and April 5, 1897, for which payments scrip will be issued that may be exchanged at any time after April 20 in even multiples of \$50 for stock certificates.—V. 63, p. 183.

**Columbia & Maryland (Electric) Ry.—Reorganization Committee.**—The following official statement has been issued touching the meeting held at Baltimore on March 15 by leading creditors of the Baltimore & Catonsville Construction Co.: "It has been decided, as all the present stockholders and bondholders have deposited their holdings subject to the reorganization, that steps be immediately taken to reorganize the Columbia & Maryland Ry., and with this object in view a syndicate has been formed that is settling all the claims of the Baltimore Catonsville Construction Co. on the basis of 75 per cent cash and 25 per cent in stock of the Columbia & Maryland Ry. The reorganization committee consists of Messrs. T. Edward Hambleton, Bernard N. Baker and Thomas M. Lanahan."—V. 63, p. 559.

**Columbus Hocking Coal & Iron.—Motion to Change Receiver.**—The Central Trust Co., trustee under the mortgage, is seeking the removal of the receiver appointed by the State Court and the appointment of a receiver by the U. S. courts, where foreclosure suit has been instituted.—V. 64, p. 134.

**Columbus Hocking Valley & Toledo Ry.—Foreclosure Proceedings.**—The Central Trust Co., as mortgage trustee, has brought suit to foreclose the consolidated mortgage of 1881, interest on which went to default March 1.—V. 64, p. 566.

**Consolidated Street Ry. of Grand Rapids.—Deposits Subject to Penalty.**—Notice is given by advertisement in another column that three-fourths of all the outstanding first mortgage bonds of the Street Railway Company of Grand Rapids have been deposited under the bondholders' protective agreement of Dec. 23, 1896 (see V. 64, p. 247), and that further deposits will be subject to a penalty of 1 per cent.—V. 64, p. 257.

**Consolidated Traction Co. of New Jersey.—Statement for 1896.**—The directors met Thursday in Jersey City and elected officers. Edward F. C. Young was re-elected President. According to the daily papers President Young submitted a report showing that for the year 1896 the receipts of the consolidated lines increased nearly 10 per cent, while the percentage of operating expenses to receipts has been decreased nearly 6 per cent. There were 407 cars in operation during the year, and the number of miles run was 12,375,008. The increase in the number of passengers carried at the Pennsylvania ferry over 1892 was 17,466,455. Seven miles of track were added to the system, and the line connecting Newark with Jersey City over the turnpike road was completed. No definite statement of the receipts or the operating expenses of the system was made.—V. 59, p. 960.

**Evansville & Richmond RR.—Evansville & Terre Haute RR.—Sold in Foreclosure—Important Foreclosure Right.**—The Evansville & Richmond was sold in foreclosure March 23 for \$1,413,712. The large size of the bid excited surprise among those acquainted with the property, for, as is well known, the Evansville & Terre Haute acquired nearly all of the \$1,400,000 bonds in exchange for its preferred stock, and it seemed unreasonable to suppose that the bonds not so acquired should receive par, or nearly par, in cash as the result of foreclosure sale.

On inquiry we learn that the purchase was made under a clause in the mortgage which permits a majority interest in the bonds to buy in the property on behalf of the holders of all the bonds, and to form a new company in whose securities the holders of each one of the old bonds shall receive his proportionate share to represent his interest in the proceeds of foreclosure sale. In other words, of the \$1,413,712 bid, only \$13,712 was cash (this being sufficient to meet the costs of foreclosure) and for the balance the property is received in full payment and satisfaction of all the bonds. There is therefore no decree value to be paid in cash, but each of the 1,400 old \$1,000 bonds is to receive a one-fourteenth hundredth interest in such securities as the new company, when formed, shall issue.—V. 64, p. 423, 233.

**Galveston La Porte & Houston Ry.—Southern Pacific RR.—Proposition to Purchase.**—Mr. C. P. Huntington last week took a trip over the Galveston La Porte & Houston Ry., and, according to the "Galveston News," which quotes Receiver House to this effect, offered to give for the road \$1,000,000 bonds endorsed by the Southern Pacific and secured by mortgage on the G. L. P. & H. The present indebtedness of the La Porte Company is stated to be \$1,187,000.

**Foreclosure Suit.**—Judge Bryant in Unit d States Circuit Court has granted leave to L. J. Smith to intervene in the suit of this company and has set the final hearing of the case for Nov. 8, 1897.—V. 63, p. 116.

**Great Northern Ry.—St. Paul Minneapolis & Manitoba Ry.—\$925,000 Bonds Listed.**—There have been listed on the New York Stock Exchange additional St. P. Minn. & Man. consol. 4½s to the amount of \$925,000, issued on 61 miles of first track and 1¼ miles of second track, which the company has completed since April, 1894. This makes the total amount of consol. 4½s on list \$21,248,000.—V. 64, p. 518.

**Hannibal Street Ry.—Reported Sold.**—A special dispatch to the St. Louis "Globe Democrat" says that D. Thompson, of Ithaca, N. Y., representing a syndicate of Eastern capitalists, has purchased this property and proposes to rebuild the line, erect new buildings, increase the power and extend the line to the cemeteries, to Oakwood, and in other directions. A separate company will be organized to build the extensions, with a capital of \$150,000.

**Helena (Mont.) Consolidated Water.—Receiver Appointed.**—At Helena, Mont., March 16, Judge Knowles, of the United States Court, appointed James H. Mills receiver for this company upon petition of the Boston Safe Deposit Trust Co., the mortgage trustee.—V. 63, p. 880.

**Kentucky Banks.—Adverse Decision.**—At Frankfort, Ky., March 24, the Court of Appeals decided the bank tax case against the banks, which hereafter will be compelled to pay taxes as individual property instead of \$0.75 State taxes as heretofore. The former decision of the Court, rendered by Judge Pryor, is overruled completely. Judges Hazelrigg and Burnam dissented. The decision accounts for the decline in the price of Kentucky bank stocks.

**Lake Shore & Michigan Southern Ry.—Refunding Plan.**—The plan for the refunding of the 7 per cent bonds maturing between April 1, 1898, and Dec. 1, 1903, is published in full in the advertising columns of to-day's CHRONICLE. By its terms Speyer & Co., until further notice, will receive deposits of these bonds and in return issue certificates exchangeable for the new 3½ per cent 100-year gold bonds as soon as ready, on the terms below mentioned. The exchange will be made as of June 1, 1897, from which date the new bonds will begin to draw interest, and will be on a basis to afford the holders of the 7 per cent bonds about the same net return on their money as now (they will receive about 3.716 per cent, against 3½ to 3¾ per cent on the present market value of the 7s), while refunding nearly the entire amount of their present principal and premium for a period of 100 years.

The following table shows the bonds to be refunded, the value of each reckoned on a 3½ per cent basis, and the amount of 3½ per cent bonds at the price of 102½ (the price

of exchange, to which each \$1,000 par value of the existing bonds, at the aforesaid value, is entitled:

Loan.	Due.	Amount.	Each worth on 3½% basis.	Will receive in new 3½% bonds at 102½.
Buffalo & Erie 1st M. 7s.....	1893	\$2,705,000	\$1,040 06	\$1,014 70
Lake Shore Ry Divisional 7s 1899		1,355,000	1,073 19	1,047 02
Consol. mort. coupon 7s.....	1900	14,440,000	1,130 58	1,102 93
do registered 7s.....	1900		1,113 08	1,085 91
2d mortgage 7s.....	1903	24,662,000	1,201 91	1,172 59

The coupon bonds deposited must carry all coupons maturing after June 1, 1897. The firm will receive registered bonds only when duly endorsed in blank, but all interest thereon payable on or before June 1, 1897, will be collected and be received by the registered owner directly from the railway company. The Continental Trust Co. of this city will be the custodian of the bonds under an agreement made with the firm for the protection of all parties in interest.

**New Mortgage.**—The new bonds to be delivered in exchange as above will be part of an issue for the aggregate sum of \$50,000,000, to be dated June 1, 1897, and payable June 1, 1897, with interest at the rate of 3½ per cent per annum, payable semi-annually, both principal and interest being payable in United States gold coin of the present standard of weight and fineness, and secured by a mortgage about to be made by the railway company, the stockholders' meeting to authorize the loan being advertised for May 20.

The mortgage will provide that all of the above issues of existing bonds shall be paid at maturity, so that thereafter the new 3½ per cent bonds will be secured by a first mortgage upon railroads, leasehold interests, equipment, franchises and income now owned or hereafter acquired by the Lake Shore & Michigan Southern Ry. Co. Until the complete satisfaction and discharge of each of the existing mortgages above mentioned, the bonds secured by such mortgage will be held by the trustee of the new mortgage and will be kept alive as additional security for the new bonds to be issued thereunder.—V. 64, p. 469.

**Metropolitan West-Side Elevated RR. (of Chicago).—Reorganization Notice.**—Referring to its advertisement dated Jan. 30, 1897, the Olcott committee requests holders of bonds and stock to deposit their holdings with the Central Trust Company of New York, 54 Wall Street, or the American Loan & Trust Company, 53 State Street, Boston, under an agreement dated Jan. 30, 1897. A supplementary bill to foreclose the mortgage was filed in the Federal Court Saturday.—V. 64, p. 517.

**Mexican Northern Ry.—Listing of Stock on the New York Stock Exchange.**—The \$3,000,000 capital stock of the Mexican Northern was listed this week on the New York Stock Exchange. On page 619 of this issue is printed at length the official application for the listing, which gives a very complete statement regarding the property, together with earnings, balance sheet, etc.—V. 63, p. 792.

**Montgomery Hayneville & Camden RR.—Proposed Mortgage for \$1,400,000.**—A meeting of the stockholders is called for April 13 at the office of the company in Montgomery, Ala., to authorize \$1,400,000 mortgage bonds. Sol. D. Bloch is President of the company.

**New York New Haven & Hartford RR.—New England RR.—Form of Guaranty.**—The form of guaranty on the New England consolidated mortgage 5 per cent gold bonds is unusual in its provisions. It is as follows:

For value received, the New York New Haven & Hartford RR. Co. guarantees payment of the principal and interest of this bond according to the terms of the bond and coupons annexed, but if any payment be demanded upon this guaranty this bond shall, at the option of said guarantor or of the then holder thereof, be exchanged for a debenture of the guarantor for the same amount and at the same rate of interest, both payable in like gold coin for the then unexpired term of this bond.

It will be observed that if the exchange mentioned should take place the bondholder will still receive the same amount of principal and interest as now, but he will hold a debenture bond, which is a direct obligation of the New Haven Company.

**Consolidation with Shore Line RR.**—The Shore Line RR. Co. has been formally merged into the New York New Haven & Hartford, its capital stock having been extinguished and its bonds assumed by that company.—V. 64, p. 424, 567.

**North Carolina RR.—New Directors.**—Acting under section 43 of the company's charter, Governor Russell two weeks ago removed the old board of directors. He has now appointed the following new board: Dr. R. M. Norment, of Robeson; Virgil S. Luk, of Buncombe; Wm. Gilchrist, of New Hanover; Charles A. Cook, of Warren; J. S. Armstrong, of New Hanover; A. W. Graham, of Granville; H. U. Butters, of Columbus; John Graham, of Warren; all of North Carolina.—V. 64, p. 524.

**Oregon Short Line RR.—New Company in Possession.**—The new company took the property out of the hands of the Union Pacific receivers on March 17. The headquarters of the company have been changed from Omaha to Salt Lake City.—V. 64, p. 424.

**People's Cable and Fourth St. & Arsenal Ry. Cos.—Reorganization.**—A meeting of the bondholders was held at the office of James Campbell, No. 213 North Fourth Street, March 15, 1897, for the purpose of framing an acceptable plan for the reorganization of said companies. Nathan Frank and

Stephen D. Thompson explained their plan for the consolidation of the two companies, and an issue of \$2,000,000 to replace existing indebtedness. Those opposed to this plan have formed a second reorganization committee, consisting of August Gehner, Albert Arnstein and H. H. Wernase.—V. 64, p. 518.

**Quincy Mining Co.—Last Instalment Due April 16.**—The fourth and last instalment of 25 per cent on rights to shares of the increased capital stock of the company becomes due and payable April 16 next, on and after which date the rights upon which all instalments have been paid are convertible into full paid shares.—V. 64, p. 468.

**Rapid Transit in New York City.—Law Constitutional.**—At Albany, March 23, the Court of Appeals affirmed the decision of the lower court upholding the constitutionality of the Rapid Transit Act, in the case of the Sun Printing & Publishing Association and others, appellants, against the Mayor and other authorities of New York City, Board of Rapid Transit Commissioners and others, respondents. The Board of Aldermen of New York City on the same day voted in favor of the plans of the Commission for the Elm Street route.—V. 64, p. 135.

**Reading Company.—New Securities Ready on April 1.**—Holders of reorganization certificates are notified that on and after Thursday, April 1, 1897, J. P. Morgan & Co., of this city, and Drexel & Co., of Philadelphia, will be prepared to begin the issue of new securities in exchange for reorganization certificates. One hundred schedules per diem will be received. No schedules will be received after 2 P. M.

**Abstract of New Mortgage.**—On subsequent pages of today's CHRONICLE is published a carefully prepared abstract of the new \$135,000,000 mortgage of the Reading Company, the new corporation which holds in fee, or through ownership of stock and bonds, all the railroads, coal and other properties which until the fore closure sale last September were controlled by the Philadelphia & Reading Railroad Co. The Constitution of the State of Pennsylvania, it will be remembered, forbids a railroad company to own over 30,000 acres of coal lands. Therefore in the reorganization the title to the railroads was vested in the Philadelphia & Reading Railway Co. and the title to the coal properties in the Philadelphia & Reading Coal & Iron Co., the control of both these corporations being vested in the Reading Company. The Coal & Iron Co. joins with the Reading Co. in making the new mortgage, which covers also the stock and bonds of the Railway Company, so that, in effect, the Reading Company's bonds, it is believed, enjoy every right and possess all the security that they would enjoy or possess had it been possible for the Reading Company to own the entire estate in fee.

While the new mortgage is for the aggregate principal sum of \$135,000,000, the issue of bonds under it is strictly limited as follows:

To be issued at once for reorganization purposes .....	\$50,369,000.
Reserved to acquire or redeem an equal amount of outstanding old bonds of the Philadelphia & Reading R.R. and of the Coal & Iron Co., outstanding Jan. 1, 1897, being all the bonds having a prior lien.....	64,631,000
For future construction, equipment, etc., at not over \$1,500,000 per annum under stringent provisions. ....	20,000,000

The bonds of the Philadelphia & Reading Railway will be issued from time to time only for the purpose of being deposited as security for the above-mentioned mortgage of the Reading Company, but that the reader may know what safeguards exist with reference to the application of the proceeds of these bonds, a brief abstract of the mortgage securing the same follows that of the Reading mortgage. The total issue is limited to \$30,000,000, including the \$20,000,000 already deposited as part security for the bonds of the Reading Company. The remaining \$10,000,000 can be issued only to the Reading Company on account of future extensions, terminal properties, rolling stock, etc., and when so issued will be transferred to the trustee of the Reading mortgage.

**Payment of Bonds.**—The Philadelphia & Reading Coal & Iron Company bonds also maturing April 1, 1897, secured upon lands known as the "William Jones" tract, Philadelphia & Mahanoy Coal Company land, Shamokin & Bear Valley Coal Company land and Swatara Company's lands, will be paid at maturity by either of the above-named firms.—Vol. 64, p. 570.

**Rio Grande Sierra Madre & Pacific RR.—El Paso Southern.—Progress with Construction.**—The Rio Grande, Sierra Madre & Pacific, which is constructing a road in Mexico from Ciudad Juarez to Casas Grandes, 156 miles, expects to have the entire line completed by July 1. The El Paso Southern has been organized with a capital of \$200,000 to build the El Paso terminals of the Rio Grande, Sierra Madre & Pacific, and to construct the bridge across the Rio Grande River.—V. 63, p. 459.

**Southern Railway.—\$1,123,000 First Consols Listed.**—Additional first consols for \$1,123,000 have been listed on the New York Stock Exchange as follows: \$29,000 to take the place of divisional bonds redeemed; \$494,000 in place of an equal amount of equipment liens paid off prior to Jan. 1, 1897, and \$1,000,000 for new construction, equipment, betterments and other acquisitions, \$600,000 having been so used, and the remainder (\$400,000) set apart for like use.

Certificates filed with the trustee show that the proceeds of \$1,000,000 previously drawn under same section were expended principally for additions to shops at Knoxville and Atlanta

and shops at Salisbury (\$257,829) and new equipment (\$317,349), all of which property is subject to the mortgage.

Since the date of the mortgage the railway company has made two supplemental pledges covering large amounts of distinctly new property acquired, against only a part of which bonds have been specifically issued. The total amount of first consols listed to date is \$26,933,000.—V. 61, p. 524.

**Swan Incandescent Electric Light.**—*Voluntary Dissolution.*—This company, of 14 White Street, has applied to the Supreme Court for the voluntary dissolution of the company.

**Trans-Missouri Freight Association.**—*Agreement Held Invalid.*—At Washington, March 32, Justice Peckham, of the United States Supreme Court, announced the decision of a majority of the Court that the agreement of the Association to maintain rates was a violation of the anti-trust law of 1890, prohibiting contracts or combinations in restraint of trade. This reversed the decision of the courts below, which ordered a dismissal of the Government's bill. Justices Field, Gray, Shiras and White dissented. An article on the decision appears in our editorial columns.

Judge Dillon, who was one of the counsel for the Freight Association, says: Substantially three propositions were decided by the majority. First—That the provisions of the Anti-Trust Act, so-called, under which the suit of the United States against the Trans-Missouri Freight Association was brought, extend to and embrace the business of inter-State transportation by railways. Second—That the particular agreement of the eighteen companies which constituted the Trans-Missouri Freight Association is an agreement in restraint of inter-State trade and commerce, and therefore violates the provisions of the Anti-Trust Act; and, third, that the United States has a standing in a court of equity under that Act to enjoin the violation of its provisions in a civil proceeding.

According to press dispatches the following withdrawals from traffic associations have occurred as a result of the above decision, but it is possible that in some instances the determination to withdraw may be reconsidered:

Name of Company.	Associations withdrawn from.
Atchison Topeka & Santa Fe.....	All freight associations.
Chicago Burlington & Quincy.....	All freight and pass. associations.
Chicago Milwaukee & St. Paul.....	do do
Chicago & Northwestern.....	Western Freight Association.
Kansas City Fort Scott & Memphis.....	Western Freight Association and Trans-Missouri Association.
Louisville Evansville & St. Louis.....	Southern Freight Association.
Minneapolis & St. Louis.....	All freight associations.
Missouri Pacific.....	All freight associations.
St. Louis & San Francisco.....	All freight and pass. associations.

**Trow Directory Printing & Bookbinding.**—*Reduction of Stock Proposed.*—The stockholders will vote April 7 on a proposition to reduce the capital stock from \$1,500,000 [one-half of which is cumulative preferred] to \$350,000, all of one class. The proposition is to give to the common stockholders, for each ten shares of stock held by them at present, one share of the new stock, which will be entitled to dividends equally with all the other shares of the company; while the preferred stockholders will receive \$776,500 new stock in exchange for their present holding of \$750,000 preferred stock, and in satisfaction of their claim for accumulated dividends amounting on April 1, 1897, to \$265,000. The result will be to give the company a surplus of assets or capital of about \$30,000 instead of a deficit, as at present, of nearly \$350,000, and, it is believed, to enable the stock to be placed at an early date on a dividend-paying basis.

The plan is based on the following adjusted balance sheet, showing a surplus of current assets, plant, etc., over liabilities of \$880,168.

Assets March 1—	Liabilities March 1—
Real estate.....\$225,000	Bills payable.....\$53,845
Directory plant, good will, etc.....200,000	Open ledger accounts.....9,203
Print and bindery plant, 336,772	Three days' pay roll.....2,171
Bonds of Am. Pub. Corp. valued at.....63,000	Surplus of assets over liabilities.....880,168
Stock and unfin. work.....72,794	
Bills receivable.....11,795	
Open ledger accounts.....32,645	
Insure paid in advance.....2,958	
Cash in banks, etc.....3,425	
Total.....\$945,389	Total.....\$945,389

**Wm. Cramp & Sons Ship & Engine Building.**—*Payment of Notes.*—The company has paid of its Drexel gold notes an additional \$150,000 (\$50,000 due March 1, \$50,000 April 1, \$50,000 May 1). The amount issued was \$1,500,000; paid to date, \$500,000; outstanding, \$1,000,000. The next payment is due June 1, 1897.—V. 63, p. 604.

**Wool Exchange Company, New York City.**—*Sale of Stock.*—This company, which owns the Wool Exchange building in this city, has been offering for sale \$300,000 of its capital stock, the unsold balance of the authorized issue of \$1,000,000. Allen Macnaughton is President of the company.

—Messrs. E. D. Shepard & Co. offer \$130,000 City of Macon, Ga., 4½ per cent paving bonds. Their advertisement in our State and City Department gives details of the issue and of the city's finances, etc.

—The statement of the Credit Lyonnais, on January 31, will be found in the advertising department. A dividend of 35 francs, or 7 per cent, for the year 1896 has been declared against 34 francs for 1895.

## Reports and Documents.

### READING COMPANY AND THE PHILADELPHIA & READING COAL & IRON CO.

ABSTRACT OF THE GENERAL MORTGAGE, DATED JANUARY 5, 1897, SECURING \$135,000,000 OF 4 PER CENT GOLD BONDS DUE JANUARY 1, 1897.

#### PARTIES.

The READING COMPANY of Pennsylvania, party of the first part, and THE PHILADELPHIA & READING COAL & IRON COMPANY of Pennsylvania, hereinafter called the "Coal Company," party of the second part, said two parties being hereinafter called the "Companies," and the CENTRAL TRUST COMPANY of New York, hereinafter called the "Trustee," party of the third part.

#### PREAMBLE.

WHEREAS, the Reading Company owns divers properties, including capital stock of the Philadelphia & Reading Railway Co. and capital stock of The Philadelphia & Reading Coal & Iron Co.; all of which have been received [after foreclosure sale of said properties July 23, 1896, under the General Mortgage of the Philadelphia & Reading Railroad Co. and otherwise. — Eds.] by transfer made or authorized by Charles H. Coster, Francis Lynde Stetson, or by Charles H. Coster, Francis Lynde Stetson and J. P. Morgan & Co.; and

WHEREAS, the Coal Company owns coal lands and other property received by deeds of conveyance made or authorized by Charles H. Coster and Francis Lynde Stetson; and

WHEREAS, All such properties have been received under the agreement to make the joint and several bonds of the Reading Company and of the Coal Company for the purposes herein provided; and

WHEREAS, portions of the real estate and equipment of the Reading Company are subject to certain mortgages and equipment obligations heretofore made by The Philadelphia & Reading RR. Co., and

#### COAL & IRON COMPANY'S BONDS.

WHEREAS, portions of the lands of the "Coal Company" on Jan. 1st, 1897, were, subject to a mortgage securing a bond of \$30,000,000, pledged as collateral as hereinafter stated, and were also subject to mortgages and real estate bonds for an aggregate principal sum of \$12,050,606.—[See list of these on page 619 following the abstract of the mortgage of Philadelphia & Reading Ry. Company.—Eds.]

#### DESCRIPTION OF THE NEW GENERAL MORTGAGE BONDS.

AND WHEREAS, the directors and stockholders of the Reading Company and of the Philadelphia & Reading Coal & Iron Company have duly authorized the making of this new General Mortgage for an aggregate principal sum not exceeding \$135,000,000, the principal of the bonds to be payable in gold coin of the United States of the present standard of weight and fineness on Jan. 1, 1897, at the office or agency of the Reading Company, in the City of New York, with interest thereon at the rate of 4 per cent per annum from Jan. 1, 1897, payable semi-annually at said office or agency in like gold coin on the first days of January and July in each year. The bonds to be coupon bonds of the denomination of \$1,000, numbered consecutively from M1 upwards, and registered bonds of the denominations of \$500, \$1,000, \$5,000 and \$10,000, numbered consecutively and respectively from D1, M1, VM1 and XM1 upwards, and all bonds to be executed in the names of the Reading and the Coal Company jointly and severally and under their respective corporate seals by their respective presidents, or any vice-president, and their respective secretaries, or assistant secretaries, and to be substantially of the following tenor, to-wit:

No. FORM OF COUPON BONDS. \$1,000.

UNITED STATES OF AMERICA.

STATE OF PENNSYLVANIA.

READING COMPANY, AND THE PHILADELPHIA & READING COAL & IRON COMPANY.

#### GENERAL MORTGAGE FOUR PER CENT GOLD BONDS.

KNOW ALL MEN BY THESE PRESENTS, That READING COMPANY and THE PHILADELPHIA & READING COAL & IRON COMPANY, corporations of the State of Pennsylvania, hereinafter called the "Companies," for value received, jointly and severally promise to pay to the bearer, or, if registered, to the registered holder of this bond, One Thousand Dollars, gold coin of the United States of America of the present standard of weight and fineness, on the first day of January, in the year 1897, at the office or agency of the Reading Company in the City of New York, N. Y., and to pay interest thereon, at the rate of four per cent per annum, from January 1st, 1897, payable semi-annually at said office or agency, in like gold coin, on the first days of January and July in each year, but only upon presentation and surrender of the annexed coupons as they severally mature.

Both the principal and interest of this bond are payable without deduction for any tax or taxes of the United States or any State or Municipality thereof, which the Companies, or either of them, may be required to pay, or to retain therefrom, under any present or future law.

This bond is one of a series of coupon and registered bonds of the Companies known as "General Mortgage 4% Gold Bonds," duly authorized and approved by the Board of Directors and the Stockholders severally of each of the Companies, and issued and to be issued, to an amount not exceeding, in the aggregate, \$135,000,000 at any one time outstanding; all of which bonds are issued under, and in pursuance of, and are equally secured by, a mortgage or deed of trust dated January 5th, 1897, executed by the Companies to the Central Trust Company of New York, a corporation of the State of New York, as Trustee, of all the property and franchises of the Companies mentioned in said mortgage or deed of trust, to which reference is hereby made

for a description of the property and franchises mortgaged and the nature and extent of the security, and the rights of the holders of said bonds under the same, and the terms and conditions upon which said bonds are issued and secured.

This bond may be registered as to principal in the owner's name on the books of the Companies at the office or agency of the Reading Company in the City of New York, such registry being noted on the bond by the Companies' transfer agent, after which no transfer shall be valid unless made on the Companies' books by the registered owner, and similarly noted on the bond; but the same may be discharged from registry by being transferred to bearer, after which transferability by delivery shall be restored; but it may again from time to time be registered or transferred to bearer as before; such registration, however, shall not affect the negotiability of the coupons by delivery merely. This bond is also exchangeable for registered bonds without coupons, as provided in said mortgage or deed of trust.

This bond shall not become obligatory for any purpose until it shall have been authenticated by the certificate hereon endorsed of the Trustee under said mortgage or deed of trust.

IN WITNESS WHEREOF, the Reading Company and The Philadelphia & Reading Coal & Iron Company severally have caused these presents to be signed by their respective presidents or vice-presidents, and their respective corporate seals to be hereunto affixed, and to be attested by their respective secretaries or assistant secretaries, and coupons for said interest, with the engraved signature of their respective treasurers, to be attached hereunto, this fifth day of January, 1897.

READING COMPANY,

By

President.

Attest:

Secretary.

THE PHILADELPHIA & READING COAL & IRON COMPANY,

By

President.

Attest:

Secretary.

FORM OF INTEREST COUPON, OF WHICH THIS FIRST IS TO BE PAYABLE JULY 1, 1897.

No. \_\_\_\_\_ \$ \_\_\_\_\_  
On the first day of \_\_\_\_\_, Reading Company and The Philadelphia & Reading Coal & Iron Company will pay to bearer at the office or agency of the Reading Company in the City of New York, N. Y., Twenty dollars gold coin, without deduction for taxes, being six months' interest then due on their General Mortgage Gold Bond No. \_\_\_\_\_.

Treasurer of Reading Company.

Treasurer of The P. & R. C. & I. Co.

#### FORM OF TRUSTEE'S CERTIFICATE.

This bond is one of the series of General Mortgage Gold Bonds described in the within-mentioned Mortgage or Deed of Trust executed by the Reading Company and The Philadelphia & Reading Coal & Iron Company to the undersigned.

CENTRAL TRUST COMPANY OF NEW YORK,

Trustee.

By

Vice-President.

#### A.—PROPERTY CONVEYED AS SECURITY BY THE READING COMPANY.

(1) The Reading Company conveys to the Trustee all and singular the following lands, rights and franchises and bonds and shares of capital stock, viz.:

##### I.—CERTAIN REAL ESTATE.

FIRST. All real estate formerly of the Philadelphia & Reading RR. Co., described in deeds dated Dec. 23d, 1896, from Charles H. Coster and wife and Francis Lynde Stetson and wife to the Reading Company, to be recorded respectively in the several counties in which the said real estate is situated; but not including any right of way, depots or yards formerly of the said Railroad Company.

II.—ROLLING STOCK FORMERLY OWNED BY PHILADELPHIA & READING RAILROAD CO.

SECOND. All locomotives, cars, carriages and rolling stock formerly of The Philadelphia & Reading Railroad Co.

##### III.—VESSELS FORMERLY OWNED BY PHILADELPHIA & READING RAILROAD CO.

THIRD. All steam colliers, vessels, canalboats and barges formerly of The Philadelphia & Reading RR. Co., including specifically those enrolled with the Collector of Customs at Philadelphia as having heretofore been transferred directly to the Reading Company by Receivers of the Phila. & Reading RR. Co. (such transfers having been made at the request of Charles H. Coster and Francis Lynde Stetson), and including the barges which are registered in the name of the Provident Life & Trust Co. as security for Car Trust Series D of said Railroad Company.

##### IV.—CERTAIN BONDS TO BE DELIVERED TO TRUSTEE.

FOURTH. Certain bonds of the several following corporations, to be delivered to the Trustee as hereinafter provided, and for the aggregate principal sums as follows, viz.:

Philadelphia & Reading Railway Co.	\$20,000,000
Catawissa Railroad Co.—10% Chattel M. bonds, 1868-1888.	98,450
5% Chattel mortgage bonds, 1880.	24,500
7% Debenture bonds, 1917.	62,000
7% Improvement mortgage bonds.	500,000
Camden County RR. Co.	39,000
Colebrookdale RR. Co.—Mortgage bonds.	593,400
Gettysburg & Harrisburg RR. Co. Car Trusts.	18,000
People's Railway Company.	36,000
Perkiomen Railroad Company.	161,100
Philadelphia Reading & Pottsville Telegraph Co.	200,000
Philadelphia & Chester Valley RR. Co.—Preferred bonds.	25,000
Bonds not preferred.	47,000
Philadelphia Harrisburg & Pittsburg RR. Co.	1,472,000
Philadelphia Newtown & New York RR. Co.	849,100
Pickering Valley RR. Co.—First mortgage loan.	332,300
Reading & Columbia RR. Co.—First mortgage.	9,500
Second mortgage.	35,000
Debentures.	1,000,000
Schuylkill & Lehigh RR. Co.	103,300
Tamaqua Hazleton & Northern RR. Co.	300,000
Schuylkill Navigation Co.—Loan, 1872.	1,685,590
Loan, 1892.	3,910,646
Improvement loan (loan of 1880).	228,000
Loan of 1895.	1,141,000
Boat and car loans.	1,320,050

† An abstract of the mortgage securing this bond is given at the end of this abstract.—EDS.

Together with such overdue coupons belonging to any such bonds as shall at any time be delivered to the Trustee.

#### V.—SHARES OF CAPITAL STOCK.

FIFTH. The following shares of capital stock now belonging to the Reading Company for which proper certificates are to be transferred to the Trustee as hereinafter provided:

##### I.

#### ENTIRE ISSUE OF STOCK CONVEYED EXCEPT SHARES QUALIFYING DIRECTORS.

	Shares.	Per Value.
Philadelphia & Reading Railway Co.	399,900	\$19,995,000
Philadelphia & Reading Coal & Iron Co.	159,900	7,995,000

#### VI TO X.—CERTAIN AFTER-ACQUIRED PROPERTY.

SIXTH. All other shares of stock now held or hereafter acquired of any of the companies enumerated in Subdivision Fifth.

SEVENTH. All stocks, bonds, certificates of indebtedness, claims and other property, now or hereafter acquired, which the Reading Company by this indenture is required to transfer to the Trustee.

EIGHTH. All property of every name and nature from time to time hereafter transferred to the Trustee.

NINTH. All rolling stock and equipment of every description, including steam colliers, vessels, canalboats and barges (whether or not above specifically mentioned), now owned or hereafter acquired by the Reading Company; and,

TENTH. All estates, lands, properties, rights, privileges and franchises, real, personal or mixed, hereafter acquired by the Reading Company, as appurtenant or incidental to, or in replacement of any above described.

#### (II) PROPERTY CONVEYED BY THE COAL COMPANY.

(2) The Coal Company conveys unto the Trustee all and singular the following estates, lands, leaseholds, properties, rights, privileges and franchises, and bonds and shares of capital stock, viz.:

a.—COAL AND IRON LANDS, RAILROADS AND ROLLING STOCK, BUILDINGS, WHARVES, ETC.

ELEVENTH. All and singular the coal lands, iron-ore lands, and other real estate, railroads, rolling stock and equipment, mines, collieries and breakers, yards, depots and wharves, etc., etc., now owned by the coal company or in any manner held for its benefit. Also all estate and interest of every nature and kind whatsoever of the Coal Company in such property; including all property of every kind specified in certain deeds of conveyance dated November 18, 1896.

##### b.—CERTAIN BONDS.

TWELFTH. The following bonds, delivered to the Trustee:

	Par value.
Preston Coal & Improvement 7% mortgage bonds.	\$1,087,000
Tremont Coal Co. 6% Mortgage bonds.	900,000
Mammoth Vein Coal & Iron Coal Co. 8% mortgage bonds.	209,000

##### c.—CERTAIN SHARES OF CAPITAL STOCK.

THIRTEENTH. The following shares of capital stock now belonging to the Coal Company, proper certificates for which are to be transferred to the Trustee:

	Shares.	Par value.
Preston Coal & Improvement Co.	56,847	\$2,832,350
Fulton Coal Co.	63,507	317,535
Locust Gap Improvement Co.	52,492	524,920
Tremont Coal Co.	118,314	2,957,850
Mammoth Vein Coal & Iron Co.	60,386	603,860
Delaware Coal Co.	5,183	259,150

d—CERTAIN AFTER ACQUIRED PROPERTY, ETC.

FOURTEENTH. All interest of the Coal Company, now or hereafter acquired, in all other shares of stock of any of the Companies above enumerated in Section Thirteenth.

FIFTEENTH. All other property appurtenant to the business of the said Coal Company, whether now held or hereafter acquired.

SIXTEENTH. All stocks, bonds, certificates of indebtedness, claims and other property of every name and nature, now owned or hereafter acquired which the Coal Company, by this indenture, is required to transfer to the Trustee; and

SEVENTEENTH. All property of every name and nature hereafter transferred to the Trustee as additional security.

#### PRIOR OBLIGATIONS.

Subject, as to certain portions of the property hereby conveyed, to the herein recited mortgages of said The Philadelphia & Reading RR. Co. and said The Philadelphia & Reading Coal & Iron Co. so far as such mortgages respectively cover such property; and

Subject to all the obligations contained in the several deeds to the Reading Company or to the Coal Company, respectively, by Charles H. Coster and Francis Lynde Stetson or J. P. Morgan & Co., Managers, or in the several agreements mentioned in said deeds and transfers as a consideration or condition thereof.

#### ALL OF THE BONDS TO BE EQUALLY SECURED.

But, in trust nevertheless, for the equal and proportionate security of all present and future holders of the bonds and interest obligations issued and to be issued under and secured by this indenture, without preference, priority or distinction of one bond over any other bond.

#### ARTICLE ONE.

##### TOTAL ISSUE LIMITED TO \$135,000,000.

SECTION 1. The aggregate amount of bonds issued and outstanding under this indenture at any one time shall never exceed the principal sum of \$135,000,000.

SECURITIES CONVEYED TO BE DELIVERED TO TRUSTEE.—EXCEPTIONS.

The bonds and the certificates for shares specifically enumerated as by the Reading Company to be transferred to the Trustee hereunder shall, prior to the certification of any bonds hereunder, be delivered to, and pledged with, the Trustee; excepting, however, the following securities heretofore pledged by The Philadelphia & Reading RR. or the Receivers of said company.

	Par value	Pledged for.
Phila. & H'burg RR. bonds	\$100,000	Barge loan (RR. Co.).
Phila. & H'burg RR. bonds	100,000	Coal storage loan, Receivers'.
Oswatimma RR. Imp. M. bds.	500,000	Phila. Subway Agreement.
Phila. & Reading Ter. stock	8,197,500	Terminal loan (RR. Co.)
Phila. & Frankford RR. stock	495,950	Agreement Jan. 23, 1891.

These bonds and stocks shall respectively be delivered to the Trustee immediately when released from the respective agreements under which they are now severally held.

Of the shares specifically enumerated as by the Coal Company transferred to the Trustee hereunder, proper certificates for

4,012 shares of the Locust Gap Improvement Company;  
13,916 shares of the Mammoth Vein Coal & Iron Company;  
467 shares of the Delaware Coal Company;  
3,835 shares of the Fulton Coal Company;  
116 shares of the Tremont Coal Company;

shall be delivered to the Trustee prior to the certification of any bonds hereunder. The certificates for the remaining shares so enumerated shall be delivered to the Trustee immediately upon their release from the existing liens of the Philadelphia & Reading RR. Co. The bonds so enumerated shall be delivered to the Trustee immediately upon their release from the lien of the Ten-Year sinking fund loan of the Philadelphia & Reading RR. Co., for which they are now held.

BONDS FOR \$50,369,000 TO BE ISSUED AT ONCE FOR REORGANIZATION PURPOSES.

SEC. 2. Bonds to the amount of \$50,369,000 shall immediately be delivered to the Reorganization Managers.

BONDS FOR \$51,631,000 RESERVED TO RETIRE ALL OUTSTANDING OLD BONDS.

SEC. 3. Of the remainder of such authorized issue there shall be reserved bonds to the amount of \$51,631,000 for the acquisition or redemption of the following "outstanding old bonds," viz.:

Philadelphia & Reading Railroad Co.:	
Prior mortgage bonds	\$5,241,700
Consolidated mortgage bonds of 1871-1911	18,811,000
Improvement mortgage bonds of 1873-1897	9,361,000
Consolidated mortgage bonds of 1882, 1st series	5,767,012
Consolidated mortgage bonds of 1883, 2d series	1,535
Terminal bonds	8,500,000
Ten-year sinking fund bonds of 1892	1,774,000
Delaware River terminal bonds and Delaware River Terminal Extension bonds	1,509,000
Ground rents and bonds secured by mortgage on real estate	1,612,063
Philadelphia & Reading Coal & Iron Co.—	
Divisional bonds outstanding Jan. 1st, 1897 (See list of these following the abstract of the Phila. & Reading Rty. mortgage.—Eds.)	12,050,606
Total (say \$51,631,000)	\$51,630,916

RIGHT TO ISSUE THE \$51,631,000 BONDS SO RESERVED.

The \$51,631,000 bonds so reserved shall be issued from time to time on resolutions of the Board of Directors of the Reading Company, as follows, and not otherwise, viz.:

(a) Whenever the Reading Company shall tender any of said outstanding old bonds, the Trustee shall in exchange therefor deliver to the Reading Company a like amount of the bonds hereby secured.

(b) Whenever the Reading Company, on or after the maturity of any such outstanding old bonds, or on or after a date eight months prior to such maturity, shall tender cash sufficient to purchase the same at par, the Trustee shall, in consideration thereof, deliver to the Reading Company an equivalent amount at par of the bonds so reserved.

All cash received by the Trustee under this subdivision of this section shall by it be applied to the purchase or payment at par of an equivalent amount of the outstanding old bonds then unpaid.

(c) Every outstanding old bond received by the Trustee, unless canceled pursuant to any provision of this Section, shall by it be stamped with the words "Not negotiable, but held in trust for the purposes declared in the mortgage of the Reading Company and The Philadelphia & Reading Coal & Iron Company, dated January 5th, 1897," and shall be held by the Trustee as additional security. Nevertheless the Trustee, upon demand of the Companies, shall cancel all of the outstanding old bonds of any issue held hereunder, upon receiving in lieu thereof the entire collateral or property held as security therefor, the same to be immediately subject to the lien of this indenture.

REMAINING \$20,000,000 BONDS RESERVED FOR EXTENSIONS, ADDITIONS, BETTERMENTS, ETC., AFTER JAN. 1, 1897, AT NOT EXCEEDING \$1,500,000 YEARLY. SINGLE EXCEPTION AS TO \$2,000,000 BONDS DELIVERABLE PRIOR TO JAN. 1, 1898.

SEC. 4. The remainder of the authorized issue hereunder, amounting to \$20,000,000 (except such portion as shall be delivered prior to Jan. 1st, 1898, as provided in paragraph (6) of this section), shall be reserved, to be certified by the Trustee only when called for by resolution of the Board of Directors of the Reading Company as next hereinafter provided, for the following purposes, viz.

(a) For the acquisition of additional shares of stock of the Philadelphia & Reading Railway Co., and of additional bonds of said company to be issued under its mortgage dated Nov. 18, 1896; but in every case the par value of the bonds so acquired shall be at least equal to that of the shares so acquired, and the aggregate par value of the bonds and shares acquired shall be equal to that of the bonds hereby secured used for their acquisition.

(NOTE.—The mortgage of the Philadelphia & Reading Railway Company of Nov. 18, 1896, is for \$30,000,000, securing a \$20,000,000 six per cent bond already deposited with the Trustee hereunder as part security for this loan, and also \$10,000,000 of six per cent bonds issuable at not exceeding \$1,500,000 yearly to reimburse the Reading Company for not over one-half the expense (the other half to be represented by stock as required by the Pennsylvania law) incurred for extensions, additions, rolling stock, etc., on the Philadelphia & Reading Railway and certain of its leased lines. Extracts from the said mortgage will be found immediately following this abstract. They serve to show the safeguards created to ensure the proper use of the said \$10,000,000 bonds, which bonds are eventually to form part of the collateral securing the present mortgage.—Eds.)

(b) For the construction or acquisition, on and after Jan. 1st, 1897, of railway lines, extensions, terminal properties or rolling stock or other property; or for betterments, on or after that date.

All such construction, or betterments, or property acquired, shall be upon, along, or appurtenant to the properties of the Reading Company or of the Coal Company subject to the lien of this indenture, or upon, along, or appurtenant to lines of railway or terminal properties of some one or more of the other companies mentioned in Subdivision Fifth of the granting clauses hereof under the heading "I." or "II." or of some other company of whose capital stock more than one-half at the time of such use shall be pledged hereunder. Such lines, extensions or terminal properties or other property may be constructed or acquired by and in the name of the companies, or by or for account of any such other company.

Or for the acquisition on or after Jan. 1, 1897, of shares, bonds or other obligations of any company owning any such line, extension, terminal property, rolling stock or other property (provided that more than one-half of the total stock of such company shall be pledged hereunder, and provided further that, after the pledge of more than one-half of the capital stock of any such company, no bonds, shares or other obligations of such company thereafter issued shall be acquired hereunder unless a sum equal to the entire proceeds of the bonds used therefor shall have been applied by such company to the acquisition or construction of new property or betterments); or

(c) To reimburse the Reading Company for outlays or advances it made for, or to promote, any construction or acquisition made pursuant to (a) or (b) hereof on or subsequent to January 1st, 1897.

STRINGENT REGULATIONS AS TO ISSUE OF THESE \$20,000,000 BONDS.—VERIFIED CERTIFICATES.

The bonds reserved under this Section shall be certified by the Trustee only as follows, viz.:

(1) They shall be delivered only upon receipt of a resolution of the Board of Directors of the Reading Company, certified by its Secretary or Assistant Secretary, calling for the delivery of such bonds, and stating that the same will be set aside from all other assets of the Reading Company, and will be used only for purposes authorized by this Section.

(2) In the calendar year 1897 not exceeding \$1,500,000, par value, shall be delivered.

(3) In each calendar year thereafter there may be delivered not exceeding \$1,500,000, par value; but, in every instance, before delivering the same, the Trustee shall require the Reading Company to furnish the verified certificate of some person or persons, stating, as of their own knowledge:

(a) That all bonds delivered under this Section since the last previous verified certificate have been used for the purposes above provided, specifically in financing every acquisition or construction of any railroad, track, structure, betterment, rolling stock or other property, and every acquisition of bonds or stock of the Philadelphia & Reading Railway Company, and every acquisition of stock, bond, or other obligations of any other company owning any railroad or other property. Also stating in detail the amount of bonds expended for each purpose, and that no such expenditure was included in any previous certificate;

(b) That the price paid in such bonds for any such construction or acquisition (other than for the bonds or shares of the Philadelphia

& Reading Ry. Co. as aforesaid) was not in excess of the fair value of the work done or property acquired, and that the bonds were disposed of at not less than their fair market value;

(c) In case of new property the amount of all prior lien or charges, if any, to which the property is subject.

And in case of the acquisition of any shares of the capital stock, bonds or other indebtedness in behalf of the Companies or either of them, except shares or bonds of the Philadelphia & Reading Railway Co., it shall state whether the property of such other company is subject to any lien, charge or indebtedness, and, if so, the amount thereof.

NEW PROPERTY SO ACQUIRED IN ANY ONE YEAR SHALL NOT BE SUBJECT TO OVER \$2,000,000 OF LIENS, AND FOR THESE LIENS BONDS HEREBY SECURED SHALL BE RESERVED.

(4) The Companies shall not by use of any such bonds in any one calendar year acquire or construct new property, or acquire shares or bonds of any other company, except shares or bonds, obligations of the Philadelphia & Reading Railway Company, if the amount of the liens prior to this indenture, upon such new property, and all indebtedness of such companies whose stock shall be acquired, shall in the aggregate exceed \$2,000,000.

To retire such certified liens or indebtedness there shall be set apart out of the bonds reserved under this Section an amount at par equivalent thereto. The bonds so set apart shall be taken from the \$1,500,000 bonds under this Section deliverable in such calendar year, or in the next two succeeding calendar years, as may be agreed between the Reading Company and the Trustee.

OFFICERS MUST FILE WRITTEN STATEMENTS AS TO PROPER APPLICATION OF BONDS.

(5) Every such verified certificate unless signed (1) by the President or one of the Vice-Presidents, and (2) by the Comptroller, or Auditor, or Treasurer, of the Reading Company, shall be accompanied by a written statement of one of the officers first above designated and one of the officers second above designated that they believe such certificate to be true, and that such bonds have not been used for ordinary maintenance of the property owned or controlled by either of the Companies or for replacements or other purposes ordinarily treated by similar companies owning similar properties as a part of their operating expenses.

SUCH AFTER-ACQUIRED PROPERTY TO BE SUITABLY CONVEYED AND BONDS AND STOCK SO ACQUIRED TO BE PLEDGED WITH TRUSTEE.

Together with these statements and verified certificates, there shall be delivered to the Trustee all bonds and shares of stock so acquired, and such further instruments as may be necessary to vest in the Trustee all new property so acquired. Also there shall be furnished the written opinion of counsel of the Reading Company to the effect that such instruments and conveyances are sufficient for that purpose. PRIOR TO JAN. 1, 1898, \$2,000,000 BONDS ARE SUBJECT TO THE ORDER OF THE REORGANIZATION MANAGERS.\*

(6) Except to retire indebtedness, as hereinbefore provided, and except as provided further on in this paragraph, bonds shall not be issued or certified under this Section in excess of an aggregate amount of \$1,500,000 in any one calendar year, provided, however, that if the Reorganization Managers, on or before January 1, 1898, by writing addressed to the Companies and to the Trustee, shall require the delivery to them of \$2,000,000\* of said \$20,000,000 bonds; the Trustee shall deliver bonds to said amount. Such delivery shall be in addition to any deliveries under the foregoing provisions of this article and shall not impair the preceding provision for delivery of the residue of the \$20,000,000 of bonds subsequent to Dec. 31st, 1896.

#### REGISTERED BONDS WITHOUT COUPONS.

SEC. 5. Coupon bonds amounting to \$1,000 or to any multiple shall be exchangeable at the option of the holder for a like amount of registered bonds, without coupons, and when surrendered for that purpose shall forthwith be canceled. The registered bonds shall be for \$500, \$1,000, \$5,000 or \$10,000. Whenever any such registered bonds shall be surrendered for transfer, the Trustee shall deliver to the transferee a like amount of new registered bonds; but no registered bond may be converted into a coupon bond.

For any exchange of coupon bonds for registered bonds, and for any transfer of registered bonds without coupons, the Reading Company, at its option, may make a charge not exceeding 50 cents for each new registered bond issued in exchange for any surrendered bonds; but no charge shall be made for registration of the principal of coupon bonds.

#### BONDS MUTILATED OR DESTROYED MAY BE REPLACED.

In case any bond issued hereunder shall become mutilated or shall be destroyed, the Companies, in their discretion, may issue, and the Trustee thereupon shall deliver, a new bond of like tenor and date, bearing the same serial number either upon cancellation of the mutilated bond and its coupons, or upon receipt of satisfactory evidence of the destruction of such bond and its coupons, and upon receipt also of satisfactory indemnity.

RIGHTS HEREBY CONFERRED ARE FOR THE SOLE BENEFIT OF THE PARTIES HERETO AND THE GENERAL MORTGAGE BONDHOLDERS.

SEC. 6. Nothing herein shall be construed to confer upon any person other than the parties hereto and the holders of bonds secured by this indenture any legal or equitable right, remedy or claim. Neither shall any covenant or remedy apply to the Delaware River Terminal bonds, or of the Delaware River Terminal Extension bonds, mentioned in Section 3 of this Article One, unless the Reading Company, by

writing addressed and delivered to the Trustee, shall withdraw this restriction.

#### ARTICLE TWO.

PRINCIPAL AND INTEREST TO BE PAID PUNCTUALLY, TAX FREE.

SECTION 1. The Companies will punctually pay the principal and interest of every bond secured hereunder, without deduction from either principal or interest for any tax or taxes imposed by the United States, or any State or municipality thereof, which the Companies, or either of them, may be required to pay or to retain therefrom under or by reason of any present or future law. When, and as paid, all coupons shall forthwith be canceled.

PROPERTY HEREAFTER ACQUIRED WITH THESE BONDS TO BE IMMEDIATELY SUBJECT TO THIS MORTGAGE.

SEC. 2. All property hereafter acquired out of bonds secured by this indenture shall immediately be subject to the lien of this indenture.

#### DEEDS OF FURTHER ASSURANCE.

SEC. 3. Whenever demanded by the Trustee, the Companies will assign to the Trustee all real and personal estate which they shall acquire as appurtenant to any railroad hereby mortgaged or as appurtenant to the property of any company of which any bonds or stocks are pledged hereunder, and they will also execute such further deeds and assurances in the law as the Trustee shall reasonably require for better securing payment of the principal and interest of the bonds hereby secured.

RIGHT TO ACQUIRE PROPERTY FREE FROM LIEN HEREOF.

But nothing in this indenture shall limit the right or power of the Companies, or of either of them, hereby expressly reserved, by the use of their credit or in any manner, except by the use of such reserved bonds, or funds received, pursuant any provision hereof, to construct or to acquire other property of any kind, or interests therein, free from the lien hereof.

OFFICE FOR REGISTRATION OF BONDS IN NEW YORK CITY.

SEC. 4. The Companies will maintain in New York City a registry office for the registering upon presentation of coupon bonds and registered bonds issued hereunder. [For further provisions respecting registration see Sec. 5 of Article One and also the copy of the bond above.—Eds.]

OLD OUTSTANDING BONDS—INTEREST MUST BE PAID—PRINCIPAL MAY BE EXTENDED AND MAY BE MADE PAYABLE IN GOLD.

SEC. 5. The Companies will punctually pay the interest on all outstanding bonds of the Philadelphia & Reading RR. Co. and of the Coal Company mentioned in Section 3 of Article One hereof, and will observe all the covenants undertaken by the several mortgages securing same. But the right is expressly reserved, (1), to extend the time for the payment of the principal of any of said outstanding bonds, or, (2), in substitution for any such outstanding bonds to issue new bonds of lien prior to this indenture; but not to increase the aggregate principal sum or the rate of interest of such outstanding bonds. The principal and interest of all such new or extended bonds may be made expressly payable in gold coin of the United States of the present standard of weight and fineness. It is to be understood, however, that the \$30,000,000 bond of the Coal Company above mentioned in Section 4 of Article One shall be extinguished so soon as said bond shall be released from its pledge as collateral security for said outstanding old bonds, known as Consolidated Mortgage bonds of 1871-1911.

THE COMPANIES NOT TO SUFFER PRIOR LIENS TO BE CREATED.

SEC. 6. The Companies will not voluntarily suffer any lien which would be prior to the lien of these presents, excepting such indebtedness as is hereinafter permitted, and also any obligations to the city of Philadelphia now or hereafter necessary to procure the building and completion of the subway in said city.

#### TAXES, ASSESSMENTS TO BE PROMPTLY PAID.

SEC. 7. The Companies will also from time to time pay all taxes, assessments and governmental charges lawfully imposed, the lien of which would be prior hereto.

THE MORTGAGED PREMISES TO BE THOROUGHLY MAINTAINED.

SEC. 8. The Companies will at all times maintain the mortgaged premises and will replace all parts thereof lost, destroyed or used up [aside from coal mined and sold].

ACTS PROHIBITED WHICH WOULD IMPAIR THE VALUE OF THE SECURITY FURNISHED BY PLEDGED SHARES.

SEC. 9. Except subject to the lien hereof, or as herein otherwise expressly provided, the Companies (1) will not part with or encumber any shares, or the voting power thereon, of any Company a majority of whose stock shall have been pledged hereunder, and (2) will exercise their voting power thereon in such manner that they shall retain in themselves the rights of the majority stockholder therein; and (3) will at all times preserve each company's corporate existence.

Neither will the Companies as stockholders permit any such company, with the exception of the \*Coal Company, to increase its capital stock or to create any so-called "floating" indebtedness (except current operating accounts for a period not exceeding six months) or to issue or guarantee

NOTE.—\*This is as a safeguard against any unexpected matter that may develop in so large a reorganization. It is not expected that these \$2,000,000 bonds will be wanted.—Eds.

\*The reason for the distinction as to the Coal Co. is obvious, viz.: all its property is subjected directly to this mortgage, consequently the security of this mortgage is not through the stock.—Eds.

any bonds, or to create any mortgage or other lien upon its property (except bonds or mortgages or other liens in extension or replacement of those now existing), unless immediately there shall be pledged with the Trustee (1) all such additional stock (or an amount proportionate to the part previously pledged hereunder), and (2) all such indebtedness and all bonds so issued or guaranteed, and (3) any mortgage or other lien.

Except as herein otherwise expressly provided, neither of the Companies will permit any railroad company of whose capital stock the greater part shall be pledged hereunder to dispose of its railroad, or to lease the same (unless such lease be terminable hereunder by the Trustee), except to some company a majority of whose capital stock there shall then be pledged to the Trustee hereunder.

SEC. 10. All claims which the Companies may have against any such company shall be subject to the lien hereof.

#### THESE GENERAL MORTGAGE BONDS TO BE DISPOSED OF ONLY AS HEREIN PROVIDED.

SEC. 11. The Companies will dispose of the bonds hereby secured only in accordance with the provisions of this indenture, and for the purposes herein prescribed, and for no other or different purpose.

#### SINKING FUND PAYMENT TO BE MADE BEFORE DECLARATION OF A DIVIDEND.

SEC. 12. The Reading Company will not, in any year, pay dividends upon its stock, either common or preferred, until it shall deliver to the Trustee a statement under its corporate seal showing the amount of anthracite coal mined, from lands owned by the Coal Company and mortgaged hereunder, during the year next preceding, and simultaneously shall pay to the Trustee a sum equal to five cents per ton on all such coal mined, if the aggregate of dividends so declared shall exceed such sum, and otherwise such lesser sum as shall be equal to the aggregate of dividends so declared.

#### APPLICATION OF SINKING FUND INCOME.—THE BONDS HEREBY SECURED CANNOT BE CALLED.

All sums so received by the Trustee shall by it be used in purchasing bonds hereby secured in such manner as to it shall seem best, but not at a price exceeding par and accrued interest except with the approval of the Reading Company. Any unapplied balance shall be invested in securities in which savings banks at such times shall be authorized under the laws of New York to invest their funds, such securities to be held by the Trustee as a part of the trust estate hereunder. The Trustee may from time to time, in its discretion and with the consent of the Reading Company, dispose of any securities so purchased and re-invest the proceeds in similar manner. All bonds hereby secured, when so purchased by the Trustee, shall be canceled.

### ARTICLE THREE.

#### TREATMENT OF BONDS AND STOCKS PLEDGED.

SEC. 1. Unless the Companies shall be in default in the due performance of some covenant of this indenture, they shall be entitled to receive all interest paid and dividends declared in respect of any bonds or stocks pledged with the Trustee.

SEC. 2. All sums paid on account of the principal of any bond pledged with the Trustee hereunder or of any shares of stock (in case of liquidation) (unless applied as in section 5 of this article provided) shall be received by the Trustee and shall be used as part of the proceeds of property released under Article Six hereof.

#### COAL COMPANY MAY GUARANTEE OR ISSUE BONDS SUBJECT TO THIS MORTGAGE AND MAY PLEDGE ANY COAL ACTUALLY MINED.

SEC. 3. Unless the companies shall be in default they shall have the right to vote upon all shares of stock pledged hereunder for all purposes not inconsistent with the provisions of this indenture; it being expressly understood that proxies may be given to enable the Reading Company to vote upon all shares of stock of the Coal Company pledged hereunder, (1) for the issue or guaranty of bonds by the Coal Company, or to enable the Coal Company to join with the Reading Company in the creation of mortgages or other liens, subordinate to the lien hereof, upon property of the Coal Company; or (2) to enable the Coal Company to borrow money, and to secure the re-payment thereof by a pledge of its coal when actually mined.

#### PHILADELPHIA & READING RAILWAY MAY ALTER EXISTING LEASES AND MAY MAKE NEW LEASES UNLESS THE TRUSTEE OBJECTS.

The Reading Company may also vote upon all shares of stock of the Philadelphia & Reading Railway Co. (1) to enable said Railway Company to alter any existing lease, or (2) to make a new lease of property covered by any existing lease, or to lease additional lines of railway or other property, unless in the opinion of the Trustee such alteration, or such new lease is clearly prejudicial to the trust.

#### REGISTRATION OF BONDS PLEDGED—DEFAULT ON SAME.

SEC. 4. The Trustee may cause to be registered in its name as Trustee all coupon bonds pledged with it hereunder, or to cause the same to be exchanged for registered bonds, or to be stamped "Not negotiable; held by Central Trust Company of New York, as Trustee, under the mortgage of Reading Company and the Philadelphia & Reading Coal & Iron Company, dated January 5th, 1897."

SEC. 5. In case of default in the payment of the principal or interest of any mortgage bonds at any time pledged hereunder, then, in any such case, the Trustee, upon the written request of the Railway Company, shall cause proper

proceedings to be instituted to foreclose the mortgage by which such bonds are secured.

[Then follow explicit directions as to the course which shall be pursued in order to secure for the bondholders hereunder their rights in every particular in the event of foreclosure sale, liquidation or reorganization of any company whose securities are pledged with the Trustee.]

### ARTICLE FOUR.

#### COUPONS PLEDGED APART FROM BONDS TO HAVE SUBORDINATE LIEN.

SEC. 1. No interest obligation belonging to any bond hereby secured which on and after maturity shall be transferred or pledged apart from its bond shall be entitled to any benefit from this indenture, except after the prior payment in full of the principal of all bonds issued hereunder, and of all coupons and interest obligations not so transferred or pledged.

#### DEFAULT FOR SIX MONTHS, TRUSTEE MAY TAKE POSSESSION.

SEC. 2. In case (1) of default for six months in the payment of any interest on any bond at any time secured by this indenture, or on any bond (except as provided in Section 6 of Article One) for the acquisition of which bonds secured hereby are reserved under Section 3 of Article One hereof, or (2) of default in the punctual payment of the principal of any of said bonds; or (3) of default for six months in the payment of any tax, assessment or other governmental charge lawfully imposed after written notice thereof from the Trustee or from holders of 5 per cent in amount of the bonds hereby secured; or (4) of default for six months in the due performance of any other covenant herein contained, after like written notice; then in every such case the Trustee, personally or by its agent, may enter upon all or any part of the railways, lands and franchises hereby conveyed, and operate the same. Thereafter the Trustee may, at the expense of the trust estate, maintain and insure the rolling stock, tools and machinery and other property to the same extent as is usual with railway companies, and may make all necessary repairs and useful additions and improvements as to it may seem judicious.

#### APPLICATION BY TRUSTEE OF PROCEEDS FROM OPERATING THE PROPERTY.

After deducting the expenses of operating said railways, and of all renewals, additions, betterments and improvements, and all taxes, assessments and prior charges, including any interest paid on bonds prior in lien to those secured hereby, as well as compensation for its own services, the Trustee shall apply the income of the railway as follows:

In case the principal of the bonds hereby secured shall not have become due, to the payment of the interest remaining in default in the order of the maturity of the instalments of such interest, with interest thereon at the rate of 4 per cent per annum; such payments to be made ratably to the persons or parties entitled thereto, without discrimination or preference.

In case the principal of the bonds hereby secured shall have become due by declaration or otherwise, first to the payment of the accrued interest (with interest thereon at the rate of 4 per cent per annum) in the order of the maturity of the instalments thereof, and next to the payment of the principal of all bonds hereby secured. In every instance such payments shall be made ratably to the persons or parties entitled to such payment, without any discrimination.

The Trustee shall also in such case exercise the right to vote on all shares of stock pledged hereunder, and, for the benefit of the holders of bonds hereby secured, shall receive all interest moneys and dividends payable upon all pledged bonds and stocks. If a Receiver shall have been appointed, the Trustee, in its discretion, may turn over the interest moneys so collected to such Receiver, and may co-operate with the Receiver in operating the system in such manner as the Trustee shall deem best for the bonds hereby secured.

#### UPON DEFAULT FOR SIX MONTHS IN THE PAYMENT OF INTEREST, THE TRUSTEE, ON REQUEST OF A MAJORITY OF THE BONDS, SHALL DECLARE THE PRINCIPAL DUE.

SEC. 3. In case of default for six months in the payment of any interest on any bond hereby secured, then, upon the written request of the holders of a majority in amount of the bonds then outstanding, the Trustee, by notice in writing delivered to the Railway Company, shall declare the principal of all bonds hereby secured to be due and payable immediately. But if subsequently all arrears of interest, with interest at the rate of 4 per cent per annum on overdue instalments of interest, shall either be paid by the Railway Company or be collected out of the mortgaged premises before any sale of the mortgaged premises, then the holders of a majority in amount of the bonds hereby secured then outstanding, by written notice to the Railway Company and to the Trustee, may waive such default and its consequences.

#### UPON DEFAULT FOR SIX MONTHS THE TRUSTEE MAY SELL THE PROPERTY AT AUCTION OR INSTITUTE FORECLOSURE OR OTHER SUITS.

SEC. 4. In case of default made and continued as specified in Section 2 of this article, the Trustee (a) may sell to the highest and best bidder, all and singular the mortgaged property and premises, bonds and stocks, franchises and appurtenances, in two separate lots, the first lot to be the property herein granted by the Reading Company, and the second, all the property herein granted by the Coal Company. Provided, however, that if a sale thereof in parcels shall be required under the provisions of Section 6 of this Article, such sale may be made in parcels as in said Section provided. Said sales shall be made at public auction in Philadelphia, or at such other place, and at such time and

upon such terms as the Trustee may fix in the notice of sale to be given as herein provided. Or (b) the Trustee may proceed to protect the rights of bondholders under this indenture, by suits in equity or at law, whether for the foreclosure of this indenture, or for the enforcement of any other appropriate legal or equitable remedy, as the Trustee, being advised by counsel learned in the law, shall deem most effectual.

**TRUSTEE MUST TAKE ACTION WHEN REQUESTED BY 25 PER CENT IN INTEREST OF THE BONDHOLDERS.**

Upon the written request of the holders of 25 per cent in amount of the bonds hereby secured, it shall be the duty of the Trustee, when indemnified as hereinafter provided, to enforce the rights of the bondholders as aforesaid.

**HOLDERS OF 75 PER CENT OF THE OUTSTANDING BONDS SHALL HAVE THE RIGHT TO DIRECT THE METHODS OF FORECLOSURE AND OTHER PROCEEDINGS.**

SEC. 5. The holders of 75 per cent in amount of the bonds hereby secured and then outstanding, in case of any subsisting default, shall have the right to direct and control the method and place of conducting all proceedings for any sale of the premises, or for the foreclosure of this indenture, or for the appointment of a receiver, or of any other proceedings hereunder.

#### PROVISIONS REGARDING ANY SALE.

SECS. 6 TO 12. The property shall be sold as provided in Section 4 of this Article in two separate lots, including lands, railroads, stocks, bonds, etc., unless the holders of a majority in amount of the bonds hereby secured then outstanding shall, in writing, request the Trustee to cause one or both of said two lots to be sold in parcels, in which case the sale thereof shall be made in such parcels as may be requested.

Notice of any sale shall be given once in each week for four successive weeks prior to such sale in a newspaper published in New York, N. Y., and in Philadelphia, Pa.

The proceeds of any such sale shall be applied as follows:

*First*—To the payment of the expenses of such sale, including a reasonable compensation to the Trustee, and of all expenses incurred in managing the property, and all taxes or prior liens, except those to which such sale shall have been made subject.

*Second*—To the payment of the whole amount then owing upon the bonds hereby secured for principal and interest, with interest at the rate of 4 per cent per annum on the overdue instalments of interest. In case such proceeds shall be insufficient to pay in full the whole amount so due, then to the payment of such principal and interest, without preference or priority of principal over interest, or of interest over principal, or of any instalment of interest over any other instalment of interest, ratably, to the aggregate of such principal and interest; subject, however, to the provisions of Section 1 of this article.

**THE TRUSTEE MAY RECOVER JUDGMENT ON BEHALF OF ALL THE BONDHOLDERS.**

SEC. 13. In case of default in the payment of principal or interest when due, the companies covenant on demand to pay the full amount so owing, with interest thereon at 4 per cent, and in case of failure so to do the Trustee shall be entitled to recover judgment.

**COMPANIES WAIVE ALL RIGHTS UNDER EXTENSION, VALUATION AND REDEMPTION LAWS.**

SEC. 14. The Companies will not take advantage of any stay or extension, valuation or redemption law now or at any time hereafter in force, and they will not hinder the execution of any power herein granted to the Trustee.

**RECEIVER MAY BE APPOINTED ON COMMENCEMENT OF JUDICIAL PROCEEDINGS.**

SEC. 15. Upon commencement of any judicial proceedings to enforce any right of the bondholders under this indenture, the Trustee shall be entitled to exercise the right of entry herein conferred, and to secure the appointment of a Receiver of the premises, with such powers as the Court shall confer; but notwithstanding the appointment of any Receiver, the Trustee shall be entitled, as pledgee, to continue to retain possession and control of the stocks, bonds, cash and other property pledged hereunder.

**PRIOR TO DEFAULT THE COMPANIES MAY SURRENDER POSSESSION TO THE TRUSTEE.**

SEC. 16. Each of the companies whenever deemed expedient for the better security of such bonds, although there be then no default, may, with the consent of the Trustee, surrender to the Trustee full possession of the whole or any part of the property, premises and interests hereby conveyed, for any period, fixed or indefinite. The Trustee shall thereupon manage the property in accordance with the provisions of this indenture, and shall apply the income thereof as provided in section 2 of this article. Upon application of the Trustee, and with consent of either Company, a Receiver may be appointed to take possession of that company's property, with all the rights and duties by this section conferred upon the Trustee.

**REQUEST OF 25 PER CENT OF THE BONDS NECESSARY TO REQUIRE ACTION HEREUNDER.**

SEC. 17. No holder of any bond or coupon shall have the right to institute any action in equity or at law for the foreclosure of this indenture or for the appointment of a receiver or for any other remedy hereunder unless the holders of 25 per cent in amount of the bonds hereby secured and then outstanding shall have made written request of the Trustee, and shall have afforded it reasonable opportunity to exercise the powers hereinbefore granted; it being intended that no holders of bonds or coupons shall enforce any right hereunder except in the manner herein provided, and for the equal benefit of all holders of such outstanding bonds and coupons.

#### REMEDIES CUMULATIVE.

SEC. 18. Except, as herein expressly provided to the contrary, no remedy herein conferred is exclusive of any other remedy, but every such remedy shall be in addition to every other remedy existing at law or in equity or by statute.

**BONDS AND COUPONS MAY BE USED IN SETTLEMENT.**

SEC. 19. At any sale hereunder the purchasers in making payment shall be entitled to turn in any bonds and any matured and unpaid coupons hereby secured, estimating the value of such bonds and coupons at the sum payable out of the net proceeds of such sale to the holders thereof as their ratable share of such net proceeds.

**NO DELAY SHALL IMPAIR RIGHTS ARISING FROM DEFAULT.**

SEC. 20. No delay to exercise any right arising from any default shall be construed to be a waiver of any such default. **REORGANIZATION WITHOUT FORECLOSURE.—FOUR-FIFTHS OF THE BONDS MAY AUTHORIZE THE CREATION OF PRIOR LIENS.**

SEC. 21. In case of any default hereunder, if, in order to preserve the franchises of the companies, or either of them, and to avoid a sale hereunder, any plan of reorganization shall be proposed with provisions for the modification of this mortgage, so far as to authorize the creation of new liens superior to the lien hereof, then and in every such case registered holders of *four-fifths* in amount of all outstanding bonds hereby secured, by writing, may direct the Trustee, in behalf of all the holders of all bonds issued hereunder, to acquiesce in the provisions of such plan. But no bond hereby secured and then outstanding shall be changed as to amount or date of payment of principal or rate or dates of payment of interest.

#### ARTICLE FIVE.

##### PROOF OF REQUESTS OF BONDHOLDERS.

This article provides methods of proving the execution of requests and other instruments by bondholders and of the ownership of bonds by persons executing the same.

#### ARTICLE SIX.

##### RELEASE OF PROPERTY FROM LIEN HEREOF.

Upon the written request of the Companies, approved by resolution of their respective Boards of Directors or Executive Committees, but subject to the limitations in this Section prescribed, the Trustee, in its discretion, may release, in order that it may be sold, any part of the mortgaged premises, excepting (1) the bonds (other than bonds of the Schuylkill Navigation Co.) mentioned in Subdivision Fourth of the granting clauses of this indenture, (2) the shares of stock mentioned under I. and II. of Subdivision Fifth of said granting clauses and (3) any bonds and shares hereafter pledged hereunder. It is especially agreed by the parties hereto that the bonds of the Schuylkill Navigation Company pledged hereunder may be so released. The proceeds of property sold may be applied as required by any mortgage securing any of said outstanding old bonds. So far as such proceeds shall not be disposed of pursuant to any such requirement, they shall be applied, either (1) to the purchase of bonds hereby secured in the same manner as is provided in Section 12 of Article Two hereof; or (2), with the approval of the Trustee, to the purchase of other property, real or personal, which shall be conveyed in trust by the Companies to the Trustee, subject to this mortgage.

If, however, in any one year, the Trustee shall be called upon to release property of the Coal Company representing in excess of an aggregate consideration of \$50,000, the Trustee shall first obtain the opinion of an expert verified before a notary public, (1) that the property for which the release is asked is no longer desirable for the purpose of maintaining, operating and developing the coal business of the Coal Company, either at the present or in the future; and (2) that without such property said coal business, both present and future, can be maintained, operated and developed with substantially equal efficiency and economy.

The Companies will in all cases state in writing to the Trustee the full consideration paid by the purchasers, if such full consideration be not recited in the deed of release.

#### ARTICLE SEVEN.

##### TRUSTEE MAY REQUIRE INDEMNITY.

SEC. 1. The Trustee shall not be under any obligation to take any action hereunder likely to involve expense unless the bondholders shall furnish it reasonable indemnity.

**TRUSTEE MAY BE REMOVED BY HOLDERS OF 75 PER CENT IN AMOUNT OF THE BONDS.**

SEC. 2. The Trustee may be removed at any time by an instrument in writing signed by three-quarters in amount of the holders of the bonds then outstanding.

##### APPOINTMENT OF NEW TRUSTEE.

SEC. 3. A new Trustee may be appointed by the holders of a majority in amount of the bonds hereby secured and then outstanding by instruments in writing. The Companies, however, may appoint a Trustee to fill such vacancy until a new Trustee shall be appointed by the bondholders, or as hereinafter authorized. Notice of such appointment by the Companies shall be advertised for six successive weeks in New York and Philadelphia, and any new trustee so appointed shall immediately be superseded by a trustee appointed in the manner above provided by the bondholders prior to the expiration of ninety days after such publication of notice. In case no such appointment shall be made by

the bondholders within ninety days, a new trustee, to supersede the trustee appointed by the Companies, may be appointed by any judge of the United States Circuit Court for the Circuit, or by any court of competent jurisdiction in the premises upon the application of one quarter in amount of the bondholders. Every such trustee shall always be a trust company in good standing, doing business in the City of New York, and having a capital and surplus aggregating at least \$2,000,000.

#### ARTICLE EIGHT.

##### NO RECOURSE AGAINST STOCKHOLDERS OR OFFICERS.

No recourse under any agreement of this indenture shall be had against any incorporator, stockholder, officer or director of the Companies.

#### ARTICLE NINE.

##### PEACEABLE POSSESSION—RELEASE OF MORTGAGE.

SEC. 1. The Companies shall have the right to retain possession of the mortgaged property until default.

SEC. 2. Upon payment of all the bonds hereby secured the mortgage shall be released.

#### ARTICLE TEN.

##### ALL COVENANTS HEREIN TO BIND EACH OF THE COMPANIES SEVERALLY AND RESPECTIVELY.

SEC. 1. All the covenants herein shall bind each of the companies severally and respectively and their and each of their successors and assigns, whether so expressed or not.

##### CONSOLIDATIONS PERMITTED.

SEC. 2. This section authorizes consolidations, merger or sale of the mortgage premises of either company as an entirety with, or to, any other corporation, provided that the transaction shall not impair the lien of this indenture, and that the successor corporation shall assume the bonds and the due and punctual performance and observance of all the covenants of this indenture.

##### RIGHT OF SUCCESSOR CORPORATION TO ISSUE BONDS HEREUNDER.

SEC. 3. In case either of the companies shall be consolidated or merged with any other corporation or its property be sold subject to this indenture, the successor corporation upon executing an indenture satisfactory to the Trustee, assuming said bonds and the performance of all the covenants and conditions of this indenture, shall be substituted for that of one of the companies to whose rights it shall have succeeded, and thereupon it may issue, either in its own name or in the name of the said company, any or all of such bonds which shall not theretofore have been delivered subject to all the restrictions herein prescribed.

The essential provisions of the mortgage of the *Philadelphia & Reading Railway Company*, the deed of trust referred to in the above abstract, are given below. It will be particularly noted that the total issue of bonds is limited to \$30,000,000, including the \$20,000,000 already deposited as part security for the above-described bonds of the Reading Company. The remaining \$10,000,000 can be issued only to the Reading Company to reimburse it for one-half the cost of future extensions, terminal properties, rolling stock, etc., at not exceeding \$1,500,000 yearly. As the Railway Company did not directly join in the Reading Company's mortgage (though it could have done so, if such a course had been thought preferable), it (the Railway Company) creates this separate mortgage, which provides that all bonds secured by it shall go to the Reading Company, and the Reading Company deposits all such bonds under its mortgage.

## PHILADELPHIA & READING RAILWAY CO.

ABSTRACT OF MORTGAGE DATED NOV. 18, 1896, SECURING \$30,000,000 OF 6 PER CENT BONDS,  
OF WHICH \$20,000,000 HAVE BEEN DEPOSITED AS SECURITY FOR PRECEDING MORTGAGE, AND \$10,000,000 WILL BE SO DEPOSITED WHEN ISSUED [AT NOT OVER \$1,500,000 PER ANNUM] FOR IMPROVEMENTS, EXTENSIONS, ETC., AT NOT EXCEEDING ONE-HALF THE COST THEREOF.

#### PARTIES.

The PHILADELPHIA & READING RAILWAY CO., party of the first part, and the CENTRAL TRUST CO. of New York, the Trustee, party of the second part.

#### PREAMBLE.

WHEREAS, the directors and stockholders of the Railway Company have duly authorized the making of this mortgage, to secure a \$20,000,000 6 per cent gold bond, dated Nov. 18, 1896, and payable Jan. 1, 1897, to be given in payment for its property, and also additional bonds for the aggregate principal sum of \$10,000,000, with like interest, to be used in part payment for new acquisitions, construction and betterments.

#### PROPERTY CONVEYED AS SECURITY.

NOW, THEREFORE, this indenture witnesseth, that in order to secure equally and proportionately the said bonds the Railway Company hereby conveys to the Trustee all its estate, right, title and interest in and to the following property, railroads and franchises, viz.:

LINES OF ROAD OWNED.		Miles of Road.	Miles Second Track.	Miles of 1st Track.

† Supplied; not in mortgage.

#### OTHER PROPERTY CONVEYED AND TO BE CONVEYED.

Also all the right, title, estate, interest, property and franchises in and to any and all other lines of railway, extension and branches, now owned, leased or held by the Railway Company or in which it has any interest wheresoever, wherever located, although not particularly described in this indenture.

Including all stations, docks, and fixtures, all lands designed for depots, etc., all locomotives and other rolling stock, and all leaseholds and agreements, and all other property, real or personal, now or hereafter acquired by the Railway Company for use upon, or in connection with, such lines of railway; also all rights, privileges and franchises, tolls and other income of such lines of railway or any such leasehold.

Including, also, all property sold to the Railway Company by Charles H. Coster and Francis Lynde Stetson, in their deed dated Nov. 16, 1896; and also all stocks, bonds, certificates of indebtedness, claims and other property of every name and nature now owned or hereafter acquired by the Railway Company which by any provision of this indenture it is required to deposit with the Trustee.

#### ARTICLE ONE.

##### ISSUE OF BONDS LIMITED TO \$30,000,000.

SEC. 1. The aggregate principal sum outstanding under this indenture at any one time shall never exceed \$30,000,000.

##### BONDS FOR \$20,000,000 ISSUED FORTHWITH.

SEC. 2. One bond for the principal sum of \$20,000,000, immediately upon the execution hereof, shall be delivered to Charles H. Coster and Francis Lynde Stetson. [This bond has been deposited as part security for the bonds of the Reading Company as above stated.—Eds.]

REMAINING \$10,000,000 OF BONDS ISSUABLE ONLY TO REIMBURSE THE READING COMPANY FOR ONE-HALF THE COST OF FUTURE EXTENSIONS, ADDITIONS, ETC., AT NOT EXCEEDING \$1,500,000 YEARLY.

SEC. 3. The remaining \$10,000,000 of said bonds shall be reserved to be certified by the Trustee when called for by resolution by the Board of Directors as next hereinafter provided, but only to reimburse the Reading Company for one-half of the amount of the advances by it theretofore actually made subsequent to Jan. 1, 1897, with the approval of the Railway Company, for the following purposes, viz.:

For the construction or acquisition after Jan. 1st, 1897, of branch lines, extensions, terminal properties, rolling stock or other additional property; or for the construction of betterments subsequent to said date; all such construction or betterments, or property acquired, to be appurtenant to lines of railway, branches or terminal properties of the Railway

Company, subject to the lien of this indenture, or appurtenant to one or more of the leasehold estates hereinabove specifically granted hereunder, whether now held or hereafter acquired; it being intended that such branch lines, extensions or terminal properties, or other new property, may be constructed or acquired by and in the name of the Railway Company, or by or for account of any lessor of any of the said leasehold estates specifically granted hereunder.

STRINGENT PROVISIONS AS TO ISSUE OF SAID \$10,000,000 OF BONDS.

THE BONDS RESERVED UNDER THIS SECTION 3 (ARTICLE ONE), shall be certified by the Trustee and delivered to the Railway Company as follows, and not otherwise, viz.:

(1) Such bonds shall be delivered by the Trustee upon resolution of the Board of Directors of the Railway Company, certified by its Secretary or Assistant Secretary, and stating that such bonds are to be used only for the purposes authorized by this Section.

(2) In each calendar year after Dec. 31, 1896, there shall be delivered such amount, not exceeding \$1,500,000 par value of such bonds, as from time to time shall be called for in such resolutions (the bonds to be in sums of \$1,000 or such multiples thereof as the Railway Company shall require); but in every instance, before delivering the same, the Trustee shall require the Railway Company to furnish, in addition to such resolution of the Board, the verified certificate or certificates of some person or persons, stating as of his or their own knowledge:

(a) that the bonds are to be used to reimburse the Reading Company as above provided for not more than one-half of the amount of its advances, specifically indicating every acquisition or construction of any railroad, track, structure, betterment, rolling stock or other property, for which the advances shall have been made, which acquisition or construction in every instance shall either be actually owned by the Railway Company, or shall then be connected with the leasehold estates above specified in the granting clauses of this indenture. Such certificates also shall state in detail the amount of bonds to be applied in reimbursing the Reading Company for each and every such purpose, and whether such acquisition or construction was by or in the name of the Railway Company, or was by or for account of any lessor as herein authorized; and also that neither any advance by the Reading Company nor any acquisition, construction or expenditure in such certificate stated has been included or allowed for in any previous certificate;

(b) that no part of the sums so advanced on account of any of said leasehold estates can be collected in money from the lessor thereof, under the terms of the lease thereof.

(c) that the price to be paid in such bonds, to reimburse the Reading Company for its advance for such construction or acquisition, does not exceed one-half of the fair value of such work done or property acquired, estimating such bonds at the fair market price, which, as nearly as may be at the time of determining such price, the Reading Company shall have realized for its own 4 per cent general mortgage bonds now about to be created;

(d) that the bonds delivered to the Railway Company pursuant to the resolution last preceding have been actually delivered to the Reading Company;

(e) In case of the acquisition hereunder of any new property, every such verified certificate shall also state whether the property so acquired is subject to any lien, or charge or ownership, prior to this indenture, other than outstanding old bonds now existing on the property of the Railway Company.

NEW PROPERTY ACQUIRED IN ANY ONE YEAR SHALL NOT BE SUBJECT TO LIENS EXCEEDING \$2,000,000.

(3) The Railway Company shall not by use of any such bonds reserved under this Section reimburse the Reading Company for any advances by it made in any one year to enable the Railway Company to acquire or to construct new property, if such new property shall be subject to any ownership prior to this indenture, or to any lien or charge prior hereto which shall in the aggregate exceed \$2,000,000.

BONDS MUST BE RESERVED FOR LIENS ON PROPERTIES HEREAFTER ACQUIRED.

(4) There shall be reserved out of the bonds set apart under this section an amount at par equivalent to the certified liens, charges or indebtedness existing on the property so acquired by the Reading Company; and the bonds so reserved shall be taken from the \$1,500,000 bonds under this Section deliverable in such calendar year, or in the next two succeeding calendar years, as may be agreed between the Railway Company and the Trustee. The bonds so reserved shall be delivered only to acquire such certified liens, charges or indebtedness in amounts equivalent at least to the par amount of the bonds delivered therefor, and all the liens, charges or indebtedness so retired or acquired shall be canceled, or, if practicable, shall be assigned to the Trustee.

OFFICERS MUST FILE WRITTEN STATEMENT AS TO PROPER APPLICATION OF BONDS.

(5) Every such verified certificate, unless signed (a) by the President or one of the Vice-Presidents, and (b) by the Comptroller, or Auditor, or Treasurer, of the Railway Company, shall be accompanied by a written statement of one of the officers first-above designated and also one of the officers second-above designated, that they believe such certificate to be true, and that no part of the expenditures therein certified represents ordinary maintenance of the railway or other property owned, leased or in any way controlled by the Railway Company, or replacements or other purposes ordinarily treated by railroad companies as a part of their operating expenses.

Together with such statements and verified certificates, there shall be delivered to the Trustee such further instruments and conveyances (except in respect of additions to property in which a leasehold estate is hereinabove granted hereunder) as may be necessary to vest in the Trustee, so far as practicable, all new property so acquired, and, so far as may be, any and all other liens, charges or

indebtedness taken up or acquired by means of advances from the Reading Company reimbursed to it partly by means of the said bonds; and also the written opinion of counsel of the Railway Company to the effect that such instruments and conveyances are sufficient for that purpose, or that no additional instrument or conveyance is necessary.

[The remaining provisions of the mortgage are of little or no public interest, as the bonds are merely to be deposited as security for the other loan. It may be said, however, that in case of default for six months, the rights conferred upon the Trustee and the bondholders to foreclose or take other action are substantially the same as in the Reading Company's mortgage above.—Eds.]

NOTE.—*Coal and Iron Company's Mortgages.*—The amounts and dates of maturity of the several land mortgages and real estate bonds of the Philadelphia & Reading Coal & Iron Co., which are referred to in the mortgage of the Reading Company above, are as follows:

LAND MORTGAGES.

Loans.	Lands Mortgaged to Secure Bonds.	Bonds Outstanding	Due.
West Point (N. Y.)...	{ Putnam Iron ore } { lands..... }	\$204,000	June 1, 1884

MEXICAN NORTHERN RAILWAY COMPANY

APPLICATION TO THE NEW YORK STOCK EXCHANGE TO LIST THE CAPITAL STOCK.

NEW YORK, March 5, 1897.

The Mexican Northern Railway Company was organized in accordance with a concession granted by the Mexican Government, bearing date of the 20th day of March, 1890, and in pursuance of the provisions in Chapter 468 of the Laws of 1881 of the State of New York, the articles of the association being dated on the 24th day of June, 1890, and the certificate of incorporation dated on the 26th day of June, 1890, for ninety-nine years.

The line of the road is from Escalon, on the Mexican Central Railway, in the State of Chihuahua, running in a general northeasterly direction 125 kilometers (equals 77.67 miles), to Sierra Mojada, in the State of Coahuila, Republic of Mexico.

Gauge of road, standard; rails, steel, 56 and 60 pounds. Equipment: 7 locomotives, 2 combination passenger cars, 2 flat cars, 2 caboose cars, 5 water cars. In addition, the company operates 200 box cars belonging to the Mexican Northern Rolling Stock Company, and the Mexican Central Railway Company supplies such additional freight cars as are needed for the traffic. The payments by the Mexican Northern Road for use of the 200 cars furnished by the rolling stock company and the cars furnished by the Mexican Central Railway Company mentioned, are entirely on a mileage basis on rates of  $\frac{3}{4}$  and 6-10 cents per mile, and all such payments are included in the statement of operating expenses.

All repairs of cars which are made by us are done under master car builders' rules. The operating expense statements include all of our charges except interest and sinking fund, which appear as separate items.

Statements showing locomotive and car kilometrage for past three years are furnished the committee.

Officers of the company are: Robt. S. Towne, President; George Foster Peabody, First Vice-President; Edward M. Shepard, Second Vice-President; A. Foster Higgins, Treasurer; C. J. Nourse, Jr., Secretary and Auditor.

Directors: Robt. S. Towne, A. R. Meyer, A. Foster Higgins, W. F. Dummer, Edward M. Shepard, George Foster Peabody, N. Witherell.

The State Trust Company has been appointed registrar of the stock. Stock is transferred at the general office of the company, 42 and 44 Pine Street, this city. The road was originally bonded for \$1,660,000. In March, 1895, the bonds were listed on the Exchange, and at that time 184 had been purchased for the sinking fund, leaving the amount outstanding \$1,476,000. Since that date 93 more bonds have been purchased for the sinking fund, making the number now held for that fund 277, and leaving the value of bonds outstanding \$1,383,000.

Statements of the yearly earnings of the road from the beginning of its operation up to June 30, 1894, were given in the application for listing the bonds, and attached hereto are statements for year ending June 30, 1895, and year ending June 30, 1896; also for six months ending December 31, 1896, and balance sheet of that date. The figures in all statements and reports have been reduced to a gold basis.

STATEMENT FOR YEAR ENDING JUNE 30, 1895.  
(United States Currency.)

Gross earnings.....	\$660,644 87	
Operating expenses.....	317,402 03

Application is hereby made for the listing on the New York Stock Exchange of the stock of the Mexican Northern Railway Company, which consists of 30,000 shares of the par value of \$100 each, \$3,000,000. Very respectfully,  
C. J. NOURSE, Jr.,  
Secretary Mexican Northern Railway Co.

The Committee on Stock List recommended that the above-described \$3,000,000 capital stock be admitted to the list.

Adopted by the Governing Committee, March 24, 1897.

## The Commercial Times.

### COMMERCIAL EPITOME

FRIDAY NIGHT, March 26, 1897.

The proceedings in the House of Representatives on the new tariff bill have been followed closely by the business world. Discussion has continued general over the proposed measure, and there appears to be more or less dissatisfaction expressed with several of the schedules, not the least of which has been the proposed duties on wool and woolen goods. Little change has occurred in existing business conditions. In the interior trade has been interrupted by bad weather and floods, but at the seaboard importers have been fairly busy as a result of the prospective advance in the import duties. The decision of the Supreme Court that the agreement of the Trans-Missouri Freight Association was a violation of the Anti-Trust Law was something of a surprise, and it has exercised considerable influence in financial circles. European advices have reported the political situation as more pacific, and this has had a favorable influence.

Lard on the spot has been in moderately active demand. Shippers have been buyers and prices have ruled about steady. At the close, however, the market was weaker at 4 1/2¢ for prime Western, 4 1/2¢ for prime City and 4 7/8¢ for refined for the Continent. Business in the local market for lard futures has continued at a standstill. At the West there has been a moderate speculation and at the close prices weakened slightly under realizing sales.

#### DAILY CLOSING PRICES OF LARD FUTURES

	Mon.	Tues.	Wed.	Thur.	Fri.
May.....	4 57	4 50	4 52	4 55	4 57

Pork has had only a moderate call, but prices have advanced, closing steady at \$9 00@\$9 75 for mess, \$9 75@\$10 50 for family and \$9 50@\$10 75 for short clear. Cut meats have been in fairly good demand at advancing prices, closing at 5 1/4¢@5 3/4¢ for pickled bellies, 12@10 lbs. average; 5 1/4¢@5 3/4¢ for pickled shoulders and 9@9 1/2¢ for pickled hams. Beef has had a moderate call from exporters at steady prices, closing at \$7@\$8 for mess, \$7 50@\$9 for packet, \$9@\$11 for family and \$12 50@16 for extra India mess. Beef hams have been firm but quiet, closing at \$19 00@\$19 50. Tallow has had a moderate sale and the price has held steady at 8 3/4¢. Oleo-stearine has been quiet but steady at 4 3/4¢. Lard stearine has been unchanged and dull at 4 3/4¢. Cotton-seed oil has sold in moderate quantities to exporters but at slightly lower prices, closing at 20@20 1/2¢ for prime crude and 23¢ for prime yellow. Butter has been in demand and firm, closing at 10@19¢ for creamery. Cheese has had a fair sale at full values, closing at 9@12 1/2¢ for state factory, full cream. Fresh eggs have further declined to 10¢ for choice Western, closing with demand moderately active.

The market for coffee of Brazil growth has been flat. Business has continued extremely slow and prices have gradually weakened, closing at 8 1/2¢ for Rio No. 7. The mild grades have had a limited sale but there has been free offerings and the tone has been easy, closing at 15 1/2¢@15 3/4¢ for good Cucuta and 25@25 1/2¢ for standard Java. The trading in the market for contracts has been quiet, and at the close prices weakened under increased offerings. Following were the final asking prices:

April.....	8 1/2¢	July.....	8 3/8¢	Oct.....	8 4/8¢
May.....	8 2/8¢	Aug.....	8 4/8¢	Nov.....	8 4/8¢
June.....	8 3/8¢	Sept.....	8 4/8¢	Dec.....	8 4/8¢

Raw sugars have received increased attention and at the close a fair business was transacted at firm prices, closing at 35 1/2¢ for centrifugals 96 deg. test and 2 1/2 1/2¢ for muscovados 89-deg. test. Refined sugars have been quiet but steady. Teas have been in better demand and firm.

Kentucky tobacco has been in fair request and firm. Sales 800 hhds. Seed leaf tobacco has had only a moderate call, but prices have held firm. Sales for the week were 1,690 cases, as follows: 200 cases 1895 crop, N. E. Havana, 16@22 1/2¢; 250 cases 1895 crop, Wis. Havana, 5 3/4@10¢; 240 cases 1894 crop, do., 8@9 3/4¢; 250 cases 1893 crop, do., 10@10 1/2¢; 200 cases 1895 crop, Zimmers, 15 1/2@7¢; 100 cases 1894 crop, do., 16¢; 150 cases 1895 cr p. Penn. Havana 12 1/2@13¢; 200 cases 1895 crop, Penn. seed, 11 1/2@12¢, and 100 cases 1893 crop, do., fill r. 9 1/2¢; also 650 bbls Havana at 80¢ to \$1 10 in bond, and 450 bales Sumatra at 75¢ to \$2 in bond.

There has continued a quiet market for Straits tin and prices have weakened in response to easier foreign advices, closing at 13 2/2¢@13 3/8¢. Ingot copper has had only a very limited call, and the close was easy at 11 7/8¢@12¢ for Lake. Lead has been in less active demand and values have weakened slightly, closing at 3 37 1/2¢@3 42 1/2¢ for domestic. Spelter has weakened slightly, closing dull at 4 10@4 20¢ for domestic. Pig iron has sold slowly and the market lacked tone, closing at \$10@12 for domestic.

Refined petroleum has been advanced, closing at 2 5/8¢ in bbls, 4¢ in bulk and 7¢ in case; naphtha dull at 6 1/2¢. Crude certificates have been neglected. Credit balances have been advanced to 95¢. Spirits turpentine has also advanced slightly, closing quiet but steady at 29 1/4¢@29 3/4¢. Rosins have been dull and without changes, closing at \$1 65 for common and good strained. Hops have been dull and easier. Wool has continued in demand and firm.

COTTON.

FRIDAY NIGHT, March 26, 1897.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 61,032 bales, against 65,459 bales last week and 79,931 bales the previous week, making the total receipts since the 1st of Sept., 1896, 6,356,877 bales, against 4,763,712 bales for the same period of 1895-6, showing an increase since Sep. 1, 1896, of 1,494,165 bales.

Early in the week there was an exceptionally dull speculation in the market for cotton futures. Subsequently, however, the trading became more active. The course of prices has been somewhat irregular and the close showed no important changes from the quotations of a week ago. Saturday there was a dull market and prices eased off 3 to 3 points in sympathy with weaker foreign advices. There continued a dull market on Monday, but prices advanced slightly in response to firmer foreign advices. A small movement of the crop and the improved political situation in Europe stimulated some buying and the close was at an advance of 1 to 2 points for the day. The market Tuesday was dull and easier. Advices from the English markets were slightly weaker, and with the absence of speculative interest prices gradually sagged, closing 1 to 2 points lower for the day. The opening of the market on Wednesday was steady. Later in the day, however, advices were received from the South stating that the worst of the floods in the Mississippi Valley were apparently over. Subsequently came reports of financial difficulties; this prompted liquidation by tired holders and prices weakened, closing at a decline of 8 to 9 points. There was a further decline of 7 to 10 points in prices during early 'Change on Thursday. Toward the close, however, when it became known that sales had been made in the local market of 4,500 bales to home spinners, there was a general rush on the part of operators to buy and prices advanced sharply, closing 3 to 5 points higher for the day. To-day the market opened at a decline of 3 to 5 points, under disappointing foreign advices. Towards the close, however, on a report of a break in a levee on the Mississippi River below Arkansas City and the estimated small supply of cotton coming into sight for the week, the market rallied and the close was steady, with prices 1 point lower to 1 point higher for the day. Cotton on the spot was quiet early in the week and on Wednesday prices were lowered 1-16c. Thursday a large business was transacted with spinners at steady values. To-day the market was fairly active and firm, middling uplands closing at 7 5-16c.

The total sales for forward delivery for the week are 411,709 bales. For immediate delivery the total sales foot up this week 9,280 bales, including 2,539 for export, 6,741 for consumption, — for speculation and — on contract. The following are the official quotations for each day of the past week—March 2 to March 26

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon.	Tues.	Wed.	Th.	Fri.

‡ The imports into Continental ports the past week have been 102,000 bales.

The above figures indicate an increase in the cotton in sight to-night of 80,621 bales as compared with the same date of 1896, a falling off of 1,008,634 bales from the corresponding date of 1895 and a decrease of 739,882 bales from 1894.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1895-96—is set out in detail below.

TOWNS.	Receipts This week.	Shipments This week.	Stock Feb. 26.	Receipts This week.	Shipments This week.	Stock Feb. 27.
Alabama.....	21	15,346	184	20	10,120	87

Wyoming.....	...	...	276,304	...	...	316,494
Total, 31 towns.....	...	...	...	...	...	...

\* This year's figures are estimated.

The above totals show that the interior stocks have decreased during the week 24,515 bales and are now 39,902 bales less than at same period last year. The receipts at all the towns have been 12,088 bales less than same week last year and since Sept. 1 they are 835,715 bales more than for same time in 1895-6.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below are closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending March 26.	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns		
	1897.	1896.	1895.	1897.	1896.	1895.	1897.	1896.	1895.
Feb. 10.....	81,304	109,395	91,807	401,905	433,487	420,269	57,745	89,603	69,787
" 26.....	84,305	95,659	137,940	371,238	410,983	402,728	56,728	63,155	120,399
Mch. 5.....	95,260	85,286	119,835	350,127	381,268	388,860	71,155	58,571	105,967
" 12.....	79,931	71,518	132,881	323,319	362,634	352,976	53,123	49,881	97,497
" 19.....	65,459	69,460	123,133	301,139	331,183	341,836	43,279	11,009	113,993
" 26.....	61,032	76,287	115,470	276,594	316,494	323,932	36,187	58,548	94,566

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1896, are 6,412,377 bales; in 1895-96 were 5,046,506 bales; in 1894-95 were 7,493,615 bales.

2.—That although the receipts at the outports the past week were 61,032 bales, the actual movement from plantations was only 35,487 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 55,542 bales and for 1895 they were 94,566 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Mch. 26 and since Sept. 1 in the last two years are as follows.

March 26	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis.....	6,616	466,797	9,229	465,077
Via Cairo .....	2,144	242,778	4,210	215,197
Via Parker .....	147	14,654	827	15,440
Via Evansville.....		2,387		68
Via Louisville.....	1,445	121,441	2,141	117,217
Via Cincinnati.....	1,516	123,062	4,961	82,984
Via other routes, &c.....	1,022	108,163	943	77,687
Total gross overland.....	12,884	1,073,312	22,311	973,670
Deduct shipments—				
Overland to N. Y., Boston, &c..	4,493	283,216	6,903	219,728
Between interior towns.....	147	3,678	20	2,921
Inland, &c., from South.....	960	36,028	1,590	39,645
Total to be deducted.....	5,600	316,916	8,513	262,294
Leaving total net overland*..	7,284	756,396	13,798	711,376

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 7,284 bales, against 13,798 bales for the week in 1896, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 45,020 bales.

In Sight and Spinners' Takings.	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Mch. 26.....	61,032	6,256,877	76,237	4,762,712
Net overland to Mch. 26.....	7,284	756,396	13,798	711,376
Southern consumption to Mch. 26	18,006	603,000	17,006	585,000
Total marketed .....	86,316	7,616,273	107,035	6,059,088
Interior stocks in excess.....	24,543	156,000	17,689	283,794
Came into sight during week.	61,771		89,346	
Total in sight Mch. 26.....		7,772,273		6,342,882
North'n spinners tak'g to Mch. 26	37,355	1,392,019	15,767	1,380,107

\* Decrease during week.

It will be seen by the above that there has come into sight during the week 61,771 bales, against 89,346 bales for the same week of 1896, and that the increase in amount in sight to-night as compared with last year is 1,429,351 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices this evening indicate that farm work is backward over the greater portion of the South, having been delayed by continuous rains and the overflowing of streams. In Texas, however, operations are better advanced than elsewhere, but planting has been checked somewhat by threatening weather. Light frost occurred in the interior of Texas on Wednesday. The Mississippi River continues at a very high stage and considerable land on the west bank is under water. There have been no breaks on the east side and it is believed the levees will hold. The river is falling slowly at Memphis.

Galveston, Texas.—A general frost occurred throughout the interior of the State on the morning of the 24th, doing slight damage to tender crops. Along the coast line no frost was reported. Farm work is generally well advanced. Planting has been checked by threatening weather, but with favorable conditions will be rushed. We have had rain on two days during the week, the rainfall reaching seventy-nine hundredths of an inch. The thermometer has ranged from 51 to 79, averaging 65.

Palestine, Texas.—Rain has put ground in good condition, and crops are doing nicely. It has rained on two days of the week, to the extent of eighty-five hundredths of an inch. Average thermometer 62, highest 85 and lowest 38.

Huntsville, Texas.—We have had light rain on one day during the week to the extent of ten hundredths of an inch. The thermometer has averaged 59, the highest being 83 and the lowest 35.

Dallas, Texas.—White frost occurred on the 24th, probably injurious on low lands, but damage has not yet been ascertained. Farm work is well advanced. We had no rain during the week. The thermometer has averaged 55, ranging from 32 to 78.

San Antonio, Texas.—We have had rain on one day of the week, the precipitation reaching four hundredths of an inch. Light frost on Wednesday. The thermometer has ranged from 38 to 89, averaging 64.

Luling, Texas.—It has rained lightly on one day of the week, to the extent of six hundredths of an inch. Average thermometer 61, highest 88 and lowest 34.

Columbia, Texas.—Rain has fallen on one day of the week, the precipitation being fifty-five hundredths of an inch. Light frost on the 24th. The thermometer has averaged 60, the highest being 88 and the lowest 32.

Cuero, Texas.—The week's rainfall has been twenty-five hundredths of an inch on one day. The thermometer has averaged 61, ranging from 34 to 88.

Brenham, Texas.—Frost on the 24th. There has been rain on one day of the past week, the precipitation being fifty-two hundredths of an inch. The thermometer has ranged from 39 to 85, averaging 62.

Fort Worth, Texas.—We have had light rain on one day during the week, to the extent of one hundredth of an inch. The thermometer has averaged 56, the highest being 78 and the lowest 33.

Weatherford, Texas.—We have had light rain on one day during the week, to the extent of two hundredths of an inch. The thermometer has averaged 56, ranging from 32 to 80.

New Orleans, Louisiana.—We have had rain on four days of the past week, the rainfall reaching one inch and twenty-nine hundredths. Average thermometer 68.

Shreveport, Louisiana.—There has been rain on three days of the week, to the extent of one inch and ten hundredths. The thermometer has ranged from 38 to 86, averaging 62.

Columbus, Mississippi.—Rain has fallen on three days of the week, the precipitation being one inch and ninety-three hundredths. The thermometer has averaged 58, the highest being 80 and the lowest 36.

Leand, Mississippi.—The week's rainfall has been two inches and thirty-four hundredths. The thermometer has averaged 61.3, ranging from 38 to 82.

Vicksburg, Mississippi.—Planting operations are backward. We have had rain on one day of the past week to the extent of forty-seven hundredths of an inch. The thermometer has ranged from 43 to 84, averaging 64.

Little Rock, Arkansas.—There has been rain on four days during the week, the precipitation reaching one inch. Average thermometer 59, highest 82 and lowest 44.

Helena, Arkansas.—Plowing is in progress on high lands. The river is twenty-one inches above highest water mark and rising, and will probably rise another foot. A bad overflow on the west side to the Gulf is certain. There has been rain on one day of the week to the extent of eleven hundredths of an inch. The thermometer has averaged 56.5, the highest being 75 and the lowest 36.

Nashville, Tennessee.—Rain has fallen during the week, the precipitation being two inches and sixteen hundredths. The thermometer has ranged from 33 to 82, averaging 56.

Memphis, Tennessee.—Farm work is making progress. Light frost this morning. The river is now 36.55 feet on the gauge, which is ninety-five hundredths of a foot above the extreme high-water mark of 1890. Rain has fallen on two days of the week, the rainfall being two inches and fifty-four hundredths. Now clear and cool. Average thermometer 60.2, highest 79, lowest 39.9.

**HIGH WATER IN THE MISSISSIPPI.**—As a result of the extremely high stage of the water in the Mississippi River a considerable territory of low land on the west bank, in Arkansas, has been overflowed. At some points in Arkansas and Missouri the levees have given way, but at others the water has flowed over the top. A dispatch from our Memphis correspondent, as we go to press, states that the river there has fallen fifty-five hundredths of a foot since last Sunday; that the crest of high water has passed that point, and that there will from now on be a gradual decline, the water running off in time for late planting. Our correspondent further remarks that the danger now is to the country south of Helena, where great damage is being done through broken levees on the Arkansas side. The levees on the Mississippi side will probably hold.

**EXCHANGES.**—The following exohanges have been made during the week:

04 pd. to exoh. 100 Dec. for Jan.	13 pd. to exoh. 100 Apr. for Aug.
27 pd. to exoh. 100 Sept. for Aug.	15 pd. to exoh. 6,900 Apr. for Aug.
09 pd. to exoh. 800 May for Aug.	16 pd. to exoh. 203 Apr. for Aug.
10 pd. to exoh. 2,300 Nov. for Sept.	10 pd. to exoh. 800 Apr. for June
14 pd. to exoh. 500 Apr. for Aug.	13 pd. to exoh. 100 Mch. for July
08 pd. to exoh. 1,800 Apr. for June	15 pd. to exoh. 900 Apr. for July
04 pd. to exoh. 400 Apr. for May.	18 pd. to exoh. 700 Apr. for Aug.
05 pd. to exoh. 1,700 Apr. for May.	16 pd. to exoh. 1,000 Apr. for July
08 pd. to exoh. 4,600 May for July.	17 pd. to exoh. 400 Apr. for Aug.
01 pd. to exoh. 200 July for Aug.	07 pd. to exoh. 600 Apr. for May.
14 pd. to exoh. 200 Sept. for Aug.	08 pd. to exoh. 400 Apr. for May.
12 pd. to exoh. 200 Apr. for July.	09 pd. to exoh. 200 May for Aug.
30 pd. to exoh. 300 Oct. for May.	

**COMPASSIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.**—A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The monthly movements since September 1, 1896, and in previous years, have been as follows:

Monthly Receipts.	Year Beginning September 1.					
	1898.	1895.	1894.	1893.	1892.	1891.
Sept'mb'r	912,486	383,886	518,762	377,408	405,355	678,823
October..	1,468,516	1,202,460	1,622,664	1,311,279	1,135,473	1,532,428
Novemb'r	1,286,251	912,759	1,607,662	1,272,776	1,125,855	1,376,909
Decemb'r	1,258,000	987,899	1,407,560	1,239,738	930,029	1,215,144
January	635,978	548,118	938,197	687,028	438,457	685,162
February	404,976	441,778	533,398	330,504	291,848	658,855
Total...	5,964,107	4,476,898	6,718,243	5,218,723	4,324,817	6,125,319
Percentage of tot. port receipts Feb. 28...	82.99	85.23	87.23	84.40	85.58	

This statement shows that up to February 28 the receipts at the ports this year were 1,437,209 bales more than in 1895-96 and 751,133 bales less than in 1894-95. By adding to the totals to February 28 the daily receipts since that time we shall be able to reason an exact comparison of the movement for the different years.

	1898-97.	1895-96.	1894-95.	1893-94.	1892-93	1891-92.

Percentage of total port receipts Mob.28	87.86	90.97	90.86	88.06	90.15	

\* 14,980 bales added as correction of receipts since Sept. 1.

This statement shows that the receipts since Sept. 1 up to to-night are now 1,517,033 bales more than they were to the same day of the month in 1896 and 913,958 bales less than they were to the same day of the month in 1895. We add to the table the percentages of total port receipts which had been received to March 26 in each of the years named.

**JUTE BUTTS, BAGGING, &C.**—The market for bagging during the week under review has been quiet and prices are nominal at 4½c. for 1¼ lbs., 5c. for 2 lbs. and 5½c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4½c. for 1¼ lbs., 5c. for 2 lbs. and 5½c. for 2¼ lbs. f. o. b. at New York. Jute butts are also quiet at 1 1-16c. for shipping quality, 1.40c. for mixing and bagging, all to arrive.

**SHIPPING NEWS.**—The exports of cotton from the United States the past week, as per latest mail returns, have reached 80,810 bales.

	Total bales.

## BREADSTUFFS.

FRIDAY, March 26, 1897.

The market for wheat flour has continued in a very tame and uninteresting position. The volume of business transacted has been small, as buyers have been indifferent and have lowered their bids 5 to 10c. per barrel. Sellers, however, have only small stocks on hand and have held for old prices. City mills have had only a limited sale but values have held steady. Rye flour has had only a jobbing demand, and there has been an absence of tone to values. Corn meal has received only a very moderate amount of attention, but owing to the strength of the market for actual corn, prices have held steady.

There has been a quiet speculation in the market for wheat futures, and prices have weakened, showing a decline of 1½¢@2c. for the week. Saturday there was a quiet market, and under realizing sales by a few longs prices declined ¼¢@½¢. There was a moderate amount of activity to the trading on Monday, but it was at the expense of prices. Foreign advices came weaker, and longs were liquidating, under which there was a decline of 1½¢@2c. per bushel. Tuesday the market was stronger, advices were received from the winter-wheat belt reporting crop damage, and as they were accompanied by buying orders, it stimulated a demand from local shorts to cover contracts, and at the close prices showed an advance of ½¢@¾¢. for the day. Wednesday the market again turned easier in response to weaker foreign advices, closing at a fractional decline. Thursday prices lost ¼¢@¾¢. under liquidating sales by tired holders. To-day the market opened weaker, in response to easier foreign advices. Towards the close, however, there was an advance on unfavorable crop news, and final prices were 1½¢@1¾¢. up for the day. In the spot market only a limited volume of business has been transacted, and prices have weakened with futures. The sales to day included No. 3 hard winter at 78½¢. f.o.b. afloat. No. 1 northern Duluth was quoted at 84½¢. f.o.b. afloat and No. 2 red winter at 84½¢. f.o.b. afloat.

### DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
March delivery.....c.	82	80	80½	80½	80½	80½
May delivery.....c.	80½	79½	79½	79	78½	78½
June delivery.....c.				79		
July delivery.....c.	78½	77	77½	77½	77½	77½
September delivery...c	75½	74½	75½	74½	74½	74½

There has been only a very limited speculation in the market for Indian corn futures. Prices have weakened slightly in sympathy with the decline in wheat, but a material reduction in values has been checked by the small crop movement and poor grading of the receipts at the West. To-day the market was dull and without changes of an important nature. In the spot market business has been quiet, but owing to the poor grading prices have held relatively firm. The sales to day included No. 2 mixed at 29½¢. in elevator and No. 2 yellow at 30½¢. in elevator.

### DAILY CLOSING PRICES OF NO. 2 MIXED CORN

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
March.....c.	30½	29½	29½	29½	29½	29½
May delivery.....c.	30½	30½	30½	30½	30½	30
July delivery.....c.	32	31½	31½	31½	31½	31½
September delivery...c	33½	32½	32½	32½	32½	32½

Oat for future delivery have continued dull. Early in the week the market held steady. Subsequently, however, prices eased off a fraction in sympathy with the weaker markets for other grains. To-day the market was dull but steady. In the spot market a moderate volume of business has been transacted and values have ruled steady. The sales to-day included No. 2 mixed at 22½¢. in elevator and No. 2 white at 23½¢@24c. in elevator.

### DAILY CLOSING PRICES OF NO. 2 MIXED OATS

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	21½	21½	21½	21½	21½	21½
July delivery.....c.	22½	22½	22½	22½	22½	22½

Rye has had little call, but the feeding grades of barley have continued in fair export demand at steady prices.

## THE DRY GOODS TRADE

NEW YORK, FRIDAY, P. M., March 26, 1897

The evidences of a waning season have been more clearly marked during the past week in jobbing circles, where business has been on a more limited scale than for some time past, but yet the demand has been on quite a fair scale at both first and second hands for the time of year. Reports from local retailers and from the retail trade in other large cities are generally of an encouraging character, and from present appearance actual consumption promises to be of fuller volume this spring than last in the general run of merchandise. There has been no material change in the tone of the primary market so far as cotton goods are concerned, and in the absence of any new influence buyers are content to follow largely a hand-to-mouth policy, and sellers are content to fill such orders as come forward for quick deliveries at previous prices in all descriptions of staples and in most fancy lines. The situation in the woolen goods division has not undergone any material change. A fair business has been in progress at generally firm prices, but still the impending tariff changes exercise a limited influence. The financial conditions in the trade are generally satisfactory, regular payments being a feature.

**DOMESTIC COTTON GOODS.**—The exports of cotton goods from this port for the week ending March 23 were 3,292 packages, valued at \$148,769, their destination being to the points specified in the tables below:

NEW YORK TO MARCH 22.	1897.		1896.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain .....	419	1,357	13	498
Other European .....	531	1,146	37	1,116
China .....	124	19,824	109	16,999
India .....	4	667	.....	2,292
Arabia .....	400	4,749	.....	3,171

Mexico .....	32	579	.....	618
Central America .....	193	1,540	154	1,872
South America .....	578	13,909	426	11,377
Other Countries .....	63	1,263	23	739
Total .....	3,292	51,802	1,500	45,457
China, via Vancouver .....	.....	8,750	.....	7,317
Total .....	3,292	60,552	1,500	52,774

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$2,160,919 in 1897 against \$2,122,993 in 1896.

In some directions sellers of brown goods have not been quite so easy to deal with as before, but there has been no general improvement in the market nor have all weak spots

disappeared yet. Still the tone in the main is rather steadier and that without any material development in the demand. Drills are relatively steadier than sheetings. Brown ducks and o-naburgs continue dull and irregular. Ticks are steadier than for two or three weeks past as the result of some stocks being cleaned up at low prices. Denims are as easy to buy as before, but orders are more numerous. Other coarse, colored cottons are quiet and without special feature. Sales of bleached cottons have been of average character at previous prices. Wide sheetings quieter than of late. Cotton blanks in moderate request; new season's prices 5 to 7½ per cent lower than last season. Cotton flannels in moderate demand, but new prices not named yet. Kid-finished cambrics quiet but steady. Fancy prints in moderate demand, as are finer specialties. Regular prints, such as indigo blues, black and white, etc., are generally firm with fair sales. Gingham in quiet request for dress styles. Staples are irregular, with moderate sales. A large business has been done in print cloths this week and the market closes firmer, but not notably higher.

Stock of Print Cloths—	1897.	1896.	1895.	1894.
At Providence, 64 squares. ....	Mar. 20.	Mar. 21.	Mar. 23.	Mar. 24.
At Fall River, 64 squares. ....	.....	220,000	116,000	199,000
At Fall River, odd sizes. ....	.....	66,000	64,000	315,000
Total stock (pieces) .....	.....	1,350,000	287,000	591,000

\* By agreement among the cloth brokers no detailed statement of the print cloth market is made public.

**WOOLEN GOODS.**—Prospective tariff changes have not exercised an active influence over the market for men's-wear fabrics during the past week. They do not appear to have stimulated the demand to any extent, the business passing differing little in character from recent weeks and falling somewhat below the average for those. Buyers are pretty well through with their purchases of low-grade goods and this means the elimination of a considerable demand. In the better grades sales have been fair and the highest qualities have again shown results which compare favorably with those of several years past. The general tone of the market is firm, and in that connection the tariff has not been without effect. There has been a fair demand for overcoatings at steady prices and cloakings are selling more freely. Dress goods for fall are in fair request, with advances of 5 to 10 per cent quoted in some plain lines, such as sackings and cashmeres. Flannels are firm and slightly dearer in some grades. Blankets and carpets without change.

**FOREIGN DRY GOODS.**—There have been more orders taken for fall merchandise this week than last, and in woolen and worsted dress goods the market has had an upward tendency. Licens are 5 to 10 per cent higher. Silks firm and tending against buyers. Ribbons also firm. Hosiery and underwear without change.

## IMPORTATIONS AND WAREHOUSE WITHDRAWALS OF DRY GOODS.

The importations and warehouse withdrawals of dry goods at this port for the week ending March 25, 1897, and since January 1, 1897, and for the corresponding periods of last year are as follows:

Imports entered for consumption for the week and since January 1, 1897 and 1896.	Week Ending		Since Jan. 1, 1897.		Since Jan. 1, 1896.	
	Mar. 25, 1897.	Value.	Since Jan. 1, 1897.	Value.	Since Jan. 1, 1896.	Value.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

### Terms of Advertising.—(Per line space.)

One time.....	\$3 50	Three Months (13 times)...	\$25 00
One Month (4 times)...	11 00	Six months (26 times)...	43 00
Two Months (8 times)...	18 00	Twelve Months (52 times)...	58 00

The above terms for one month and upwards are for standing cards.

**Bond Proposals and Negotiations.**—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

**Ambler, Pa.—Bonds Proposed.**—This borough proposes to borrow \$25,000 for the purpose of improving the streets.

**Atlantic City, N. J.—Bond Offering.**—Proposals will be received until noon April 10, 1897, by A. M. Heston, City Comptroller, for the purchase of \$35,000 of 4½ per cent gold coupon bonds. The securities will be dated May 1, 1897; interest will be payable semi-annually at the Union National Bank, of Atlantic City, and the principal will mature May 1, 1927. The proceeds of this issue will be applied to the payment of matured or maturing city bonds, notes and certificates, now drawing 5 and 6 per cent interest. The denomination of the bonds will be \$1,000, and they are secured by a sinking fund. The bonded debt of Atlantic City on March 25, 1897, including this issue, was \$1,190,210; water debt, \$875,000; special assessment bonds, \$10,000; sinking fund, \$47,179; net debt March 25, 1897, \$259,031. The assessed valuations are: real, \$11,913,914; personal property, \$1,177,040; total, \$13,090,954; total tax rate per \$1,000, \$1.900. The actual valuation is estimated at about \$40,000,000, and the permanent population, according to local figures, is \$23,000.

**Arverne-by-the-Sea —Bond Offering**—On April 3, 1897, at 3 o'clock P. M., A. E. Karselen, village clerk, will sell at public auction \$45,000 of 5 per cent gold bonds. The securities will be dated May 1, 1897, and the interest will be payable semi-annually on the first days of May and November; \$5,000 of the bonds will be applied to dredging the Amstel Canal and will mature at the rate of \$1,000 per annum from May 1, 1915, to 1919 inclusive. The remainder of the securities are highway improvement bonds, and will mature at the rate of \$5,000 per annum from May 1, 1920 to 1927, inclusive. The securities will be of the denomination of \$1,000 each and will be issued in the form of coupon or registered bonds as the purchaser may desire.

*The official advertisement of this bond offering will be found elsewhere in this department.*

**Bamberg, S. C.—Bond Election.**—An election will be held in the town of Bamberg on April 13, 1897, to vote on issuing bonds to an amount not exceeding \$25,000. The securities, if authorized, will bear 7 per cent interest. A proposition to issue drainage bonds to the amount of \$1,200 will also be submitted to a vote of the people on the same date.

**Berkley, Va.—Bond Offering.**—Proposals will be received until April 15, 1897, by John Whetstone, Chairman of the Finance Committee, for the purchase of \$25,000 of 5 per cent permanent improvement bonds of this town. The securities will be of the denomination of \$1,000; interest will be payable semi-annually and the principal will mature in thirty years from date of issue. Each proposal must be accompanied by a certified check for 5 per cent of the amount bid for.

*The official advertisement of this bond offering will be found elsewhere in this department.*

**Boston, Mass.—Temporary Loan.**—This city has borrowed \$1,000,000, due in November, at about 3 per cent.

**Canton, O.—Bond Sale.**—On March 20, 1897, the following bids were received for the \$13,100 of 5 per cent street improvement bonds of this city:

Fourth National Bank, Columbus, Ohio.....	103 0
Seatongood & Mayer, Cincinnati, O.....	103 3
W. J. Hayes & Sons, Cleveland, Ohio.....	101 9
Rudolph Kleybolte & Co., Cincinnati, Ohio.....	101 5

Seven thousand seven hundred dollars of the securities are dated August 1, 1896, and the remainder April 1, 1897; interest is payable semi-annually by the City Clerk of Canton, of at the office of Kountze Bros., New York City, as the purchaser may desire. The bonds are of the denominations of \$300, \$100, \$600 and \$900, and will mature as follows: \$2,000 at the rate of \$400 every two years from August 1, 1898 to 1906 inclusive; \$5,400 at the rate of \$600 per annum from August 1, 1897 to 1905, inclusive; \$300 on August 1, 1906; \$5,400 at the rate of \$900 per annum from April 1, 1899 to 1903, inclusive.

**Charlotte, N. C.—Bonds Proposed.**—An ordinance authorizing Charlotte to issue \$250,000 of water-works bonds has been passed by the State Legislature.

**Chester, S. C.—Bond Election.**—In May, 1897, the question of issuing \$50,000 of bonds for the construction of water works and an electric-light plant will be determined by the citizens of Chester.

**Cleveland, Ohio —Bond Offering.**—Proposals will be received until 12 o'clock noon, April 20, 1897, by H. L. Roester, City Auditor, for the purchase of \$200,000 of 4 per cent sewer coupon bonds. Interest on the securities from Oct. 1, 1893, will be payable semi-annually on the first days of April and October, and the principal will mature Oct. 1, 1921, both principal and interest being payable at the American Exchange National Bank of New York City. The bonds will be of the denomination of \$1,000 each. No bid for less than par and accrued interest will be considered, and each proposal must be accompanied by a certified check for 5 per cent of the amount bid for.

**Coatesville, Pa.—Bonds Authorized.**—It is reported that the citizens of Coatesville have voted in favor of issuing the proposed \$20,000 of water-works bonds.

**Columbus, Ga.—Bond News.**—The report that this city expects to issue \$50,000 of sewer and water-works bonds is incorrect.

**Concord, N. C.—Bonds Proposed.**—The city of Concord proposes to issue water-works and street improvement bonds to the amount of \$40,000.

**Durham, N. C.—Bonds Proposed.**—Water bonds of Durham to the amount of \$150,000 are under consideration and an election will be held soon to vote on the question of issuing the same.

**East Orange, N. J.—Bonds Proposed.**—This municipality expects to issue \$60,000 of school-house bonds.

**Escanaba, Mich.—Bonds Proposed.**—It is reported that water-works bonds to the amount of \$125,000 will be issued by the city of Escanaba.

**Gaston County, N. C.—Bonds Proposed.**—This county proposes to issue court-house bonds to the amount of \$25,000, and an election will be held to vote on the question of issuing the same.

**Hartford, Conn.—Bond Sale.**—This city has sold \$270,000 of 3½ per cent refunding bonds to R. L. Day & Co., of Boston, Mass., at 103 2/10.

**High Point, N. C.—Bond Election.**—City Secretary and Treasurer E. N. Snow reports to the CHRONICLE that the election to vote on the question of issuing \$10,000 of school bonds will be held on May 3, 1897. The securities, if authorized, will bear interest at the rate of 6 per cent.

**Holden, Mo.—Bond Sale.**—On March 16, 1897, the \$12,000 of 5 per cent electric-light bonds of this city were sold to the Bank of Holden at par.

The securities are dated April 1, 1897, interest is payable semi-annually on the first days of April and October, at the office of the City Treasurer of Holden or any bank designated by the purchaser in St. Louis or Kansas City, Mo. The principal will mature in five to twenty years from date of issue.

This issue of bonds comprises the only bonded debt of the city. The assessed valuation (estimated at about two-thirds of the actual value) is \$930,222; the population in 1895 was 3,049.

**Hollister, Cal.—Bonds Proposed.**—Hiram Pond, Deputy Town Treasurer, reports to the CHRONICLE that the town of Hollister proposes to issue serial bonds to the amount of \$35,000 for the construction of a sewer system. The securities, if authorized, will be of the denomination of \$875 each; they will be dated June 1, 1897; 6 per cent interest will be payable semi-annually, and the principal will mature at the rate of one-fortieth yearly. A special tax will be levied each year for the payment of the bonds.

**Hudson County, N. J.—Bond Offering.**—Proposals will soon be received by Hudson County for the purchase of \$327,000 of boulevard-improvement bonds. The securities will bear interest at the rate of 4 per cent, \$127,000 of the principal will mature in five years, and the balance in thirty years from date of issue.

**Jamaica, N. Y.—Bond Issue.**—This village has decided to issue 4 per cent, twenty-year bonds to provide for a new sewer system, which is to cost about \$150,000.

**Laurel, Md.—Bond Offering.**—The improvement bonds of this town to the amount of \$11,000 are now being offered for sale. They will bear interest at the rate of 5 per cent and will mature in 1907.

**Lima, Ohio.—Bonds Voted.**—City Clerk C. E. Lynch reports to the CHRONICLE that at an election held in Lima on March 18, 1897, the question of issuing improvement bonds to the amount of \$98,000 was carried by a large majority, and that the subject will next come before the City Council for final action.

**Los Gatos, Cal.—Bonds Proposed.**—It is reported that this town proposes to issue bonds for the construction of a sewerage system.

**Louisville, Ky.—Bond Offering.**—Proposals will be received until 12 o'clock noon, April 1, 1897, by the Commissioners of the Sinking Fund for the purchase of \$588,000 of 4 per cent refunding gold bonds of this city. The securities will be dated April 1, 1897; interest will be payable semi-annually on the first days of April and October, and the principal will mature April 1, 1937, both principal and interest being payable at the National Bank of the Republic of New York City. The bonds will be of the denomination of \$1,000 each. Each proposal must be accompanied by a certified check for 1 per cent of the amount bid for.

The city at the present time has no floating debt. The total bonded debt, including this issue, is \$8,714,000; sinking fund, \$317,500; net debt, \$3,396,500; water debt (additional), \$943,932. The assessed valuation for 1897 is: Real estate, \$88,985,000; personal property, \$28,715,000; total, \$117,700,000; tax rate (per \$1,000), \$18 50. The real valuation is estimated at about \$200,000,000. The population at the present time is estimated at 210,000.

The official advertisement of this bond offering will be found elsewhere in this Department.

**Loveland, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock, noon, April 12, 1897, by Harry W. Brock, Village Clerk, for the purchase of \$4,000 of 6 per cent steam fire engine bonds. The securities will be dated April 1, 1897, interest will be payable annually and the principal will mature at the rate of \$400 every two years, beginning with April 1, 1899, both principal and interest being payable at the National Lafayette Bank of Cincinnati, Ohio. The bonds will be of the denomination of \$400 each. Each bid must be accompanied by a certified check for \$100, payable to the order of the Village Treasurer.

**Lynn, Mass.—Bond Sale.**—On March 20, 1897, \$60,000 of 4 per cent ten-year bonds of this city were awarded to D. W. Howland & Co., of Boston, Mass., at 104-011. The other bids received were as follows:

Edgerly & Crocker.....	103-520
Jose Parker & Co., Boston, Mass.....	103-4897
Blodget, Merritt & Co., Boston, Mass.....	103-316
R. L. Day & Co., Boston, Mass.....	103-247
Blake Bros. & Co., Boston, Mass.....	103-270
Estabrook & Co., Boston, Mass.....	103-150
E. H. Rollins & Sons, Boston, Mass.....	103-080
E. C. Stanwood & Co., Boston, Mass.....	103-000

**McMinnville, Tenn.—Bonds Authorized.**—On March 15, 1897, the citizens of McMinnville voted to issue bonds to the amount of \$30,000 for the construction of water works and an electric-light plant.

**Montgomery, Ala.—Bond Sale.**—This city has issued \$15,000 of 5 per cent paving bonds. The securities are of the denomination of \$500 each and mature at the rate of \$25 per annum.

**Monroe, N. C.—Bond Election.**—An election will be held in Monroe to decide the question of issuing \$100,000 of water-works bonds.

**New Haven, Conn.—Temporary Loan.**—The Boston News Bureau reports that New Haven has borrowed \$350,000 in anticipation of taxes from the Mutual Life Insurance Company of New York at 3½ per cent.

**New York.—Bond News.**—The Governor has signed the bill exempting from taxation State bonds issued to pay for the \$9,000,000 canal improvement.

**Bond Offering.**—Proposals will be received until 12 o'clock noon April 20, 1897, by James A. Roberts, State Comptroller, for the purchase of \$3,000,000 of 3 per cent gold canal improvement bonds. Interest on the securities from January 1, 1897, will be payable semi-annually on the first days of January and July at the Bank of the Manhattan Company of New York City, and the principal will mature January 1, 1912. The bonds are exempt from taxation; they are secured by a sinking fund and are to be issued in the form of coupon or registered bonds, as the purchaser may desire. Each bid must be accompanied by a certified check for 1 per cent of the amount of the proposal.

The official advertisement of this bond offering will be found elsewhere in this Department.

**New York City.—Bond Sale.**—On March 23, 1897, Ashbel P. Fitch, City Comptroller, awarded the \$929,333 97 of 3 per cent school-house bonds to the Sinking Fund Commission at par. Interest on the securities will be payable semi-annually on the first day of May and November, and the principal will

mature November 1, 1916. No bid for less than par will be considered.

**Bonds Authorized.**—The Board of Estimate and Apportionment has decided to issue \$1,256,741 98 of bonds to pay for the property acquired for Fort Washington Park and has authorized an issue of \$339,461 of bonds to pay for the new court house for the Appellate Division of the Supreme Court.

The Governor has signed a bill authorizing New York City to issue \$2,000,000 of additional paving bonds.

**Bond News.**—The bill authorizing New York City to issue \$2,500,000 of bonds to provide funds for the erection of a library building to contain the Astor, Lenox and Tilden libraries has been passed by the Assembly.

**North Adams, Mass.—Bond News.**—The \$300,000 loan of this city was placed with the Commonwealth of Massachusetts, and will bear interest at the rate of 3¼ per cent instead of 4 per cent as reported last week.

**Nevada City, Cal.—Bond News.**—At the April session a special tax will be levied by the County Supervisors for the payment of the \$10,000 of school-house bonds voted some time ago by the citizens of Nevada City, after which time the securities will be advertised for sale. The loan will mature at the rate of \$2,000 annually.

**Ottumwa, Ia.—Bonds Authorized.**—At an election recently held in this city the people voted to issue bonds to pay the cost of erecting a new school building.

**Peabody, Mass.—Temporary Loan.**—On March 20, 1897, a temporary loan of \$80,000 of the town of Peabody was awarded to Webster F. Putnam & Co., of Boston, Mass., at 3-54 per cent interest.

The other bids received were:

	Per cent of Interest.	Premium.
Curtis & Motley, Boston, Mass.....	3-63	-----
Rogers, Newman & Tolman, Boston, Mass.....	3-75	-----
Jose Parker & Co., Boston, Mass.....	3-70	-----

**Pelham, N. Y.—Bond Issue.**—This municipality will shortly issue \$50,000 of 4 per cent twenty-year gold sewer bonds.

**Pontchartrain Levee District, La.—Bond Redemption.**—Proposals will be received until 11 o'clock A. M. April 20, 1897, by M. R. Spelman, President of the Board of Commissioners, for the redemption of \$27,000 of bonds of this district, which amount is to include not less than \$5,000 of the fifty-year bonds. No bids above par will be considered.

**Portland, Me.—Temporary Loan.**—Proposals will be received until 12 o'clock noon, April 7, 1897, at the office of City Treasurer Geo. H. Libby for the discount of notes of this city for the following amounts: \$75,000, \$100,000, \$125,000, \$150,000 and \$200,000. The loan will be issued in anticipation of taxes in sums of \$1,000 or any multiple thereof, and the principal will be payable November 1, 1897, without grace, either in Boston or Portland.

**Portsmouth, Va.—Bond Offering.**—Proposals will be received until March 31, 1897, by this city, for the purchase of \$10,000 of paving bonds. The securities will bear interest at the rate of 5 per cent and the principal will mature in ten years from date of issue.

**Providence, R. I.—Bond Sale.**—On March 25, 1897, D. L. D. Granger, City Treasurer, received the following bids for the \$1,550,000 of 4 per cent bonds of this city.

Bidders—	Amount.	Bid.

Insurance Co. of North America.....	25,000	109-250
Isaac W. Sherrill.....	100,000	110-370

The bonds were awarded as follows: \$750,000 to the Commissioners of Sinking Funds of Providence, R. I.; \$350,000 to the Industrial Trust Co., of Providence, R. I.; \$550,000 to Kidder, Peabody & Co., and Blodget, Merritt & Co., of Boston, Mass. The aggregate of the bids was \$14,800,000; the average price of the successful bids, 114-7509; the net rate of interest 3-23 per cent. Two hundred and fifty thousand dollars of these securities are water bonds, \$300,000 sewer bonds, \$500,000 highway bonds and \$500,000 school bonds. The securities are dated April 1, 1897; interest is payable semi-annually on the first days of April and October, and the principal will mature April 1, 1927, both principal and interest being payable in gold. The loan is in the form of coupon or registered bonds as the purchaser may desire, the coupon bonds being payable, both principal and interest, at the office of the

City Treasurer of Providence or at the National City Bank of New York.

The total indebtedness of the city on March 1, 1897, was \$16,814,828; sinking funds, \$3,530,979; net debt, \$13,283,849. The assessed valuation for 1896 was \$174,232,500; tax rate (per \$1,000), \$16.50. The population for 1897 is estimated at 154,000.

**Bonds Proposed.**—Bonds of Providence to the amount of \$600,000 are under consideration.

**Put-in-Bay, Ohio.**—**Bond Offering.**—Proposals will be received until 7:30 P. M., April 15, 1897, by Geo. F. Miller, Village Clerk, for the purchase of \$9,038 75, of 6 per cent park bonds. The securities will be dated April 15, 1897, interest will be payable semi-annually and the principal will mature as follows: \$1,038 75 on April 15, 1902, and \$8,000 at the rate of \$1,000 every two years from April 15, 1904 to 1918 inclusive, both principal and interest being payable at The Union Savings Bank Company of Toledo, Ohio. The bonds will be of the denomination of \$1,000 except one bond of \$1,038 75. No bid for less than par and accrued interest will be considered.

**Queens County, N. Y.**—**Bond Offering.**—Proposals will be received until 12 o'clock noon, March 29, 1897, by Chas. L. Phipps, County Treasurer, for the purchase of \$618,000 of 4 per cent gold road bonds. The securities will be of the denomination of \$500 each; interest will be payable semi-annually on the first days of April and October at the office of the County Treasurer, and the principal will mature April 1, 1917. The loan will be issued in the following series: Series H, \$50,000; Series I, \$60,000; Series K, \$45,000; Series L, \$45,000; Series M, \$17,000; Series N, \$70,000; Series O, \$7,000; Series P, \$75,000; Series Q, \$27,000; Series R, \$40,000; Series S, \$60,000; Series T, \$55,000; Series U, \$17,000; Series V, \$50,000.

Each proposal must be accompanied by a certified check for 10 per cent of the amount bid for, or if the bid be for an amount exceeding \$100,000, a check for \$10,000 will be accepted. The bonded indebtedness of the county at the present time does not exceed \$1,231,000. The assessed valuation of real and personal property as of December, 1896, is \$85,345,111.

**Rensselaer County, N. Y.**—**Bond Sale.**—On March 25, 1897, John Den, County Treasurer, received the following bids for the \$100,000 of 3½ per cent sinking fund bonds of this county:

Bidders	Amount.	Bid.
Troy City National Bank, Troy, N. Y.	\$100,000 (maturing 1898)	100-24
Troy City National Bank, Troy, N. Y.	\$100,000 (maturing 1899)	100-48
Troy City National Bank, Troy, N. Y.	\$100,000 (maturing 1900)	100-71
United National Bank, Troy, N. Y.	\$100,000 (maturing 1901)	100-56
United National Bank, Troy, N. Y.	\$100,000 (maturing 1902)	100-65
Troy Savings Bank, Troy, N. Y.	\$50,000 (maturing 1903 to 1907 Incl.)	101-05
Jas. W. Longstreet & Co., Boston, Mass.	\$100,000	100-263
Isaac W. Sherrill, Poughkeepsie, N. Y.	\$100,000	100-135
S. A. Kean, Chicago, Ill.	\$100,000	100-000

The bonds were awarded as follows: \$30,000 to the Troy City National Bank of Troy, N. Y.; \$20,000 to the United National Bank of Troy, N. Y.; and \$50,000 to the Troy Savings Bank of Troy, N. Y. The securities are dated April 1, 1897, interest is payable semi-annually on the first days of April and October, and the principal will mature at the rate of \$10,000 each year from April 1, 1898, to 1907, inclusive.

The loan is in the form of registered bonds of \$5,000 each and is part of an authorized issue of \$250,000. It is provided that all funds derived from the late County Treasurer, or from his property, or the proceeds of any action brought by the county by reason of any liability growing out of his defalcation, shall be held for the payment of the principal and interest on these bonds as they become due.

The total debt of the county, including this issue, is \$747,000 and the assessed valuation for 1896, \$79,013,577. The population for 1890 was 124,511.

**Richmond County, N. Y.**—**Bond Offering.**—Proposals will be received until 1 o'clock P. M. April 14, 1897, by the County Board of Supervisors, Stapleton, N. Y., for the purchase of \$190,000 of gold road improvement bonds, each bidder to state the rate of interest upon which his offering is based. The securities will be dated June 1, 1897, interest will be payable semi-annually and the principal will mature June 1, 1922. The securities will be of the denomination of \$1,000 each and will be issued in the form of coupon or registered bonds, as the purchaser may desire.

Bids will also be received in the same manner at the same time and place by the Board of Supervisors for the purchase of \$12,000 of gold road improvement bonds of this county. The securities will be issued in the same form as those described above.

**St. Paul, Minn.**—**Temporary Loan.**—This city has awarded \$50,000 of 4 per cent certificates of indebtedness to the First National Bank of St. Paul, Minn.

The securities are issued in anticipation of the collection of the taxes for 1897; they are dated March 15, 1897, interest is payable semi-annually and the principal will mature June 15, 1898. The certificates are of the denomination of \$500 each.

**Sandusky, Ohio.**—**Bond Sale.**—On March 24, 1897, the following bids were received for the \$14,000 of water-works refunding bonds of this city:

N. W. Harris & Co., Chicago, Ill.	\$15,003 50
Ohio Savings Bank, Columbus, Ohio	14,940 00
Diez, Deussen & Prior, Cleveland, Ohio	14,970 20
Seamond & Mayer, Cincinnati, Ohio	14,960 00
W. J. Hayes & Sons, Cleveland, Ohio	14,939 40
Farror, Leach & Co., Chicago, Ill.	14,933 00
The Lamproct Bros. Co., Cleveland, Ohio	14,911 50
Rudolph Kleybulte & Co., Cincinnati, Ohio	14,908 00
C. H. White & Co., New York, N. Y.	14,875 00
Fourth National Bank, Columbus, Ohio	14,855 00
Mason, Lewis & Co., Chicago, Ill.	14,827 40
Spitzer & Co., Toledo, Ohio	14,766 50
S. H. Kean, Chicago, Ill.	14,103 75

The securities bear interest at the rate of 5 per cent and mature in from nine to thirteen years from date of issue.

**Southington, Conn.**—**Bond News.**—A proposition made by the Southington Savings Bank to accept the town's interest-bearing orders at 4 per cent will be discussed at the next town meeting. If this proposition is accepted the \$100,000 of bonds now under consideration to fund the town's indebtedness will not be issued.

**Sanbury, Pa.**—**Bond Sale.**—It is reported that this municipality has sold \$15,000 of 4 per cent bonds at 100-50.

**Turlock Irrigation District, Cal.**—**Bond Sale.**—Bonds of this district to the amount of \$472,500 have been sold to Robert Fredericks, of San Francisco, Cal., at 90. The securities are dated January 1, 1893; interest at the rate of 6 per cent is payable semi-annually and the principal will mature in from ten to twenty years from date of issue.

**Waltham, Mass.**—**Bond News.**—The \$30,000 of 4 per cent water bonds to be issued by the city of Waltham will mature April, 1917. City Treasurer E. J. Sanderson writes that the date of sale has not yet been determined.

**Watertown, Mass.**—**Temporary Loan.**—Proposals will be received until 12 o'clock noon to-day for the discount of \$120,000 of six months' notes of this town.

**Wallingford, Conn.**—**Bond Sale.**—On March 23, 1897, the following bids were received for the \$30,000 of coupon sinking fund bonds offered for sale by the city of Wallingford:

Geo. A. Fernald & Co., Boston, Mass.	106-639
Columbia Trust Co., Middletown, Conn.	105-920
E. H. Gay & Co., Boston, Mass.	105-860
R. L. Day & Co., Boston, Mass.	105-349
Lee, Higginson & Co., Boston, Mass.	105-270
Deltz, Denison & Prior, Boston, Mass.	105-185
N. W. Harris & Co., Boston, Mass.	105-159
Street, Wykes & Co., New York, N. Y.	105-070
C. H. White & Co., New York, N. Y.	104-910
E. H. Rollins & Sons, Boston, Mass.	104-739
E. W. Jones Co., New York, N. Y.	104-600
E. D. Shepard & Co., New York, N. Y.	102-930
Farror, Leach & Co., New York, N. Y.	102-540
E. C. Stanwood & Co., Boston, Mass.	102-170
S. A. Kean, Chicago, Ill.	100-000

The loan was awarded to Geo. A. Fernald & Co. The bonds bear interest at the rate of 4 per cent, and the principal will mature in thirty years from date of issue.

**Bond Offering.**—Bids will be received until April 5, 1897, by this town for the purchase of \$40,000 of 4 per cent 30-year school district bonds.

**Westfield, Mass.**—**Bonds Proposed.**—Water bonds of Westfield to the amount of \$100,000 are under consideration, and the question of issuing the same will be decided at the town meeting in April next.

**West Springfield, Mass.**—**Bond Sale.**—This city has awarded \$165,000 of 4 per cent thirty-year bonds to E. C. Stanwood & Co., of Boston, Mass., at 103-599. The other bids received were:

R. L. Day & Co., Boston, Mass.	108-567
Blake Bros. & Co., Boston, Mass.	108-440
Estabrook & Co., Boston, Mass.	104-150
E. H. Rollins & Sons, Boston, Mass.	107-779
Cushman, Fisher & Phelps, Boston, Mass.	107-737
E. H. Gay & Co., Boston, Mass.	107-698
Geo. A. Fernald & Co., Boston, Mass.	107-650
Jas. W. Longstreet & Co., Boston, Mass.	107-575
N. W. Harris & Co. and Farror, Leach & Co., New York, N. Y.	107-559
Leland, Fowler & Co., Boston, Mass.	107-430
Blodget, Merrill & Co., Boston, Mass.	106-860

**West Point, Miss.**—**Bond Sale.**—On March 15, 1897, the \$20,000 of water bonds of this city were sold at par. The securities are dated May 1, 1897; they bear interest from June 1, 1897, at the rate of 6 per cent, payable semi-annually on the first days of June and December, and the principal will mature May 1, 1917.

**White County, Ill.**—**Bond Call.**—Notice has been given by L. S. Blue, County Treasurer, that \$150,000 of bonds of this county have been called for payment on April 1, 1897, at the American Exchange National Bank of New York City, after which date they will cease to bear interest. The securities are of the denomination of \$500 each, numbered from 1 to 300, inclusive, dated July 1, 1885, payable July 1, 1915, and subject to call after ten years from date of issue.

The official advertisement of this bond call will be found elsewhere in this Department.

**White Sulphur Springs, Mont.**—**Bond Election.**—A proposition to issue bonds for the purpose of constructing water-works will be put to a vote of the people of this municipality in the spring.

**Wilmington, Del.**—**Bonds Proposed.**—Bridge and sewer bonds of this city to the amount of \$125,000 are under consideration.

**TAX FREE.**—Certain loans of the city of Brooklyn are exempt from taxation, and where the fact is known to us we have added a paragraph mark (¶) to the title of the loan. The school building bonds are exempt from local tax only.

**INTEREST.**—Interest is paid in Brooklyn.

**TOTAL DEBT, SINKING FUNDS, ETC.**

	Mar. 1, 1897.	Jan. 1, 1896.	Jan. 1, 1895.
Ordinary debt		\$38,028,161	\$35,207,161
Water debt		16,196,000	15,946,000
Temporary debt		700,000	2,229,361
Tax certificates		2,804,361	1,200,000
Total debt	\$63,533,258	\$57,728,522	\$54,582,522
Sinking funds	5,985,160	5,691,522	4,473,522
Net debt	\$57,548,097	\$52,037,000	\$50,109,000

**SINKING FUND.**—The sinking fund is invested in the city's own bonds, those issues marked with "s. f." in the table above being held entirely by this fund.

**ASSESSED VALUATION.**—Improved real estate is assessed at about 70 p. c. of its actual value and unimproved at about 50 p. c.

Years.	Real.	Personal.	Total.	Rate of Tax per \$1,000
1896	\$339,444,986	\$15,658,728	\$555,103,714	\$27.40
1894	525,782,827	16,441,253	542,204,080	26.50
